Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, under the provisions of ORS 366.460, the State Highway Commission may construct and maintain within the right of way of any state highway, or section thereof, sidewalks or footpaths when it appears that such is necessary in the public interest and will contribute to the safety of pedestrians, the motoring public or persons using the highway, and

WHEREAS, it has been proposed that a footpath be constructed along the Tiller-Trail Secondary Highway, No. 230, in the community of Day's Creek along the easterly side of said highway from a point 50 feet southerly of the post office (M.P. 7.68) to a point 50 feet north of the Day's Creek Public School access (M.P. 7.76), and

WHEREAS, investigation discloses that there is considerable pedestrian traffic along the said highway at this location generated by travel to and from the post office and the grade school and that construction of said footpath would result in removing pedestrian travel from the highway,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission:

1. That construction of a footpath along the easterly side of the Tiller-Trail Secondary Highway in the community of Day's Creek from a point 50 feet south of the Day's Creek post office (M.P. 7.68) to a point 50 feet north of the Day's Creek public school access at Milepost 7.76 is necessary in the public interest and will contribute to the safety of pedestrians, the motoring public and persons using the highway.

2. That the State Highway Engineer is hereby directed to proceed with the construction of said footpath.

3. That this resolution be entered in the minutes and records of this Commission as of the 17th day of December, 1956, as Footpath Construction Resolution No. 4.

EXHIBIT "L"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Camp Creek-Paulina Unit of the Post-Paulina Section on the Paulina Secondary Highway in Crook County, and in connection therewith to prepare maps showing the route and location of said section and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Camp Creek-Paulina Unit of the Post-Paulina Section of the Paulina Secondary Highway, beginning at Highway Engineer's Station 0+00, approximately one-half mile east of Camp Creek, and extending in an easterly direction to Highway Engineer's Station 592+38 in the community of Paulina, together with the map, which for identification purposes bears Map File Nos. 8B-4-2 and 8B-4-3 (Drawing No. 1R-5-959) and the date of December, 1956, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.*

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

The maps mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem being filed under File No 147 under the heading "Survey Resolutions" and said maps by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-1"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Odell Secondary Highway

Highway number 282 Route number none

Location of Termini				Established Speed
M.P.		to M.P.		MPH
1.66	(750' north of the road to Dee)	2.17	(250' north of the road to Dukes Valley)	40

EXHIBIT "M-1" (Cont)

Location of Termini				Established Speed
M.P.		to M.P.		MPH
2.17	(250' north of road to Dukes Valley)	2.75	(200' east of the road to Dukes Valley)	25

except that between M.P. 1.72 and M.P. 1.91 (450' south of the road to Dee) and between M.P. 2.52 and M.P. 2.71 (Road to Dukes Valley) the indicated speed shall be 20 miles per hour during the hours of school crossings as per provisions of subsection 1a of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 240 be entered in the minutes and records of the Commission as of the 17th day of December, 1956.

EXHIBIT "M-2"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the Odell Secondary Highway is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that on said Odell Secondary Highway, in the vicinity of the road to Dee, vehicles are parked on the shoulders of said highway at said location for extended periods of time; and

WHEREAS, there is a school crossing in this section and said shoulder parking interferes with sight distance of said school crossing; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking should be prohibited on said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of the Odell Secondary Highway No. 282 from M.P. 1.76 to M.P. 1.86 (250 feet north and 250 feet south of the road to Dee) creates a hazard to the traveling public and to pedestrians.

2. That in the opinion of this Commission the right of way of said highway in said location is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which in the opinion of the Commission should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the shoulders of the pavement on either side of said Odell Secondary Highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared on which signs shall be printed in plain letters the words "No Parking on Highway Shoulders".

EXHIBIT "M-2" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 154 be entered in the minutes and the records of the State Highway Commission as of the 17th day of December, 1956.

EXHIBIT "M-3"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Cascade Secondary Highway

Highway number 160 Route number ORE 213

Location of Termini		Established Speed
M.P.	to M.P.	MPH
10.22 (0.11 mile North of Jannsen Road)	10.93 (500 feet South of Clackamas Secondary Highway No. 171)	35

except that between M.P. 10.52 (300 feet North of Church Street) and M.P. 10.64 (300 feet South of Church Street) the indicated speed shall be 20 miles per hour during hours of school crossings as per provisions of subsection 1.a. of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 238 be entered in the minutes and records of the Commission as of the 17th day of December, 1956.

EXHIBIT "M-4"

Minutes of December 17 and 18, 1956

EXHIBIT "N-1"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the Old Oregon Trail is a primary highway and likewise a Federal-aid highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that on said Old Oregon Trail Highway in the town of Lime, Baker County, a hazardous condition is created by the parking of vehicles on a sharp curve at the entrance to a cement plant in said town; and

WHEREAS, parking of vehicles at said location creates traffic congestion and a hazard to pedestrians crossing the highway; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on the shoulders of said highway at said location.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on either side of said Old Oregon Trail Highway between M.P. 377.77 (Engineer's Station 2083+50) and M.P. 378.04 (Engineer's Station 2097+60) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of said Old Oregon Trail within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words "NO PARKING ON HIGHWAY SHOULDERS."

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 155 be entered in the minutes and records of the State Highway Commission as of the 17th day of December, 1956.

EXHIBIT "N-2"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the Cascade Secondary Highway is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that on said Cascade Secondary Highway south of Franklin Street near Portland, vehicles are parked on the shoulders of said highway south of the said intersection; and

WHEREAS, the parking of vehicles on said section restricts the sight distance for motorists who desire to enter said Cascade Secondary Highway from Franklin Street, which condition, in the opinion of the Highway Commission, creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on the east side of said Cascade Secondary Highway within said section;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the east side of the Cascade Secondary Highway from the south property line of Franklin Street (M.P. 4.43, Engineer's Station 196+60) to a point 60 feet south thereof (M.P. 4.45, Engineer's Station 197+20) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the traveling public.

3. That the Commission does further find and declare that the parking of vehicles on the east side of said Cascade Secondary Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING ON HIGHWAY SHOULDERS."

EXHIBIT "N-2" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 156 be entered in the minutes and records of the State Highway Commission as of the 17th day of December, 1956.

EXHIBIT "N-3" 27615

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the Oregon Coast Highway is a primary highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that in the vicinity of Harriet Street, a short distance south of Coos Bay, vehicles are parked on the southerly shoulders of said Oregon Coast Highway; and

WHEREAS, the parking of vehicles on said highway section creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on the southerly side of said highway within said section;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the southerly side of the Oregon Coast Highway from a point 110 feet west of Harriet Street (M.P. 239.29, Engineer's Station 2+72) to the west property line of Harriet Street (M.P. 239.32, Engineer's Station 3+82) creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the southerly side of said Oregon Coast Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING ON HIGHWAY SHOULDERS."

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 157 be entered in the minutes and records of the State Highway Commission as of the 17th day of December, 1956.

EXHIBIT "O-1"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its

discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this seventeenth day of December, 1956, as Condemnation Resolution No. 697.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 697, under the heading "Real Property Condemnation Resolutions", and said description map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27620

EXHIBIT "O-2"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system, and right of way for a haul road to be used as a means of access thereto; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "O-2" (Cont)

2. That the highway facilities for which the said parcel of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December 1956, as Condemnation Resolution No. 698.

---

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 698, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27622

EXHIBIT "O-3"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Davis Slough-Bandon Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties

EXHIBIT "O-3" (Cont)

hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certian parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trail of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission,

is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December, 1956, as Condemnation Resolution No. 699.

---

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 699 under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "O-4"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Mosier-The Dalles Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real

properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Mosier-The Dalles Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Mosier-The Dalles Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "O-4" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December, 1956, as Condemnation Resolution No. 700.

---

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 700, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27628

EXHIBIT "O-5"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public

welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "O-5" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December, 1956, as Condemnation Resolution No. 701.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 701, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "O-6"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Pendleton-Pilot Rock Section of the Pendleton-John Day Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "O-6" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the widened and improved Pendleton-John Day Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the widening, construction, improvement and maintenance of the said Pendleton-Pilot Rock Section of the Pendleton-John Day Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Cheif Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December, 1956, as Condemnation Resolution No. 702.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 702, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "O-7"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part and relocate in part, construct, improve, and maintain the Cornelius-Hillsboro Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the widening in part, relocation in part, construction, improvement and maintenance of the said Cornelius-Hillsboro Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective

file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Tualatin Valley Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Cornelius-Hillsboro Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December, 1956, as Condemnation Resolution No. 703.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 703, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "O-8" 2763

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part

of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AN IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to

final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December, 1956, as Condemnation Resolution No. 704.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 704, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27638

EXHIBIT "O-9"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain The Dalles-California Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said The Dalles-California Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the widening, improvement and maintenance of the said The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December, 1956, as Condemnation Resolution No. 705.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 705, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27640

EXHIBIT "O-10"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will serve the traveling public, the Highway Commission has relocated, constructed, improved and is maintaining the Siletz-Newport Section of the Oregon Coast Highway; and

WHEREAS, for the purpose of relocation, construction, improvement and maintenance of the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and for right of way purposes for the relocated, constructed and improved Siletz-Newport Section of the Oregon Coast Highway, fee simple title to the following described real property, to wit:

File No. R-4251

A parcel of land lying in Lot 4, of Section 5, Township 10 South, Range 11 West, Willamette Meridian, Lincoln County, Oregon, and being a portion of the following described property: that tract of land which was conveyed by that certain

deed to F. R. Salway, recorded in Book 41, Page 121 of Lincoln County Record of Deeds. The said parcel being all that portion of the foregoing described property included in a strip of land 150 feet in width on the Easterly side of the center line and on the Westerly side all of the said property lying between the high tide line of the Pacific Ocean and the said center line of the Oregon Coast Highway as said highway has been relocated over and across or adjacent to the said property; the location of the said strip of land (in so far as it encroaches upon said property) being determined by the said center line from Station 726+14 to Station 739+66.8 which portion of center line is described as follows:

Beginning at a point which is Engineer's center line Station 726+14 opposite and 150 feet distant from which point the Easterly line of the said strip of land intersects the North line of said Lot 4; said point being 3955 feet South and 2055 feet West of the Northeast corner of Section 5, Township 10 South, Range 11 West, Willamette Meridian, thence South 5° 50' West, a distance of 1259.7 feet; thence on a spiral curve to the left (the long chord of which bears South 5° 49' West, 93.1 feet) a distance of 93.1 feet to Engineer's center line Station 739+66.8, opposite and 100 feet distant Westerly from which Station the Noon High Tide Line of the Pacific Ocean intersects the South line of said Section 5.

The parcel of land to which this description applies contains 4.70 acres outside the strip of land known as the Spruce Production Railroad right of way which contains 2.68 acres.

2. That the relocation, construction, improvement and maintenance of the said Siletz-Newport Section of the said Oregon Coast Highway and the highway facilities for which the said parcel of property is required and has been taken is necessary in the public interest, and the same has been planned, designed, located and has been constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December, 1956, as Condemnation Resolution No. 706.

EXHIBIT "O-11"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Willamina-Salem Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Willamina-Salem Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "O-11" (Cont)

2. That the relocation, construction, improvement and maintenance of the said Willamina-Salem Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 17th day of December, 1956, as Condemnation Resolution No. 707.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 707, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "P"

Minutes of December 17 and 18, 1956

RESOLUTION

WHEREAS, the late Governor Paul L. Patterson with the approval of the Oregon State Highway Commission and the Oregon Legislature's Interim Committee on Highways and in order that the Executive Department and the Legislature would be more fully informed concerning the administration of state parks in Oregon, did request Mr. William M. Tugman as Chairman, Mr. Ralph R. Cronise, Mr. J. W. Forrester, Jr., Mr. Herb Grey, Mr. George M. Henderson, Mr. Frank Jenkins, Mr. Fred E. Kiddle, Mr. Frank H. Loggan, Mr. Robert C. Notson, Mr. Arden X. Pangborn, Mr. Arch B. Sanders, since deceased, and Mr. Charles V. Stanton, all being members of the Oregon State Highway Department's Advisory Committee on Travel Information, to make such a study during the interim between the 1955 and the 1957 legislative sessions; and

WHEREAS, after lengthy discussion and due consideration, the committee decided to undertake the study referred to above, and therefore, adopted the following six point plan to guide its inquiries:

1. To ascertain what other states are doing in the development and management of state park systems.

2. To compile a summary statement of the present status of the state parks of Oregon -- number, locations, character of facilities, etc.

3. To prepare a breakdown showing expenditures, past and present, on the Oregon parks.

   (a) For maintenance.
   (b) For management.
   (c) For acquisition and planning.

4. To prepare plans for publicizing the state parks with the idea of increasing use for the traveling public.

5. To arrange hearings to learn the public's desires with reference to state parks.

6. To prepare recommendations with reference to what new machinery is needed, if any, for the future development and management of state parks under the Highway Commission, or otherwise; and

EXHIBIT "P" (Cont)

WHEREAS, the committee submitted a report to the Governor, Legislative Highway Interim Committee, and the Oregon State Highway Commission on July 16, 1956, setting forth the results of its inquiry and study and its recommendations; and

WHEREAS, the individual members of the Oregon State Highway Department's Advisory Committee, in addition to their duties on the Advisory Committee on Travel, and without pay, spent a great deal of time traveling and inspecting state parks in Oregon, Washington, and California; interviewing state park officials in this state and neighboring states; holding public hearings; and studying, discussing and formulating the material and recommendations set forth in the Committee's report to the Governor;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. We, for and on behalf of the State of Oregon in general, and for the Highway Department in particular, hereby acknowledge with due appreciation the valuable, able, conscientious, and time-consuming service rendered to the State of Oregon by the Oregon State Highway Department's Advisory Committee as a whole, and by each member, Mr. William M. Tugman, Chairman, Mr. Ralph R. Cronise, Mr. J. W. Forrester, Jr., Mr. Herb Grey, Mr. George M. Henderson, Mr. Frank Jenkins, Mr. Fred E. Kiddle, Mr. Frank H. Loggan, Mr. Robert C. Notson, Mr. Arden X. Pangborn, the late Mr. Arch B. Sanders, and Mr. Charles V. Stanton, and we hereby record official recognition of this service.

2. A certified copy of this resolution be delivered to each of the above-named men.

3. That this resolution be entered in the minutes and records of this Commission as of the 18th day of December, 1956, as State Parks Resolution No. 10.

		WASHO. Houston, Texas, June 11-15, 1957. Selection of officials to attend meeting.
28027		TRAVEL - OUT OF STATE authorized for: G. S. Paxson to La Salle, Illinois, April 12, 1957, for Bridge Advisory Panel of AASHO Road Test. G. S. Paxson to Ames, Iowa, May 7-9, 1957, Iowa State College, for discussion of prestressed concrete. W. C. Williams to La Salle, Illinois, for AASHO Advisory Board meeting. Discussion of funds for travel expenses.
		SPEED ZONES ESTABLISHED as follows: Marion County. Jefferson Secdy. Hwy. Jefferson north. See EXHIBIT "E-1". Washington County. Beaverton-Tualatin Secdy. Hwy. Beaverton-Tigard Section. See EXHIBIT "E-2".
28028		WASHINGTON COUNTY. Beaverton-Aurora Secdy. Hwy. Scholls Secdy. Hwy. Jct. Through hwy. designation. Removal of stop sign approved.
		MULTNOMAH COUNTY. Pacific Hwy. East. Oregon Slough Bridge. Agreement with Peninsula Drainage District re dike approved.
		COMMISSION MEETING DATES set for April 19, regular, and May 16-17 and June 27-28, 1957, tentative.
		MALHEUR COUNTY. Owyhee Reservoir. Report on road and park improvements.

Page	Date 1957	Subject
28028	Mar.28	HARNEY COUNTY. Request for traffic signals as follows: Central Oregon Hwy. Burns east. RR Crossing. Denied. Burns-Crane Hwy. Burns. RR Crossing. Denied. Burns. Broadway St.-Monroe St. Jct. Flashing beacon approved.
28029		MULTNOMAH COUNTY. Portland. Interstate System. Planimetric map of Portland area authorized. BPR to handle.
		MARION-LINN COUNTIES. Pacific Hwy. East. North Jefferson Jct.-SPRR Overcrossing Unit. Throughway agreements approved.
		WALLOWA COUNTY. Enterprise-Lewiston Hwy. Payment to BPR for hwy. maintenance approved.
		UMATILLA COUNTY. Pendleton. Frazier Street. Request for cooperation in widening project denied.
28030		DOUGLAS COUNTY. Oregon Coast Hwy. Gardiner south. Longbell Lbr. Co. Log Dump. Permission granted to make improvements. No shoulder parking zone established. See EXHIBIT "F-2".
		UNION COUNTY. Old Oregon Trail. Ladd Canyon Section. County Sand Shed. Request for access to be investigated.
		DELEGATION PROBLEMS discussed.
		CONTRACTS. Award of contracts publicly announced.
28032		AGREEMENTS and other papers signed.
28034		COMMISSION MEETING ADJOURNED at 4:00 p.m.
	Mar.29	COMMISSION MEETING RECONVENED at 9:00 a.m.
28035		BEN R. CHANDLER. Retirement as Chairman of Commission announced.
		BIDS received on construction projects.
28039		COOS-DOUGLAS COUNTIES. Coos Bay-Roseburg. Hwy. Myrtle Point-Camas Valley Section. Hwy. improvement to be considered.
		JACKSON COUNTY. Pacific Hwy. Ashland By-pass (proposed). Siskiyou Blvd. widening to be investigated. Mountain Avenue Interchange. No action.
28040		CLACKAMAS COUNTY. Delegation requests considered: Marion County. Portland-Salem Expressway. Hayesville Interchange. Additional signs re tourist facilities on old route. Cascade Secdy. Hwy. improvement. Oregon City-Molalla Section. County FAS Hwy. Program. Surveys for r/w acquisition.
		LINN-BENTON COUNTIES. Albany-Corvallis Hwy. Request for hwy. improvement referred to Engineer for cost study.
28041		WASHINGTON COUNTY. Beaverton-Aurora Secdy. Hwy. Progress-Beaverton Section. Speed zone established on previous day.
		CURRY COUNTY. Cape Sebastian State Park. Carpenterville-Brookings Wayside. Power line construction referred to Parks Supt.
		MULTNOMAH COUNTY. Banfield Expressway. 102nd Avenue. Repair of septic tank authorized on rental property.
28042		BAKER COUNTY. Baker-Homestead Hwy. Idaho Power Company. Signed copies of agreement returned from Power Company.
		LEGISLATIVE MATTERS. Champoeg State Park Memorial Building bill. $105,000 authorized as hwy. share for building construction.
		GRANT COUNTY. John Day-Burns Hwy. Canyon City area. Kerner mining claim. Removal of fence from hwy. r/w by April 1, 1957.
		SAFETY REGULATIONS. State truck drivers. Training program being conducted emphasizing safety precautions.
		COMMISSION MEETING RECESSED at 12:00 noon to reconvene at 2:00 p.m.

Page	Date 1957	Subject
28043	Mar.29	LINCOLN COUNTY. Oregon Coast Hwy. Delake. Devils Lake. Offer of 25 acres for park purposes to be studied with other areas.
		KLAMATH COUNTY. Lake of the Woods Road. Designation as secdy. hwy. deferred pending County taking over section of Klamath Lake Secdy. Hwy.
28044		CROOK COUNTY. O'Neil Secdy. Hwy. MP 9.20 - MP 17.81. Load limit lifted.
		BAKER COUNTY. Old Oregon Trail. Haines-Baker Section. Report on dangerous condition existing. Engineer to investigate.
		CONTRACTS. Award of contracts publicly announced.
28046		COMMISSION MEETING ADJOURNED at 3:10 p.m.
28047		EXHIBIT "A". Real property acquisition.
28075		EXHIBITS "B-1" - "B-2". Sale of excess property.
28078		EXHIBIT "C". Coos County. Powers Secdy. Hwy. Yellow Creek Section (old). Abandonment agreement.
28080		EXHIBIT "D". Contracts completed and accepted.
28082		EXHIBITS "E-1" - "E-2". Speed zones established.
28086		EXHIBITS "F-1" - "F-2". No shoulder parking zones established.
28090		EXHIBITS "G-1" through "G-5". Surveys completed and adopted.
28098		EXHIBIT "H". Crook County. Paulina Secdy. Hwy. Paulina-Beaver Creek Bridge Extension.
28100		EXHIBIT "I". Coos County. Oregon Coast Hwy. Davis Slough-Bandon Section (old). Disposition of section.
28102		EXHIBITS "J-1" through "J-16". Condemnations.

Portland, Oregon
January 22, 1957

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Acting Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. G. Glaisyer, Secretary

Bids as follows were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 3:00 p.m. in the same room.

COOS AND DOUGLAS COUNTIES
MYRTLE POINT-CAMAS VALLEY ROCK PRODUCTION PROJECT ON THE COOS BAY-ROSEBURG HIGHWAY

C. C. Meisel, McMinnville	$ 48,500.00
Calkins Crushing Co., Oceanlake	53,200.00

DOUGLAS AND JOSEPHINE COUNTIES
AZALEA-MACKIN GULCH ROCK PRODUCTION PROJECT ON THE PACIFIC HIGHWAY

Calkins Crushing Co., Oceanlake	$ 30,500.00

DOUGLAS COUNTY
GRADING MISSOURI BOTTOM-FORDS BRIDGE UNIT, MYRTLE CREEK-CANYONVILLE SECTION OF THE PACIFIC HIGHWAY

Kuckenberg Construction Co., Portland	$1,049,843.00
Roy L. Houck & Sons, Salem	1,138,307.50
Earl L. McNutt Co., Eugene	1,154,825.00
G. D. Dennis & Sons, Portland	1,174,712.50
White Bros. Co., Walla Walla, Wn.	1,279,137.50
Gibbons & Reed Co., Portland	1,355,095.00
Donald M. Drake Co., Portland	1,438,063.00
Morrison-Knudsen Co., Seattle, Wn.	1,785,315.00

27648

LANE COUNTY
INSTALLATION OF TRAFFIC SIGNALS AT THE INTERSECTION OF SIXTH AND SEVENTH AVENUE ON GARFIELD STREET IN THE CITY OF EUGENE

Trowbridge Electric Co., Roseburg	$ 7,795.00

LINCOLN COUNTY
CONSTRUCTION OF CAMPING AREA AND ROADWAYS IN BIG CREEK PARK OVERNIGHT CAMP EXPANSION PROJECT, ABOUT 3 MILES SOUTH OF WALDPORT

Angell Bros., Eastside	6,783.00
Butler Contracting Co., Inc., Salem	7,741.00

Babler Bros., Inc., Portland	257,699.00

UMATILLA AND UNION COUNTIES
PENDLETON-HILGARD ROCK PRODUCTION PROJECT ON THE OLD OREGON TRAIL HIGHWAY

Umatilla Ready Mix Co., Umatilla	$ 49,950.00
Vernie Jarl, Gresham	63,750.00
C. C. Meisel, McMinnville	65,850.00
C. E. Leseberg, Nyssa	82,500.00
Rogers Construction Co., Portland	120,000.00
Calkins Crushing Co., Oceanlake	120,000.00

The Commission approved the minutes for the regular meetings of the Commission held November 8 and 9, 1956, and on December 17 and 18, 1956. The minutes of the public hearing that was held on May 23, 1956, in Albany concerning relocation of the Pacific Highway were also approved by the Commission.

The Parks Superintendent reported on the following park matters:

1. Meeting at Nyssa concerning proposed park and highway facilities at Owyhee Reservoir in Malheur County: The Parks Superintendent stated that he had recently attended a meeting in Nyssa concerning the recreational value of this area, the cost of constructing a road into the area, and the development of park facilities at the Reservoir. At the meeting were representatives of the U. S. Bureau of Reclamation, the U. S. National Park Service, the Bureau of Public Roads, the State Game Commission, the Ontario, Vale, Nyssa, and Portland Chambers of Commerce, and the State Highway Department. It was pointed out at the meeting that the cost to construct a road to the dam to accommodate an estimated 160,000 visitors in three months' time, or 500 cars per day, would be approximately $1,000,000, which is very high in relation to the number of people who will use it. The group decided to ask the State Highway Commission to sponsor the project and to arrange to place the road on the Federal Secondary Highway system. It was his opinion that the Parks Division should make an independent study of the area as to use and cost. The Engineer observed that the reservoir area is approximately 20 miles from the nearest state highway but it was his feeling that the 1957 Legislature may repeal the existing law which provides that state parks must be adjacent to highways and in that event the area could be developed without the road leading to it. Commissioner Reynolds inquired as to how important development of the road to the Reservoir is in relation to use of

the proposed park area. The Parks Superintendent replied that the existing roads will take care of the present traffic but would not be adequate if the amount of use increases materially. Commissioner Reynolds then inquired if proposed park developments around the Snake River Reservoirs would compete with the Owyhee project. The Parks Superintendent replied in the affirmative but pointed out that plans for development on the Snake River are still very indefinite, although present plans do provide that reservoir levels will be held reasonably constant during the summer months, which will make the reservoirs very attractive for recreational purposes. Chairman Chandler stated that from the information at hand it appears that use of the Owyhee project will be primarily for the benefit of people in Idaho as the nearest population center is in the state of Idaho. As a result of the discussion the Commission granted the Parks Superintendent authority to conduct a study of the Owyhee project as he suggested.

2. Request of Umatilla County Development Association for construction of a view point and park facilities at the east city limits of Umatilla, opposite McNary Dam: A study was made of this proposed site, the Parks Superintendent stated, and it was found that the U. S. Army Corps of Engineers has plans for a development at the same location and have arranged with the Highway Department for entrance to and from the state highway. As the development is being taken care of, he recommended that the request be denied. The Commission accepted his recommendation.

3. Fees to be charged for use of facilities in state parks during 1957: The Parks Superintendent presented a schedule of fees and pointed out briefly that in most cases they are the same as in 1956. An increase, however, is recommended from $1.25 to $1.50 for overnight trailer camping. This new price, he stated, will be in line with charges made by private operators, and in addition, the cost to provide facilities for trailer use is considerably more than for tent-camp use. He also called attention to the necessity for establishing a checking-out hour as at times there are a number of cars waiting for space at the park entrance. He mentioned that for the first time, operation of Honeyman State Park is in the "black" and no appreciable number of complaints have been filed concerning the charge for use of the bathhouse facilities. Total park attendance in 1955, he stated, was 6,800,000 people, and 7,500,000 people visited state parks in 1956. The Commission approved the fees for park use during the year 1957 as recommended and also approved establishment of a check-out time. The attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

4. Renaming the South Waldport Ocean Wayside as requested by William F. Keady of Waldport: The Parks Superintendent stated that in 1937 Mr. and Mrs. William F. Keady deeded to the State 10.2 acres of land in South Waldport. Mr. William P. Keady, father of William F. Keady, was the first owner of this land, having obtained it from the federal government by means of a commissioner's certificate. The area, he

stated, was known for a number of years as Keady Park but was later changed to South Waldport Ocean Wayside. He recommended that the name be changed to "William Keady Wayside", as requested by the donors and in honor of Mr. Keady, who was a public-spirited person. The Commission approved the change in the name as recommended.

5. Offer of the Oregon Federation of Garden Clubs to assist in development of Champoeg State Park by furnishing native flower seeds and plants: The Parks Superintendent explained that during the past several years landscaping has been undertaken in this park by using native shrubs and trees to provide a sort of native arboretum. Planting of flowers has been discussed but not undertaken as it is difficult and expensive to obtain the necessary seeds and plants. The Federation of Garden Clubs, he said, now offers to furnish flower seeds and plants to provide additional interest in the park area. He recommended that cooperation of the garden clubs be accepted. The Commission approved his recommendation with the understanding that the project will not involve an excessive expenditure of highway funds.

Proposed transfer of park area at Roseburg secured from the U.S. Government Veterans Administration: The Parks Superintendent stated that the City of Roseburg has offered to take over the 16 acre tract that recently was acquired from the Federal Government under the provisions of the Recreational Act, if Federal approval can be secured. He recommended acceptance of the offer and that he be authorized to negotiate for transfer of the property to the City without charge on condition that no access to the highway shall be allowed. The Chief Counsel pointed out that the property was secured from the Federal Government for recreational purposes and if it is not so used, title will revert to the Government. The Commission authorized negotiations to transfer the property to the City by deed or lease without access to the highway, provided that necessary assurance is given that it will be used for recreational purposes only and that the property will revert to the State if used otherwise.

Proposed transfer by Lloyd Corporation of property near Wedderburn for park purposes: The Parks Superintendent reported that he has been informed by an official of the Lloyd Corporation that necessary legal procedure to effect the transfer of the property to the State will soon be completed and that title will be transferred to the State within a short time.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer reported that in connection with the improvements of several state highway sections it has become necessary to acquire land for which authority had not been previously granted. He asked

the Commission to authorize him to negotiate for acquisition of the following:

COUNTY	SECTION	FILE NO. AND NAME	PURPOSE	AREA	HIGHWAY
Grant	Beech Creek	25967 R. E. Sproul	Quarry	9.98 ac.	Pendleton-John Day
		25968 U. S. Forest Service	Haul Road	.27 ac.	"
Lane	Springfield-Waterville	25969 John L. Beeson	Drainage Ditch	.21 ac.	McKenzie
Marion	Mill City-Gates	25972 Ray S. and Marie Peterson	Scale Site	.55 ac.	North Santiam

The Commission granted authority as requested.

A report was presented by the Right of Way Engineer showing Miscellaneous Property Sales which have been made since the last Commission meeting. The Commission accepted the report. (For details, see the Property Manager's report, dated January 22, 23, 1957, in the General Files).

The Right of Way Engineer also presented a report on properties rented and rentals terminated, including a summary of the receipts of the Property Management Division during the calendar year of 1956. He pointed out briefly that rental receipts for the month of December amounted to $9,091.45 and total receipts for the year 1956 from rentals, sales of buildings, land and timber, had totaled $443,413.97. The Commission accepted the report. (For details, see the Right of Way Engineer's letter to the Commission dated January 16, 1957, which has attached to it Supplemental Rental Report showing terminations and new rentals for the period from December 6, 1956 to January 10, 1957, and the Property Management Report showing receipts for the calendar year, 1956, in the General Files).

Authority to sell several parcels of property was requested by the Right of Way Engineer. He explained that none of the parcels are needed for highway purposes, that each has been appraised as to value, and that the established minimum prices represent fair values for the property. He recommended that the following parcels of property be offered at public sale:

a. Remnants of Lots 7 through 12, Block 42, and Lots 20 through 23, Block 2, Kenton Addition, consisting of 11,762 square feet located in the city of Portland, on the Pacific Highway West, for a minimum price of $4,000 and without any access restrictions. File Nos. 5058, 5059, and 5066. (SEE EXHIBIT "B-1")

b. 4,326 square feet, consisting of portions of Lots 1 and 16, Block 3, Jonesmore Addition, on N. E. Halsey Street in Portland, for a minimum price of $2,000 and without access restrictions. File Nos. 14858 and 14859. (SEE EXHIBIT "B-2")

c. 1.02 acres of the former Brown property on the Albany Section of the Pacific Highway East, in Albany, for a minimum price of $1,020, without access to the highway. File No. 7866. (SEE EXHIBIT "B-3")

d. 0.12 acre of the former Howard property on the Coos Bay Section of the Oregon Coast Highway, for a minimum price of $4,500. File No. 12617. (SEE EXHIBIT "B-4")

e. 0.08 acre of the former Martin and Hollingsworth properties on the northbound route of the Pacific Highway in Ashland, for a minimum price of $3,000, without access restriction. File Nos. 23255 and 23256. (SEE EXHIBIT "B-5")

f. 0.12 acre of the former Schmoe and Lear properties on the northbound route of the Pacific Highway in Ashland, for a minimum price of $5,000, without access restriction. File No. 23261. (SEE EXHIBIT "B-6")

g. 0.15 acre of the former Gronke property on the Salem By-Pass Section of the Pacific Highway East, for a minimum price of $1,000, with access to a frontage road. File No. 17363. (SEE EXHIBIT "B-7")

The Commission authorized the offering of these parcels for public sale by adopting the attached resolutions relative thereto, marked EXHIBITS "B-1" through "B-7", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

"Indentures of access" involving changes in existing points of access to state highways were presented by the Right of Way Engineer. He explained that in each instance the change in an existing point of access has been requested for the benefit of the traveling public and the convenience of the property owner. Upon his favorable recommendation, the Commission approved the following "indentures of access":

a. Newvine property, File No. 20040, on the Mt. Vernon-John Day Section of the John Day Highway in Grant County.

b. Clarence and Iva Lee Jones property, File No. 17617, on the Jones Ranch-Mitchell Section of the Ochoco Highway in Wheeler County.

The Right of Way Engineer presented for consideration a proposed sale of 1.41 acres of property between Engineer's Stations 601+00 and 609+50 on the abandoned Mill City Section of the North Santiam Highway. This property, he said, is no longer needed for highway purposes, and was originally acquired by Marion County. The value of the land has been

appraised at $200 and when it is sold he recommended that the proceeds, after deducting cost of the sale, be remitted to Marion County. The Commission authorized the sale as recommended.

The Commission considered acquisition of 113.19 acres of land, consisting of Lots 3 and 4, and the SE¼ NE¼ of Section 21, T. 39 S., R. 14 W., W.M., Curry County. This property, the Right of Way Engineer said, is located in the area set aside for the Samuel H. Boardman State Park on the Gold Beach-Brookings Section of the Oregon Coast Highway. The property is now under the jurisdiction of the Bureau of Land Management and can be transferred to the State for an amount equal to 70 percent of the appraised value of the land plus the value of the timber, which totals $67,863. This property, he continued, will be needed as a part of the park site, and a portion of it will also be required for the relocation of the Oregon Coast Highway. He recommended that the property be acquired for the amount stated, and advised that the Parks Superintendent also recommends purchase of the property at such figure. The Commission approved the purchase as recommended.

Permission was requested by the Right of Way Engineer for approximately six Right of Way agents to attend the "Appraisal I" course at the University of Oregon in February, 1957. He proposed that the individuals pay their own tuition cost and that the Highway Department pay for their subsistence while they are taking the course. He recalled that a similar plan was used last year, with beneficial results. The Commission granted the permission as requested.

The Right of Way Engineer stated that the City of Pendleton has requested changes in location and width of two access points at Engineer's Station 166+00 and Engineer's Station 175+00 on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County. These access points, he said, are located within the city and are to be widened to 60 feet to match proposed city streets. He recommended approval of the city's request. The Commission approved the changes as recommended.

The Acting Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements and for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission's resolution dated December 20, 1951:

Cascade Locks-Viento Section of the Columbia River Highway

R-25874 - Fredrick Courtland Hathaway and Adeline Arlene Hathaway
Right of Way (Hood River County)
6.70 acres

27656

Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway

R-23210 - Elizabeth Wardin, Albert W. Wardin and Ann S. Wardin
Right of Way (Multnomah County)
0.045 acre

R-24030 - Elizabeth Wardin, Albert W. Wardin and Ann S. Wardin
Right of Way (Multnomah County)
29,565 square feet

Albany-Judkins Point Section of the Pacific Highway East

R-25281 - Raymond L. Briggs, Winifred A. Briggs and Marie A. Briggs
Right of Way (Lane County)
9.27 acres

R-25315 - Robert G. Kintigh and Margaret K. Kintigh
(Lane County)
Parcel No. 1: 0.35 acre for Right of Way
Parcel No. 2: 0.20 acre for Excess Taking

Walton-Noti Section of the Richardson-Eugene Secondary Highway

R-25330 - Otto W. Heider and Callie B. Heider
Right of Way (Lane County)
0.15 acre

West Salem-Dayton Section of the Salem-Dayton Highway

R-25393 - W. E. Bass, Jr., and Blanch D. Bass
Material Site (Polk County)
14.83 acres

Tillamook-Donaldson Creek Section of the Wilson River Highway

R-25970 - John Kunzi
Right of Way, Including Construction and Maintenance of a Weighing Station (Tillamook County)
0.34 acre

Buena Vista Ocean Wayside

R-25530 - Alma F. Russell
(Curry County)
Enlargement and Maintenance of Buena Vista Ocean Wayside
5.51 acres

January 22, 1957

Buena Vista Ocean Wayside - Cont.

R-25532 - Oleta A. Walker
(Curry County)
Enlargement and Maintenance of Buena Vista Ocean Wayside
Parcel No. 1: 11.25 acres
Parcel No. 2: 3.3 acres

R-21141 - Robert DeGross and Bernard DeGross
(Curry County)
Enlargement and Maintenance of Buena Vista Ocean Wayside
25.0 acres

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-25518 - Richard Buffington and Ruth M. Buffington
(Curry County)
Parcel No. 1: 0.10 acre for Right of Way

Klamath Falls, West Side By-Pass Section of The Dalles-California Highway

R-23051 - Vera C. Powell, Joan A. Thompson and Harold M. Rush
Right of Way (Klamath County)
4.0 acres

Right of way maps, construction plans and other data were submitted to the Commission and the Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBITS "D-1" through "D-16", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and accepted a report from the Acting Chief Counsel concerning cases which have been tried in court since the Commission meeting held December 17 and 18, 1956, as follows:

REPORT OF CONDEMNATION CASES TRIED DECEMBER 18, 1956 TO JANUARY 14, 1957

Case	County	Highway	Section	State's Offer	Defendant's Demands	Verdict
Walters R-22699	Clackamas	Cascade Secondary	S. E. Flavel St.-Lake Road	$3,525.	$7,500.	$3,500.
Wills R-24589	Coos	Coos River	Catching Slough-Chandler Bridge	750.	750.	750.
Cottew R-25124	Marion	Portland-Salem Expressway	Willamette River-Hayesville	675.	675.	675.
Kuck R-7666	Wasco	The Dalles-California	Seufert-Dufur	1,000.	1,000.	1,000.

January 22, 1957

(For additional details, see the Acting Chief Counsel's letter of January 16, 1957, in the General Files).

The Commission considered and accepted a report submitted by the Acting Chief Counsel showing cases which have been settled out of court since the Commission's meeting held December 17 and 18, 1956, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Betsch R-23109	Klamath	The Dalles-California	Klamath Falls-West Side By-Pass	$ 350.	$ 350.
Wilder-muth R-23099	Klamath	The Dalles-California	Klamath Falls-West Side By-Pass	3,600.	4,000.
Tina Linda Peters R-18157	Polk	Willamina-Salem	Dolph Corner-Rickreall	585.	585.
Miller R-24870	Umatilla	Pendleton-John Day	Pendleton-Pilot Rock	3,800. including 735.00 fencing	250. State to fence
Car-Vue Theater R-24404	Wash-ington	Tualatin Valley	Forest Grove-Hillsboro	9,670.	11,000.
Wood-ward R-25169	Jose-phine	Rogue River Loop	River Banks Farm	2,950.	3,600.
Renner R-24182	Klamath	Willamette	Odell Butte	1,910.	4,000.
Smith R-25813	Wasco	Columbia River	Mosier-The Dalles	1,900.	2,250.
Smith R-23324	Jose-phine	Pacific	Jump Off Joe Creek-Grants Pass	13,000. for 4.75ac.	22,000. for 5.5 ac.

January 22, 1957

(For additional details concerning these settlements, see the Acting Chief Counsel's letters dated January 15, 1957 and January 21, 1957, in the General Files).

The Acting Chief Counsel stated that, in compliance with a resolution that was adopted by the Commission on December 20, 1951, offers for acquisition of certain parcels of real property were tendered to the property owners prior to the institution of condemnation proceedings. The Commission approved the offers as follows:

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-20986 - Hazel D. Clark, et al. 0.823 acre for right of way purposes. Offer of $11,000.00 approved by Mr. McIver January 4, 1957.

R-20998 - George A. Edwards, et al. 3,750 square feet for right of way purposes. Offer of $300.00 approved by Mr. McIver December 21, 1956.

R-22733 - Melanie E. Parke, et al. 1.04 acre for right of way purposes. Offer of $6,000.00 approved by Mr. McIver January 4, 1957.

R-23148 - J. Jerold Norman, et ux. 375 square feet for right of way purposes. Offer of $300.00 approved by Mr. McIver December 21, 1956.

R-25032 - Grace M. Powell, et al. 23,000 square feet for right of way purposes. Offer of $11,500.00 approved by Mr. McIver January 4, 1957.

R-25801 - Ove Hartmann Petersen et vir. 6,280 square feet for right of way purposes. Offer of $200.00 approved by Mr. McIver January 4, 1957.

R-25802 - Carrie E. Tibbitts, et al. 6,280 square feet for right of way purposes. Offer of $200.00 approved by Mr. McIver January 4, 1957.

Myrtle Creek-Canyonville Section of the Pacific Highway

R-25810 - A. L. Matthews, et ux. 1.04 acres for right of way purposes. Offer of $420.00 approved by Mr. Reynolds January 4, 1957.

Judkins Point-Goshen Section of the Pacific Highway

R-20205 - Byrthae M. Bennett, et al. 1,440 square feet for right of way purposes. Offer of $2,370.00 approved by Mr. Reynolds January 4, 1957.

Klamath Falls, West Side By-Pass Section of The Dalles-California Highway

R-23043 - Herbert D. Amos, et al. 156 square feet for right of way purposes. Offer of $375.00 approved by Mr. Reynolds January 4, 1957.

Beverly Beach State Park

R-24035 - Oregon Pulp and Paper Company. 37.7 acres for state park and recreational purposes. Offer of $5,750.00 approved by Mr. McIver December 21, 1956.

A report concerning orders issued by the Public Utilities Commissioner in which the State has been made a party was presented by the Acting Chief Counsel and accepted by the Commission, which orders are summarized as follows:

PUX 191: Train speeds within the limits of incorporated cities of less than 100,000 population on the main and branch lines of S.P. & S. system. In general, the order set the maximum train speeds in accordance with the speed schedules of the railroad companies involved.

PUX 197: Glover Overcrossing of the right of way of tracks of Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, Lessee, near Glover, on the Old Oregon Trail in Union County. This matter involves construction of a new overcrossing of the Old Oregon Trail on new location over the tracks of the Railroad Company. The new structure will be constructed without participation from funds of the Railroad Companies.

Settlement of a claim covering purchase of right of way and other commitments in connection with construction of the Myrtle Creek-Canyonville Section of the Pacific Highway was discussed. The Acting Chief Counsel reported that by option Harrison C. McClure had agreed to sell to the State, 1.05 acres of land for the sum of $1,200, plus the cost of moving a house located partly on the right of way and partly on his remaining property. Subsequent developments disclosed that Harrison C. McClure was the owner of only one-half interest in the property and that he was administrator for the estate of the deceased owner of the other one-half interest. The State carried out its obligation by making payment of $1,200 and moving the house and digging a well. Creditors of the estate had a new administrator appointed who has threatened sale of the deceased owner's share, including the portion sold to the State, to raise money to pay the creditors' claims of approximately $900. However, after further negotiations, the attorney for the administrator has advised that the sum of $600 will be acceptable in full settlement. The Acting Chief Counsel recommended that this amount be paid and that he be authorized to attempt to obtain reimbursement from the grantor. The Commission accepted his recommendation.

Consideration was given to a proposed settlement with Merle C. Buchner for additional damages to oyster beds caused by construction of the Hauser-North Bend Section of the Oregon Coast Highway. The Acting Chief Counsel recalled that settlement of these cases had been made in 1956 but in the settlement with Buchner, tracts 89, 90 and north one-half of tract 88 had been omitted. On the basis of the previous settlement, he recommended that Mr. Buchner be paid the sum of $1,812.50 upon receipt of a release relinquishing all further claims for any properties involved in the settlement. The Commission approved the settlement.

A report was presented by the Acting Chief Counsel concerning a summons and complaint served on Mr. H. B. Glaisyer, Commission's Secretary, by Gladys Sussman for recovery of the sum of $750 plus $250 attorney's fees. This complaint, he stated, was made as the result of dust damage incurred to Mrs. Sussman's home during construction of the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway by Porter W. Yett, under Contract No. 4313. The contractor in this case, he said, is liable for such damages and the contractor and his surety have been advised that the sum of $1,000 will be retained until Mrs. Sussman's claim has been concluded. The report was accepted by the Commission.

Upon the favorable recommendation of the Acting Chief Counsel, the Commission approved a reciprocal conveyance of real property in the vicinity of Fishery Point on the Oregon Coast Highway, in Tillamook County. The Acting Chief Counsel explained that Mr. and Mrs. John B. Wilmarth, owners of the property, wish to make developments on their land but before doing so they wish to locate definitely the boundaries of approximately 5 acres reserved for the State Highway Commission which was transferred to the State by the County of Tillamook prior to 1933. The reciprocal indentures are necessary to define the boundary lines of the State Highway right of way and the Wilmarth property, and no monetary consideration is involved. He recommended that the Commission approve the reciporcal conveyance and execute the indenture. The Commission approved the recommendation.

A report of abandoned claims was presented by the Acting Chief Counsel, who advised that all reasonable means to collect the claims have been used. He recommended that the Commission formally abandon collection efforts on the following claims:

CAO-53-48, Leonard Bergstrom and Robert F. Smith: On June 30, 1953, Mr. Bergstrom damaged a culvert headwall at Mile Post 26.7 on The Dalles-California Highway, in the sum of $165.35. During the three and one-half years since the accident, strenuous efforts have been made to collect the amount of the damages but as both men appear to be transients it has been impossible to locate them and to take appropriate action.

CAO-55-36, Chester Junior Gilliam: On March 18, 1955, a car driven by Mr. Gilliam damaged the Slate Creek Bridge at M.P. 28.21 on

the Redwood Highway, in the amount of $369.21. It appears that when the brakes were applied suddenly on Mr. Gillian's vehicle, the car swerved into the northbound traffic lane, colliding with a lumber truck, which, in turn, collided with the Slate Creek Bridge and then with two other vehicles, causing considerable damage and one fatality. Mr. Gilliam contends that he is not at fault, and, as he is presently in the Navy, it would be difficult to press legal proceedings against him.

CAO-56-341, Peter Molgaard: On August 10, 1956, a car driven by Mr. Molgaard, a resident of Iowa, collided with a State Highway Department dump truck, causing damage in the amount of $15.00. Mr. Molgaard and his insurance carrier have denied the claim of the State, and as the cost of instituting proceedings against a resident of Iowa is considerable, the claim has been abandoned.

CAO-56-381, George William Lemay: On October 6, 1956, Mr. Lemay's car collided with a guardrail at M.P. 65.16 on the Columbia River Highway, causing damage in the amount of $161.47. Mr. Lemay's automobile was licensed in California and was abandoned by him. As his whereabouts cannot be determined, the claim has been abandoned.

The Commission confirmed abandonment of the claims.

The Acting Chief Counsel requested authority to institute legal proceedings against Dennis R. and Bobbie Brisco, Portland, for damages to the Glisan Street approach to the Steel Bridge in Portland, in the amount of $365.37, and for the cost of flagging train traffic by the Union Pacific Railroad, in the sum of $59.42. It appears that the left door of the Brisco automobile came open and in attempting to close the door the operator lost control of his car and collided with the bridge. It also appears that the Briscos ignore letters sent to them and apparently intend to take no action to reimburse the State. The Commission granted the authority as requested.

The Commission considered a proposed expenditure of $1,813.50 to drill a well to replace two existing wells located on property to be acquired by condemnation from Darrell E. Brown, on the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County. The Acting Chief Counsel explained that in negotiations to acquire the property it had been planned to provide water by connecting to the City of Canyonville's water system. However, the City of Canyonville refused to make such a connection, as the property is outside the city limits. The defendants have advised that, if the State will drill a substitute well which will provide a supply of water comparable to the two existing wells, the matter of water supply will not be made an issue in the trial of the condemnation case. It appears that there is an excellent chance of locating a source of water which will be satisfactory. The Acting Counsel recommended, inasmuch as an expenditure of $2,200 had been contemplated to connect with the city water system, that the State proceed with drilling a new well, upon receipt of proper permits and stipulations from the defendants. The Commission accepted his recommendation.

The Commission considered payment of a claim of $1,000 to Mrs. G. M. Puddicombe for loss of a well and an unsatisfactory approach road to her property on the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County. The Acting Chief Counsel pointed out that, under an option approved September 22, 1955, the State was obligated to construct two 30-foot road approaches and was also obligated to re-establish the grantor's water supply if an existing well were destroyed. It now appears that the existing well has been destroyed and the State is obligated to re-establish a water supply; also, the constructed road approaches are not satisfactory to Mrs. Puddicombe. Mrs. Puddicombe, however, has now indicated a willingness to accept the sum of $1,000 for the destroyed well and the unsatisfactory road approaches, provided the State will pave the road approaches to the right of way line and to a width of 30 feet. He recommended that her claim be settled as outlined, provided she will relinquish all claims for damages against the State. He also recommended that a bill from Bare Brothers Well Drilling Company in the amount of $200 for attempting to redrill the existing well be paid. The Commission approved payment of the Claims as presented.

A quarterly report of damage claims, in which the State seeks to collect for damages inflicted to State property, was presented by the Acting Chief Counsel, who pointed out briefly that approximately $10,000 had been collected during the last three months. The Commission accepted the report.

The Acting Chief Counsel presented a list of bills pertaining to highway matters to be introduced in the 1957 Legislative Assembly. He stated that the House Highway Committee has agreed to introduce 13 bills and he had asked them to place at the top of the list a bill pertaining to the issuance of $8,000,000 of highway bonds. The following bills were given to the House Roads and Highways Committee:

1. Bill relating to the authority and duties of the State Highway Commission concerning throughways.

2. Bill relating to the operation of vehicles and combination of vehicles upon public highways, roads and streets; amending ORS 483.528.

3. Bill relating to the measuring and weighing of motor vehicles; amending ORS 483.534.

4. Bill relating to angling from bridges; and providing penalties.

5. Bill relating to the control and jurisdiction over and use of the shore of the Pacific Ocean.

6. Bill relating to stop signs or markers at entrances to main traveled or through highways and at intersections, amending ORS 483.204.

7. Bill relating to the routes of State highways.

8. Bill relating to the control of traffic; amending ORS 483.040 and ORS 483.128.

9. Bill relating to facilities, things or appurtenances on the right of way of roads and highways; amending ORS 374.305, 374.310 and 374.325.

10. Bill relating to the emergency or revolving fund of the State Highway Engineer; amending ORS 366.165.

11. Bill relating to the turning movement of vehicles; amending ORS 483.132.

12. Bill relating to the exercise or performance of the authorities and duties of the State Highway Commission.

13. Bill authorizing the State Highway Commission to issue and sell state highway bonds.

The Commission approved the Acting Chief Counsel's action and upon his request granted permission for Mr. William A. Mansfield, an attorney employed in the Legal and Right of Way Department, to appear before various legislative groups in behalf of highway legislation.

The Acting Chief Counsel presented letters addressed to the members of the Oregon Congressional Delegation, protesting the placing of federal tax stamps on deeds for the acquisition of highway right of way. This letter, he said, is in substance about the same as a letter that was sent to the Congressional Delegation in 1953 concerning the same matter. The Commission approved and signed the letter.

The Engineer reported that under authority previously granted by the Commission he has awarded contracts as follows, the conditions of the awards having been satisfied:

(1) Grading, paving and construction of a concrete structure on Chenoweth Creek-The Dalles Section of Columbia River Highway, Wasco County. Bids received November 8, 1956. Conditions of award satisfied December 19, 1956. Roy L. Houck & Sons, Salem, Low bidder.

(2) Grading on Davis Slough-Beaver Lookout Section of relocated Oregon Coast Highway, Coos County. Bids received December 17, 1956. Conditions of award satisfied December 27, 1956. Morrison-Knudsen Co., Inc., Seattle, Washington, low bidder.

(3) Grading and paving on West 3rd Street-East First Street (Enterprise) Section of Wallowa Lake Highway and Main Street in Enterprise, Wallowa County. Bids received December 17, 1956. Conditions of award satisfied December 28, 1956. H. J. and H. W. Miller, Baker, low bidder.

(4) Grading on Myrtle Creek-Missouri Bottom Unit, Myrtle Creek-Canyonville Section of Pacific Highway, Douglas County. Bids received December 17, 1956. Conditions of award satisfied January 16, 1957. C. R. O'Neil, Grants Pass, low bidder.

The Commission confirmed the awards as reported.

The Engineer reported that five routes for the Pacific Highway by-pass around the city of Medford have been carefully studied as to cost and feasibility, and two routes have been considered worthy of consideration - one being the Genessee Street route, and the other the Bear Creek-HawthornePark route. Either of these two routes, he stated, would serve the city of Medford to good advantage and each is roughly parallel to Bear Creek. The West Medford line and the High Line were eliminated because of high cost. The Hillcrest line, although comparable in cost with the Genessee and Hawthorne Park lines, has the disadvantage of disrupting many orchards and other agricultural lands and would not adequately serve the city of Medford. The Hawthorne Park line, he continued, offers less disruption to homes and farmland than the Genessee route, although the cost is approximately 2% higher. After very careful study of all information available it appears that the Bear Creek-Hawthorne Park line will provide the greatest good to the traveling public and to the Medford area commensurate with its cost. He recommended that it be adopted. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "J-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Commission also approved a news release stating the reasons for adopting this route.

Consideration was given to items of unfinished business as shown on the Secretary's summary of unfinished business, dated December 18, 1956, as follows:

1. Request of telephone and power line representatives concerning relocation of their facilities on highways at State expense: The Engineer recalled that a delegation at the November meeting urged the Commission to offer no objection to a proposed change in the law which would provide that relocation of such facilities be made at State expense. This matter, he stated, has been carefully studied and it was ascertained that during 1956, the State paid approximately $235,000 for relocation of facilities of this nature, most of which were in the Portland area, and the Utilities spent approximately $475,000 during the same period. He pointed out that utilities located outside of the highway right of way are moved at State expense, and when they are on highway right of way by permit, the

Utilities are required to pay for the move. It was his considered opinion that highway users should not be charged the cost to move the facilities, but such expense should be paid by the people who use the facilities. He recommended that the Commission go on record as opposed to the proposed revision of the law. The Commission approved the recommendation and ordered the item deleted from the list of unfinished business.

2. Proposed Pacific Highway By-pass Route around the city of Medford: This item was deleted from the list of unfinished business as a route was previously adopted.

3. Offer of Wasco County Court to contribute $500,000 for improvement of The Dalles-California Highway at Tygh Valley and Maupin: The Engineer stated that Wasco County officials previously agreed to acquire the right of way for revised alignment of the highway from The Dalles south to Eightmile Creek, and that this right of way is estimated to cost approximately $100,000, which would leave $400,000 of County money for other purposes. The projects at Tygh Valley and at Maupin, he continued, are very expensive jobs and the money available would do very little good. He pointed out that additional federal-aid money cannot be secured simply because additional match money might be available. He recommended that the County Court be advised of the circumstances and that the money could be used to the best advantage by extending the proposed improvement between The Dalles and Eightmile Creek southerly as far as the additional funds would permit. The Commission approved his recommendation and ordered the item deleted from the list of unfinished business.

4. Request of Fairview delegation for access to the T. H. Banfield Expressway at Fairview Avenue in the city of Fairview: The Engineer stated that his report concerning this matter is not yet complete, although it appears that the project will cost in the neighborhood of $1,000,000. This item is to remain on the list of unfinished business.

Attention was given to a request from the City of Baker for improvement of traffic conditions at the intersections of 10th and Campbell, Main and Washington, and Resort and Washington Streets. This matter, the Engineer reported, was investigated and personal contacts made with city officials. The investigation indicated that a flashing beacon should be installed at the intersection of 10th (US30) and Campbell Streets, with flashing amber to 10th Street and flashing red to Campbell Street, at an estimated cost of $600, to be borne by the State, and the City to furnish electrical energy and maintenance. The investigation also indicated that a traffic signal should be installed at Washington and Main Streets on US30. The City, however, does not have sufficient monies to participate at this time and he recommended that the installation be deferred until the City has the necessary funds. The feasibility of a flashing beacon at the intersection of Washington and Resort Streets was also confirmed by the investigation. However, these are city streets not on the highway

system and the State would participate only by preparing plans while the City would pay for the cost of installation, which he estimated at $300. The City of Baker, he stated, has agreed to deposit the estimated cost with the State prior to installation by State forces. The Commission approved the projects as presented by the Engineer.

The Commission gave attention to a petition from citizens of Ashland, containing 168 signatures, requesting the installation of traffic signals at the intersections of the Pacific Highway and ORE 66 with Walker Avenue within the City of Ashland, and at the intersection of the Pacific Highway with the Toleman Creek Road, south of Ashland. An investigation was made, the Engineer stated, and it was found that the two intersections on Walker Avenue are both embraced by a 25 mile per hour speed zone within the City. The conditions at these two intersections, he said, are not even close to standard warrants for installation of traffic signals, so it is his recommendation that the request be denied. The Toleman Creek Road intersection was also investigated and it was found that both vehicular and pedestrian volumes are less than required by standard warrants for the installation of a traffic signal; however, inasmuch as this is the first major intersection on the Pacific Highway after leaving the Siskiyou Mountains, he recommended that a flashing beacon be installed, at an estimated cost of $600. The Commission approved his recommendations.

Consideration was given to requests from Mr. Harry R. Folk, Ground Safety Director, U. S. Air Force, Portland, and Mr. Paul C. Northrup, Multnomah County Roadmaster, for an investigation of traffic conditions at the intersection of N. E. Portland Secondary Highway and N. E. Cully Boulevard. A request was also considered from the County Roadmaster's Office for an investigation of traffic conditions at the intersection of N. E. Portland Secondary Highway and N. E. Columbia Boulevard. These matters, the Engineer stated, were investigated and at the N. E. Cully Boulevard intersection it was found that conditions exceed the accident warrant and very closely approach the interruption of continuous traffic and total volume warrants as formulated by the American Association of State Highway Officials. He recommended that a fully-actuated traffic signal be installed at that point at an estimated cost of $7,000, to be paid entirely by the State, as the location is outside the City. The investigation at the N. E. Columbia Boulevard intersection, he said, indicated that a more positive stop indication is needed than provided by the regular stop signs. He recommended that a flashing beacon be installed at this intersection, at an estimated cost of $500, to be paid entirely by the State, as the area also is outside the City. The Commission approved the recommendations.

The Commission approved a recommendation by the Engineer that an illumination project be authorized by contract at the new junction just west of Rickreall on the Dolph Corner-Rickreall Section of the Willamina-Salem Highway, at an estimated cost of $11,400. He pointed out that it is anticipated that the paving of this section may be completed by June or July, 1957, and that the intersection should be illuminated when the new highway is opened to traffic.

The Engineer recommended installation of illumination units on a gap of approximately one-quarter mile on the Oregon Coast Highway between the city limits of Coos Bay and North Bend. He pointed out that the two cities are installing linear illumination within their respective city limits, and they have asked the State to illuminate the short section between the two cities so that there will be continuous illumination. It was his feeling that it would be dangerous to leave an unilluminated short section between the cities, particularly in view of the large number of employees of lumber companies, docks, and other concerns which operate along that section. He recommended that the State enter into an agreement with Pacific Power and Light Company to install illumination over the quarter-mile section, at an estimated cost of $12,000, using wooden poles, payment to be made at the rate of $169.40 per month over a period of ten years, such payment to include maintenance and the cost of electrical energy used. The Commission accepted the recommendation.

The Engineer reported that the new alignment of the Oregon Coast Highway south of Kernville by-passes the town of Gleneden, and that access to Gleneden is available by way of the old highway from connections to the north and south of that place. In the interests of safety, he said, it is advisable that these intersections be illuminated at an estimated cost of $1,600, and he so recommended. The Commission approved the installations.

A hazardous condition at the intersection of the Pacific Highway and Prairie Road, north of Eugene, was reported by the Engineer. He said that at this point the Pacific Highway starts its transition from two to four lanes southbound and from four to two lanes northbound. The accident record at this location has been bad and he recommended that a flashing beacon and two mercury-vapor luminaire units be installed, at an estimated total cost of $1,100. The Commission approved the installation.

Attention was given to a request from the Yachats Chamber of Commerce for construction of a footpath from the business district to the school along the Oregon Coast Highway, a distance of approximately one-quarter mile. The Engineer recalled that this matter was considered by the Commission on April 26, 1956, when it was reported that facts disclosed by an engineering study indicated that the project did not warrant an estimated expenditure of $11,500, and the request was denied; however, a subsequent investigation indicates that a limited sidewalk project through the business district only, costing approximately $3,000 is justified. He recommended construction of such a footpath in order to eliminate a major portion of the hazard. The Commission approved his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that a number of complaints have been received concerning traffic conditions at the intersection of the Powers Secondary Highway and the Coos Bay-Roseburg Highway east of Myrtle

Point. He said that the matter was investigated and that a revision in the traffic channelization at the intersection has been worked out which will help turning movements by log trucks and other vehicles. He estimated the cost of the work involved at $2,800 and he recommended approval of the project. The Commission approved the expenditure.

Consideration was given to a resolution submitted by the Common Council of the City of Coos Bay requesting a study to determine the need to widen Ocean Boulevard between Central Avenue and the west city limits as are necessary to eliminate existing traffic hazards. The Engineer stated that Ocean Boulevard is the route of the Empire-Coos Bay Secondary Highway; that the street carries a heavy volume of traffic, and there is need for improvement but no funds are available to finance this improvement. He recommended that the request be denied for the time being. The Commission accepted the recommendation.

Attention was given to a petition submitted by residents of Pendleton requesting reconstruction of the Tutuilla Creek Bridge on the Pendleton-Cold Springs Secondary Highway near the westerly city limits of Pendelton, to eliminate the flooding of private property. The Engineer commented that the petitioners are protesting the extension of Tutuilla Creek Bridge which is now underway as they feel that the plans for the bridge do not provide adequate clearance for flood waters. The matter, he stated, is being investigated by Highway Engineers and also by U. S. Army Engineers and a report will be made when the facts have been fully determined.

The Engineer reported that in connection with the elimination of the grade crossing of the Southern Pacific Company by the Clackamas Secondary Highway near Clackamas Station, it was necessary that the State build an unloading dock for the National Guard and a spur track to this dock. It was anticipated that the track would be built by State forces; however, it was more advantageous to have the work done with railroad forces, and it was so performed. The Railroad Company, he said, has now billed the State for the cost of the work in the amount of $7,107.31. This billing, he continued, is in accordance with previous agreement and he recommended that the Railroad Company be reimbursed in the amount as stated. The Commission approved the reimbursement.

Attention was called to an agreement between the Highway Commission and the U. S. Army Corps of Engineers for reconstruction of portions of the Columbia River Highway between Big Eddy and Blalock. The Engineer pointed out that the original date set for completion of the paving was set for July 1, 1956, but later it was determined more feasible to lay an oil mat until the highway had undergone subsidence which would occur as a result of the filling and drawing down of the pool resulting from The Dalles Dam. The Corps of Engineers, he stated, has concurred in this delay and has submitted a supplemental agreement which extends the completion date for the paving to October 30, 1959. Upon his favorable recommendation, the Commission approved the supplemental agreement.

The Engineer submitted a form of resolution showing distribution to the various cities and towns of the State their proportionate shares of State Highway Revenues that accrued during the period of July 1 to December 31, 1956. He pointed out that the money is allocated directly to the cities by the Secretary of State under the provisions of Oregon Law, which stipulates that 10 percent of the total highway revenues for each year, less the sum of $250,000 for Special State Tax Street Funds, be allocated to the cities on a semi-annual basis. The total share to be allocated to the cities at this time, he stated, is $3,012,186.05. The Commission, following the Engineer's favorable recommendation, adopted the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission considered revisions in the Forest Highway Program recommended by the Bureau of Public Roads. Upon the Highway Engineer's favorable recommendation, the Commission approved changes and thereupon signed the following letter relative thereto:

"Commissioner of Public Roads
Chief, Forest Service
Washington 25, D. C.

Gentlemen:

In accordance with the Rules and Regulations for administering Forest Highways, the following revision of the existing Oregon Forest Highway Programs, approved January 4, 1956 and October 30, 1956, is recommended by the Regional Forester, Region 6, the Oregon State Highway Department, and the Division Engineer of the Bureau of Public Roads.

Previous unprogramed balance (lapsing) $329,979.42

1958 Fiscal Year

FH 8-A3, B3 (L-3376-00)	Umpqua Highway Grading	5.488	700,000
Revised unprogramed balance (lapsing)			279,979.42"

The Commission considered and upon recommendation by the Engineer granted the following extensions of time within which to complete state highway contracts. Reimbursement for engineering expense and other extra expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission.

1. Knight Pearcy, Contract No. 4508, for screen planting on the Judkins Point-Seven Oaks Section of the Pacific Highway in Douglas, Jackson and Lane Counties, requested an extension of time from June 1, 1956 to December 15, 1956. Approved as requested.

2. Babler Bros., Inc., Contract No. 4597, for oiling on the South Unit, Lapine-Silver Lake Section of the Fremont Highway in Klamath and Lane Counties, requested an extension of time from August 31, 1956 to November 12, 1956. Approved as requested.

3. Vernie Jarl, Contract No. 4604, for rock production on the Condon Section of the John Day and Wasco-Heppner Highway in Gilliam County, requested an extension of time from August 31, 1956 to December 31, 1956. Approved to December 7, 1956, the actual completion date of the contract.

4. Coos Bay Dredging Co., Inc., Contract No. 4562, for rock production on the Hunters Creek-Macks Arch Section of the Oregon Coast Highway in Curry County, requested an extension of time from July 31, 1956 to November 23, 1956. Approved as requested.

5. The United States Steel Corporation, Contract No. 4681, for fencing on Harbor Drive Median of Hooker Street to Pennoyer Street (Portland) on the Pacific Highway in Multnomah County, requested an extension of time from September 30, 1956, to December 4, 1956. Approved as requested.

6. United Builders, Inc., Contract No. 4690 for the Dairy Creek Bridge widening on the Tualatin Valley Highway in Washington County, requested an extension of time from December 31, 1956 to June 30, 1957. Approved as requested.

January 22, 1957

7. General Construction Co., Contract No. 4687, for the Nehalem drawbridge, dolphin and drawrest replacement on the Oregon Coast Highway in Tillamook County, requested an extension of time from October 31, 1956 to December 15, 1956. Approved to December 3, 1956, the actual completion date of the contract.

8. Tom Lillebo, Contract No. 4356, for the Umpqua River Bridge pier protection project on the Oregon Coast Highway in Douglas County, requested an extension of time from July 31, 1956 to November 30, 1956. Approved as requested.

9. Tom Lillebo, Contract No. 4537, for constructing, grading and surfacing the Yokum Bridge over Cow Creek on the Yokum Road in Douglas County, requested an extension of time from October 31, 1956 to December 31, 1956. Approved to December 20, 1956, the actual completion date of the contract.

10. Fred H. Slate Co. & E. C. Hall Co., Contract No. 4576, for grading and paving the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway in Coos County, requested an extension of time from September 30, 1956 to November 8, 1956. Approved as requested.

11. Warren Northwest, Inc., Contract No. 4703, for grading and paving the North Brookings Section of the Oregon Coast Highway in Curry County, requested an extension of time from October 15, 1956 to November 30, 1956. Approved as requested.

12. Q. L. Rufener, Inc., Contract No. 4656, for grading and oiling the Davis Creek-Bethel Creek Section of the Oregon Coast Highway in Coos County, requested an extension of time from September 30, 1956 to November 27, 1956. Approved as requested.

13. Roseburg Paving Company, Contract No. 4730, for grading and paving South Wilbur Truck Scale Site on the Pacific Highway in Douglas County, requested an extension of time from August 31, 1956 to November 23, 1956. Approved as requested.

14. Birkemeier Construction Company, Contract No. 4566, for grading and oiling Baker Creek Section of the Scholls Highway in Washington County, requested an extension of time from August 31, 1956 to December 31, 1956. Approved as requested.

15. Workman and Wilson, Contract No. 4589, for the Nehalem River Bridge on the Miami Valley Road in Tillamook County, requested an extension of time from November 30, 1956 to January 31, 1957. Approved as requested.

16. Erick Enquist, Contract No. 4699, for construction of the North Fork Scappoose Creek Bridges on the Pittsburg-Scappoose Highway in Columbia County, requested an extension of time from December 31, 1956 to April 1, 1957. Approved as requested.

17. Russellville Nursery, Contract No. 4506, for roadside improvement from 42nd Avenue to 99th Avenue on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from May 31, 1956 to December 30, 1956. Approved to December 21, 1956, the actual completion date of the contract.

18. Roseburg Paving Co., Contract No. 4744, for grading and paving South Oakland Interchange, Chenoweth Park-Deady Section of the Pacific Highway in Douglas County, requested an extension of time from September 30, 1956 to December 20, 1956. Approved as requested.

19. Calkins Crushing Company, Contract No. 4646, for grading and paving on the Chehalem Mountain-Newberg Section of the Hillsboro-Silverton Highway in Yamhill County, requested an extension of time from September 30, 1956 to December 29, 1956. Approved as requested.

20. Barney B. Helser, Contract No. 4727, for rock production on the Myrtle Point-Powers Section of the Coos Bay-Roseburg and Powers Highway in Coos County, requested an extension of time from August 31, 1956 to January 11, 1957. Approved as requested.

21. J. H. Wise & Son, Inc., Contract No. 4639, for construction of the Olds Ferry Interchange structure on the Old Oregon Trail Highway in Malheur County, requested an extension of time from September 30, 1956 to November 24, 1956. Approved to November 23, 1956, the actual completion date of the contract.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract numbers 4356, 4485, 4507, 4508, 4537, 4557, 4562, 4566, 4571, 4576, 4604, 4639, 4646, 4656, 4681, 4687, 4694, 4710, 4727, 4730, 4768, 4788, 4797, 4798, 4801, 4815, and 4833 for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Proposed additions to the county federal-aid secondary system in Union and Wallowa Counties were presented by the Engineer. These additions, he stated, meet the requirements of the Federal government for such highways and he recommended approval of the following:

Union County: FAS 478, 2 miles - to extend existing FAS 478 from its southerly terminus at the junction with the Wallowa Lake Highway in La Grande, easterly along Cove Avenue to a junction with FAS 544, south of Island City; FAS 796, 2.2 miles - extending from a junction with existing FAS 478 at the north side of the Riverside City Park, north of La Grande, easterly to a junction with existing FAS 481, north of Island City.

Wallowa County: FAS 697, 2.9 miles - extending from the community of Flora, easterly to the Enterprise-Lewiston State Highway. This route was formerly part of the Enterprise-Lewiston State Highway and was transferred to Wallowa County by agreement.

The Commission approved the additions as recommended.

A tabulation was presented by the Engineer showing additional federal-aid secondary construction projects on county roads in Douglas, Umatilla, Union and Wallowa Counties. The total estimated value of these projects, he stated, is $499,000 and, if they are approved, there will still remain an unprogramed balance of $3,626,000 for the 1958 and 1959 program. The Commission approved the following projects:

County	FAS Hwy. No.	Section and Description	Programed Amount	FAS Fund
Douglas	244	Pruner Bridge. Partial cost-additional funds for 1957 project.	$ 100,000	'58
Umatilla	475	South Mission Road Section, 3.5 miles. G. S. & O.	$ 150,000	'59
Union	478	Cove Avenue Section, 1.7 miles) Oiling	) $ 40,000	'58
	796	Fruitdale Road Section, 2.2	)	
		miles. Oiling	)	
	488	North Powder-Davis Ranch Section, 4.2 miles. Regrade S. & O.	$ 82,000	'59
		Subtotal, Union County....	$ 122,000	
Wallowa	484	Wallowa River and Hurricane Creek Bridges (2). Structures only.	$ 30,000	'58

County	FAS Hwy. No.	Section and Description	Programed Amount	FAS Fund
Wallowa (Cont)	697	Flora Spur Section, 2.9 miles. G. S. & O.	$ 97,000	'59
		Subtotal, Wallowa County. .	$ 127,000	
TOTAL ADDITIONAL 1958 and 1959 FAS FUNDS. .			$ 499,000	

SUMMARY BY FISCAL YEARS	1957 & 1958	1959	Total
Available September, 1956	$ 4,443,000	$3,800,000	$8,243,000
Previously Approved	3,168,000	950,000	4,118,000
Unprogramed Balance	$ 1,275,000	$2,850,000	$4,125,000
Proposed Projects 1/15/57	170,000	329,000	499,000
Unprogramed Balance	$ 1,105,000	$2,521,000	$3,626,000

An increase of $16,000 in the project authorization for the Rooster Rock Park Interchange project on the Columbia River Highway was requested by the Engineer. He explained that the major portion of the overrun was caused by an increase in excavation quantities and the consequent haul. A minor portion of the overrun was caused by substitution of a double-hung guardrail in the median area instead of the six-foot concrete dividers originally planned. The Commission approved the increase.

The Engineer reported that a location survey has been completed on a short section of the Bellevue-Hopewell Highway in the community of Hopewell. He pointed out that the 1957 budget contains an item of $25,000 for reconstruction of this section which is very hazardous because of sharp reverse curves. Upon his favorable recommendation the Commission approved the survey by adopting the attached resolution relative thereto, marked EXHIBIT "J-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was given to a request from Miss Lillian Farley, Coos County School Superintendent, Coquille, for speed control on the Empire-Coos Bay Highway between Coos Bay and Empire. The Engineer stated that an investigation disclosed that a reduced speed zone is warranted. He recommended the establishment of a 40 mile per hour speed zone between a point 0.13 mile east of the east city limits of Empire (M.P. 0.60) and the west city limits of the City of Coos Bay (M.P. 1.69); and a 35 mile per hour speed zone between a point 0.14 mile east of Butler Road (M.P. 2.39) and a point 0.29 mile east of Butler Road (M.P. 2.54). He explained that the investigation extended into the City of Coos Bay and that it is his intention to recommend to the State Speed Control Board

establishment of a 35 mile per hour speed zone on the urban portion, to conform with that recommended for the rural portion. The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was given to a request from the Ophir Parent-Teacher Association for establishment of a reduced speed zone on the Oregon Coast Highway through the community of Nesika Beach, which is located on a temporary section of this highway several miles north of Gold Beach. A traffic engineering investigation which was conducted, the Engineer stated, revealed that the prevailing speeds and the favorable accident record do not warrant designation of a reduced speed zone, particularly in view of the fact that the new highway will be opened to traffic in August of this year. He recommended that the request be denied. The Commission accepted his recommendation.

The Commission gave attention to a request from Robert Parmellee, Portland, for installation of "No Parking" signs on a section of the Tualatin Valley Highway near its intersection with Canyon Lane. The Engineer explained that Mr. Parmellee, who owns the Valley View Apartments, has called attention to the obstruction of sight distance caused by parked vehicles at this intersection. The matter was investigated, he said, and based on the facts disclosed it is his recommendation that parking be prohibited on the southerly side of the Tualatin Valley Highway from its intersection with the southerly leg of Canyon Lane at Engineer's Station 15+30 to Engineer's Station 15+68. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "L", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer recommended and the Commission approved out-of-state travel expense for the following Highway Department personnel:

W. C. Williams, State Highway Engineer, to attend conference sponsored by the BPR, AASHO, WASHO, University of California, and California Division of Highways, at Los Angeles, California, March 5, 6, and 7, 1957, at an estimated cost of $170.00

Forrest Cooper, Deputy State Highway Engineer, to attend second Pacific Coast Conference on Asphalt Specifications, to be held in San Francisco, California, February 4 and 5, 1957, at an estimated cost of $105.00.

W. C. Williams, to attend regional meeting of Associated General Contractors of Oregon, Washington, Idaho and Montana, in Spokane, Washington, February 7 and 8, 1957, at an estimated cost of $60.00.

Carl W. Jordan, Director, Travel Information Division, to attend Travel and Vacation Show in Dallas, Texas, March 21 - April 1, 1957, at an estimated cost of $422.65.

Gene Maudlin, Assistant Director of Travel Information Division, to attend Travel and Vacation Show in Los Angeles, California, April 3-14, 1957, at an estimated cost of $317.70.

W. C. Williams and G. S. Paxson, Assistant State Highway Engineer, to go to Olympia, Washington, on January 31, 1957, for a conference with the Washington Legislative Highway Committee regarding the proposed Astoria Bridge, at an estimated cost of $20.00.

The Commission authorized payment of 1957 membership dues in the American Association of State Highway Officials amounting to $1,519.50; in the Western Association of State Highway Officials in the amount of $50.00; and in the American Road Builders Association in the amount of $7.50.

A request was considered from Mr. Clifford A. Stocker, Administrator of the Commission for the Blind, for permission to install a coffee and snack bar in the basement of the State Highway Building in Salem. The Engineer explained that the Commission for the Blind has been establishing such facilities to be operated by blind people at various places where there is a concentration of people. There are many details to be worked out but he gave as his opinion that the cost to the Highway Commission would not be great and would consist largely in putting water and ventilation in Room 4 in the basement. He requested permission to proceed with an investigation to determine costs and other details. The Commission granted the request, with instructions to submit a report when the details are known.

Consideration was given to a claim submitted by Edward F. Peterson for damages to his land adjacent to the Onion Flat-Middleton Section of the Pacific Highway West in Washington County. The Engineer reported that during a storm in December, 1955, the water level of the Tualatin River raised to such an extent that the water backed up against a new fill and washed some of the fill material onto Mr. Peterson's property. Mr. Peterson, he stated, has offered to accept the sum of $100 as payment in full for the damage that resulted. He recommended that such settlement be approved. The Commission approved the settlement and ordered that a proper release be secured from Mr. Peterson.

The Commission also considered and approved a similar claim made by John and James Cereghino for damages to their land situated adjacent to the same highway section. The Engineer reported that the storm of December, 1955, not only washed material from the highway fill onto the property of the Cereghino brothers, causing damage, but also destroyed a tile drain belonging to these men who have agreed to accept the sum of $350.00 for the damage to their ground and crop loss, plus the sum of $147.94 for replacement of the drain tile. He recommended that they be paid these amounts. The Commission approved the payments and instructed that a proper release be obtained.

The Engineer presented a form of agreement with Clackamas County concerning abandonment of a portion of the Clackamas Secondary Highway because of realignment of the highway at the Clackamas Railroad Overcrossing. This agreement, the Engineer stated, provides that the County will accept jurisdiction over the old section of the Clackamas Highway. The Commission approved the agreement.

The Engineer then reported that construction of the Clackamas Railroad Overcrossing Section on the Clackamas Secondary Highway has been completed and opened to public travel, and under the terms of an agreement previously entered into with Clackamas County, the old section of the Clackamas Secondary Highway can now be formally turned over to the jurisdiction of Clackamas County. He presented a resolution to accomplish this purpose. The Commission approved the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission considered a revised form of "Confidential Financial Statement, Equipment and Experience Questionnaire" to be used in determining the prequalification of highway contractors. The Secretary stated that the form has been shortened and revised in conformity with a request made by the Associated General Contractors for a prequalification form that can be used by all governmental agencies in Oregon who come under the prequalification law. The form, he continued, has not been changed in its fundamentals but has been modernized. The Commission, by unanimous vote, approved the new form.

The Commission considered and, upon favorable recommendation by the Engineer, approved a supplemental throughway agreement with Polk County pertaining to the Wallace Bridge-Sheridan Unit of the Valley Junction-Sheridan Section of the Salmon River Highway. The Engineer explained that the original agreement was dated January 26, 1956, and that the supplemental agreement provides, among other things, for conveyance to the County of rights of way acquired for the widening and reconstruction of a county road and for the closure of County Road No. 6714.

The Commission accepted the Secretary's report on papers signed by him in behalf of the Commission during the period of December 14, 1956 to January 17, 1957.

The Commission discussed a date for its next regular Commission meeting and decided to hold such meeting in Portland on Thursday and Friday, February 28 and March 1, 1957. The Commission also set Thursday and Friday, March 28 and 29 as the date for its next following meeting. The Secretary was instructed to arrange to hold these meetings in the Queens Room of the Imperial Hotel.

Attention was given to a claim submitted by Gus Luellwitz in the amount of $228.89 for repairing and relocating a water pipeline near the Odell Lake maintenance station on the Willamette Highway. An investigation was made, the Engineer stated, and it was finally resolved that

highway employees were responsible for the damage while performing grading work preparatory to the construction of a trailer-house shelter. The Legal Department, he said, has reviewed the matter carefully and has determined that Mr. Luellwitz' current use permit from the U. S. Forest Service is a valid permit and that the State is legally liable for the damage. He recommended, therefore, that the claim for $228.89 be paid. The Commission approved the payment.

The Engineer presented and the Commission approved three agreements with the Idaho Power Company covering the furnishing of electrical energy for illumination and signalization at three locations on the Olds Ferry-Ontario Section of the Old Oregon Trail in Malheur County.

An agreement with Chenowith Irrigation Cooperative, Inc., The Dalles, was presented by the Engineer. This agreement, he advised, pertains to the rearrangement of the cooperative's facilities to permit construction of the Chenoweth-The Dalles Section of US30. In connection with this permit it is necessary to issue a pipeline permit, and because the pipeline permit will vary materially from the type of permit which the Director of Permits is authorized to issue, he recommended that the Commission specifically approve the issuance of this permit, to be signed by Mr. G. S. Paxson, Assistant State Highway Engineer. The Commission approved the agreement and the recommendation concerning the pipeline permit. Mr. Paxson was authorized to sign the permit.

The Engineer reported that a serious slide condition has developed at the summit of Roberts Mountain on the Shady-Booth Ranch Section of the Pacific Highway in Douglas County. A large amount of material on the westerly side, he stated, is moving onto the roadway and it appears that approximately 136,000 cubic yards of it will have to be removed at an estimated cost of $165,000. Participation by the Bureau of Public Roads is being requested on the interstate fund basis of 90 percent by the Federal Government and 10 percent by the State. He recommended approval of a project authorization in the amount of $165,000 so that a contract may be let for the work in time to avoid delay in opening this important section of highway. The Commission approved the project as recommended.

The matter of rerouting the Silver Creek Falls Secondary Highway No. 163, in Salem, was brought up for discussion by the Engineer. He advised that the 12th Street project has been completed by the contractor and that it is now in order for the Commission to take formal action re-routing this highway in conformity with previously approved plans. He mentioned that the new route will be along 12th Street from State Street to Marion Street; thence west on Marion Street to Capitol Street for westbound travel, and on Center Street from Capitol Street to 12th Street for eastbound travel. He recommended approval of such routing. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The meeting recessed at 12:00 noon and reconvened at 2:30 p. m., with the same persons present and participating.

The Commission discussed with the Engineer the bids received at the morning session and at 3:00 p. m. Commissioner Reynolds announced awards of contracts as follows:

"Rock production project on the Myrtle Point-Camas Valley Section of the Coos Bay-Roseburg Highway in Coos and Douglas Counties: The Commission awarded the contract to C. C. Meisel, McMinnville, the low bidder at $48,500.00

"Rock production project on the Azalea-Mackin Gulch Section of the Pacific Highway in Douglas and Josephine Counties: Calkins Crushing Co., Oceanlake, submitted the only bid for this project at $30,5 00.00. The Commission rejected the bid as being too high.

"Grading on the Missouri Bottom-Fords Bridge Unit, Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County: The Commission awarded the contract to Kuckenberg Construction Co., Portland, who submitted the low bid at $1,049,843.00

"Traffic signal installation in Eugene in Lane County: Trowbridge Electric Co., Roseburg, submitted the only bid received at $7,795.00. The Commission awarded the bid to Trowbridge Electric Co., Roseburg.

"Construction of camping area and roadways in the Big Creek Park Overnight Camp Expansion Project in Lincoln County: The Commission awarded the contract to Angell Bros., Eastside, who submitted the low bid at $6,783.

"Construction of utility building and service facilities for 20 trailer stalls in Big Creek Park Camp Facilities Expansion Project in Lincoln County: The Commission awarded the contract to the low bidder, Robert I. Randolph, Salem, at $18,211.00.

"Paving on the Sublimity Gun Club-Stout Creek Section of the North Santiam Highway in Marion County: The Commission awarded the contract to Roy L. Houck & Sons, Salem, who submitted the low bid of $560,153.20.

"Construction of camp area, roadways and footpaths in the Cape Lookout Park Overnight Camp Expansion Project in Tillamook County: The Commission awarded the contract to Eugene Gardens, Eugene, who submitted the low bid of $15,827.70.

"Construction of latrine and utility building in the Cape Lookout Park Camp Facilities Expansion Project in Tillamook County: The Commission awarded the contract to Lloyd G. Sperling, Tillamook, the low bidder at $34,719.23.

"Paving on the Tillamook-Donaldson Section of the Wilson River Highway in Tillamook County: The Commission elects to accept the low bid of Calkins Crushing Co., Oceanlake, in the sum of $289,226.20 and directs the State Highway Engineer to award the contract to said bidder as soon as

necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading, oiling and construction of two concrete bridges on the Cayuse-Thornhollow Section of the Adams-Cayuse County Road in Umatilla County: The Commission elects to accept the low bid of Vernie Jarl, Gresham, in the sum of $183,445.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Umatilla County is received and the sum of $41,550.00 is deposited by the County.

"Rock production on the Pendleton-Hilgard Section of the Old Oregon Trail in Umatilla and Union Counties: The Commission awarded the contract to the low bidder, Umatilla Ready Mix Co., Umatilla, at $49,950.00.

The Commission signed the following agreements and other papers:

"Indentures of Access" on the following properties.

a. Newvine property on Mt. Vernon-John Day Section of John Day Highway, Grant County.

b. Clarence Jones property on Jones Ranch-Mitchell Section of Ochoco Highway, Wheeler County.

"Indenture" quitclaiming to Mr. and Mrs. John D. Wilmarth certain real property adjacent to Oregon Coast Highway in vicinity of Fishery Point, Tillamook County, in exchange for quitclaim by Mr. and Mrs. Wilmarth of property located inside the right of way of Oregon Coast Highway at this location.

"Supplemental Agreement" with Corps of Engineers to allow for extension of the completion date from July 1, 1956, to October 30, 1959, for paving the Columbia River Highway (US30) between Big Eddy and Blalock.

"Letter" to Commissioner of Public Roads, Washington, D. C., covering revisions in Umpqua Highway Project in existing 1957 and 1958 fiscal year Forest Highway Programs.

"Supplemental Throughway Agreement" with Polk County covering Wallace Bridge-Sheridan Unit, Valley Junction-Sheridan Section of Salmon River Highway.

"Abandonment Agreement" with Clackamas County covering the Clackamas Railroad Overcrossing Section of the Clackamas Highway No. 171. (Contract completed August 1956)

"Agreement" with Idaho Power Company for furnishing electrical energy for illuminating and signalizing the Olds Ferry-Ontario Section of the Old Oregon Trail, Malheur County.

"Agreement" with Chenowith Irrigation Cooperative, Inc., The Dalles, covering relocation of the Cooperative's water supply distribution system and facilities on Chenoweth Creek-The Dalles Section of the Columbia River Highway, Wasco County, necessitated by construction of this highway section.

"Easement and Agreement" with Southern Pacific Co. covering encroachments on the right of way on the Ashland Undercrossing-Helman Street Section of the Pacific Highway in Ashland.

"Agreement" with City of Eugene covering the traffic signal installation at 6th and 7th Avenues at Pacific Highway in Eugene. (Authorized 9-27-56.)

"Agreement" with J. L. Campbell covering their operation of the Silver Falls Lodge, Silver Falls State Park, for one year beginning January 1, 1957 and ending December 31, 1957.

"Bargain & Sale Deed" to Everett L. Darr for a parcel of land on the Laurel Hill-Still Creek Section of the Mt. Hood Highway in Clackamas County. (Authorized 9-27-56.)

"Bargain & Sale Deed" to Leonard B. Opheim for a parcel of land on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County. (Authorized 12-17-56.)

"Bargain & Sale Deed" to Orville Paulin for a parcel of land on the Beaverton-Forest Grove Section of the Tualatin Valley Highway in Washington County. (Authorized 12-17-56.)

"Bargain & Sale Deed" to Forrest H. Tower for a parcel of land on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County. (Authorized 12-17-56.)

"Bargain & Sale Deed" to Clarke T. Wheelbarger for a parcel of land on the Barbur Blvd.-White School Section of the W. Portland-Hubbard Highway in Washington County. (Authorized 12-17-56.)

"Bargain & Sale Deed" to Bernard F. Schreiner for a parcel of land on the Gervais-Hayesville Unit of the Portland-Salem Expressway in Marion County. (Authorized 12-17-56.)

"Minutes of Hearing in Albany on May 23, 1956.

"Minutes of November 8 and 9, 1956 and December 17 and 18, 1956 meetings.

The meeting adjourned at 3:30 p.m., to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
January 23, 1957

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Acting Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows were opened and read aloud by the Secretary who announced that the Commission would award contracts in the same room at 2:30 p.m.:

CLATSOP COUNTY
CONSTRUCTION OF CAMP AREA AND ROADWAYS IN FORT STEVENS PARK OVERNIGHT CAMP EXPANSION PROJECT

Parker & Fuhrman, Portland	$ 11,988.00
Grimstad & Vanderveldt, Astoria	13,654.50
Barger Construction Co., Gresham	13,820.00
Keizer Sand & Gravel Co., Salem	15,287.00
Henry H. Miller Contractors, Inc., Roseburg	16,546.00
Hamson & Myers, Oswego	23,619.00

CLATSOP COUNTY
CONSTRUCTION OF LATRINE AND UTILITY BUILDING IN FORT STEVENS PARK CAMP FACILITIES EXPANSION PROJECT

Robert I. Randolph, Salem	$ 33,198.46
Enoch I. Maerz, Salem	34,300.90
P. S. Lord Mechanical Contractors, Portland	36,798.00
Grimstad & Vanderveldt, Astoria	37,276.00
Engineering Construction Co., Inc., Portland	43,899.37

JOSEPHINE COUNTY
PAVING ON THE LOUSE CREEK-GRANTS PASS SECTION OF THE PACIFIC HIGHWAY

Central Paving Co., Independence	$ 462,550.60
The Central Heating Co., Ore. Ltd., Eugene	464,211.00

JOSEPHINE COUNTY
HAYES HILL-W. FORK ILLINOIS RIVER ROCK PRODUCTION PROJECT ON THE REDWOOD HIGHWAY

John R. Saxton, Roseburg	$ 27,435.00
Marlin Tryon, Fort Dick, California	37,785.00

POLK COUNTY
ILLUMINATION INSTALLATION ON THE DOLPH CORNER-RICKREALL SECTION OF THE WILLAMINA-SALEM HIGHWAY

J. J. Walton, Salem	$ 6,293.00
Rochat Electric, Portland	6,450.00
Trowbridge Electric Co., Roseburg	6,600.00
Olson Electric Co., Vancouver, Wn.	7,589.00

WALLOWA COUNTY
ENTERPRISE ROCK PRODUCTION PROJECT ON THE WALLOWA LAKE AND ENTERPRISE-LEWISTON HIGHWAYS

J. F. Konen Construction Co., Inc., Lewiston Idaho	$ 51,375.00
Barney B. Helser, Beaverton*	55,350.00
N. A. Toole Construction Co., Ontario	59,100.00
C. E. Leseberg, Nyssa	91,020.00

*Bidder will not accept award of more than one contract.

WHEELER AND GILLIAM COUNTIES
THIRTYMILE CREEK-SERVICE CREEK ROCK PRODUCTION PROJECT ON THE JOHN DAY HIGHWAY

Barney B. Helser, Beaverton*	$ 40,990.00
Vernie Jarl, Gresham	43,150.00
Allum Bros., Eugene	54,400.00

*Bidder will not accept award of more than one contract.

YAMHILL COUNTY
PAVING AND TEMPORARY CONNECTION OILING ON THE WALLACE BRIDGE-SHERIDAN SECTION OF THE SALMON RIVER HIGHWAY

Central Paving Co., Independence	$ 491,399.50
Parker-Schram Co., Portland	504,894.60
Newport Construction Co., Portland	521,566.25
Warren Northwest, Inc., Portland	569,884.00

January 23, 1957

Paving and temporary connection oiling on Wallace Bridge-Sheridan Section of the Salmon River Highway, (Cont)

The Central Heating Co., Ore. Ltd., Eugene	$ 586,541.00
Porter W. Yett, Portland	587,429.90

LAKE COUNTY
LAKEVIEW ROCK PRODUCTION ON 3 STATE HIGHWAYS IN THE VICINITY OF LAKEVIEW

L. A. Decker, Lakeview	$ 27,050.00
Allum Bros., Eugene	30,000.00
Asphalt Paving Co., Klamath Falls	44,900.00

At 10:10 a.m., Mr. F. A. Query, Assistant Secretary, arrived from Salem with a bid from J. J. Walton, Salem, for the illumination installation on the Dolph Corner-Rickreall Section, on which project bids were read at 9:00 a.m. He stated that the bid was handed to him at about 4:50 p.m. on the previous day in the Salem Office of the Highway Department, and that although he had left Salem at 7:15 this morning, he had been unavoidably delayed enroute by a traffic jam on Barbur Boulevard caused by snow and ice. The Acting Chief Counsel who was consulted by the Commission, gave as his opinion that the bid is a legitimate one, inasmuch as it was in the custody of a Commission representative prior to the bid opening. In view of this information, the Commission decided unanimously to accept the bid and consider it along with others that were received for this particular project. The bid thereupon was opened and read aloud by the Secretary.

A delegation representing the Oregon Roadside Council came before the Commission concerning legislation to prohibit signboards along the Old Oregon Trail and the Pacific Highway, which are interstate highways. The following people were present: Messrs. Harold Gill, President, Oregon Roadside Council; Thornton T. Munger, Vice President; and E. B. MacNaughton, Past President; all of Portland. Mr. Gill, who acted as spokesman, asked the Commission to support them in sponsoring legislation which would do away with such signboards. Chairman Chandler stated that the Commissioners feel that as a commission, they cannot support legislation which is not strictly a highway matter, however, as an individual and a private citizen each is in sympathy with the objectives of the Roadside Council. Commissioner McIver stated that he is of the same opinion as the Chairman, and that the Commission's interest in roadside signs cannot extend beyond the safety and convenience of the traveling public. Mr. MacNaughton inquired as to why the Commission cannot acquire rights from property holders when land is purchased so as to control signboards. It

was his feeling that construction of a new highway, such as the Baldock Freeway, created additional values to the adjoining property owners and that they should not be allowed to capitalize on such increased value by selling space for billboard erection. He urged the Commission to try to get the additional authority that is needed to control signs. The Acting Chief Counsel pointed out that the Commission's authority to spend highway funds is strictly limited by law. He recalled that the 1955 legislative assembly passed a mild law to restrict billboard advertising which limits the actions of the Commission. Highway revenues, he continued, are carefully guarded for highway purposes and the matter of restricting billboards is not in that category. Commissioner McIver pointed out that the Highway Commission is now under considerable criticism because a segment of the public believes that the Commission has too much authority. Pressure to restrict billboards, he stated, would be far more effective if it came from public groups rather than asking the Highway Commission to exert its influence. Mr. Munger stated that the Oregon Roadside Council is considering the sponsoring of a bill which will give the Highway Commission authority to acquire sign rights from property holders. The Engineer pointed out that in the operation of its plan for improvement of interstate highways, the Federal Government is working in the direction of restricting roadside advertising, but so far it has not provided funds to finance it. The Commission took no further action on this matter.

A delegation from Tillamook County came before the Commission concerning improvement of the Oregon Coast Highway between Bay City and Garibaldi, construction of a new bridge across Tillamook River on the Netarts Highway, and additional improvements on the Little Nestucca Highway. The following people were present: O. E. Effenberger, Tillamook County Judge; Charles Ross, Chairman, Tillamook County Highway Committee; F. H. Guyton, Highway Committee of Chamber of Commerce; Wesley Schulmerich, Tillamook County Commissioner; all of Tillamook; Verne Ayers, Manager, Oregon Coast Association, Newport; Donald B. McRae, City Councilman; Burford Wilkerson, Manager, Chamber of Commerce; Earl K. Sweet, Highway Committee of Chamber of Commerce; and Mark Edmonston; all of Garibaldi. Judge Effenberger headed the group and introduced the members. He urged favorable consideration by the Commission on their projects. Mr. Ross, commenting on the Bay City-Garibaldi improvement, stated that the Garibaldi City Council has considered the several routes that the Highway Engineers have studied for this improvement and has voted in favor of the "low alternate" route as being in the best interests of their community, and they want that route given first consideration. Mr. McRae commented that people in Garibaldi, although not unanimously in favor of the "low alternate" route, are primarily concerned in eliminating excessive curvature in this section and would probably favor any reasonable location which would reduce the curvature.

Mr. Guyton called attention to the extremely narrow bridge across Tillamook River on the Netarts Secondary Highway just west of the City of Tillamook. This bridge, he stated, should be replaced on new alignment.

The Engineer said that all available funds have been allocated for the present two-year program, which does not include this bridge, and no provision has been made for it in any future program. Judge Effenberger pointed out the need for a new bridge to accommodate log trucks which have difficulty in negotiating the present bridge. Mr. Schulmerich urged improvements to the Little Nestucca Secondary Highway, particularly at the east (Dolph) end. He recalled that several years ago new bridges were constructed on this highway but very little was done to improve the rest of the road. Traffic over the road, he said, is mostly local as the road is not good enough to serve as a tourist attraction. He pointed out that if the east end of the highway is improved it will allow a great many products from the Nestucca valley, including logs, to move to the east. On the western end of the highway, which is now improved to a gravel surface, the residents are desirous of having the most westerly two-mile section oiled to allay the dust condition in the summer and mud and pot holes in the winter. Judge Effenberger stated that they would appreciate having the State Highway Engineer look over these various problems with them. This concluded this conference.

The meeting recessed at 11:10 a.m. and reconvened at 2:00 p.m. in the same room, with the same persons present and participating.

Mr. Herman Oliver, former member of the State Highway Commission, from April 1, 1940 to March 31, 1943, called on the Commission concerning improvement on US395 immediately north of the city of John Day. The existing highway, he stated, now follows Beach Creek south and westerly to Mount Vernon and then easterly to John Day. He urged construction of a cutoff route from a point north and east of Mount Vernon which would extend southerly and easterly, thereby reducing the distance several miles. He pointed out that a great many cattle are shipped from Central Oregon over the John Day Highway because of its water-grade route but much improvement of the highway is needed as many sections are very crooked and narrow. Truckers, he continued, are reluctant to haul heavy loads over the Ochoco summit west of Mitchell because of a great deal of adverse grade. He thanked the Commission for work which has been performed on the Central Oregon Highway east and west of Burns. The Engineer mentioned that $500,000 has been allocated for improvement of the John Day Highway over Butte Creek summit and that a survey has been completed of the section from John Day to Loos School, and another survey is now underway. There followed a general discussion of highway matters in Grant County without action.

Mr. R. J. Bettendorf, Manager, Port of Astoria, and Mr. Charles DeFoe, Manager, Chamber of Commerce, both of Astoria, came before the Commission concerning the proposed bridge across the Columbia River at Astoria. Mr. Bettendorf stated that he was somewhat surprised that news reports had indicated that the bridge is practically a dead issue, whereas people who are interested in the bridge have no intention of abandoning efforts to secure it. On January 31, 1957, he stated, the House and Senate Highway Committees of the Washington legislature will hold a

joint hearing in Olympia, Washington, concerning this bridge and among other things, they are going to ask how far the States of Oregon and Washington will cooperate in construction of the bridge. He urged the Commission to authorize at least one representative to attend this meeting. There is a good possibility, he said, that some members of the Oregon Legislature will also attend the meeting. He then mentioned that US101 where it crosses the Columbia River between Astoria and Megler presently is not designated as a part of the federal highway system. He urged appropriate action to secure such designation, which in his estimation, will help solve the financial problem. Chairman Chandler stated that the Commission has authorized Mr. Williams, State Highway Engineer, and Mr. Paxson, Assistant Highway Engineer, to attend the meeting on January 31. Commissioner Reynolds stated that the Commission is very much interested in the project and is of the feeling that it should go forward if some feasible method of financing it can be found. Chairman Chandler stated that the Commission will instruct the Engineer later as to just how far the Commission will allow him to go in making commitments at the meeting in Olympia, January 31.

Mr. DeFoe complimented the Commission on the excellent results obtained by the Travel and Information Department in its tourist advertising campaign. He stated that the Astoria Chamber of Commerce wants to erect large signboards at the east and west city limits of Astoria and at the ferry landing at Megler, containing information for tourists, and they would also like to make arrangements for construction of turnouts at these locations. He asked the Commission to approve their project. The Commission instructed the Engineer to investigate the requests and submit a report.

Following departure of the delegation, the Commission conferred with the Engineer regarding information that can be released at the Olympia hearing, January 31. The Engineer said that, in his opinion, the State of Oregon could probably contribute about $250,000 per year for a period of 10 or 12 years, to match a like amount of Washington money, and that this expenditure could be largely justified by the present deficit in ferry operations, and more so if an additional ferry is required, which very likely will be in the not distant future. The Washington Highway Director, Mr. W. A. Bugge, had indicated, the Engineer said, that the State of Washington might contribute a like amount. Commissioner Reynolds gave as his opinion that the Highway Commission should cooperate to as great an extent as is possible without hurting statewide projects. He inquired if it is feasible to designate a section across the Columbia River between Astoria and Megler as a primary highway and as a part of route US101. The Engineer replied in the negative, stating that the State of Oregon could designate only as far as the middle of the river. Commissioner McIver then inquired if the Engineer in meeting with the Washington people on January 31, intends to bring into the discussion construction of a bridge at some other location than at Astoria. He pointed out that if the bridge were to be placed upstream 10 or 12 miles, the cost might be greatly reduced. It was his opinion that the matter of locating the bridge upstream should be discussed with the Washington representatives.

The Engineer replied that an investigation was made in 1946 concerning an upstream location and it was determined that the cost to build a bridge at that point would be approximately one-half of the cost of constructing it at Astoria. Most of the tourist traffic, he stated, would not be inconvenienced by the upstream location but the people of Astoria are not in favor of it.

The Commission discussed with the Engineer, bids received at the morning session, and at 2:30 p.m. Commissioner McIver announced awards of contracts as follows:

"Construction of a camp area and roadways in Fort Stevens Park Overnight Camp Expansion Project in Clatsop County: The Commission awarded the contract to the low bidder, Parker & Fuhrman, Portland, for $11,988.00.

"Construction of a latrine and utility building in the Fort Stevens Park Camp Facilities Expansion Project in Clatsop County. The Commission awarded the contract to the low bidder, Robert I. Randolph, Salem, for $33,198.46.

"Paving on the Louse Creek-Grants Pass Section of the Pacific Highway in Josephine County: The Commission awarded the contract to the low bidder, Central Paving Co., Independence, for $462,550.60.

"Rock production project on on the Hayes Hill-West Fork Illinois River Section of the Redwood Highway in Josephine County: The Commission awarded the contract to the low bidder, John R. Saxton, Roseburg, for $27,435.00.

"Illumination installation on the Dolph Corner-Rickreall Section of the Willamina-Salem Highway at Rickreall Junction in Polk County: The Commission awarded the contract to the low bidder, J. J. Walton, Salem, for $6,293.00.

"Rock production project on the Wallowa Lake and Enterprise-Lewiston Highways in Wallowa County: The Commission awarded the contract to the low bidder, J. F. Konen Construction Co., Inc., Lewiston, Idaho, for $51,375.00.

"Rock production project on the Thirtymile Creek-Service Creek Section of the John Day Highway in Wheeler and Gilliam Counties: The Commission awarded the contract to the low bidder, Barney B. Helser, Beaverton, for $40,990.00.

"Paving on the Wallace Bridge-Sheridan Section of the Salmon River Highway in Yamhill County: The Commission awarded the contract to the low bidder, Central Paving Co., Independence, for $491,399.50.

"Lakeview rock production project on three State highways near Lakeview in Lake County: The Commission awarded the contract to the low bidder, L. A. Decker, Lakeview, for $27,050.00.

The State Parks Superintendent stated that Mr. Badley, who operates a tourist business at Otter Crest on the Oregon Coast Highway, has offered objections to the use of the word, "Lookout", on the sign that the Highway Commission is maintaining at the concession building at Depoe Bay. Mr. Badley alleges that the use of the word, "Lookout", infringes on his rights, as he has used that word in connection with his establishment for a long time, he has threatened to institute legal proceedings. The Commission decided not to change the name of the building at Depoe Bay, and instructed the Park Superintendent to endeavor to work out something with Mr. Badley.

There being no further business to consider, the meeting was declared adjourned by Chairman Chandler at 3:00 p.m.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

JANUARY 22 and 23, 1957

EXHIBIT "A"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

WEST UNIT-SANDY-FOREST BOUNDARY SECTION - MT. HOOD HIGHWAY

25578 Brown, Laura P. and Fred O. (Stuntz)
Right of Way
Option expires June 12, 1957

0.55 acre at $1,000 per acre	$ 550.00	
House, 1,308 sq.ft., garage, lily pond, ch. house	10,706.00	
Timber	62.00	
Severance damage	600.00	
Amount to be paid owners - chrg to Right of Way		$11,918.00

Grantors to vacate 60 days from notice or 5 days after receipt of payment or enter into rental agreement.

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of two parcels of land on Interstate Avenue of the Pacific Highway West described as follows:

Parcel No. 1 - A parcel of land lying in Lots 20 thru 23 inclusive, Block 2, Kenton in the City of Portland, Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the S W corner of said Lot 23; thence North along the West line of said Lot 23 a distance of 72.42 ft. more or less to a line which is parallel to and 50 ft. Southerly of the center line of the Pacific Highway West; thence S 64° 21' E parallel to said center line 110 ft. more or less to the East line of said Lot 20; thence South along said East line 24.3 ft. more or less to the S E corner of said Lot 20; thence West along the South line of said Block 2 a distance of 100 ft. to the place of beginning, containing 0.11 acre.

Parcel No. 2 - A parcel of land lying in Lots 7 thru 12 inclusive of Block 42, Kenton in the City of Portland, Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the S W corner of said Lot 7; thence North along the West line of said Lot 7 a distance of 83.26 ft. more or less to a line which is parallel to and 50 ft. Southerly of the center line of the Pacific Highway West; thence S 64° 21' E parallel to said center line 165 ft., more or less, to the East line of said Lot 12; thence South along said East line 11.08 ft., more or less, to the S E corner of said Lot 12; thence West along the South lines of said Lots 7 to 12 inclusive to the place of beginning.

The parcel of land to which this description applies contains 0.16 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found

EXHIBIT "B-1" (Cont)

and estimated to be the sum of $4,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 28 be entered in the minutes and records of the Commission as of the 22nd day of January, 1957.

EXHIBIT "B-2"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Unit 5 of the Banfield Expressway described as follows:

A parcel of land lying in Lots 1 & 16, Block 3, Jonesmore Addition of Section 32, Township 1 North, Range 2 East, W.M., Multnomah County, Oregon. The said parcel being described as follows:

Beginning at the Southeast corner of Lot 1, Block 3, Jonesmore Addition, thence northerly along the easterly Lot line of said Lot 1 a distance of 30 ft.: thence westerly to a point on the line between said Lots 1 and 16 which point is 27 feet North of the Southwest corner of said Lot 1; thence westerly to the Southwest corner of said Lot 16; thence easterly 206 feet to the place of beginning.

The parcel of land to which this description applies contains 4326 sq. ft.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 29 be entered in the minutes and records of the Commission as of the 22nd day of January, 1957.

27728

EXHIBIT "B-3"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Albany Section of the Pacific Highway East described as follows:

A parcel of land lying in the Anderson Cox DLC No. 49, also lying in the S E quarter of Section 5, Township 11 S, Range 3 W, W.M., Linn County, Oregon, and being a portion of that tract conveyed to the State of Oregon, by and through its State Highway Commission by Deed recorded in Book 151, Page 530 of Linn County Records of Deeds; the said parcel being described as follows:

Beginning at an iron pipe at the Southeast corner of said property, said corner also being the Southwest corner of Lot 16 of Waverly Fruit Farm Tracts, said corner being also 2185 feet South and 1610 feet West of the Northeast corner of said Claim No. 49; thence South 88° 28' 00" West along the Southerly line of said property 140 feet; thence North 23° 14' 30" East 143.18 feet; thence North 01° 27' 30" West 85 feet; thence North 46° 27' 30" West 129 feet, more or less, to a line which is parallel to and 85 feet Southeasterly of the center line of the Pacific Highway East; thence Northeasterly along said parallel line 215 feet, more or less, to the Easterly line of said property; thence South 01° 27' 30" East along the Easterly line of said property 434 feet, more or less, to the point of the beginning.

The parcel of land to which this description applies contains 1.02 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,020.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission, be and he hereby is authorized and instructed to advertise

the said property for sale in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway East.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 30 be entered in the minutes and records of the Commission as of the 22nd day of January, 1957.

EXHIBIT "B-4"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Coos Bay Section of the Oregon Coast Highway described as follows:

That portion of Block 1, Town of Marshfield, according to the plat of E. B. Clement on file and of record in the office of the County Clerk of Coos County, Oregon, described as follows:

Beginning at the Southwest corner of said Block 1, thence North (along the East line of First Street North) a distance of 139.96 feet to a point which is on the Easterly prolongation of the Northerly line of Lot 3, Block 13 of said E. B. Clement Plat; thence Easterly parallel to the southerly line of said Block 1 a distance of 43 feet, more or less, to a line which is parallel to and 40 feet Westerly of the center line of the Oregon Coast Highway; thence Southerly parallel to said center line 140 feet, more or less, to the southerly line of said Block 1; thence westerly along said southerly line 33 feet, more or less, to the place of beginning.

The parcel of land to which this description applies contains 0.12 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $4,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission, be and he hereby is authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED, that this Property Sale Resolution No. 31 be entered in the minutes and records of the Commission as of the 22nd day of January, 1957.

27731

EXHIBIT "B-5"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Northbound Route in Ashland Section of the Pacific Highway described as follows:

A parcel of land lying in Lots 2, 3 and 4, Block "O", Railroad Addition to Ashland, Jackson County, Oregon, the said parcel being described as follows:

Beginning at the southwesterly corner of said Lot 4; thence Northeasterly along the Northwesterly lines of said Lots 4, 3 and 2 a distance of 60 ft., more or less, to a line which is parallel to and 30 ft. southwesterly of the center line of the Northbound Route in Ashland of the Pacific Highway; thence southeasterly along said parallel line 120 ft., more or less, to the Southwesterly line of said Lot 4; thence Northwesterly along said Southwesterly line of Lot 4 a distance of 105 ft., more or less, to the place of beginning.

The center line herein referred to being described as follows: Beginning at Engineer's center line station 26+77.96, said station being 60 ft. North and 147.2 ft. West of the monument at the intersection of Second and "G" Streets; thence on a 716.2 ft. radius curve right (the long chord of which bears S 47° 24' E) 470 ft. to Station 31+47.96.

The parcel of land to which this description applies contains 0.08 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of property shall be

EXHIBIT "B-5" (Cont)

subject to a 5 ft. slope easement and a 20 ft. driveway easement opposite approximate Station 30+125.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 32 be entered in the minutes and records of the Commission as of the 22nd day of January, 1957.

27733

EXHIBIT "B-6"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land on the Northbound Route in Ashland of the Pacific Highway described as follows:

A parcel of land lying in Lots 26, 27, 28, 29 and 30 of Block "O", Railroad Addition to Ashland, Jackson County, Oregon, the said parcel being described as follows:

Beginning at the Southwesterly corner of said Lot 26; thence Easterly along the Southerly line of said Lot 26 a distance of 25 ft. to the true point of beginning; thence Northerly parallel to the Westerly line of said Lot 26 a distance of 25 ft. to the Northerly line of said Lot 26; thence Westerly along said Northerly line 25 ft. to the Northwest corner of said Lot 26; thence Northerly along the Westerly lines of said Lots 27, 28, 29 and 30 a distance of 83 ft., more or less, to a line which is parallel to and 30 ft. Southwesterly of the center line of the Northbound Route in Ashland of the Pacific Highway; thence Southeasterly along said parallel line 155 ft., more or less, to the Southerly line of said Lot 26; thence Westerly along said Southerly line 85 ft., more or less, to the true point of beginning.

The center line herein referred to being described as follows: Beginning at Engineer's center line Station 26+77.96, said station being 60 ft. North and 147.2 ft. West of the Monument at the intersection of Second and "C" Streets; thence on a 716.2 foot radius curve right (the long chord of which bears S 27° 24' E) 470 ft.; thence S 28° 36' E 652.34 ft. to Station 38+00.3.

The parcel of land to which this description applies contains 0.12 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value

EXHIBIT "B-6" (Cont)

thereof found and estimated to be the sum of $5,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of property shall be subject to a 5 ft. slope easement.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 33 be entered in the minutes and records of the Commission as of the 22nd day of January, 1957.

27735

EXHIBIT "B-7"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of a parcel of land on the Pacific East Highway on the Salem By-pass Section described as follows:

A parcel of land lying in the Towner Savage D.L.C. also in Section 12, Township 7 S, Range 3 W, W. M., Marion County, Oregon, and being a portion of that tract of land described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 435, Page 455 of Marion County Records of Deeds; the said parcel being described as follows:

Beginning on the West line of said D.L.C. at the N. E. corner of that tract conveyed to the State of Oregon by and through its State Highway Commission by deed and recorded in Book 460, Page 12 of Marion County Deed Records, said point being on the North line of relocated Park Lane; thence North along the West line of said D.L.C. 560 ft., more or less, to a point which is opposite and 110 ft., more or less, Westerly of Station 9+25 on the center line of the Hollywood Frontage Road., said last described point being the true point of beginning; thence Easterly at right angles to said center line 70 ft., more or less, to a line which is parallel to and 40 ft. Westerly of said center line; thence Northerly parallel to said center line 210 ft., more or less, to the West line of said D.L.C., thence South along said West line 220 ft., more or less, to the true point of beginning. Save and except that portion conveyed to the First Baptist Church of Hayesville, Oregon by deed recorded in Volume 234, Page 121, Marion County, Oregon Deed Records, which parcel was the subject of an attempted conveyance from said Organization to the First Baptist Church of Salem, recorded in Volume 235, Page 578, Marion County, Oregon Deed Records.

The parcel of land to which this description applies contains 0.15 acre, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found

EXHIBIT "B-7" (Cont)

and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 34 be entered in the minutes and records of the Commission as of the 22nd day of January, 1957.

27737

EXHIBIT "C"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4356 with Tom Lillebo for Umpqua River bridge pier protection on the Oregon Coast Highway in Douglas County, completed November 30, 1956.

"Contract No. 4485 with C. R. O'Neil for grading and paving on the Applegate River Section of the Redwood Highway in Josephine County, completed October 30, 1956.

"Contract No. 4507 with Rogers Construction Co. for furnishing crushed material in stockpiles on the Pendleton-La Grande Section of the Old Oregon Trail Highway in Umatilla County, completed November 10, 1956.

"Contract No. 4508 with Knight Pearcy for screen planting on the Judkins Point-Seven Oaks Section of the Pacific Highway in Douglas, Jackson and Lane Counties, completed December 14, 1956.

"Contract No. 4537 with Tom Lillebo for constructing Yokum bridge over Cow Creek, grading and surfacing on the Yokum Co. Road in Douglas County, completed December 20, 1956.

"Contract No. 4557 with T. W. Thomas for constructing bridge, grading and paving on the Burrell-Vale Section of the Central Oregon Highway in Malheur County, completed October 25, 1956.

"Contract No. 4562 with Coos Bay Dredging Co., Inc. for furnishing crushed material in stockpiles on the Hunter Creek-Macks Arch Section of the Oregon Coast Highway in Curry County, completed November 23, 1956.

"Contract No. 4566 with Birkemeier Construction Co. for grading and oiling on the Baker Creek Section of the Scholls Highway in Washington County, completed December 31, 1956.

"Contract No. 4571 with Sig Anderson for constructing bridge over West Fork, Millicoma River on the Coos River Highway in Coos County, completed December 30, 1956.

"Contract No. 4576 with Fred H. Slate Co., Oreg. Ltd. and E. C. Hall Co. for grading and paving on the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway in Coos County, completed November 8, 1956.

EXHIBIT "C" (Cont)

"Contract No. 4604 with Vernie Jarl for furnishing crushed material in stockpiles on the Condon Section of the John Day and Wasco-Heppner Highways in Gillian County, completed December 7, 1956.

"Contract No. 4646 with Calkins Crushing Co. for grading and paving on the Chehalem Mountain-Newberg Section of the Hillsboro-Silverton Highway in Yamhill County, completed December 29, 1956.

"Contract No. 4656 with Q. L. Rufener for grading and oiling on the Davis Creek-Bethel Creek Section of the Oregon Coast Highway in Coos County, completed November 27, 1956.

"Contract No. 4681 with U. S. Steel Corporation for constructing median fencing on the Harbor Drive Section of the Pacific East Highway in Multnomah County, completed December 4, 1956.

"Contract No. 4687 with General Construction Company for Nehalem River drawbridge dolphin and drawrest replacement on the Oregon Coast Highway in Tillamook County, completed December 3, 1956.

"Contract No. 4694 with Johnston & Bryant for constructing Rock Creek and Beaverton Creek bridges on the Base Line Road in Washington County, completed December 29, 1956.

"Contract No. 4710 with Inland Construction Company for constructing the undercrossing at the Rooster Rock Park Interchange on the Columbia River Highway in Multnomah County, completed December 28, 1956.

"Contract No. 4727 with Barney B. Helser for furnishing crushed material in stockpiles on the Myrtle Point-Powers Section of the Coos Bay-Roseburg Highway in Coos County, completed January 11, 1957.

"Contract No. 4730 with Roseburg Paving Co. for grading and paving on the South Wilbur Truck Scale Site on the Pacific Highway in Douglas County, completed November 23, 1956.

"Contract No. 4768 with Trowbridge Electric Co. for installing Salem traffic signals on the Silver Creek Falls Highway in Marion County, completed December 20, 1956.

"Contract No. 4788 with Hampton C. Platt for constructing Silver Lake employees' house on the Fremont Highway in Lake County, completed January 7, 1957.

"Contract No. 4797 with Sam L. Godwin for constructing foreman's cottage in Hat Rock State Park in Umatilla County, completed January 3, 1957.

"Contract No. 4639 with J. H. Wise & Son, Inc., for constructing Olds Ferry Interchange Overcrossing on the Old Oregon Trail Highway in Malheur County, completed November 23, 1956.

EXHIBIT "C" (Cont)

"Contract No. 4798 with Cartwright Construction Co. for grading and topping on the Ladd Canyon Slide Correction Section of the Old Oregon Trail Highway in Union County, completed December 13, 1956.

"Contract No. 4801 with Ausland Construction Co. for constructing Slate Creek Bridge on the Wilderville-Grants Pass County Road in Josephine County, completed January 8, 1957.

"Contract No. 4815 with Gilbert Roberts for constructing latrines in Viento State Park in Hood River County, completed December 24, 1956.

"Contract No. 4833 with H. A. Starr Concrete, Inc., for addition to Portland Maintenance Building in Multnomah County, completed January 8, 1957."

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 58 shall be entered in the minutes and records of the Commission as of the 22nd day of January, 1957.

EXHIBIT "D-1"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve, and maintain the Cascade Locks-Viento Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

EXHIBIT "D-1" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the betterment, construction, improvement, and maintenance of highways of the state highway system and the relocating in part, widening, construction, improvement, and maintenance of the said Cascade Locks-Viento Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to a parcel of real property. The said parcel of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached Exhibit"A", under the name of the record owner or reputed owner and the Commission's file number, and said Exhibit"A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That relocating in part, widening, construction, improvement, and maintenance of the said Cascade Locks-Viento Section of the Columbia River Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 709.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with

map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 709 under the heading "Real Property Condemnation Resolutions", and said description map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27743

EXHIBIT "D-2"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That the widening, improvement and maintenance of the said

EXHIBIT "D-2" (Cont)

Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 710.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 710 under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27745

EXHIBIT "D-3"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

EXHIBIT "D-3" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 711.

EXHIBIT "D-3" (Cont)

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 711 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27748

EXHIBIT "D-4"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part and relocate in part, construct, improve and maintain the Walton-Noti Section of the Richardson-Eugene Secondary Highway; and,

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part and relocating in part, construction, improvement and maintenance of the Walton-Noti Section of the Richardson-Eugene Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interest of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That the widening in part and relocating in part, construction,

EXHIBIT "D-4" (Cont)

improvement and maintenance of the Walton-Noti Section of the Richardson-Eugene Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 712.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 712 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27750

EXHIBIT "D-5"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That the highway facilities for which the said parcel of

property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 713.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 713 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-6"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; weighing stations; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Tillamook-Donaldson Creek Section of the Wilson River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

EXHIBIT "D-6" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Tillamook-Donaldson Creek Section of the Wilson River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Wilson River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".

3. That the relocation, construction, improvement and maintenance of the said Tillamook-Donaldson Creek Section of the Wilson River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 714 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27755

EXHIBIT "D-7"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Buena Vista Ocean Wayside has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Buena Vista Ocean Wayside for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development, and maintenance of the Buena Vista Ocean Wayside fee simple title to certain parcels of real property. The said parcels of real property needed and required, and the specific use to be made thereof are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That the above-described real property and the park and recreational purposes for which it is being acquired is necessary for the convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

EXHIBIT "D-7" (Cont)

3. That the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed, and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 715.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 715 under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27757

EXHIBIT "D-8"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

EXHIBIT "D-8" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the widened and improved Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".

3. That the widening, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 716.

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 716 under the heading "Real Property Condemnation Resolution", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27759

EXHIBIT "D-9"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said

EXHIBIT "D-9" (Cont)

highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".

3. That the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "D-9" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 717.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 717 under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-10"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Beverly Beach State Park has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Beverly Beach State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development, and maintenance of the Beverly Beach State Park fee simple title to a parcel of real property located in Lincoln County, Oregon, and described as follows, to wit:

Parcel No. 1 File No. R-24036 - F. R. Salway

A parcel of land in the Southeast quarter of the Southeast quarter (SE 1/4 SE 1/4) of Section 5, and the Southwest quarter of the Southwest quarter (SW 1/4 SW 1/4) of Section 4, Township 10 South, Range 11 West, W. M., Lincoln County, Oregon, more particularly described as follows:

EXHIBIT "D-10" (Cont)

Beginning at the Northwest corner of said Southeast quarter of the Southeast quarter (SE 1/4 SE 1/4) of Section 5, thence East along the North line of said Southeast quarter of the Southeast quarter (SE 1/4 SE 1/4) Section 5, a distance of 1320 feet, more or less, to the East line of said Section 5; thence East along the North line of said Southwest quarter of the Southwest quarter (SW 1/4 SW 1/4) of Section 4 a distance of 660 feet, more or less, to the Northeast corner of the Northwest quarter of the Southwest quarter of the Southwest quarter (NW 1/4 SW 1/4 SW 1/4) of said Section 4; thence South along the East line of said Northwest quarter of the Southwest quarter of the Southwest quarter (NW 1/4 SW 1/4 SW 1/4) 450 feet; thence Northwesterly to a point in the West line of the Southeast quarter of the Southeast quarter (SE 1/4 SE 1/4) of said Section 5, said point being 100 feet South of the Northwest corner of said Southeast quarter of the Southeast quarter (SE 1/4 SE 1/4) of Section 5; thence North 100 feet to the point of beginning, containing 12.5 acres, more or less.

Parcel No. 2

A parcel of land lying in Government Lot 4, of Section 5, Township 10 South, Range 11 West, W. M., Lincoln County, Oregon, and being a portion of the following described property:

That tract of land which was conveyed by that certain deed to F. R. Salway, recorded in Book 41, Page 121, of Lincoln County Record of Deeds. The said parcel being described as follows:

Beginning at the point which is the intersection of the Easterly right of way line of the Atlantic Western Co. Railroad now abandoned and the Northerly line of said Lot 4; said point being 1339 feet North and 1818 feet West of the Southeast corner of said Section 5; thence South 89° 35' East along said North line a distance of 245 feet, more or less, to the Westerly right of way line of the old Oregon Coast Highway; thence Southwesterly along said right of way line a distance of 675 feet, more or less, to a point which is 150 feet distant Easterly from (when measured at right angles to) the relocated center line of the Oregon Coast Highway; thence North 5° 50' East parallel to said center line a distance of 136 feet, more or less, to the Easterly right of way line of said railroad; thence Northerly along said railroad

EXHIBIT "D-10" (Cont)

right of way line a distance of 392 feet, more or less, to the place of beginning, containing 1.74 acres.

2. That the above-described real property and the park and recreational purposes for which it is being acquired is necessary for the convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

3. That the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed, and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 718.

27765

EXHIBIT "D-11"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road, or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve, and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the

owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the relocation, construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number; and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest; and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking; and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to

EXHIBIT "D-11" (Cont)

said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 719.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 719 under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-12"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

EXHIBIT "D-12" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the widened and improved Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".

3. That the widening, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 720.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 720 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27770

EXHIBIT "D-13"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said

EXHIBIT "D-13" (Cont)

highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".

3. That the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

27773

EXHIBIT "D-14"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Buena Vista Ocean Wayside has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Buena Vista Ocean Wayside for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development, and maintenance of the Buena Vista Ocean Wayside fee simple title to certain parcels of real property. The said parcels of real property needed and required, and the specific use to be made thereof are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That the above-described real property and the park and recreational purposes for which it is being acquired is necessary for the convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

EXHIBIT "D-14" (Cont)

3. That the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed, and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 722.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 722 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27775

EXHIBIT "D-15"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the

owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the

EXHIBIT "D-15" (Cont)

Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 723.

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 723 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this mimute entry to the same extent as if copied in full herein.

27778

EXHIBIT "D-16"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said

highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of January, 1957, as Condemnation Resolution No. 724.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 724 under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27781

EXHIBIT "E"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, ORS 366.800 provides that:

"There shall be and hereby are appropriated out of the highway fund annually such sums of money as will equal 10 per cent of all moneys credited to the highway fund by the State Treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the highway fund by the State Treasurer under ORS 319.410, 481.540, 767.635 and from fines and penalties collected for violations of the motor vehicle and transportation laws. The appropriation shall be distributed among the several cities as provided in ORS 366.785 to 366.820."

AND, WHEREAS, ORS 366.805 provides:

"The appropriation specified in ORS 366.800 shall be allocated to the cities as follows:

(1) The sum of $250,000 shall be withdrawn from the appropriation each year and set up in a separate account to be administered by the commission.

(2) Such account shall be spent each year by the commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area of heavy and unusual industrial traffic.

(3) The commission shall determine the distribution of the expenditures after considering applications made to it therefor from the cities.

(4) The balance remaining in the appropriation after the withdrawal of the $250,000 shall be distributed to all the cities.

(5) Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, ORS 366.810 provides that:

"Funds accrued and payable to cities under ORS 366.785 to 366.820 shall be remitted semiannually by the Secretary of State to the financial officer of each city. The funds appropriated shall be apportioned on a semiannual basis immediately following June 30 and December 31

EXHIBIT "E" (Cont)

of each year by the Commission, which shall certify the apportionment to the Secretary of State. Upon receipt of such certificate the Secretary of State shall issue his warrants therefor payable to the cities in the amounts set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period July 1 to December 31, inclusive, of the year 1956, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of ORS 481.540 (motor vehicle registration and operators' license fees) total	$ 4,618,582.82
Funds resulting under the provisions of ORS 319.410 (gasoline tax) total	19,566,266.69
Funds resulting under the provisions of ORS 767.635 (motor carrier fees) total	6,933,603.64
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws total	253,407.34
	$31,371,860.49

AND, WHEREAS, the statutory ten per cent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $3,137,186.05, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period July 1 to December 31, 1956, the sum of $3,012,186.05, and

WHEREAS, by applying the factors of allocation or distribution provided for in ORS 366.800 to 366.810, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below:

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

City	Population*	Amount
Adams	202	$ 727.82
Albany	12,300	44,317.68

WHEREAS, pursuant to ORS 366.205, the State Highway Commission has jurisdiction and control over all state parks; and

WHEREAS, pursuant to ORS 366.345(2), the State Highway Commission may develop, construct, improve, operate, and maintain park facilities in a manner as will best afford the motoring public necessary conveniences and accommodations; and

WHEREAS, pursuant to ORS 366.350, the State Highway Commission may make regulations and provisions for the use and administration of such facilities, including reasonable charges for the use of accommodations provided in such parks and areas; and

WHEREAS, for the purpose of maintaining and operating such accommodations for the benefit of the motoring public, it is the judgment of the Commission that reasonable charges should be made; and

WHEREAS it is the purpose of the Highway Commission to take official action and impress upon its records the rates and charges so set;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

(1) That the Commission does hereby find and declare that the following charges are reasonable, such charges being necessary to defray the cost of special services and supplies furnished in connection with the use of accommodations in certain park facilities, to wit:

OREGON STATE PARKS DIVISION
RATES FOR PARK FACILITY USE
1957

I. CAMPING FEES

A. GROUP USE - ORGANIZATIONS

1. Silver Creek Youth Camp, Silver Falls State Park. Season June 1 to Labor Day. Camper Capacity - 100 No charge in accordance with agreement dated July 6, 1956.	No charge
2. Smith Creek Youth Camp, Silver Falls State Park. Season June 1 to Labor Day. Camper Capacity - 50	$350.00
3. North Falls Youth Camp, Silver Falls State Park.	

EXHIBIT "F" (Cont)

GROUP USE - ORGANIZATIONS (Cont)

Season June 1 to Labor Day. Camper Capacity - 150
No charge in accordance with agreement dated
September 26, 1955. ... No charge

4. Short-term permit: (up to 2 weeks) Silver Creek and Smith Creek Youth Camps, Silver Falls State Park.
Opening and closing camp when the time required for both opening and closing by the representative of the department at the camp is not in excess of two hours $5.00

Opening and closing camp when the time required for both opening and closing by the representative of the department at the camp is in excess of two hours is Two Dollars per hour for each hour or fraction thereof in excess of the first two hours. 2.00

Each person per night. .25

5. Short-term permit: (up to 2 weeks) North Falls Youth Camp and Davidson Ranch area at Silver Falls State Park, also at Emigrant Springs and Battle Mountain State Parks.

Opening and closing camp when the time required for both opening and closing by the representative of the department at the camp is not in excess of two hours. 3.00

Opening and closing camp when the time required for both opening and closing by the representative of the department at the camp is in excess of two hours is Two Dollars per hour for each hour or fraction thereof in excess of the first two hours. 2.00

Each person per night. .15

Fuel, propane gas, miscellaneous materials, breakage and losses will be charged at cost.

B. GROUP USE - YOUTH ORGANIZATIONS ONLY
(Any park where no overnight facilities are provided.)

1. Short-term permit, open area group camping for youth under 14 years of age. 20 persons or less - first night. 3.00

Each person over 20 for the first night, and per person each night thereafter. .05

EXHIBIT "F" (Cont)

C. GROUP USE - FAMILIES OR GROUPS

1. Short-term permit, overnight camping areas only where water, fuel, and toilets are provided. Per night per person. . $ .25

D. INDIVIDUAL AND FAMILY OVERNIGHT CAMPERS

1. Improved camps where water, fuel, toilet, are provided, per night per car. 1.00

2. Per night per self-propelled vehicle provided with living quarters or car and trailer with living quarters. 1.50

3. Semi-improved camps with table, stove, but water and sanitary facilities some distance away. .75

4. Final checking out time for all overnight camps to be at 3:30 P.M. after which an additional nights stay is to be charged.

II. BATHHOUSE FEES

A. JESSIE M. HONEYMAN STATE PARK

1. Children 14 years of age and under .20

2. Over 14 years of age. .40

3. Season tickets - Children under 14 years of age. 4.00

4. Season tickets - Over 14 years of age. 6.00

5. Red Cross Swimming Classes - Children under 14 years of age, 8:00 - 11:00 A.M. Free of charge

III. LANTERN FEES

A. LAVA RIVER CAVES STATE PARK

1. State-owned lanterns used for visiting the caves. .10

IV. STOVE METER CHARGES

A. ANY PARK SO FACILITATED

1. Meter-controlled units - approximately 30 minutes of electricity or gas. .10

STOVE METER CHARGES (Cont)

(2). That the above charges shall be posted within the main entrance of the above park facilities.

(3). That said charges are to take immediate force and effect for the year 1957.

(4). That this resolution be duly entered in the minutes and records of the Commission this 22nd day of January, 1957, as State Parks Resolution File No. 9.

EXHIBIT "G"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the relocated Clackamas Railroad Overcrossing Section of the Clackamas Secondary Highway No. 171 located in Clackamas County, the westerly terminus of which is at Highway Engineer's Survey Station 264+54.64 and the easterly terminus of which is at Highway Engineer's survey Station 292+41.49 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right of way is no longer needed for right of way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Clackamas County and the State Highway Commission entered into an agreement on the 24th day of December, 1956, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be abandoned to County by State as part of the Clackamas Highway by formal resolution; and that Unit "A" would be maintained thereafter by County as part of the county road system as long as needed for the service of persons living thereon, or communities served thereby; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the former right of way of the said highway referred to herein as Unit "A" as well as all the property affected by reason of said relocation;

NOW, THEREFORE, based upon the power and authority vested in the Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED that:

1. The portion of the former right of way which by reason of the relocation of the Clackamas Railroad Overcrossing Section of the Clackamas Highway is no longer needed as part of the new right of way, is identified as Unit "A" and described as follows:

Unit "A"

All the land situated within the right of way boundaries of the Clackamas Highway as formerly routed, beginning at the intersection of said highway as formerly routed and the Cascade State Secondary Highway No. 160 in the southwest quarter of the northeast

EXHIBIT "G" (Cont)

quarter (SW 1/4-NE 1/4), Section 9, Township 2 South, Range 2 East, W.M.; thence easterly and southerly via said highway as formerly routed to the northerly right of way line opposite Highway Engineer's Survey Station 292+41.49 of said highway as relocated in the northwest quarter of the southwest quarter (NW 1/4-SW 1/4), Section 10, Township 2 South, Range 2 East, W. M.

2. Pursuant to the agreement entered into with Clackamas County on the 24th day of December, 1956, Unit "A" indicated on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof, is hereby duly abandoned as part of the Clackamas Highway and the state highway system; and all right, title, and interest which the State has in the right of way of Unit "A" herein described, passes to and vests in said Clackamas County.

3. The right of way of the former and of the relocated Clackamas Railroad Overcrossing Section of the Clackamas Highway, together with the real property acquired by State for roadway right of way and other public purposes, as indicated in green on Exhibit "A" attached hereto, shall be retained and held by the State.

4. This Abandonment and Retention Resolution, No. 324, be entered in the minutes and records of the Oregon State Highway Commission as of the 22nd day of January, 1957, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Clackamas County.

FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 324 under the heading "Abandonment and Retention Resolution" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, on November 13, 1931, the Oregon State Highway Commission selected and designated, as revised on July 23, 1941, a secondary state highway which is described as follows:

> Beginning at Center Street and extending along Capitol Street from Center Street to Court Street, thence along Court Street to 12th Street, thence along 12th Street to State Street, thence along State Street to the easterly city limits of Salem, and thence along various county roads and city streets to its termini at Oak and Water Streets in the City of Silverton;

which said county roads and city streets on their selection and designation as a secondary highway were thereafter identified on the records of the Highway Commission as the Silver Creek Falls Secondary State Highway No. 163; and

WHEREAS, it is the opinion of the Commission that the rerouting of parts of said Silver Creek Falls Highway over different streets within the City of Salem will result in better alignment, and more advantageous and economical highway operation and maintenance; and

WHEREAS, said rerouting will allow the elimination of certain streets within the City of Salem from the state highway system; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the records of the disposition made of the eliminated portions or units of the state highway system;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission that:

1. The route and beginning of said route of the Silver Creek Falls Highway within the City of Salem shall be altered and the new route shall be designated as follows:

> Beginning at a junction with the Pacific Highway East and/or Capitol Street, over which said Pacific Highway is routed, and extending one-way easterly along Marion Street to 12th Street, and beginning a junction with said Pacific Highway and/or Capitol Street and extending one-way easterly along Center Street to 12th Street, thence from Marion and Center Streets along 12th Street to State Street, thence from 12th Street along State Street to the easterly city

EXHIBIT "H" (Cont)

limits of Salem, as shown in yellow on the attached Exhibit "A" which is by this reference made a part hereof, and thence on to its termini in Silverton by various county roads and city streets.

2. The portion of those streets that by reason of the rerouting of the Silver Creek Falls Highway within the City of Salem which may be eliminated from said Silver Creek Falls Highway and from the state highway system and thereby returned to the City of Salem for their jurisdiction and control, are described as follows:

That part of Capitol Street from Center Street to Court Street and that part of Court Street from Capitol Street to 12th Street, all as shown in red on said attached Exhibit "A".

3. This resolution be entered in the minutes and records of the Highway Commission this 22nd day of January, 1957, as Secondary Highway Resolution No. 38, and the Secretary is directed to mail a duly certified copy thereof to the Secretary of State.

EXHIBIT "I"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Empire-Coos Bay Secondary Highway

Highway number 243 Route number none

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
0.60 (0.13 mile east of the east city limits of Empire)	1.69 (West city limits of Coos Bay)	40
2.39 (0.14 mile east of Butler Road)	2.54 (0.29 mile east of Butler Road)	35

EXHIBIT "I" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 241 be entered in the minutes and records of the Commission as of the 22nd day of January, 1957.

EXHIBIT "J-1"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Seven Oaks-Neil Creek Section of the Pacific Highway in Jackson County, sometimes referred to as the Medford By-pass Route, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the above-mentioned final survey has indicated that the proposed route necessitates the acquisition of right of way, relocation and/or abandonment of existing portions of the Pacific Highway within incorporated cities; and

WHEREAS, pursuant to ORS 373.015 notice and hearing of such location, relocation and/or abandonment of said Pacific Highway are made necessary; and

WHEREAS, the above-mentioned final survey has indicated that the proposed route intends to by-pass certain cities and/or towns; and

WHEREAS, pursuant to Chapter 912, Section 13, Federal Highway Code, 64 Stat. 791, the Commission has held a public hearing for the purpose of considering the economic effect on the by-passing of certain towns and/or cities along the proposed route as shown by the final survey; and

WHEREAS, the Commission has considered the results of such public hearing, and in addition has had engineering surveys, traffic surveys, and agricultural marketing reports made, and other data recorded to assist them in making a proper and just conclusion; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Seven Oaks-Neil Creek Section of the Pacific Highway, beginning at Highway Engineer's Station 437+62.91, approximately two miles north of Central Point, and extending in a southerly and easterly direction along the Bear Creek-Hawthorne Park route through the

EXHIBIT "J-1" (Cont)

City of Medford to Highway Engineer's Station 1664+90, approximately three miles south of Ashland, together with the map, which for identification purposes bears map file No. _____ and the date of January, 1957, (Drawing No. 10C-29-1), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.*

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission, said section of said highway has been designated as a throughway within the meaning and purpose of ORS 374.055, commonly known as the "Throughway Law", and, for the reasons stated therein, the above named section of said highway should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law, except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That due compliance has been had with the provisions of ORS 373.015 with respect to notice and hearings concerning such proposed route.

6. That the economic advantages will far outweigh any possible economic disadvantages suffered by any city and/or town by-passed by the proposed route.

7. That this resolution be entered in the minutes and records of the Commission as of the 22nd day of January, 1957, as Survey Resolution No. 149.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 149 under the heading "Survey Resolutions", and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Hopewell Section of the Bellevue-Hopewell Secondary Highway in Yamhill County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports, and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of this Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Hopewell Section of the Bellevue-Hopewell Secondary Highway, beginning at Highway Engineer's Station 0+00, a short distance north and west of the community of Hopewell and extending in a southerly and easterly direction to Highway Engineer's Station 15+00, a short distance east of the community of Hopewell, together with the map, which for identification purposes bears Map File No. 8B-4-9 (Drawing No. 1R-5-966) and the date of January, 1957, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.*

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 22nd day of January, 1957, as Survey Resolution No. 148.

EXHIBIT "J-2" (Cont)

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 148 under the heading "Survey Resolution" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, under the provisions of ORS 366.460, the State Highway Commission may construct and maintain within the right of way of any state highway, or section thereof, sidewalks or footpaths when it appears that such are necessary in the public interest and will contribute to the safety of pedestrians, the motoring public or persons using the highway; and

WHEREAS, it has been proposed that a footpath be constructed along the Oregon Coast Highway in the community of Yachats from a point a short distance north of the post office and extending southerly to a point south of the road to Fisher; and

WHEREAS, it appears that said footpath is needed for the safety of pedestrians and school children who now use the highway shoulder for walking; and

WHEREAS, the Commission finds that construction of a footpath as herein above-described will remove pedestrian travel from the highway or the highway shoulder to the consequent safety of the traveling public and pedestrians, and that said footpath is necessary in the public interest.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. That a footpath be constructed along the easterly side of the Oregon Coast Highway from a point approximately equidistant between the post office and the school, (M.P. 177.51), and extending in a southerly direction to a point immediately south of the road to Fisher (M.P. 177.78).

2. That the State Highway Engineer is directed to proceed with the construction of said footpath.

3. That this resolution be entered in the minutes and records of this Commission as of the 22nd day of January, 1957, as Footpath Construction Resolution No. 5.

27803

EXHIBIT "L"

Minutes of January 22 and 23, 1957

R E S O L U T I O N

WHEREAS, the Tualatin Valley Highway is a primary highway under the jurisdiction of the State Highway Commission; and

WHEREAS, it appears that at the junction of said highway with Canyon Lane near M.P. 1.48, west of Portland, vehicles are parked on highway shoulders near said intersection; and

WHEREAS, the parking of vehicles on said highway section creates a hazard to the traveling public by obstructing sight distance; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on the shoulders of said highway within said section;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the southerly side of the Tualatin Valley Highway, beginning at its intersection with the southerly leg of Canyon Lane (Engineer's Station 15+30), in front of the Valley View Apartments, and extending in a southerly and easterly direction to Highway Engineer's Station 15+68, creates a hazard to the traveling public.

2. That in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the southerly side of said Tualatin Valley Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING AT ANY TIME".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

Portland, Oregon
February 28, 1957

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
R. L. May, Acting Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Chairman Chandler was excused.

Bids as follows were opened and read aloud by the Secretary who then announced that the Commission would award contracts in the same room at 4:00 p.m.

CROOK COUNTY
GRADING AND OILING EAST UNIT, CAMP CREEK-PAULINA SECTION OF THE PAULINA HIGHWAY

E. A. Kruse, Yoncalla	$ 398,465.50
Rogers Construction Co., Portland	407,864.10
R. A. Heintz Const. Co., Portland	410,000.00
Earl L. McNutt Co., Eugene	425,287.50
J. Ira McNutt Const. Co., Springfield	473,322.20
G. D. Dennis & Sons, Portland	476,505.50
Babler Bros., Inc., Portland	494,840.00
C. J. Eldon, Contractor	566,006.80

CROOK COUNTY
GRADING AND PAVING OCHOCO PARK-CROOKED RIVER SECTION OF THE OCHOCO HIGHWAY

Babler Bros., Inc., Portland	$ 41,267.00
Oregon Asphaltic Paving Co., Portland	43,954.00

27805

DOUGLAS AND JOSEPHINE COUNTIES
AZALEA-MACKIN GULCH ROCK PRODUCTION PROJECT ON THE PACIFIC HIGHWAY

Hughes & Dodd Co., Medford	$ 24,750.00
M. C. Lininger & Sons, Medford	25,830.00
C. C. Meisel, McMinnville	26,180.00
Beckley & Thomas Rock Products, Roseburg	29,230.00

JOSEPHINE COUNTY
GRADING JUMPOFF JOE CREEK-LOUSE CREEK SECTION OF THE PACIFIC HIGHWAY

Peter Kiewit Sons' Co., Vancouver, Wn.	$ 688,986.00
Natt McDougall Co., Portland	695,354.00
Durbin Bros., Eugene	709,668.00
Donald M. Drake Co., Portland	721,578.00
Kuckenberg Const. Co., Portland	725,560.00
F. L. Somers, Medford	736,270.00

Rogers Construction, Inc., Portland	115,521.00
C. C. Meisel, McMinnville	120,456.50

The Commission approved the minutes of its regular meeting held on January 22 and 23, 1957.

The State Parks Superintendent introduced Mr. J. Haslett Bell of Portland who has been employed by the Idaho Power Company to study recreational possibilities on the Snake River in connection with construction of dams at Brownlee and Oxbow. Mr. Bell stated that his study, which also includes recreational possibilities on Owyhee Reservoir, has not been completed. He outlined tentative plans for recreational development at Brownlee,

including parking facilities, camping facilities, and boat-launching ramps. In connection with the Oxbow Dam site he outlined tentative plans for the installation of parking and camping facilities near Copperfield, and the installation of commercial services at Homestead. He also said that with this study it is hoped to find a good view point for tourists to look at Hell's Canyon. In the Fairwell Bend area, he called attention to the historic crossing of the Snake River at Olds Ferry and its attraction for tourists. Farm lands are available at this spot for development of picnic, camping and boat launching facilities. A portion of the area, however, will require tree planting in order to be attractive for picnicking and camping. The Owyhee Reservoir, he stated, is located in a dry country which has little vegetation. The Reservoir area is attractive from a scenic standpoint as the bare rock in varied colors offers unique scenic values; also, bass and pan fishing is an attraction. Commissioner McIver commented that he had the impression that recreational developments on the Snake River would be used principally by Idaho residents and that development at Owyhee Reservoir would be used principally by Oregon residents. He inquired if Mr. Bell had any information as to what percentage of residents from each state would use facilities on the Snake River and at Owyhee. Mr. Bell stated that his studies so far do not provide an answer to this question. Commissioner Reynolds thanked Mr. Bell for his report and stated that the Commission is genuinely interested in the development of these areas for recreational purposes. (See ahead for further discussion).

The Parks Superintendent presented the following park matters:

1. Permit from Multnomah County for installation of a water pipe line to serve the Vista House on the old Columbia River Highway: The Parks Superintendent reported that the present pipe line which serves the Rooster Rock development, the Vista House, and others is too small to provide an adequate water supply in seasons when heavy use is required. Arrangements have been made with the Corbett Water District, and Multnomah County has issued a permit to construct the pipe line along an already unimproved roadway. Upon his favorable recommendation, the Commission approved the installation of a two-inch pipe line under provisions of a permit issued by Multnomah County.

2. Request from W. F. Badley, Otter Rock, that the State discontinue use of the word, "Lookout", in the name of the new highway building at Depoe Bay: The Parks Superintendent stated that Mr. Badley's request was referred to the Acting Chief Counsel who rendered an opinion to the effect that the wording selected by the State, "State Parks Depoe Bay Lookout" does not infringe upon the wording that is used by Mr. Badley, and that use of the descriptive words before the word, "Lookout", is such that no confusion should ensue. It was the decision of the Commission that the name of the building at Depoe Bay should not be changed.

3. Request of North Bend Chamber of Commerce that overnight camping facilities be developed at Sunset Bay State Park: The Parks Superintendent stated that the 1957 budget contains an item for a development of this sort and if the necessary land can be acquired for a reasonable figure,

construction could start very soon. He recalled that about five years ago the Commission rejected a price of $25,000 for acquisition of a parcel of land that is suitable for overnight camping facilities. The owners of the property, he said, have now indicated that they might sell for $20,000, which price is still higher than the appraised value. He felt that a smaller parcel of land could be utilized to good advantage and requested authority to secure an option on the smaller parcel, if the land can be acquired for a sum in line with the appraised value. The Commission granted authority to negotiate an option for the property as requested and instructed the Parks Superintendent to submit a report at the next meeting.

4. Request of Clatsop County Court that the Iredale Road at Fort Stevens State Park be opened for car traffic to the ocean beach: Clatsop County, the Parks Superintendent stated, at present maintains several approach roads to the beaches and closure of the Iredale Road does not prevent cars from having access to the beach. He pointed out that the County has maintained the Iredale Road for a number of years as an access point to the beach. The cost of maintenance he estimated, would be nearly $1,000 a year, and he recommended that the approach road be constructed and maintained on a trial basis. Commissioner McIver inquired as to what action the Commission could take to prevent cars from using the beaches. The Acting Chief Counsel read an excerpt from the Oregon Laws pertaining to this matter and explained that the Commission by resolution can designate areas where no cars or planes are allowed. It would probably be necessary, however, to secure concurrence from the County or the City, as the case may be, to prohibit cars from beaches. He pointed out that towns, cities, or counties can also request the Commission to prohibit cars or other vehicles from using the beaches. The Commission approved the opening and maintenance of the Iredale Road to the beach.

5. Report on proposed recreational developments by Portland General Electric Company on the North Fork Clackamas River Hydro-electric Project: The Parks Superintendent explained that the Federal Power Commission in granting licenses for dams on rivers has demanded that the licensees cooperate with the State Parks Division in planning for recreational facilities on the lake areas formed by the dams. Mr. R. C. Dunlap, Assistant State Parks Superintendent, he said, spent a day in examining the area with Portland General Electric Company officials and discussed with them their plans for recreational development. The Parks Superintendent also stated that the idea of cooperation in studies of such recreational areas is highly desirable as it will provide an opportunity to advise concerning proper provisions for recreation; also, such areas when developed will relieve the load on park areas developed with State funds. The Commission accepted the report.

6. Claim of State Board of Forestry for payment of fire protection services in the amount of $9,701.82: In the past it has been the policy of the State Forester to furnish fire protection for all timber lands under the jurisdiction of the Highway Commission, the Parks Superintendent stated, and until the year 1953 the Commission paid regular assessments for such fire protection. However, a modification of the law left the Highway

Commission without authority to pay for fire protection services from January 1, 1953 to August 3, 1955. The State Board of Forestry, the Parks Superintendent continued, has placed a bill before the 1957 Legislature which will correct the situation and authorizes payment for services rendered during this interim period. He recommended that the bill be paid when and if the Commission is legally authorized to do so, and that no opposition be offered to the proposed legislation concerning this claim. The Commission accepted his recommendation.

7. Complaint of Mrs. M. R. Moore, Corbett, against Jack Flaucher, lessee of the Vista House, concerning sale of certain food items: Mrs. Moore, the Parks Superintendent stated, objects to Mr. Flaucher's selling coffee, soft drinks and ice cream as she feels that such sales decrease the amount of business done in her establishment located nearby. Mr. Flaucher, he stated, has verbally agreed not to sell coffee in the Vista House. He recommended that no change be made in the existing contract with Mr. Flaucher pertaining to the sale of items in the Vista House. The Commission took no action at this time, pending the appearance of Mrs. Moore on the following day. (Following Mrs. Moore's appearance on March 1, the Commission decided to make no change in its agreement with Mr. Flaucher.)

8. Request of Prineville-Crook County Chamber of Commerce for permission to install a log float at Ochoco Lake State Park: Mr. Ivan J. Chappell, Manager of the Chamber of Commerce, the Parks Superintendent stated, has requested permission to install a log float to be used by boatmen and fishermen. They propose to install the float at their own expense, it being understood that park employees would take care of the float and to maintain its usefulness when the water level in the lake is changed. He recommended that they be allowed to attach the float to the park land provided proper authority can be obtained from the irrigation authorities. The Commission accepted the recommendation.

9. Progress report on proposed recreational developments for the Owyhee Reservoir: The Parks Superintendent stated that in assembling pertinent data concerning this project it has been found that approximately 43,000 people reside within a 50-mile radius of the project, of whom 23,000 are from Oregon and 20,000 from Idaho. Within a 100-mile radius the figures increase to 26,000 in Oregon and 158,000 in Idaho. He pointed out that the population increase in Malheur County from 1950 to 1956 had been estimated at 0.7 per cent. It was his feeling that the area cannot expect a large population increase unless some business is developed other than farming, but studies will be continued. He further stated that he has no recommendation to make at this time. The Commission discussed the matter briefly but took no action pending the appearance of a delegation on the following day. (See additional entry ahead.)

10. Out-of-state travel expense for the Parks Superintendent to attend Directors meeting of National Conference on State Parks in Washington, D. C., on March 7, 1957: The Commission authorized the Parks Superintendent to attend this meeting at an estimated cost of $300.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Two reports were presented by the Right of Way Engineer, one showing Miscellaneous Sales which have been made since the last Commission meeting, and the other being a Supplemental Rental Report showing terminations of rental properties and new rentals which have been made effective since the last Commission meeting. He commented that rental receipts for the month of January amounted to $8,730.08. (For details see Miscellaneous Sales Report dated February 28 - March 1, 1957, and Supplemental Rental Report, January 10 to February 18, 1957, in the General Files.)

The Commission considered a lease for land and cancellation of a former lease with Herman and Angela Brelage, and John H. and Maralee Brelage at McCullough Bridge on the North Bend Section of the Oregon Coast Highway. The Right of Way Engineer commented briefly that this matter had been considered by the Commission at a prior meeting and as a result of negotiations authorized at that time, the old lease had been cancelled and a new lease entered into for a ten-year period beginning January 1, 1957. The new lease provides that the Brelages shall pay the sum of $4,000 in ten annual installments of $400 each. Upon his favorable recommendation, the Commission approved the new lease.

The Right of Way Engineer reported that several parcels of right of way acquired for highway purposes are no longer needed or required for such purposes and he recommended that he be authorized to offer these parcels at public sale. The Commission authorized the sale of the following properties and thereupon adopted the attached resolutions relative thereto, marked EXHIBITS "B-1" through "B-6", which resolutions by this reference are made a part hereof with like effect as though extended in full herein:

a. Portions of Lots 1-2-3-4 in Block 31, of Plat "B", Coos Bay Addition to North Bend, File 9526, on the North Bend-Coos Bay Section of the Oregon Coast Highway, Coos County, with two points of unrestricted access, for a minimum price of $3,000. (SEE EXHIBIT "B-1")

b. The former Thompson property, File 8862, on the 7th Avenue Connection to the Pacific Highway in Eugene, consisting of 53,300 sq.ft. with four accesses to the highway for a minimum price of $26,650. (SEE EXHIBIT "B-2")

c. The former Boyce property, File 20800, on the Blackwell Hill-Seven Oaks Section of the Pacific Highway in Jackson County, consisting of 38.92 acres without access to the new highway, and for a minimum price of $5,000. (SEE EXHIBIT "B-3")

d. The former Shaw property, File 23243-45, on the Northbound Route of the Pacific Highway in Ashland, consisting of 0.06 acre subject to a 5-foot slope easement and the common use of a driveway by an adjacent property owner, at a minimum price of $1,000. (SEE EXHIBIT "B-4")

e. The former Moore rock quarry, File 21675, on the Frankport-Greggs Creek Section of the Oregon Coast Highway in Curry County, consisting of 12.3 acres, for a minimum price of $2,500. (SEE EXHIBIT "B-5")

Consideration was given by the Commission to a number of changes in points of access to state highways. The Right of Way Engineer stated that no additional access is being granted to the property owners and each of the following changes has been made to provide greater safety to the traveling public and greater convenience to the property owners. Following his favorable recommendation, the Commission approved indentures of access on the following properties:

a. McKenzie property, File 22337, on the Siletz Bay-Miner Creek Section of the Oregon Coast Highway in Lincoln County.

b. Hamilton property, File 4100, on the Siletz Bay-Newport Section of the Oregon Coast Highway in Lincoln County.

c. Edmison property, File 20083, on the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County.

d. Steward property, File 13002, on the Glendale Jct.-Wolf Creek Section of the Pacific Highway in Josephine County.

Consideration was given to deeding a one-foot buffer strip of land to Mr. and Mrs. Thomas E. Neer, on the west and south sides of the "Western Addition" tract on the Corvallis-Philomath Section of the Corvallis-Newport Highway in Benton County. The Right of Way Engineer explained that this property was unintentionally acquired from the Neers when right of way was purchased from them in 1956, and the proposed transaction is to correct the error. The Commission approved conveyance of this strip to the Neers.

The Commission considered a counter proposal offered by Mr. Lloyd Larson concerning the amount to be paid for his property on the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway in Curry County. The Right of Way Engineer advised that the property has been appraised at a high value of $3,600 and that Mr. Larson has requested that his offer of $4,800 be presented to the Commission. He explained that the land to be acquired has been logged and is very steep, and that he cannot recommend a payment of $4,800. The Commission instructed him to continue negotiations with Mr. Larson.

Consideration was given to a claim presented by the Douglas Forest Protective Association for damages to their well caused by construction activities on the Ford Bridge Unit of the Pacific Highway in Douglas County. The Right of Way Engineer advised that blasting activities undoubtedly caused depletion of the water supply and he recommended that the Association be paid the sum of $500, which amount they have agreed to accept as full and complete settlement of their claim. The Commission approved such settlement.

Transfer of the Rome Flight Strip in Malheur County to the State Board of Aeronautics was discussed. This flight strip, the Right of Way Engineer explained, is located near Rome on the I.O.N. Highway and was built by the US Government during World War II. It is of no value or use to the Highway Department, and he recommended that it be formally transferred to the State Board of Aeronautics. The Commission approved such transfer.

Granting of an easement to the West Coast Telephone Company for location of their telephone line on the Catching Slough-Chandler Bridge Section of the Coos River Highway, was also discussed. The Right of Way Engineer explained that the original telephone line was located on an easement where the State acquired title as right of way. To place the Telephone Company in the same position as it had been, it is necessary that the State grant them an easement on highway right of way for placement of their line and he so recommended. The Commission accepted his recommendation.

Consideration was given to an exchange of easements with the West Coast Telephone Company on the North Brookings Section of the Oregon Coast Highway in Curry County. This exchange, the Right of Way Engineer stated, is necessary in order to avoid interference with highway construction and to provide for the phone company's facilities. In exchange for the easement to use a ten-foot strip of the State's property, the phone company agrees to quitclaim to the State all rights of easement across property formerly owned by Frieda Ransom. Following favorable recommendation by the Right of Way Engineer, the Commission approved the exchange of easements.

The Right of Way Engineer recommended that 0.29 acre of land located on the Adams Street-McMinnville Section of the Pacific Highway West in Yamhill County, be deeded back to Mrs. Nell Hackney. He explained that in securing the original property an error was made in the description and the additional property was inadvertently acquired. Mrs. Hackney, he said, will pay the State the sum of $240, which is the exact amount that the State paid to her for the 0.29 acre. The Commission approved the transaction.

An exchange of property with Lincoln County was discussed. The Right of Way Engineer explained that in 1941 Lincoln County presented to the State land described as the $SW\frac{1}{4}$ of the $NW\frac{1}{4}$ of Sec. 20, T. 11 S., R. 11 W., W.M. for park purposes. It has since developed that it is not feasible to use

this land for such purpose and it has now been agreed with the County Court to reconvey the property to the County in return for which the County will deed to the State 574 Lots in Pacific View, South Newport and South Beach Additions to Newport, which property is suitable as an addition to "South Yaquina Bay State Park". Upon his favorable recommendation and that of the State Parks Superintendent, the Commission approved such exchange of properties.

The Right of Way Engineer reported that a parcel of property consisting of one-half acre on the 7th Street Connection of the Pacific Highway in Eugene is excess property no longer needed or required for highway purposes and he recommended that authority be granted him to offer it for public sale at a minimum price of $11,000. The Commission granted the authority by adopting the attached resolution relative thereto, marked EXHIBIT "B-6", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer also recommended sale of a 0.33 acre tract on the Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County. He recalled that sale of this land had been previously authorized, but that he had not been able to sell it on a cash basis. However, a purchaser has been found who will purchase it for the sum of $8,600 if the State will accept a down payment of $4,000 and will allow him to pay the balance at the rate of $50 per month with 5½ percent interest on the unpaid amount, he to pay the taxes and insurance premiums. Commissioner McIver commented that he would approve the sale as outlined provided the matter is covered by a negotiable contract that can be sold and the money deposited in the Highway Fund. The Commission approved the sale of the property as suggested by Commissioner McIver.

Mr. W. W. Stiffler, Assistant State Highway Engineer, introduced Mr. Burnby Bell, Astoria, who conferred with the Commission concerning the installation of signs along the highway to the east and the south of Astoria. Mr. Bell exhibited a replica of the type of sign they wish to erect and pointed out that the information on the sign includes historical data pertaining to the Astoria area and points of interest to tourists. The Oregon Historical Society, he continued, has seen the wording and has approved a portion of it. He inquired if an advance notice sign could be placed some distance ahead of each sign. The Engineer commented that a question uppermost in his mind is whether the Oregon law pertaining to signs on highway right of way would allow this type of sign. Commissioner McIver observed that if the entire text of the sign could be approved by the Oregon Historical Society the sign could then be installed on the right of way as an historical marker. It was his feeling, however, that the text as exhibited would not comply with standards required by the Oregon statutes. If the Commission were to allow installation of a sign such as this, it was his feeling that there would be many requests from other cities and communities to install similar signs. He mentioned the fact that a request from Douglas County is to be presented at this meeting for a sign of similar type. Mr. Bell then inquired if the sign were installed on private property would the State construct a turnout along the shoulder

of the highway at the sign so tourists could stop to read it. The Engineer pointed out that the law states, in effect, that only signs pertaining to highway directions and distances are permitted on the right of way. It was his thought that constructing a turnout would not be much of a problem. Acting Chairman Reynolds stated that the matter would be carefully considered. (This matter was considered later in the day and the Commission denied the request to install the signs on highway right of way; however, the Commission authorized an expenditure of highway funds to finance construction of approach roadways to the signs when erection is completed. The Astoria Chamber of Commerce must first obtain permission from the State Labor Commissioner before erecting the signs on private property.)

The meeting recessed for luncheon at 11:50 a.m. and reconvened at 2:00 p.m. in the same room, with the same persons present and participating.

The Acting Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him in the Commission's resolution, dated December 20, 1951:

Albany-Judkins Point Section of the Pacific Highway East

R-25319 - Anna Boyd Davis
Right of Way (Lane County)
15.65 acres

R-25366 - James Hayes and Audry L. Hayes
Right of Way (Lane County)
0.46 acre

R-25353 - Ray C. Smith and Wanda Smith
(Lane County)
Parcel No. 1: 9.71 acres Right of Way
Parcel No. 2: 2.75 acres Right of Way

R-25283 - E. G. McKenzie, et al.
(Lane County)
Parcel No. 1: 3.7 acres Right of Way
Parcel No. 2: 2.25 acres Right of Way
Parcel No. 3: 16.75 acres Right of Way

North Jefferson Junction-Albany Section of the Pacific Highway East

R-25092 - Clarence W. Barth, et al.
(Linn County)
Parcel No. 1: 0.15 acre Right of Way
Parcel No. 2: 0.04 acre Excess Taking

27817

Willowdale-Madras Section of The Dalles-California Highway

R-25853 - J. Lester Horigan and Alma F. Horigan
Right of Way (Jefferson County)
46.32 acres - An amended resolution to remove control of use from the access control provisions.

Klamath Falls-West Side By-Pass Section of The Dalles-California Highway

R-23074 - Ida Runft and Everett L. Runft
(Klamath County)
Parcel No. 1: 1600 sq.ft. Right of Way
Parcel No. 2: 0.05 acre Right of Way

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-22720 - Bertha E. Cleghorn, et al
Right of Way (Multnomah County)
8110 sq.ft.

R-20997 - Dolores Mae Jensen
(Multnomah County)
Parcel No. 1: 0.5 acre Right of Way
Parcel No. 2: 0.24 acre Excess Taking

R-21163 - Jessie W. Firestone
(Multnomah County)
Parcel No. 1: 1.66 acres Right of Way
Parcel No. 2: 0.77 acre Right of Way
Parcel No. 3: 0.11 acre Excess Taking

Mosier-The Dalles Section of the Columbia River Highway

R-25892 - Ella G. Salisbury, et al
Right of Way (Wasco County)
0.92 acre

R-25850 - Lee Joynes and Dencie Joynes
Right of Way (Wasco County)
2.9 acres

Hinsdale Slough-Luder Creek Section of the Umpqua Highway

R-12834 - D. D. Hail and Edna Mae Hail
(Douglas County)
Parcel No. 1: 4.82 acres Right of Way
Parcel No. 2: 6.2 acres Material Site

February 28, 1957

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-20950 - Gordon Daniels and Belle Turner Daniels
Right of Way (Curry County)
38.0 acres

Cape Sebastian State Park

R-21141 - Robert DeGross and Benard DeGross
(Curry County)
25.0 acres - Enlargement and development of the Cape Sebastian State Park.
Amendment of resolution of January 22, 1957, which erroneously listed this property for the Beuna Vista Ocean Wayside.

Hinsdale Slough-Luder Creek Section of the Umpqua Highway

R-19932 - Charles O. Josephson and Norma Josephson
Right of Way (Douglas County)
2.38 acres (net)

R-25911 - Emil Ploen
Right of Way (Douglas County)
3,850 square feet

Black Bridge-Richland Section of the Baker-Homestead Highway

R-26009 - Gust P. Skooras
(Baker County)
Parcel No. 1: 6.43 acres for Right of Way
Parcel No. 2: 2.35 acres for Right of Way
Parcel No. 3: 0.45 acre for Right of Way
Parcel No. 4: 0.16 acre for Ditch Easement
Parcel No. 5: 0.01 acre for Ditch Easement
Parcel No. 6: 0.21 acre for Ditch Easement
Parcel No. 7: 0.16 acre for Ditch Easement
Parcel No. 8: 1.05 acre for Ditch Easement

R-26010 - George V. Nicolescu and Bonnadene M. Nicolescu
(Baker County)
Parcel No. 1: 2.06 acres for Right of Way
Parcel No. 2: 0.01 acre for Ditch Easement
Parcel No. 3: 0.14 acre for Ditch Easement

R-26012 - Gust P. Skooras and Mary Skooras
(Baker County)
Parcel No. 1: 1.5 acres for Right of Way
Parcel No. 2: 0.06 acre for Ditch Easement
Parcel No. 3: 0.03 acre for Ditch Easement

Black Bridge-Richland Section of the Baker-Homestead Highway - Cont.

R-26026 - John W. Densley
(Baker County)
Parcel No. 1: 2.1 acres for Right of Way
Parcel No. 2: 0.07 acre for Ditch Easement
Parcel No. 3: 0.01 acre for Ditch Easement
Parcel No. 4: 0.05 acre for Ditch Easement
Parcel No. 5: 0.28 acre for Ditch Easement

R-26029 - Levi L. Chamberlin
(Baker County)
Parcel No. 1: 0.27 acre for Right of Way
Parcel No. 2: 3.1 acres for Right of Way
Parcel No. 3: 0.02 acre for Ditch Easement
Parcel No. 4: 0.05 acre for Ditch Easement
Parcel No. 5: 0.31 acre for Ditch Easement
Parcel No. 6: 0.21 acre for Ditch Easement

R-26030- L. Dale Chamberlin
(Baker County)
Parcel No. 1: 0.62 acre for Right of Way
Parcel No. 2: 0.06 acre for Ditch Easement
Parcel No. 3: 5.55 acres for Material Source
Parcel No. 4: 0.18 acre for Haul Road Easement

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway

R-23317 - Sidney Bazett and Norma J. Bazett
Right of Way (Josephine County)
8,000 square feet

R-23330 - Roy H. Coleman and Dorothy V. Coleman
Right of Way (Josephine County)
0.08 acre

R-23331 - Wesley R. Brown and Darlene I. Brown
Right of Way (Josephine County)
0.03 acre

R-24634 - Sylvia E. Lake
(Josephine County)
Parcel No. 1: 0.73 acre for Right of Way
Parcel No. 2: 1.12 acres for Channel Change

R-26065 - Richard C. Horn and Dorothy Horn
Right of Way and Roadside Development (Josephine County)
7.17 acres

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway - Cont.

R-26067 - O. E. Arnold and Ruth E. Arnold
Right of Way (Josephine County)
1.5 acres

R-26068 - Augustus W. Pitcairn and Lois Pitcairn
Right of Way (Josephine County)
1.8 acres (net)

R-26069 - Edna Glines
Right of Way (Josephine County)
1.85 acres

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25716 - E. J. Perasso and Barbara C. Perasso
Right of Way (Clackamas County)
0.05 acre

Right-of-way maps, construction plans and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Acting Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBITS "D-1" through "D-13", which resolutions by this reference are made part hereof with like effect as though extended in full herein.

The Commission accepted a report submitted by the Acting Chief Counsel enumerating details concerning cases that have been tried in court since the Commission meeting held January 22 and 23, 1957, as follows:

REPORT OF CONDEMNATION CASES TRIED - JANUARY 23 TO FEBRUARY 21, 1957

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Gorsek R-24725	Clackamas	Pacific East	S. River Road Jct.	$ 250.00	$ 750.00	$ 500.00
Roy V. Bell R-24312	Marion	Pacific	Salem By-Pass-Jefferson Jct.	150.00	150.00	150.00

February 28, 1957

REPORT OF CONDEMNATION CASES TRIED - JANUARY 23 TO FEBRUARY 21, 1957 - Cont.

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Jacobsen R-24316	Marion	Pacific	Jefferson Jct. -Salem By-pass	$ 160.	$ 160.	$ 160.
Shaw R-24243	Umatilla	Pendleton-John Day	Pendleton-Pilot Rock	3,500.	6,000.	5,000.
Harrow R-24424	Washington	Tualatin Valley	Forest Grove-Hillsboro	1,550.	3,500.	2,000.
Nelson R-22203	Yamhill	Pacific West	McMinnville (Adams St.)	16,250.	30,000.	16,200.

(For additional details see copy of the Acting Chief Counsel's letter concerning report of cases tried, dated February 21, 1957, in the General Files).

The Commission also accepted a report presented by the Acting Chief Counsel concerning condemnation cases and other cases which have been settled out of court since the Commission meeting held January 22 and 23, 1957, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Alspaugh R-21031	Douglas	Pacific	Myrtle Creek-Canyonville	$ 650. for 1.44 ac.	$ 1,500. for 2.3 ac.
Katin R-25770	Josephine	Redwood	E. & W. Fork Illinois River Bridge	3,065.	3,065.
Orlo J. Smith R-23324	Josephine	Pacific	Jumpoff Joe Creek-Grants Pass	13,000. for 4.75 ac.	22,000. for 5.5 ac.
Forney R-24417	Washington	Tualatin Valley	Forest Grove-Hillsboro	2,500.	2,500. plus interest at 6% to 4-1-57

February 28, 1957

REPORT OF CONDEMNATION CASES SETTLED - Cont.

Case	County	Highway	Section	State's Offer	Amount of Settlement
Straughan R-24392	Washington	Tualatin Valley	Forest Grove-Hillsboro	$ 330.	$ 740.

REPORT OF OTHER CASES SETTLED

Case	Plaintiff	Defendant	County	Cause of Action	Demand of Plaintiff	Verdict or Judgment
L-2666	State Highway Comm.	Orville Lock	Curry	Timber cut from State property	$ 651.	$ 300.
L-2665 (R-16650)	Kelman	State Highway Comm.	Linn	Inverse condemnation	5,000.	1,250.

(For additional details, see copy of the Acting Chief Counsel's letter, dated February 21, 1957, entitled "Report of cases settled", in the General Files).

The Acting Chief Counsel, in conformity with the resolution adopted by the Commission on December 20, 1951, presented offers that had been tendered for acquisition of real property prior to the institution of condemnation proceedings, as follows:

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-22721 - Lloyd Asburry, et al. 35,916 square feet for right of way purposes. Offer of $1,890.00 approved by Mr. McIver February 7, 1957.

R-25021 - City Church Extension Society of the Methodist Episcopal Church of Portland, Oregon, et al. 750 square feet for right of way purposes. Offer of $600.00 approved by Mr. McIver February 7, 1957.

R-25590 - Ellen Costello, et al. 1.21 acres for right of way purposes. Offer of $1,815.00 approved by Mr. McIver February 7, 1957.

Shady Point-Booth Ranch Section of the Pacific Highway

R-23035 - Raymond C. Laurance, et ux. 0.23 acre for right of way purposes. Offer of $125.00 approved by Mr. McIver February 7, 1957.

February 28, 1957

Klamath Falls-West Side By-Pass Section of The Dalles-California Highway

R-23051 - Vera C. Powell, et al. 4.0 acres for right of way purposes. Offer of $10,750.00 approved by Mr. Reynolds January 25, 1957.

R-23132 - Helen G. Clark, et vir. 0.06 acre for right of way purposes. Offer of $260.00 approved by Mr. Reynolds January 25, 1957.

Judkin's Point-Goshen Section of the Pacific Highway

R-20120 - Martin E. Hill, et ux. 1,440 square feet for right of way purposes. Offer of $1,400.00 approved by Mr. Reynolds January 25, 1957.

Albany-Judkins Point Section of the Pacific Highway East

R-25315 - Robert G. Kintigh. 0.35 acre for right of way purposes and 0.2 acre for excess taking. Offer of $10,600.00 approved by Mr. Reynolds January 25, 1957.

Willowdale-Madras Section of The Dalles-California Highway

R-25853 - J. Lester Horigan, et al. 46.32 acres for right of way purposes. Offer of $8,500.00 approved by Mr. Reynolds January 25, 1957.

Cascade Locks-Viento Section of the Columbia River Highway

R-25874 - Frederic Courtland Hathaway, et ux. 6.70 acres for right of way purposes. Offer of $9,150.00 approved by Mr. Reynolds January 25, 1957.

Beverly Beach State Park

R-24036 - F. R. Salway. 12.5 acres and 1.74 acres for the enlargement and development of Beverly Beach State Park. Offer of $665.00 approved by Mr. Reynolds January 25, 1957.

Salem-Dayton Highway Material Site

R-25393 - W. E. Bass, Jr., et ux. 14.83 acres for a material site. Offer of $2,225.00 approved by Mr. Reynolds January 25, 1957.

The Commission approved the offers as presented.

A report on matters before the Public Utilities Commissioner in which the State has been made a party was presented by the Acting Chief Counsel, summarized as follows:

PUX 200: Application of Southern Pacific Company to construct industrial trackage across Fir Street and across County Road No. 530 at Toledo in Lincoln County. This matter does not directly affect any state highway and no objections have been made by the State.

PUX 202: Application by Oregon Electric Railway Company to reconstruct a grade separation structure at the intersection with County Road No. 906 near Orville in Marion County. This does not affect any state highway. No objection was offered by the State.

PUX 203: Application of Clackamas County to rebuild an overhead structure over the tracks of Southern Pacific Company's Tillamook Branch between Oswego and Bryant Station in Clackamas County. The structure does not involve any state highway and no objection has been made by the State.

PUX 206: Application of Erwen Construction Company to construct three private road crossings at grade with the Pendleton-Cold Springs Highway and to use the existing undercrossing of the Columbia River Highway at or near Cold Springs Junction in Umatilla County. The purpose of the roadway is to enable the construction company to haul rock to barges in the Columbia River, to be used for river bank protection. The Erwen Construction Company has agreed to conditions requested by the State Highway Department and an order has been issued accordingly.

The Commission accepted the report.

The Acting Chief Counsel presented a report concerning the institution of two cases by the California Oregon Power Company against the State Highway Commission in which demand is made for compensation for overhang easements on private property which the Power Company had obtained for their power line located along the Pacific Highway in Jackson County. The Acting Chief Counsel explained that the Power Company's poles originally occupied space on the State Highway right of way under permit but the Company also obtained easements from adjoining land owners because the cross arms on the poles extended beyond the right of way line. In 1952 the Pacific Highway was widened at the location in question to four traffic lanes and this project required removal and relocation of the Power Company's facilities. This was done at the expense of the Power Company which now seeks to recover the sum of $260 for each of the two parcels allegedly taken plus $1,000 attorneys' fees for each parcel. It was the opinion of the Acting Chief Counsel that the Power Company is not entitled to compensation for the easements, although, to his knowledge, the question has not been adjudicated by any court. He added that a supreme court decision settling the matter will be of great assistance in future relationships with public utility companies. The Commission authorized him to secure such decision from the supreme court.

The Acting Chief Counsel presented a claim in the amount of $27.50 submitted by Arthur Pearson for expenses incurred by Mr. Pearson in

connection with relocating his septic tank on the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway in Yamhill County. He advised that Mr. Pearson incurred this extra expense at the request of the State and he recommended that he be reimbursed for it. The Commission approved payment of the claim.

Following the favorable recommendation of the Acting Chief Counsel, the Commission approved salary increases for seven attorneys employed in the Legal and Right of Way Section of the State Highway Department. The Acting Chief Counsel commented that the increases have been authorized by the Attorney General, effective March 1, 1957, as follows:

Attorney	Present Salary	Recommended Salary	Salary Authorized
Charles Peterson	$672	$745	$694
Frederic Morgan	610	625	630
John C. McLean	532	575	570
Leslie B. Hampton	513	550	532
Robert P. Amacher	477	500	495
William A. Mansfield	477	500	513
Leo V. Nuttman	426	---	459

Authority to institute legal proceedings against several property owners to eliminate an undesirable drainage condition on the Klamath Falls-Lakeview Highway, a short distance west of Lakeview, was requested by the Acting Chief Counsel. In reviewing the history of this matter, he pointed out that during 1943 a group of property owners in the vicinity attempted to form a drainage district to be known as Thomas Creek Drainage District, but the district was never completely formed or legally authorized. However, the property owners constructed a number of ditches to relieve the drainage on their properties, which ditches were connected with the drainage ditches on the Klamath Falls-Lakeview Highway. During periods of heavy rainfall the additional water caused thereby creates an overflow on the highway right of way, resulting in extensive damage. He stated that in January, 1957, letters were written to all of the persons concerned advising them that they are responsible for the condition and that it is their obligation to alleviate the same, but no replies were received. He pointed out that the Highway Department is criticized by the traveling public for a condition for which the Department is not responsible. To solve the problem, he said, it appears that an injunction should be sought to prevent the property owners from turning the drainage water onto the highway right of way and let the courts decide the question. W. W. Stiffler, Assistant State Highway Engineer, explained that several channels of Thomas Creek have been drained onto the highway right of way and to correct the condition will involve construction that will cost

approximately $30,000. The Engineer recalled that during World War II the bad drainage condition was called to the attention of the property owners who stated that corrective action would have to be deferred until men and materials were available, but up to now, they have taken no action to alleviate this condition. As a result of the discussion, the Commission instructed the Acting Chief Counsel to institute appropriate legal proceedings to correct the situation.

The Acting Chief Counsel presented a resume of bills that are now before the 1957 Legislative Assembly pertaining to highways. He reported that of the bills introduced at the request of the Highway Commission, four have passed and now await the signature of the Governor, as follows: House Bill No. 176, authorizing the sale of $8,000,000 in highway bonds; House Bill No. 177, pertaining to stop signs or markers at through highways; House Bill No. 178, increasing the revolving fund to $1,500,000; and House Bill No. 186, relating to the operation of vehicles and authorizing the State Highway Commission, counties and cities to issue permits for the operation of road working machinery. He also mentioned briefly the status of other legislation proposed by the Highway Commission and bills that have been introduced by others which pertain to highways. The Commission accepted the report. (For further details concerning legislative matters, see copy of the Acting Chief Counsel's letter dated February 21, 1957, entitled "Status Report of Legislation", in the General Files).

Consideration was given by the Commission to a proposed change in policy concerning the control of access to highways. The Acting Chief Counsel explained that in 1952 the Commission had approved legal language pertaining to the types of access, as follows:

1. Private residential use, only.
2. Production and transportation to market of farm products of the Grantor's remaining land, only.
3. Development, harvesting, and transportation of forest products of the Grantor's remaining land, only.
4. Operation of existing _____ activity, on the Grantor's remaining land, only.
5. Operation of future _____ activity, on the Grantor's remaining land, only.

He pointed out that when illegal use of an access is made the Commission may require the property owner to furnish a $1,000 bond to assure proper use of the access. During recent years it has been found that the above quoted language and requirement of a $1,000 bond have made acquisition of real property extremely difficult and in many cases, more expensive than if the language were less restrictive. He recommended that more liberal language be used in acquiring options and suggested the following:

1. Ordinary access for residential purposes, only.
2. Ordinary access for production and transportation of agricultural products, only.

3. Ordinary access for production and transportation of timber products, only.
4. Ordinary access for production and transportation of mineral products, only.
5. Similar language as required in other specific cases.

He also recommended that the provision requiring the $1,000 bond be deleted and that the Commission specify the type of access control when the survey is adopted. The Engineer pointed out that on some of the highways which have been designated as "throughways" there is a question whether or not full throughway restrictions should be imposed. It was his feeling that imposition of the strictly worded access use on those which are not so heavily traveled would restrict the economic development of the surrounding country. Under the plan as outlined by the Acting Chief Counsel, it would be possible to designate when a survey is adopted, the exact type of access control to be used. He also pointed out that, under the present wording, if an access is given for agricultural products, development of the land for other purposes is denied, whereas, under the proposed plan the use of the access would be much less restricted. Considerable ill will, he felt, had been engendered by the present language pertaining to options, and it was his feeling that right of way costs have risen because of the use of this language. Commissioner Reynolds inquired if changes can be made in the type of use in cases that previously have been granted. The Engineer replied that no changes have been made but it would be possible to make them. Commissioner Reynolds also observed that, in his opinion, the language now used pertaining to the use of access is unduly restrictive. Action in this matter was deferred until the next meeting when Chairman Chandler will be present. The Commission, however, approved two options which have already been obtained, omitting reference to the requirement of a $1,000 bond.

A report was presented by the Acting Chief Counsel concerning the following court cases:

1. Cereghino v. State of Oregon, L-2735: He explained briefly that the plaintiffs have demanded the sum of $10,000 plus attorney's fees in the sum of $2,500 for alleged damage to their property in the vicinity of 200th Street east of Portland, in Multnomah County because of dirt and silt deposited on the plaintiff's property due to State Highway construction. An investigation, he continued, indicates that the damage was the result of general flood conditions and not due to the activities of the State Highway Department.

2. William E. Tegart, Jr., and Harriett B. Tegart vs. State of Oregon, L-2739: The Tegarts are demanding $7,500 plus $2,500 attorney's fees for damages to their property because of mud and silt deposits.

3. S. B. Hall and Berger Tonseth vs. State of Oregon, L-2740: The plaintiffs seek to recover the sum of $13,500 plus $2,500 attorney's fees for damages to their property because of mud and silt deposits.

The Commission instructed the Acting Chief Counsel to resist these claims.

The Commission accepted a report submitted by the Acting Chief Counsel concerning the case of Sigfrit v. the State of Oregon pertaining to the flash flood that occurred in Mitchell on the Ochoco Highway, on July 13, 1956. He commented that this is one of nine cases on the same subject. The judge declared a mistrial because of improper evidence submitted by the plaintiff's attorneys and a new trial has been set for April 8, 1957.

The Engineer reported that under authority previously granted by the Commission he awarded to Calkins Crushing Company, on February 7, 1957, the contract for paving the Tillamook-Donaldson Section of the Wilson River Highway in Tillamook County, for which bids were received January 22, 1957, the conditions of award having been satisfied.

The matter of relinquishment to Coos County of the State's title to the Seven Devils Chrome Mine access road was discussed. The Engineer commented that in 1942 and 1943 the State acquired right of way for this road and the road was built. Coos County now proposes to designate it as a county road to form a connection between the old highway and the Davis Slough-Bandon Section of the relocated Oregon Coast Highway. As there is no reason that the road should be considered a State highway, he recommended that the title to the right of way be transferred to Coos County. The Commission approved such transfer.

The Engineer reported that under authority of a resolution adopted by the Highway Commission on August 6, 1953, he had placed load limit restrictions on several highway sections to prevent damage during the time frost leaves the roadbed. The load limits have been placed allowing 11,000 pounds gross on any single axle and 20,000 pounds gross on any pair of tandem axles, as follows:

1. Pendleton-John Day Highway No. 28, from M.P. 100.43 to M.P. 115.26, effective 8:00 am, February 18, 1957.

2. Beech Creek Secondary Highway, No. 401, entire length, effective 8:00 a.m., February 18, 1957.

3. Havana-Helix Secondary Highway, No. 335, from M.P. 0.0 to 2.5, and from M.P. 3.66 to M.P. 8.96, effective 8:00 a.m., February 13, 1957.

4. Crane-Scotts Butte Secondary Highway, No. 442, from M.P. 56.0 to M.P. 66.0, effective 8:00 a.m., February 18, 1957.

5. O'Neil Secondary Highway, No. 370, from M.P. 4.99 to M.P. 17.81, effective 8:00 a.m., February 25, 1957.

6. O'Neil Secondary Highway, No. 370, from M.P. 9.0 to M.P. 13.8, load limit removed 8:00 a.m., February 26, 1957.

7. O'Neil Secondary Highway, No. 370, load limit placed from M.P. 9.2 to M.P. 13.8, effective 8:00 a.m., February 28, 1957.

8. O'Neil Secondary Highway, No. 370, load limit removed from M.P. 4.99 to M. P. 9.2, effective 8:00 a.m., February 28, 1957.

The Secretary reported that seven insurance companies submitted bids to furnish a Public Employees Faithful Performance Bond in the amount of $50,000 for a three-year period, beginning March 15, 1957. The Aetna Casualty and Surety Company, through its agent, Kenneth S. Martin, Grants Pass, submitted the low bid for the three year coverage in the sum of $2,149.27. The Ohio Casualty Insurance Company, Portland, submitted the second low bid in the sum of $2,557.67. The Commission accepted the bid of the Aetna Casualty and Surety Company.

Consideration was given to a letter from the Clatsop County Livestock Association of Astoria requesting that toll charges for cattle transported on the Astoria-Megler Ferry be revised from the present rate of 50 cents per head to a rate based on weight. The Engineer reported that an investigation was made of the number of livestock that has been transported on the ferry during the last three years, which showed 195 head in 1954, 203 head in 1955, and 191 head in 1956. It was also found that the standard charge for transporting livestock on Washington State ferries operating between Anacortes and Friday Harbor, a somewhat longer run, is $4.00 per head for cattle and $1.00 for sheep. It was his opinion that by comparison the rates charged on the Astoria-Megler Ferry are in line with those charged by the State of Washington. As the number of livestock transported is very limited, he recommended against any change in the rates that are now being charged for use of the Astoria-Megler ferry. The Commission accepted his recommendation and so ordered.

The Engineer reported on a request previously made by a delegation from the town of Fairview, Multnomah County, for access to the T. H. Banfield Expressway at Fairview Avenue in this town. He pointed out that at Fairview Avenue the Expressway adjoins the railroad and that to construct an interchange would require moving approximately one-half mile of railroad at a total estimated cost of $883,000. A study of the relationship of the cost of the project to the volume of traffic and the benefits to the traveling public, revealed that the project would provide a benefit quotient of only 0.41, whereas, in order to be economically feasible a quotient of at least 1.00 is necessary. The reason for the low benefit quotient, he continued, is principally because of the low volume of traffic and the fact that no appreciable saving in distance is made; moreover, accesses to the

Expressway are available to the people of Fairview a comparatively short distance both East and West of Fairview. These facts, he continued, indicate that the requested access is not warranted now and he recommended that the request be denied. He also said that more adequate signing will be installed at the existing interchanges at Arata Road to the east and at Rockwood Road to the west. The Commission accepted his recommendations and ordered that the people of Fairview be informed as to why the request has been denied, and that more adequate signing will be installed.

The Commission accepted a report of weighmaster operations, prepared by the Director of Permits and submitted by the Engineer. Commissioner McIver called attention to the number of arrests made and average amount paid by each violator in comparison with the average amount which should have been paid according to the law. He pointed out that the actual average fine is approximately 40 percent less than is required by statute. The Commission instructed the Engineer to submit copies of the report to the Governor and to the Governor's Traffic Safety Committee.

The Commission considered items of unfinished business as shown on the Secretary's summary, dated January 23, 1957, as follows:

1. Request of Fairview delegation for access to the Banfield Expressway at Fairview Avenue in the town of Fairview: This item was ordered deleted from the list of unfinished business as a report was submitted by the Engineer earlier in the day.

2. Petition from residents of Pendleton for reconstruction of Tutuilla Creek Bridge near the westerly city limits to eliminate flood hazards: The Engineer reported that the matter is still being studied and that he is waiting to determine the results of a survey being made by the Army Engineers. He pointed out that in reconstructing the Tutuilla Creek Bridge the height of the bridge was decreased about one foot, which will be corrected and the waterway increased to take care of excess water. The Commission ordered the item deleted from the list of unfinished business. It will be considered as new business when it again arises.

3. Request of Commission for the Blind to install a coffee and snack bar in the basement of the State Highway Building in Salem: The Engineer reported that the matter has been referred to the Secretary of State who has jurisdiction over State building concessions, but no reply has yet been received. The Commission ordered the item deleted from the list of unfinished business. It is to be considered as new business when it again arises.

4. Request of Astoria Chamber of Commerce for permission to maintain on State highway right of way near the east and south city limits, car turnouts and signs containing tourist information: The Engineer reported that construction of the turnouts at each location will cost approximately $150.00; that the proposed sign east of Astoria will be off the highway right of way, but they want to place the sign south of Astoria on the highway right of way. He questioned the legality of the signs. This

matter was discussed but action was deferred until later in the session. (Later in the day the subject was considered in conjunction with a similar request from Douglas County. Both requests to place signs on the highway right of way were denied as it was felt the Commission has no legal authority to allow them; however, the Commission authorized an expenditure of a nominal amount of highway funds to finance approaches to them.) This item is to be deleted from the list of unfinished business.

Increases in project authorizations for the following contracts were requested by the Engineer and approved by the Commission:

1. Contract #4650, SE Stark Street-Powell Valley Road Section of the East Burnside Road, in Multnomah County, in the amount of $12,000. The overrun, he stated, was caused by modifying the grade of the Mt. Hood-Powell Valley Interchange and the increasing of storm sewer facilities.

2. Contract #4632, aerial survey of the Portland metropolitan area, in the amount of $5,000. The overrun has been caused principally by the necessity for field checking the contractors work, which has resulted in a large amount of engineering work for state forces.

3. Contract #4326, Tualatin River-Middleton project, in the amount of $65,000. He attributed the major portion of the overrun to an unstable soil condition, which required additional base rock and an increase in drainage facilities.

4. Contract #4646, Chehalem Mountain-Newberg Section of the Hillsboro-Silverton Highway, in the sum of $9,300. The major reason for this overrun, he stated, was caused by the increasing of surfacing and paving depth to reinforce unstable subgrade areas and the requirement of the Public Utilities Commission for the state to pay 90 percent of the cost of installing railroad crossing signals, which expense had not been anticipated.

Consideration was given to a request from the City of Athena that the Highway Department cooperate with the city in a flood control project on Watermans Gulch in Athena. The Engineer reported that the US Corps of Engineers has allotted $12,000 as their part of the project and have completed a survey. The other portion involves relocation and reconstruction of an 8' x 4' box culvert on Main Street, replacing an existing culvert that is inadequate to handle flood waters. Construction of a new culvert double the size of the existing culvert, is estimated to cost $20,000. As the culvert is located on a state highway, he recommended approval of the city's request and that authority be granted to construct the new culvert at a cost to the state of approximately $20,000. The Commission approved the project with the understanding that the state's expense shall be limited to such sum.

Consideration was given to the Engineer's recommendation concerning installation of a culvert and tide gates at Mill Creek, north of Seaside on the Oregon Coast Highway. He explained that the old structure, which was

taken over from the County, has disintegrated to the point where it no longer effectively controls the tide, or handles normal drainage. To prevent damage to upstream property owners because of tide waters and to forestall possible damage claims, he proposed to install a triple 72" corrugated metal culvert with a headwall on the downstream side equipped with standard metal tide gates, at a total estimated cost of $33,000. The Commission approved the installation as a Federal Aid Project to be undertaken immediately.

Commissioner Reynolds inquired concerning construction of Roosevelt Drive By-pass Route in Seaside, particularly as to whether or not construction of the city's new High School will interfere with the by-pass construction. The Engineer stated that as far as he knows, the school will not interfere with the by-pass but he will investigate the matter to determine definitely if that is the case.

The Engineer presented requests from Douglas and Lake Counties for proposed additions to the County FAS System. The proposed additions, he stated, fit into the overall system required by the Bureau of Public Roads, and he recommended approval of the following additions:

1. Douglas County, FAS 801, 5.3 miles, extending from the Jackson Creek and South Umpqua Forest Access Roads at the Umpqua National Forest boundary, thence southwesterly to the Tiller-Trail State Highway at Tiller.

2. Lake County, FAS 807, 19 miles, extending from Plush, southwesterly to a junction with the Warner State Highway, approximately 12 miles west of Adel.

The Commission approved the additions as recommended.

The Engineer also presented a list of projects totaling $530,000, requested by Coos, Curry, Douglas, and Lake Counties, for construction as County FAS improvements during the fiscal years 1958-59. He pointed out that there remains an unprogrammed balance of $3,096,000 of County FAS funds for the fiscal years 1958-59. The Commission approved the following projects:

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Fund
Coos	677	Chrome Plant Overcrossing. Partial cost - additional funds for 1957 project.	$ 62,000	'58
Curry	258	Dans Point-U.S. Plywood Plant Section, 3.5 miles. Paving.	$ 100,000	'59
Douglas	801	Forest Boundary-Tiller Section, 2.5 miles. G., S., & Pave.	$ 254,000	'58

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Fund
		(Cont.)		
Lake	699	Adel-Warner Lake Junction Section, 2.2 miles. Oiling.	$ 15,000	'58
	414	Fort Rock Road Section, 6.7 miles. Oiling.	$ 45,000	'59
	807	Adel Junction-Plush Section, 8 miles, Oiling.	$ 54,000	'59
		Subtotal, Lake County	$ 114,000	

TOTAL ADDITIONAL 1958 & 1959 FAS FUNDS..... $ 530,000

SUMMARY BY FISCAL YEARS	1957 & 1958	1959	Total
Available September, 1956	$ 4,443,000	$3,800,000	$8,243,000
Previously Approved	3,338,000	1,279,000	4,617,000
Unprogrammed Balance	$ 1,105,000	$2,521,000	$3,626,000
Proposed Projects, 2/18/57	331,000	199,000	530,000
Unprogrammed Balance	$ 774,000	$2,322,000	$3,096,000

Consideration was given to a petition submitted by residents of Waldport requesting improvement of the Oregon Coast Highway and the Alsea Highway in the vicinity of Waldport. The Engineer reported that a similar request was received in August, 1955, and the petitioners were notified at that time that no monies were available to finance this work. The petitioners now request shoulder widening on the Alsea Highway between McKinney Slough and Eckman Slough, and shoulder widening on the Waldport-Wakonda Beach Section of the Oregon Coast Highway. The Engineer estimated that simple shoulder widening on the McKinney Slough-Eckman Slough project will cost about $67,000, and complete reconstruction with 10' shoulders, will cost $209,000; also, that on the Waldport-Wakonda Beach Section, simple grade widening will cost about $121,000, and reconstruction with 10' shoulders, will cost about $360,000. As conditions have not materially changed since the matter was previously considered, he recommended that the project be denied because of lack of funds. The Commission accepted his recommendation.

Authority was requested by the Engineer to reimburse the City of Klamath Falls in the amount of $3,135.00 as full payment for destruction of a tennis court. The Engineer explained that in an agreement with the City of Klamath Falls, dated June 14, 1949, the State had agreed to reconstruct a tennis court which was destroyed in acquiring right of way for the north entrance of US 97 in the City of Klamath Falls at such time and place as the City may desire. As a result of negotiations with city officials it was mutually agreed to turn over to the City a sum of money in lieu of

constructing the tennis courts. The City has agreed to accept the sum of $3,135.00, and the Engineer recommended that the City be paid this amount to fulfill the State's obligation under the previous agreement. The Commission approved the payment.

The Engineer reported that the following cities and towns have satisfied the legal requirements with respect to expenditure of State Tax Street Funds accrued to them during the first six-month period of 1956 and the second six-month period of 1956, as follows:

From Revenues Accrued during the 1st Six-month Period of 1956	
Dufur	$ 1,472.05
Grass Valley	572.46
Mitchell	1,212.10
Mosier	756.47
North Powder	1,203.34
Yamhill	1,498.33

From Revenues Accrued during the 2nd Six-month Period of 1956	
Seaside	$14,001.50

The plans for the proposed projects, the Engineer stated, have been examined and found satisfactory, and he recommended approval of the plans. The Commission unanimously approved the plans by adopting the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission gave attention to a request from the McKenzie River Chamber of Commerce that the contract that is now under way for construction of the East Unit of the Finn Rock-Elk Creek Section of the McKenzie Highway be extended westerly 0.28 mile to eliminate some bad curves. The Engineer reported that a field investigation revealed that such improvement will cost approximately $60,000. No money, he stated, is available for the additional work and he recommended that the matter be held in abeyance until sometime in the future when funds for this type of work might be available. The Commission accepted his recommendation and ordered that the Chamber of Commerce be so notified.

The Commission considered and upon recommendation of the Engineer granted the following requests for extensions of time within which to complete highway contracts. Reimbursement for engineering expense and other expense incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted:

1. Benedict Nursery Company, Contract No. 4554, for roadside improvement on the Willamette River-Gervais Unit of the R. H. Baldock Freeway in Marion and Clackamas Counties, requested an extension of time from June 30, 1956, to January 4, 1957. Approved as requested.

2. T. W. Thomas, Contract No. 4591, for grading and paving on the Helman St. -3rd St. Section of the Pacific Highway in Ashland in Jackson County, requested an extension of time from October 31, 1956, to December 10, 1956. The extension was approved with the stipulation that the contractor be charged for State engineering expenses incurred subsequent to October 31, 1956, with the exception of the cost of preparing final records and estimates.

3. LeRoy Weideman, Contract No. 4728, for extension of a camping area in Harris Beach State Park on the Oregon Coast Highway in Curry County, requested an extension of time from November 30, 1956, to December 31, 1956. Approved as requested.

4. Lord Brothers, Contract No. 4588, for structure, grading and paving on the 39th Avenue Undercrossing Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from October 31, 1956, to November 30, 1956. Approved to November 28, 1956, the actual completion date of the contract.

5. Lee Hoffman, Contract No. 4521, for construction of the Siletz River Bridge on the Siletz Secondary Highway in Lincoln County, requested a third extension of time from December 15, 1956, to December 21, 1956. Approved as requested.

6. Schrader Construction Co., Contract No. 4709, for constructing park facilities in Rooster Rock State Park on the Columbia River Highway in Multnomah County, requested a second extension of time from January 1, 1957, to March 31, 1957. Approved as requested.

7. A. E. FitzGerald, Contract No. 4665, for replacement of bridge rail on Spencer Bridge on the Ashland-Klamath Falls Highway in Klamath County, requested a second extension of time from January 1, 1957, to April 30, 1957. The Commission approved the extension of time with the provision that the contractor pay for all State engineering costs incurred on this project after October 31, 1956.

8. Tom Lillebo, Contract No. 4715, for approach replacement on the Powers Bridge on the Powers Secondary Highway in Coos County, requested an extension of time from December 31, 1956, to April 30, 1957. Approved as requested.

9. Schrader Construction Co., Contract No. 4722, for extension of overnight camping area in Cape Lookout State Park in Tillamook County, requested an extension of time from November 30, 1956, to March 1, 1957. Approved as requested.

10. Tom Lillebo, Contract No. 4741, for grading, paving and construction of the Luckiamute River Bridge on the Independence-Albany Highway in Polk County, requested an extension of time from December 31, 1956 to July 30, 1957. Approved as requested.

11. Knight Pearcy, Contract No. 4555, for roadside improvement on the Gervais-Chemawa Railroad Overcrossing Unit of the R. H. Baldock Freeway in Marion County, requested an extension of time from June 30, 1956, to January 18, 1957. Approved as requested.

12. McWaters Construction Co., Contract No. 4721, for construction of guardrail and snow fence on the Olds Ferry-Ontario Section of the Old Oregon Trail in Malheur County, requested an extension of time from November 30, 1956, to January 10, 1957. Approved as requested.

13. Aero Service Corporation, Contract No. 4501, for aerial photography and topographic mapping on the Davis Slough-Bandon Section of the Oregon Coast Highway in Coos County, requested an extension of time from February 29, 1956, to July 31, 1956. The Commission granted the extension with the stipulation that the contractor pay for all State engineering costs incurred after April 30, 1956.

14. Knight Pearcy, Contract No. 4667, for roadside improvement on the Hayesville Interchange Unit of the R. H. Baldock Freeway in Marion County, requested an extension of time from December 31, 1956, to January 15, 1957. Approved as requested.

15. Workman and Wilson, Contract No. 4589, for construction of a bridge over Nehalem River on the Miami Valley Road in Tillamook County, requested a second extension of time from January 31, 1957, to February 15, 1957. Approved as requested.

16. Birkemeier Construction Company, Contract No. 4586, for construction of the North Dayton Overcrossing and Lafayette Road Undercrossing on the Three Mile Lane Highway in Yamhill County, requested an extension of time from September 30, 1956, to September 30, 1957. Approved as requested.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that contracts Nos. 4501, 4506, 4540, 4554, 4555, 4589, 4667, 4685, 4721, 4744, 4521, 4578, 4588, 4659, 4693, 4709, 4722, 4728, and 4786 for highway construction have been completed according to the requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the

attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Attention was given to a petition from residents of Tigard requesting the installation of school crossing signals at the intersection of US 99W and Greenburg Road, and at a point on US 99W in front of St. Anthony's Parochial School in Tigard. The Engineer reported that an investigation disclosed that a three-phase, fully actuated traffic signal is warranted at the Greenburg Road intersection, which he estimated would cost $12,500, including channelization. Investigation also disclosed that the vehicular and pedestrian volumes at the St. Anthony School are far below those required by the standard warrants. He recommended that the request for signals at the St. Anthony School location be denied and that a signal be installed at the Greenburg Road intersection. The Commission accepted his recommendations. (A delegation was present on the following day regarding this project. As a result of discussion, the Commission instructed the Engineer to conduct further studies of the need for signalization at the St. Anthony School. See additional entry ahead.)

A request from the Warrenton Chamber of Commerce for improvement of the Oregon Coast Highway at its intersection with Fort Stevens Highway in Warrenton was discussed. An investigation was conducted, the Engineer stated, and it was found that the primary problem is that of protecting vehicles making a left turn from US 101 onto the Fort Stevens Road. Channelization to provide such protection he estimated would cost $11,700. He pointed out that the section of US 101 between Astoria and Gearhart will probably be realigned in a few years to by-pass the Warrenton junction, and that the problem at the intersection would then be largely eliminated. In view of the relatively high cost of the improvement and the future relocation of the highway, he recommended that the request for improvements be denied. The Commission accepted his recommendation.

The Commission also discussed a request from the City of Oceanlake for removal of foliage and shrubbery from the divider strip on US 101 in the northerly part of the city. The Engineer reported that the plantings were made in 1947 to eliminate headlight glare on the curve at Lake Boulevard and to prevent unauthorized crossings of the median island by pedestrians. An investigation was made and it was found that from Hoyt Street north to Columbus Street the planting does not present any hazard to traffic. He recommended that the request be denied except for the pruning operations which will be made from Columbus Street north. The Commission approved his recommendation.

The Engineer reported that the State Speed Control Board has established speed zones in the City of Brownsville and in the City of Hillsboro. In order to carry these speed zones to logical terminations he said it will be necessary for the Commission to extend the zones into the rural areas outside the city limits. He recommended approval of such extensions and that the following speed zones be established:

1. Halsey-Sweet Home Highway, #212:

45 MPH from a point 50 feet west of the Southern Pacific Railroad crossing at MP 5.49 to the west city limits of Brownsville at MP 5.65.

35 MPH between the east city limits of Brownsville at MP 6.57, and a point 50 feet east of Blakely Avenue at MP 6.70. See EXHIBIT "H-1".

2. Tualatin Valley Highway, #29:

50 MPH between a point 50 feet east of SW 276th Avenue at MP 11.27, and the most easterly east city limits of Hillsboro, MP 11.55.

50 MPH between the middle east city limits of Hillsboro at MP 11.73, and the westerly east city limits of Hillsboro at MP 11.80.

25 MPH on Baseline Street between the west city limits of Hillsboro at MP 13.59, and a point 0.13 mile west of Dennis Avenue at MP 13.71.

40 MPH on Baseline Street between MP 13.71, and a point 150 feet west of West Main Street at MP 13.95.

30 MPH on Oak Street between the west city limits of Hillsboro at MP 13.51, and a point 0.21 mile west of Dennis Avenue at MP 13.72. See EXHIBIT "H-2".

The Commission approved the speed zones as recommended by adopting the attached resolutions relative thereto marked EXHIBITS "H-1" and "H-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the State Speed Control Board has revised a speed zone on the Pacific Highway East in the City of Albany, so it will be necessary to revise the existing speed zone outside the city in conformity therewith. He recommended that speed zone resolution #234, adopted November 8, 1956, be rescinded and that a 45 MPH speed zone be established between the west city limits of Albany at MP 76.28 and a point 0.14 mile south and west of the west city limits of Albany at MP 76.42. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "H-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Because of the widening of the Beaverton-Hillsdale Highway from the City of Beaverton to a point near the Washington-Multnomah County line, and the consequent decrease in traffic congestion, the Engineer reported that a speed zone investigation was made. Due to the facts disclosed by

this investigation, he recommended that speed zone resolutions adopted August 9, 1948, and September 21, 1949, be rescinded and that a 50 MPH speed zone be established between the east city limits of Beaverton at MP 1.61 and a point 0.14 mile east of SW 78th Avenue at MP 2.89, except that the indicated speed shall be 20 MPH during the hours of school crossings as follows:

Between a point 0.11 mile west of SW 91st Avenue, MP 1.96, and a point 0.12 mile east of SW 91st Avenue, MP 2.19.

Between a point 500 feet west of SW Laurelwood Drive, MP 2.46, and a point 500 feet east of SW 78th Avenue, MP 2.85; and

40 MPH between a point 0.14 mile east of SW 78th Avenue, MP 2.89, and a point 0.12 mile east of SW 42nd Avenue, MP 4.69.

The Commission approved the speed zones as recommended by adopting the attached resolution relative thereto marked EXHIBIT "H-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from Mrs. A. G. Klebe, Tiernan, Oregon, for some form of speed control on the Siuslaw Highway through the community of Tiernan. The Engineer reported that a traffic engineering investigation disclosed that a speed zone is warranted. In view thereof, he recommended the establishment of a 45 MPH speed zone on the Siuslaw Highway between a point 0.30 mile west of Divide Creek at MP 9.06 and a point 350 feet east of Divide Creek at MP 9.43. The Commission approved the speed zone by adopting the attached resolution relative thereto marked EXHIBIT "H-5", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from Wyatt's, Eugene, that they be allowed a refund of a portion of the amount they paid for scrap tires purchased at the Bend Shops. The Engineer stated that a load of tires picked up at Bend on November 26, 1956, was of the same dimension as a load picked up on October 13, 1956, but the November load weighed 3,100 pounds more because of frozen water in the tires. As it was not practical to remove the ice except by thawing, Wyatt's made payment for the tires including the ice at their bid price of $82.50 per ton, which amounted to $123.75 for 3,000 pounds but they have offered to accept the sum of $100 as reimbursement. The Engineer recommended that they be paid such amount. The Commission approved the recommendation.

The Engineer reported that a survey crew, while working on a project in the city of Coos Bay inadvertently broke a neon sign owned by Martin Brothers Signs, Inc., Eugene, by striking it with a level rod. The sign, he stated, was located at the Dairy Queen, 693 Central Avenue, and the owner has made claim for repairs in the sum of $17.50. Upon his favorable recommendation, the Commission approved payment of such sum.

The Commission gave attention to a letter from Robert M. Knox of Wedderburn, offering his services and suggestions regarding disposition of property owned by the late Harry S. Bruner of that place. After careful consideration of the suggestions offered by Mr. Knox, the Commission instructed the Right of Way Engineer to proceed with his negotiations for acquisition of this property in the usual manner.

Attention was given to a request from Mr. Ernest Fatland of Condon for an investigation of traffic hazards at the intersection of the Wasco-Heppner Highway and the road leading to the Condon Air Force Base west of Condon. The Engineer advised that a traffic engineering investigation was made which disclosed that traffic on the Airbase Road, consisting of an average daily traffic of 131 vehicles, is required to stop before entering the intersection in favor of 73 vehicles moving from west to east on the Wasco-Heppner Highway. He recommended that the resolution that was adopted by the Commission on September 21, 1949, designating the Wasco-Heppner Highway as a throughway highway, be amended to include the following: "Except that at M.P. 40.17 eastbound traffic on the Wasco-Heppner Highway #300 shall stop before entering the intersection with the Condon Air Force Base Road." The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from the Roseburg Chamber of Commerce and the Douglas County Court for permission to erect two display signs on the right of way of the Pacific Highway near the northern and southern boundaries of Douglas County. The acting Chief Counsel exhibited a replica of the type of sign that they wish to install bearing the inscription "Welcome to Douglas County, Home of the Douglas County Fir". He pointed out that the law does not specifically deny cities and counties the right to erect such signs, but the law also states that signs on the right of way must pertain to direction and distance for the benefit of the traveling public. It was his feeling that the Highway Commission should continue its policy of not allowing any signs on highway right of way except those erected by the Highway Department. The Engineer pointed out that the proposed Douglas County sign is a large one, approximately 8' x 22', which would be quite eye catching. Commissioner McIver commented that he is of the feeling that the Commission would be within its rights in denying this request and also, a similar request presented by the City of Astoria. Commissioner Reynolds stated that he felt the Commission would be criticised if it allowed a sign of this type to be installed on the right of way, particularly in view of what appears to be strong public sentiment for keeping the roadsides free from advertising signs. After some further discussion, the Commission denied the request to install the signs at the Douglas County borders, and also denied the request to install similar signs near Astoria, as it was felt that the Commission does not have legal authority to permit such installations. The Commission authorized an expenditure of a nominal amount to provide approach roads to the signs near Astoria provided the Chamber of Commerce obtains a permit from the State Labor Commissioner to maintain the signs on private property.

Revision of the form of permit for the movement of vehicles having a weight and dimension in excess of the basic legal limitations was considered. The Engineer explained that paragraph 5 of the present permit form requires the exact designation by highway mile point of every point of access on a highway. He proposed to eliminate present paragraph 5 and substitute the following wording to be stapled to the old form:

"No turning movement shall be made entering or leaving any highway until such movement can be negotiated without endangering other traffic, having due regard for the length, rear overhang and 'tailsweep' of the load. Consideration should also be given to the speed and volume of traffic on the highway, weather, including visibility and road surface conditions, and the length of time required to complete the turning movement.

"All loads shall enter and leave the highways described herein only at an intersection with county roads, city streets or approved highway approaches of private roads. A flagman shall be maintained by the permittee at each point where loads enter or leave the highway if the sight distance available is insufficient to accomplish the turning movement in complete safety."

The Commission approved the revision by adopting the attached resolution relative thereto marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered a recommendation made by the Engineer for a change in a resolution adopted by the Highway Commission October 29, 1953, pertaining to revokable permits for vehicles having a height not in excess of 13.5 feet. He explained that the statute prohibits the issuance of such permits to vehicles transporting lumber or baled hay. In the resolution adopted October 29, 1953, the issuance of such permits is limited to vehicles transporting motor vehicles, vehicles with van-type bodies and permanent solid or fixed steel roof supports, and vehicles transporting loads consisting of a single log. A number of requests, he said, have been received for permission to transport various commodities in which the equipment and loading are entirely safe and are authorized in the adjoining States of California and Washington. He recommended that paragraph 6 of the resolution adopted October 29, 1953 be amended by deleting the following:

"6. That no permit shall be issued pursuant to this resolution for the operation of any vehicle or combination of vehicles except the following:

"(a) Vehicles or combinations of vehicles designed for and engaged exclusively in transporting motor vehicles.

"(b) Vehicles or combinations of vehicles having van-type bodies with permanent solid sides and either permanent solid roofs or fixed steel roof supports and flexible roof coverings.

"(c) Vehicles or combinations of vehicles transporting loads consisting of a single log only.", and that the following language be substituted in lieu thereof:

"That the State Highway Engineer is hereby granted discretionary authority to issue permits for the movement of vehicles, combinations of vehicles or commodities which, in his opinion, are not hazardous and would not endanger the traveling public and highways or highway structures."

The Commission approved the revision by adopting the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A proposed throughway and abandonment agreement with Josephine County covering the Jumpoff Joe Creek-Louse Creek Unit of the Pacific Highway in Josephine County was considered. However, action thereon was deferred until the next meeting when it is anticipated all members of the Commission will be present.

The Commission approved the Secretary's report on papers signed on behalf of the Commission during the period of January 17 to February 16, 1957, inclusive.

The Commission confirmed Thursday and Friday, March 28 and 29, 1957 as the date for its next regular meeting in Portland, and also tentatively set Thursday and Friday, May 9 and 10, 1957 as the date for its next following meeting.

The Commission considered and, following the favorable recommendation of the Engineer, approved an agreement with the Oregon-Washington Railroad and Navigation Company and the Union Pacific Railroad Company, covering construction of the Glover Overcrossing on the Old Oregon Trail Highway in Union County.

Amendment of Miscellaneous Resolution No. 111-a, adopted by the Commission November 8, 1956, for the issuance of special one-trip permits for movement of machinery and equipment was discussed. The Engineer explained that new types of equipment are now in use which were not anticipated when the original resolution was adopted, and he recommended that the resolution be amended to allow a 24,000-pound maximum gross axle weight when equipped with two 18-inch or equivalent low pressure tires operated at a pressure of not more than 25 pounds per square inch. The Commission approved the amendment by adopting the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Consideration was given to a request from E. V. and Kari Nelson that they be allowed to serve food and other refreshments to the patrons of their prehistoric garden located on the Rinehart Creek-Frankport Section

of the Oregon Coast Highway in Curry County. The Engineer recalled that two accesses had been granted to the Nelsons for use only in conjunction with the development of a prehistoric display and they were not to be used for any other type of commercial activity. Mr. Nelson alleges that approximately 42,000 people visited his place of business in 1956 and that many of them desired to purchase refreshments of some kind. He requested that the access restrictions be relaxed to permit the serving of food and other refreshments. The Engineer pointed out that in this particular case no damages were paid to the Nelsons for the restriction of access and he recommended that the Commission approve an indenture of access form which would allow them to use the two existing access points for the purpose of selling food and refreshments to the patrons of his gardens but for no other commercial purpose. The Commission approved the recommended modification and ordered the matter covered by appropriate agreement with the Nelsons.

Upon the favorable recommendation of the Engineer the Commission approved out-of-state travel expense for F. B. Crandall, Traffic Engineer; J. Al Head, Assistant Traffic Engineer; Val Johnson, Traffic Control Engineer; and L. E. George, Signal and Illumination Engineer, to attend the annual Northwest Traffic Engineering Conference at the University of Washington in Seattle, Washington, April 11 and 12, 1957, at an estimated total cost of $220.00.

The Commission considered and approved a report submitted by the Engineer on a Traffic Study that was made in Pendleton and authorized the Engineer to forward a copy of the study to the Pendleton city officials.

The Engineer recommended that authority be granted the Auditor and the Assistant Auditor to authenticate vouchers submitted to the Secretary of State for disbursement of funds under federal-aid participation projects. The Commission accepted his recommendation and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer bids received at the morning session and at 4:00 p.m. Commissioner McIver announced awards of contracts as follows:

"Grading and oiling on the East Unit, Camp Creek-Paulina Section of the Paulina Highway in Crook County. The Commission elects to accept the bid of the low bidder, E. A. Kruse, Yoncalla, in the sum of $398,465.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving on the Ochoco Park-Crooked River Section of the Ochoco Highway in Crook County. The Commission has awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $41,267.

"Rock production on the Azalea-Mackin Gulch Section of the Pacific Highway in Douglas and Josephine Counties. The Commission awarded the contract to the low bidder, Hughes & Dodd Co., Medford, at $24,750.

"Grading on the Jumpoff Joe Creek-Louse Creek Section of the Pacific Highway in Josephine County. The Commission elects to accept the bid of the low bidder, Peter Kiewit Sons' Co., Vancouver, Washington, in the sum of $688,986, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of a 100' bridge over Deep Creek at Adel on the Warner Valley County Road in Lake County. The Commission elects to accept the bid of the low bidder, George E. Berry, Beaverton, in the sum of $33,210, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lake County is received and the sum of $7,470 is deposited by the County.

"Oiling and rock production on the Suntex and Alkali Lake-Lake Abert Sections of the Central Oregon and Lakeview-Burns Highways in Lake and Harney Counties. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $118,927.

"Construction of camping area and roadways in Honeyman State Park in Lane County. The Commission awarded the contract to the low bidder, Shannon Construction Co., Sweet Home, at $14,850.

"Construction of utility building, tables, stoves, and water and sewer system in Honeyman State Park in Lane County. The Commission awarded the contract to Baughman & Sons, Coos Bay, at $16,428.21. Sig Andersson, North Bend, submitted the low bid at $13,976, but stated in his proposal that he would accept the award of this project only in the event that he was awarded the Honeyman State Park overnight camp expansion project.

"Construction of guardrail on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County. The Commission awarded the contract to the low bidder, George E. Berry, Beaverton, at $21,060.

"Install traffic signals at intersection of Main and Milton Streets in Lebanon, Linn County. The Commission awarded the contract to the low bidder, Electric Corporation, Salem, at $6,200.

"Grading and paving on the State Street-Mission Street Extension Section of the North Santiam Highway east of Salem, in Marion County. The Commission awarded the contract to the low bidder, R. I. Randolph Construction Co., Salem, at $28,540.

"Grading and paving on the Halsey Street-Division Street Section of 122nd Avenue, east of Portland, in Multnomah County. The Commission elects to accept the bid of the low bidder, Rogers Construction Co., Portland, in the sum of $404,452.50, and directs the State Highway Engineer to

award the contract to said bidder as soon as approval of Multnomah County is received and the sum of $91,800 is deposited by the County.

"Construct boat channel along Latourell Creek in Rooster Rock State Park in Multnomah County. The Commission awarded the contract to the low bidder, C. H. Strong Engineering & Construction, Eugene, at $19,040.

"Install traffic signals at Lombard Street and Cully Road and a flashing beacon at the intersection of Killingsworth Street and Columbia Boulevard in Portland, in Multnomah County. The Commission awarded the contract to the low bidder, Rochat Electric Co., Portland, at $6,800.

"Grading on the Short Creek-Oceanside Section of the Cape Meares Loop Road, Tillamook County. The Commission elects to accept the bid of the low bidder, C. J. Eldon, Contractor, Portland, in the sum of $45,451.90, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Tillamook County is received and the sum of $10,670 is deposited by the County.

"Grading, oiling and rock production on the Pendleton-Adams Section of the Oregon-Washington Highway in Umatilla County. The Commission elects to accept the bid of the low bidder, E. H. Itschner, Molalla, in the sum of $108,937, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

The Engineer reported that he has received requests from the County Court of Morrow County and the Heppner-Morrow Chamber of Commerce for designation and construction of a new road extending from Morgan on the Heppner Highway to Arlington. He explained that about 0.9 mile of the Heppner Highway at Heppner Junction will be flooded by dam construction on the Columbia River and reconstruction of this section will be paid for by the Army Engineers at a cost of approximately $98,000. To build a new highway from Morgan northwest to Arlington, will cost about $1,048,000. Although the proposed location is good and will result in a saving of approximately 13 miles between common points, there are no funds available now to finance construction, and the saving in distance of less than the mile that will be flooded out would not justify the additional expenditure. He recommended that those interested be advised that the project cannot be performed at this time because of lack of funds. The Commission accepted his recommendation.

The Commission gave consideration to a project to be presented by a delegation from Lakeview on the following day, concerning improvement of the Fremont Highway through the city of Lakeview. The Engineer stated that to complete the project to the city limits will cost approximately $60,000. He suggested that the delegation be advised that funds are not now available to pay all of the costs involved but if the City will contribute at least 25 percent of such expense, then consideration will be given to this project when funds become available. The Commission deferred action pending appearance of the delegation.

The Engineer stated that County Judge Charles L. Allen of Deschutes County has requested that the Commission take over maintenance of that portion of the Cascade Lakes Highway which lies within the Deschutes National Forest, as far east as Bachelor Butte. He pointed out that the State now maintains as a secondary highway a section of this highway extending about 11 miles south and west of Bend, known as the Century Drive Secondary Highway. The additional section of approximately 9 miles to Bachelor Butte is a county road and during the winter time serves skiers only. He estimated the cost to maintain the additional section, including snow removal, at least $40,000 per year. He recommended that the County Court be advised that the State cannot take over this section of highway as the cost of maintenance cannot be justified and because the road principally serves local traffic. The Commission approved his recommendation.

The Commission gave attention to a request from the City of St. Helens that the State pave the unpaved portion of the Columbia River Highway between the present paving and the curbs which the city has installed along the west side of the highway from the south side of its intersection with Columbia Boulevard to the southerly boundary of the city. The Engineer stated that an investigation disclosed that the work requested would cost about $28,000. There appears to be some misunderstanding in that some of the city officials felt that the work had been promised earlier. However, no agreement to that effect was ever consummated. He recommended that the City be advised that no funds are available at this time but that careful consideration will be given to the project when the 1958 construction program is prepared. The Commission approved his recommendation.

The Commission discussed with the Engineer matters to be presented by delegations scheduled to appear on the following day, but took no action on any of such matters pending appearance of the delegations.

Attention was given to a request from the Commercial Bank of Salem that they be designated a depositary for withholding tax money that is deducted from highway employees' wages: The Auditor explained that the Bank feels that it is entitled to a share of the State Highway Department's banking business because such a large percentage of the State's business is now done with the First National Bank and the U. S. National Bank. He further explained that withholding tax monies are deposited for short periods of time until remitted to the U. S. Government and that the bank that handles the deposits uses the money for short-term loans. He gave as his feeling that if the Commercial Bank is designated a depositary for these funds, other independent banks throughout the State probably will request a similar designation which would result in confusion. He mentioned that withholding monies are deducted from employees' checks throughout the State, so from the standpoint of distributing the business, the State is very well covered under the present arrangement. He recommended that the request be denied so as not to establish an undesirable precedent. The Commission approved his recommendation.

Clatsop County Judge Guy Boyington appeared briefly before the Commission. He thanked the Commission for highway improvements in Clatsop County, including work done at Fort Stevens State Park. He inquired if the Commission could assist or encourage the State Game Commission in construction of a three-mile section of road extending from Fort Stevens to the north jetty. The Commission took no action on the matter.

Commissioner McIver then commented that there appears to be considerable public sentiment against allowing motor vehicles to operate on Cannon Beach. Judge Boyington replied that the County provides a deputy, and that a state policeman also watches beach traffic on weekends. It was his opinion that those who complain about cars using the beaches are in the minority and that their complaints should not be allowed to restrict the use of the beach by the majority.

The Engineer reported that a test run with a 60-foot combined truck and trailer had been satisfactorily completed over the entire length of the Eagle Creek-Sandy Secondary Highway, No. 172, and he recommended that this highway be reclassified from a Group III to a Group I Highway. The Commission accepted the recommendation.

The meeting adjourned at 4:45 p.m., to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
March 1, 1957

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Acting Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Chairman Ben R. Chandler was excused.

Bids as follows were opened and read aloud by the Secretary who announced that the Commission would award contracts in the same room at 3:00 p.m.

BENTON COUNTY
CORVALLIS SLOPE PROTECTION PROJECT ON THE ALBANY-CORVALLIS HIGHWAY

S. W. Groesbeck, Eugene	$ 10,638.00
G. D. Dennis & Sons, Portland	10,800.00
Richard C. Edwards, Corvallis	12,690.00
Harbert Bros., Estacada	12,771.00
Floyd Grahm Const. Co., Lebanon	12,825.00
Mack Slate, Jr., Albany	13,500.00

BAKER COUNTY
GRADING AND OILING ON THE EAST UNIT, BLACK BRIDGE-RICHLAND SECTION OF THE BAKER-HOMESTEAD HIGHWAY

Quinn Bros. & Robbins, Inc., Boise, Idaho	$ 360,628.00
Donald M. Drake Co., Portland	409,662.00

March 1, 1957

The Engineer reported that during the recent flood in Malheur County, the bridge over the Malheur River on the old section of US 30 north of Ontario settled as much as 3.5 feet at some of the piers, and that two or three months will be required to repair the bridge and it might be necessary to construct a new bridge. As a result of this condition, he said, traffic that uses this road must go through Payette, Idaho, in order to get to Ontario. He requested authority to construct a temporary connection over Chester Road to the freeway section of US 30 at the cost of about $100, subject to a strict understanding that such access to the highway shall be temporary only and will be closed when the emergency created by the high water and defective bridge has passed. The Commission approved the project on the basis of the Engineer's recommendation.

The Engineer reported that Purdue University, which has a large School of Civil Engineering, has requested Gene Huntley, Director of Public Relations and Personnel, to present a paper on the occasion of their Annual Highway Conference during April 22 to 27, 1957, on the personnel organization as set up in the Oregon State Highway Department. He advised that the University has offered to pay Mr. Huntley's transportation expense to and from the University, but the State will have to pay Mr. Huntley's per diem expenses which are estimated at $54.00. He recommended approval of this out-of-state travel. The Commission adopted the recommendation.

A delegation representing the Sunset Valley Community Association of Beaverton came before the Commission concerning traffic hazards at the intersection of Murray Road with the Sunset Highway west of Portland. The following people were present: Alan Hicks, Willard McLaughlin, President of the Sunset Valley Community Association; Phil Newitt, Superintendent of Sunset Valley School. Mr. Hicks, who acted as spokesman, presented petitions signed by approximately 480 residents of the Sunset Valley School District, in which the Commission is requested to construct an overpass or underpass at the intersection of the Sunset Highway and Murray Road. He also presented a brochure detailing, among other things, the accident record, traffic, population growth, and the number of school children affected. Mr. Newitt pointed out that approximately 80 percent of the school children have to cross the Sunset Highway in order to reach the school, and that when their new High School is completed this year, the number of students who have to cross the highway will increase. Mr. Hicks commented that at times cars on Murray Road are forced to wait as long as 5 minutes before they can get on the highway. School buses cross the highway six times daily and special insurance has been purchased because of this hazard. Commissioner Reynolds complimented the delegation on the excellence of its presentation. There is no question, he added, that a problem does exist, but the difficulty lies in the absence of funds to finance the improvements. The matter, he stated will be taken care of as soon as funds are available.

A delegation from the town of Tigard came before the Commission to request installation of a traffic light on US99W at St. Anthony's Parish. The following people were present: Bill Way, President of the Portland Central Labor Council; Francis Cooper, St. Anthony's Church; Ralph May,

Principal, Fowler Jr. High School; Father Roy Brown, Pastor of St. Anthony's Parish; Peter F. Bisceglia, owner of cabinet shop; Emil VanGoethem, St. Anthony's Parish. Mr. Way, who acted as spokesman, stated that the delegation is pleased to hear that the Commission, yesterday approved a traffic light at Greenberg Road. The delegation, today, he continued, is asking the Commission to reconsider its denial of their request for a traffic light at St. Anthony's School. The Engineer explained that the Traffic Engineering Division made a careful study of conditions at St. Anthony's School and the factors considered, including vehicular traffic and pedestrian use, did not come close to meeting the national warrant for the installation of a traffic light. Mr. Cooper asked reconsideration on the basis of the number of school children involved. Father Roy Brown, Pastor at St. Anthony's Parish, called attention to the large number of pedestrians who cross the highway Sunday mornings to attend church. He estimated that approximately 1,000 pedestrian crossings are made each Sunday in the face of heavy weekend traffic on the Sunset Highway. Commissioner Reynolds stated that the Engineer would be instructed to continue his study at this location, and if a mistake had been made, it would be corrected. Mr. May presented petitions signed by approximately 800 people requesting elimination of the traffic hazards that exist at St. Anthony's Parish, as well as at Greenburg Road. The Commission instructed the Engineer to continue his study of the situation.

A delegation representing the Malheur County Farm Bureau, the Ontario Chamber of Commerce, the Isaac Walton League, the Portland Chamber of Commerce Roadside Council, and others, came before the Commission to request improvement of the road that leads to Owyhee Reservoir in Malheur County, and construction of park facilities at the Reservoir. The following people were present: Marshall Dana, Recreational Committee of Portland Chamber of Commerce; D. C. Duncan, President, Portland Chamber of Commerce; Neal Butterfield, National Park Service; R. N. Kellogg, Bureau of Public Roads; T. T. Munger, A. T. Carlston, and Garnett F. Cannon, Roadside Council of Portland Chamber of Commerce; John Rayner and Mr. Gill, Oregon Game Commission; all of Portland; Lloyd Russell, Chairman Recreational Committee of Ontario Chamber of Commerce; Murrel Doan, President, Ontario Chamber of Commerce; J. P. Kakebeeke, Isaac Walton League; all of Ontario; Bernard Frost, Isaac Walton League; Wayne Gerner, Malheur County Farm Bureau and Isaac Walton League; Leonard Hewett, Nyssa Chamber of Commerce; all of Nyssa; and F. G. Whitaker, Bureau of Reclamation, Boise, Idaho. Mr. Dana, who acted as spokesman urged the Commission to include the Owyhee Reservoir area in the State Parks system and to improve the road leading to the Reservoir as a state highway. He reviewed the history of the dam and the benefits that it has provided, pointing out that it was constructed in 1935 and provides water for several thousand acres of land. The irrigated section, he stated, has become quite populous and people in the area have need for the Owyhee Reservoir as a means of recreation. The road leading to the dam, however, is an old railroad grade and is very rough and narrow. Even under these adverse conditions he alleged that approximately 10,000 people visited the Reservoir in 1956, and that the demand for recreational facilities of this type is increasing

greatly in the Eastern Oregon area as well as state wide. Mr. Russell commented that local citizens have made some developments, including a boat lift to lower and raise boats at the Reservoir and that $24,600 has been expended in roadway construction. There is great need, he stated, for parking space, drinking water and toilet facilities. Fifteen thousand dollars of private funds has been raised to construct a road from the dam to Gordon Gulch. Mr. Duncan, President of the Portland Chamber of Commerce, stated that his group has voted in favor of the project, as it was felt that additional recreational facilities are needed for local residents as well as for tourists. Commissioner McIver observed that the Commission is familiar with the project but if the delegation's request is granted it will take practically all of the available secondary highway money in Division V for the next two years. Mr. Dana commented that the Malheur County Court has offered the sum of $5,000 to develop the project but the delegation is not asking the Commission for any allocation at this time but simply wants preliminary arrangements for state cooperation. Upon inquiry by Mr. McIver, Mr. Dana stated that the delegation's estimate of cost to provide the improvement is about $1,000,000. Commissioner McIver then stated that, although the Commission does program its work for several years ahead, if the project is approved other secondary roads in Division V would have to give up any hopes of improvement for about two years. A number of colored slides were shown by the delegation pointing out the size of the Reservoir, which is approximately 54 miles long and from 1 to 5 miles wide, the many colored rock formations, and the excellent bass fishing. Mr. Gerner emphasized the point that people in Malheur County are doing a great deal to develop the project themselves and he called attention to about 1,000 feet of road along the side of the canyon leading to the Reservoir which was constructed with donated labor and equipment. The County, he stated, has provided $5,000 and private interests $8,000, and they hope to secure additional funds. Mr. Doan referred to the Gordon Gulch Road and stated their hope that park facilities can be developed at the road end at the Reservoir and he asked if the Parks Superintendent would check their plans. Mr. Dana then introduced the members of the delegation and again requested that a section of the road, approximately 18.6 miles long, be placed on the state highway system, and that adequate park facilities be developed at the Reservoir site. No large amount of money, he stated, is requested at this time but engineering services are needed in developing plans. Acting Chairman Reynolds then inquired as to what happened to the proposal that development of this area be at least partially financed by the Federal Government. One of the delegation replied that legislation is still in proposal form but it is planned to introduce it at this session of Congress. Acting Chairman Reynolds then commented that if an adequate roadway is constructed to the Reservoir site development of a parkarea could be made without great cost. However, he called attention to the fact that the Highway Commission has never spent anything like the amount of money for a recreational road as is necessary to construct an adequate roadway into the Owyhee Reservoir. It was his feeling that the State could not afford to spend such a large amount as it would deprive other secondary highways in Division V of needed improvements and such action would be very difficult to justify. A member of the delegation then suggested that a low type road be constructed and oiled

at minimum cost.. The Engineer replied that such a procedure could not be followed if the road is placed on the state secondary system, as federal standards have to be maintained. It could be developed, however, in any manner by the County as a County road. Mr. Dana expressed the thought that Eastern Oregon has been neglected in the development of recreational facilities, to which remark Acting Chairman Reynolds replied that at this time the Highway Commission does not have sufficient funds to perform all needed work. Mr. Dana inquired when funds will be available and if engineering assistance can be furnished by the Commission. Acting Chairman Reynolds replied that he did not know when money would be available but engineering assistance could be provided. A member of the delegation then inquired if the road to the Reservoir could be designated as a state highway and left in its present condition. Acting Chairman Reynolds stated that the Commission could not see its way clear at the present time to designate the road as a state highway in view of its previously adopted policy of developing existing secondary roads before new ones are added to the system. Commissioner McIver stated that he believed the delegation could well understand that with only so much money available, if all of those monies are applied to one road it could mean only that development of other roads in Division V would have to be postponed. The Commission, he stated, cannot approve an allocation of funds that will deprive needed development of all highways in a very large area. He pointed out that the Commission is very much interested in the greatest possible development of highways with the amount of money available, but as the Commission is responsible for impartial allocation of highway funds over the entire State, they could not very well agree to allocate such a large amount to a road which would be used primarily for recreational purposes. He expressed the opinion that if the members of the delegation were in the Commission's place they would be hard pressed to view the matter in any other light. Mr. Doan then inquired if there is any procedure whereby the County could vote a bond issue for development of the road. Acting Chairman Reynolds replied that the County could do as they wished in this matter and if the County constructs the road, the State will develop park facilities. As a result of the discussion, the Commission authorized the Engineer and the Park Superintendent to act as consultants in the development of the project.

Mrs. M. R. Moore, Corbett, who operates the Vista Cafe at Crown Point in the Columbia Gorge, came before the Commission and offered objections to the sale of certain articles in the State-owned Vista House, operated by Mr. Flaucher. She requested that Mr. Flaucher be instructed to discontinue the sale of food and beverage, as the sale of these articles is in direct and, she felt, unfair competition to her restaurant which is nearby. She pointed out that sales in her restaurant decreased between $2,000 and $3,000 during the last year. Acting Chairman Reynolds stated that careful consideration would be given to the matter and she would be notified of the Commission's action. Following Mrs. Moore's departure the matter was again discussed. The Parks Superintendent stated that Mrs. Moore indicated to him that she would continue her fight to have Mr. Flaucher discontinue sale of food and beverage as she claimed that sale of these items is not covered in Mr. Flaucher's agreement with the State.

Commissioner McIver commented that if sale of coffee and sandwiches is discontinued in the Vista House, Mrs. Moore might then request discontinuance of the sale of other items. He also raised the question as to whether or not tourists will cross the highway to purchase coffee and sandwiches at her place if the sale of these items is not allowed in the Vista House. It was his feeling that the Commission is within its rights in providing service at the Vista House which is required by the public. After some further discussion, the Commission ordered that Mrs. Moore be informed that the Commission has decided to make no change in its agreement with Mr. Flaucher regarding sale of items in the Vista House.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Mr. Kenneth Nielsen, Lane County Commissioner, appeared before the Commission concerning selection of the "Q" Street route between Eugene and Springfield from 19th Street to a connection with the McKenzie Highway. He recalled that Lane County paid to the State the sum of $130,000 as its share in acquiring right of way for this section and that the State agreed to select a route not later than July 1, 1957. The Engineer stated that the survey for this easterly part of the "Q" Street route has not yet been completed but perhaps could be started within the next month or two.

Concerning bids received at the morning session, the Engineer advised that the low bid for construction of the Pruner Bridge on the Riddle county road, submitted by West Coast Steel Works, in the sum of $236,420, is 12.1 percent over the Engineer's estimate. This is a county project, he said, and Douglas County has agreed to accept the bid. They have requested, however, that they be allowed to pay the County's share on a deferred basis, $50,000 at this time and an additional $3,175 prior to July 15, 1957. It was the Engineer's opinion that the State's estimate for the cost of constructing this bridge is too low, particularly in the matter of removing the old bridge, and he pointed out that the amounts bid by the contractors for this item proves the point. If the job is readvertised he doubted very much if a lower bid could be secured; accordingly, he recommended that the contract be awarded to the low bidder and that the County's proposal for payment of its share be accepted. The Commission approved his recommendation.

Messrs. Howard Goodnough, Mayor of Lakeview, and Robert Welch, Lakeview City Attorney, came before the Commission concerning further improvements to US 395 through the City of Lakeview. Mr. Goodnough referred particularly to a six-block section between Third and Ninth Streets. He said that the existing pavement is breaking up and that the City plans to issue bonds for repair of City Streets. He inquired if the City could be given a breakdown on the cost of curbs, paving, and other items in a project which he understood would amount to approximately $106,000. This particular project, he stated, is located in a district where there are churches, schools, and a youth center. The County has helped the City to a certain extent and has indicated that some

further help will be given. The Engineer commented that the estimated cost of the project is $60,000 rather than $106,000 for the one-half mile involved, and he inquired if the City had considered the issuance of Bancroft Bonds. Mr. Goodnough replied that residents of Lakeview have been paying off an old issue of Bancroft Bonds and that in his estimation it would be unfair to ask them to assume additional payments on a new issue. However, in view of the reduced total cost of the project, it was his feeling that the City Council might approve participation in the $60,000 project up to about 25 percent. The Engineer recalled that previously about a mile of improvement had been made but that the State had run out of funds. It was his thought that the item could probably be included in the 1958 budget if the City could finance its portion of the project. Mr. Goodnough stated that he would advise the City Council and when they had taken action he would let the Commission know the results. Mr. Welch inquired if the City could perform with its own forces a part of the work in lieu of a cash payment. The Engineer replied in the affirmative, adding however, that the work would have to be performed according to state specifications. He also said that information on the cost of various items involved in the half-mile section, including curbs, base, paving, catch basins, etc., would be sent to the city officials. The Commission advised that consideration will be given this project in the formulation of the 1958 construction budget and if money can be found to finance the work, the project will go forward on the condition that the City contributes 25 percent of the costs involved, or approximately $15,000.

The Acting Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements and for other purposes, and to tender offers for the same in conformity with instructions given him in the Commission's resolution dated December 20, 1951:

North Jefferson Junction-Albany Section of the Pacific Highway East

R-24530 - Rex R. Hartley and Esther J. Hartley
(Marion County)
Parcel No. 1: 3.3 acres Right of Way
Parcel No. 2: 0.02 acre Right of Way

R-24529 - Ora Thompson
(Marion County)
Parcel No. 1: 3.84 acres Right of Way
Parcel No. 2: 0.24 acre Road approach easement

R-24531 - Walter M. Bloomer and Mary K. Bloomer
(Marion County)
Parcel No. 1: 2.74 acres (net) Right of Way
Parcel No. 2: 0.23 acre (net) Right of Way

North Jefferson Junction-Albany Section of the Pacific Highway East - Cont.

R-24535 - Ernest B. Henningsen and Constance B. Henningsen
(Marion County)
Parcel No. 1: 4.8 acres Right of Way
Parcel No. 2: 9.7 acres Right of Way
Parcel No. 3: 16.0 acres Right of Way
Parcel No. 4: 4.05 acres Right of Way
Parcel No. 5: 24.7 acres Material site

R-24538 - Dale L. Turnidge
Right of Way (Marion County)
1.07 acres

Shady Point-Booth Ranch Section of the Pacific Highway

R-26003 - Joseph W. Holmgren and Ruth E. Holmgren
Right of Way (Douglas County)
5.8 acres

R-26076 - M. M. Cooper and Etta M. Cooper
Right of Way (Douglas County)
0.12 acre

Camp Creek-Paulina Unit, Post-Paulina Section of the Paulina Secondary Highway

R-26038 - H. F. Severance and Eva Severance
(Crook County)
Parcel No. 1: 16.0 acres (net) Right of Way
Parcel No. 2: 16.0 acres (net) Right of Way
Parcel No. 3: 1.18 acre Irrigation ditch easement
Parcel No. 4: 0.05 acre Irrigation ditch easement
Parcel No. 5: 0.34 acre Irrigation ditch easement
Parcel No. 6: 0.48 acre Irrigation ditch easement
Parcel No. 7: 0.02 acre Irrigation ditch easement

R-26039 - Dick Bryant
(Crook County)
Parcel No. 1: 8.4 acres (net) Right of Way
Parcel No. 2: 20.19 acres Right of way
Parcel No. 3: 13.4 acres (net) Right of Way
Parcel No. 4: 0.35 acre Easement for channel change

R-26040 - Robert T. Lister
Right of Way (Crook County)
4.5 acres (net)

March 1, 1957

Camp Creek-Paulina Unit, Post-Paulina Section of the Paulina Secondary Highway - Cont.

R-26044 - A. L. Miller, et al.
Right of Way (Crook County)
0.01 acre

R-26045 - Louis Davin and Fernande Davin
(Crook County)
Parcel No. 1: 0.38 acre Right of Way
Parcel No. 2: 0.10 acre Right of Way

Ferry Street Bridge-Mohawk Road Section of the Eugene-Springfield Highway

R-23229 - C. F. Huser and Mary S. Huser
Right of Way (Lane County)
8.03 acres

Right-of-way maps, construction plans and other data were submitted to the Commission and the Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and the advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Acting Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBITS "D-14" through "D-17", which resolutions by this reference are made part thereof, with like effect as though extended in full herein.

The Engineer reported that, on the one-way street section of the Pacific Highway in Talent, a stream known as Bear Creek damaged property belonging to a Mr. Steiger. State highway forces previously performed work on the channel to prevent further damage and Mr. Steiger has asked that he be paid the sum of $100 to replace a fence which was washed out. Mr. Steiger has been very reasonable in this matter, the Engineer stated, and he recommended that he be paid the sum of $100 in lieu of the State's building the fence. The Commission approved the payment.

The question of what action to take concerning a bill now before the State Legislature whereby the telephone and power companies seek to have the State pay the cost of moving their facilities located on state highway right of way was discussed. The Engineer recalled that this matter was discussed previously and it is his feeling that the bill should be opposed because to do the things that the bill provides for would be very costly and are not in the best interests of the traveling public.. The Commission instructed him to oppose this piece of legislation vigorously.

In connection with legislative matters the Engineer reported that a bill has been introduced which requires that highway center lines be painted solid. The present practice, he explained, is to paint intermittent strips, 15 feet being painted and 25 feet left blank. He stated that he is not personally opposed to the idea as either type of center lines will serve a good purpose, but the solid line is much more costly. He estimated the additional cost of a solid center line at approximately $71,000 annually. After some discussion, the Commission instructed the Engineer to take such action in opposition to the bill as appears feasible.

Mention was made of another proposed piece of legislation which would make the State responsible for any change in grade in reconstructing a state highway or a county road. The Acting Chief Counsel stated that he attended a hearing on this subject about two weeks ago and was advised that the purpose of the bill is to give to rural dwellers the same rights in relation to changes in highway grades as is now granted to city dwellers. There was ambiguity in the bill as to what constitutes a change of grade, and the legislative committee had requested him to rewrite the bill and define a "change of grade." Commissioner McIver observed that if such legislation is passed it will increase the cost of highway construction. Acting Chairman Reynolds stated that he felt that in the interests of the traveling public the bill should be opposed and he asked the Acting Chief Counsel to keep the Commission advised in the matter.

The Commission discussed briefly proposed legislation which would change the names of the existing freeways now known as the T. H. Banfield Expressway and the Portland-Salem Expressway, a portion of which had been designated as the R. H. Baldock Freeway. The Commission indicated its opposition to these changes.

The Commission signed the following agreements and other papers:

"Lease" for Land and Cancellation of Former Lease with Herman Brelage covering certain property on North Bend Section of Oregon Coast Highway, Coos County.

"Indentures of Access" on following properties:

a. McKenzie property on Siletz Bay-Miner Creek Section of Oregon Coast Highway, Lincoln County.

b. Hamilton property on Siletz Bay-Newport Section of Oregon Coast Highway, Lincoln County.

c. Edmison property on Orr Corner-Monmouth Section of Pacific Highway West, Polk County.

d. Steward property on Glendale Junction-Wolf Creek Section of Pacific Highway, Josephine County.

"Quitclaim Deed" deeding back to Mr. and Mrs. Thomas E. Neer the remainder of the 1 foot buffer strip of land on West and South sides of Western Addition tract, Corvallis-Philomath Section of Corvallis-Newport Highway, Benton County, which was deeded by the Neers in 1956.

"Easement" to West Coast Telephone Company permitting construction of a telephone pole line on the right of way of the Coos River Highway at Catching Slough, Coos County.

"Relinquishment of Title" relinquishing to Coos County title to the Seven Devils Chrome Mine Access Road in Coos County so it can be designated as a county road.

"Quitclaim Deed" covering exchange of easements with West Coast Telephone Company on North Brookings Section of Oregon Coast Highway, Curry County.

"Quitclaim Deed" deeding to Mrs. Nell Hackney 0.29 acre of property on Adams Street-McMinnville Section of Pacific Highway West, Yamhill County, because of error in original description. State to receive $240 for conveyance.

"Indenture" covering an exchange of property with Lincoln County. State to convey to County the $SW\frac{1}{4}$ of $SE\frac{1}{4}$ of Sec. 20, T. 11 S., R. 11 W., W.M., Lincoln County. County to convey to State 574 Lots in Pacific View, South Newport, and South Beach Additions to Newport.

"Agreement" with Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, Lessee, covering Glover Overcrossing on Old Oregon Trail, Union County.

"Bargain and Sale Deed" to Frank B. Reid for a parcel of land on the Eugene By-Pass Section of the Pacific Highway in Lane County. (Authorized 12-7-54)

"Agreement" with City of Lebanon covering proposed traffic signal installation at intersection of Main and Milton Streets in Lebanon. (Authorized 12-17-56)

"Finance and Maintenance Agreement" with Wasco County covering Boyd-Dufur Section S-117(1), FAS 310. (Authorized 12-19-55)

"Finance and Maintenance Agreement" with Douglas County covering Pruner (S. Umpqua River) Bridge S-302(2), FAS 244. (Authorized 1-22-57)

"Finance and Maintenance Agreement" with Lake County covering Deep Creek Bridge S-333(1), FAS 699. (Authorized 11-8-56)

"Agreement" with Douglas County covering Oregon Project ER-31(1) on FAS 241. (Authorized 7-12-56)

March 1, 1957

"Finance and Maintenance Agreement" with Gilliam County covering the Rock Creek and Thirtymile Creek Bridges, S-331(1) & S-332(1), FAS 714 & 720. (Authorized 11-8-56)

"Finance and Maintenance Agreement" with Lane County covering the Mohawk River Bridge, S-145(3), FAS 228. (Authorized 9-27-56)

"Finance and Maintenance Agreement" with Multnomah County covering Halsey Street-Division Street Section, S-255(3), FAS 654. (Authorized 6-30-55)

"Agreement" with Marion County covering the State Street-Mission Street Extension Section of the North Santiam Highway. (Authorized 11-8-56)

"Bargain and Sale Deed" to R. G. S. Company covering property on the Coos Bay Section of Oregon Coast Highway in Coos County. (Authorized 1-22-57)

"Bargain and Sale Deed" to Alfred C. Trossen for a parcel of land on the Interstate Avenue to Denver Avenue Section of Pacific Highway West in Multnomah County. (Authorized 1-22-57)

"Bargain and Sale Deed" to J. Keith Anderson for a parcel of land on the Salem By-Pass Section of the Pacific Highway East in Marion County. (Authorized 1-22-57)

"Agreement" with O.W.R. & N. R. R. Co., Union Pacific Co. and State Highway Commission covering relocation of grade crossing on the Cayuse-Adams County Road M.K.-39, near Thornhollow in Umatilla County.

The Commission discussed with the Engineer bids received at the morning session and at 3:00 p.m. Commissioner McIver announced awards of contracts as follows:

"Slope protection and intermittent river bank protection on the Albany-Corvallis Highway in Benton County. The Commission awarded the contract to the low bidder, S. W. Groesbeck, Eugene, at $10,638.00.

"Grading and oiling on the East Unit, Black Bridge-Richland Section of the Baker-Homestead Highway in Baker County. The Commission elects to accept the bid of Quinn Bros. & Robbins, Inc., Boise, Idaho, who submitted the low bid at $360,628.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Construct asphaltic concrete footpath on the Flavel Street-Glencoe Road Section of the Cascade Highway in Clackamas and Multnomah Counties. The Commission awarded the contract to Portland Road & Driveway Co., Portland, who submitted the low bid at $5,922.50.

"Olney-Jewell Rock Production on the Nehalem Highway, southeast of Astoria, in Clatsop County. The Commission awarded the contract to the low bidder, Calkins Crushing Co., at $30,000.00.

"Construction of bridges over Beaver Creek and South Fork Crooked River on the Camp Creek-Paulina Section of the Paulina Highway in Crook County. The Commission awarded the contract to the low bidder, C. P. Patterson, Redmond, at $58,478.50.

"Construct Pruner Bridge over the South Umpqua River on the Riddle county road in Douglas County. The Commission elects to accept the bid of West Coast Steel Works, Portland, who submitted the low bid in the sum of $236,420.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Douglas County is received and the sum of $50,000 is deposited by the County and Douglas County agrees to deposit an additional $3,175.00 prior to July 15, 1957.

"Roberts Mountain Summit Slope Stabilization Project on the Pacific Highway in Douglas County. The Commission elects to accept the bid of Funderburk Construction Corp., Sutherlin, who submitted the low bid in the sum of $81,760.00, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct bridges over Rock Creek and Thirtymile Creek on county roads in Gilliam County. The Commission elects to accept the bid of Babler Bros., Inc., Portland, who submitted the low bid in the sum of $28,822.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Gilliam County is received and the sum of $6,475.00 is deposited by the County.

"Construct guardrail at Rock Point near Gold Hill on the Pacific Highway in Jackson County. The Commission awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at $2,850.00.

"Grading and oiling on the Silver Lake Section of the Fremont Highway in Lake County. The Commission awarded the contract to the low bidder, Allum Bros., Eugene, at $30,110.00.

"Construct guardrail on the McKenzie and Willamette Highways, east and southeast of Eugene, in Lane County. J. C. Compton Co., McMinnville, and Fred J. Stubbert, Springfield, submitted identical bids in the sum of $8,060.00. On the toss of a coin, the Commission awarded the contract to J. C. Compton Co., McMinnville.

"Construct Mohawk River Bridge on the Eugene-Marcola Highway in Lane County. The Commission elects to accept the low bid of Valley Construction Co., Portland, in the sum of $103,560.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lane County is received and the sum of $23,000 is deposited by the County.

"Oiling on the Boyd-Dufur Section of the Boyd-Dufur Road in Wasco County. The Commission elects to accept the bid of J. C. Compton Co., McMinnville, who submitted the low bid in the sum of $19,309.75, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wasco County is received and the sum of $4,350.00 is deposited by the County.

"Shaniko Rock Production Project on the Sherman Highway in Wasco County. The Commission awarded the contract to the low bidder, C. C. Meisel, McMinnville, at $26,500.00.

"Grading and oiling on the Hopewell Section of the Bellevue-Hopewell Highway, at Hopewell, in Yamhill County. The Commission awarded the contract to the low bidder, D. F. McKenzie, Salem, at $21,347.50.

There being no further business to come before the Commission at this time, the meeting was declared adjourned by Acting Chairman Reynolds at 3:10 p.m.

Secretary

Commissioner

March 1, 1957

EXHIBITS "A" THROUGH "K"

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

FEBRUARY 28, AND MARCH 1, 1957

EXHIBIT "A"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

INTERSTATE BRIDGE SECTION - PACIFIC HIGHWAY

25847 Portland General Electric Company Correction Report (Mayhew)
Right of Way
Option expires July 30, 1957

Easement 30' wide, west side of hwy. between Stas. 84+00 and 101+50, including damage to system by reason of having to move $14,814.32

Amount to be paid owners - chrg to Right of Way $14,814.32

Supersedes and cancels previous $2,185.90 approval of November 8-9, 1956 for power line easement.

EXHIBIT "A" Cont.

EXHIBIT "B-1"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the North Bend-Marshfield Section of the Oregon Coast Highway described as follows:

The West 51 ft. of Lots 1, 2, 3 and 4 of Block 31 of Plat "B", Coos Bay Addition of North Bend, lying in the North half of Section 22, Township 25 S, Range 13 W, W.M., Coos County, Oregon, and contains 5,105 sq.ft.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,000.00 and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission, be and he hereby is authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et.Seq.

AND BE IT FURTHER RESOLVED, that this Property Sale Resolution No. 35 be entered in the minutes and records of the Commission as of the 28th day of February, 1957.

27910

EXHIBIT "B-2"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of three parcels of land on the Pacific Highway on the 7th Avenue Connection in Eugene described as follows:

Parcel 1 - A Parcel of land lying in the Prior F. Blair D. L. C. No. 39, also lying in Section 36, Township 17 South, Range 4 West, W.M., Lane County, Oregon, said parcel being bounded on the northwesterly side by the extended southeasterly line of that tract of land which was conveyed by that certain deed to Richfield Oil Corporation, Recorded in Book 367, Page 303 of Lane County Record of Deeds, bounded on the northeasterly side by the southwesterly line of that tract conveyed to Wheel and Rim Service, Inc. by deed recorded in Book 313, Page 544, bounded on the southwesterly side by a line which is parallel to and 44 feet northeasterly of the center line of the 7th Street Connection of the Pacific Highway and bounded on the southeasterly side by the northwesterly line of a tract which is under lease to the Big Y Super Market, Inc., containing 15,000 square feet, more or less.

Parcel 2 - A parcel of land lying in the Prior F. Blair D. L. C. No. 39 of Section 36, Township 17 South, Range 4 West, W.M., Lane County, Oregon, the said parcel being described as follows:

That portion of the right of way of the 7th Avenue connection to the Pacific Highway lying southerly of that tract of land described in the deed to Julius and Dolly Hockhold and recorded in Book 270, page 217 of Lane County Record of Deeds; and lying northerly of a line parallel to and 44 feet northerly from the centerline of said 7th Avenue Connection to the Pacific Highway. Said parcel being bounded on the westerly and easterly sides by the extended westerly and easterly lines of said Hockhold property.

The parcel of land to which this description applies contains 13,650 square feet, more or less.

Parcel 3 - A parcel of land lying in the Prior F. Blair D. L. C. No. 39 and situated in Section 36, Township 17 South, Range 4 West, W.M., Lane County, Oregon; the said parcel being that portion of the right of way of the 7th Avenue Connection to the Pacific Highway lying southerly of that property leased by Big Y Super Market, Inc., from Wheel & Rim Service, Inc.; and lying northerly of a line parallel to and 44 feet northerly

EXHIBIT "B-2" (Cont)

from the center line of said 7th Avenue connection to the Pacific Highway; said parcel being bounded on the westerly and easterly sides by the extended westerly and easterly lines of said property leased by Big Y Super Market, Inc.

The parcel of land to which this description applies contains 24,650 square feet, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $26,650.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway, except one point of access not to exceed 50 feet in width will be allowed at approximate Highway Engineer's Center Line Stations 669+65, Station 668+80, 666+65, 663+85 and 662+90 on the northerly side of the Pacific Highway unrestricted as to use.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 36 be entered in the minutes and records of the Commission as of the 28th day of February, 1957.

27912

EXHIBIT "B-3"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Blackwell Hill-7 Oaks Section of the Pacific Highway described as follows:

A parcel of land lying in Section 30, Township 36 South, Range 2 West, W.M., Jackson County, Oregon, and being a portion of that property conveyed by that deed to the State of Oregon by and through its State Highway Commission, recorded in Book 390, Page 321, of Jackson County Records of Deeds. The said parcel being that portion of said property lying Northerly and Southerly of a strip of land variable in width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 338+00, said Station being 2,365.62 feet South and 3,421.38 feet East of the Northwest corner of said Section 30; thence North 88°33' East 1,300 feet to Engineer's center line Station 351+00, said center line intersects the West and East lines of said property approximately at Station 342+07 and 349+56, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station	to	Station	Width on Northerly side of Center line	Width on Southerly side of Center line
338+00		342+00	225 feet	125 feet
342+00		346+00	225 feet	125 ft. to 175 ft.
346+00		351+00	225 feet	175 feet

The parcel of land to which this description applies contains 38.92 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $5,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

EXHIBIT "B-3" (Cont)

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission, be and he hereby is authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of such property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway, except access will be granted by way of a frontage road and the old Pacific Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 37 be entered in the minutes and records of the Commission as of the 28th day of February, 1957.

27914

EXHIBIT "B-4"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Northbound Route in Ashland Section of the Pacific Highway described as follows:

A parcel of land lying in Lots 2 and 12, Block 19, Chitwood Tract in Ashland, Jackson County, Oregon, and being a portion of that property described in those deeds to the State of Oregon, by and through its State Highway Commission recorded in Book 432, Page 197 and in Book 418, Page 470 of Jackson County Records of Deeds; the said parcel being described as follows:

Beginning at the Northeasterly corner of said State of Oregon property; thence Northwesterly along the Northeasterly line of said property 125 ft., more or less, to a line which is parallel to and 30 ft. Northeasterly of the center line of the Northbound Route in Ashland of the Pacific Highway; thence, Southeasterly along said parallel line 130 ft., more or less, to the Southeasterly line of said property; thence Northeasterly along said Southeasterly line 40 ft., more or less, to the place of beginning.

The center line herein referred to being described as follows: Beginning at Engineer's center line Station 13+50.03, said station being 4.7 feet north and 415.2 feet West of the monument at the intersection of "B" and Oak Streets; thence S 44°29'E 401.69 ft.; thence on a 1432.39 ft. radius curve left (the long chord of which bears S 55°20'30"E) 542.92 ft. to Station 22+94.64.

The parcel of land to which this description applies contains 0.06 acres, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of this property shall be

EXHIBIT "B-4" (Cont)

subject to a 5 ft. slope easement and also an alley way easement over the Northerly 8 ft.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 38 be entered in the minutes and records of the Commission as of the 28th day of February, 1957.

27916

EXHIBIT "B-5"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of two parcels of land in the Frankport-Gregg Creek Section of the Oregon Coast Highway described as follows:

Two parcels of land lying in the Southwest quarter of the Northeast quarter of Section 9, Township 35 S, Range 14 W, W.M., Curry County, Oregon, and being that property described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 41, Page 785 of Curry County Records of Deeds;

Parcel No. 1 - Beginning at a point which is 2,598.6 feet South and 3,580 feet East of the Northwest corner of said Section 9, said point being on the South line of the Northeast quarter ($NE\frac{1}{4}$) of said Section 9; thence following said South line North 89°51' East 915 feet; thence North 57°41'15" West 986 feet to an iron pin; thence South 79°57'45" West 329.43 feet to an iron pin; thence South 27°06'30" East 530 feet to the place of beginning, containing 7.3 acres, more or less.

Parcel No. 2 - Commencing at the Northeast corner of parcel No. 1 described above, said point being 2,070.3 feet South and 3,661.4 feet East of the Northwest corner of said Section 9; thence South 79°57'45" West 329.43 feet to an iron pin, said point being the Northwest corner of Parcel No. 1; thence North 57°53'10" West 605.4 feet, more or less; to an intersection with the right of way line of Euchre Creek County Road; thence following said County Road in an Easterly direction to an iron pin set at a fence corner of said County Road right of way line, said point being North 32°44'40" West 359.3 feet, more or less, from the point of beginning; thence South 32°44'40" East 359.3 feet, more or less, to the point of beginning, containing 5.0 acres, more or less.

The parcels of land to which these descriptions apply contain 12.3 acres of land combined, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,500.00, and the Commission is desirous

EXHIBIT "B-5" (Cont)

of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 39 be entered in the minutes and records of the Commission as of the 28th day of February, 1957.

27918

EXHIBIT "B-6"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land near the 7th Street Connection on the Pacific Highway described as follows:

A parcel of land lying in the Prior F. Blair D.L.C. No. 39 also lying in Section 36, Township 17 South, Range 4 West, W.M., Lane County, Oregon, and being a portion of that property conveyed to the State of Oregon, by and through its State Highway Commission, by that Final Judgment in which Herbert Cooper Thompson, et al, were defendants and bearing case number 27834 in the Circuit Court Records of the State of Oregon for the County of Lane, the said parcel being described as follows:

Beginning on the southerly right of way line of the 7th Avenue Connection to the Pacific Highway at a point which is opposite and 50 feet southerly of Station 668+76.71 on the center line of said 7th Avenue Connection, said station being 160.96 feet north and 1166.88 feet East of the Southwest corner of said Blair D.L.C. No. 39; thence Westerly along the southerly line of said 7th Avenue Connection 200 feet; thence South parallel to the East line of said property 145 feet, more or less, to the North line of that certain 60 foot strip of land described in that certain Relinquishment of Title from the State of Oregon, by and through its State Highway Commission, dated August 17, 1956; thence Easterly along the northerly line of said 60 foot strip of land 195 feet, more or less, to a point south of the point of beginning; thence north parallel to the East line of said property 90 feet, more or less, to the point of beginning.

The parcel of land to which this description applies contains 0.5 acre, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND, WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $11,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

EXHIBIT "B-6" (Cont)

NOW, THEREFORE, BE IT RESOLVED that the Acting Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of this property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between the said real property and the right of way of the Pacific Highway, except access will be granted by way of two 50-foot approaches.

AND BE IT FURTHER RESOLVED, that this Property Sale Resolution No. 40 be entered in the minutes and records of the Commission as of the 28th day of February, 1957.

27920

EXHIBIT "C"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4501 with Aero Service Corporation for aerial photography and topographical mapping on the Davis Slough-Bandon Section of the Oregon Coast Highway in Coos County, completed July 31, 1956.

"Contract No. 4506 with Russellville Nursery for roadside improvement on the 42nd Avenue-99th Avenue Section of the T. H. Banfield Expressway in Multnomah County, completed December 21, 1956.

"Contract No. 4521 with Lee Hoffman for constructing a bridge over the Siletz River on the Siletz Highway in Lincoln County, completed December 21, 1956.

"Contract No. 4540 with Rogers Construction Co. for grading and paving on the Hillsboro Section of the Tualatin Valley Highway in Washington County, completed November 9, 1956.

"Contract No. 4554 with Benedict Nursery Co. for roadside improvement on the Willamette River-Gervais Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway (R. H. Baldock Freeway) in Marion and Clackamas Counties, completed January 4, 1957.

"Contract No. 4555 with Knight Pearcy Nursery for roadside improvement on the Gervais-Chemawa Railroad Overcrossing Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway (R. H. Baldock Freeway) in Marion County, completed January 17, 1957.

"Contract No. 4578 with Pettijohn Engineering Co. for constructing the Birkenfeld bridge over the Nehalem River on the Nehalem Highway in Columbia County, completed December 29, 1956.

"Contract No. 4588 with Lord Brothers Contractors for constructing the 39th Avenue Undercrossing on the T. H. Banfield Expressway in Multnomah County, completed November 28, 1956

"Contract No. 4589 with Workman & Wilson for constructing Nehalem River Bridge on the Miami Valley County Road in Tillamook County, completed February 11, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4659 with White Brothers Company for constructing the Meadowbrook Bridge over the Molalla River on the Woodburn-Estacada Highway in Clackamas County, completed January 28, 1957.

"Contract No. 4667 with Knight Pearcy Nursery for roadside improvement on the Hayesville Interchange Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway (R. H. Baldock Freeway) in Marion County, completed January 15, 1957.

"Contract No. 4685 with Barney B. Helser for furnishing crushed materials in stockpiles on the Rock Creek-Summit Section of the Heppner-Spray Highway in Morrow and Wheeler Counties, completed November 15, 1956.

"Contract No. 4693 with Roger E. Holmes for constructing the Klatskanine River Bridge on the Youngs River Loop Highway in Clatsop County, completed November 15, 1956.

"Contract No. 4709 with Schrader Construction Co. for constructing Rooster Rock Park facilities on the Columbia River Highway in Multnomah County, completed February 14, 1957.

"Contract No. 4721 with McWaters Construction Co. for installing guard rail and snow fence on the Olds Ferry-Ontario Section of the Old Oregon Trail Highway in Malheur County, completed January 10, 1957.

"Contract No. 4722 with Schrader Construction Co. for Cape Lookout Park Extension in Tillamook County, completed February 12, 1957.

"Contract No. 4728 with LeRoy Weideman for Harris Beach State Park extension and facilities on the Oregon Coast Highway in Curry County, completed December 31, 1956.

"Contract No. 4744 with Roseburg Paving Company for grading and paving on the South Oakland Interchange Unit, Chenoweth Park-Deady Section of the Pacific Highway in Douglas County, completed December 20, 1956.

"Contract No. 4786 with Tom Lillebo for constructing Umpqua Lighthouse State Park Latrine in Douglas County, completed February 4, 1957."

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 59 shall be entered in the minutes and records of the Commission as of the 28th day of February, 1957.

27922

EXHIBIT "D-1"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties

EXHIBIT "D-1" (Cont)

hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked EXHIBIT "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said EXHIBIT "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as noted as to each parcel or parcels on the attached list marked EXHIBIT "A". *

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed t` attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "D-1" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 737.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 737 under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-2"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, comonly known as the Throughway Law, and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

EXHIBIT "D-2" (Cont)

and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked EXHIBIT "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said EXHIBIT "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked EXHIBIT "A". *

3. That the relocation, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

EXHIBIT "D-2" (Cont)

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 738.

---

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 738, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27928

EXHIBIT "D-3"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public

welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked EXHIBIT "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said EXHIBIT "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked EXHIBIT "A". *

3. That the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway and the Highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "D-3" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

27931

EXHIBIT "D-4"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties

hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the State highway system, and the relocation, construction, improvement and maintenance of the Klamath Falls, West Side By-Pass Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked EXHIBIT "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said EXHIBIT "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Klamath Falls, West Side By-Pass Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of , or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part

EXHIBIT "D-5" (Cont)

of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked EXHIBIT "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said EXHIBIT "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "D-5" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 741.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 741, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27937

EXHIBIT "D-6"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Mosier-The Dalles Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter

described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Mosier-The Dalles Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked EXHIBIT "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said EXHIBIT "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the widening, improvement and maintenance of the said Mosier-The Dalles Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "D-6" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 742.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 742, under the heading "Real Property Condemantion Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27940

EXHIBIT "D-7"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Hinsdale Slough-Luder Creek Section of the Umpqua Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system and the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked EXHIBIT "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said EXHIBIT "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "D-7" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Umpqua Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked EXHIBIT "A".*

3. That the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 743.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 743, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27942

EXHIBIT "D-8"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

EXHIBIT "D-8" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 744.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 744, under the heading "Real Property Condemnation Resolutions", and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-8" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked EXHIBIT "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said EXHIBIT "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked EXHIBIT "A". *

3. That the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "D-9"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along; or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Cape Sebastian State Park has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Cape Sebastian State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development, and maintenance of the Cape Sebastian State Park fee simple title to certain parcels of real property. The said parcels of real property needed and required, and the specific use to be made thereof are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the above-described real property and the park and recreational purposes for which it is being acquired is necessary for the

convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

3. That the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed, and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 745.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 745, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27947

EXHIBIT "D-10"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Hinsdale Slough-Luder Creek Section of the Umpqua Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system and the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "D-10" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Umpqua Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 746.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 746, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-11"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous point of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Black Bridge-Richland Section of the Baker Homestead Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Black Bridge-Richland Section of the Baker Homestead Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "D-11" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the relocated and improved Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Black Bridge-Richland Section of the Baker Homestead Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 747.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 747, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-12"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; roadside developments; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the convenience of the public and the general welfare and pleasure of the motoring public fee simple title to certain parcels of real property for the development and maintenance of a roadside development. The said parcels of real property needed and required, and the specific use to be made thereof are more particularly described in the attached Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" are by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

3. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

EXHIBIT "D-12" (Cont)

4. That the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

7. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 748.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 748, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

27954

EXHIBIT "D-13"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels, weighing stations; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of widening in part, relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission

EXHIBIT "D-13" (Cont)

that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibiti "A".*

3. That the widening in part, relocation, construction, improvement and maintenance of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is

authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of February, 1957, as Condemnation Resolution No. 749.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 749, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-14"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right pf access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East, and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attahced list marked Exhibit "A".*

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "D-14" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

27960

EXHIBIT "D-15"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Shady Point-Booth Ranch Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties

EXHIBIT "D-15" (Cont)

hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Shady Point-Booth Ranch Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Pacific Highway and all of the continguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the widening, improvement and maintenance of the said Shady Point-Booth Ranch Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of March, 1957, as Condemnation Resolution No. 751.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 751, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-16"

Minutes of February 25 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, improve and maintain the Camp Creek-Paulina Unit, Post-Paulina Section of the Paulina Secondary Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, improvement and maintenance of the said Camp Creek-Paulina Unit, Post-Paulina Section of the Paulina Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the relocation in part, widening, improvement and maintenance of the said Camp Creek-Paulina Unit, Post-Paulina Section of the Paulina Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 1st day of March, 1957, as Condemnation Resolution No. 752.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 752, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D-17"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain the Ferry Street Bridge-Mohawk Road Section of the Eugene-Springfield Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare

EXHIBIT "D-17" (Cont)

promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary; and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and improvement of the said Ferry Street Bridge-Mohawk Road Section of the Eugene-Springfield Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said established Eugene-Springfield Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the establishment, construction and maintenance of the said Ferry Street Bridge-Mohawk Road Section of the Eugene-Springfield Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in

EXHIBIT "D-17" (Cont)

his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of March, 1957, as Condemnation Resolution No. 753.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 753, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "E"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

From revenues accrued during the First Six-month period of 1956	
Dufur	$ 1,472.05
Grass Valley	572.46
Mitchell	1,212.10
Mosier	756.47
North Powder	1,203.34
Yamhill	1,498.33

From revenues accrued during the Second Six-month period of 1956	
Seaside	$14,001.50

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

EXHIBIT "E" (Cont)

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 28th day of February, 1957.

EXHIBIT "F"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, pursuant to Section 110 (b) of the Federal Aid Highway Act of 1956, if the Secretary of Commerce shall determine that it is necessary for the expeditious completion of projects on any of the Federal Aid Highway Systems, including the Interstate System, he may advance to any state out of any existing appropriations, the federal share of the cost of construction thereof, to enable the State Highway Department to make prompt payment for acquisition of right of way, and for construction as it progresses:

WHEREAS, the State Highway Commission has made application for an advance of Federal Aid funds, and will, from time to time, make application for additional advances of Federal Aid funds, which, when received, will be deposited with the State Treasurer, where they will be credited to a "trust fund" account for the Highway Department;

WHEREAS, warrants will be written by the Secretary of State for payment from the "trust fund" account to the State Highway Department upon receipt of vouchers, properly authenticated by the signature of officials designated by resolution of the State Highway Commission.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission auditor and assistant auditor are hereby expressly authorized to authenticate the vouchers submitted to the Secretary of State for disbursement of funds under Federal Aid participation projects.

2. This Miscellaneous Resolution No. 205, be entered in the minutes and records of the Oregon State Highway Commission as of the 28th day of February, 1957, and the Secretary is hereby ordered to mail a copy hereof to the Secretary of State.

EXHIBIT "G"

Minutes of February 28, and March 1, 1957

RESOLUTION

WHEREAS, on November 9, 1956, the Highway Commission adopted a resolution amending a resolution adopted by the Highway Commission on May 11, 1954, designated as miscellaneous resolution 111 authorizing the issuance of permits pursuant to the provisions of ORS 483.528, for the movement of any vehicle or combination of vehicles, article, property or thing having any gross weight or dimension, or of a description not otherwise permitted to move over state highways; and

WHEREAS, based upon investigations and studies made by the State Highway Engineer and his recommednations to the Commission, it is the opinion of the Commission that Paragraph 4 of said resolution of May 11, 1954, as amended November 9, 1956, should be further amended in certain particulars; and

WHEREAS, the Commission believes that the public interest will be best served by further amending said Paragraph 4 of said resolution in the manner hereinafter set forth.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Commission, as follows:

1. That Paragraph 4 of the said resolution adopted by the State Highway Commission on May 11, 1954, as amended on November 9, 1956, is hereby further amended to read as follows:

> Paragraph 4. That when either the State Highway Engineer, Deputy State Highway Engineer, any Assistant State Highway Engineer, Director of Permits, Transportation Permit Supervisor, or the personnel hereinafter designated in Paragraphs 10 and 11, find that the proposed movement is to be made over a highway classified as either a group 1 or group 2 highway as set forth in resolution of the Commission, dated December 19, 1955, pertaining to issuance of permits pursuant to the provisions of ORS 483.525, and all amendments and supplements thereto that have been or may thereafter be adopted, they are authorized to issue a permit for such movement, subject to the limitations hereinafter stated, having gross weights not in excess of the following, to wit:
>
> Maximum gross weight of any vehicle or combination of vehicles, 96,000 pounds.
>
> Maximum gross weight of any axle 21,500 pounds.

EXHIBIT "G" (Cont)

Maximum gross weight of any tandem axle 43,000 pounds.

Maximum gross weight in pounds of any group of axles spaced more than 18 feet apart is determined by the formula W = 1200 x (L + 40).

Maximum gross weight in pounds of any group of axles spaced 18 feet or less apart is determined by the formula W = 1000 x (L + 40).

In addition, permits may be issued for the movement of unladen construction equipment having a maximum gross weight of any single axle exceeding 21,500 pounds, when such single axle is equipped with low-pressure tires operated at a pressure of not more than 25 pounds per square inch in accordance with the following minimum tire sizes and maximum weights.

Minimum tire width		Maximum Axle weight
No.	Cross Section Diameter	
2	21-inch (or equivalent)	26,000 pounds
2	24-inch (or equivalent)	34,000 pounds
2	27-inch or larger	36,000 pounds
2	18-inch (or equivalent)	24,000 pounds

2. That this resolution be entered in the minutes and records of the Commission as of the 28th day of February, as Miscellaneous Resolution No. 111b, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each the Superintendent of State Police, the Public Utilities Commissioner, the Secretary of State and the Director of the Department of Motor Vehicles.

EXHIBIT "H-1"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Halsey-Sweet Home Secondary Highway

Highway Number 212 Route number State 228

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
From M.P. 5.49 (50 feet West of the Southern Pacific railroad crossing)	5.65 (West City limits of Brownsville)	45
From M.P. 6.57 (East City limits of Brownsville)	6.70 (50 feet east of Blakely Avenue)	35

EXHIBIT "H-1" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 242 be entered in the minutes and records of the Commission as of the 28th day of February, 1957.

EXHIBIT "H-2"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

EXHIBIT "I"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, the State Highway Commission is authorized to designate main traveled or "through" highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers, notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and

WHEREAS, the Commission heretofore on the 21st day of September 1949, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as main or "through" highways, and the State Highway Engineer was instructed to properly mark the same; and

WHEREAS, by said resolution of September 21, 1949, the Highway Commission declared the Wasco-Heppner Highway No. 300 to be a "through" highway and stipulated that traffic should stop before entering said highway; and

WHEREAS, since adoption of said resolution of September 21, 1949, a traffic engineering investigation has been made which reveals that the volume of traffic on the Condon Air Force Base Road, a county road which intersects the Wasco-Heppner Highway, is greater than the volume of eastbound traffic on the Wasco-Heppner Highway, and based upon results of said investigation the State Highway Engineer has recommended a modification of the order contained in the aforementioned resolution of September 21, 1949.

NOW, THEREFORE, based upon the results of said traffic engineering investigation and upon the recommendation of the State Highway Engineer, this Commission does hereby find, declare, resolve and order as follows:

1. That said resolution of September 21, 1949 be amended by adding the following exception pertaining to the Wasco-Heppner Highway:

"Exception: Eastbound traffic on the Wasco-Heppner Highway No. 300, (ORE 206), shall stop before entering the junction of the Condon Air Force Base Road at M.P. 40.17."

In all other respects the provisions of said resolution of September 21, 1949, shall remain in full force and effect.

EXHIBIT "I" (Cont)

2. That traffic on the Condon Air Force Base Road shall not be required to stop before entering the Wasco-Heppner Secondary Highway at M.P. 40.17.

3. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersection shall conform to the types and standards heretofore approved by the Commission.

4. That this resolution shall be entered in the minutes and records of the Commission as of the 28th day of February, 1957, as "Through Highways" Resolution No. 13d, and a duly certified copy thereof delivered to the U. S. Bureau of Public Roads, and a like copy to the County Clerk of Gilliam County and to the Superintendent of the Department of State Police for their information.

EXHIBIT "J"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, the Forty-Sixth Legislative Assembly enacted Chapter 405, Oregon Laws 1951, now known as ORS 483.502-483.998; and

WHEREAS, the Highway Commission, pursuant thereto on the 16th day of July, 1951, adopted by resolution certain forms of permits and thereby approved the same; and

WHEREAS, by the terms of said resolution, the Commission reserved the right to change or modify their action by subsequent resolution; and

WHEREAS, the Commission now desires to make certain changes and modifications in the forms of permit as hereinafter set forth:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission, all of the members being present and voting affirmatively, as follows:

1. That Paragraph 5 of Permit Form "Exhibit D", - Transportation Permit for Excess Length or Weight - Logs, Poles or Piling (6-Wheeler) - Permit Form E-322, is amended and modified to read as follows, to-wit:

> No turning movement shall be made entering or leaving any highway until such movement can be negotiated without endangering other traffic, having due regard for the length, rear overhang and "tailsweep" of the load. Consideration should also be given to the speed and volume of traffic on the highway, weather, including visibility and road surface conditions, and the length of time required to complete the turning movement.
>
> All loads shall enter and leave the highways described herein only at an intersection with county roads, city streets or approved highway approaches of private roads. A flagman shall be maintained by the permittee at each point where loads enter or leave the highway if the sight distance available is insufficient to accomplish the turning movement in complete safety.

2. That Paragraph 5 of Permit Form "Exhibit E", - Transportation Permit for Excess Length - Logs, Poles or Piling (4-Wheeler) - Permit Form E-323, is amended and modified to read as follows, to-wit:

> No turning movement shall be made entering or leaving any highway until such movement can be negotiated without

EXHIBIT "J" (Cont)

endangering other traffic, having due regard for length, rear overhang and "tailsweep" of the load. Consideration should also be given to the speed and volume of traffic on the highway, weather, including visibility and road surface conditions, and the length of time required to complete the turning movement.

All loads shall enter and leave the highways described herein only at an intersection with county roads, city streets or approved highway approaches of private roads. A flagman shall be maintained by the permittee at each point where loads enter or leave the highway if the sight distance available is insufficient to accomplish the turning movement in complete safety.

3. That as amended and modified, said "Exhibits D and E" are hereby readopted and approved and the appropriate authorities are authorized and directed to make the changes aforesaid in the said Permit Forms, provided, however, that all permits issued pursuant to resolution adopted July 16, 1951, shall remain in full force and effect and be valid for the period of time issued or, if no time is stated, for one year from date of issuance, unless revoked at an earlier date by duly authorized authority.

4. That the Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification shall be evidenced by a resolution or order entered in the minutes and records of the Commission.

5. That this resolution be entered in the minutes and records of the Commission as of the 28th day of February, 1957, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each the Superintendent of State Police and the Public Utilities Commissioner.

EXHIBIT "K"

Minutes of February 28 and March 1, 1957

RESOLUTION

WHEREAS, under the provisions of ORS 483.520 through ORS 483.525, the State Highway Commission is authorized to grant written revocable permits for the operation for a period not exceeding one year over State highways of vehicles having a height in excess of twelve and one-half feet but not in excess of thirteen and one-half feet, under terms and conditions set forth in said statutes; and

WHEREAS, it is the judgment and opinion of this Commission that the granting of permits for the operation of vehicles and combinations of vehicles of a height not exceeding thirteen and one-half feet over certain state highways and sections of highways, subject to terms and conditions set forth hereinafter, will not endanger the traveling public or highways or highway structures; and

WHEREAS, in the judgment and opinion of this Commission, the adoption of a standard form of permit for the operation of vehicles or combinations of vehicles having a height not in excess of thirteen and one-half feet, which standard form of permit incorporates adequate regulations of the Commission for the protection of highways, highway structures, and the traveling public, and does not require the signature of the Commission, would facilitate the issuance of such permits with less delay to the applicant and with less cost and inconvenience to the State,

NOW, THEREFORE, BE IT RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively as follows:

1. That subject to such action as the Commission may hereafter deem to be in the public interest, the issuance of permits for the operation over state highways of vehicles or combinations of vehicles, including any load thereon, having a height in excess of twelve and one-half feet, but not in excess of thirteen and one-half feet, pursuant to the provisions of ORS 483.520 through ORS 483.525, hereby is authorized on the form of permit which is attached hereto and is hereby approved and adopted by this Commission.

2. The State Highway Engineer is directed to determine the state highways upon which there is any overhead structure or other obstruction having a vertical clearance less than fourteen feet above any point on the roadway surface if the effective roadway width is less than twenty feet, or within ten feet from the center line of the highway if the effective roadway width is more than twenty feet. A list of such highways or sections of highways shall be attached to each permit issued pursuant to this resolution. No such permit shall be issued or valid for

EXHIBIT "K" (Cont)

the operation of any vehicle or combination of vehicles having a height in excess of twelve and one-half feet over any highway or section of highway set forth on said list.

3. That permits on said attached form may be issued for and by the State Highway Commission within the meaning, purpose and intent of ORS 483.520 through ORS 483.525, and shall be valid when bearing the facsimile signature of W. C. Williams, State Highway Engineer, and signed by any one of the following designated persons:

State Highway Engineer
First Assistant State Highway Engineer
Second Assistant State Highway Engineer
Director of Permits
Transportation Permit Supervisor

Provided that in case of emergency, permits upon said form may be issued from field offices, but only when the issuance of such permit has first been approved by the Director of Permits or by the Transportation Permit Supervisor. Any permit issued from a field office shall be valid when bearing the facsimile signature of W. C. Williams, State Highway Engineer, and signed by any person designated by the Director of Permits as being duly authorized to issue permits, in accordance with the resolution of this Commission adopted on July 11, 1952.

4. All permits issued pursuant to this resolution shall be valid for a period of one year from the date of issuance; provided, however, that any permit issued pursuant to this resolution may be revoked by this Commission, if such action is deemed necessary in the public interest.

5. That no permit shall be issued pursuant to this resolution for the operation of any vehicle or combination of vehicles engaged in transporting lumber, baled hay or logs, except that permits may be issued for the operation of a vehicle or combination of vehicles engaged in the transportation of one-log loads only.

6. That the persons named in paragraph 3 hereof are hereby authorized to issue permits for vehicles or combinations of vehicles of the height, including loads, of over twelve and one-half feet but not over thirteen and one-half feet, subject to the restrictions herein set forth and in the form as provided herein for the movement of vehicles or combination of vehicles when the nature and type of vehicles or combination of vehicles and loads thereon are such that the movement thereof can be made without endangering the traveling public and highways or highway structures.

EXHIBIT "K" (Cont)

7. That resolution adopted by this Commission on October 29, 1953, pertaining to the issuance of permits for the operation of vehicles or combinations of vehicles having a height in excess of twelve and one-half feet, and identified as Exhibit "G" in the records and minutes of the meeting of this Commission held on October 29, 1953, is hereby rescinded; provided, however, that all permits issued pursuant to said resolution before February 28, 1957, shall remain in full force and effect for a period of one year from the date of issuance, unless revoked at an earlier date by this Commission.

8. That the Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification shall be evidenced by resolution or order entered in the minutes and records of the Commission.

9. That this resolution be entered in the minutes and records of the Commission as of the 28th day of February, 1957 as Miscellaneous Resolution No. 99 "A", and that the original of this resolution be filed in the office of the State Highway Commission, and that a copy thereof be furnished to each the Secretary of State, Public Utilities Commissioner, and the Superintendent of State Police.

Form No. E-347 Rev. 3-57

OREGON
STATE HIGHWAY DEPARTMENT

27990

----------, Oregon, ----------, 19--

TRANSPORTATION PERMIT (TEMPORARY) FOR CONTINUOUS OPERATION OF OVERHEIGHT VEHICLES

THIS COPY FOR	
P.U.C. OFFICE	
STATE POLICE	
WEIGHMASTER	

Under authority of ORS 483.520, the above-named permittee is hereby authorized to operate the truck or truck-tractor identified herein, or a combination of vehicles employing the truck or truck-tractor identified herein, having an over-all height, including load thereon, in excess of 12 feet 6 inches but not in excess of 13 feet 6 inches, over all State highways except those highways or sections of highways indicated on the reverse hereof.

DESCRIPTION OF HAULING EQUIPMENT

MAKE OF TRUCK OR TRACTOR | MOTOR NO. | FIRM NO.

1. This permit is issued for and authorizes the operation of van type vehicles and equipment engaged in the transportation of:

2. The posting of any highway or structure to reduced limits of height shall be to that extent a modification of the height allowed under this permit. The provisions of this permit do not relieve the owner or driver of any vehicle or combination of vehicles from the exercise of due care in determining that sufficient vertical clearance is provided upon the highways and streets where the vehicle or combination of vehicles is being operated.

3. The owner and driver or chauffeur of any vehicle or combination of vehicles described above using the highways or bridges of this State in violation of any of the provisions of this permit shall be jointly and severally liable to the State for all damage done to a highway or bridge as a result of the violation.

4. This permit is authority only for the operation of vehicles or combinations of vehicles having a height in excess of 12 feet 6 inches but not in excess of 13 feet 6 inches, and any vehicle or combination of vehicles operated under authority of this permit must comply with the requirements of ORS 483.504, ORS 483.506, ORS 483.508, ORS 483.520, ORS 483.522, ORS 483.524, ORS 483.525 and ORS 483.530, or permits issued pursuant thereto, with respect to size, weight, description, type of construction, etc. All equipment operating under authority of this permit shall be properly licensed, shall carry proper Oregon P.U.C. authorization, and except as modified by this or any other valid transportation permit, shall conform with the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

5. This permit must be carried at all times in the cab of the truck or truck-tractor, as the case may be, and shall be available for inspection by any police officer or representative of the State Highway Department or the Public Utilities Commissioner.

6. This permit is of a temporary nature only and will expire on ----------, provided that at any time prior thereto this permit may be cancelled by the State Highway Commission for violation of any of the terms and conditions of this permit, or when, in the judgement of the Highway Commission, public interest requires cancellation of this permit.

THIS PERMIT NOT VALID FOR MOVEMENT OF ANY VEHICLE WHEN OPERATING UNDER A FORM E-250 PERMIT ISSUED PURSUANT TO ORS 483.528.

OREGON STATE HIGHWAY COMMISSION

Rev. 2-8-57

Portland, Oregon
March 28, 1957

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Acting Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 3:30 p.m. in the same room.

CLATSOP COUNTY
CLEAN AND PAINT YOUNGS BAY BRIDGE ON OREGON COAST HIGHWAY IN THE CITY OF ASTORIA

O & S Painters, Inc., Tigard	$ 4,900.00
George A. Macom Painting Co., Portland	6,000.00
Tri-State Painting Co., Portland	6,720.00
J. E. Brown Co., Portland	6,730.00
C. H. Savage Co., Portland	6,735.00
Pacific Marine Service, Portland	7,494.00
John W. Burns & Sons Painting Co., Portland	12,463.00
A. H. Barbour & Sons, Inc., Portland	15,600.00

COOS COUNTY
CLEAN AND PAINT SOUTH SLOUGH BRIDGE ON CAPE ARAGO HIGHWAY AND POWERS BRIDGE OVER SOUTH FORK COQUILLE RIVER ON POWERS HIGHWAY

Pacific Marine Service, Portland	$ 8,100.00
Tri-State Painting Co., Portland	8,800.00
John W. Burns & Son Painting Co., Portland	16,732.00
J. E. Brown Co., Portland	17,019.00
John P. McGuire, San Jose, California	19,500.00
A. H. Barbour & Son, Inc., Portland	35,600.00

JEFFERSON COUNTY
GRADING AND OILING ON WILLOWDALE-LYLE GAP SECTION OF THE DALLES-CALIFORNIA HIGHWAY

Rogers Construction Co., Portland	$ 718,514.00
F. L. Somers, Medford*	745,657.50
Durbin Bros., Eugene	778,121.45
Earl L. McNutt Co., Eugene	792,103.80
R. A. Heintz Construction Co., Portland	815,281.00
Natt McDougall Co., Portland	824,788.60
Kuckenberg Construction Co., Portland	826,655.60
G. D. Dennis & Sons, Portland	827,783.70
J. Ira McNutt Co., Springfield	842,910.50
Goodfellow Bros., Inc., Wenatchee, Wn.	854,015.00
Fred H. Slate Co. & E. C. Hall Co., Portland	888,389.00
Parker Schram Co., Portland	930,870.90
J. W. Briggs, Bend	1,081,697.50

*Bidder will not accept award of more than one project at this letting.

JOSEPHINE COUNTY
CLEAN AND PAINT ROBERTSON BRIDGE OVER ROGUE RIVER ON ROGUE RIVER LOOP HIGHWAY

Pacific Marine Service, Portland	$ 3,250.00
George A. Macom Co., Portland	4,000.00
Tri-State Painting Co., Portland	5,000.00
J. E. Brown Co., Portland	7,122.00
John W. Burns & Sons Painting Co., Portland	9,312.00
John P. McGuire, San Jose, California	13,000.00
A. H. Barbour & Son, Inc., Portland	24,000.00

KLAMATH COUNTY
OILING AND ROCK PRODUCTION ON FORT KLAMATH, CHILOQUIN AND KLAMATH FALLS HIGHWAYS

Babler Bros., Inc., Portland	$ 89,222.00
J. C. Compton Co., McMinnville	91,482.00
Dorman Construction Co., Vancouver, Wn.	94,618.00
Asphalt Paving Co., Klamath Falls	95,846.00
Morse Bros., Lebanon	104,093.00

LANE COUNTY
CLEAN AND PAINT WILLAMETTE RIVER BRIDGE ON MCKENZIE HIGHWAY

O & S Painter, Inc., Tigard	$ 7,900.00
C. H. Savage Co., Portland	14,646.00
Tri-State Painting Co., Portland	15,000.00
Pacific Marine Service, Portland	15,900.00
Hall Erection & Painting Co., Portland	16,339.00

March 28, 1957

Clean and paint Willamette River Bridge on McKenzie River Highway - Cont.

John W. Burns & Sons Painting Co., Portland	$ 17,169.00
Andrew Nesheim, Edmonds, Wn.	19,832.00
J. E. Brown Co., Portland	24,871.00
John P. McGuire, San Jose, Calif.	37,000.00
A. H. Barbour & Son, Inc., Portland	40,800.00

LINN COUNTY

CONSTRUCT PACIFIC HIGHWAY OVERCROSSING OF S.P.R.R. AT JEFFERSON JUNCTION

Johnston & Bryant, Newberg	$ 174,977.00
C. M. Corkum Co., Inc., Portland	182,336.00
Glenn Snook, Eugene	184,773.50
Hamilton & Thoms, Eugene	184,962.00
Tom Lillebo Construction Co., Reedsport	195,672.00
Valley Construction Co., Portland*	199,544.00
Inland Construction Co., Milwaukie	206,526.00
Schrader Construction Co., Portland	209,240.00
Orlando C. Bennard, Portland*	212,426.00
Babler Bros., Inc., Portland	220,604.00
Donald M. Drake Co., Portland	224,448.00
Natt McDougall Co., Portland	230,243.25
Lee Hoffman, General Contractors, Beaverton	237,004.00

*Bidder will not accept award of more than one project at this letting.

MALHEUR COUNTY

GRADING AND OILING ON THE N. UNIT, VALE-GRAND AVENUE SECTION OF THE LYTLE BOULEVARD ROAD SOUTH OF VALE

Babler Bros., Inc., Portland	$ 167,625.00
C. E. Leseberg, Nyssa	206,188.00
Natt McDougall Co., Portland	206,610.80
Henry H. Miller Contractors Inc., Roseburg	237,158.00

MARION COUNTY

FENCING ON WILLAMETTE RIVER-HAYESVILLE SECTION OF THE PORTLAND-SALEM EXPRESSWAY

J. C. Compton Co., McMinnville	$ 7,009.00
Cushing Bros., Salem	7,302.40
J. J. Walton, Salem	7,758.80
Fred S. Stubbert, Springfield	7,824.00
James G. Robertson, Clackamas	8,459.70

MARION, LINCOLN AND CLACKAMAS COUNTIES
OILING ON THREE STATE HIGHWAYS NEAR TOLEDO, SALEM AND WOODBURN

J. C. Compton Co., McMinnville	$ 26,631.00
Central Paving Co., Independence	28,863.00
Morse Bros., Lebanon	29,909.50
Horton Construction Co., Portland	30,035.95
Babler Bros., Inc., Portland	31,311.00

UMATILLA COUNTY
CONSTRUCT WILD HORSE CREEK BRIDGE ON PRESTON STREET IN CITY OF ADAMS

Harold E. Ray & L. O. Fusby, Hermiston	$ 9,970.00
Clark & Wells, Hermiston	10,162.50
Walter N. Jackson, Hermiston	12,190.00
Morrison & Co., Inc., Walla Walla, Wn.	12,195.00
Henry G. Stach, Oakridge	14,155.00

UNION COUNTY
LEVELING AND OILING ON COVE AVENUE AND FRUITDALE ROAD SECTIONS OF SAID COUNTY ROADS

Russell Olson Construction Co., Inc., Pendleton	$ 32,650.00
Morrison & Co., Inc., Rufus	36,418.00
Leslie Harris, Pendleton	36,805.00

UNION COUNTY
CONSTRUCTION OF GLOVER OVERCROSSING OF UNION PACIFIC RAILROAD

Orlando C. Bennard, Portland*	$ 120,800.00
Teeples & Thatcher, Portland	128,605.00
Rogers Construction, Inc., Portland	128,830.00

Hamilton & Thoms, Eugene	134,430.00
White Bros. Co., Walla Walla, Wn.	142,215.00

*Bidder will not accept award of more than one project at this letting.

WASCO COUNTY
GRADING ON WEST UNIT, SHOGREN-ROWENA SECTION OF THE COLUMBIA RIVER HIGHWAY

Earl L. McNutt Co., Eugene	$ 250,723.80
Vernie Jarl, Gresham	267,066.50
Kuckenberg Construction Co., Portland	282,485.00

March 28, 1957

Grading on West Unit, Shogren-Rowena Section of the Columbia River Highway, - Cont.

Natt McDougall Co., Portland	$ 292,934.50
G. D. Dennis & Sons, Portland	329,882.00
F. L. Somers, Medford*	335,208.00
R. A. Heintz Construction Co., Portland	344,271.50
J. Ira McNutt Construction Co., Springfield	344,743.80
C. H. Strong Engineering & Construction, Eugene	353,008.00
Morrison Knudsen Co., Inc., Pendleton	357,468.50
Parker Schram Co., Portland	358,250.20
Babler Bros., Inc., Portland	378,698.00

*Bidder will not accept award of more than one project.

YAMHILL COUNTY
GRADING AND PAVING LAFEYETTE STREET IN CITY OF DAYTON

Warren Northwest, Inc., Portland	$ 11,540.00
Central Paving Co., Independence	11,605.00
Salem Blacktop Paving Co., Salem	11,651.50
K. F. Jacobsen & Co., Inc., Portland	12,431.00

The Parks Superintendent reported on the following park matters:

1. Request of Coos-Curry County Electric Cooperative for permission to construct a power line across Cape Sebastian State Park and a Forest Wayside north of Brookings: The Parks Superintendent reported that in crossing Cape Sebastian Park little damage would be done but in the wayside north of Brookings it is planned to construct the power line diagonally across the wayside, which will leave areas subject to blowdown and will necessitate the cutting of all trees on a strip 400 feet wide. He estimated that approximately 650,000 board feet of timber will be destroyed, the value of which has been appraised by the State Forestry Department at $22.00 per thousand, or an approximate total of $14,300. He suggested that the Co-op be asked to change the location of its line through the wayside or, if that is not feasible, that they be required to pay for all timber that is cut, plus that which will most probably be lost by wind damage. The Commission indicated approval of the recommendation but deferred definite action pending appearance of a delegation on the following day. (On the following day Mr. Shavere, who appeared in behalf of the Co-op, stated that it would be almost impossible to change the location of their line because of the steepness of the terrain, and that the Co-op is willing to pay the going price for timber that will be destroyed by construction of the line. The Parks Superintendent was instructed to work out with the Co-op the best feasible plan and present a report to the Commission.)

2. Proposal of the Columbia Gorge Commission that the State acquire from the City of Portland an 80-acre tract known as McLoughlin

Park near Dodson in the Columbia Gorge: The Parks Superintendent recalled that the area was offered to the State in 1947 and again in 1950 but was not accepted because it was considered unfit for a state park. However, now that lands are being acquired for preservation of scenic values in the Gorge it does fit into the present park scheme and he recommended that he be authorized to negotiate with the City of Portland for acquisition of the land as a gift, on the basis that minimum facilities for park use will be provided, and with the assurance that the land will be used for park purposes only. The Commission approved the recommendation.

3. Offer of the City of Delake to donate 20 acres of land on the north side of Devils Lake for park purposes: This area is low, the Parks Superintendent stated, and will have to be raised approximately 2 feet to be usable. Water and power are easily accessible and the area also provides an access to the beach. He estimated the cost of development at $65,000 and the annual use at 75,000 people, mostly local. An investigation is now being made, he continued, to determine if approximately 100 acres of land at the southeast corner of the lake can be purchased. He estimated the cost of development of such area at $102,000 and the annual use at 150,000 people. It was his feeling that this larger area is more desirable than the one offered by the city, and that it would be farther removed from the cities of Oceanlake and Delake, thereby removing to some extent the providing of park facilities for local communities, which is contrary to Commission policy. Action was deferred by the Commission pending appearance of a delegation the following day. (The delegation which appeared before the Commission injected the idea of establishing a park with overnight camping facilities. The Commission instructed the Parks Superintendent to study areas in the vicinity of Oceanlake, Delake, and Salmon River that would be suitable for overnight camping, and present a report.)

4. Request of E. A. McMullin, Bend, Oregon, for a change in the location of his entrance road across Tumalo State Park on the McKenzie-Bend Highway: The present roadway, the Parks Superintendent explained, is very steep and rough, whereas, the proposed location will provide a better roadway to McMullin's property and will not be detrimental to the park area. Upon his favorable recommendation, the Commission approved the requested change and ordered the matter covered by appropriate permit.

5. Request of George Kronenberg of Bandon that the State take over and develop a park area immediately south of the Coquille jetty in Bandon: The Parks Superintendent recalled that this same proposal was made in 1952 and was rejected at that time because it was felt that development of the area that the State now owns south of Bandon is of more importance; moreover, during the past five years the proposed area has been further reduced in value for park purposes because of construction of homes. He recommended that Mr. Kronenberg's request be denied. The Commission approved his recommendation, it being the feeling of the Commission that development of the area proposed by Mr. Kronenberg is a local project.

6. Request of Mr. and Mrs. T. J. Flippin of Florence that the State deed to them a parcel of land located on an arm of Woahink Lake adjoining Honeyman State Park: This parcel of land, the Parks Superintendent stated, consists of less than an acre of land and, due to peculiarities in title description, the abstractors feel that it is necessary that the State give a quitclaim deed to the Flippins to clear title to their land which joins this small area. As the land in question is not a part of the land that was conveyed to the State in purchasing the park area, and is rightfully the property of the Flippins, he recommended that the quitclaim deed be granted. His recommendation was accepted by the Commission.

7. Request of Hollister & Hollister, attorneys for Montford Robert and Janice Mae Moore, that the sale of gifts, food, etc., in the Vista House at Crown Point be discontinued: The Parks Superintendent explained that this demand is a continuation of a request made by Mrs. Moore at the last Commission meeting that Mr. Flaucher, operator of the Vista House concession, be restrained from selling certain food articles which allegedly compete with her business nearby. He pointed out that practically all other states permit concessions in their parks for the convenience of the public, and the practice followed in Oregon is not out of line with the national trend. The Acting Chief Counsel stated that his office is investigating the various angles in the demand made by Hollister & Hollister, and although the investigation is not complete he felt that the Commission has no cause to worry as to whether proper use is being made of the Vista House facilities. The Commission accepted the report and decided not to make any change in its action previously taken regarding the operation of the concession at this place.

8. Request of the State Board of Aeronautics for permission to construct a flight strip on the Nehalem sand spit in Tillamook County: The Parks Superintendent pointed out that this matter was considered previously and was denied as the location of the proposed rerouting of US 101 north of Nehalem Bay had not been established. The road location is now established where the proposed flight strip will not interfere with it. He pointed out that the value of a flight strip as a means of access to a state park is an undetermined matter and in this instance would provide an interesting experiment. He recommended that the request be allowed. The Commission approved the recommendation and ordered the matter covered by appropriate agreement.

Request of North Bend Chamber of Commerce for overnight camping facilities in Sunset Bay State Park: Negotiations previously authorized for acquisition of property needed for this purpose, the Parks Superintendent stated, have been continued and it apeears that the land required cannot be purchased by negotiation for less than $15,000, whereas, it has been appraised at $7,500. He recommended continuation of the negotiations and that if the land, consisting of 17.4 acres, cannot be secured for $7,500, authority be granted to condemn. After some discussion, the Commission unanimously approved condemnation of the land, provided that it cannot be obtained for the appraised value of $7,500.

The Commission complimented the Parks Superintendent on his "1956 Annual State Parks Report", which has just been published.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for State Highway right of way or for other purposes. After consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer presented a report on miscellaneous sales covering items sold since the last Commission meeting totaling $22,069.66, and a supplemental rental report showing terminations and new rentals for the period February 18 to March 14, 1957. Total rental receipts for the month of February, he stated, was $9,890.80. The Commission accepted the reports. (For details see the Property Manager's Supplemental Rental Report dated February 18 to March 14, 1957 and his Miscellaneous Sales report dated March 28 and 29, 1957, in the General Files.)

An adjustment in the amount to be paid a Mr. Stiles (File 24540) for right of way acquired from him on the North Jefferson Junction-Albany Section of the Pacific Highway East was discussed. The Right of Way Engineer explained that in acquiring this property, Mr. Stiles agreed readily to accept $50 per acre. However, in acquiring land adjoining Mr. Stiles, it was necessary to pay the sum of $100 per acre, which represents the true market value of the property. It was his feeling that Mr. Stiles should not be penalized because of his cooperative nature. He recommended, and the Commission approved, payment to Mr. Stiles at the rate of $100 per acre for the land acquired from him.

Upon the Right of Way Engineer's favorable recommendation, the Commission accepted an easement from the Bonneville Power Administration authorizing construction of the Old Oregon Trail Highway across Bonneville Administration land on the Meacham-Hilgard Section of the Old Oregon Trail Highway near Meacham in Union County.

The Right of Way Engineer reported that a slide on the Whiskey Creek Section of the Mt. Hood Highway in Hood River County covered a parcel of land owned by Mr. Bert B. Gates and that Mr. Gates has offered to deed this parcel to the State if the State will deed to him in exchange a parcel of land containing approximately 0.05 acre. He recommended approval of such exchange of properties. The Commission approved the exchange.

Authority to sell at public sale several parcels of property was requested by the Right of Way Engineer. He explained that the parcels are not needed for highway purposes, that they have been appraised as to value, and that the proposed minimum prices represent fair values.

He recommended that the following parcels of property be offered for public sale:

a. 0.06 acre of the former Schmoe property, File 23260, on the northbound route of the Pacific Highway in Ashland, at a minimum price of $2,500. (See EXHIBIT "B-1")

b. 0.05 acre of the former Hollingsworth and Martin properties File Nos. 23255 and 23256, on the northbound route of the Pacific Highway in Ashland, at a minimum price of $2,200. (See EXHIBIT "B-2")

c. 6,500 square feet of the former Rickets property, File 18807, on the North Bend-Hauser Section of the Oregon Coast Highway, for a minimum price of $200.00.

d. Lots 2, 3 and 4 of Block 2 on Unit 3 of the T. H. Banfield Expressway in Portland, for a minimum price of $600.00, and Lot 26 in Block 2, also in Unit 3 of the T. H. Banfield Expressway, for a minimum price of $450.00.

The Commission authorized the sale of the above properties by adopting the attached resolutions relative thereto, marked EXHIBITS "B-1" and "B-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given to the granting of an easement to the California-Oregon Power Company to install a pole and anchor on a State-owned stockpile site adjacent to the Pacific Highway in Douglas County. The Right of Way Engineer explained that the easement is made necessary by construction of the Ford Bridge project and will not be harmful to the State. Upon his favorable recommendation, the Commission authorized the easement.

A request submitted by Herman Oliver to acquire 1.29 acres of land on the John Day-Burns Highway near its junction with the road to Izee was discussed. The Right of Way Engineer explained that the land is not required for highway purposes and he recommended that it be deeded to Mr. Oliver for the sum of $25.00, which is a larger amount than was paid for the land when acquired by the State. The Commission approved the transfer.

The Right of Way Engineer recommended and the Commission approved a "ground lease" agreement with Mr. R. S. Burch, a subcontractor on the Valley Junction-Sheridan Section of the Salmon River Highway to enable the State to make payment to him for road materials stockpiled on private property for use in connection with this job.

The Acting Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements and for other purposes

and to tender offers for the same in conformity with the instructions given him by the Commission's resolution dated December 20, 1951:

North Jefferson Junction-Albany Section of the Pacific Highway East

R-24548 - Gerald L. Stowe, et al.
(Linn County)
Parcel No. 1: 2.1 acres for Right of Way
Parcel No. 2: 0.95 acre for Right of Way
Parcel No. 3: 10.25 acres for Material Site

R-25096 - Roy A. Snoderly and Ruth E. Snoderly, et al.
Right of Way (Linn County)
0.87 acre

R-25473 - Chas. E. Collins, et al.
Right of Way (Linn County)
4.14 acres

Albany-Judkins Point Section of the Pacific Highway East

R-25281 - Raymond L. Briggs and Winifred A. Briggs, et al.
(Lane County)
Parcel No. 1: 9.27 acres for Right of Way
Parcel No. 2: 4.94 acres for Excess Taking
Amendment to resolution dated January 22, 1957, to remove obligation to construct frontage road and to add Parcel No. 2.

R-25318 - Hazel Calef, et vir
Right of Way (Lane County)
12.43 acres

Hinsdale Slough-Luder Creek Section of the Umpqua Highway

R-12834 - D. D. Hail and Edna Mae Hail
(Douglas County)
Parcel No. 1: 4.82 acres for Right of Way
Parcel No. 2: 6.2 acres for Material Site
Amendment to resolution dated February 28, 1957, to remove limitation of use from access control.

R-19932 - Charles Oscar Josephson and Norma Josephson
Right of Way (Douglas County)
2.38 acres
Amendment to resolution dated February 28, 1957, to remove limitation of use from access control.

R-20663 - D. D. Hail and Edna Mae Hail
Right of Way (Douglas County)
0.31 acre

Hinsdale Slough-Luder Creek Section of the Umpqua Highway - Cont.

R-25911 - Emil Ploen
Right of Way (Douglas County)
3,850 square feet
Amendment to resolution dated February 28, 1957, to remove limitation of use from access control.

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-21141 - Robert DeGross and Bernard DeGross
Right of Way (Curry County)
28.25 acres
Amendment to resolution dated January 22, 1957, to provide two access points.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-25018 - John Rutis and Thelma V. Rutis
Right of Way (Multnomah County)
4,375 square feet

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25707 - William J. Miller
(Clackamas County)
Parcel No. 1: 0.97 acre for Right of Way
Parcel No. 2: 0.35 acre for Excess Taking

Fossil-Condon Section of the John Day Highway

R-19895 - A. M. Shaffer and Heirs of Mr. Giede
Material Site (Gilliam County)
8.07 acres

Sunset Highway (Highlands Interchange)

R-25882 - Lina Adams, et al.
Right of Way (Multnomah County)
43,250 square feet

North Santiam Highway

R-24096 - Northern Lumber Company
Right of Way (Marion County)
0.52 acre

28003

Myrtle Creek-Canyonville Section of the Pacific Highway

L-2694 (R-23734) - William P. Weaver
(Douglas County)
Parcel No. 1: 24.1 acres for Right of Way
Parcel No. 2: 0.18 acre for Easement for Drainage Ditch
Amendment to resolution dated November 9, 1956, to change location of underpass.

North Jefferson Junction-Albany Section of the Pacific Highway East

R-14578 - Stacey L. Neeley
(Linn County)
Parcel No. 1: 2.04 acres for Right of Way
Parcel No. 2: 2.1 acres for Right of Way
Parcel No. 3: 12.6 acres for a Material Site

R-24543 - Myrtle Rice, et al.
(Linn County)
Parcel No. 1: 4.48 acres for Right of Way
Parcel No. 2: 0.74 acres for Right of Way
Parcel No. 3: 5.79 acres for Right of Way

R-24544 - Charles Grizzel and Doris Grizzel
(Linn County)
Parcel No. 1: 4.85 acres for Right of Way
Parcel No. 2: 0.23 acre for Right of Way

R-24555 - A. Joe Wrightman and Josephine M. Wrightman
Right of Way (Linn County)
0.9 acre

R-26115 - Heirs of Cleave Hampton
Channel Change (Marion County)
0.08 acre

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-25507 - Shell Oil Company
Slope Easement (Curry County)
0.07 acre

R-25819 - Sylvia Doyle, et al.
Slope Easement (Curry County)
303 square feet

March 28, 1957

Ontario-Snake River Section of the Old Oregon Trail Highway

R-23945 - Phil G. Preston and Bertha E. Preston
Right of Way (Malheur County)
0.50 acre

Denver Avenue-Union Avenue Intersection of the Pacific Highway West and the Pacific Highway East

L-2578 (R-23604) - Kernan Livestock Farms, Inc.
(Multnomah County)
Parcel No. 1: 12,877 square feet for Right of Way
Parcel No. 2: 720 square feet for Drainage Easement
Amended Resolution to change frontage road provisions and to change the right of entry provisions.

Columbia River Highway

L-2584 (R-25183) - Paul R. Martin, et ux.
(Multnomah County)
Parcel No. 1: 0.22 acre for Right of Way
Parcel No. 2: 1.4 acres for Right of Way
Amended Resolution to change frontage road provisions.

Cape Arago Highway - Sunset Bay State Park

R-26355 - George J. Landrith

Right of way maps, construction plans, and other data were submitted to the Commission and the Engineer advised that acquisition of the properties listed was required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in light of information and advice submitted together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBIT "J-1" through "J-16", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Following presentation of properties to be condemned, the Acting Chief Counsel also brought up the matter of action to be taken concerning the Martin property located on the Columbia River Highway near Troutdale. He pointed out that in the original negotiations for this property, it had been contemplated to construct a frontage road at an estimated cost of $20,000.00. The matter of the frontage road was re-examined in the light of existing conditions and it appears that it will serve no good purpose.

March 28, 1957

He recommended that the Commission authorize him to submit a new offer or an amended offer to the Martins in the sum of $35,000, without the provision for constructing the frontage road. The Commission accepted his recommendation.

The Commission considered and accepted a report from the Acting Chief Counsel concerning cases which have been tried in court since the Commission meeting held February 28 and March 1, 1957, as follows:

REPORT OF CONDEMNATION CASES TRIED - FEBRUARY 18 to MARCH 22, 1957

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Adams R-23116	Klamath	The Dalles-California	Klamath Falls West Side By-Pass	$750.	$750.	$750.
Sweet R-21667	Lane	Territorial	Siuslaw Junction-Smithfield	$179.	$179.	$179.
Bass R-25393	Polk	None (Quarry Site)	None	$2,225.	$2,225.	$2,225.

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of action	Demands of Plaintiff	Verdict or Judgment
L-2606	Lena Sigfrit	State	Wheeler	Inverse Condemnation	$27,828.43	Mistrial ordered
L-2091 R-20509	State	Philip S. Holt	Lane	Appeal to Supreme Court by defendant in condemnation	New trial	New trial denied
L-2634	State	Carpenter	Umatilla	Timber cut from State land	$603.90	$603.90

(For additional details, see the Acting Chief Counsel's letter dated March 22, 1957, in the General Files.)

The Commission also considered and accepted a report submitted by the Acting Chief Counsel showing cases which have been settled out of

court since the Commission meeting held February 28, and March 1, 1957, as follows:

REPORT OF CONDEMATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Brainard R-16307	Douglas	Pacific	Canyonville	$550.00	$ 950.00
Katin R-24438	Josephine	Redwood	West Fork Illinois River Bridge	$1,015.00 for 2.18 A.	$1,015.00 for 2.1 A.
Lyons R-23856	Multnomah	T. H. Banfield Expressway	Unit No. 2	$75,850.00	$88,000.00
Miller R-20988	Multnomah	Portland-Salem Expressway	Harbor Drive-Barbur Boulevard	$ 750.00	$ 1,250.00
Powell R-25032	Multnomah	Portland-Salem Expressway	Harbor Drive-Barbur Boulevard	$11,500.00	$11,500.00
Edith B. Mars R-23265	Jackson	Pacific	Ashland	$ 265.00	400.00
Gallagher R-22531	Multnomah	Portland-Salem Expressway	Harbor Drive-Barbur Boulevard	$87,500.00 Land, bldg. and machinery	$78,000.00 (land and bldg.)
Russell R-22859	Washington	Tualatin Valley	Reedville-Beaverton	$ 433.00	$ 433.00

(For additional details concerning these settlements, see the Acting Chief Counsel's letters dated March 21 and March 27, 1957, in the General Files).

The Acting Chief Counsel stated that in compliance with a resolution adopted by the Commission on December 20, 1951, offers for acquisition of certain parcels of real property were tendered to the property owners prior to the institution of condemnation proceedings as follows:

(See following page)

Albany-Judkins Point Section of the Pacific Highway East

R-25281 - Raymond L. Briggs, et al. 9.27 acres for right of way purposes. Offer of $3,750.00 approved by Mr. Reynolds March 13, 1957.

R-25319 - Anna Boyd Davis. 15.65 acres for right of way purposes. Offer of $26,925.00 approved by Mr. McIver March 6, 1957.

R-25353 - Wanda W. Smith, et al. 12.46 acres for right of way purposes. Offer of $37,200.00 approved by Mr. Reynolds March 13, 1957.

R-25366 - James Hayes, et ux. 0.46 acre for right of way purposes. Offer of $345.00 approved by Mr. McIver March 6, 1957.

North Jefferson Junction-Albany Section of the Pacific Highway East

R-25092 - Clarence W. Barth, et al. 0.15 acre for right of way purposes and 0.04 acre for excess taking. Offer of $22,500.00 approved by Mr. McIver March 6, 1957.

R-25473 - Charles E. Collins, et al. 4.14 acres for right of way purposes. Offer of $9,675.00 approved by Mr. Reynolds March 13, 1957.

Mosier-The Dalles Section of the Columbia River Highway

R-25850 - Lee Joynes, et al. 2.9 acres for right of way purposes. Offer of $818.00 approved by Mr. Reynolds March 13, 1957.

R-25892 - Ella G. Salisbury, et al. 0.92 acre for right of way purposes. Offer of $275.00 approved by Mr. Reynolds March 13, 1957.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-22720 - Bertha E. Cleghorn, et al. 0.2 acre for right of way purposes. Offer of $3,715.00 approved by Mr. McIver March 6, 1957.

R-20997 - Delores May Jensen, et ux. 0.5 acre for right of way purposes and 0.24 acre for excess taking. Offer of $3,000.00 approved by Mr. Reynolds March 13, 1957.

R-21163 - Jessie M. Firestone, et al.. 2.43 acres for right of way purposes and 0.11 acre for excess taking. Offer of $29,000.00 approved by Mr. Reynolds March 13, 1957.

Subsequent to obtaining authority for making the above two offers, R-20997 and R-21163, title to the two properties was vested in a single ownership. Transfer of ownership had no affect upon the appraised value of the property and, consequently, the amounts were combined into a single offer in the amount of $32,000.00.

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-20950 - Belle Turner Daniels, et al. 38 acres for right of way purposes. Offer of $6,400.00 approved by Mr. Reynolds March 13, 1957.

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25716 - Ernest J. Perasso, et ux. 0.05 acre for right of way purposes. Offer of $200.00 approved by Mr. Reynolds March 13, 1957.

Willamina-Salem Highway

R-20547 - Ralph W. Taylor and David L. Melson. 0.11 acre for right of way purposes. Offer of $2,640.00 approved by Mr. Reynolds March 19, 1957.

Hinsdale Slough -Luder Creek Section of the Umpqua Highway

R-12834 - D. D. Hail, et al. 4.82 acres for right of way purposes and 6.2 acres for material site. Offer of $27,750.00 approved by Mr. Reynolds March 19, 1957.

R-19932 - Charles Oscar Josephson, et ux. 2.38 acres for right of way purposes. Offer of $10,850.00 approved by Mr. Reynolds March 19, 1957.

R-25911 - Emil Ploen, et ux. 3,850 square feet for right of way purposes. Offer of $450.00 approved by Mr. Reynolds March 13, 1957.

The Commission approved the offers as reported.

A report concerning orders issued by the Public Utilities Commissioner in which the State has been made a party, was presented by the Acting Chief Counsel and accepted by the Commission, summarized as follows:

PUX 201: Application of the City of Oswego for authority to construct a street crossing at grade with the tracks and right of way of the Southern Pacific Company in the City of Oswego. This matter involves a new connection with the Oswego Highway and it was agreed that the connection would be made in accordance with requirements of the Highway Department.

PUX 204: Application by the City of McMinnville for authority to construct a crossing at grade with the tracks and right of way of the Southern Pacific Company on an extension of Orchard Avenue in the City of McMinnville. This matter involves a new connection with Orchard Avenue to the McMinnville Secondary Highway No. 156, and no objections were made to the order.

PUX 205: Application of Lane County for authority to construct a crossing at grade with the tracks and right of way of the Southern Pacific Company at Swisshome. This matter involved a new county road entrance to the Siuslaw Highway and vacation of a portion of an existing county road. Objections were made to the grade line of the proposed county road at its connection with the Siuslaw Highway. It was agreed to make a revision in the grade of the entrance so that it would not exceed 2 percent for a distance of 30 feet southerly from the State highway pavement, although this agreement was not made a part of the order.

Consideration was given to the vacation of several streets in Buford's Addition to the town of Alexandria, Lincoln County, as requested by Mr. Harry W. Matthews of Newport. The Acting Chief Counsel explained that the right of way of the Oregon Coast Highway adjoins portions of these streets and before they can be vacated, the Commission must give its consent. He presented a form of "Consent of Vacation" and recommended that it be approved with the understanding that it will not be filed until the necessary documents have been secured from the adjoining property owners to protect the State's access control to the highway. The Commission approved the "Consent to Vacate" as recommended.

The Acting Chief Counsel also presented the matter of consent to the vacation of alleys located in Blocks 128, 145 and 176 of the O. V. L. Addition, adjacent to the Klamath Falls-Lakeview Highway near Lakeview. He pointed out that the Highway Department has a maintenance site adjacent to the alleys and that the purpose of vacating the alleys is to permit fencing and use of the entire area. Because the vacation of the alleys will be to the advantage of the State he recommended that it be approved. The Commission approved the "Consent to Vacate" as recommended.

The Commission gave attention to the matter of conveying to Mr. and Mrs. C. R. Lawrence by quitclaim deed title to a two-acre parcel of land situate on the Divide-Rice Hill Section of the Pacific Highway in Douglas County. The Acting Chief Counsel explained that this parcel was acquired in order to control access to the Highway and was originally purchased from Mr. and Mrs. Lloyd H. Griggs and others, who conveyed the land to the Lawrences who are the present owners. It appears that the State has no title to the tract, although a title insurance policy was issued. The land is not needed for highway purposes and can be released without hurting the interests of the State provided that access control is preserved. He recommended that title to this two-acre tract of land be relinquished in favor of Mr. and Mrs. Lawrence in order to clear their title, provided they will pay the State the sum of $800.00, which is the amount that the State paid for the property. The Commission approved the transfer of property as recommended.

The matter of relinquishing title to certain slope easements on Lots 2, 3 and 4, Block 11, McClure's Astoria in the City of Astoria and located on the Astor Street-Bond Street Section of the Oregon Coast Highway, was discussed. The Acting Chief Counsel stated that the easements

were secured in 1941 to protect the highway but since that time the adjoining property has been filled in and the easements are no longer needed. The property owners, he said, wish to sell their property but the slope easements constitute a cloud on the title. As no consideration was paid for the easements, and as they are no longer needed to protect the highway, he recommended that the State relinquish its interest in the easements by executing quitclaim deeds. The Commission accepted his recommendation.

A report of abandoned claims for damages to State property was presented by the Acting Chief Counsel and accepted by the Commission, summarized as follows:

CAO-56-223, L-2708, Nash: On February 24, 1956, a car owned by Harold G. Nash collided with a State highway vehicle while making a left turn from N. E. Broadway into a Safeway parking lot, Portland. Damages to the State vehicle amounted to $56.95. Mr. Nash is now deceased and apparently left no assets.

CAO-56-359, Masonheimer Brothers: During the months of March, April and May 1956, three minor sons of Mr. George W. Masonheimer of John Day broke a number of window panes, light bulbs and reflectors at the scale house located at M.P. 160.96 on the John Day Highway. Damage amounted to $24.00. Letters to Mr. Masonheimer and to the District Attorney of Grant County have gone unanswered. As the claim is small, efforts to collect have been abandoned.

The Acting Chief Counsel reported that a revised agreement with Idaho Power Company pertaining to the relocation of the Baker-Homestead Highway has been forwarded to Idaho Power Company officials but has not yet been returned. He recalled that a similar agreement that was approved by the Commission in January, 1957, provided for relocation of the Baker-Homestead Highway from a point near Richland, thence to Pine, thence in a general easterly direction to the rim of the Snake River canyon and to an intersection with the existing Baker-Homestead Highway. At a public hearing in the Oregon legislature, an amendment to enabling legislation was passed by the House of Representatives to require the relocated Baker-Homestead Highway to follow a route from Pine to Copperfield along Pine Creek. Otherwise, the revised agreement is substantially the same as the agreement dated January 9, 1957. The revised agreement also provides that the abandoned Baker-Homestead Highway from Copperfield to a point where it is submerged by water impounded by the Brownlee Dam will be maintained by the Idaho Power Company for unrestricted public use, particularly for recreational purposes.

Commissioner Reynolds stated that he was advised on the preceding evening that the Power Company officials had signed and returned the revised agreement by mail. The President of the Power Company, he stated had called attention to what appeared to be unnecessary right of way width which in some instances took off front porches and other constructed properties. The Engineer replied that Federal standards require a minimum right of way width on secondary highways of 80 feet, and that 100 feet is more

acceptable. He stated that it might be possible to reduce some sections to 80 feet width where it would not be detrimental to the highway, which feature can be resolved easily as the project goes forward. He pointed out that under the terms of the agreement, the Highway Commission has full authority to approve or disapprove the proposed alignment of the highway and also to establish minimum standards of construction. In this connection, the Engineer also pointed out that the revised agreement as sent to the Idaho Power Company, calls for a "gravel surface". This, he stated, is in error and should be changed to "crushed gravel" surface as it is not intended to surface the road with bar run or quarry run material. The Commission approved the correction and authorized the Engineer to bring it to the attention of the Company and to inform the Company that the Commission will not sign the agreement unless the Company concurs. Commissioner Reynolds then inquired why an oil surface was not required. The Engineer replied that the Idaho Power Company is replacing the abandoned sections of highway which have been oiled, with an oiled surface, and the sections to be abandoned which were surfaced with crushed rock or gravel are being replaced with a like surface. (The Acting Chief Counsel reported on the following day that the Company approved the changes, whereupon the Commission signed the agreements as corrected.)

Status of legislation pertaining to State highways was reviewed briefly by the Acting Chief Counsel. He pointed out that legislation authorizing issuance of $8,000,000.00 in highway bonds had been passed and signed by the Governor and also legislation pertaining to the position of traffic markers and to an increase in the Revolving Fund. Legislation providing for excess weight limits for construction vehicles also passed and has been signed by the Governor, and a bill pertaining to the Eckman Slough dike was passed by the House and the Senate, but has not yet been signed by the Governor. Revision of the Throughway Law, he stated, has been tabled along with observance of traffic control devices and transfer of control of ocean beaches to the State Land Board. The bill prohibiting fishing from bridges has also been tabled. Other bills are still in committee or have not been passed by both legislative bodies.

The matter of changing the policy of the Commission concerning control of accesses as to use was discussed. The Acting Chief Counsel recalled that the change was discussed briefly at the previous meeting but action was deferred until Chairman Chandler could be present. He reviewed the proposed changes and called attention to the following language which is now being used in controlling particular accesses as to use:

1. Private residential use only.

2. Production and transportation to market of farm products of the Grantor's remaining land, only.

3. Development, harvesting, and transportation of forest products of the Grantor's remaining land, only.

4. Operation of existing _____ activity, on the Grantor's remaining land, only.

5. Operation of future _____ activity, on the Grantor's remaining land, only.

Another problem which has been of considerable concern is the provision which requires that a $1,000.00 bond be furnished to assure compliance with the access provisions. He pointed out that the present stringent access control restricts development of land along highways which are not completely controlled as throughways. He recommended that the restrictions be relaxed in this respect and also that the Commission abandon the $1,000.00 bond requirement, and that the Commission also specify upon adoption of a survey for construction or reconstruction of a highway section the exact type of access control that is to be enforced within the limits of the survey. To accomplish this purpose, he recommended that the following language be used in conveyances and judgments in cases where access is to be controlled as to use:

1. Ordinary access for residential purposes, only.

2. Ordinary access for production and transportation of agricultural products, only.

3. Ordinary access for production and transportation of timber products, only.

4. Ordinary access for production and transportation of mineral products, only.

5. Similar language as required in other specific cases.

He also recommended that the following language be used in lieu of the present clause requiring the $1,000.00 bond:

"If, after written notice to desist, the Grantors or any person holding under them, shall use any of said rights of access, including crossings, for any purpose not stated for that particular place, or shall permit or suffer any person to do so, such right of access shall automatically be suspended. The Grantee shall thereupon have the right to close such place of access for all purposes. The suspension shall terminate when satisfactory assurance has been furnished the Grantee that the place of access will be used only for the purpose hereinabove stated."

He pointed out another problem which has appeared in preparing condemnation papers, which problem has to do with the exact type of access restrictions which are to be imposed in any particular right of way section. He recommended that at the time the Commission adopts a survey for the construction or relocation of a highway or a section thereof, the Commission in its resolution adopting the survey specify whether the highway or any particular section thereof shall be constructed with complete

control of access, or with access controlled as to location, width, and use, or with access controlled only as to location and width, or with access not controlled at all.

The Engineer mentioned the matter of access control on the Mt. Hood Highway which has been designated as a "throughway" but on which highway access is granted for various uses. It was his feeling that under the present restrictive language, development of property along this particular highway, and similar highways, is greatly restricted. He also gave as his opinion that it would facilitate acquisition of right of way and improve public relations if the type of access control is specified in the resolution adopting the survey. He pointed out that the State would still have complete control over the location of the accesses and that the proposed revisions would not affect access to freeways. The Right of Way Engineer commented that the present provisions have caused much bickering in securing right of way and that the proposed language should remove a number of the objectionable features. Upon assurance from the Acting Chief Counsel and the Engineer that the proposed changes will not break down the Commission's control of access to freeways, the Commission unanimously approved the recommended changes.

The Engineer reported that under authority previously granted him by the Commission, he has awarded contracts referred to him as follows, the conditions of awards having been satisfied:

(1) Grading and oiling, and construction of two reinforced concrete bridges on Cayuse-Thornhollow Section of Adams-Cayuse County Road, Umatilla County. Bids received January 22, 1957. Conditions of award satisfied March 4, 1957. Vernie Jarl, Gresham, low bidder.

(2) Construction of Mohawk River Bridge on Eugene-Marcola Highway, Lane County. Bids received March 1, 1957, Conditions of award satisfied March 7, 1957. Valley Construction Co., Portland, low bidder.

(3) Grading on Short Creek-Oceanside Section of Cape Meares Loop Road, Tillamook County. Bids received February 28, 1957. Conditions of award satisfied March 8, 1957. C. J. Eldon, Portland, low bidder.

(4) Construction of Rock Creek Bridge and Thirtymile Creek Bridge in Gilliam County. Bids received March 1, 1957. Conditions of award satisfied March 11, 1957. Babler Bros., Inc., Portland, low bidder.

(5) Oiling on Boyd-Dufur Section of Boyd-Dufur Road, Wasco County. Bids received March 1, 1957. Conditions of award satisfied March 12, 1957. J. C. Compton, McMinnville, low bidder.

(6) Construction of Pruner Bridge over South Umpqua River, Douglas County. Bids received March 1, 1957. Conditions of award satisfied March 14, 1957. West Coast Steel Works, Portland, low bidder.

(7) Grading and paving on Halsey Street-Division Street Section of 122nd Avenue, Multnomah County. Bids received February 28, 1957. Conditions of award satisfied March 15, 1957. Rogers Construction Company, Portland, low bidder.

(8) Construction of Deep Creek Bridge at Adel on Warner Valley County Road, Lake County. Bids received February 28, 1957. Conditions of award satisfied March 18, 1957. George E. Berry, Beaverton, low bidder.

(9) Roberts Mountain Summit Slope Stabilization Project on Pacific Highway, Douglas County. Bids received March 1, 1957. Conditions of award satisfied March 22, 1957. Funderburk Construction Corp., Sutherlin, low bidder.

The Engineer reported that as previously authorized by the Commission, he has placed reduced load limits on certain State highway sections to prevent damage to the highways during the period when frost is leaving the roadbed. The Commission confirmed the placing of a reduced load limit, allowing 11,000 lbs. gross on any single axle and 20,000 lbs. gross on any pair of tandem axles on the following highway sections:

Burns-Crane Highway No. 24 from M.P. 16.74, at Lawen, to M.P. 28.23, junction with Crane-Scotts Butte Highway No. 442, effective 8:00 a.m., March 5, 1957.

Medical Springs Secondary Highway No. 340 from M.P. 0.5, south of the city limits of Union to M.P. 33.22, two miles south of Salt Creek, effective 8:00 a.m. March 6, 1957.

John Day-Burns Highway No. 48 from M.P. 10.23, at Joaquin Miller Park, to M.P. 30.19, five miles south of Seneca, effective 8:00 a.m. March 25, 1957.

Reclassification of three State highway sections to a Group I status as follows, was reported by the Engineer who stated that test runs with vehicles having a combined length of 60 feet, revealed that such length vehicles can negotiate these sections without encroaching upon the opposing traffic lane:

(See following page)

GROUP II TO GROUP I

1. Nehalem Secondary Highway No. 102 from M.P. 42.08 to M.P. 44.72.

2. Mist-Clatskanie Secondary Highway No. 110 over its entire length.

GROUP III TO GROUP I

3. Alsea-Deadwood Secondary Highway No. 201 from M.P. 0.00 at a junction with the Alsea Highway, to M.P. 9.69 in Lobster Valley.

The Commission accepted his report.

A report was presented by the Engineer on the results of bids received in Salem on March 25, for the sale of used equipment and scrap materials stored at Salem, La Grande and at the Astoria Ferry Terminal. The high bids for this material totaled $19,870.53, whereas the value of it had been estimated at $14,393.00. He stated that the bid on Item No. 61 in the amount of $66.53 for a Bronze Propellor at the Astoria Ferry Terminal was rejected as being too low, and that Item No. 32, a 1941 Walters Truck was awarded on a County preference basis to Baker County at the same price that the high bidder, Holt Used Equipment Company offered. He also said that Items No. 11 and 21 were awarded to the City of Brookings at the amount of the high bid for these items, on a city preference basis and that all other items were awarded to the high bidders in each instance. The Commission confirmed the Engineer's action.

Consideration was given to the adoption of a "Manual on Uniform Control Devices for Streets and Highways". The Engineer reported that this manual has been prepared as Technical Bulletin No. 24 by the Traffic Engineering Division and the Assistant Maintenance Engineer in charge of Signing, and that legal aspects have been reviewed by the Acting Chief Counsel. He recommended that the Manual be adopted so that standards for signs, signals, markings, etc., as used in the State of Oregon will have the approval of the State Highway Commission. He presented a copy of the proposed Manual for the Commission's consideration. The Engineer explained that the Manual contains no provisions that have not already been approved by the Commission or that are contrary to Commission policy. He estimated that at least 500 copies of the Manual will be required and that the cost to print them is estimated at near $2,000. The Commission examined the Manual and after some discussion approved the Manual as presented.

A report was presented by the Engineer concerning status of negotiations with Klamath County concerning placing the Lake of the Woods Road on the State Secondary System. He recalled that in 1955, the Klamath County Court agreed to take over a section of the Klamath Lake Secondary Highway from its junction with the Lake of the Woods Road northerly to Ft. Klamath, if the State would extend the Little Butte Secondary Highway

from its present terminus at the Jackson-Klamath County line to a connection with the Klamath Lake Secondary Highway and would place this road on the Forest Highway System. The Klamath County Court, he continued, has now indicated that it does not wish to take over the section of the Klamath Lake Secondary Highway from the junction with the Lake of the Woods Road to Ft. Klamath. It was his recommendation that the State take no action to designate the Lake of the Woods Road as a State Secondary Highway until Klamath County agrees to adhere to its original intent. The Commission accepted his recommendation.

The possibility of a new high school to be built in Seaside interfering with the proposed Roosevelt Drive By-pass in Seaside was discussed. The Engineer stated that the matter has been investigated and it was found that there will be no conflict except that the school will probably want an access to Roosevelt Drive on the easterly side of the school. He said that such entrance will be of a minor type and that the main entrance will remain on Holliday Street. He pointed out that it is not planned to control access on Roosevelt Drive within the City, so there is no reason to deny an access from the new school to and from Roosevelt Drive. The Commission accepted his report.

Consideration was given to a request presented by a delegation at the previous meeting for installation of a traffic signal on the Pacific Highway West at the St. Anthony School near Tigard. The Engineer reviewed the matter briefly and stated that as instructed by the Commission, another survey was made including a count of pedestrians. It was found that the volume of pedestrian traffic and vehicular traffic is still below the national warrant for signal installations and he recommended that the previous denial for the signal be reaffirmed. He also pointed out that the installation of traffic signals on heavily travelled highways is not an unmitigated blessing, as the stop signals have a tendency to increase the number of rear-end collisions, which sometimes cause death and injury. The Commission confirmed the previous denial of the request for this signal.

The matter of exchanging parcels of property with Lane County in the vicinity of the "Q" Street route between Springfield and Eugene was discussed. The Engineer recalled that Lane County, to facilitate construction of a juvenile home in this area, had requested that the State exchange 20 acres of land purchased as a source of road-building material for a like amount of land which could be used for the same purpose. Lane County officials, he continued, have now determined that a 10-acre tract will be sufficient for the juvenile home and have offered to exchange a 10-acre tract that they have purchased about two miles north of the "Q" Street interchange, for 10 acres of land which the State acquired as a part of the Patterson bar. The 10-acre site that the County has offered to the State he explained, will provide a shorter haul for road-building materials and the trade will be advantageous to the State. Following his favorable recommendation, the Commission approved the exchange of properties.

Chairman Chandler inquired as to what progress has been made in the sale of State owned property at the "Big Y" in Eugene. The Right of Way Engineer replied that the Commission authorized the sale of one parcel in which the Carter Oil Company has indirect interest and that the Legal and Right of Way Department will continue to follow the policy of offering additional parcels for sale when someone evidences an interest to purchase them.

The Commission gave attention to items of unfinished business appearing on the Secretary's Summary dated March 1, 1957, as follows:

1. Request of North Bend Chamber of Commerce for overnight camping facilities in Sunset Bay State Park: The Commission ordered this item removed from the list of unfinished business as action on the matter was taken earlier in the session.

2. Proposed policy change concerning control of accesses as to use: This item was ordered deleted from the list as a revised policy was approved earlier in the day.

3. Possibility of the new school at Seaside interfering with proposed Roosevelt Street By-Pass on US 101: The Commission also ordered this item deleted from the list of unfinished business as a report was presented earlier in the session.

4. Adoption of a Throughway and Abandonment Agreement with Josephine County covering the Jumpoff Joe Creek-Louse Creek Unit of the Pacific Highway: The Engineer reported that the Josephine County Court has signed an agreement concerning the disposition of county roads intersecting the new highway section and disposal of the old route of the Pacific Highway when the new highway section is completed. Upon his favorable recommendation, the Commission approved the agreement. This item is to be removed from the list of unfinished business.

5. Request for traffic signal on US 99W near St. Anthony School in Tigard: This item was ordered deleted from the list of unfinished business as a report was presented earlier in the day.

Increases in project authorizations were requested by the Engineer and approved by the Commission for the following state highway contracts:

Contract No. 4852 for construction of the Cape Lookout State Park Overnight Camp Extension, for an increase of $4,325. The principal cause of the overrun, he stated, was due to swampy ground which made it necessary to increase the amount of special borrow and surfacing.

Contract No. 4513, Clay-Columbia Street Interchange in Portland for an increase in the amount of $90,000. Revision of the City's water mains and revision of the Portland Dock Commission's facilities at the old mooring for the Battleship Oregon were the chief causes of the overrun.

The Engineer reported completion of surveys for the revision or relocation of certain state highway sections previously authorized by the Commission. These surveys, he said, reflect a great deal of engineering study in order to provide the greatest good for the traveling public at minimum cost. He recommended approval of surveys for the following state highway sections:

1. Butte Creek Summit Section of the John Day Highway in Wheeler County. (See EXHIBIT "G-1")

2. Upper Beech Creek-Forest Boundary Section of the Pendleton-John Day Highway in Grant County. (See EXHIBIT "G-1"

3. Pioneer Summit Unit, Toledo Eddyville Section of the Corvallis-Newport Highway in Lincoln County. (See EXHIBIT "G-1")

4. Grants Pass (6th and 7th Streets) Section of the Pacific Highway in Josephine County. (See EXHIBIT "G-2")

5. Conner Creek Section of the Oregon Coast Highway in Coos County. (See EXHIBIT "G-2")

6. The Ontario-Snake River Section of the Old Oregon Trail Highway in Malheur County. (See EXHIBIT "G-3")

7. Huntington South Junction-Olds Ferry Section of the Old Oregon Trail Highway in Malheur County. (See EXHIBIT "G-3")

8. Huntington-Dead Ox Flat Section of the Old Oregon Trail Highway and Olds Ferry-Ontario Highways in Baker and Malheur Counties. (See EXHIBIT "G-4" and "G-5".)

The Commission approved the surveys by adopting the attached resolutions relative thereto marked EXHIBITS "G-1" through "G-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from the Crook County Court for an extension of the Paulina State Secondary Highway a distance of 0.3 mile easterly from Paulina to the east end of Beaver Creek Bridge. The Engineer advised that in reconstructing a section of the Paulina Highway west of Paulina, a revision in alignment was made and that the County Court has agreed to take over a 0.6 mile section of the old route that is no longer needed as a part of the secondary highway system. The portion that the County is requesting be added to the State Secondary System is now on the Federal-aid Secondary System and has a fairly good gravel surface. To assist in maintenance of this section it should be surfaced with a 0-11 oil mat, and he recommended that if the Commission approves the extension authority also be given to construct an oil mat surface thereon during the 1957 construction season at an estimated cost of $3,000. He also recommended that the highway be extended as requested. The Commission

approved his recommendations and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

A Memorandum of Agreement with the Bureau of Public Roads, covering the placing of a bituminous mat on the North Umpqua Highway, was presented by the Engineer who explained that it provides for the application of a 0-30 bituminous mat on several short sections of this highway, totaling 1.5 miles, at an estimated cost of $3,000; also, that the Bureau of Public Roads will reimburse the State for expense involved. Upon his favorable recommendation the Commission approved the agreement.

Consideration was given to an extension of an agreement with the U. S. Coast and Geodetic Survey relative to the establishment of horizontal and vertical controls along certain sections of the interstate highway system in Oregon. The Engineer stated that the original agreement which was entered into in October, 1956, entailed an expenditure of $15,000 in 1956 from federal interstate funds based on 90 percent federal and 10 percent state cooperation. Controls have been established along the Columbia River between Portland and a point a short distance east of The Dalles. These controls, he stated, are of great value in the Gorge area but are not so essential on other sections of the interstate highways. The cost per mile of highway surveyed has been about $700.00, which he felt is quite high. He recommended that the agreement be terminated as of June 30, 1957, and that the Commission authorize an expenditure of approximately $60,000 to cover the cost of the survey in 1957. The Commission accepted his recommendation.

Chairman Chandler inquired as to the status of right-of-way acquisition on the Medford By-pass route of the Pacific Highway. The Engineer replied that the Medford City Council had voted to approve, with certain restrictions, the survey adopted by the Highway Commission and they are still negotiating for more points of access to the by-pass in the vicinity of Medford. No attempt to acquire right of way, he stated, will be made until the City has made up its mind.

The Commission gave attention to a request from County Judge C. W. Craddock, Harney County, for improvement of the Frenchglen Secondary Highway to an oil-surface standard between its junction with the Burns-Crane Highway near Burns and The Narrows, about 23 miles south of Burns. The Engineer estimated the cost to perform the requested work at nearly $1,000,000. He also said that the road carries a relatively low amount of traffic and has a low priority for improvement. Upon his adverse recommendation, the Commission denied the request.

The Commission considered the following request submitted by Josephine County Court for highway improvements:

1. Construction of one-way couplet via 6th and 7th Streets in Grants Pass, and construction of a new bridge at the south end of 7th Street.

2. Elimination of narrow bridges on the Redwood Highway.

3. A restudy of the proposal to make a continuation of the Redwood Highway via the old railroad right of way from its present junction with US 99 to a point on the relocated US 99 south and east of Grants Pass.

The Engineer reported briefly that it is planned to start construction on the 6th Street-7th Street couplet in 1957, and it is also intended to construct a new bridge across the Rogue River, probably in 1958. Controversy over the railroad right of way has been settled and acquisition of the abandoned railroad right of way is underway. Replacement of four narrow bridges on the Redwood Highway is tentatively scheduled for 1960 to 1962 but no funds are now available to finance the work. Concerning their third proposal it was his feeling that when the next program is adopted consideration should be given to constructing a section about one mile in length on the Grants Pass end. The Commission took no action.

The Commission considered and upon the favorable recommendation of the Engineer granted the following extensions of time within which to complete state highway contracts. Reimbursements for engineering expense and other extra expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission.

1. Tom Lillebo, Contract No. 4564, for construction of the East Fork Illinois River Bridge on the Redwood Highway in Josephine County, requested an extension of time from October 31, 1956 to February 22, 1957. Approved as requested.

2. T. W. Thomas, Contract No. 4527, for construction of a guardrail on the South Umpqua River-Myrtle Creek Unit of the Pacific Highway in Douglas County, requested an extension of time from March 31, 1956 to March 10, 1957. Approved to February 28, 1957, the actual date of completion.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's Office.

The Engineer reported that contract Nos. 4186, 4497, 4564, 4591, 4597, 4623, 4769, 4774, 4796, 4805, and 4816, for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration the Commission accepted said contracts by adopting the attached resolution relative thereto,

marked EXHIBIT "D", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

A request was considered from the Empire-Charleston Chamber of Commerce and the Coos Bay Chamber of Commerce for installation of automatic controls for the swing span on the South Slough Bridge at Charleston. The Engineer commented that several months ago a like request was received and was denied due to the fact that a boat basin was being constructed nearby which it was felt would greatly relieve the necessity for opening the bridge. The boat basin he said, is still incomplete but is being used by a considerable number of boats and, as contemplated, it has not been necessary to open the bridge as often as in the past. He recommended reaffirmation of the previous decision and that action be deferred until the boat basin is completely in use when the necessity for opening the bridge can be accurately determined. The Commission accepted his suggestion.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p. m. with the same persons present and participating.

The Commission discussed with the Engineer a request from the Port of Coos Bay that a reconnaissance survey be made for a new highway between Coos Bay and Roseburg along Coos River. The Engineer stated that the Port officials intimated that they might contribute the sum of $10,000 toward the cost of such survey. He exhibited a topographical map on which was shown a possible route via the South Fork of Coos River. He advised that this route is approximately 66 miles long compared to 88 miles on the present alignment and a distance of 83.5 miles on the proposed Coos Bay Wagon Road. These distances are all between Coos Bay and Roseburg. Although no detailed costs have been prepared, he estimated from the information already secured, that it would cost about $20,000,000 to construct the South Coos River Route and about $150,000 to conduct a reconnaisance survey. He pointed out that the large amount of money required for this new highway route makes it a project for many years in the future, and he gave as his experience that surveys made years ahead of actual construction have very little value. He recommended for these reasons that the request for a survey be denied and that the Port officials be advised of the reasons. The Commission approved his recommendation and directed that full information be given those interested by Mr. Huntley, Director of Public Relations. Commissioner McIver inquired if there is any possibility that the road might be constructed as a toll road. The Engineer replied that the only financially feasible toll that he could foresee at this time would be on logs and timber products hauled out over the road. Chairman Chandler commented briefly that the Port of Coos Bay is the largest timber export port in the world.

Attention was given to two resolutions passed by the Coos County Chamber of Commerce requesting:

1. That the Highway Commission take immediate action to provide funds to match Federal monies for the relocation and construction of ORE 42

between Rink Creek and Myrtle Point.

2. That turnouts and passing lanes be constructed along ORE 42 between Camas Valley and Powers Junction.

The Engineer reported that concerning the first request there are no match monies available for this improvement and no additional Federal funds could be obtained by the providing of additional State match money. Concerning the request for turnouts and passing lanes, he stated that construction of these on the 32-mile section would cost approximately $1,500,000, but in his estimation this is not the best solution of the problem because it would result in short sections of three-lane road, which type of construction has been proven to be one of the most dangerous designs possible and would probably increase the accident rate rather than decrease it. He gave as his opinion that the only solution is to reconstruct the highway to modern standards and he suggested that be done in increments when money is available to finance the work. The Commission accepted the Engineer's suggestion and expressed the hope that it will be possible to so reconstruct a two or three mile section in the not distant future.

The Engineer reported that Clackamas and Marion Counties have requested additions to the federal-aid county road system. These mileages, he stated, have been inspected and it has been found that they meet the federal requirements. Following his favorable recommendation, the Commission approved the following county road sections as part of the Federal-Aid County Road system:

CLACKAMAS COUNTY: FAS 808, 3.5 miles, from FAS 129 at Boring, southerly to FAS 132 (Clackamas State Highway) approximately 0.75 mile east of Barton; FAS 809, 4 miles, from a county road junction at Redland easterly via Fishers Mill to a junction with FAS 131 at Logan; FAS 812, 7.4 miles, from FAP Route 3 at Barlow southerly to FAS 140 (Woodburn-Estacada State Highway) approximately 7.5 miles west of Molalla; FAS 813, 1.3 miles, from a county road junction at consolidated school district 91 schoolhouse, easterly to a junction with proposed FAS 812.

MARION COUNTY: FAS 737, 10.1 miles, extending from the Market Street connection with the Salem By-pass route easterly via Pratum to a connection with FAS 130, approximately 4.5 miles south of Silverton.

The Engineer also recommended that the Commission designate as a State Secondary Highway the existing section of the Oregon Coast Highway between Coquille and Bandon, a distance of 21.3 miles, to be effective when the new route is opened to travel. He pointed out that the revised section of the Oregon Coast Highway, known as the Davis Slough-Bandon Section, is now under construction beginning at a point a few miles north of Coquille and extending southerly and westerly to the town of Bandon. He also recommended that the portion of the existing Oregon Coast Highway between Davis

Slough and Coquille be designated an extension of the Coos Bay-Roseburg Highway No. 35, to be effective when the Davis Slough-Bandon section is open to public travel. The Commission accepted the Engineer's recommendations by adopting the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

A list of projects for improvements to County Federal-Aid roads in Clackamas, Harney and Wheeler Counties was presented by the Engineer. These proposed projects, he stated, have a combined total value of $405,000 and there remains an unprogrammed balance of $2,811,000 in the 1957, 1958 and 1959 secondary funds. Upon his favorable recommendation the Commission approved the following projects:

County	FAS Hwy No.	Section & Description	Programmed Amount	FAS Fund
Clackamas	129	Boring Section, 0.3 mile. Grade and pave.	$ 30,000	'58
	808	Deep Creek Bridge. Structure and road approaches.	$ 40,000	'58
	809	Fishers Mill (Clear Creek) Bridge Structure and road approaches.	$ 35,000	'58
	812	Bear Creek & Rock Creek Bridges (2) Structures and road approaches	$100,000	'58
	813	Rock Creek Bridge Structure and road approaches.	$ 45,000	'58
		Subtotal, Clackamas County	$250,000	
Harney	458	Middle Fork Malheur River Bridge. Structure only.	$ 40,000	'58
	459	Silvies River Bridge. Structure only.	$ 25,000	'59
		Subtotal, Harney County	$ 65,000	
Wheeler	318	N. Unit, Spray-Waterman Section, 8 miles. Surfacing	$ 90,000	'59
		SUBTOTAL, ADDITIONAL PROJECTS.....		$405,000
PREVIOUSLY APPROVED PROJECT PROPOSED TO BE CANCELED				
Harney	696	Buchanan-Crane Section, 16.9 miles. Surfacing	$120,000	
		(Fiscal year 1958 project approved 12/17/56. Proposed for cancellation as county has completed work with county forces.)		

March 28, 1957

LESS PROJECT PROPOSED TO BE CANCELED..... $120,000

TOTAL ADDITIONAL 1958 & 1959 COUNTY FAS FUNDS..... $285,000

SUMMARY BY FISCAL YEARS

	1957 & 1958	1959	Total
Available September, 1956	$ 4,443,000	$3,800,000	$8,243,000
Previously Approved	3,669,000	1,478,000	5,147,000
Unprogrammed Balance	$ 774,000	$2,322,000	$3,096,000
Proposed Projects 3/15/57	170,000	115,000	285,000
Unprogrammed Balance	$ 604,000	$2,207,000	$2,811,000

In discussing the County projects, the Engineer pointed out that Clackamas County wishes also to improve the county road known as the Country Club Road, but to make the needed improvements it will be necessary to acquire right of way in the amount of approximately $150,000. In order to handle the project with the funds available to the County, the Court has asked permission to spend its first-year money for purchase of right of way and to finance construction with monies that become available during the following years. He recommended approval of such program. The Commission accepted his recommendation.

The Engineer reported that the City of Lebanon is constructing a project on Park Street which is the northbound route of the Santiam Highway. The City plans to widen the street from 32 feet to 44 feet between Grant and Oak Streets and proposes to perform all of the work with its own money and that of adjoining property owners, except that it wants the State to repave the center portion of the street which has a high crown and is now used as the traveled section of the highway. The total estimated cost, he said, is $19,500, of which the State's portion for repaving the center portion would be approximately $4,800. As the existing street has a high crown and it will be necessary to reshape it in connection with the City's widening project, he recommended that the project be approved as outlined, the State's share to be performed as a betterment project in 1957. The Commission approved the recommendation, provided the City will contribute funds as indicated.

Consideration was given to a request from the Malheur County Court and the Rural Road Assessment District No. 3, Malheur County, for a cloverleaf connection from the old route of US 30 to the new section of US 30 at the junction of Chester Boulevard immediately north of the City of Ontario in lieu of rebuilding the Malheur River Bridge, which was severely damaged by recent flood waters. The petition as submitted pointed out that the old Malheur River Bridge north of Ontario had been badly damaged by recent floods and that in lieu of rebuilding the Bridge, the cloverleaf be constructed. The Engineer stated that it has not yet

been determined if it would be feasible to repair the old bridge or construct a new one. In either event, it appeared that it would be necessary to spend at least $90,000 to restore the Malheur River Crossing. He recommended approval of the request subject to the condition that Malheur County will assume full jurisdiction over the old highway south from the proposed connection to the City of Ontario. He requested authority to negotiate with the Malheur County officials concerning the proposed setup, under which the County would be required to take over a one-mile section of the old road, the State take over about one-half mile of county road, and that the State would not be required to spend any additional funds on the present road. The Commission granted the authority as requested.

The Commission considered the advisability of subscribing to a press clipping service. The Engineer reported that the Travel Information Department subscribes to a considerable number of newspapers and provides quite adequate information on highway events over five days of the week. Not much material, however, is secured from the papers over Saturday and Sunday. Mr. Huntley, Director of Personnel and Public Relations, stated that the coverage they now secure from the Travel Information Department is quite adequate except on weekends. However, the press clipping service would be advantageous on occasions of special events. The members of the Commission indicated that they have no particular interest in the clippings, and upon the Engineer's adverse recommendation, the Commission decided not to subscribe to a clipping service at this time.

The Engineer reported that construction of the Yellow Creek Section of the Powers Secondary Highway in Coos County has been completed and the highway opened to public travel. As the old section of highway is not needed for any public use it may, therefore, revert to the abutting property owners. He recommended that the Commission formally abandon the old section of the highway to the abutting property owners. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

An agreement with the U. S. Bureau of Reclamation to secure reimbursement from the Bureau for the cost of a reconnaissance survey at the Duncan Ferry Reservoir site near Rome in Malheur County, was discussed. The Engineer explained that the Bureau's plans may cause flooding of a section of the I.O.N. Highway if the dam is constructed, and at the request of the Bureau, the State had a reconnaissance survey made to determine a new location for the State highway. The Bureau, he said, has agreed to reimburse the State for the cost of the work, which amounted to $897.19. To secure this reimbursement, he recommended that the Commission approve a "Memorandum of Agreement" which provides for reimbursement not to exceed $900.00. The Commission approved the agreement.

The Commission approved the Secretary's Report of papers signed by him on behalf of the Commission during the period February 26 to March 26, 1957.

March 28, 1957

Attention was given to a letter from the Commercial Bank of Salem requesting that the Commission reconsider their request that their bank be used as a depository for withholding taxes deducted from highway employees' wages. Mr. C. H. Maison, Auditor, recalled that this matter was before the Commission at its last meeting and at that time the request was denied. However, additional information has been disclosed, including the fact that several other State agencies in Salem use this bank to deposit such funds until they are transmitted to the Government. Placing of the funds in the independent Commercial Bank he said, will cause no confusion and he recommended that this bank be approved as a depository for withholding funds as requested. The Commission approved his recommendation.

The Commission considered and upon the favorable recommendation of the Engineer, approved a lease agreement with the U. S. Coast Guard in the form of a Permit to install aides to navigation on four locations on US 30 between Deschutes River and the John Day River. The Engineer explained briefly that the agreement contains a clause which allows either party to cancel the agreement upon thirty days' written notice. The navigation aides, he added, are needed in connection with the pool created by The Dalles dam.

The Engineer presented a form of Permit allowing the Pacific Telephone and Telegraph Company to install a public telephone booth on the southbound lane of the R. H. Baldock Freeway adjacent to the truck scale at Mile Point 28.50. He recalled that this matter was considered at a previous meeting and has been approved in a general form. The Commission approved the Permit as presented.

The Engineer reported that a dangerous traffic hazard has developed in the vicinity of the Cherry City Bowling Alley located a short distance south of Salem, on the Salem Business Route of the Pacific Highway East, by reason of cars parking along the highway shoulders. An investigation disclosed that the bowling alley has provided ample parking space off the highway for its patrons, and he recommended for the safety of the traveling public, that shoulder parking be prohibited on both sides of the highway between a point 500 feet north of the Cherry City Bowl, Engineer's Station 119+08, and a point 300 feet south of the Cherry City Bowl, at Engineer's Station 127+08. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The matter of State Highway officials attending the Western Association of State Highway Officials 1957 Conference at Houston, Texas, June 11 to 15, 1957, was discussed. The Commission authorized the following persons to attend this meeting at a cost of $350.00 each, or a total of $2,800.00: Three Highway Commissioners; W. C. Williams, State Highway Engineer; Forrest Cooper, Deputy State Highway Engineer; W. W. Stiffler, Assistant State Highway Engineer; H. B. Glaisyer, Secretary; Robert L. May, Jr., Acting Chief Counsel.

The Engineer requested and the Commission granted authority for Mr. Paxson, Assistant State Highway Engineer, to attend a meeting of the Bridge Advisory Panel of the AASHO Road Test in La Salle, Illinois, April 12, 1957, at no expense to the State. Mr. Paxson is Chairman of this Committee and his expenses will be paid from Road Test funds. The Commission also authorized Mr. Paxson to attend a panel discussion concerning prestressed concrete at Ames, Iowa, May 7-9, 1957, as a guest of Iowa State College. His expenses are to be paid by the College.

The Engineer stated that a meeting of the AASHO Advisory Board is to be held in La Salle, Illinois, and that he as a member of this Board, should attend. He estimated the cost of the trip at $250. The Commission authorized him to attend the meeting at State expense. Commissioner McIver at this point inquired as to how the funds for travel expenses are holding out. The Engineer replied that if the trips are taken as authorized at this meeting, the Highway Department will be in the red about $1,000.00. The Commission instructed him to request additional funds from the Department of Finance and Administration for the balance of the fiscal year, and not a transfer or loan from the following year's funds.

The establishment of a speed zone on the Jefferson Secondary Highway near the City of Jefferson was discussed. The Engineer advised that the State Speed Control Board has established a speed zone within the City of Jefferson and to carry the zone to a logical conclusion, the State should establish speed zones on the adjacent rural portion north of Jefferson. He recommended that a 45 M.P.H. speed zone be established between a point 400 feet north of the road to Talbot, at M.P. 4.74, and the north City limits of Jefferson, M.P. 5.18, except that between a point 50 feet north of the road to Talbot at M.P. 4.81, and a point south of the road to Talbot at M.P. 4.96, the indicated speed shall be 20 M.P.H. during the hours of school crossings. The Commission approved such speed zone by adopting the attached resolution relative thereto, marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer stated that a petition has been received from residents of Beaverton and vicinity requesting establishment of a reduced speed zone on the Beaverton-Tualatin Highway between Beaverton and Tigard. He advised that an investigation was made by the Traffic Engineering Department and as a result of the facts disclosed, he recommended that the following speed zones be established on the Beaverton-Tualatin Highway:

30 miles per hour between the south city limits of Beaverton (M.P. 0.78) and a point 0.11 mile south of the south city limits of Beaverton (M.P. 0.89).

45 miles per hour between M.P. 0.89 and a point 200 feet north of Washington Avenue, at M.P. 3.67.

40 miles per hour between M.P. 3.67 and the Pacific Highway West, M.P. 4.92, except that between a point 0.11 mile north of Locust Street, at M.P. 3.94 and a point 500 feet south of Locust Street, at M.P. 4.14, the indicated speed shall be 20 miles per hour during the hours of school crossings.

The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer pointed out that the "through" highway resolution that was adopted by the Commission April 27, 1943, designating all state highways as "through" highways contained the following provision with respect to what was then the Beaverton-Aurora Secondary Highway No. 141: "All traffic shall stop before entering the intersection of the Scholls Highway with the Beaverton-Aurora Highway at Progress." This provision, he said, was eliminated by the Commission on September 21, 1949, when a revised "through" highways resolution was adopted, but the stop sign has not been removed. He requested permission to remove the sign now. The Commission approved his request.

An agreement with Peninsula Drainage District Number One, Portland, covering dike work in connection with construction of the Oregon Slough Bridge on the Pacific Highway north of Portland was considered. The Engineer stated that in connection with a contract that is now under way, it is necessary to drive some piling in the Drainage District dike. The agreement provides that the State shall pay the District during a five-year period the amount necessary to reimburse the District for the cost of protecting their dike. Following the Engineer's favorable recommendation, the Commission approved the agreement.

The Commission discussed a date for its next regular meeting and decided to hold a one-day meeting on April 19, in Portland. Tentative dates for the next following meetings were set as May 16 and 17, and June 27 and 28. The Secretary was instructed to make the usual arrangements for use of the Queens Room in the Imperial Hotel.

The Parks Superintendent reported briefly on the road and park improvements at Owyhee Reservoir that were requested by a delegation from Malheur County on March 1, 1957. He said that there have been no new developments since the delegation appeared. The Commission accepted the report.

Consideration was given to a request from Poison Creek Grange Safety Committee, Burns, for installation of traffic signals at a railroad crossing on the Central Oregon Highway east of Burns, on the Burns-Crane Highway within the City of Burns, and at the intersection of Broadway and Monroe Street in Burns. The Engineer reported that an investigation was made and it was found that there were no reported accidents at the railroad crossing east of Burns between January 1, 1950 and December 31, 1956, and that the crossing has a priority of No. 102 among 170 unsignalized grade

crossings. The railroad crossing on the Burns-Crane Highway, he said, has a priority of No. 37 among the 170 unsignalized railroad crossings. The investigation also disclosed that the traffic volume at the intersection of Broadway and Monroe Streets is too low to meet the standard warrants for the installation of traffic signals. However, there were 18 reported accidents at this intersection between January 1, 1952 and January 31, 1957. In view of these facts, he recommended that the request for the railroad grade crossing signals be denied and that a flashing beacon be installed at the intersection of Broadway and Monroe Streets, with flashing red indications to the east and the south, flashing amber to the west, and a flashing red indication and green right-turn arrow to the north, at an estimated cost of $600.00, the work to be performed in 1957. The Commission approved his recommendation.

The Engineer reported that in connection with the planning of the Interstate System in Portland, it is necessary to have made a planimetric map of the Sunset and Stadium Freeways and of the route of US99 between the Ross Island Bridge and the Columbia River. To accomplish this he recommended an arrangement with the Bureau of Public Roads providing that the Bureau shall contract with some competent firm to do the work on the basis of negotiated bids. He pointed out that the resulting information and map to be of any value must be prepared by a firm which has proper equipment and skilled operators. He added that the Bureau has authority to act in matters of this kind, and he recommended that they be authorized to proceed with this as an Interstate Project at an estimated cost of $60,000. The Commission approved his recommendation.

The Commission considered and upon the favorable recommendation of the Engineer approved throughway agreements with Marion and Linn Counties covering the North Jefferson Junction-S.P.R.R. Overcrossing Unit on the North Jefferson Junction-Albany Section of the Pacific Highway. These agreements, the Engineer pointed out, provide for necessary road closures, crossings, and interchanges in connection with this project.

With reference to an agreement with the Bureau of Public Roads, the Engineer pointed out that the State assumed maintenance of a section of the Enterprise-Lewiston Highway on November 1, 1956. The Bureau of Public Roads, he said, had a small maintenance crew on this project for a short time after November 1, 1956, and during that time spent $2,798.06 for maintenance for which it now seeks reimbursement. He recommended approval of the expenditure. The Commission approved the payment of $2,798.06 as recommended.

The Engineer reported that the City of Pendleton has requested cooperation in widening Frazier Street between S. W. 10th Street and S. W. 15th Street. He explained that in this overall plan for improvements in Pendleton, Frazier Street and Emigrant Street are included as a one-way couplet connecting the Pendleton-John Day Highway with the Old Oregon Trail. He estimated the cost of the project as requested at $45,000, and stated that the City has indicated that it will contribute $19,000 toward the expense. As Frazier Street presently is not a state highway route and

probably will not be used as a state route for several years, he recommended that the request be denied. The Commission decided not to approve this project until its finances permit construction of the one-way couplet in its entirety as planned between S. W. 20th Street and S. E. 10th Street.

The Engineer reported that the Longbell Lumber Company proposes, as an aid to traffic in going to and coming from their log dump adjacent to Highway 101 south of Gardiner, to construct a right-turn traffic lane, install a flashing beacon and four mercury vapor luminaire units at company expense at this point, provided the State will permit them to do so. He recommended that the company be allowed to make the installation under the terms of a permit and under the supervision of the State. He also recommended, as a further protection to the traveling public that parking be prohibited on both shoulders of the Oregon Coast Highway between M. P. 209. 74 (Engineer's Station 631+00) and M P. 209. 97 (Engineer's Station 619+00). The Commission approved his recommendations and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "F-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Commissioner Reynolds reported a request from County Judge C. K. McCormick, Union County, for approval of an access to the Old Oregon Trail on the Ladd Canyon Section to provide access to a county sand shed. The Commission instructed the Engineer to investigate the request immediately and to inform Judge McCormick whether or not such access is feasible. A report on the subject is to be submitted to the Commission at its next meeting.

The Commission discussed with the Engineer, problems to be presented by delegations on the following day but action was deferred pending the appearance of the delegations.

The Commission discussed with the Engineer the bids that were received at the morning session for highway construction and at 3:30 p. m. Commissioner McIver announced awards of contracts as follows:

"Clean and paint steel in bascule span over Youngs Bay on the Oregon Coast Highway in Astoria in Clatsop County. The Commission awarded the contract to the low bidder, O & S Painters, Inc., Tigard, at $4,900.

"Clean and paint steel in bridge over South Slough on Cape Arago Highway at Charleston, and in bridge over South Fork Coquille River on Powers Highway at Powers in Coos County. The Commission awarded the contract to the low bidder, Pacific Marine Service, Portland, at $8,100.

"Grading and oiling on the Willowdale-Lyle Gap Section of The Dalles-California Highway in Jefferson County. The Commission elects to accept the bid of Rogers Construction Co., Portland, the low bidder, in the sum of $718,514, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Clean and paint steel in Robertson Bridge over Rogue River on Rogue River Loop Highway in Josephine County. The Commission awarded the contract to the low bidder, Pacific Marine Service, Portland, at $3,250.

"Oiling and rock production project on three State highways in Klamath County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, in the sum of $89,222.

"Clean and paint steel in bridge over Willamette River on McKenzie River Highway at Springfield in Lane County. The Commission awarded the contract to the low bidder, O & S Painters, Inc., Tigard, at $7,900.

"Pacific Highway Overcrossing of S.P.R.R. at Jefferson Junction in Linn County. The Commission elects to accept the bid of Johnston & Bryant, Newberg, the low bidder, in the sum of $174,977, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and oiling on the North Unit, Vale-Grand Avenue Section of the Lytle Boulevard Road in Malheur County. The Commission elects to accept the bid of Babler Bros., Inc., Portland, the low bidder, in the sum of $167,625, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Malheur County is received and the sum of $37,900 is deposited by the County.

"Fencing project on the Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion County. The Commission awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at $7,009.

"Oiling project on three State highways in Division No. 2 in Marion, Lincoln and Clackamas Counties. The Commission awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at $26,631.

"Construct bridge over Wild Horse Creek in the City of Adams in Umatilla County. The Commission awarded the contract to the low bidders, Harold E. Ray & L. O. Fusby, Hermiston, at $9,970.

"Oiling and leveling course project on the Cove and Fruitdale Road Sections near La Grande in Union County. The Commission elects to accept the bid of Russell Olson Construction Co., Inc., Pendleton, the low bidder, in the sum of $32,650, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Union County is received and the sum of $7,400 is deposited by the County.

"Glover Overcrossing of Union Pacific Railroad on the Old Oregon Trail Highway in Union County. The Commission elects to accept the bid of Orlando C. Bennard, Portland, the low bidder, in the sum of $120,800, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading project on the West Unit, Shogren-Rowena Section of the Columbia River Highway in Wasco County. The Commission awarded the contract to the low bidder, Earl L. McNutt Co., Eugene, for $250,723.80.

"Grading and paving on Lafayette Street in the City of Dayton in Yamhill County. The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, for $11,540.

The Commission signed the following agreements, deeds, and other papers:

"Permit" from Bonneville Power Administration for construction of US30 across the Bonneville easement near Meacham.

"Bargain and Sale Deed" with Bert B. Gates covering exchange of property on Whiskey Creek Section of Mt. Hood Highway, Hood River County.

"Consent to Vacation of Streets" in Alexandria, Lincoln County, Oregon.

"Quitclaim Deeds" relinquishing title to Archie Riekkola and Thomas McClure for certain slope easements in Astoria not now needed for highway protection.

"Agreement" with Bureau of Public Roads covering the placement of bituminous mat on Oregon National Forest Highway Project 47-A4, B7, C2, D4, North Umpqua Highway. Government will reimburse state for expenses up to $3,000.

"Agreement" with the United States Coast and Geodetic Survey to establish horizontal and vertical controls along certain sections of interstate highway system in Oregon. Estimated cost $60,000.

"Memorandum of Agreement" with Bureau of Reclamation to secure reimbursement from the Bureau for reconnaissance survey costs in connection with a study made at Duncan Ferry Reservoir site on Owyhee River near Rome. Amount involved $897.19.

"Lease" with U. S. Coast Guard covering sites for various aides to navigation in The Dalles Dam area.

"Permit Agreement" with the Pacific Telephone and Telegraph Company regarding the maintenance of a public telephone booth on R. H. Baldock Freeway near the State Scales at M.P. 28.50.

"Agreement" with Southern Pacific Co. covering the Second Jefferson Jct. Overcrossing structure on the Pacific Highway in Linn County. (Authorized 8-16-56)

"Agreement" with City of Gold Beach covering the Gold Beach-Hunter Creek Section of the Oregon Coast Highway in Curry County. (Bids to be received 3-29-57)

"Finance & Maintenance Agreement" with Union County covering the Cove Avenue and Fruitdale Road Sections of FAS 478 and 796. (Authorized 1-22-56)

"Finance & Maintenance Agreement" with Malheur County covering the North Unit, Vale-Grand Avenue Section of FAS 515. (Authorized 9-27-56)

"Finance & Maintenance Agreement" with Polk County Covering the West Unit, Airelie-Suver Section of FAS 560. (Authorized 11-8-56)

"Agreement" with City of Echo covering the $250,000 Special Fund for paving on Dupont Street in Echo. (Authorized 12-17-56)

"Agreement" with City of Adams covering the $250,000 Special fund for construction of a bridge over Wild Horse Creek on Preston Street in Adams. (Authorized 12-17-56)

"Lease" and "Sale of Road Materials Agreement" with Sidney D. Harris for property on the Paulina Slough-Picture Rock Pass Section of the Freemont Highway in Lake County. (Authorized 1-22-57)

"Agreement" with Peninsula Drainage District Number One, Portland, covering dike work in connection with construction of Oregon Slough Bridge on US 99E, North Portland. Bridge reconstruction now underway -- Contract No. 4653. Agreement provides that State will pay District during 5-year period amount necessary to reimburse District for all cost necessary to render protective work suitable for which intended.

"Easement" to the California-Oregon Power Company to set a pole and anchor on a State-owned stock pile site on Pacific Highway, Douglas County.

"Throughway Agreements" (2) covering North Jefferson Junction-SP Railroad Overcrossing Unit, North Jefferson Junction-Albany Section of Pacific Highway, Marion and Linn Counties.

"Agreement" covering $250,000 special fund project for grading and paving on Lafayette Street in Dayton. (Authorized 12-17-56)

"Bargain and Sale Deed" conveying to T. T. Anderson, et ux., 3.8 acres of land on Salem By-Pass Section of Pacific Highway East, Marion County. (Authorized 11-8-56)

"Letter" from Bureau of Public Roads re reimbursement to Bureau for their expense incurred on the Flora-Enterprise Project 38-B2.

March 28, 1957

"Throughway and Abandonment Agreement" with Josephine County covering the Jumpoff Joe Creek-Louse Creek Unit of the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway in Josephine County.

"Quitclaim Deed" to C. R. Lawrence in order to clear cloud on real property title. Delivery of deed contingent on State's being reimbursed in the amount of $800.00.

"Consent to Vacation of Alleys" for the vacation of certain alleys near Lakeview.

"Ground Lease" to R. S. Burch for a parcel of land on S. E. corner of the John Ridgeway D.L.C. No. 43 in Township 6S. Range 6 W., W.M. Polk County.

"Bargain & Sale Deed" to Herman Oliver for a parcel of land in the NW$\frac{1}{4}$ of SW$\frac{1}{4}$ of Section 29, Township 15 South, Range 31 East, W.M., Grant County.

"Bargain & Sale Deed" to Georgia Pacific Plywood Corp. for a parcel of land lying in Buford's Addition to the Town of Alexandria, Section 10, Township 11 South, Range 11 West, W.M., Lincoln County.

"Bargain & Sale Deed" to Cy Turner for a parcel of land lying in Buford's Addition to the Town of Alexandria, Section 10, Township 11 South, Range 11 West, W.M., Lincoln County.

"Agreement" with Idaho Power Company making certain changes and alterations in agreement dated 1-9-57, covering construction of highway between Richland and the general vicinity of the Brownlee Dam site.

The meeting adjourned at 4:00 p.m. to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
March 29, 1957

The meeting of the Oregon State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer

March 29, 1957

W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Acting Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Commissioner Reynolds announced to the contractors and others assembled for the opening of bids that Chairman Ben R. Chandler, who has been a member of the Highway Commission for over ten years, is retiring from the Commission as of today. He pointed out that his tenure as a highway Commissioner is the longest in the history of the State Highway Department. Chairman Chandler expressed regrets at leaving the Commission, but he said that he would take with him pleasant memories of his associations with people in what he termed as the outstanding highway department in the United States. He also complimented the contractors, the engineers and others who have played a part in the construction of Oregon highways and expressed the wish that they continue in the same spirit of efficiency and goodwill as in the past.

Bids as follows were opened and read aloud by the Secretary who announced that the Commission would award contracts in the same room at 3:00 p.m.

BENTON COUNTY
PHILOMATH ("M" ST.) GRADING AND PAVING PROJECT

Corvallis Sand & Gravel Co., Corvallis	$ 12,942.00
Warren Northwest, Inc., Portland	13,221.00

CLATSOP COUNTY
PIPE CULVERT AND GRADING ON MILL CREEK (SEASIDE) SECTION OF THE OREGON COAST HIGHWAY

James G. Robertson, Clackamas	$ 23,742.40
George E. Berry, Beaverton	27,830.00
Grimstad & Vanderveldt, Astoria	28,150.00
Larsen Construction Co., Astoria	28,960.00
Palmberg Construction Co., Astoria	29,340.00
Q. L. Rufener, Inc., Portland*	31,540.00
C. J. Eldon, Contractor, Portland	36,464.00

*Bidder will not accept award of more than one contract at this letting.

CURRY COUNTY
GRADING, STONE BASE AND PAVING ON THE GOLD BEACH-HUNTER CREEK SECTION OF THE OREGON COAST HIGHWAY

The Central Heating Co., Ore. Ltd., Eugene	$223,055.50
J. Ira McNutt Construction Co., Springfield	236,255.50

Walter N. Jackson, Hermiston	$ 11,626.00
Henry G. Stach, Oakridge	11,715.00
Johnson & Amens, McMinnville	12,500.00

Elton A. Schroeder, representing the City Council of the City of Myrtle Point, and J. H. Bowen, member of the Coquille Chamber of Commerce, came before the Commission concerning improvements to the Coos Bay-Roseburg Highway. Mr. Schroeder was spokesman. He declared that the existing highway is very old and crooked and in its present condition greatly impedes the flow of traffic. He said that the improvement of this highway is their priority project and he requested a detailed survey of the section between Myrtle Point and Camas Valley before any other major improvement is made. It was his opinion that it would be more feasible to improve the existing highway than to construct a new highway between Coos Bay and Roseburg. Mr. Bowen mentioned that freight traffic from California now goes north on US 99 to Drain, thence west along the Umpqua Highway to Reedsport, and south on the Oregon Coast Highway to Coos Bay. This circuitous route is used, he stated, because of the poor condition of the Coos Bay-Roseburg Highway. He called attention to the electric power development that is being constructed on the Coquille River and the need for a better highway in the economic development of the area. He expressed the opinion that this route is just as good as any other route that can be found. Chairman Chandler stated that the request would be given careful consideration.

A delegation from the City of Ashland appeared before the Commission concerning an access to the proposed Pacific Highway by-pass at Mountain Avenue, the widening of Siskiyou Boulevard, the present route of US 99 in Ashland. The following people composed the group: Harry Skerry, City Attorney; Richard Neill, Mayor; Elmer Biegel, City Superintendent; Walter Bossard, L. C. Ostrander, Kenneth Jones, John Billings, and Glenn Revel, City Councilmen. Mr. Skerry, who acted as spokesman, introduced the other members of the delegation and thanked the Commission for construction of the one-way couplet section for the widening of North Main Street and for the underpass construction at the north city limits. He urged the Commission to widen to four traffic lanes a section of Siskiyou Boulevard from the south end of the new one-way couplet to the proposed interchange near the south city limits. This widening, he stated, could be done by eliminating the center island strip in the existing street. He also urged the Commission to construct an interchange facility rather than a single turn-off at the junction of the proposed Pacific Highway by-pass at Mountain Avenue. He pointed out that the area served by Mountain Avenue is rapidly developing as a residential district and the interchange will provide a better means of access for the increasing volume of traffic between Ashland and Medford. Chairman Chandler commented that the Commission is familiar with the situation and has given the matter some thought. He pointed out that when the by-pass is constructed the volume of traffic on

Siskiyou Boulevard, which is the present route of the Pacific Highway, will be reduced. He also mentioned that three interchanges are already being considered for connections between the new highway route and the City of Ashland, with a turn-off at Mountain Avenue which can be revised as an interchange in the future if traffic demands. The Engineer commented that it is difficult to determine at this time the amount of traffic that Mountain Avenue will carry but in any event, it will not be difficult to construct such an interchange if it is needed. He also said that it probably will be about five years before the by-pass is completed. Others speaking in behalf of their project were Messrs. Biegel and Neill. Mr. Biegel stated that the City will not object to the removal of the center park area along Siskiyou Street. The Commission took no action concerning the interchange at Mountain Avenue but instructed the Engineer to investigate the feasibility of widening Siskiyou Boulevard as the group requested.

J. H. Vanwinkle, Manager of the Oregon City Chamber of Commerce, W. G. Trappe, Chairman of the Highway Committee, and Merle Brown, Chairman of the Tourist Committee of said Chamber of Commerce, came before the Commission concerning (1) Additional signs at the highway interchange north of Salem, (2) Improvement of the Cascade Secondary Highway between Oregon City and Molalla, and (3) The federal-aid secondary highway program in Clackamas County. Mr. Vanwinkle acted as spokesman. He commented briefly on the sharp curves, narrow roadbed and shoulders, and the heavy traffic on the Cascade Highway, and urged improvements. He also requested that surveys be authorized to enable the County to proceed with the acquisition of right of way necessary in the County Federal-Aid Secondary Program. Mr. Brown called attention to a condition at the Hayesville Interchange north of Salem whereby motorists are not apprised of motels and other tourist facilities which are available along the old route of the Pacific Highway to the north. He requested installation of additional signs at the Hayesville Junction, calling attention to these facilities. Although such a request might be the basis for setting a precedent it was his feeling that the Commission has a responsibility to the tourists in directing them to needed accommodations. The Commission took the requests under advisement.

A group representing the "North Albany-Corvallis All-Weather Route Association" consisting of John Boock, Hal Byer, And George Dannen of the Albany Chamber of Commerce, and Oliver Parker Butts, Albany City Councilman, came before the Commission concerning improvement of the Albany-Corvallis Highway. Mr. Boock, who acted as spokesman, asked the Commission to remove or modify several sharp curves and raise several low spots in the highway to make it passable during periods of high water in the Willamette River. The delegation, he stated, realizes that construction of a completely new highway is probably not justified at this time but it is their feeling that the highway could be improved as requested at a reasonable figure, and that such improvement would probably be satisfactory for a number of years. He mentioned particularly the curves at the west end of the Willamette River Bridge at Albany and near the Camp Adair Road, and low spots in the highway at the west end of the bridge and at a point near the Children's Farm Home. He also said that this district is being developed rapidly as an industrial area and he urged an immediate

investigation to determine the possibilities of improving the highway soon for all weather use. Following the delegation's departure Commissioner Reynolds commented that the City of Corvallis has never taken any interest in improvement of the present road. The Engineer commented that whereas the Corvallis people have not asked the Commission for this improvement, none the less they have in mind construction of a new highway which will probably cost two or three million dollars on the easterly side of the river. After some discussion, the Commission instructed the Engineer to make an estimate of cost to modify the curves and raise the low areas as requested by the delegation.

Mr. B. F. Quimby, merchant and farmer of Beaverton, appeared before the Commission to request a restricted speed zone on the Beaverton-Aurora Highway between Progress and Beaverton. He called attention to excessive speed and dangerous curves in this area and he presented a petition signed by 125 people who reside in the vicinity. The Engineer informed him that on the previous day the Commission had taken action to establish reduced speed zones of 35 and 45 miles per hour in this location which he felt would considerably relieve the hazard. Mr. Quimby expressed thanks for the consideration given.

Mr. Bruce Shavere, representing the Coos-Curry Electric Co-operative of Coquille, came before the Commission to request permission to install an electric power line across a portion of Cape Sebastian State Park and across a forest wayside near Brookings in Curry County. He explained that it is necessary in order to construct an economically feasible line, to install such facility across the State properties, as construction outside the properties would have to be on very steep terrain and would be very costly; also, it would be very difficult to maintain the line as it could be reached only on foot. The Parks Superintendent stated that it would be necessary to cut all trees for 200 feet on each side of the power line in order to prevent trees falling across the line during wind storms. This means that the timber on about 21 acres would have to be cut, involving approximately 650,000 board feet of timber which has been appraised by the State Forestry Department at $14,300. The cutting of this swath, he said, would reduce the aesthetic values of the State property but he called attention to the fact that the highway location may be moved at a later date. Chairman Chandler and Commissioner Reynolds expressed reluctance to the cutting of the timber. Mr. Shavere again pointed out that there is no other feasible location for the power line and that the Cooperative is willing to pay the State for the value of the timber that is destroyed. The Commission instructed the Parks Superintendent to attempt to work out a plan with the Cooperative to provide a feasible location for their power line with minimum damage to State properties and with the understanding that the Cooperative will pay for timber that is cut and removed, and for isolated pieces which will be subject to blowdown. The Commission also ordered a report on the subject.

The Right of Way Engineer reported that a house owned by the Highway Department, located at 3053 N. E. 102nd Street on the T. H. Banfield Expressway in Portland has been offered for sale but no

satisfa ctory bids have been received. The property is being rented for $55.00 per month, but the septic tank needs repairing which he estimated would cost $300.00. The Commission authorized the repair of the septic tank.

The Acting Chief Counsel reported that he has received copies of the agreement signed by Idaho Power Company pertaining to relocation of State highways because of dam construction at Brownlee and Oxbow on the Snake River. He also reported that a change had been made in the wording of the agreement to provide for a crushed gravel surface on the relocated section in place of the original wording which mentioned merely gravel surface. The change has been discussed with members of the Idaho Power Company and will be confirmed by letter. The report was accepted by the Commission and the agreement was signed later.

A bill now before the State Legislature which provides for the expenditure of $105,000 of State highway funds for construction of a memorial building at Champoeg State Park was brought up by the Acting Chief Councel. He explained that the bill in its present form provides for a total expenditure of $210,000, one-half of which is to be from highway funds. The Parks Superintendent stated that a better building is needed to preserve the large number of historical items that are housed at this place, and that the plans for the proposed building are practically the same as the design that was prepared several years ago. He recommended that the Highway Commission authorize an expenditure of $105,000 of state highway funds to finance the new building on the condition that a like amount is furnished from other sources. Mr. G. S. Paxson, Assistant State Highway Engineer, observed that the structure as designed will be complete as a parks headquarters and museum building. As a result of discussion, the Commission indicated a willingness to con tribute the sum of $105,000 if the bill is passed, provided that one-half of the funds required are furnished from sources other than highway funds. The Parks Superintendent was instructed to convey the action to Representative Fred Meek.

Commissioner Reynolds inquired concerning the status of a mining claim, held by a Mr. Kerner, on the John Day-Burns Highway near Canyon City. The Acting Chief Counsel stated that Mr. Kerner is trying to establish a mining claim on highway right of way and that he has been notified to remove his fence from the right of way by April 1, 1957.

Commissioner Reynolds mentioned that he had observed a number of State truck drivers who were disregarding safety regulations. The Engineer replied that the Department is conducting an intensive training program under the direction of V. H. Coffey, Safety Engineer, and that many meetings are being held in various parts of the State to impress upon drivers the need for observing all safety precautions.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. in the same room, with the same persons present and participating.

A delegation from the City of Delake on the Oregon Coast Highway in Lincoln County urged the Commission to accept as a gift a 25-acre parcel of land on the north side of "D" River, east of the Oregon Coast Highway at Delake. The following people were present: Clifford Fagaly, Mayor; P. C. Reinhart, Chamber of Commerce, Ad Club, Realtor; Violet Reinhart, President, Oregon Coast Ad Club; Floyd Stager, City Attorney; and Arnold Ernshaw, City Recorder. Mr. Fagaly, who acted as spokesman, stated that the City does not have adequate finances to develop the area. He pointed out that the proposed park site has approximately 4,000 feet of shoreline on the lake, which has been selling at $25.00 per lineal foot and that the City will cooperate to the extent of furnishing free water and policing, and in lighting of the park area. Mr. Reinhart called attention to the fact that the nearest park with overnight camping facilities is located at Beverly Beach, about 15 miles south of Delake, and that many tourists inquire at the tourist booth in the north end of the town where overnight facilities are available. Devils Lake, he stated, has been restocked with trout and should be a very attractive fishing area. He also called attention to the fact that if tourists can be encouraged to stay a day or so longer in the State their expenditures within the State will be increasingly higher, and he also said that the City has indicated that it will remove the park area from the city limits so that the State will not be developing a park within a city. Mr. Stager pointed out that the tract provides a direct access to the beach by means of the pedestrian underpass path under the "D" River Bridge. Mrs. Reinhart stated that many of the businesses on the coast depend on tourist trade and there is a real need for a park in this vicinity. Chairman Chandler stated that the Commission is very appreciative of the City's offer and that careful consideration will be given to it.

Following departure of the delegation, the matter was again discussed briefly. The Parks Superintendent stated that the idea of installing overnight camping is news to him and that investigation is needed before he can make a recommendation. The nearest overnight camping facility, he stated, is about 15 miles to the south and a greater distance to the north. The Engineer inquired if consideration had been given to the development of a park area near Otis Junction and 3-Rocks, where the Salmon River Highway joins the Oregon Coast Highway. The Commission instructed the Parks Superintendent to study the matter in the light of additional overnight camping facilities and submit a report later.

Mr. Francis Landrum, representing the Klamath County Chamber of Commerce, appeared before the Commission concerning development of the Lake of the Woods Road in Klamath County. He recalled that the Klamath County Court had declined to go through with a previous agreement which provided that the County would take over a section of the Klamath Lake Secondary Highway from its junction with the Lake of the Woods Road north to Fort Klamath if the State would take over the Lake of the Woods Road in Klamath County and develop it as a forest highway. He asked that the Little Butte Secondary Highway, which is the westerly end of the Lake of the Woods Road be extended to a junction with the Klamath Lake Secondary Highway. The County Court, he stated, has indicated a desire that the State make a survey of the northerly part of the Klamath Lake Secondary

Highway and it was his thought that the County might accept it as a county road in sections. It was his opinion that the County cannot afford to take over the entire section from the junction with the Lake of the Woods Road to Fort Klamath. It was also his opinion that the section should never have been made a secondary highway in the first place. The Engineer stated briefly that the original understanding with Klamath County was that the State would take over the Lake of the Woods Road in Klamath County provided the county would take over the section of the Klamath Lake Secondary Highway north of the Lake of the Woods Road junction. Following Mr. Landrum's departure the matter was discussed further. The Commission at that time decided definitely to adhere to the original arrangement not to designate the Lake of the Woods Road a State Secondary Highway unless and until the County will assume complete jurisdiction over the Klamath Lake Secondary Highway north of Rocky Point junction.

The Engineer reported that under authority previously granted to him, he has removed a reduced load limit on the O'Neil Secondary Highway between M.P. 9.20 and M.P. 17.81, effective 8:00 a.m., April 1, 1957. The Commission accepted his report.

Commissioner Reynolds brought up for discussion a letter from Mr. Norbet L. Sieg, Baker, Oregon, alleging that a dangerous condition exists along US 30 between Haines and Baker by reason of trees on the right of way. It seems that several people have been killed as a result of driving off the highway and hitting the trees. The Engineer was instructed to investigate the matter.

The Commission discussed with the Engineer bids received at the morning session and at 3:00 p.m. Commissioner McIver announced award of contracts as follows:

"Grading and paving on "M" Street in Philomath, Benton County. The Commission awarded the contract to the low bidder, Corvallis Sand & Gravel Co., Corvallis, at $12,942.

"Grading and pipe culvert installation on the Mill Creek Section of the Oregon Coast Highway in Seaside, Clatsop County. The Commission awarded the contract to the low bidder, James G. Robertson, Clackamas, at $23,742.40.

"Grading, stone base and paving on the Gold Beach-Hunter Creek Section of the Oregon Coast Highway in Curry County. The Commission elects to accept the bid of the low bidder, The Central Heating Co., Ore. Ltd., Eugene, in the sum of $223,055.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Oiling on the Condon-Kinzua Junction project on the John Day and Wasco-Heppner Highways in Gilliam and Wheeler Counties. The Commission has awarded the contract to the low bidder, Russell Olson Construction Co., Inc., Pendleton, at $23,699.50.

"Construct six concrete deck girder structures on the Jumpoff Joe Creek-Louse Creek Section of the Pacific Highway in Josephine County. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Co., Reedsport, at $286,592.00.

"Construct Coast Fork Relief Bridge on the Willamette Highway in Lane County. The Commission awarded the contract to the low bidder, Hamilton & Thoms, Eugene, at $23,982.00.

"Construct Silver Falls Chapel in the North Silver Creek Youth Camp Area of Silver Falls State Park in Marion County. The Commission awarded the contract to the low bidder, C. A. Lantz, Salem, at $12,995.00.

"Construct latrine at Blue Star Roadside Rest Area on the Pacific Highway East, near Gervais, Marion County. The Commission awarded the contract to the low bidder, V. L. Reinecke, Woodburn, at $5,270.00.

"Construct latrine at Champoeg State Park, Marion County. The Commission awarded the contract to the low bidder, Standard Construction Co., Inc., Portland, at $5,225.00.

"Grading on the North Jefferson Junction-S.P.R.R. Overcrossing Section of the Pacific Highway East in Marion and Linn Counties. The Commission elects to accept the bid of the low bidder, Roy L. Houck & Sons, Salem, in the sum of $605,067.40, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and stone base on the West Unit, Airlie-Suver Section of the Burns Corner-Suver Road in Polk County. The Commission elects to accept the bid of the low bidder, D. F. McKenzie, Salem, in the sum of $87,396.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Polk County is received and the sum of $19,700.00 is deposited by the County.

"Construct concrete bridges over the 3rd and 4th crossings of the Wilson River on the Wilson River Highway in Tillamook County. The Commission awarded the contract to the low bidder, George E. Berry, Beaverton, at $104,618.00.

"Paving on DuPont Street in the town of Echo, Umatilla County. The Commission awarded the contract to the low bidder, Russell Olson Construction Co., Inc., Pendleton, at $6,616.00.

"Construct Ochoco Sand Shed, east of Prineville in Wheeler County. The Commission awarded the contract to the low bidder, A. E. FitzGerald Construction Co., Klamath Falls, at $9,740.00.

There being no further business to come before the Commission, the meeting was declared adjourned by Chairman Chandler at 3:10 p. m.

EXHIBITS "A" through "J"

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

MARCH 28 and 29, 1957

EXHIBIT "A"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION - PORTLAND - SALEM EXPRESSWAY

22722 Chapman, Fred R. and Ina C. (Grant)
Right of Way
Option expires September 7, 1957

3,800 sq. ft. at $0.20 per sq. ft.	$ 760.00
Damage	355.00
Amount to be paid owners - chrg to Right of Way	$1,115.00

Access controlled - none allowed -

28048

EXHIBIT "A" (Cont)

WEST UNIT, SANDY-FOREST BOUNDARY SECTION - MT HOOD HIGHWAY

25547 Zaugg, Marie (Stuntz)
Right of Way
Option expires July 30, 1957

0.21 acre	$ 500.00
Service station	1,000.00
Damage	2,000.00

Amount to be paid owner - chrg to Right of Way $3,500.00

THINGS TO BE DONE BY THE STATE

Construct parking area between Stas. 162+30 and 163+40, and a 20' wide road from area to Sta. 165+25, Estimated cost	2,310.00
Pay H. L. Robinson Co. for removing neon sign	62.50
TOTAL COST (Estimate)	$2,372.50

Construct approaches at Stas. 160+90, 162+75 and 165+25.
Access: 160+90, S., private residential, 162+75, S., operation of existing tavern activity and 165+25, S., unrestricted.

Access controlled -

Kirby, Mervil D. and Clara L. (Stuntz)
Right of Way
Quitclaim Deed signed February 7, 1957

Quitclaim of lease, 0.21 A. (Part of Zaugg property) $10.00

Amount to be paid Kirby, chrg to Right of Way $10.00

Access controlled -

Fernandez, Tony and Marjorie (Stuntz)
Right of Way
Quitclaim Deed signed March 7, 1957

Quitclaim to 0.005 acre (Private roadway on 25547) $10.00

Amount to be paid Fernandez - chrg to Right of Way $10.00

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land on the Northbound Route in Ashland Section of the Pacific Highway described as follows:

A parcel of land lying in Lots 28, 29 and 30, Block "O", Railroad Addition to Ashland, Jackson County, Oregon, the said parcel being described as follows:

Beginning at the Northeasterly corner of said Lot 30, thence Southerly along the Easterly line of said Block "O" a distance of 72 ft.; more or less, to a line which is parallel to and 30 ft. Northeasterly of the center line of Northbound Route in Ashland of the Pacific Highway; thence Northwesterly along said parallel line 103 ft., more or less to the Northerly line of said Lot 30, thence Easterly along said Northerly line 73 ft. to the place of beginning.

The center line herein referred to being described as follows: Beginning at Engineer's center line Station 26+77.96, said station being 60 ft. North and 147.2 ft. West of the Monument at the intersection of Second and "C" Streets; thence on a 716.2 foot radius curve right (The long chord of which bears S 47° 24' E) 470 ft.; thence S 28° 36' E 652.34 ft to Station 38+00.3.

The parcel of land to which this description applies contains 0.06 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of property shall be subject to a 5 ft slope easement.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 41 be entered in the minutes and records of the Commission as of the 28th day of March, 1957.

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of the parcel of land on the Northbound Route in Ashland Section of the Pacific Highway described as follows:

A parcel of land lying in Block "O" Railroad Addition to Ashland, Jackson County, Oregon, the said parcel being described as follows:

Beginning at the Northeasterly Corner of Lot 1 said Block "O", thence Southwesterly along the Northwesterly line of a 16 foot alley bordering the Southeasterly lines of Lots 1, 2 and 3 said Block "O" a distance of 53 ft., more or less, to a line which is parallel to and 30 ft. Northeasterly of the center line of the Northbound Route in Ashland of the Pacific Highway; thence Northwesterly along said parallel line 103 ft., more or less to the Northeasterly line of said Lot 1; thence Southeasterly along said Northeasterly line 88 ft.; more or less, to the place of beginning.

The center line herein referred to being described as follows: Beginning at Engineer's center line Station 26+77.96, said station being 60 ft. North and 147.2 ft. West of the monument at the intersection of Second and "C" Streets; thence on a 716.2 foot radius curve right (the long chord of which bears S 47° 24' E) 470 ft. to Station 31+47.96.

The parcel of land to which this description applies contains 0.05 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes,

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,200.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of property shall be subject to a 5 ft. slope easement.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 42 be entered in the minutes and records of the Commission as of the 28th day of March 1957.

28078

EXHIBIT "C"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the relocated Yellow Creek Section of the Powers Secondary Highway No. 242 located in Coos County, the northerly terminus of which is at Highway Engineer's Survey Station 574+50 and the southerly terminus of which is at Highway Engineer's Survey Station 598+12.30 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, pursuant to ORS 366.300 portions of the former right-of-way which are no longer needed for right-of-way purposes, may be eliminated from the boundaries of the relocated highway and may revert to the abutting property owners; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the former right-of-way of the said highway referred to herein as Unit "A" as well as all the property affected by reason of said realignment.

NOW, THEREFORE, based upon the power and authority vested in the Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED that:

1. The portion of the former right-of-way which by reason of the relocation of the Yellow Creek Section of the Powers Highway is no longer needed as part of the new right-of-way, is identified as Unit "A" and described as follows:

Unit "A"

All the land situated within the right-of-way boundaries of the Powers Highway as formerly routed, beginning at the southerly right-of-way line opposite Highway Engineer's Survey Station 576+65 of said highway as relocated in Lot 1, Section 23, Township 30 South, Range 12 West, W.M.; thence southerly via said highway as formerly routed to the westerly right-of-way line opposite Highway Engineer's Survey Station 592+15 of said highway as relocated in Lot 6, Section 26, Township 30 South, Range 12 West, W.M.

2. Pursuant to ORS 366.30, Unit "A", indicated on the map attached hereto marked Exhibit "A", colored in brown thereon and by this reference made a part hereof, is hereby duly abandoned as part

EXHIBIT "C" (Cont)

of the Powers Highway and the state highway system; and all right, title and interest which the State has in the right-of-way of Unit "A" herein described, pass to and vest in the abutting property owners.*

3. The right-of-way of the former and of the relocated Yellow Creek Section of the Powers Highway, together with the real property acquired by the State for roadway right-of-way and other public purposes, as indicated on Exhibit "A" attached hereto colored in green thereon, shall be retained and held by the State.*

This Abandonment and Retention Resolution No. 328, be entered in the minutes and records of the Oregon State Highway Commission as of the 28th day of March, 1957, and the Secretary is ordered to mail a duly certified copy hereof to the County Court of Coos County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 328 under the heading "Abandonment and Retention Resolutions", and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "D"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4186 with F. L. Somers and George R. Stacy Co. for grading on the Coast Fork Willamette River-Divide Unit, Goshen-Divide Section of the Pacific Highway in Lane County, completed October 19, 1956.

"Contract No. 4497 with C. R. O'Neil for grading on the Louse Creek-Grants Pass (Merlin Hill) Section of the Pacific Highway in Josephine County, completed November 17, 1956.

"Contract No. 4564 with Tom Lillebo for constructing Illinois River Bridge on the Redwood Highway in Josephine County, completed February 22, 1957.

"Contract No. 4591 with T. W. Thomas for grading and paving on the Helman St. -3rd St. (Ashland) Section of the Pacific (Northbound Lanes) Highway in Jackson County, completed December 6, 1956.

"Contract No. 4597 with Babler Bros., Inc. for oiling on the South Unit, Lapine-Silver Lake Section of the Fremont Highway in Klamath and Lake Counties, completed November 12, 1956.

"Contract No. 4623 with R & M Construction Co. for constructing the Applegate River Bridge on the Applegate County Road in Jackson County, completed February 16, 1957.

"Contract No. 4769 with W. R. Grasle Company for constructing the East Burnside Intersection signals and illumination on the Mt. Hood Highway in Multnomah County, completed March 5, 1957.

"Contract No. 4774 with United Builders, Inc. for constructing the Champoeg Creek Bridge on the Newberg-Yergens Corner County Road in Marion County, completed March 4, 1957.

"Contract No. 4796 with United Builders, Inc., for widening 12th Street Bridge, Salem, on the North Santiam Highway in Marion County, completed February 28, 1957.

"Contract No. 4805 with Johnston & Bryant for constructing the Clear Lake Bridge on the Clear Lake County Road in Marion County, completed March 4, 1957.

EXHIBIT "D" (Cont)

"Contract No. 4816 with Erwin E. Batterman for constructing Salem storage building at the Salem Shops, Marion County, completed February 27, 1957.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 60 shall be entered in the minutes and records of the Commission as of the 28th day of March, 1957.

EXHIBIT "E-1"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Jefferson Secondary Highway

Highway number 164 Route number none

---

45 miles per hour from M.P. 4.74 to M.P. 5.18 (400 ft. north of road to Talbot to north city limits of Jefferson) except that from M.P. 4.81 to M.P. 4.96 (50 ft. north of the road to Talbot and a point 0.14 mile south of the road to Talbot) the indicated speed shall be 20 miles per hour during the hours of school crossings.

BE IT FURTHER ORDERED that the State Highway Engineer be and he

EXHIBIT "E-1" (Cont)

hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 247 be entered in the minutes and records of the Commission as of the 28th day of March, 1957.

28084

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Beaverton-Tualatin Secondary Highway

Highway number 141 Route number ORE 217

---

30 miles per hour from M.P. 0.78 (S. city limits of Beaverton) to M.P. 0.89, (a point 0.11 mile south of the south city limits)

45 miles per hour from M.P. 0.89 to M.P. 3.67 (200 feet north of Washington Avenue)

40 miles per hour from M.P. 3.67 to M.P. 4.92 (Jct. with Pacific Highway West) except that from M.P. 3.94 to M.P. 4.14 (0.11 mile north of Locust Street to 500 feet south of Locust Street) the indicated speed shall be 20 miles per hour during the hours of school crossings.

EXHIBIT "E-2" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect so speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 248 be entered in the minutes and records of the Commission as of the 28th day of March, 1957.

28086

EXHIBIT "F-1"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the Pacific Highway East is a primary highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that in the vicinity of the Cherry City Bowling Alley, a short distance south of Salem, vehicles are parked on both shoulders of said highway; and

WHEREAS, the parking of vehicles on the shoulders of said highway at said location creates a hazard to the traveling public by restricting sight distance and by allowing insufficient room on the highway for maneuvering; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on both shoulders of said highway at said location.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on both shoulders of the Pacific Highway East, between a point 500 feet north of the Cherry City Bowl, (Engineer's Station 119+08) and a point 300 feet south of the Cherry City Bowl, (Engineer's Station 127+08) creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on both sides of said Pacific Highway East should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein dedared, on which signs shall be printed in plain letters, the words, "NO PARKING ON HIGHWAY SHOULDERS."

EXHIBIT "F-1" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 159 be entered in the minutes and records of the State Highway Commission as of the 28th day of March, 1957.

28088

EXHIBIT "F-2"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the Oregon Coast Highway is a primary highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that in the vicinity of the log dump operated by the Long Bell Lumber Company Division of the International Paper Company, south of the town of Gardiner, vehicles are parked on both shoulders of said Oregon Coast Highway; and

WHEREAS, the parking of vehicles on said highway section creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on both sides of said highway within said section;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on both sides of the Oregon Coast Highway immediately south of Gardiner between Engineer's Station 619+00 (M.P. 209.97) and Engineer's Station 631+00 (M.P. 209.74) creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on both sides of said Oregon Coast Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING ON HIGHWAY SHOULDERS."

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

EXHIBIT "F-2" (Cont)

6. That this "No Parking" Resolution No. 160 be entered in the minutes and records of the State Highway Commission as of the 29th day of March, 1957.

28090

EXHIBIT "G-1"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of:

1. The Butte Creek Summit Section of the John Day Highway in Wheeler County;

2. The Upper Beech Creek-Forest Boundary Section of the Pendleton-John Day Highway in Grant County;

3. The Pioneer Summit Unit of the Toledo-Eddyville Section of the Corvallis-Newport Highway in Lincoln County;

and in connection therewith to prepare maps showing the route and location of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

(1a.) That the survey of the Butte Creek Summit Section of the John Day Highway, beginning at Highway Engineer's Station 745+00, about six miles south of Fossil, and extending in a southeasterly direction to Highway Engineer's Station 1000+00, east of Shelton State Park, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-968 and the date of March, 1957 (R/W Map No. 8B-4-11, dated January, 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

(1b.) That the survey of the Upper Beech Creek-Forest Boundary Section of the Pendleton-John Day Highway, beginning at Highway Engineer's Station 129+94.66 and extending in a southerly direction to Highway Engineer's Station 6+17.63, about one half mile south of the Forest Boundary, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-983 and the date of February, 1957 (R/W Map No. 8B-4-19, dated

EXHIBIT "G-1" (Cont.)

February, 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

(1c.) That the survey of the Pioneer Summit Unit of the Toledo-Eddyville Section of the Corvallis-Newport Highway, beginning at Highway Engineer's Station 400+00 west of Pioneer Mountain and extending in a northeasterly direction to Highway Engineer's Station 630+00, east of Pioneer Mountain, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-988 and the date of March, 1957 (R/W Map No. 8B-2-11, dated March, 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highways along and over these surveys. This approval and adoption shall also constitute the authority for the Legal and Right of Way Department to proceed promptly with the acquisition of the necessary right of way pursuant to the normal and approved method for the construction of limited access controlled highways.

4. That this resolution be entered in the minutes and records of the Commission as of the 28th day of March, 1957, as Survey Resolution No. 151.

28092

EXHIBIT "G-2"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of:

1. The Grants Pass (6th and 7th Streets) Section of the Pacific Highway in Josephine County;

2. The Conner Creek Section of the Oregon Coast Highway in Coos County;

and in connection therewith to prepare maps showing the route and location of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

(1a.) That the survey of the Grants Pass (6th and 7th Streets) Section of the Pacific Highway, beginning at Highway Engineer's Station 1197+00, near the northerly city limits of Grants Pass and extending in a southerly direction, along 6th Street and 7th Street as a one way couplet, to Highway Engineer's Station 1338+75, just north of the Rogue River, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-973 and the date of February, 1957 (Right of Way Map No. 8B-4-13, dated February, 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

(1b.) That the survey of the Conner Creek Section of the Oregon Coast Highway, beginning at Highway Engineer's Station 470+00 north of Conner Creek and extending in a southerly direction to Highway Engineer's Station 485+00, south of Conner Creek, together with the map which for identification purposes bears Sketch Map File No. 1R-5-995 and the date of March, 1957 (Right of Way Map No. 8B-4-25, dated March, 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same

EXHIBIT "G-2" (Cont.)

in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highways along and over said surveys. This approval and adoption shall also constitute the authority for the Legal and Right of Way Department to proceed promptly with the acquisition of the necessary right of way pursuant to the normal and approved method for the construction of limited access controlled highways.

4. That heretofore this Commission by resolution dated November 3, 1948, and by resolution dated February 17, 1953, designated the said Pacific Highway and the said Oregon Coast Highway as "Throughways" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above-mentioned sections of highways shall be accomplished pursuant to and within the meaning and scope of the said law and the said resolutions.

5. That this resolution be entered in the minutes and records of the Commission as of the 28th day of March, 1957, as Survey Resolution No. 150.

28094

EXHIBIT "G-3"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of (1) the Ontario-Snake River Section of the Old Oregon Trail Highway in Malheur County and (2) the Huntington South Junction-Olds Ferry Section of the Old Oregon Trail Highway in Malheur County, and in connection therewith to prepare maps showing the route and location of said sections and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

(1a.) That the survey of the Ontario-Snake River Section of the Old Oregon Trail Highway, beginning at Highway Engineer's Station 1297+04.42 at its junction with the existing US Highway 30 east of Ontario, and extending in a southerly direction to Highway Engineer's station 1364+00 at the Idaho state line in the middle of the Snake River, together with the map which for identification purposes bears Sketch Map file No. 1R-5-980 and the date of February 1957 (Right of Way map No. 7B-33-7, dated June 1955), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

(1b.) That the survey of the Huntington South Junction-Olds Ferry Section of the Old Oregon Trail Highway beginning at M.P. 387.6 and extending in a southeasterly direction to M.P. 390.9 at the Olds Ferry Interchange, together with the map which for identification purposes bears Sketch Map file No. 1R-5-997 and the date of March 1957 (Right of Way map No. 8B-4-20, dated March 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2 That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

EXHIBIT "G-3" (Cont.)

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute the authority for the Legal and Right of Way Department to proceed promptly with the acquisition of the necessary right of way pursuant to the normal and approved method for the construction of a complete access controlled highway.

4. That heretofore this Commission by resolution dated November 3, 1948, designated the said Old Oregon Trail Highway as a "throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned sections of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 28th day of March, 1957, as Survey Resolution No. 152.

28096

EXHIBIT "G-4"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Huntington-Dead Ox Flat Section of the Olds Ferry-Ontario Highway in Malheur County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. That the survey of the Huntington-Dead Ox Flat Section of the Olds Ferry-Ontario Highway, beginning at M.P. 390.9 at the Olds Ferry Interchange and extending in a southerly and easterly direction to M.P. 394.0 at Dead Ox Flat, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-998 and the date of March 1957 (Right-of-Way Map No. 3B-3-5 and 4B-13-2), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a non-access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 28th day of March, 1957, as Survey Resolution No. 156.

28097

EXHIBIT "G-5"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Huntington-Dead Ox Flat Section of the Old Oregon Trail Highway in Baker and Malheur Counties and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Huntington-Dead Ox Flat Section of the Old Oregon Trail Highway, beginning at M.P. 386.8 approximately one-half mile north of the Malheur County line and extending in a southerly direction to M.P. 387.6 at the Huntington South Junction with the new route of the Old Oregon Trail Highway, together with the map which for identification purposes bears Sketch Map File No. 1R-5-998, and the date of March 1957, (Right-of-way Map No 3B-3-5 and 4B-13-2), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a non-access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 28th day of March, 1957, as Survey Resolution No. 157.

28098

EXHIBIT "H"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, on November 13, 1931, the Oregon State Highway Commission selected and designated, and on November 4, 1948 revised, a secondary state highway described as follows:

> Beginning at the junction of Combs Flat County Road with the Ochoco State Highway No. 41 east of the city limits of Prineville, thence southeasterly via the Combs Flat County Road and easterly via the Crooked River Market Road No. 6 to Paulina,

which said county roads, on their selection and designation as a secondary highway, were thereafter identified in the records of the Highway Commission as the Paulina Secondary State Highway No. 380 in Crook County; and

WHEREAS, the County Court of Crook County has petitioned the State Highway Commission to extend the Paulina Secondary State Highway No. 380 in Crook County; and

WHEREAS, ORS 366.290 authorizes the Highway Commission to select, establish, and designate a system of secondary state highways within the state;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission that:

1. The following described portion of the Paulina-Suplee County Road No. 715 shall be designated as a part of the Paulina Secondary State Highway No. 380, to wit:

> Beginning at the intersection of the existing Paulina Secondary State Highway at Paulina; thence easterly along the said Paulina-Suplee County Road to the easterly end of the Beaver Creek Bridge, a distance of approximately 0.3 mile, as shown in yellow on the attached Exhibit "A" which by this reference is made a part hereof. *

2. This resolution be entered in the minutes and records of the Highway Commission this 28th day of March, 1957, as Secondary Highway Resolution No. 39, and the Secretary is directed to mail a duly

EXHIBIT "H" (Cont)

certified copy thereof to the County Court of Crook County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 39 under the heading "Secondary Highway Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

28100

EXHIBIT "I"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, the State Highway Commission has relocated a section of the Oregon Coast Highway No. 9 (U.S. 101) in Coos County which relocation is known as the Davis Slough-Bandon Section; and

WHEREAS, by said relocation and when the Davis Slough-Bandon Section has been constructed and opened to travel, it will be made possible to remove certain portions of the old Oregon Coast Highway from the route of the Oregon Coast Highway; and

WHEREAS, the redesignation of those portions of the old route of the Oregon Coast Highway eliminated by the said relocation (in the manner hereafter set forth) as a secondary state highway and as an extension of a primary state highway is in the best interests of the people of the State of Oregon and the motoring public;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the present old route of the Oregon Coast Highway No. 9 (U.S. 101) from the point where said highway is intersected by the Coos Bay-Roseburg Highway No. 35 in Coquille to its intersection with the relocated Oregon Coast Highway near Coos Bay at or near Mile Post 244.44 of said relocated Oregon Coast Highway is redesignated as an extension of the Coos Bay-Roseburg Highway. Said Coos Bay-Roseburg Highway shall retain its present designation and classification as a primary state highway, its route and termini being hereafter described as follows:

> From a junction with the Oregon Coast Highway near Coos Bay, easterly via Coquille, Myrtle Point, and Camas Valley to a junction with the Pacific Highway in Winston.

That portion of the old route of the Oregon Coast Highway redesignated as a part of the Coos Bay-Roseburg Highway is shown colored in purple on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof. *

2. That the present old route of the Oregon Coast Highway No. 9 (U.S. 101) from the point where said highway is intersected by the Coos Bay-Roseburg Highway No. 35 in Coquille to its intersection with the relocated Oregon Coast Highway near Bandon at or near Mile Post 265.61 of said relocated Oregon Coast Highway is redesignated as the Coquille-Bandon Secondary State Highway No. 244, to be hereafter classified as a secondary state highway of the state highway system, its route and

EXHIBIT "I" (Cont)

termini being described as follows:

> Beginning at a junction with the Oregon Coast Highway No. 9 near Bandon, thence northeasterly via Bandon and Riverton to a junction with the Coos Bay-Roseburg Highway in Coquille, a distance of approximately 21.32 miles.

That portion of the old route of the Oregon Coast Highway redesignated as the Coquille-Bandon Secondary State Highway is shown colored in yellow on Exhibit "A" attached hereto.*

3. That this resolution shall not become effective until the proposed construction on the Davis Slough-Bandon Section of the relocated Oregon Coast Highway has been completed and opened to state highway traffic.

4. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Primary Highway Resolution No. 21, and the Secretary is hereby ordered to send a duly certified copy hereof to the Coos County Court.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem being filed under File No. 21 under the Heading "Primary Highway Resolutions", and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

28102

EXHIBIT "J-1"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East, and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for

the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 755.

---

* FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 755, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-2"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for

28106

EXHIBIT "J-2" (Cont)

the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel

EXHIBIT "J-2" (Cont)

is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 756.

---

* FOOTNOTE:

28108

EXHIBIT "J-3"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Hinsdale Slough-Luder Creek Section of the Umpqua Highway; ;and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system and the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "J-3" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Umpqua Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 757.

FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 757, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28110

EXHIBIT "J-4"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobsructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real

EXHIBIT "J-4" (Cont)

properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his

judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 758.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 758, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28113

EXHIBIT "J-5"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for

the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "J-5" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 759.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 759, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28116

EXHIBIT "J-6"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; weighing stations; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part

EXHIBIT "J-6" (Cont)

of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening, construction, improvement and maintenance of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 760.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 760, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-7"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of road-building materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "J-7" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 761.

---

* FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 761, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-8"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the highway Commission plans and proposes to widen, improve and maintain the Sunset Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known the Throughway Law, and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary; and that access to and from the said highway should be controlled;

28122

EXHIBIT "J-8" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Sunset Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Sunset Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the widening, improvement and maintenance of the said Sunset Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and

records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 762.

---

* FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 762, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28124

EXHIBIT "J-9"

Minutes of March 28 and 29, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, weighing stations; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the North Santiam Highway, and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said North Santiam Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "J-9" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the widened and improved North Santiam Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A".*

3. That the widening, improvement and maintenance of the said North Santiam Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons ininterest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels or real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 763.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 763, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28126

EXHIBIT "J-10"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road, or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek - Canyonville Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which is

EXHIBIT "J-10" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the relocation, construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit A under the name of the record owner or reputed owner, and the Commission's respective file number; and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest; and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said

parcels of real property as to the compensation to be paid for the taking; and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 764.

---

* FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 764, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-11"

Minutes of March 28 and 29, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part and relocate in part, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part and relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening in part and relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment

EXHIBIT "J-11" (Cont)

of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part and relocation in part, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening in part and relocation in part, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in

his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 765.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 765, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28132

EXHIBIT "J-12"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and

made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the widened and improved Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the widening, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 766.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 766, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28134

EXHIBIT "J-13"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the

EXHIBIT "J-13" (Cont)

said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his

judgment may be for the best interests of the State of Oregon

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 767.

EXHIBIT "J-14"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of access, deemed by the Highway Commission necessary for highway purposes, to wit: Rights of way, either for the original location or the widening, straightening or otherwise changing of any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; the elimination or prevention of hazardous points of entry from adjacent property to state highways; or the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Pacific Highway West and the Denver Avenue-Union Avenue intersection of the Pacific Highway West and the Pacific Highway East, and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Pacific Highway West and the Denver Avenue-Union Avenue intersection of the Pacific Highway West and the Pacific Highway East, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, or which in the best interests of the State and the owners should be acquired, and the specific use to be made thereof, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner; and the Commission's respective file number and said Exhibit "A" is by this reference adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway West and the Denver Avenue-Union Avenue intersection of the Pacific Highway West and the Pacific Highway East and all of the contiguous real property of the

respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening, construction, improvement and maintenance of the said Pacific Highway West and the Denver Avenue-Union Avenue intersection of the Pacific Highway West and the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking; and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein,

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 768.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 768, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-15"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous or undesirable points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, reconstruct, improve and maintain the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be relocated, construct, reconstructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutues, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of relocating, constructing, reconstructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access

EXHIBIT "J-15"(Cont)

to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required for right of way purposes for the construction, reconstruction, improvement and maintenance of the Columbia River Highway as a throughway, including its use for the construction, reconstruction, improvement and maintenance of frontage roads and a traffic interchange, which traffic interchange, with a connecting road to be constructed by the State Highway Commission, will connect the said Columbia River Highway and the Crown Point Secondary Highway, the following described real property, to wit:

File No. R-2584 (R-24183)

Owners: Paul R. Martin, et ux.

Parcel No. 1:

A parcel of land lying in Lot 1 of Section 25, Township 1 North, Range 3 East, W. M., Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of that tract conveyed to Paul Martin and Verla Martin by deed recorded in Book 1523, Page 418 of Multnomah County Deed Records, said corner being 686 feet West and 191.52 feet North 0° 07' East from the Southeast corner of said Lot 1; thence North 84° 17' West parallel to and 200 feet northerly from the relocated center line of the Columbia River Highway, 228.9 feet to a point opposite Station 521+50 on said relocated highway center line; thence North 62° 01' 36" East 180.28 feet to a point opposite and 300 feet northerly of Station 523+00 on said center line; thence North 87° 35' 12" East 65.4 feet to the West line of said Martin tract; thence South along said West line 110 feet to the point of beginning.

The parcel of land to which this description applies contains 0.22 acre.

Parcel No. 2:

A parcel of land lying in the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 25, Township 1 North, Range 3 East, W.M., Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of said Northeast quarter (NE¼) of the Northeast quarter (NE¼) thence North 40°40' East 153 5 feet; thence North 3.72 feet to the Southeast corner of that tract conveyed to Paul Martin and Verla Martin by deed recorded

in Book 1523, Page 418 of Multnomah County Deed Records, said corner being the true point of beginning of the parcel herein described; thence South 84° 17' East parallel to and 200 feet northerly from the relocated center line of the Columbia River Highway 535.1 feet to a point opposite Station 537+00 on said relocated highway center line; thence North 62°28' 55" West 538.52 feet to a point opposite and 400 feet northerly from Engineer's centerline Station 532+00; thence North 84° 17' West parallel to and 400 feet northerly from said relocated highway center line 55.1 feet to the East line of said Martin tract; thence South along said East line 201 feet to the point of beginning.

The parcel of land to which this description applies contains 1.4 acres.

2. That it is necessary to acquire and remove all of that certain farm structure located partially upon the real property hereinabove described as Parcel No. 2 and partially upon the owners' remaining real property approximately opposite Highway Engineer's centerline Station 534+00 and northerly of the said Columbia River Highway, and in connection therewith, it is necessary to acquire a right of entry to go upon the owners' remaining real property contiguous to the real property hereinabove described for the purpose of removing, dismantling or otherwise disposing of said structure.

3. That it is necessary that there shall be no rights of access of any nature between the right of way of the Columbia River Highway and all real property of the owners easterly of the Sandy River in Section 25, Township 1 North, Range 3 East, Willamette Meridian, and Sections 29 and 30, Township 1 North, Range 4 East, Willamette Meridian, Multnomah County, Oregon, abutting on the said Columbia River Highway remaining after the appropriation of the above-described real property; provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, the following:

Rights of access to a frontage road to be constructed by the State Highway Commission upon the right of way of the Columbia River Highway on the northerly side of the main-traveled way thereof between approximately Engineer's Station 531+50 and Engineer's Station 537+00 at all places thereon easterly of Engineer's Station 532+00. Also rights of access to a connecting leg of an interchange to be constructed by the State Highway Commission upon the right of way of the Columbia River Highway on the northerly side of the main-traveled way thereof at any place thereon between Engineer's Station 521+50 and Engineer's Station 529+00, which said frontage road and connecting leg shall be connected with the main-traveled way approximately opposite Highway Engineer's centerline Station 530+00 for traffic to travel westbound upon the highway.

EXHIBIT "J-15" (Cont)

4. That the construction, reconstruction, improvement and maintenance of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination the existing action under an amended complaint or by dismissal thereof and such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

7. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 769.

28143

EXHIBIT "J-16"

Minutes of March 28 and 29, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Sunset Bay State Park has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Sunset Bay State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development, and maintenance of the Sunset Bay State Park fee simple title to a parcel of real property located in Coos County, Oregon, and described as follows, to wit:

File No. R-26355 - George J. Landrith

A parcel of land lying in the South half of the Northwest quarter ($S\frac{1}{2}$ $NW\frac{1}{4}$) of Section 9, Township 26 South, Range 14 West, W.M., in Coos County, Oregon, more particularly described as follows:

EXHIBIT "J-16" (Cont)

Beginning at a point in the West line of the Southeast quarter of the Northwest quarter ($SE\frac{1}{4}$ $NW\frac{1}{4}$) of said Section 9, said point being 156.2 feet North and 1315.8 feet East from the West quarter corner of said Section 9; thence North 1° 03' West a distance of 123.0 feet along the said West line of the Southeast quarter of the Northwest quarter ($SE\frac{1}{4}$ $NW\frac{1}{4}$) of Section 9; thence West a distance of 100.0 feet to the Easterly right of way line of the Cape Arago Highway; thence Northerly along the said right of way line on the arc of a 316.5 foot radius curve left (the long chord of which bears North 15° 39' West, 369.8 feet) a distance of 394.9 feet; thence North 66° 43' East a distance of 744.0 feet; thence East a distance of 100.0 feet; thence South 62° 30' East a distance of 200 feet; thence East a distance of 260.0 feet; thence South 16° 15' East a distance of 220.0 feet; thence South 1° 25' East a distance of 550.0 feet; thence South 24° 02' East a distance of 125.6 feet; thence North 89° 06' West a distance of 375.0 feet; thence North 5°44' West a distance of 252.3 feet; thence North 45° 10' West a distance of 193.0 feet; thence North 79° 53' West a distance of 58.6 feet; thence South 89° 15' West a distance of 160.0 feet; thence South 80° 10' West a distance of 120.0 feet; thence South 55° 05' West a distance of 100.0 feet; thence South 25° 05' West a distance of 146.0 feet; thence South 66° 25' West a distance of 96.0 feet; thence North 43° 44' West a distance of 58.2 feet to the point of beginning, containing 17.4 acres, more or less.

2. That the above-described real property and the park and recreational purposes for which it is being acquired is necessary for the convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

3. That the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed, and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission,

is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 28th day of March, 1957, as Condemnation Resolution No. 773.

Salem, Oregon
April 18, 1957

A special meeting of the Oregon State Highway Commission was held at 11:00 a.m. in the Conference Room, Room 418 of the State Highway Building in Salem, Oregon. Present were:

Chas H. Reynolds, Commissioner (Acting Chairman)
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
H. B. Glaisyer, Commission Secretary

Also present were:

Hon. Robert D. Holmes, Governor of Oregon
Harry R. Swanson, Administrative Assistant to Governor Holmes
Thomas G. Wright, Administrative Assistant to Governor Holmes
Mrs. Robert D. Holmes
Mrs. Chas. H. Reynolds
Mrs. M. K. McIver

Commissioner Reynolds called the meeting to order and explained that the purpose of the meeting is to formally install Mr. Robert B. Chessman as Highway Commissioner, replacing Mr. Ben R. Chandler, who has retired after 10½ years as a member of the Commission. He pointed out briefly that Mr. Chessman, son of the late Merle R. Chessman, at the age of 36, is the youngest man to serve as a Highway Commissioner and that he also is the only man to serve on the Highway Commission whose father served before him. The Commission, he continued, has asked the Secretary, Mr. H. B. Glaisyer, who has served 38 years with the State Highway Commission, to administer the oath of office to the new Commissioner.

Mr. Glaisyer commented briefly that the approximate 140 persons present are State Highway employees and that many of them were employees of the Highway Department when Mr. Chessman's father was Commissioner. He expressed his pleasure in being chosen to administer the oath of office to Mr. Chessman. In behalf of the employees he extended a welcome to Mr. Chessman and thereupon administered the following oath of office: "I, Robert B. Chessman, do solemnly swear that I will support the Constitution of the United States, the Constitution of the State of Oregon, and the laws thereof, and that I will faithfully discharge the duties of State Highway Commissioner of the State of Oregon according to the best of my ability, so help me God." Mr. Glaisyer then personally congratulated Mr. Chessman on his appointment.

Commissioner Reynolds then stated that the Commission has one other item of business to transact, that being the election of a Chairman. Commissioner McIver nominated Mr. Reynolds for such office. Commissioner Chessman seconded the nomination and Commissioner Reynolds

was thereupon declared elected as Chairman of the Highway Commission.

Commissioner McIver spoke briefly, congratulating Commissioner Chessman upon his appointment and observing that during the years that he served as a Commissioner he has gained an increasing respect for the employees of the Highway Department.

Commissioner Chessman stated that he is very proud and happy to serve as a member of the Highway Commission which, he said, with its employees, has developed an excellent record. He expressed the hope that he would become acquainted with the members of the Highway Department as time progressed.

Chairman Reynolds expressed appreciation for his election as Chairman. He also stated that he has enjoyed his previous eight years of service as a Commissioner. He then introduced Mrs. Holmes, Mrs. Reynolds, Mrs. McIver, Mr. Swanson and Mr. Wright. He expressed regrets that Mrs. Chessman could not be present because of illness. He expressed the feeling that Mr. Chessman will be a valuable addition to the Commission as with his youth he will bring to the Commission a fresh and vigorous viewpoint.

To his Excellency, Governor Holmes, Chairman Reynolds gave the Commission's pledge that to the best of their ability the Commission will construct and maintain the best highways that are possible with the funds available. The Commission, he stated, will give particular attention to securing the maximum amount of value from each dollar expended. The Commission also will continue to adhere to the policy of past Commissions in that money will be expended equitably over the State without regard to pressure of politically-minded groups.

Chairman Reynolds then introduced His Excellency, Governor Robert D. Holmes, who stated that he has known the Chessman family for over twenty years and he felt that Mr. Robert B. Chessman is an outstanding man and would contribute greatly to the development of highways in Oregon. He also pointed out that as Governor he is well aware that his administration will be judged largely by the caliber of appointments made by himself and that it is very important from the standpoint of the public welfare to appoint people of good character and who are well qualified.

Chairman Reynolds presented Mr. W. C. Williams, State Highway Engineer, who, in turn, introduced Mr. S. H. Probert, Office Engineer, who has been an employee of the State Highway Department since 1913, a period of 44 years, and Miss Helen Ingrey, Secretary to the State Highway Engineer, who first went to work for the State Highway Department in 1916 and has served continuously for a period of 41 years. He then asked all employees in the room who had more than 20 years' service to stand. More than one-half of approximately 140 present arose.

Chairman Reynolds concluded the meeting by thanking Governor Holmes, Mrs. Holmes, and the others for attending.

The meeting formally adjourned at 11:35 a.m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

April 18, 1957

Portland, Oregon
April 19, 1957

The Oregon State Highway Commission met in regular session at 10:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Robert L. May, Jr., Acting Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Chairman Reynolds introduced to those assembled, Mr. Robert B. Chessman, Astoria, newly appointed State Highway Commissioner replacing Mr. Ben R. Chandler, Coos Bay, resigned. He commented briefly that Commissioner Chessman is the youngest man ever to serve on the State Highway Commission and that his appointment is unique in that he is the only man that has had the distinction of serving on the Commission whose father served before him. He also said that the Highway Commission has a large program before them in the years to come and he expressed the hope that the program would be profitable for all. Commissioner Chessman acknowledged the introduction and commented that his first official act today had been to receive a summons from the Multnomah County Sheriff.

The Secretary announced to the group that at a meeting held in Salem the preceding day Mr. Reynolds was elected Chairman of the Highway Commission.

Bids as follows were opened and read aloud by the Secretary, who then announced that the Commission would award contracts in the same room at 3:00 p.m.

CLATSOP COUNTY
MARINE INSURANCE FOR ASTORIA-MEGLER FERRY VESSELS

April 19, 1957

WASHINGTON, CLACKAMAS AND YAMHILL COUNTIES
DIVISION NO. 1 OILING PROJECT ON 4 HIGHWAYS IN THE VICINITY OF NEWBERG, BEAVERTON, TUALATIN, OREGON CITY AND MOLALLA

Horton Const. Co., Portland	$ 95,859.00
Morse Bros., Lebanon	96,306.50
Babler Bros., Inc., Portland	103,147.00
Portland Road & Driveway Co., Portland	104,581.70
J. C. Compton Co., McMinnville	106,843.00
Oregon Asphaltic Paving Co., Portland	109,671.00
Central Paving Co., Independence	110,833.00

WHEELER AND GRANT COUNTIES
FOREST BOUNDARY-JOHN DAY RIVER ROCK PRODUCTION PROJECT ON THE OCHOCO HIGHWAY

Lee F. Philpott, Prineville	$ 28,300.00
Babler Bros., Inc., Portland	30,450.00
Vanaken Sand & Gravel, Forest Grove	30,500.00
C. C. Meisel, McMinnville	31,400.00
Barney Helser Rock Production, Beaverton	33,000.00
Richard Beshey, Parma, Idaho	37,500.00
C. E. Leseberg, Nyssa	44,000.00

The Engineer pointed out that the three bids received for furnishing marine insurance covering the Astoria-Megler Ferries are identical. He suggested in view thereof, that the successful bidder be selected by placing the names of the bidders in a hat, the first name drawn to be declared the winner. The Commission approved the suggestion and instructed the Engineer to invite all of the bidders to be present when the drawing is made later in the day.

The Commission approved the minutes of the meeting held on February 28 and March 1, 1957.

The State Parks Superintendent reported on the following parks matters:

1. Request for permission to conduct concessions in state park areas: The Parks Superintendent reported requests from Mr. Jack Flaucher, Portland, to install a concession at Rooster Rock State Park; from Mrs. Irene Wiggins, Wallowa Lake, for concession privileges at Wallowa Lake State Park; from the Warrenton Junior Chamber of Commerce for concession rights at Fort Stevens State Park; and from the Prineville Junior Chamber of Commerce for the right to operate a concession at Ochoco Lake State Park. Past experience with concession leases, he stated, has not been too good but there does appear to be a growing demand for certain basic needs for the overnight camper and for those who swim. He recommended that these requests be denied at this time but that he be authorized to conduct a thorough study of the problem during the coming summer season to determine the need for such

facilities in state parks. The Commission approved his recommendation.

2. Request of Ben F. Phillips, Cascadia, for permission to install a television antenna in Cascadia State Park: Mr. Phillips, the Parks Superintendent stated, has a home adjoining the state park on the west and is not able to get television reception with an antenna on his own property but he can get reception from a spot south of the entrance to the park. As the installation at that point will not interfere with the use of the park property, he recommended that a temporary antenna installation be approved, together with the construction of a pole line for a fee of $25.00 per year. The Commission approved the installation on such basis.

3. Request of Coos-Curry Electric Cooperative to construct a power line across Cape Sebastian State Park and across the Carpenterville-Brookings Forest Wayside in Curry County: The Parks Superintendent stated that, as instructed at the last Commission meeting, a cruise has been made of the timber that would be destroyed and it was found that 195 MBF of Douglas Fir at $22.00, and 65 MBF of White Fir at $5.00, or a total value of $4,615, would have to be removed from Cape Sebastian State Park. In the Carpenterville-Brookings Forest Wayside it will be necessary to remove 473 MBF of Douglas Fir at $22.00, or a total of $10,406. He recommended that the Cooperative be allowed to construct its power line across both areas, provided it will pay the sum of $15,021 for timber destroyed and will agree to clean up slash and remove any fire hazard that might result, in accordance with the requirements of the State Board of Forestry. The Commission accepted his recommendation.

The Parks Superintendent reported that a letter has been received from Governor Robert D. Holmes concerning complaint filed by Mr. W. F. Badley, owner of a business located on US 101 at Otter Crest, that the State Highway Commission is using the word "Lookout" in the name of the new state park building at Depoe Bay. It appears that Mr. Badley has registered the name "Lookout" in connection with his establishment, and when the building at Depoe Bay was named, the Commission was unaware of the duplication and that a controversy would develop. He recommended that the State building be renamed. As a result of discussion, the Commission instructed the Parks Superintendent to conduct a study for a new name for the building at Depoe Bay which will not conflict with the name of any other establishment along US 101, and to submit a report on the subject as soon as possible. The Commission also ordered a letter sent to Governor Holmes reciting the history of the naming of the building at Depoe Bay.

The Parks Superintendent called attention to an editorial which appeared recently in the "Astorian Budget" pointing out the desirability of including the old Battery Russell as a part of Fort Stevens State Park. It was his opinion that the addition would be a desirable one, but it is now under lease from the Federal Government to the State Game Commission which cannot sublease it. The Commission took the matter under advisement.

Chairman Reynolds called attention to legal summons that were served on the members of the Commission earlier in the day in behalf of Mrs. Moore and concerning the Vista House concession on the old route of the Columbia River Highway. The Acting Chief Counsel explained that the suit does not seek monetary damages but does seek to enjoin the Commission from allowing concession features in the park. The Parks Superintendent observed that the concession privilege operated at the Vista House offers no facilities other than those that are found in the vast majority of state parks in other states. The Commission decided to confirm its decision in the matter and instructed the Acting Chief Counsel to proceed with proper defense.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way or for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a form of "Indenture of Access" granting to Jackson County a new entrance to their fairgrounds located adjacent to the Pacific Highway south of Medford The Right of Way Engineer explained that the County Court wishes to eliminate two 50-foot accesses that are now in use and to substitute a single 80-foot opening. Upon his favorable recommendation, the Commission approved the "Indenture of Access".

Granting of an easement to Mr. & Mrs. L. E. Ziniker to maintain their private roadway on state highway right of way was discussed. The Right of Way Engineer explained that in acquiring property from the Zinikers in September, 1953, the Commission approved construction of a roadway for the Zinikers, the same to be maintained by them. Part of this roadway, he said, is on the state highway right of way and it is the opinion of legal counsel, in order that the Zinikers may legally maintain their private roadway on the highway right of way, that an easement should be granted them to maintain their roadway on state highway property. He explained that this roadway is located on the Goshen-Coast Fork Section of the Pacific Highway in Lane County, near Creswell, specifically in Section 14, Township 19 South, Range 3 West, W. M. Following the Right of Way Engineer's favorable recommendation, the Commission approved the easement.

Attention was given to an option obtained from D D. Hail for property on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County. The Right of Way Engineer advised that the agent in this instance secured the best deal possible from Mr. Hail, but the price of $9,307, in his estimation, is entirely too high and does not reflect the true market value of the property. He, therefore, recommended that the option be formally rejected. The Commission rejected the option.

Payment to the U. S. Bureau of Land Management for 113.19 acres of timber in the Boardman Park in Curry County was discussed. The Right of Way Engineer recalled that at the January meeting the Commission approved payment of $67,863 for the timber lands, based on a cruise made by the U. S. Government. Before making payment, however, a check was made by a state timber appraiser and it was found that the price requested by the government for spruce timber was considerably higher than the market value. The matter was again taken up with the Bureau of Land Management, which has agreed to reduce their price to $57,740. He recommended purchase of the property at such figure. The Commission adopted the recommendation.

The Commission gave attention to a form of "Modification of Judgment and Indenture of Access" covering the J. H. Baxter & Co. property, located on the Wolf Creek Section of the Pacific Highway in Josephine County. The right of Way Engineer explained that a court judgment had reserved a right of access to the relocated Pacific Highway at Engineer's Station 541+00. The access point, however, was actually constructed at Engineer's Station 536+35, and he recommended that the Commission approve the Modification form so that the change can be made a matter of record. The Commission approved the change.

Sale of a parcel of property on the "Q" Street route between Eugene and Springfield was considered. The Right of Way Engineer stated that the Eugene Water and Electric Board wants to purchase this land and has agreed to pay the appraised value for it. The property to be sold, he continued, contains 5.3 acres outside the normal width highway right of way and is not required for highway purposes. He recommended that it be sold to the Eugene Water and Electric Board at the appraised value, which is approximately $8,000.

Inquiry was made by Chairman Reynolds as to the status of right of way acquisition for future lettings, particularly those in the immediate future. The Right of Way Engineer commented briefly on the status of acquisition on a number of projects. The Engineer pointed out that the Department is adhering to the established policy of not advertising projects for bids unless there is a reasonable assurance that right of way can be secured within the time specified in which to award the contracts.

Chairman Reynolds also inquired as to what consideration had been given or what plans have been made concerning the opening of bids for highway projects at the Commission's office in Salem between regular meetings of the Highway Commission in Portland. The Engineer stated that he will report when a reasonable number of projects are ready to be advertised and will request the Commission's permission to receive and open the bids in Salem and then report the results to the Commission for their action at the next regular Commission meeting. Such procedure, he stated, will most likely be necessary in order to place under contract the amount which is budgeted for this year. Commissioner McIver expressed himself as being in favor of this procedure and pointed out that it will be of considerable advantage to the contractors in that they will not have to

figure several large projects for one letting. The Engineer stated that he would call the members of the Commission when a suitable number of projects are ready for advertising, which possibly will be in the early part of June. Chairman Reynolds stated that the Commission in general is in favor of holding more frequent bid openings. The Engineer was instructed to prepare a schedule of lettings with such procedure in mind and report it to the Commission at the next regular meeting. (The Commission later in the session authorized the opening of bids in Salem sometime between May 17 and June 27, 1957.)

The meeting recessed for luncheon at noon and reconvened at 1:30 p.m. in the same room, with the same persons present and participating.

The Acting Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25707 - William J. Miller and Jane Doe Miller
(Clackamas County)
Parcel No. 1: 0.97 acre for Right of Way
Parcel No. 2: 0.35 acre Excess Taking
Amendment to resolution dated March 28, 1957, to provide for a frontage road clause.

R-25710 - Heirs of H. S. Holte
Right of Way (Clackamas County)
0.04 acre

R-25419 - Cecelia H. Eggers, et al.
Right of Way (Clackamas County)
6.88 acres

North Jefferson Junction-Albany Section of the Pacific Highway East

R-25089 - Ed McSorley
Right of Way (Linn County)
0.21 acre

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-22723 - Ray Parker and Gladys Parker
(Multnomah County)
Parcel No. 1: 1.72 acres for Right of Way
Parcel No. 2: 0.03 acre Excess Taking
Parcel No. 3: 0.19 acre Excess Taking

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway

R-26068 - Augustus W. Pitcairn and Lois Pitcairn
Right of Way (Josephine County)
1.8 acres
Amendment to resolution dated February 28, 1957, to change access control provisions.

Conner Creek Section of the Oregon Coast Highway

R-26248 - Vernon T. Baker
Right of Way (Coos County)
0.61 acre

Davis Slough-Bandon Section of the Oregon Coast Highway

R-25980 - Ray Gibney and Marian Gibney
Maintenance site (Coos County)
0.63 acre

Gold Beach-Cape Sebastian Section of the Oregon Coast Highway

R-25529 - Charles H. Skinner and Alda Lee Skinner
Right of Way (Curry County)
2.18 acres

R-25533 - Lloyd A. Larson and Dora I. Larson
Right of Way (Curry County)
6.12 acres

Buena Vista Ocean Wayside

R-25529 - Charles H. Skinner and Alda Lee Skinner
State Park and Recreational Use (Curry County)
4.44 acres

R-25533 - Lloyd A. Larson and Dora I. Larson
State Park and Recreational Use (Curry County)
5.89 acres

Black Bridge-Richland Section of the Baker-Homestead Highway

R-26017 - Lanta M. Burnside, et al.
(Baker County)
Parcel No. 1: 4.1 acres (net) for Right of Way
Parcel No. 2: 0.14 acre for Irrigation Ditch Easement
Parcel No. 3: 0.15 acre for Irrigation Ditch Easement

La Grande-Elgin Section of the Wallowa Lake Highway

R-26192 - Dick Hibberd
Material Source (Union County)
4.90 acres

R-26193 - Reid Hibberd and Neva Hibberd
Material site (Union County)
1.04 acres

R-26194 - Mary Irene Schwebke
(Union County)
Parcel No. 1: 4.48 acres for Material Site
Parcel No. 2: 0.26 acre net for a Haulroad Easement

R-26195 - Robert B. Lee
Haul Road Easement (Union County)
0.35 acre

Pacific Highway West (Pacific Highway West-Beaverton-Hillsdale Highway Intersection)

R-23477 - William C. Ralston and Celia S. Ralston
Right of Way (Multnomah County)
0.35 acre

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25435 - Phillip M. Cousins and Maebelle Cousins
Right of Way (Clackamas County)
1.84 acres

R-25437 - Ward Godleske and Shirley Godleske
Right of Way (Clackamas County)
3.01 acres

Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway

R-26164 - Walter J. Gearin and Alice M. Gearin
(Marion County)
Parcel No. 1: 0.14 acre for Right of Way
Parcel No. 2: 1.44 acres for Material source

R-26165 - John A. Gearin
Right of Way (Marion County)
0.79 acre (net)

R-26166 - Walter W. Dreher and Virginia C. Dreher
(Marion County)
Parcel No. 1: 0.4 acre (net) for Right of Way
Parcel No. 2: 6.45 acres for a Material Site

April 19, 1957

Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway - Cont.

R-25344 - Rose Marie Adolf, et al.
(Yamhill County)
Parcel No. 1: 12.42 acres net for Right of Way
Parcel No. 2: 0.36 acre for Temporary Construction Easement
An amended resolution, amending a resolution of November 8, 1956, by enlarging the area of Parcel No. 1 and by adding Parcel No. 2.

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway

R-23314 - Leslie M. Remington and Marie L. Remington
Right of Way (Josephine County)
900 square feet

R-23315 - Max L. McMillan and Janet B. McMillan
Right of Way (Josephine County)
950 square feet

R-23316 - Robert W. Milledge and Mary E. Milledge
Right of Way (Josephine County)
950 square feet

Albany-Judkins Point Section of the Pacific Highway East

R-25316 - Charles A. Bonnett, Jr., and Rachel M. Bonnett
Right of Way (Lane County)
2.6 acres

R-25317 - Charles A. Bonnett, et al.
Right of Way (Lane County)
9.20 acres

North Jefferson Junction-Albany Section of the Pacific Highway East

R-25061 - Daniel M. Ropp
Right of Way (Linn County)
1.5 acres - Amended resolution to change connection points of the frontage road.

Right of way maps, construction plans and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Acting Chief Counsel's request by adopting the attached

resolutions relative thereto, marked EXHIBITS "B-1" through "B-16", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A report submitted by the Acting Chief Counsel enumerating details concerning cases that have been tried in court since the Commission meeting held March 28-29, 1957, was accepted by the Commission and is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
MARCH 30 to APRIL 15, 1957

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Taylor R-20547	Polk	Willamina-Salem	West Approach to Salem Bridge	$2,640.	$2,640.	$2,640.
Kronberg R-22568	Clackamas	Clackamas Secondary	Clackamas Overcrossing	$ 660.	$31,396.	$ 750.

Concerning the Sigfrit v. State case which concerns the claim of Mrs. Sigfrit against the State for damages resulting from a flash flood in the town of Mitchell, Wheeler County, the Acting Chief Counsel reported that a motion for a directed verdict was made in which the plaintiff joined. Accordingly, the case will be decided by the Court without a jury. A decision is expected within the next two weeks.

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2701	Highway Commission	Ed Biescke	Coos	Damage to Vehicle	$187.81	$98.90 plus costs
L-2700	Highway Commission	Martin Borlick, Jr. and Robert L. Mathews	Coos	Damage to Bridge	$ 29.62	$29.62
L-2733	Highway Commission	Theodore L. Anderson	Lincoln	Damage to Vehicle	$ 73.97	Verdict for Defendant

April 19, 1957

(For additional details re cases tried, see copy of the Acting Chief Counsel's letter to the Commission dated April 15, 1957, in the General Files.)

The Commission also accepted a report presented by the Acting Chief Counsel concerning condemnation cases and other cases which have been settled out of court since the Commission meeting held March 28-29, 1957, as follows:

REPORT OF CONDEMNATION CASES SETTLED
APRIL 15, 1957

Case	County	Highway	Section	State's Offer	Amount of Settlement
Carte R-25774	Douglas	Pacific	Myrtle Creek-Canyonville	$ 750.00	$ 850.00
Powell R-23051	Klamath	The Dalles-California	Klamath Falls-West Side By-Pass	$10,750.00	$11,750.00
Bennett R-22123	Marion	Pacific	Salem By-pass - Jefferson Junction	$18,500.00	$21,000.00

REPORT OF OTHER CASES SETTLED

Case	Plaintiff	Defendant	County	Cause of Action	Demand of Plaintiff	Settlement
L-2711	State	Ernest L. Faus	Union	Damage to fountain	$75.76	$75.76

SUPPLEMENTAL REPORT OF CONDEMNATION CASES SETTLED
APRIL 17, 1957

Case	County	Highway	Section	State's Offer	Amount of Settlement
David Peters R-18156	Polk	Willamina-Salem	Dolph Corner-Rickreall	$3,875.00	$4,500.00

April 19, 1957

(For additional details re cases settled, see copy of the Acting Chief Counsel's letter to the Commission, dated April 15, 1957, in the General Files.)

The Acting Chief Counsel, in conformity with a resolution adopted by the Commission on December 20, 1951, presented offers that had been tendered for acquisition of real property prior to the institution of condemnation proceedings, as follows:

Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway

R-23317 - Sidney Bazett, et al. 8,000 square feet for right of way purposes. Offer of $1,000.00 approved by Mr. Reynolds April 5, 1957.

R-23331 - Wesley R. Brown, et al. 0.03 acre for right of way purposes. Offer of $275.00 approved by Mr. Reynolds April 5, 1957.

R-24634 - Sylvia E. Lake. 0.73 acre for right of way and 1.12 acres for the realignment of the channel of a stream. Offer of $770.00 approved by Mr. Reynolds April 5, 1957.

R-26068 - Heirs of August Pitcairn, Deceased. 1.8 acres for right of way purposes. Offer of $885.00 approved by Mr. Reynolds April 5, 1957.

North Jefferson Junction -Albany Section of the Pacific Highway East

R-24530 - Rex R. Hartley, et al. 3.5 acres for right of way purposes. Offer of $3,000.00 approved by Mr. Reynolds April 5, 1957.

R-25060 - Wick Miller, et al. 4.81 acres for right of way purposes. Offer of $4,075.00 approved by Mr. Reynolds April 5, 1957.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-22600 - Henry Adams, et al. 1,118 square feet for right of way purposes. Offer of $250.00 approved by Mr. Reynolds April 5, 1957.

Highlands Interchange to the Sunset Highway

R-25882 - Lina Adams, et al. 43,250 square feet for right of way purposes. Offer of $7,500.00 approved by Mr. Reynolds April 5, 1957.

Hinsdale Slough-Luder Creek Section of the Umpqua Highway

R-20663 - D. D. Hail, et al. 0.31 acre for right of way purposes. Offer of $1,875.00 approved by Mr. Reynolds April 5, 1957.

Albany-Judkins Point Section of the Pacific Highway East

R-25318 - Hazel Calef. 12.43 acres for right of way purposes. Offer of $22,250.00 approved by Mr. Reynolds April 5, 1957.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-22539 - Richard N. Freepons, et al. 4,100 square feet for right of way purposes. Offer of $4,500.00 recommended.

R-25018 - Jack Rutis, et al. 4,375 square feet for right of way purposes. Offer of $3,000.00 recommended.

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25707 - William J. Miller. 0.97 acre for right of way purposes and 0.35 acre for excess taking. Offer of $1,890.00 recommended.

Ontario-Snake River Section of the Old Oregon Trail Highway

R-23945 - Phil G. Preston, et al. 0.50 acre for right of way purposes. Offer of $14,600.00 recommended.

Albany-Judkins Point Section of the Pacific Highway East

R-14578 - Stacy L. Neely, et al. 4.14 acres for right of way purposes and 12.6 acres for a material site. Offer of $11,750.00 recommended.

North Jefferson Junction-Albany Section of the Pacific Highway East

R-24529 - Ora Thompson, et al. 3.84 acres for right of way purposes and 0.24 acre for construction easement. Offer of $975.00 recommended.

R-25061 - Daniel M. Ropp, et ux. 1.5 acres for right of way purposes. Offer of $675.00 recommended.

R-25096 - Roy A. Snoderly, et al. 0.87 acre for right of way purposes. Offer of $8,500.00 recommended.

R-26115 - Judith D. Hampton, et al. 0.08 acre for right of way purposes. Offer of $50.00 recommended.

R-24531 - Walter K. Bloomer, et al. 2.97 acres for right of way purposes. Offer of $3,150.00 recommended.

R-24535 - E. B. Henningsen, et al. 34.55 acres for right of way purposes and 24.7 acres for a material site. Offer of $15,500.00 recommended.

A report was also presented by the Acting Chief Counsel and accepted by the Commission concerning the status of matters before the Public Utilities Commissioner in which the State has been made a party, summarized as follows:

PUX 207: Application of the State Highway Commission for authority to construct the Second Myrtle Creek Overcrossing, of the tracks and right of way of the Southern Pacific Company, near Myrtle Creek, in Douglas County: The order authorizes construction of an additional two lane crossing which will be used by southbound traffic on the Pacific Highway. No costs of construction were assessed against the Railroad.

PUX 208: Application of Coos County to construct a new overcrossing, known as the Chrome Plant Overcrossing, on the North Bank Market Road, and for authority to remove the existing overcrossing: Construction of the structure will be supervised by the State Highway Department. The order authorizes construction of a new structure and removal of the existing structure. Southern Pacific Company is not to be assessed for cost of construction.

PUX 209: Application of Allum Bros. for authority to construct a private road crossing at grade on the Lakeview-Adel Secondary Highway: The order involves a private road crossing to secure gravel from a pit south of the state highway. The use of the crossing shall terminate not later than September 1, 1957.

PUX 210: Application of Tillamook County for authority to construct a crossing at grade with the tracks and right of way of the Southern Pacific Company on the Latimer County Road, near Tillamook, in Tillamook County: No objection to the issuance of the order was made on behalf of the Highway Commission.

PUX 211: Application of Tillamook County for authority to construct a crossing at grade with the tracks and right of way of the Southern Pacific Company on the Wilson River Loop County Road, near Tillamook. The crossing is not under jurisdiction of the Highway Commission and no objection was made.

The Acting Chief Counsel reported concerning an abandoned damage claim as follows:

CAO-56-280, Crockett: On March 2, 1956, Mr. Crockett lost control of his pickup truck and collided with the flashing beacon and sign light at the Lakeside Junction on the Oregon Coast Highway approximately 7 miles north of Hauser. The damage to the beacon and light amounted to $125.51. Mr. Crockett made two early payments of $5.00 each, but since that time has failed to make further payments or to acknowledge letters. There were no witnesses to the accident and it appears that litigation probably would result unsuccessfully. The Commission accepted the report.

A report concerning the first quarter period of 1957 concerning settlement of damage cases was presented by the Acting Chief Counsel. He pointed out briefly that during this period, 69 cases were settled and payment in the amount of $15,574.93 was received by the State. The Commission accepted the report.

The Acting Chief Counsel called attention to action that was taken by the Commission at its March meeting whereby certain changes were authorized in the policy concerning control of access applicable to future transactions. These changes he said, included some relaxation in the restrictive legal language which has heretofore been included in deeds, judgments and other documents. A number of condemnation cases are now pending, which contain the old provisions concerning access. It was his thought that if the changes that were approved by the Commission at the March meeting can be applied to the pending condemnation cases, such changes may lead to amicable settlements in a number of instances. It is necessary, he continued, that the Commission give specific authority to make the amendments in the pending cases. To do this, he recommended that the Commission adopt a resolution authorizing the Acting Chief Counsel to stipulate for amended complaints incorporating the revised language and policies of the Commission, in accordance with action taken by the Commission at the meeting on March 28-29, 1957. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Dismissal of the condemnation cases of State vs. Fay, et ux, L-2288A, and State vs. Kernan Livestock Farms, Inc., L-2578 was considered by the Commission. The Acting Chief Counsel explained that in both cases it had been stipulated that the properties were needed for highway purposes. In the case of State vs. Fay, involving property on the Sage Hen Hill-Hines Section of the Central Oregon Highway, it was possible to construct the new section of highway without taking any of the Fay property. He therefore recommended that the pending condemnation action be dismissed.

In the case of State vs. Kernan Livestock Farms, Inc., negotiations have been conducted contemplating one access for a commercial use. This property is located at the intersection of Denver Avenue and Union Avenue in north Portland and involves the interstate highway system. The Bureau of Public Roads, he continued has reviewed the plans and will require a number of changes, including elimination of all access to the highway from the Kernan Livestock Farms' property. In view of the changes that have been required, he recommended that the pending condemnation case be dismissed so that negotiations can be reopened on the basis of revised plans. The Commission accepted the Chief Counsel's recommendations concerning dismissal of both cases by adopting the attached resolutions relative thereto marked EXHIBIT "I-1" and EXHIBIT "I-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A report was presented by the Acting Chief Counsel concerning status of legislation in the State Legislature pertaining to state highways. He commented briefly that Senate Bill 308, providing for the issuance of $12,600,000 in bonds, passed the Senate with an amendment to provide for twenty-year bonds rather than ten-year bonds, but without any directive that the proceeds must be applied to the Oregon Coast Highway. The Engineer stated that the amount of money incorporated in the bill, $12,600,000, was computed by the Legislature from a 1954 estimate of cost for constructing the Oregon Coast Highway from Gold Beach to Brookings, which at that time, had been estimated at $16,000,000. In the Commission's existing construction program, the sum of $3,400,000 has been budgeted for construction in this area, which leaves a balance of $12,600,000 to be provided according to the 1954 estimate, which, according to present day estimates, is about $2,000,000 less than is actually needed. The Commission accepted the report. (For details concerning status of legislation, see copy of the Chief Counsel's letter dated April 12, 1957, entitled "Supplementary Status Report of Legislation" in the General Files.)

The Engineer reported that under authority previously granted him by the Commission he has awarded contracts which were referred to him by the Commission to award when certain conditions had been satisfied. These conditions have been met and the following contracts have been awarded:

"Grading, oiling and furnishing crushed materials on Pendleton-Adams Section of Oregon-Washington Highway, Umatilla County. Bids received February 28, 1957. Conditions of award satisfied April 3, 1957. E. H. Itschner Company, Molalla, low bidder.

"Grading and oiling on Willowdale-Lyle Gap Section of The Dalles-California Highway, Jefferson County. Bids received March 28, 1957. Conditions of award satisfied April 5, 1957. Rogers Construction Company, Portland, low bidder.

"Grading and oiling on East Unit, Camp Creek-Paulina Section of the Paulina Highway, Crook County. Bids received February 28, 1957. Conditions of award satisfied April 5, 1957. E. A. Kruse, Yoncalla, low bidder.

"Grading and oiling on East Unit, Black Bridge-Richland Section of Baker-Homestead Highway, Baker County. Bids received March 1, 1957. Conditions of award satisfied April 5, 1957. Quinn Brothers & Robbins, Boise, Idaho, low bidder.

"Grading and oiling on N. Unit, Vale-Grand Avenue Section of Lytle Boulevard Road, Malheur County. Bids received March 28, 1957. Conditions of award satisfied April 8, 1957. Babler Bros., Inc., Portland, low bidder.

"Leveling and oiling on Cove Avenue and Fruitdale Road Sections of Cove Avenue and Fruitdale County Roads, Union County. Bids received March 28, 1957. Conditions of award satisfied April 9, 1957. Russell Olson Construction Company, Inc., Pendleton, low bidder.

"Construction of Glover Overcrossing of Union Pacific Railroad, Union County. Bids received March 28, 1957. Conditions of award satisfied April 11, 1957. Orlando C. Bennard, Portland, low bidder.

"Grading on Jumpoff Joe Creek-Louse Creek Section of Pacific Highway, Josephine County. Bids received February 28, 1957. Conditions of award satisfied April 12, 1957. Peter Kiewit Sons' Company, Vancouver, Washington, low bidder.

The Commission confirmed the awards as reported.

Removal of load limit restrictions on three state highways was reported by the Engineer. He explained that weather conditions, particularly thawing of the roadbed, have improved to the extent that the restrictions no longer are required. The Commission accepted his report on the following sections of state highways:

Pendleton-John Day Highway, from M.P. 100.43 to M.P. 115.26. Load limit removed at 5:00 p.m., April 12, 1957.

Beech Creek Secondary Highway. Load limit removed from the entire length of the highway, effective 5:00 p.m., April 12, 1957.

Havana-Helix Secondary Highway, from M.P. 0.0 to M.P. 2.5, and from M.P. 3.66 to M.P. 8.96. Load limit removed, effective 5:00 p.m., April 18, 1957.

Sale of $8,000,000 in highway bonds as authorized by the 1957 Legislative Assembly was discussed. The Engineer reported that the legislative action does not become effective until 90 days following adjournment of the Legislature so it appears that the bond sale cannot be made until about mid-August. He requested authority to proceed with preliminary work as may be necessary, so the sale can be made at the earliest possible date. The Acting Chief Counsel pointed out that it is not necessary at this time to designate a bond attorney but it would be advantageous to have authority to proceed with other details. The Engineer called attention to the fact that the schedule of highway contract lettings for the balance of the year is predicated upon selling the bonds at an early date because the money derived from the sale will be needed to pay the contractors. The matter was discussed at some length and as

a result thereof, the Commission decided not to set a definite date for sale of the bonds at this time nor to select a bond attorney; however, the Engineer and the Acting Chief Counsel were authorized to take care of the necessary preliminary details, including consultation with Mr. Fred Paulus, Deputy State Treasurer.

The Commission discussed items of unfinished business appearing on the Secretary's Summary, dated March 29, 1957, as follows:

1. Request of Coos-Curry Electric Cooperative to construct a power line across Cape Sebastian State Park and the Brookings-Carpenterville Wayside area: This item was ordered deleted from the list of unfinished business as a report was presented by the Parks Superintendent earlier in the day.

2. Offer of City of Delake to donate property for a park development along Devils Lake: The Parks Superintendent stated that his report on the development of a state park containing facilities for overnight camping in the area suggested or along the Salmon River is not yet complete. This item is to remain on the list of unfinished business.

3. Request of Union County for access to the Old Oregon Trail in Ladd Canyon to reach a stock pile site: The Engineer reported that the County had made arrangements for another access to their site. The item was ordered removed from the list of unfinished business.

4. Request of Ashland delegation to widen the existing Pacific Highway to four lanes from the south end of the existing one-way couplet southerly to Avery Street: The Engineer reported that the City has agreed to allow use of twelve feet of the center mall for widening purposes. The project, he stated, is feasible and is estimated to cost $125,000. He recommended that consideration be given to the project when the next highway program is formulated. The Commission accepted his recommendation and ordered that the city be so informed. The item is to be deleted from the list of unfinished business.

5. Request of Albany delegation for improvement of the Albany-Corvallis Highway along its present routing by elimination of curves and raising of the roadbed to provide for all-weather usage: The Engineer reported that an investigation is being made but a report is not yet ready. This item is to remain on the list of unfinished business.

Consideration was given to refunding to O & S Painters, Inc., Tigard, the sum of $395.00 which they had submitted in forfeiture of their bond for painting the Springfield Bridge, the contract for which was awarded to them on March 28, 1957. The Engineer advised that this contractor bid the sum of $7,900.00 and that the next low bid was $14,646.00, whereas, the job was estimated by the State at $15,900.00. He gave as his opinion that O & S Painters made an honest mistake in submitting their bid and he

recommended that they be relieved from forfeiture of the 5 percent bid bond and that the check for $395.00 which they had submitted in forfeiture be returned to them. The Commission approved his recommendation. The Engineer also mentioned that bids were again received for the project this morning and that a low bid of $13,979 was received.

The Engineer reported completion of the survey for The Dalles-Eight Mile Creek Section of The Dalles-California Highway in Wasco County. He recalled the offer of the Wasco County Court to acquire the right of way for this project when informed as to the location of the new route. The proposed route, he stated, has been given very careful engineering study and represents the most feasible route commensurate with cost of construction, and he recommended that it be approved. The Commission approved the survey by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

A request from the City of Eugene that the State consent to an assessment of $2,872.00 as a portion of the cost to construct Garfield Street was discussed. The Engineer explained that about two years ago the State sold to the City of Eugene some property for the sum of $2,908.20, which was the exact amount paid by the State, although the assessed valuation at that time was about $11,000. The City has since constructed Garfield Street and there are three State-owned lots fronting on the new street and other State lots immediately adjoining. Total value of the State-owned property, he stated, is approximately $40,000.00, but will be somewhat higher now because of the street improvement. Although the assessment for construction of the street was not considered when the original property was sold to the City, the improvement has unquestionably increased the value of the State's holdings, and he recommended that no objection be offered to the assessment. The Acting Chief Counsel advised that it was the intention of the City to present the claim to the Legislature but in his estimation it will not be necessary for the City to do that if the Commission approves payment of the assessment. In view thereof, and upon the Engineer's favorable recommendation the Commission decided to pay the assessment when proper billing has been received.

Attention was given to a proposed agreement between the State Highway Commission and Tygh Valley High Line Ditch Company covering a drainage matter on US 97. For sometime, the Engineer explained, an unsatisfactory drainage condition has existed about one mile north of Tygh Valley on The Dalles-California Highway due to construction of an irrigation ditch, which, in effect, intercepts water which the highway bridge was designed to carry, thereby causing the highway to be flooded at points during severe rainstorms and snow runoff. To improve this condition an agreement has been reached with the Company whereby the State will construct a weir in the irrigation ditch at a cost of approximately $500.00 and will clean out the original channel from the bridge to the weir, and the Company agrees to clean the channel from the State bridge to Tygh Creek and to secure all easements necessary for cleaning and maintenance of the channel from the bridge to the creek. It also agrees to maintain the

weir. Following his favorable recommendation, the Commission approved the agreement.

Authority was requested by the Engineer to increase the project authorization on Contract No. 4701 for rebuilding of the Vine Maple Bridge over the Nehalem River in Clatsop County. He explained that when the contract was awarded it was intended to use the piers of the present bridge which was built by Clatsop County about thirty years ago; however, subsequent investigation revealed that the piers instead of being located on rock, were built on short piling which are not adequate to carry the loads which will be required of the new structure. He recommended that the authorization be increased by the sum of $43,250.00, which is the estimated cost of new piers. The Commission approved the increase.

The Commission considered and upon recommendation of the Engineer granted the following requests for extensions of time within which to complete highway contracts. Reimbursement for engineering expenses and other expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted:

1. Ausland Construction Company, Contract No. 4552, for construction of the Merlin Hill Undercrossing on the Louse Creek-Grants Pass Section of the Pacific Highway in Josephine County, requested an extension of time from August 31, 1956 to February 28, 1957. Approved as requested.

2. Tom Lillebo, Contract No. 4616, for construction of the Meda Bridge on the Little Nestucca Highway in Tillamook County, requested a second extension of time from August 24, 1956 to February 18, 1957. Approved as requested.

3. Henry R. Staats, Contract No. 4713, for aerial photography and topographic mapping on the Nelson-Benson Creek Section of the Old Oregon Trail Highway in Baker County, requested an extension of time from November 30, 1956 to February 27, 1957. The Commission approved the extension of time, with the provision that the contractor shall pay all State engineering costs incurred in connection with this project after November 30, 1956.

4. Roy L. Houck & Sons, Contract No. 4312, for grading and paving the Battle Creek Junction-Illahee Unit of the Pacific Highway East in Marion County, requested an extension of time from October 31, 1955 to November 17, 1956. Approved as requested.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions of time see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's Office.

April 19, 1957

The Engineer reported that Contract Nos. 4312, 4552, 4572, 4616, 4626, 4630, 4703, 4713, 4771, 4803, 4831, 4832, and 4879 for highway construction have been completed according to the requirements of the contracts or modifications thereof, and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Establishment of a policy concerning the furnishing of prints from aerial surveys made for State Highway purposes was discussed. The Engineer stated that the Oregon Portland Cement Company, located at Lime, Oregon, has requested prints of the State aerial survey along Burnt River Canyon on the Old Oregon Trail Highway in Baker County. It was his feeling that this request is only the first of many such requests that can be expected for similar information. He pointed out that if the State furnishes the prints at nominal cost, commercial establishments undoubtedly will object. Commissioner McIver inquired if consideration had been given to using the policy established by the U. S. Government. The Engineer replied that similar information is furnished by the U. S. Government at a nominal price but it was his opinion that if such information is to be furnished by the State the price should be high enough to discourage curiosity seekers. He also suggested that the furnishing of prints should be limited to lands owned by the party requesting them. As a result of discussion, the Commission decided to make a minimum charge of $25.00 for prints, or $5.00 per print, whichever is the greater, and to furnish prints covering only the land that is owned by the party requesting them.

The Commission gave attention to reports submitted by the Engineer concerning prohibition of vehicle parking on the following state highway sections: On the Silver Creek Falls Highway at the easterly edge of Salem; on the Ochoco Highway near Mill Creek; and on Three-Mile Lane Highway at the McMinnville airport. Each of these locations, he stated, has been carefully investigated by the Traffic Engineering Division, which ascertained that hazards to the traveling public do exist by reason of the parking of vehicles along the shoulders of the respective highways. He recommended in order to correct the situation, that shoulder parking of vehicles be prohibited as follows:

1. On the south side of the Silver Creek Falls Secondary Highway between M.P. 1.25 (Engineer's Station 5+66), at the southerly end of the Mill Creek Bridge, and M.P. 1.44 (Engineer's Station 15+60), at the Airport Road Junction. (See EXHIBIT "E-1")

2. On both sides of the Ochoco Highway between a point 0.10 mile west of Mill Creek (M.P. 28.08) and a point 0.10 mile east of Mill Creek (M.P. 28.28). (See EXHIBIT "E-2")

3. On both sides of the Three-Mile Lane Highway between the road to McMinnville Airport (Engineer's Station 142+20) and a point 650 feet east of the county road to Amity (Engineer's Station 188+00). (See EXHIBIT "E-3")

The Commission approved the Engineer's recommendations by adopting the attached resolutions relative thereto, marked EXHIBITS "E-1" through "E-3", which resolutions by this reference are made part hereof with like effect as though extended in full herein.

The Commission discussed a proposed agreement with the City of Ontario covering the furnishing of fire protection for the State Highway and Police Building located a short distance outside of the Ontario city limits. The Engineer advised that the agreement provides that the City shall provide fire protection for the sum of $75.00 per year, consisting of $50.00 for business property and $25.00 for residential property, plus reimbursement to the City of the actual cost of service calls made by the Fire Department. Upon the favorable recommendation of the Engineer, the Commission approved the agreement.

Consideration was given by the Commission to a resolution from the Tigard Chamber of Commerce and petitions from numerous residents of Washington County concerning confusion that exists in the mailing addresses of business establishments and residents along that section of US 99W between the Multnomah County line and the Tualatin River Bridge. To eliminate the confusion they ask that this highway section be renamed "Barbur Boulevard". The Engineer recalled that the Commission, by resolution, recently named this highway from the Multnomah County line to Newberg, Herbert Hoover Boulevard, in honor of Mr. Hoover, former President of the United States, who spent much of his early life in Newberg. However, considerable confusion has resulted therefrom. To reduce the confusion, he recommended that the section of US 99W between the Multnomah County line and the Tualatin River Bridge be renamed Barbur Boulevard to conform with the Multnomah County section, and that the name "Herbert Hoover Boulevard" be retained for the section between the Tualatin River Bridge and Newberg. The Commission approved his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission approved the Secretary's report on papers signed by him in behalf of the Commission during the period from March 26,1957 to April 16, 1957.

The Commission discussed a date for its next regular meeting and decided to hold such meeting on Thursday and Friday, May 16 and 17, 1957, in Portland. The Commission also set Thursday and Friday, June 27 and 28, 1957, as the date for the following meeting. The Secretary was instructed to make the usual arrangements to hold both meetings in the Imperial Hotel. In this connection the Commission discussed the advisability of conducting a bid opening in Salem between May 17 and June 27.

The Engineer was authorized to conduct such bid opening in conformity with action previously taken by the Commission.

Consideration was given to a letter from the Nehalem Bay Expansion Association, Inc., requesting that the new airport on the Nehalem sand spit be named "Nehalem Bay Airport", or some other name containing the words, "Nehalem Bay". In the brief discussion of this matter, the Engineer observed that whereas there is no objection to naming the strip as suggested, in his opinion it is a matter outside the Commission's jurisdiction. He suggested that the Association be advised to contact the State Board of Aeronautics. The Commission adopted the Engineer's suggestion.

A request was discussed from the Long Bell Lumber Company for installation of traffic signals on the Oregon Coast Highway at the northerly entrance to its plant in Gardiner. The Engineer stated that an investigation revealed that a considerable number of vehicles make left-turn movements off the highway when entering the plant. Traffic volumes, however, are relatively light and construction of a left-turn refuge would be very expensive. He recommended that a flashing beacon be installed at the intersection, at an estimated cost of $600.00, the same to be paid for with 1957 Minor Betterment Funds. He advised that the Long Bell Lumber Company will provide electrical energy to operate the signal. The Commission approved the recommendation.

The Engineer reported that Mr. E. L. Kuebler, Salem, submitted the high bid at ten cents per pound for scrap pneumatic tubes that were offered for sale along with used equipment and other scrap materials in Salem on March 25, 1957. Mr. Kuebler has since stated that he made a mistake in entering his bid on the proposal form, as it was his intention to bid ten cents a pound for scrap bronze, and he has requested that his bid deposit of $35.00 be returned to him. The Engineer pointed out that the second high bid for the tubes was at the rate of $1\frac{1}{4}$ cents per pound, and the third high bid was 1 cent per pound, whereas, the value placed on the tubes by the State was 3 cents per pound. As it appears that Mr. Kuebler made an honest mistake, the Engineer recommended that his deposit be returned. The Commission approved return of the deposit.

The Commission discussed with the Engineer a proposed exchange of highways with Klamath County whereby the County was to take over the section of the Klamath Lake Secondary Highway northerly from its junction with the Lake of the Woods Road to Fort Klamath, and the State was to take over the Lake of the Woods Road as a secondary highway from the Jackson County line to a junction with the Klamath Lake Secondary Highway. The Engineer reported that the Klamath County Court is adamant in its present position in that it will not accept the northerly portion of the Klamath Lake Secondary Highway as a county road. He pointed out that the Lake of the Woods Road can be placed on the forest highway system without becoming a part of the state secondary highway system, and that such action could be taken without obligation, should the Commission so desire. He recommended that no further action be taken in this matter until the County is willing to assume jurisdiction over the Klamath Lake Secondary Highway

north of the Lake of the Woods Road junction, in accordance with the original arrangement. The Commission approved his recommendation.

The Commission signed the following agreements and other papers:

"Grant of Easement" to Mr. and Mrs. L. E. Ziniker to maintain their private roadway partially on the right of way of the Goshen-Coast Fork Section of Pacific Highway, Lane County.

"Modification of Judgment and Indenture of Access" form covering the J. H. Baxter & Company property situate on Wolf Creek Section of Pacific Highway, Josephine County.

"Agreement" with the Tygh Valley High Line Ditch Company covering correction of a drainage condition on The Dalles-California Highway, about 1 mile north of Tygh Valley. Agreement provides that State will construct a weir in irrigation ditch at State Expense, estimated to cost $500, and will clean out the original channel from bridge to the weir; Company will clean out original channel from bridge to Tygh Creek, will secure all easements necessary for cleaning and maintenance of channel from bridge to creek, and will maintain the weir.

"Agreement" with City of Ontario re furnishing fire protection for the State Highway and police building which is located outside of city boundary.

"Indenture of Access" with Jackson County on the Medford County Farm Section of the Pacific Highway.

"Maintenance & Finance Agreement" with Jackson County covering the Gregory Road-Central Point Junction Section of FAS 273 and the Table Rock Road-Crater Lake Highway Section of FAS 274. (Authorized 11-8-56)

"Agreement" with City of Cove covering the $250,000 Special Fund project on French and Hill Streets in Cove. (Authorized 12-17-56)

"Agreement" with City of North Powder covering the $250,000 Special Fund project on G Street in the City of North Powder. (Authorized 12-17-56)

"Agreement" with City of Stanfield covering the $250,000 Special Fund project on Coe Avenue in Stanfield. (Authorized 12-17-56)

"Agreement" with City of Madras covering the $250,000 Special Fund project on Fourth Street in Madras. (Authorized 12-17-56)

"Agreement" with City of Elgin covering the $250,000 Special Fund project on S. Seventh Avenue and Division Street in Elgin. (Authorized 11-17-56)

"Bargain & Sale Deed" to Coos Bay Timber Operators for a parcel of land on the North Bend-Marshfield Section of the Oregon Coast Highway. (Authorized 2-28-57)

"Bargain & Sale Deed" to Brownie Coldiron Logging Company for a parcel of land on the Frankport-Greggs Creek Section of the Oregon Coast Highway. (Authorized 2-28-57)

"Bargain & Sale Deed" to Leonard Smith for a parcel of land on the Northbound Route in Ashland on the Pacific Highway. (Authorized 2-28-57)

"Bargain & Sale Deed" to Ray E. Kincheloe for a parcel of land on the Blackwell Hill-Seven Oaks Section of the Pacific Highway. (Authorized 2-28-57)

"Finance & Maintenance Agreement" with Linn County covering the Oak Creek School-Lebanon Section of FAS 216. (Bids to be received 4-19-57)

"Agreement" with City of Beaverton covering the W. City Limits-Main Street Section of the Farmington Highway in Beaverton. (Bids to be received 4-19-57)

"Finance & Maintenance Agreement" with Marion County covering the Hopmere Road-McNary Wye Section of FAS 735 in Marion County. (Authorized 11-8-56)

"Ground Lease" with Oregon Electric Railway Co. covering five-year lease renewal for their stockpile lease on the Gillespie Corners-County Line Section of the Territorial Highway in Lane County.

"Permit Agreement" with Ben F. Phillips granting permission to erect and maintain a television mast and antenna in Cascadia State Park in Linn County.

"Quitclaim Deed" to Thomas J. Flippin, Jr., for a parcel of land in Lot 3, ($NE\frac{1}{4}$ $SW\frac{1}{4}$) of Section 11, Township 19 South, Range 12 West, W.M., Lane County, lying East of the East arm of Woahink Lake.

The Commission discussed with the Engineer bids received at the morning session and at 3:00 p.m. Commissioner McIver announced awards of contracts as follows:

"Concerning the bids received for marine insurance for the Astoria-Megler Ferry vessels, Chairman Reynolds pointed out that Durham & Bates, R. W. Neighbor & Co., Inc., and Dooly & Co., all of Portland, submitted identical bids in the amount of $7,258.50. The name of each of the three bidders was written on a slip of paper and placed in a hat and the Commission directed that Miss Johanna McCaffrey draw one of the slips to determine the successful bidder. She drew the name of Dooly & Co. and the Commission awarded the contract to them.

"Grading, stone base, and paving on the Humbug Summit-Elsie Section of the Sunset Highway in Clatsop County, and grading and paving on the East Unit, Quartz Creek-Rock Creek Section of the Sunset Highway in Clatsop County, combination bid. The Commission awarded the contract to Warren Northwest, Inc., Portland, who submitted the low combination bid in the sum of $187,893.25 for the Humbug Summit-Elsie Project, and $77,470.50 for the Quartz Creek-Rock Creek Project, or a total combined bid of $265,363.75.

"Paving the Bunker Hill-Davis Slough Section of the Oregon Coast Highway in Coos County. The Commission awarded the contract to the low bidder, Johnson's Cement Products, Coos Bay, at $47,955.00.

"Grading and oiling the Conner Creek Section of the Oregon Coast Highway in Coos County. The Commission awarded the contract to the low bidder, Angell Bros., Eastside, at $35,844.70.

"Grading and paving on "F" Street in the town of Eastside, Coos County. The Commission awarded the contract to the low bidder, Angell Bros., Eastside, at $9,235.00.

"Shoulder oiling on the Canyonville project on the Pacific Highway in Douglas County. The Commission awarded the contract to the low bidder, Roseburg Paving Co., Roseburg, at $4,500.00.

"Grading and paving on the Gregory Road-Central Point Junction and Table Rock Road-Crater Lake Junction project on Table Rock Road and Crater Lake Highway-Jacksonville Road in Jackson County. The Commission elects to accept the low bid of Hughes & Dodd Co. and Tru-Mix Equipment Co., Medford, in the sum of $133,693.70 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County is received and the sum of $30,300.00 is deposited by the County.

"Paving and shoulder oiling on the Dexter-Lowell project on the Willamette Highway in Lane County. The Commission awarded the contract to the low bidder, Wildish Const. Co., Eugene, at $36,053.10.

"Clean and paint steel in the bridge over Willamette River on the McKenzie Highway at Springfield, in Lane County. The Commission awarded the contract to the low bidder, Pacific Marine Service, Portland, at $13,979.00.

"Roadway and shoulder oiling on the Division No. 3 oiling project in Lane and Douglas Counties. The Commission awarded the contract to the low bidder, Horton Const. Co., Portland, at $67,391.50.

"Shoulder rock and paving on the Crabtree Junction-Brewster and Oak Creek School-Lebanon project on the Lebanon-Crabtree and Orleans-Lebanon Roads in Linn County. The Commission elects to accept the bid of Morse Bros., Lebanon, the low bidder, in the sum of $153,299.75 and directs the State Highway Engineer to award the contract to said bidder

as soon as approval of Linn County is received and the sum of $34,700.00 is deposited by the County.

"Grading and paving on the Hopmere Road-McNary Wye Section of the Wheatland Road in Marion County. The Commission elects to accept the bid of the low bidder, Central Paving Co., Independence, in the sum of $84,010.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $19,150.00 is deposited by the County.

"Grading on the South Unit, Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway in Marion and Yamhill Counties. The Commission elects to accept the bid of the low bidder, John Havlik, Jr., Scappoose, in the sum of $155,215.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Rock production on the Warrendale-Cascade Locks project on the Columbia River Highway in Multnomah and Hood River Counties. The Commission awarded the contract to the low bidder, Vernie Jarl, Gresham, at $35,600.00.

"North Fork Ash Creek Bridge on Polk County Road No. 852 in Polk County. The Commission referred all bids to Polk County as this is a county project.

"Grading and paving on Coe Avenue in City of Stanfield in Umatilla County. The Commission awarded the contract to the low bidder, Leslie Harris, Pendleton, at $14,939.50.

"Rock production on the Elgin-Union project on the Wallowa Lake and Cove Highways in Union County. The Commission elects to accept the bid of the low bidder, E. H. Itschner Co., Molalla, in the sum of $56,550.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Oiling project on the La Grande-Haines Section of the Old Oregon Trail and La Grande-North Powder Highways, in Union and Baker Counties. The Commission awarded the contract to the low bidder, Leslie Harris, Pendleton, at $37,819.20.

"Grading and paving West City Limits-Main Street Section in Beaverton on the Farmington Highway in Washington County. The Commission elects to accept the bid of the low bidder, Porter W. Yett, Portland, in the sum of $39,574.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Beaverton is received and the sum of $8,325.00 is deposited by the City.

"Oiling in Division No. 1 on 4 highways in the vicinity of Newberg, Beaverton, Tualatin, Oregon City and Molalla in Washington, Clackamas and Yamhill Counties. The Commission awarded the contract to the low bidder, Horton Const. Co., Portland, at $95,859.00.

"Rock production on Forest Boundary-John Day River project on the Ochoco Highway in Wheeler and Grant Counties. The Commission awarded the contract to the low bidder, Lee F. Philpott, Prineville, at $28,300.00.

Commissioner McIver brought up for discussion the appointment of a Chief Counsel to handle Highway Department legal matters. He recalled that when Mr. C. W. Enfield, former Chief Counsel, resigned to accept a position with the U. S. Bureau of Public Roads in Washington, D. C., the Commission, by appropriate resolution, appointed as his successor Mr. Robert L. May, Jr., who was then Assistant Chief Counsel, subject to confirmation by the Attorney General; however, such appointment was not approved and the position of Chief Counsel is still vacant, although Mr. May has been serving in the capacity of Acting Chief Counsel since then. He gave as his feeling that the best interests of the State would be served were the Commission to appoint a Chief Counsel that is acceptable to the Attorney General; accordingly, he placed in nomination for the position the name of Leonard I. Lindas, who has been in charge of the trial section of the legal staff for several years, with the understanding that Mr. May shall be retained as Assistant Counsel, such action to be effective April 22, 1957. He expressed appreciation for the work that Mr. May has performed, and regrets that the Attorney General did not see fit to approve him as Chief Counsel. The nomination was seconded by Commissioner Chessman and was declared unanimous by Chairman Reynolds. To implement this action the Commission thereupon adopted the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein. Mr. May thanked the members of the Commission for their efforts in his behalf and he assured the Commission that he will serve as Assistant Counsel to the best of his ability. He complimented the Commission in selecting Mr. Lindas, who, he said, is a fine man and will do a good job. Mr. Lindas expressed appreciation for the appointment and advised that he will do everything possible to merit the Commission's confidence in him. He also expressed pleasure that he is to have Mr. May's help.

Chairman Reynolds brought up the matter of a restrictive clause contained in the deed the State gave to the City of Pendleton in conveying property near the Pendleton airport. At his request the Right of Way Engineer explained that the City has requested permission to use the property for commercial or industrial purposes, whereas, the deed specifies that it shall be used for public or residential purposes only. It appears that plans are underway to establish a motel on the property which cannot be accomplished under the present deed restrictions. The Engineer stated that if removal of the restrictions is agreeable with the City, there would be no reason to object to the use of this property for the purpose intended, provided no changes are allowed in access restriction. The Commission indicated a willingness to remove the present restrictions subject to such conditions and authorized Chairman Reynolds to convey the information to the City.

Chairman Reynolds brought up for discussion the functions of the Public Relations Section of the Personnel and Public Relations Division. He gave as his feeling that more can and should be done to advise the public of what the Highway Department is doing and he suggested that the Engineer and the Director of Public Relations make plans to that end. Commissioner McIver offered the suggestion that on Commission trips, for instance, it might be well to have film strips depicting activities of the Highway Department, particularly as they apply to the various communities that are visited. It was also his thought that the agency that is employed to supervise advertising for the Travel and Information Department might have some good ideas on the subject. Commissioner Chessman observed that newspapers will help if they are furnished information on highway activities, particularly as they affect the community that is served by their papers. The Engineer interposed that the idea is a very good one and that it can be put into effect with no trouble. The Director of the Travel Division expressed himself similarly and advised that no particular difficulty would be encountered in providing appropriate slides when he has been supplied with informative material.

Announcement was made by Chairman Reynolds that the Commission plans no particular changes in the organization of the State Highway Department but the Commission does wish to keep abreast of modern practices. The Commission, he explained, will spend highway funds as economically as possible in building and maintaining highways in the State. He asked the Engineer and others directly responsible to the Commission to keep the Commission advised of developments which arise between Commission meetings, so the Commission will get the information prior to the time it appears in the newspapers. He also mentioned that the Commission wants to take full responsibility for any criticism of the Highway Department, rather than the Engineers.

Also mentioned by Chairman Reynolds was the matter of expediting completion of contracts which have overrun the specified completion date. The Engineer explained that old contracts without the liquidated damage clause will soon be a thing of the past, as all contracts awarded since July, 1956 contain such clause. It was his feeling that the penalty contained in the damage clause is sufficient to make it unprofitable for contractors to overrun the specified number of working days, and that they will make a real effort to complete projects within the specified time limit. It was also his feeling that the damage clause will practically stop contractors from bidding a larger number of jobs than they can reasonably be expected to complete within the required time limits.

Chairman Reynolds requested a report at the next meeting from the County and City Relations Engineer, Mr. Clarence Swenson, concerning the duties and activities of his division.

The Acting Chief Counsel and the State Parks Superintendent reported concerning the request of the Columbia River Gorge Commission that Mr. Kenneth Wolfe be employed by the Highway Commission for the purpose of assisting in the acquisition of real property in the Columbia

River Gorge. It was pointed out that research had disclosed that Mr. Wolfe could not be employed because of his age, and that the Commission could not enter into a contract for special services with Mr. Wolfe because he is not a licensed real estate broker. The Commission was advised that the Columbia River Gorge Commission has proposed that the Highway Commission enter into a contract for special services with a third party who is a licensed real estate broker and do so with the understanding that Mr. Wolfe be employed by the real estate broker to carry on the terms of the contract, which he can do by qualifying as a licensed real estate salesman. The Acting Chief Counsel advised that this procedure would be legal, but pointed out that the Highway Commission would have no direct control over the actions of Mr. Wolfe; that it would be difficult to describe the duties to be performed with certainty; and that it would be difficult to compute the value of the services performed. It was also suggested that such a contract might be considered a subterfuge to avoid the Civil Service Laws. After considering and discussing the matter at some length, it was the decision of the Commission that the contract as suggested by the Columbia River Gorge Commission would not be approved. The Acting Chief Counsel was directed to advise the Columbia River Gorge Commission of the decision and to further assure the Columbia River Gorge Commission of its continued interest in the objectives of the Columbia River Gorge Commission and its desire to cooperate and assist in carrying out those objectives insofar as it can legally do so.

There being no further business to consider, Chairman Reynolds declared the meeting adjourned at 3:45 p. m.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

April 19, 1957

EXHIBIT "A"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

WEST UNIT, SANDY-FOREST BOUNDARY SECTION - MT. HOOD HIGHWAY

25417 Nicholson, Harry H. and Alice (Smith)
Right of Way
Option expires September 16, 1957

0.32 acre at $1,000 per acre	$ 320.00	
Private roadway, 2,000 sq. ft. ± Excess Damages	660.00 300.00	
Amount to be paid owners - chrg to Right of Way		$1,280.00

Grantor to remove fencing and one tree within r/w 60 days from notice or same becomes property of State.

EXHIBIT "A" (Cont)

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; weighing stations; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of widening in part, relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the

EXHIBIT "B-1" (Cont)

Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the widening in part, relocation, construction, improvement and maintenance of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his

EXHIBIT "B-1" (Cont)

judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 774.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 774, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "B-2"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways; and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and

EXHIBIT "B-2" (Cont)

the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3 That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

EXHIBIT "B-2" (Cont)

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "B-4"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; roadside developments; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the

owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the convenience of the public and the general welfare and pleasure of the motoring public fee simple title to certain parcels of real property for the development and maintenance of a roadside development. The said parcels of real property needed and required, and the specific use to be made thereof are more particularly described in the attached Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" are by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2 The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

3. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

EXHIBIT "B-4" (Cont)

4. That the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

7. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 777.

---

* FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 777, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28216

EXHIBIT "B-5"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street, quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate, construct, improve and maintain the Conner Creek Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and

EXHIBIT "B-5" (Cont)

from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation, construction, improvement and maintenance of the said Conner Creek Section of the Oregon Coast Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Conner Creek Section of the Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the widening in part, relocation, construction, improvement and maintenance of the said Conner Creek Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his

judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 778.

---

*FOOTNOTE

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 778, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "B-6"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; maintenance sites, quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the construction and maintenance of a maintenance site for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction and maintenance of a maintenance site for use in connection with the construction, improvement, betterment and maintenance of highways of the state highway system fee simple title to a parcel of real property located in Coos County, Oregon, and described as follows, to wit:

File No. R-25980 - Ray Gibney and Marian Gibney

A parcel of land lying in the Northeast quarter of the Northeast quarter ($NE\frac{1}{4}$ $NE\frac{1}{4}$) of section 27, Township 26 South, Range 13 West, Willamette Meridian, Coos County, Oregon, and being that tract of

EXHIBIT "B-6" (Cont)

land described in that certain deed to Ray Gibney and Marian Gibney, recorded in Book 212, Page 128 of Coos County Records of Deeds; the said parcel being that portion of said Northeast quarter of the Northeast quarter ($NE\frac{1}{4}$ $NE\frac{1}{4}$) lying Southeasterly of the Oregon Coast Highway; said parcel being more particularly described as follows:

Beginning at the Southeast corner of said Northeast quarter of the Northeast quarter ($NE\frac{1}{4}$ $NE\frac{1}{4}$); thence West along the South line of said Northeast quarter of the Northeast quarter ($NE\frac{1}{4}$ $NE\frac{1}{4}$) 140 feet, more or less, to a point 50 feet East of the center line of the Oregon Coast Highway; thence Northeasterly, 50 feet Easterly of and parallel to said Highway, 420 feet, more or less, to the East line of said Section 27; thence South along said Section line to the place of beginning.

The parcel of land to which this description applies contains 0.63 acre.

2. That the highway facility for which the said parcel of property is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 779.

EXHIBIT "B-7"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public, and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Gold Beach-Cape Sebastian Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and

EXHIBIT "B-7" (Cont)

from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3 That the relocation, construction, improvement and maintenance of the said Gold Beach-Cape Sebastian Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4 That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records

EXHIBIT "B-7" (Cont)

of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 780.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 780, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28224

EXHIBIT "B-8"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Buena Vista Ocean Wayside has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Buena Vista Ocean Wayside for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1 The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development, and maintenance of the Buena Vista Ocean Wayside fee simple title to certain parcels of real property. The said parcels of real property needed and required, and the specific use to be made thereof are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full *

2 That the above-described real property and the park and recreational purposes for which it is being acquired is necessary for the convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

EXHIBIT "B-8"(Cont)

3. That the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed, and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 781.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 781, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28226

EXHIBIT "B-9"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Black Bridge-Richland Section of the Baker Homestead Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Black Bridge-Richland Section of the Baker Homestead Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "B-9" (Cont)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the relocated and improved Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Black Bridge-Richland Section of the Baker Homestead Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 782.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 782, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28228

EXHIBIT "B-10"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites , or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system and right of way for a haul road; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement,betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "B-10" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 783.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 783, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28230

EXHIBIT "B-11"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Pacific Highway West; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED, by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Pacific Highway West, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "B-11" (Cont)

2. That the widening, improvement and maintenance of the said Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 784.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 784, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "B-12"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; weighing stations; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of widening in part, relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the

real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening in part, relocation, construction, improvement and maintenenace of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 785.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 785, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "B-13"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, re located or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way for any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway will be relocated, constructed or reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is

EXHIBIT "B-13" (Cont)

the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said relocated Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3. That the relocation, construction, improvement and maintenance of the said Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property, or interest therein.

EXHIBIT "B-13" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 786.

---

*FOOTNOTE:

28238

EXHIBIT "B-14"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which

EXHIBIT "B-14" (Cont)

is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and that specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway and the highway facilities for which each of the said parcels of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "B-14" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Condemnation Resolution No. 787.

EXHIBIT "B-16"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "B-16" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "B-16" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "D"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, ORS 366.130 authorizes and requires the State Highway Commission, with the approval of the Attorney General, to appoint a Chief Counsel; and

WHEREAS, Mr. Leonard I. Lindas, is an attorney and a member in good standing of the Oregon State Bar, and is admitted to practice before all of the courts of the State of Oregon and before the United States District Court for the District of Oregon, and is qualified to discharge the duties of Chief Counsel for the Commission;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That subject to the approval of the Attorney General of the State of Oregon, Mr. Leonard I. Lindas, is hereby appointed as Chief Counsel for the Highway Commission, to serve in such capacity for a term of four years, said appointment to become effective and said term of four years to commence upon April 22, 1957.

2. That the salary to be paid to Mr. Leonard I. Lindas, is hereby fixed by the Commission in the sum of $738 per month.

3. That, in addition to the salary which shall be paid to Mr. Leonard I. Lindas, he shall be entitled to and shall be paid his actual traveling and other expenses as may be incurred in the performance of his official duties.

4. That a duly certified copy of this resolution be delivered to the Attorney General of the State of Oregon, and that he be respectfully requested to approve the appointment of Mr. Leonard I. Lindas, as Chief Counsel for the State Highway Commission.

5. That this resolution cancels and supersedes Miscellaneous Resolution No. 201, adopted by the Commission on November 9, 1956.

6. That this resolution be entered into the minutes and records of the Commission as Miscellaneous Resolution No. 201a this 19th day of April, 1957.

EXHIBIT "E-1"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, the Silver Creek Falls Secondary Highway is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that in the vicinity of the State Highway Shops and the "Keep Oregon Green" headquarters, immediately east of the east city limits of the City of Salem, vehicles are parked on the southerly shoulders of said Silver Creek Falls Secondary Highway; and

WHEREAS, the parking of vehicles on said highway section creates a hazard to the traveling public by restriction of sight distance for vehicles entering the highway; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on the southerly side of said highway within said section;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the southerly side of the Silver Creek Falls Secondary Highway between Engineer's Station 5+66, at the southerly end of the Mill Creek Bridge, and Engineer's Station 15+60, at the Airport Road, creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the southerly side of the Silver Creek Falls Secondary Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING AT ANY TIME."

EXHIBIT "E-1" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 161 be entered in the minutes and records of the State Highway Commission as of the 19th day of April, 1957.

28252

EXHIBIT "E-2"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, the Ochoco Highway is a primary Highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, in the vicinity of Mill Creek at the Ochoco Reservoir east of Prineville, vehicles are parked on both shoulders of said Ochoco Highway; and

WHEREAS, the parking of vehicles on both shoulders of said highway section in combination with pedestrians crossing the highway between the parked vehicles creates a hazard to the traveling public as well as to the owners and occupants of the parked vehicles; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking of vehicles should be prohibited on both sides of said highway within said section;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendation by members of its staff, that the parking of vehicles on both shoulders of the Ochoco Highway between a point 0.10 mile west of Mill Creek (M.P. 28.08) and a point 0.10 mile east of Mill Creek (M.P. 28.28) creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on both shoulders of said Ochoco Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters, the words, "NO PARKING ON HIGHWAY SHOULDERS."

EXHIBIT "E-2" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 162 be entered in the minutes and records of the State Highway Commission as of the 19th day of April, 1957.

28254

EXHIBIT "E-3"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, the Three Mile Lane Secondary Highway is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that drag races will be held at the McMinnville Airport adjoining said highway; and

WHEREAS, field investigation discloses that the proposed drag strip will be visible from the highway for a distance of approximately 0.8 mile; and

WHEREAS, it is anticipated that vehicles will be parked along the highway shoulders to view the races, thereby creating a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on both shoulders of said highway within said section;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on both shoulders of the Three Mile Lane Secondary Highway between the road to the McMinnville Airport (Engineer's Station 142+20) and a point 650 feet east of the county road to Amity (Engineer's Station 188+00) creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway along said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on both shoulders of said Three Mile Lane Secondary Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS."

EXHIBIT "E-3" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 163 be entered in the minutes and records of the State Highway Commission as of the 19th day of April, 1957.

28256

EXHIBIT "F"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of The Dalles-Eightmile Creek Section of The Dalles-California Highway in Wasco County and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of The Dalles-Eightmile Creek Section of The Dalles-California Highway, beginning at Highway Engineer's Station 0+00 at a junction with the Columbia River Highway east of The Dalles and extending in a southerly direction to Highway Engineer's Station 362+50, a short distance south of Eightmile Creek, together with the map which for identification purposes bears Sketch Map File No. 1R-5-567 and the date of April 1957, (Right of Way Maps 7B-21-1 and 7B21-2), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

4 That heretofore this Commission by resolution dated November 3, 1948, designated the said The Dalles-California Highway as a "Throughway"

EXHIBIT "F" (Cont.)

within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known as the "Throughway Law," and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 19th day of April, 1957, as Survey Resolution No. 165.

28258

EXHIBIT "G"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, the Oregon State Highway Commission at its meeting of October 28, 1954, by Miscellaneous Resolution No. 128, designated a section of the Pacific Highway West, extending from the southwestern end of Barbur Boulevard in Portland, Oregon to the City of Newberg, Oregon, as the Herbert Hoover section of the Pacific Highway West; and

WHEREAS, it has come to the attention of the Oregon State Highway Commission that the above designation has caused confusion in residential and business mailing addresses, and it appearing to the Oregon State Highway Commission that the section of the Pacific Highway West from the Multnomah County line to the Tualatin River Bridge is generally known as Barbur Boulevard; and

WHEREAS, it is deemed to be in the public interest and necessity that the above-mentioned section be changed to Barbur Boulevard Section of the Pacific Highway West;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that:

1. That Miscellaneous Resolution No. 128, adopted by the Oregon State Highway Commission at its regular meeting of October 28, 1954, be amended to read as follows:

That section of the Pacific Highway West between the Multnomah County line and the Tualatin River Bridge is hereby designated and shall hereafter be known as Barbur Boulevard Section of the Pacific Highway West and that section of the Pacific Highway West from the Tualatin River Bridge to the City of Newberg, Oregon, shall hereafter be known as formerly, the Herbert Hoover section of the Pacific Highway West.

2. This resolution be entered in the minutes and records of the Commission as of the 19th day of April, 1957, as Miscellaneous Resolution No. 128a, and a true copy thereof filed with the Secretary of State.

EXHIBIT "H"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, the State Highway Commission, at its meeting of March 28 and 29, 1957, modified its policy of controlling access as to use by adopting substantially the following language for use in conveyances and judgments for the reservation of points of access when access is being controlled as to use:

1. Access for ordinary residential purposes only.

2. Access for production and transportation of agricultural products only.

3. Access for production and transportation of forest products only.

4. Access for production and transportation of mineral products only.

5. Operation of existing _____ activities only.

6. Operation of future _____ activities only.

7. Similar language as required in other specific cases.

WHEREAS, the State Highway Commission, at said March meeting, modified its access restriction enforcement policy by eliminating the requirement that a $1,000.00 bond be posted prior to the reopening of an access closed because of a violation and by adopting the following enforcement language to be used in conveyances and judgments:

> If, after written notice to desist, the grantors, or any person holding under them shall use any of said rights of access, including crossings, for any purpose not stated for that particular place, or shall permit or suffer any person to do so, such right of access shall automatically be suspended. The grantee shall thereupon have the right to close such place of access for all purposes. The suspension shall terminate when satisfactory assurance has been furnished the grantee that the place of access will be used only for the purpose hereinabove stated. The grantee's rights to close such place of access shall be continuing as to each succeeding use for a purpose not herein stated.

WHEREAS, there is now pending in various Oregon courts numerous condemnation cases in which the complaint contains the former access control as to use language and/or the $1,000.00 bond requirement for the

EXHIBIT "H" (Cont)

reopening of an access;and

WHEREAS, in certain cases amending the complaint to include the revised access control as to use language and/or the revised access restriction enforcement language would result in increasing the possibility of an amicable settlement or a more favorable verdict upon trial of the case;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the State Highway Commission as follows:

1. That the Chief Counsel is authorized and directed to amend complaints filed in pending cases which contain the former access control as to use language and/or the $1,000.00 bond requirement for reopening of an access so that the complaints will include the appropriate language adopted by the Commission at its March 28 and 29, 1957 meeting, whenever the State Highway Engineer approves the proposed amendment and, in the opinion of the Chief Counsel, the amended complaint will result in bettering the possibility for an amicable settlement or a more favorable verdict upon trial of the case.

2. That this resolution shall be entered in the minutes and records of the Commission as of April 19, 1957

EXHIBIT "I-1"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, on May 25, 1955 the State Highway Commission, by resolution, declared the necessity of acquiring a parcel of land in the Northwest quarter of the Southeast quarter ($NW\frac{1}{4}$ $SE\frac{1}{4}$) of Section 26, Township 23 South, Range 30 East, W.M., Harney County, Oregon, consisting of approximately 1.5 acres outside of existing right of way, and in addition certain access rights to the Central Oregon Highway, owned by John P. Fay (File R-21614), for the widening, improvement and maintenance of the Sage Hen Hill-Hines Section of the said Central Oregon Highway; and

WHEREAS, it has now been determined by the actual construction of the said Sage Hen Hill-Hines Section of the said Central Oregon Highway that said section can be completed without the necessity of acquiring the said parcel and said access rights from the said John P. Fay; and

WHEREAS, present highway construction plans do not contemplate using the said parcel or said access rights at this time or in the immediate future; and

WHEREAS, pursuant to the said resolution of May 25, 1955, the Legal Department of the State Highway Commission filed a condemnation proceeding to acquire the said parcel and access rights on April 11, 1956, which said proceeding is still pending in the Circuit Court of Harney County, Oregon, and being Harney County Circuit Court Case No. 4569; and

WHEREAS, the State Highway Commission has not taken physical possession of the said parcel described in said resolution of May 25, 1955, and which parcel is also described in the said condemnation proceeding.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that certain resolution adopted by this Commission on May 25, 1955, and identified as Condemnation Resolution No. 772, declaring the necessity of acquiring the real property described above, is hereby cancelled and revoked.

2. That the Acting Chief Counsel for the State Highway Commission be and he hereby is authorized to move the Circuit Court of Harney County, Oregon for an order to dismiss, without prejudice, Harney County Circuit Court Case No. 4569, entitled State of Oregon, by and through its State Highway Commission, composed of Ben R. Chandler, Charles H. Reynolds, and M. K. McIver, vs. John P. Fay and Jane Doe Fay, husband and wife, if married.

EXHIBIT "I-1" (Cont)

3. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957, as Resolution No. 772a.

EXHIBIT "I-2"

Minutes of April 19, 1957

RESOLUTION

WHEREAS, prior hereto and on, to wit, the 19th day of December, 1955, the State Highway Commission duly adopted a resolution, whereby it was found that certain interests or fee simple title to certain parcels of real property owned by Kernan Livestock Farm, Inc., an Oregon corporation, was needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the widening, construction, improvement, and maintenance of the said Pacific Highway West and the Denver Avenue-Union Avenue Intersection of the Pacific Highway West and the Pacific Highway East, together with all the rights of access of any nature of all of the contiguous real property of the said Kernan Livestock Farm, Inc., except as specifically reserved for the use of the contiguous property; and

WHEREAS, it was necessary for the Legal and Right of Way Department to institute an action in the Circuit Court of the State of Oregon for the County of Multnomah for the purpose of acquiring the said property for the reason that no satisfactory agreement could be reached with the owners of the said real property as to its value; and

WHEREAS, the project for the said construction and improvement was to be provided for with the assistance of federal aid funds and required the approval of the Bureau of Public Roads; and

WHEREAS, the Bureau of Public Roads has refused to approve the plans for the construction and improvement, as submitted by the Commission; and

WHEREAS, it will be necessary, in order to secure the approval of the Bureau of Public Roads, to make certain alterations and changes in the plans for said construction and improvement; and

WHEREAS, the Commission cannot, at this time definitely ascertain the exact interest or amount of property that it will be necessary to acquire in order to properly and adequately carry out said plans for the construction and improvement; and

WHEREAS, the Commission on the 28th day of March, 1957 duly entered an amended resolution correcting certain descriptions of the said property sought to be acquired, and pursuant thereto an amended complaint was filed; and

EXHIBIT "I-2" (Cont)

WHEREAS, it is now the judgment of the Commission that the said real properties therein sought to be acquired are no longer necessary or needed at this time for state highway purposes, and that therefor the action hereinbefore referred to should be dismissed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission, based on the foregoing, does hereby find and declare that certain interests in or fee simple title to certain parcels of real property owned by Kernan Livestock Farm, Inc., an Oregon corporation, are no longer needed or required at this time for the construction, improvement, betterment, and maintenance of the said Pacific Highway West and the Denver Avenue-Union Avenue Intersection of the Pacific Highway West and the Pacific Highway East, all of which are parts of the state highway system.

2. That the Chief Counsel is directed and authorized to dismiss the action previously instituted for acquiring such interests and title to said real property.

3. That this resolution be entered in full in the minutes and records of the Commission this 19th day of April, 1957 as Resolution No. 768a.

Portland, Oregon
May 16, 1957

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
Robert L. May, Jr., Assistant Counsel
E. F. Chidsey, Assistant Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Prior to opening bids for highway construction, Chairman Reynolds announced to the contractors and others assembled that a bid opening will be held in the State Highway Building in Salem at 10:00 a.m. on June 6, 1957. Bids will be opened, he stated, and a tabulation of bids prepared but the award of contracts will be deferred until the next Commission meeting, which is scheduled for June 27 and 28 in Portland.

Bids as follows were then opened and read aloud by the Secretary who announced that the Commission would award contracts at 4:00 p.m. in the same room.

WASHINGTON COUNTY
INSTALLATION OF TRAFFIC SIGNALS AND HIGHWAY ILLUMINATION ON PACIFIC HIGHWAY WEST AT ITS INTERSECTION WITH GREENBERG ROAD

Rochat Electric, Portland	$ 9,800.00
Steeck Electric Co., Medford	9,858.00
W. R. Grasle, Portland	10,643.00
Trowbridge Electric Co., Roseburg	11,500.00

The Commission approved the minutes of the regular Commission meetings held in Portland on March 28 and 29, 1957 and on April 19, 1957; and the minutes of a special meeting that was held in Salem on April 18, 1957. (The minutes of the meeting held on March 28 and 29, 1957 were approved later by Mr. Ben R. Chandler, Chairman at that time, by letter.)

The Parks Superintendent reported on the following park matters:

1. Offer of Clatsop County Court to present to the State as a gift a strip of land 200 feet wide on each side of the Iredale Road at the entrance to Fort Stevens State Park: This area, the Parks Superintendent stated, will enable the State to control developments at the entrance to the park and will provide a place for a suitable entrance marker. Following his favorable recommendation, the Commission accepted the land.

2. Use of rock material from a quarry owned by Crown Zellerbach Corporation adjacent to Cape Lookout State Park: The Parks Superintendent explained that material from this quarry is needed in the development of this State Park; that the Corporation has no objection to the State's using material from the quarry, but has requested that the taking be covered by an agreement. The proposed agreement, he continued, allows the State to use the material needed without cost, and as it is the only source available at the present time he recommended that the agreement be approved. The Commission accepted his recommendation.

3. Petition from residents of Lincoln County requesting that Big Creek State Park be renamed Wakonda Beach State Park: The name, "Wakonda", the Parks Superintendent stated, is used for other purposes in this vicinity and if adopted as a name for the park, may lead to confusion. He recommended no change in the name of the park at this time but that he be authorized to make a further study to determine whether or not the suggested name would be proper. The recommendation was approved by the Commission and the Parks Superintendent was instructed to report at the next Commission meeting.

4. Report on request of W. F. Badley that the use of the word, "Lookout" be eliminated from the name of the new highway building at Depoe Bay: The Parks Superintendent recalled that he had been instructed to consider a name that would not interfere with other names in the area. He said that names of businesses along the highway were explored and compared with a number of suggested names. He recommended that the name of the state building at Depoe Bay be changed to "Depoe Bay State Park", and that the Commission adopt a resolution formally changing the area at Depoe Bay from a wayside to a state park. The Commission approved renaming of the building and the park as suggested by the Parks Superintendent and thereupon adopted the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

5. Suggestion of the U. S. Army Corps of Engineers that consideration be given to the development of new park areas in the vicinity of Celilo, Rufus, and Biggs Ferry Crossing on the Columbia River: The raising of The Dalles pool, the Parks Superintendent stated, has created some bays that are attractive from a boating standpoint and should be studied to determine their value for park purposes. He requested authority to make such a study including entrance road possibilities. The Commission granted the authority.

6. Request of Nehalem Bay Expansion Association that the name "Nehalem Sand Spit State Park" be changed to "Nehalem Bay State Park": The Parks Superintendent stated that there are no known names which will conflict with the use of the suggested name, and as it is somewhat more dignified than the present name, he recommended that the new name be approved. The Commission approved the name of "Nehalem Bay State Park" by adopting the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

7. Proposed development of an overlook area as a state park, a short distance west from the town of John Day, as suggested by Mr. Herman Oliver: The proposed area, the Parks Superintendent commented, was carefully studied and as development of it would be mainly for local use, he recommended against acquisition and development of the area. The Commission accepted his recommendation.

8. Agreement with the Central Lincoln Utility District to furnish electric power for the overnight camping area extension at Honeyman State Park: It appears that to provide electricity for the new overnight camping facilities, it is necessary to extend the power line. The Utility District has agreed to make the installation on the condition that the State will agree to pay a minimum fee of $72.00 per year for a period of five years. It was the opinion of the Parks Superintendent that the actual power consumed will amount to considerably more than $72.00 per year; accordingly, he recommended such an agreement. The Commission approved the agreement as recommended.

The Assistant Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for state highway right of way, or for other purposes. After consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Reports were presented by the Assistant Right of Way Engineer concerning Miscellaneous Properties sold and changes in the status of rental properties. The Commission accepted the reports. (For details see Miscellaneous Sales report dated May 16 - 17, 1957, and Supplemental Rental Report for the period March 14, 1957 to May 7, 1957, in the General Files).

Sale of several parcels of property was recommended by the Assistant Right of Way Engineer. He explained that these parcels are no longer needed for highway purposes and that the stipulated minimum price for each reflects the real value of the property. The Commission authorized sale of the following properties and thereupon adopted the attached resolutions relative thereto, marked EXHIBIT "B-1" through "B-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

a. 0.24 acre of former Coos County property, File No. 11501, on the Marshfield-Coquille Section of the Oregon Coast Highway in Coos County, at a minimum price of $150.

b. 0.12 acre of former Brannon property, File No. 18946, on the Chenoweth Park-Deady Section of the Pacific Highway in Douglas County, at a minimum price of $150.

c. 0.266 acre of the former Clink property, File No. 8864, on the 11th Avenue Connection at the NE corner of W. 7th Avenue and Garfield Street along the Pacific Highway in Eugene, at a minimum price of $5,793. (SEE EXHIBIT "B-1")

d. 880 sq. ft. of the former Adrian property in Lot 12, Block 4, West Moreland Addition to Eugene on the 7th Avenue Section of the Pacific Highway, File No. 8789, for a minimum price of $200.

e. 14.9 acres of the former Hillyer property, File No. 20900, near the Brooks Interchange on the Portland-Salem Expressway north of Salem, at a minimum price of $1,150. (SEE EXHIBIT "B-2")

f. 11.2 acres of the former Harris property, File No. 24147, on the Valley Jct. -Sheridan Section of the Salmon River Highway in Yamhill County, for a minimum price of $2,000. (SEE EXHIBIT "B-3")

"Indentures of Access" pertaining to connections to state highways from private properties were presented by the Assistant Right of Way Engineer and were approved by the Commission as follows:

a. Ernest W. and Georgia A. Barnum property, on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County. He explained that the original deed allowed two 25 foot approaches, but the new agreement provides for only one 60 foot approach and the elimination of the two existing approaches.

b. Roy E. Shafer property on the Willowdale-Madras Section of The Dalles-California Highway in Jefferson County, involving only a change in location of access.

c. Detlefsen property on the Coquille-Rink Creek Section of the Coos Bay-Roseburg Highway involving elimination of two 25 foot points of access and the substitution of two 50 foot points of access unrestricted as to use. He explained that the present points of access were granted for commercial purposes. The 50 foot accesses are to allow easier access by trucks.

A Grant of Access was recommended by the Assistant Right of Way Engineer and approved by the Commission to the James I. and Ida L. Ahern property on the Deep Canyon Unit of the McKenzie Highway, File No. 24173. He explained that a clause granting three accesses was inadvertently omitted from the original deed, which omission left the Aherns without access to the highway. It was originally intended to grant them three access points.

The Assistant Right of Way Engineer also recommended that two Grants of Access be allowed Deschutes County on the Deep Canyon Unit of the McKenzie Highway, one on the northerly side of the highway at Engineer's Station 78+00, and one on the southerly side of the highway at Engineer's Station 70+50. He commented that because of an oversight, these points of access were omitted in the options and two 25 foot accesses should be allowed. The Commission granted the accesses as recommended.

Consideration was given to a request from Mr. John Sharp that he be allowed to construct a fence on state highway right of way on the Camp Creek-Paulina Section of the Paulina Secondary Highway in Crook County. The Assistant Right of Way Engineer explained that at this particular location on federal land, the highway right of way is 200 feet wide. Mr. Sharp wishes to construct a fence 50 feet from the highway center line and has agreed to pay the sum of $822.50 for the privilege. Upon his favorable recommendation, the Commission approved a permit to Mr. Sharp with the understanding that he will remove the fence later on at his expense if requested to do so.

The Commission considered payment of $450 to Mrs. Anna L Bennett because of an unsatisfactory access from her property to the Tidewater Section of the Alsea Highway in Lincoln County. The Assistant Right of Way Engineer stated that the existing access is steep and dangerous and that the cost to the State to fix it would be more than the $450 that Mrs. Bennett has agreed to accept. The Commission approved the payment upon condition that Mrs. Bennett will sign a complete release for all damages.

The Assistant Right of Way Engineer recommended that 0.09 acre of right of way on the Rogue River Loop Highway in Josephine County be deeded to Stanley M. and Henrietta H. Adcock. He explained that their old septic drainage field was destroyed by highway construction and they cannot drain sewage into the adjoining Rogue River. Their only alternative is to establish a drainage area on state property. As such drainage area will cause no harm to the State, he recommended that a parcel which lies at the lower portion of a fill slope, be deeded to them and that a slope easement be secured for future highway use. The Commission approved the recommendation.

Release of a slope easement and the granting of a quitclaim deed to J. C. Ditto on the Newport Section of the Oregon Coast Highway in Lincoln County, was considered. The Assistant Right of Way Engineer stated that inasmuch as the lots have been filled in, the slope easement is no longer needed and he recommended that it be released. The Commission approved the release and the deed quitclaiming the property to the Dittos.

The Commission gave attention to a form of agreement with the City of Albany concerning acquisition of 54.83 acres of the Albany Municipal Airport that are needed as right of way for the North Jefferson Jct. -Albany Section of the Pacific Highway. The Engineer explained that the matter resolves itself into a friendly suit to determine the value of the airport land. It appears that the City had appraisals made on the basis of subdivision for residential or business use and on that basis the land had been appraised at a value of nearly $2,000 per acre. If the land had been appraised as an airport, the value would have been about $1,000 per acre. The State is to move at its expense the Airport buildings and Gun Club building and the City and State agree to let a jury decide the value of the land to be acquired. The Commission approved the arrangement.

In discussing the Albany agreement, the Engineer observed that on an average, awards made by juries in condemnation cases are about 20 percent above appraised values. Commissioner McIver commented that attorneys' fees and interest payments raise the cost greatly. The Assistant Counsel remarked that settlements arranged out of Court average about 10 percent above appraised values.

Following the favorable recommendation of the Assistant Right of Way Engineer, the Commission approved payment of $500 to Claude J. Emmert for damages to his well caused by highway construction on the McMinnville Airport-Dayton Jct. Section of the Three Mile Lane Highway in Yamhill County. This payment is in lieu of furnishing Mr. Emmert a new well. Mr. Emmert is to pipe water from another source and is to be granted a permit to install a water pipe on state right of way and on a state highway bridge.

The Commission discussed with the Engineer a matter to be presented by a delegation from Klamath County on the following day concerning the Lake of the Woods Road and the northerly end of the Klamath Lake Secondary Highway. The Engineer stated that he had been advised that the Klamath County Court has now indicated a willingness to take over a section of the Klamath Lake Secondary Highway northerly from its junction with the Lake of the Woods Road to Fort Klamath, if the State will designate the Lake of the Woods Road a secondary state highway with the proviso that if and when traffic on the Klamath Lake Secondary Highway increases sufficiently the Commission will at that time consider reassuming jurisdiction over this road as a secondary state highway. He advised that the County Court will be present on the following day but wants to know in advance if the Commission looks with favor on their proposition. He was authorized to tell the County Court that the Highway Commission is interested in this offer (When the delegation appeared on May 17, 1957, the Klamath County Court agreed to take over as a county road the northerly end of the Klamath Lake Secondary Highway in return for which the State is to place the Lake of the Woods Road on the state secondary highway system from the Jackson County line to the junction with the Klamath Lake Secondary Highway, with the understanding that the State will also take steps to place the road on the forest highway system.)

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements and for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission's resolution, dated December 20, 1951.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-26152 - Hugh H. Switzer and Betty J. Switzer
(Multnomah County)
Parcel No. 1: 0.37 acre for Right of Way

Amended resolution to increase the area of the taking

North Jefferson Junction-Albany Section of Pacific Highway East

R-25604 - George K. Miller, et ux.
Right of Way (Linn County)
0.10 acre

Right-of-way maps, construction plans and other data were submitted to the Commission and the Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. After considering the matter in the light of information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request by adopting the attached resolutions relative thereto, marked EXHIBIT "G-1" through "G-17", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Chief Counsel presented and the Commission accepted a report on cases which have been tried in court, which cases are summarized as follows:

REPORT OF CONDEMNATION CASES TRIED - APRIL 16 to MAY 6, 1957

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Hone R-22310	Coos	Cape Arago Secondary	Rocky Point-Tarheel Creek	$ 300	$ 500	$ 500
Goudy R-21508	Curry	Oregon Coast	Euchre Creek-Wedderburn	4,750	13,000	9,500
Goudy R-24728	Curry	Oregon Coast	Euchre Creek-Wedderburn	3,500	6,000	4,000
Holmes R-22712	Multnomah	Portland-Salem Expressway	Barbur Blvd.-Harbor Drive	770	1,500	1,000
Cadle R-18165	Polk	Willamina-Salem	Dolph Corner-Rickreall	1,425	In excess of 10,000	3,500
Harland R-18161 R-24506	Polk	Willamina-Salem	Dolph Corner-Rickreall	10,575	100,000	17,000
Simpson R-18155	Polk	Willamina-Salem	Dolph Corner-Rickreall	4,500	19,000	9,500

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2484	Duncan McKay	State and City of Bend	Deschutes	Damage to real property	$17,158.81	Non-suit as to State
L-2728	State	B. L. Brewer	Lane	Damage to State vehicle	47.75	$ 47.75

May 16, 1957

REPORT OF TRIAL OF OTHER CASES - Cont.

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2723	State	Dolores L. Knight	Multnomah	Damage to guardrail	$ 210.05	$ 210.05
L-2716	State	Pollans	Umatilla	Damage to sign	93.36	93.36

(For additional details, see copy of the Chief Counsel's letter of May 8, 1957, and the tabulation of condemnation cases tried during April 16 to May 6, 1957, in the General Files).

In connection with the report of cases tried, the Chief Counsel commented that the court has ruled against the State in the Sigfrid case, one of the suits brought on by the Mitchell flood. It was his feeling that the court erred in its decision and that the case should be appealed. The Commission granted authority to appeal the case.

He also mentioned briefly the Stumbo case involving right of way on the Pacific Highway in southern Oregon. The Stumbos, he stated, have demanded the sum of $250,000 for property for which the State has offered $100.00. They have subdivided the small parcel into two-inch squares which they are selling to the public.

The Commission accepted a report submitted by the Chief Counsel showing condemnation cases which have been settled since the last Commission meeting, summarized as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Holt R-24543	Linn	Pacific East	N. Jefferson Jct.-Albany	$ 4,500	$ 5,000
Neeley R-14578	Linn	Pacific East	N. Jefferson Jct.-Albany	11,750	11,750

In addition to these cases, the Chief Counsel also reported that the case with J. M. Housley, et ux. (R-17836), concerning property on the Pacific Highway near Roseburg, has been settled for the sum of $18,000. He recommended approval thereof. He recalled that this case has been in litigation for four years and that the defendants in the first instance asked

remuneration in the sum of $175,000. During the last few months, however, one of the attorneys for the defendants made overtures for a settlement starting in the neighborhood of $35,000, and the owners eventually accepted the sum of $18,000. He pointed out that if the case had been decided in court there would be additional payments to the defendants of four years' interest and possibly attorneys' fees and court costs. The Commission approved the settlement as recommended.

He also reported settlement of a case with Car Vue Theater, (L-2551) involving acquisition of 2.24 acres of land needed as right of way for the Forest Grove-Hillsboro Section of the Tualatin Valley Highway. He recalled that the settlement that was approved by the Commission at its meeting on January 22, 1957, was in the sum of $11,000, including $650 for moving a sign. It was also agreed at that time to pay interest at the rate of 6 percent from July 16, 1956, which was the date upon which the State took possession of the property; however, through an oversight the settlement as reported to the Commission did not set forth the obligation to pay the interest. He recommended in view thereof, that interest in the sum of $466.16 be allowed at this time as agreed. The Commission approved the payment.

The Chief Counsel stated that under authority of a resolution that was adopted by the Commission on December 20, 1951, offers for acquisition of certain parcels of real property have been tendered to the owners prior to the institution of condemnation proceedings, as follows:

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25419 - Cecelia H. Eggers, et al. 6.88 acres for right of way purposes. Offer of $11,700.00 approved by Mr. Reynolds April 30, 1957.

R-25710 - Glendale Holte, et al. 0.04 acre for right of way purposes. Offer of $150.00 approved by Mr. Reynolds April 30, 1957.

North Jefferson Junction-Albany Section of the Pacific Highway East

R-24543 - Frances L. Holt, et al. 11.01 acres for right of way purposes Offer of $4,500.00 approved by Mr. Reynolds April 30, 1957.

Black Bridge-Richland Section of the Baker-Homestead Highway

R-26017 - Lanta M. Burnside, et al. 4.1 acres for right of way purposes and 0.29 acre for easements to reconstruct irrigation ditches. Offer of $1,730.00 approved by Mr. Reynolds April 30, 1957.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-22723 - Ray Parker, et al. 1.72 acres for right of way purposes and 0.22 acre for excess takings. Offer of $6,250.00 approved by Mr. Reynolds April 30, 1957.

Siletz-Newport Section of the Oregon Coast Highway

R-4251 - F. R. Salway. 4.70 acres for right of way purposes. Offer of $2,500.00 approved by Mr. Reynolds April 30, 1957.

Newberg-Gerin Corner Section of the Hillsboro-Silverton Highway

L-2677 - Walter Adolf, et al. 12.86 (12.42 net) acres for right of way purposes. Offer of $8,500.00 approved by Mr. Reynolds April 30, 1957. (Increase from $6,475.00 because of the acquisition of 2.42 additional acres)

The Commission approved the offers as reported.

A report was presented by the Chief Counsel concerning orders that have been issued by the Public Utilities Commissioner relative to proceedings in which the State has been made a party, summarized as follows:

PUX 169: Blanket petition of Union Pacific Railroad Company for an order requiring motor vehicles transporting logs, poles or pilings to stop at a multitude of crossings on its main line and branch lines in Eastern Oregon. The order denied the petition with respect to a few crossings but on the whole the petition of Union Pacific Railroad Company was granted. The Railroad Company is to install truck stop signs on its cross-buck signs and the State is to provide advance warning signs on the highway.

PUX 216: Application of Marion County for authority to construct a crossing at grade of the tracks of Southern Pacific Company on an extension of South 25th Street in Salem. The order provides that the entire cost thereof shall be borne by the County.

PUX 218: Application of Edward Hines Lumber Company for authority to use a private road crossing on the Central Oregon Highway near Hines in Harney County. The purpose of the proceeding is to legalize a crossing that was allowed by the Highway Commission prior to the enactment of legislation placing jurisdiction over such crossings in the Public Utilities Commissioner. All vehicles on the private road are required to stop before proceeding across the highway.

The Chief Counsel recommended a change in the policy of the Commission concerning the use of staff appraisers and outside professional appraisers for determining settlements for right-of-way acquisition, including condemnation cases. He pointed out that in condemnation cases it has been the practice to employ at least two outside professional appraisers and at times the State has been placed in the awkward position of paying the outside appraisers a sum in fees which sometimes is in excess of that offered

the land owners. He recommended adoption of the following procedure for use hereafter:

1. That in all cases involving a taking of less than $1,000 only staff appraisals be used, either as a basis of settlement or of trial.

2. That in all condemnation cases involving a taking of $1,000 or less, only staff appraisers be used in the subsequent trial.

3. In all other condemnation cases, a staff appraiser be used, supported by the use of one or two professional appraisers, depending upon the particular case and the problems presented.

He also commented that in testifying before juries there is virtue in having the people appear as witnesses who originally negotiated with the property owners. It was his feeling that these right-of-way agents by and large are as well qualified as professional appraisers and their appearance in court would tend to establish better public relations. He also observed that the procedure recommended is followed in a number of other states and particularly in California whose procedures in acquiring right of way are considered very good. The Commission approved the policy changes as recommended.

The Chief Counsel recommended and the Commission approved an increase in salary for the Assistant Counsel, Robert L. May, Jr., from $694.00 per month to $716.00 per month, effective May 1, 1957.

The Commission considered the matter of instituting eviction proceedings against Elizabeth L. Mansfield, who occupies state highway property located in the 3200 block of S. W. Hood Street in Portland. The Chief Counsel explained that the property was purchased from Miss Mansfield in 1953 for the sum of $14,000 and she had agreed to pay rental for the four houses at the rate of $85.00 per month. In July, 1956, the Portland Bureau of Health served notice on Miss Mansfield that she was maintaining living quarters in a building posted as unfit for human occupancy. She has paid no rent since January, 1956, and has refused to vacate the premises. He recommended and the Commission granted authority to take proceedings as are necessary to evict the tenant.

Consideration was given to payment of the premium for the renewal of liability insurance provided for in the agreement with the Medford Irrigation District covering construction of the Medford County Farm Section of the Pacific Highway. In the relocation of the irrigation facilities, the Chief Counsel reported, it was agreed that because of possible increased liability which would be imposed upon the Irrigation District by reason of the relocation of its facilities, the State would pay the premium for additional liability insurance for a period of ten years, or would obtain the same type of insurance coverage elsewhere at State expense. Since the date of the

original agreement of January 22, 1953, the State has paid the premium for the additional insurance. A renewal certificate for the period from May 20, 1957 to May, 1958, with a statement for premium in the amount of $186.66, has been received, and he recommended that it be paid. The Commission approved the payment.

The Commission accepted and approved a report presented by the Chief Counsel concerning claims against others which have been abandoned as uncollectible and which are summarized as follows:

CAO-57-16, Lyons: On January 10, 1957 a State Highway Department sedan collided with a sedan owned and operated by Mr. Frank Lyons, causing damages to the State vehicle in the amount of $16.50. Further investigation disclosed that the State vehicle made an improper turning movement and that there was no legal liability on the part of Mr. Lyons.

CAO-55-32, Archie W. Yandell, L-2600: On December 11, 1954 a sedan owned and operated by Mr. Yandell collided with the Isthmus Slough Bridge on the Coos River Highway causing damages to the bridge in the amount of $457.72. Mr. Yandell has not replied to any letters and the Commissiion, in June, 1956, authorized institution of legal proceedings to collect the claim. A summons was served on Mr. Yandell's brother. Judge King held that the service was defective and that the case should be dismissed, and on April 16, 1957 the judge did dismiss the action. Further investigation revealed that the defendant now resides in New York State and that he has no property in the State of Oregon.

The Chief Counsel reported that the Phoenix Sand & Gravel Company has filed suit against the State for services and materials furnished for an embankment repair job at Torrent Creek on the Pacific Highway in Jackson County, under Contract No. 4763. The contract, he stated, provided for an estimated 16,000 cubic yards general excavation, whereas only 9,924.1 cubic yards were actually removed. The plaintiff contends that the calculations of the State are in error and that a total of 16,322 cubic yards of material was excavated, for which they are entitled to compensation at their bid price of 64.5 cents per cubic yard. The Commission authorized defense of the case.

Approval of the appointment of Mr. Glen V. Sorensen, Salem, as an assistant attorney, was requested by the Chief Counsel. He explained that Mr. Robert P. Amacher, who has been employed as an attorney since October, 1955, has accepted a commission in the Judge Advocate General's Office of the United States Air Force, and it is contemplated that Mr. Sorensen will assume Mr. Amacher's duties. The appointment, he continued, has been approved by the Attorney General, at a salary of $513.00 per month, effective immediately following adjournment of the current Legislative Assembly. The Commission approved the hiring of Mr. Sorensen as reported.

The Assistant Counsel presented a report on the status of legislation that is being considered by the 1957 Legislative Assembly pertaining to state highways. He mentioned briefly that of thirteen bills that were sponsored by the Commission, seven have passed, five are "dead", and one has passed the House of Representatives. The Commission accepted the report. (For details see the Chief Counsel's letter concerning status of legislation, dated May 10, 1957, in the General Files.)

Mr. Howard Maple, Manager of the Coos County Chamber of Commerce, appeared before the Commission concerning improvements to the Coos Bay-Roseburg Highway, Route No. 42. He was accompanied by Mr. George Burr, Mayor of the City of Coquille and Chairman of the Highway Committee of the Coos County Chamber of Commerce. He advised that he represents not only the Coos County Chamber of Commerce, but also the President's Council which is composed of the presidents of seven Chambers of Commerce in the County. It is the considered opinion of the Council, he said, that the most important highway project in Coos County for 1957 is the improvement of Highway 42. He urged the immediate improvement of this highway. He also urged the Commission to acquire additional land at Sunset Bay State Park which is needed to develop overnight camping facilities. He expressed hope that an agreement can be reached between the State and Cottrell Bros., owners of the property who, he said, may now be willing to sell the property for $15,000. He gave as his feeling that the State will have to pay more for it later on. Mr. Burr endorsed Mr. Maple's remarks and asked the Commission to consider the improvement of Highway 42 from the standpoint of relieving the unemployment situation in Coos County. He advised that because of the slack in the lumber and logging industries, many people are out of work and that any new highway or park project that can be started in Coos County will tend to relieve the unemployment situation. He expressed hope that Sunset Park can be developed at an early date.

The meeting recessed at 12:00 noon and reconvened at 1:30 p.m. in the same room with the same persons present and participating.

The Engineer reported that under authority previously granted him by the Commission he has awarded contracts referred to him as follows, the conditions of the awards having been satisfied:

(1) Grading and stone base on West Unit, Airlie-Suver Section of Burns Corner-Suver Road in Polk County. Bids received March 29, 1957. Conditions of award satisfied April 23, 1957. D. F. McKenzie, Salem, low bidder.

(2) Crabtree Junction-Brewster and Oak Creek School-Lebanon Paving Project, Linn County. Bids received April 19, 1957. Conditions of award satisfied April 23, 1957. Morse Bros., Lebanon, Low bidder.

(3) Grading and paving on Gregory Road-Central Point Junction and Table Rock Road-Crater Lake Junction on Table Rock Road and Crater Lake Highway-Jacksonville Road, Jackson County. Bids received April 19, 1957. Conditions of award satisfied April 25, 1957. Hughes & Dodd Company, and Tru-Mix Equipment Company, Medford, low bidder.

(4) Grading and paving West City Limits-Main Street (Beaverton) on Farmington Highway, Washington County. Bids received April 19, 1957. Conditions of award satisfied April 26, 1957. Porter W. Yett, Portland, low bidder.

(5) Construction of Pacific Highway Overcrossing of S. P. Railroad at Jefferson Junction, Linn County. Bids received March 28, 1957. Conditions of award satisfied April 26, 1957. Johnston & Bryant, Newberg, low bidder.

(6) Grading and paving the Gold Beach-Hunter Creek Section of Oregon Coast Highway, Curry County. Bids received March 29, 1957. Conditions of award satisfied April 26, 1957. The Central Heating Co., Ore. Ltd., Eugene, low bidder.

(7) Elgin-Union Rock Production Project on Wallowa Lake and Cove Highways, Union County. Bids received April 19, 1957. Conditions of award satisfied May 6, 1957. E. H. Itschner Company, Molalla, low bidder.

(8) Grading and paving on Hopmere Road-McNary Wye Section of Wheatland Road, Marion County. Bids received April 19, 1957. Conditions of award satisfied May 9, 1957. Central Paving Company, Independence, low bidder.

(9) Grading the North Jefferson Junction-S. P. Railroad Overcrossing Section of the Pacific Highway, Marion and Linn Counties. Bids received March 29, 1957. Conditions of award satisfied May 9, 1957. Roy L. Houck & Sons, Salem, low bidder.

(10) Grading the S. Unit, Newberg-Gearin Corner Sec. of Hillsboro-Silverton Highway, Marion and Yamhill Counties. Bids received April 19, 1957. Conditions of award satisfied May 10, 1957. John Havlik, Jr., Scappoose, low bidder.

Placement of reduced load limits, allowing 11,000 pounds gross on any single axle and 20,000 pounds gross on any pair of tandem axles, was reported by the Engineer on the following highways:

1. Crater Lake-North Highway No. 232, M.P. 0.0 to M.P. 3.81.

2. West Diamond Lake Highway No. 233, from M.P. 8.0, two miles east of the Jackson County-Douglas County line, to M.P. 23.89, at its junction with Crater Lake-North Highway.

3. East Diamond Lake Highway No. 425, over its entire length.

All three of these load limits, the Engineer stated, were made effective at 9:00 a.m., May 10, 1957, because of wet and weak oil surfacing caused by removal of snow and thawing conditions. The Commission confirmed placement of the reduced load limits as reported.

The Engineer also reported that under authority previously granted by the Commission he has removed reduced load limits on certain sections of state highways, as these sections are now able to carry legal loads without undue damage to the roadbed. Removal of the load limits was confirmed by the Commission on the following sections of state highways:

1. John Day-Burns Highway, from M.P. 10.23, at Joaquin Miller State Park, to M.P. 30.19, five miles south of Seneca, effective 5:00 p.m., April 25, 1957.

2. Medical Springs Secondary Highway, from M.P. 0.5, 0.17 mile south of the city limits of Union, to M.P. 33.22, two miles south of Salt Creek, effective 5:00 p.m., April 30, 1957.

3. Crane-Scotts Butte Secondary Highway from M.P. 56.0, approximately five miles northwest of the Harney County-Malheur County line, to M.P. 66.0, southeast of the junction with the county road to Folly Farm, effective 5:00 p.m., May 6, 1957.

4. Burns-Crane Highway from M.P. 16.74, at Lawen, to M.P. 28.23, junction with Crane-Scotts Butte Secondary Highway, effective 5:00 p.m., May 6, 1957.

Chairman Reynolds inquired of the Engineer as to the relative value of Portland cement and asphalt in surfacing of state highways. The Engineer explained that on a four-lane section Portland cement will cost about $36,000 more per mile than an asphalt surface. However, maintenance of a concrete surface is practically nil until the latter years of the life of the pavement, whereas, maintenance of asphalt surfaces has a tendency to decrease during the years. He pointed out that there are certain advantages in using Portland cement in urban areas where the traffic is very heavy and where it would be an advantage in keeping maintenance crews off the highway as much as possible. He also pointed out that many of the older Portland cement pavements have been resurfaced with asphalt, which is more economically maintained than the other type. Chairman Reynolds inquired as to why the Commission should use Portland cement if an asphalt surfacing is satisfactory and more economical. The Engineer replied that one of the reasons would be in keeping maintenance forces off heavily traveled urban sections. Commissioner McIver suggested that it might be advisable to

"try-out" some concrete pavement outside of urban areas. He mentioned US99 in the vicinity of Albany and Salem. After some further discussion regarding the merits of the two types of surfacing, the Commission instructed the Engineer to make a careful study of the matter and present a report.

Chairman Reynolds stated that there should be some statement in the minutes outlining the Commission's understanding as to the intent of the Legislature as to where the $12,600,000 which it authorized should be spent. The Engineer stated that it has been clearly understood throughout the legislative hearings on this bill that the money is to be used in reconstructing the Oregon Coast Highway between Gold Beach and Brookings in Curry County. As construction costs have risen considerably since the estimate was made to complete the highway through the county, he suggested that the construction of the section from Pistol River to Brookings be considered by the Commission as the No. 1 project in expenditure of this bond money. He explained that the section north of Pistol River can be constructed in stages so that the highway can be used as the several segments are constructed, whereas, south of Pistol River the entire section must be completed before any part of it can be used. He estimated the cost to construct the section from Pistol River to Brookings at $11,000,000 and he gave as his thought that grading can be started this year and be completed in about three years. He pointed out that the new construction will save about eight miles in distance. The Commission instructed the Chief Counsel and the Engineer to prepare a statement for inclusion in the minutes of the next following meeting, explaining definitely why the Commission is spending this money in Curry County, and outlining a definite program for expenditure of the money so the information will be a matter of record for future highway Commissions.

The Commission confirmed the Engineer's action in reclassifying from a Group II status to a Group I status the following state highway sections:

1. Eddyville-Blodgett Secondary Highway No. 180, between M.P. 11.72 and M.P. 19.29.

2. Scholl's Secondary Highway No. 143, from Progress, at M.P. 9.60, to a junction with the Beaverton-Hillsdale Highway at M.P. 12.40.

The Engineer explained that in each case test runs were made with vehicles having a combined over-all length of 60 feet, and it was found that such vehicles can negotiate the sections of highway without encroaching upon the opposing traffic lane.

The Engineer submitted a report on a previous request made by the Department of Services for the Blind to install and operate a coffee shop in the basement of the State Highway Building in Salem. Conferences, he stated, have been held with the parties concerned and installation of the facilities has been approved by the Secretary of State. He recommended

that this installation be authorized; also an expenditure estimated at $985.00 be approved to pay for installation of a partition, asphaltic tile on the floor, a window ventilator, plumbing to connect with the sink and other miscellaneous items. The Commission approved the recommendation and the expenditure.

The Commission accepted a report submitted by the Engineer showing statistics on the Weighmaster operations for a three-month period from January through March for the years 1953 to 1957, inclusive.

Consideration was given to a resolution from Pomona Grange No. 23, Grant County, requesting improvements to the John Day Highway to accommodate 55-foot truck and semitrailer combinations. The Engineer reported that test runs made in 1954 with 55-foot semitrailers revealed some deficiencies between Dixie Summit and Unity, between Unity and Brogan, between Baker and Unity and between Canyon City and Seneca on the John Day-Burns Highway. It was his thought that these deficiencies have been overcome by minor betterment work and by reconstruction performed by the Forest Service. The next move is to find someone in the trucking industry who is willing to furnish a 55-foot truck and semitrailer combination to conduct a test run, and he recommended that the Grange be so informed. The Commission accepted his recommendation.

A report was submitted by the Engineer on the previous request of the North Albany-Corvallis All-weather Highway Association for improvement of the existing Albany-Corvallis Highway by raising the grade sufficiently to permit travel during flood periods. The Engineer advised that an investigation was made and it was found that to perform a satisfactory improvement will cost approximately $876,000. It was his feeling that a makeshift job should not be performed and that no large amount of money should be expended on the existing road. He pointed out that to acquire right of way along the existing highway to provide for raising the road will cost approximately $300,000. He recommended that the people who are interested be informed that the project cannot be considered at this time due to lack of funds to finance it. The Commission accepted the recommendation.

The Engineer presented a written report including a map, on the re-evaluation of the proposed interstate system of highways within the Portland urban area. The Commission accepted the report and authorized the Engineer to continue the studies.

A report was presented by the Engineer concerning the renaming of a section of the Pacific Highway West in the Tigard area. He recalled that, in response to a petition signed by approximately 95 percent of the businessmen of Tigard and vicinity, concurred in by the Washington County Court, the Commission on April 19, 1957, named a section of this highway from the Multnomah County line to the Tualatin River Bridge, Barbur Boulevard. However, when inquiries were made by Mr. W. O. Widdows, in charge of signing, to secure approval from the City of Portland and Multnomah County for uniform signing from 13th Avenue to the Tualatin River Bridge, he found that postal authorities, the City and the County insisted that the

section be named Southwest Pacific Highway. The Washington County Planning Commission which is now engaged in numbering businesses and residences along this section also recommends that the section be named Southwest Pacific Highway. The Washington County Court and the Tigard Chamber of Commerce, upon being contacted, admitted that they did not coordinate their original request with the City of Portland, the postal authorities, or Multnomah County. However, they indicated that their second choice for a name would be Southwest Pacific Highway. The Engineer recommended that the Commission rescind its action taken April 19, 1957, and designate that section of US 99W, between 35th Avenue in Portland and the Washington-Yamhill County line at Rex Hill, "Southwest Pacific Highway" for the principal purpose of clarifying mailing addresses. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof, with like effect as though extended in full herein; however, stating specifically that the section from Rex Hill into the City of Newberg shall still be known as "Herbert Hoover Boulevard".

The Commission gave attention to the following items of unfinished business appearing on the Secretary's summary, dated April 19, 1957:

1. Offer of City of Delake to donate property for park development: The Parks Superintendent stated that his report on this subject is not yet complete. The item is to remain on the list of unfinished business.

2. Request of North Albany-Corvallis All-weather Highway Association for improvement of the Albany-Corvallis Highway along the existing route to eliminate curves and flooding conditions: This item was ordered deleted from the list of unfinished business as a report on the subject was submitted by the Engineer earlier in the day.

3. Objection of Mr. Badley of Otter Crest to the use of the word "Lookout" in the name of the state park building at Depoe Bay: This item was ordered deleted from the list as a report was submitted by the Parks Superintendent earlier in the day.

4. Duties of City and County Relations Engineer: Mr. Clarence G. Swenson, City and County Relations Engineer, gave an oral report on the organization and functions of his Division, including duties in detail, procedures followed and historical background. The item was ordered deleted from the list.

The Commission gave attention to a request from the Siletz Highway Improvement Association for additional improvements on the Siletz Secondary Highway between Siletz and Kernville. The Engineer pointed out that funds which were tentatively allotted to this highway sometime ago had to be used to finance a new bridge across the Siletz River as a replacement for one that was destroyed by a truck. Although some highway improvement has been performed within the last few years, there still remains about 10 miles which is in need of improvement. He recommended that the Association be advised that the Commission is cognizant

of the need for further improvement but as no funds are now available it will be necessary to postpone improvement until a future date, but consideration will be given to an additional project when the next construction program is formulated.

The Engineer requested authority to widen the Salem By-pass Section of the Pacific Highway East to four traffic lanes. He pointed out that since this by-pass has been constructed, four-lane sections have been completed to the north and to the south of Salem. Traffic on the four-lane sections moves at a high rate of speed and apparently some drivers become confused when they enter the intervening two-lane section and as a result numerous accidents have occurred resulting in three fatalities. He recommended that the by-pass be four-laned at the earliest possible date and to finance the work he suggested that the by-pass improvement be advanced into the present two-year program. This action, he stated, will in no way delay the over-all improvement of the Pacific Highway between Salem and Eugene, but will permit contracting in line with funds available, as the Salem By-pass is ready for contracting at any time. The Commission approved the recommendation.

The Engineer also called to the Commission's attention that it may be necessary to go outside of the division limits in allocating funds for construction of the interstate system only in order to take advantage of funds that are available. The fact that 42 percent of the interstate program is in Division I, which includes Portland, further complicates contracting strictly by division limits. The Commission approved financing beyond division limits as may be necessary to accomplish the project.

Revision of Willamette Highway alignment around Lookout Point Reservoir in Lane County was discussed. The Engineer explained that a bad slide condition has developed which has not particularly affected the highway but is a serious menace to the Southern Pacific Railroad. The U. S. Army Engineers propose to rebuild the highway and the railroad through the slide area at government expense. As the highway is involved, it is necessary that the Commission approve the project even though no expenditure of State funds is involved. Upon the Engineer's favorable recommendation the Commission approved the proposed highway revision and authorized the Engineer to sign an agreement with the Army Engineers relative thereto.

Consideration was given to a request from the City of Newport for widening the Oregon Coast Highway to full width, including gutters and curbs, in the northern part of this city. The Engineer reported that an investigation revealed that a section about 3,700 feet in length in the northerly part of the city is involved. Cost of the project has been estimated at $166,000. As there are no funds available for work of this type, he recommended that the City be so advised that the work cannot be undertaken at this time but consideration will be given to it when funds become available and if the City will contribute 25 percent of the costs. The Commission accepted his recommendation.

The Engineer presented requests from Deschutes and Marion Counties for additions to the county FAS system. These extensions, he said, conform to requirements for the county system and have been requested by the County Courts. Upon his favorable recommendation the Commission approved the following additions:

DESCHUTES COUNTY - FAS 779, 1 Mile: This addition extends from the present southerly terminus of FAS 779 northeast of Terrebonne, westerly and southerly to FAS 322, east of Terrebonne.

MARION COUNTY - FAS 737, 1.8 Miles: This extension begins at the Salem By-pass and extends westerly into the City of Salem.

The Commission considered requests from Baker, Clackamas, Columbia, Deschutes, Grant, Jackson and Lincoln Counties for approval of additional 1958-1959 Federal-aid county road secondary projects. These projects, the Engineer stated, have all been requested by the various county courts and he recommended that they be approved as follows:

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Fund
Baker	506	Wingville Section, 3.6 miles. G., S., & O.	$ 129,000	'59
Clackamas	680, 681)	Boones Ferry Road-Oswego Section, 2 miles. Right of way	$ 175,000	'58
Columbia	609	N. Fork Scappoose Creek Bridges (2) and Cedar Creek Drainage Structure. Structures only.	$ 50,000	'58
Deschutes	779	Austin Road Section (Extension), 1 mile. Oiling	$ 6,000	'58
Grant	453	South Fork John Day River Section, 8.5 miles. Grading.	$ 122,000	'59
Jackson	274	Jacksonville-North Section. Additional funds for project approved 11/8/56.	$ 54,000	'58
Lincoln	585	Yaquina Bay Section, Drainage Structures.	$ 50,000	'58
		Subtotal, Additional Projects	$ 586,000	

SUMMARY BY FISCAL YEARS

	1957 & 1958	1959	Total
Available September, 1956	$ 4,443,000	$3,800,000	$8,243,000
Previously Approved	3,839,000	1,593,000	5,432,000
Unprogrammed Balance	$ 604,000	$2,207,000	$2,811,000
Proposed Projects 4/29/57	$ 335,000	251,000	586,000
Unprogrammed Balance	$ 269,000	$1,956,000	$2,225,000

The Commission approved the projects as recommended.

The Commission discussed a proposed agreement with the State of Idaho covering construction of a new four-lane bridge across the Snake River on US 30 near Ontario. The Engineer explained that among other things the agreement provides that Oregon shall design and build the bridge, with the cost to be shared equally by the two states; also, that each state will construct its own approach to the bridge and after completion of the structure Oregon will maintain the structure, with one-half the cost to be reimbursed by the State of Idaho. Following his favorable recommendation the Commission approved the agreement.

The Commission approved a request from the Engineer for authority to spend $121,000 of Interstate funds to construct a standard double-faced guardrail in the center of the concrete median island on a 3.8-mile section of the Portland-Salem Expressway between Barbur Boulevard and the Tualatin River. This section, he stated, was constructed with a 3.5-foot wide concrete barrier, six inches high, between opposing traffic lanes but such barrier has not prevented head-on collisions caused by cars going out of control and catapulting across the barrier. As a result of such accidents three fatalities have occurred. It was his opinion that construction of the double-faced guardrail will prevent such accidents.

The Engineer requested authority to increase the project authorization on Contract No. 4776 for grading and paving the Josephine County Line-Rogue River Road Section of the Pacific Highway in Jackson County in the amount of $22,000. This overrun, he stated, was caused by unanticipated shrinkage of borrow material in place and an increase in the amount of asphaltic mixture necessary because the aggregate was unusually heavy. The Commission approved the increase.

Attention was given to a request from Krebs Brothers, Heppner, that the State burn a fireguard along portions of US 30 between the John Day River and Boardman; along a six-mile section on ORE 19 south of Arlington; and along a fifteen-mile section of ORE 74 between Heppner Junction and Cecil. The Engineer advised that for the past two years the State has performed similar services in cooperation with owners of adjoining ranches and the Bureau of Land Management, the burning operations being conducted under the supervision of the Landscape Engineer.

He recommended that the State again cooperate in the same manner as in the past two years. The Commission approved the recommendation. The Engineer also suggested that the ranchers be advised that for future years it appears that it will be more economical to use a soil sterilant which will prevent the growth of weeds and grass which could cause fires. The estimated cost of applying a suitable sterilant, he stated, is approximately $16.00 per mile, approximately 50 percent of the cost of burning. He also suggested that the ranchers should cooperate to some extent in the chemical treatment but details could be worked out by the Landscape Engineer at a future date. The Commission approved the suggestions.

Correction of drainage conditions on certain Multnomah County roads caused by construction of the Banfield Expressway was discussed. The Engineer advised that the Multnomah County Roadmaster requested an investigation of drainage conditions on county roads, including 148th Avenue, 162nd Avenue and 202nd Avenue. An investigation was made by State and County officials and both parties agreed that the Banfield Expressway construction is not responsible for additional surface drainage at 148th Avenue, and in the opinion of the State Engineers, the Banfield Expressway at 202nd Avenue is not causing the County any particular trouble. However, there is a problem at 162nd Avenue, the correction of which will require installation of approximately one-half mile of 18-inch storm sewer pipe. It was his opinion that the cost of such improvement should be borne 40 percent by the State and 60 percent by the County. Applying these percentages to the estimated cost of the work would mean that the State would contribute a flat sum of $4,400. He recommended that the work be performed by the County on this basis, the details to be covered by an appropriate agreement. The Commission approved the project.

The Engineer reported that a problem exists in getting school children across US 99W at the Lincoln School, south of Corvallis. An investigation reveals that the condition can be improved by mounting a flashing light on the school crossing sign, which light would be manually operated and would be in operation only when school children are crossing the highway. He recommended that such a light be installed at an estimated cost of $700, with the understanding that the School District shall bear the cost of the electrical energy to operate the light. The Commission approved the installation.

Attention was given to a request from the Hermiston Chamber of Commerce for installation of traffic signals at the intersection of First and Gladys Avenues in the City of Hermiston. This intersection, the Engineer stated, forms the junction between the Old Oregon Trail and the Hermiston Highway. He recalled that this intersection was investigated in 1952 and a request made at that time for traffic signals was denied. A further investigation was made in April, 1957, and it was found that traffic volumes, both vehicular and pedestrian, are below those required by the standard warrants for signalization. In view of these findings, he recommended that the request be denied. The Commission approved his recommendation.

The Commission also considered a petition from residents of School District No. 106 for the installation of school crossing signals at the intersection of the Beaverton-Tualatin Highway and Locust Drive in the community of Metzger. The Engineer reported that an investigation revealed that whereas, volume of children that cross the highway at this point is sufficient to warrant installation of school crossing signals, the vehicular volume is approximately one-half of that required by standard warrants. It was his opinion that the existing protection coupled with the schoolboy patrol is adequate, and he recommended that the request be denied. The recommendation was approved.

A request was considered from the City Manager of Toledo for installation of traffic signals at the intersections of the Corvallis-Newport Highway with Main Street and "A" Street in this City. The Engineer reported that a traffic engineering investigation was made and it was found that conditions at the intersections meet the standard warrants for installation of traffic signals. However, because of the alignment of the Corvallis-Newport Highway, traffic signals at these intersections will act as a surprise element and will probably increase the hazard. There is also a short downgrade at the Main Street intersection which would prove very hazardous. He estimated that installation of signals will cost $7,500 at each intersection. In view of the physical conditions and the cost, it was his opinion that installation of traffic signals cannot be justified at this time and he recommended that the request be denied. He also recommended that, in lieu of the traffic signals, flashing beacons be installed at the intersections at a total estimated cost of $1,400. The Commission approved both recommendations.

The Engineer requested authority for the expenditure of $900 to install a flashing beacon at the intersection of the Pacific Highway with Clover Road in the City of Talent. He explained that the location involved is a five-way channelized intersection with left-turn refuges and there have been a considerable number of accidents at this point. The Commission approved the installation.

The Engineer reported that under authority previously granted him by the Commission, he has completed surveys for reconstruction of portions of two state highways. The routes of both of these sections, he stated, have been carefully studied so that when they are constructed they will provide the greatest good to the traveling public commensurate with the cost of construction. He recommended that the Commission adopt the following surveys:

1. Portland International Airport-N.E. Alberta Street Section of the Airport Road and Cascade Highway in Multnomah County. (SEE EXHIBIT "E-1" and EXHIBIT "E-2")

2. Forest Frove-Cornelius Unit, Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County. (SEE EXHIBIT "E-3")

In connection with the Forest Grove-Cornelius Unit, he recommended that this project, which will cost approximately $425,000, be advanced into the present two-year program, to be financed with funds from an item in the two-year program in Division I, known as the Washington County Line-S. W. 14th Street Section of the Sunset Highway. The money thus used, he said, would be replaced from an item in the proposed three-year budget in Division I, known as the Reedville-Hillsboro Section on the Tualatin Valley Highway, for which a tentative amount of $1,200,000 is listed. He pointed out that recent traffic studies indicate that the Forest Grove Section should be constructed ahead of the Reedville-Hillsboro Section.

The Commission approved both surveys and thereupon adopted the attached resolutions relative thereto, marked EXHIBITS "E-1" and "E-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein. The Commission also approved advancement of the Forest Grove-Cornelius project as recommended by the Engineer. In this connection the Engineer reported that there have been many requests for construction of an interchange at the intersection of Murray Road with Sunset Highway at M.P. 67.12. An engineering study has indicated the need for an interchange at this point. Construction of the interchange was contemplated in the 1960-62 program, but there has developed a definite need for immediate construction. He proposed that this be done by deferring improvement on the Washington County Line-S. W. 14th Avenue Section of the Sunset Highway in Multnomah County, as it is very doubtful if this project could be constructed in the existing two-year program. He outlined the transfer of funds as follows:

Transfers from Two-year Program:

From	To	
Washington County Line-S. W. 14th Avenue Section	Forest Grove Project	$425,000
	Murray Road Overcrossing	455,000
	Total	$880,000

These amounts to be considered for replacement in future program by deleting from the following items in the proposed 1960-61-62 budget:

Sunset Highway - three interchanges (North Plains, Cornelius Pass and Cornell Road)	$1,020,000	(reduce $455,000)
Tualatin Highway, Reedville-Hillsboro Section	$1,200,000	(reduce $425,000)

The Commission approved the Murray Road Interchange and the transfer of funds as recommended by the Engineer.

May 16, 1957

The Commission granted the Engineer's request for authority to spend approximately $4,300 to microfilm records in the Bridge Division and to spend an additional sum of $1,600 for readers and film cabinets needed for the microfilms. The Engineer commented that the State Archivist provided the estimate of cost and is to do the microfilming work. The Commission also gave authority to destroy old records if approved by the State Board of Control as is required by law.

The Commission considered and upon recommendation of the Engineer granted the following requests for extensions of time within which to complete state highway contracts. Reimbursement for engineering expense and other extra expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission.

1. Barney B. Helser, Contract No. 4726, for rock production on the Klamath Agency Section of The Dalles-California Highway in Klamath County, requested an extension of time from August 15, 1956 to April 30, 1957. Approved to April 27, 1957, the actual date of completion.

2. Erick Enquist, Contract No. 4699, for construction of the North Fork Scappoose Creek Bridges on the Pittsburg-Scappoose County Road in Columbia County, requested a second extension of time from April 1 to July 1, 1957. Approved as requested.

3. J. J. Walton, Contract No. 4636, for highway illumination on the Goshen-Anlauf Section of the Pacific Highway in Lane County, requested an extension of time from October 31, 1956, to Setpember 30, 1957. Approved as requested.

4. Tom Lillebo, Contract No. 4626, for construction of a bridge over the West Fork, Illinois River on the Redwood Highway in Josephine County, requested an extension of time from December 31, 1956 to March 31, 1957. Approved as requested.

5. Tom Lillebo, Contract No. 4630, for bridge construction on the Sublimity Gun Club-Stout Creek Section of the North Santiam Secondary Highway in Marion County, requested a second extension of time from January 31, 1957 to March 1, 1957. Approved as requested.

6. Rogers Construction Company, Contract No. 4541, for grading, paving and a structure at the Banks Interchange Section of the Nehalem Secondary Highway in Washington County, requested an extension of time from July 15, 1956 to June 30, 1957. Approved to May 10, 1957, the actual completion of the contract.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For

details regarding these extensions of time, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office .

The Commission also considered and upon recommendation of the Engineer, denied the request of Trowbridge Electric Company for an increase of seven work days in which to complete contract No. 4817 for highway illumination on the N. E. 42nd Avenue-Troutdale Section of the T. H. Banfield Expressway in Multnomah County. The Commission denied the request as not being justified under the terms of the contract and ordered collection of fixed and liquidated damages as specified in the contract. (For details, see copies of the contractor's request and the Engineer's recommendation on file in contract No. 4817 in the Secretary's office.)

The Engineer reported that Contract numbers 4527, 4541, 4626, 4630, 4672, 4779, 4787, 4790, 4806, 4817, 4840, 4848, 4852, 4865, 4870, 4873, 4875, and 4876 for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Secretary requested authority for an expenditure of $2,500 to purchase a new No. 1250 multilith machine to be used in the State Highway Building in Salem. He explained that three machines are being used at the present time, one of which is a small machine borrowed from the Department of Finance & Administration. They have now requested that the machine be returned to them. The volume of work is such that three machines are necessary. The Commission approved the requested purchase.

The Commission considered the matter of reimbursing Mr. J. W. Stewart, owner of the Bear Creek Motel, situate on US 99 south of Medford, for damage to his property caused by flooding. The Engineer stated that for sometime past, an investigation has been underway concerning flooding conditions on the Pacific Highway at this point and it appears that an arch-type culvert heretofore constructed by the State is inadequate, so bids are being received at this meeting to install an additional culvert to correct the situation which has become chronic. Mr. Stewart, he continued, has shown a very reasonable attitude and has sought to secure only the actual damages to which he has been subjected. He recommended that Mr. Stewart be paid the sum of $250 for damages sustained, with the understanding that he will give a full release for all damages. The Commission approved the payment.

The status of Highway Contract No. 4648, wherein Jack Robinson Contractor, Inc., is the contractor, was discussed and considered by the Commission. The Engineer advised that the contractor has not been able to make payment for material, labor and other expenses, and that the surety upon the contractor's bond has been forced to pay the bills incurred by the contractor in working on the project. Upon the recommendation of the Engineer, the Commission unanimously decided to terminate the employment of the contractor, and to hold the surety liable for any additional costs and expenses resulting from the necessity of having the project completed by other means. The Secretary was directed to notify the contractor and his surety of the action of the Commission, and to give the contractor seven days' written notice of the termination of his employment. The Engineer and the Chief Counsel were instructed to take all necessary action to assure that the project is completed and that the surety for the contractor reimburses the State for all additional costs and expenses resulting from failure of Jack Robinson Contractor, Inc., to complete the project.

The Engineer requested authority to spend $800 to widen the pavement and install a traffic island at the intersection of Riverwood Road with Pacific Highway West at M.P. 29.90 in Yamhill County. He explained that this intersection is at a bad angle and a large number of logging trucks have difficulty entering and leaving the highway. Studies, he stated, have indicated that widening of the pavement and installation of a traffic island will considerably improve the condition. The Commission approved the expenditure.

The Commission discussed a letter from the City of Reedsport calling attention to a drainage condition on the Oregon Coast Highway which is affecting Clear Lake, the City's water supply. This lake, the Engineer stated, serves as a water supply for the City of Reedsport and an investigation has revealed that the presently constructed highway drainage system is not functioning properly and additional drain sumps and pipe are necessary to prevent surface water from draining into the lake. It appears that approximately $13,000 will be required to correct the situation and he recommended that the Commission authorize expenditure of such amount. The Commission approved the recommendation.

The Commission considered and upon favorable recommendation by the Engineer approved an agreement among the State of Oregon, the U. S. Bureau of Land Management, Frank D. and Emma A. Baird, and the Idaho Power Company, whereby the Power Company is granted authority to use a ten-acre tract of land five miles southeast of Baker for installing and operating a microwave radio station.

The Commission considered and took under advisement a letter from the Recreational and Natural Resources Committee of the Portland Chamber of Commerce suggesting the appointment of a Committee of Citizens to advise the Commission on the administration of state parks.

Upon the Engineer's favorable recommendation, the Commission approved out-of-state travel expense for the following Highway personnel:

P. M. Stephenson, Bridge Engineer, and Ivan Merchant, Assistant Bridge Engineer, to attend the Annual Regional Meeting of the Bridge Committee of AASHO at Salt Lake City, Utah, June 21, 1957, at an estimated cost of $122.00 each.

G. S. Paxson, Assistant State Highway Engineer, to conduct Annual Regional Meetings of the Bridge Committee of AASHO in Salt Lake City, Utah; Birmingham, Alabama; Chicago, Illinois; and in Boston, Massachusetts; during June, 1957. The Engineer explained that Mr. Paxson is National Chairman of this Committee and that his expenses, other than an estimated amount of $55.00 while at Salt Lake City, will be paid by AASHO.

R. L. Porter, Right of Way Engineer, to attend a meeting of Right of Way Administrators with Bureau of Public Roads officials in Chicago, Illinois during May 15 and 16, 1957, at an estimated cost of $257.00. (This is confirmation of telephone approval heretofore given.)

The Engineer recommended and the Commission approved renewal of a lease agreement with Carl O. and Edith M. Nelson, providing for the State's use as a section maintenance headquarters certain buildings and grounds belonging to the Nelsons at Milo on the Tiller-Trail Secondary Highway. The Engineer explained that the lease provides that the State shall pay the sum of $25.00 per month as rental and that the lease is effective for a period of three years, beginning August 16, 1957 and ending August 15, 1960. It also provides that the State may purchase the property within the period of the agreement for the sum of $4,500.

The Engineer brought up for discussion the erection of additional historical markers along the Old Oregon Trail between the Idaho border and Portland. He explained that an extensive study of such markers revealed that fifteen or sixteen should be erected. The matter was brought to the attention of the Memorials Committee of the Oregon Historical Society which recommended that four markers be erected at once at the following locations: Rowena, Celilo Falls, Deschutes River and at Willow Creek Rest Area, west of Boardman. The Committee also approved certain wording to be placed upon the markers. The Engineer estimated the cost to furnish and erect the markers at $400 each and he recommended approval of the expenditure and of the wording suggested by the Memorials Committee. The Commission approved the recommendation and the wording for the markers as follows, and authorized the Engineer to proceed with the installations.

28306

HISTORIC OREGON TRAIL
ROWENA

BEFORE THE 1846 OPENING OF THE BARLOW ROAD OVER THE SOUTH FLANK OF MT. HOOD, THE ROWENA BLUFFS MARKED THE END OF THE OREGON TRAIL ROUTE. HERE THE PIONEERS CAMPED THEIR COVERED WAGON TRAINS AND BUILT CRUDE RAFTS FOR THE PERILOUS DOWN RIVER PASSAGE. OCCASIONALLY THE PIONEERS WERE MET BY FLATBOATS FROM THE SETTLEMENTS. AFTER MANY LOSSES CATTLE WERE DRIVEN OVERLAND ON THE NORTH SIDE OF MOUNT HOOD. OF NECESSITY POSSESSIONS WERE OFTEN ABANDONED AT THIS POINT FOR WANT OF TRANSPORT.

OREGON HISTORY
CELILO FALLS

FROM TIME IMMEMORIAL THIS REGION COMPRISED THE FISHING GROUNDS OF ALL INDIAN TRIBES OF THE MIDDLE COLUMBIA RIVER AREA. HERE THE RIVER CASCADED OVER CELILO FALLS AND THROUGH DEEP BASALT CHANNELS. THE EARLY INDIANS SPEARED THE HUGE SALMON AND THEIR DESCENDANTS BUILT PLATFORMS OVER THE RUSHING WATERS FROM WHICH THEY GATHERED THE FISH IN LONG HANDLED NETS. THESE FISHING GROUNDS WERE RESERVED BY TREATY WHICH RIGHT THE FEDERAL GOVERNMENT PURCHASED WHEN THE FALLS WERE FLOODED BY THE STORAGE BASIN OF THE DALLES DAM. AN ANCIENT CIVILIZATION WAS COVERED BY THIS INUNDATION.

HISTORIC OREGON TRAIL
DESCHUTES RIVER CROSSING

THE OREGON TRAIL CROSSED THE HAZARDOUS DESCHUTES RIVER AT THIS POINT BY FLOATING THE PRAIRIE SCHOONERS AND SWIMMING THE LIVESTOCK. AN ISLAND AT THE RIVER MOUTH WAS OFTEN UTILIZED WHEN THE WATER WAS HIGH AND THE FORD DANGEROUS. PIONEER WOMEN AND CHILDREN WERE FREQUENTLY FERRIED ACROSS THE STREAM BY NATIVE CANOE MEN WHO MADE THE PASSAGE IN EXCHANGE FOR BRIGHT COLORED SHIRTS AND OTHER TRADE GOODS.

(Columbia River Highway
Install on East Bank of Deschutes
on widened fill)

May 16, 1957

HISTORIC OREGON TRAIL
EARLY MIGRATION

AMERICAN SETTLEMENT OF THE PACIFIC NORTHWEST BY WAY OF THE OLD OREGON TRAIL IS ONE OF THE GREAT MIGRATIONS OF HISTORY. FROM 1843 TO 1880 THOUSANDS OF FAMILIES, SOMETIMES WITH NO PREVIOUS EXPERIENCE, UNDERTOOK AN EXPEDITION OF 2000 MILES OVER PLAINS, DEEP RIVERS AND LOFTY MOUNTAINS--OFTEN BESET BY HOSTILE SAVAGES. THE JOURNEY LASTED FROM EARLY SPRING UNTIL LATE FALL FOR MOST OF THE WAGONS WERE DRAWN BY SLOW-MOVING OXEN AND LOOSE CATTLE ACCOMPANIED THE TRAINS. THE NUMBER OF IMMIGRANTS CROSSING TO THE OREGON COUNTRY IS ESTIMATED AS FOLLOWS:

1842	105-137	1847	4000-5000
1843	875-1000	1848	400
1844	700	1849	2000
1845	3000	1850	1500
1846	1350	1851	2500

(Columbia River Highway
Willow Creek Roadside Rest Area
West of Boardman)

Transfer to Baker County of a five-acre tract near Wingville, about four miles west of the Old Oregon Trail in Baker County, was discussed. The Engineer advised that the property was acquired twenty-seven years ago as a source for borrow material and gravel, but has been used very little, in fact, investigation discloses that it is of no further value to the Highway Department. He recommended in view thereof, that it be conveyed to Baker County without cost. The Commission approved the transfer to the County.

Attention was given to a letter from U. S. Senator Wayne Morse concerning construction of an access road and rest area at Norwood Road on the R. H. Baldock Freeway. The Engineer stated that the Senator's letter was instigated by Mr. Willard L. Archer, Sherwood, who has appeared before the Commission previously concerning access at this point. He stated that there has been no change in conditions at this location since the previous investigation, at which time the request for access was denied. He recommended that the Commission confirm its previous decision. The Commission deferred action pending appearance of a delegation scheduled for the following day. (The Commission advised Mr. Archer on May 17, 1957 that traffic conditions at Norwood Road will be re-examined and new counts taken to clarify uncertainties in Mr. Archer's mind.)

May 16, 1957

The Commission approved the Secretary's report on papers signed by him in behalf of the Commission during the period of April 16 to May 13, 1957.

The Commission discussed a date for its next regular meeting and confirmed Thursday and Friday, June 27 and 28, 1957, as the date for such meeting, which is to be held in Portland. The Commission tentatively set Thursday and Friday, August 8 and 9, 1957, as the date for its next following meeting, which also is to be held in Portland. The Secretary was instructed to make the usual arrangements for use of the Queen's Room in the Imperial Hotel for this purpose. The Commission also confirmed Thursday, June 6, 1957, as the date for a special bid opening to be held in Salem under the direction of the State Highway Engineer and the Secretary. The bids are to be opened at 10:00 a.m. and are to be referred to the Commission at the meeting scheduled for June 27, when contracts will be awarded.

A letter from the Mayor of Roseburg, Hon. Arlo M. Jacklin, requesting a hearing in Roseburg concerning the proposed establishment of a Pacific Highway one-way couplet section on Rose and Stevens Streets was discussed. The Engineer explained that under the law, a hearing must be held if requested, but in this instance the Commissioners need not attend unless they wish to do so. The Commission authorized the Engineer to set a date for the hearing and to conduct it. (The Engineer later set 10:00 a.m. on June 20, 1957 as the date for the hearing.)

Attention was given to a request from Roy L. Davidson, Justice of the Peace of Forest Grove, that some means be devised to protect school children who cross the Nehalem Highway in the vicinity of Willamina Avenue, north of Forest Grove. The Engineer stated that an investigation was made and, based on the facts that were disclosed, it is his recommendation that the intersection at Willamina Avenue, approximately one-third mile north of the north city limits of Forest Grove, be signed as a school crossing, and that the speed zone that was established on September 22, 1952, be rescinded and a new 40 mile-per-hour speed zone be established in lieu thereof, on the Nehalem Highway from the north city lim its of Forest Grove, at M.P. 88.18, to a point 0.54 mile north of the north city limits of Forest Grove, at M.P. 87.64, except that between M.P. 87.74, north of Willamina Avenue, and M.P. 87.90, south of Willamina Avenue, the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved his recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "D-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from G. V. Rempel, Polk County Commissioner, for an investigation of traffic hazards on the Dolph Corner-Dallas Highway in the vicinity of Reed Lane, north of Dallas. An investigation was conducted by the Traffic Engineer, the Engineer stated, and based on the facts disclosed, it is his recommendation that a 45 mile-per-hour speed zone be established between a point 250 feet north of Reed

Lane, at M.P. 2.29, and the north city limits of Dallas, at M.P. 2.78, except that between a point 0.15 mile south of Reed Lane, at M.P. 2.48, and a point 100 feet south of Third Street, at M.P. 2.66, the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved such speed zone designation by adopting the attached resolution relative thereto, marked EXHIBIT "D-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission discussed with the Engineer and the Director of the Travel Information Division renewal of the existing contract with the advertising agency of Cole & Weber, Portland. The Director of the Travel Division stated that the present contract expires on June 30, 1957, and that it is the recommendation of the Travel Advisory Committee that the contract be renewed for one year because the company is providing satisfactory service. The Commission approved renewal of the contract for one year beginning July 1, 1957 and ending June 30, 1958.

The Commission discussed with the Engineer bids for highway construction that were received at the morning session and at 4:00 p.m. Commissioner McIver announced awards of contracts as follows:

"Rock production on the Baker-Oxman Section of the Old Oregon Trail in Baker County. The Commission awarded the contract to the low bidder, C. E. Leseberg, Nyssa, at $32,960.00.

"Grading and surfacing on the Alsea Junction-Beaver Creek School Section of the Alsea Highway-Greenberry Road in Benton County. The Commission elects to accept the bid of Harbert Bros., Estacada, who submitted the low bid in the sum of $112,266.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Benton County is received and the sum of $25,250.00 is deposited by the County.

"Rock production project on the Mt. Hood and Warm Springs Highways, near Government Camp in Clackamas, Hood River and Wasco Counties. The Commission awarded the contract to the low bidder, Parker-Schram Co., Portland, at $36,500.00.

"Construct Netell, Stavebolt and Big Creek Bridges on Lewis and Clark River Road and on Hillcrest Loop Road in Clatsop County. The Commission elects to accept the low bid of Workman & Wilson, Canby, in the sum of $119,867.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Clatsop County is received and the sum of $26,950.00 is deposited by the County.

"Grading and paving on 10th and Main Streets in the City of Prineville in Crook County. The Commission elects to accept the low bid of Babler Bros., Inc., Portland, in the sum of $25,917.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Prineville is received and the sum of $10,400.00 is deposited by the City.

"Install highway illumination at four interchanges on the Fords Bridge-Canyonville Section of the Pacific Highway in Douglas County. The Commission has awarded the contract to the low bidder, Trowbridge Electric Co., Roseburg, at $18,500.00.

"Construct culvert on the Medford-County Farm Section of the Pacific Highway in Jackson County. The Commission elects to accept the low bid of R & M Construction Co., Central Point, in the sum of $13,577.20, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Stone base and oiling project on 4th Street in Madras, Jefferson County. The Commission elects to accept the bid of Babler Bros., Inc., Portland, the low bidder, in the sum of $21,905.00, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Madras is received and the sum of $5,000.00 is deposited by the City.

"Grading and paving on the North Grants Pass Interchange-Savage Street Section of the Pacific Highway in Grants Pass, Josephine County. The Commission elects to accept the low bid of M. C. Lininger & Son, Medford, in the sum of $141,857.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Stone base and paving project on First Street in Oakridge, Lane County. The Commission has awarded the contract to the low bidder, Oakridge Excavators, Oakridge, at $16,527.90.

"Construct three bridges over Knowles Creek on the Mapleton-Richardson County Road in Lane County. The Commission elects to accept the low bid of Tom Lillebo Construction Co., Reedsport, in the sum of $136,990.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lane County is received and the sum of $30,800.00 is deposited by the County.

"Grading on the S. W. 14th Avenue-Washington County Line Section of the Portland-Salem Expressway in Multnomah County. The Commission elects to accept the low bid of G. D. Dennis & Sons, Portland, in the sum of $617,994.50 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Stone base and paving on the Union Avenue-42nd Avenue Section of the T. H. Banfield Expressway, in Multnomah County. The Commission has awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at $295,869.50.

"Shoulder oiling on the Moro-Grass Valley and on the South Unit, Madras-Culver Junction Sections of the Sherman and The Dalles-California Highways in Sherman and Jefferson Counties. The Commission has awarded the contract to Babler Bros., Inc., Portland, at their bid price of

$14,873.00, as the two lower bidders, Calkins Crushing Co., at $14,020.00, and M. C. Lininger & Sons, at $13,922.50, qualified their bids by stating that they would not accept award of this project unless they were also awarded the Shaniko-Antelope project. Their combined bids were too high.

"Grading and oiling on the Shaniko-Antelope Section of the Shaniko-Fossil Highway in Wasco County. The Commission has awarded the contract to the low bidder, McNutt & Sons, Inc., and Lee F. Philpott, Salem, at $162,903.78.

"Install metal culvert at Rock Creek, construct a concrete bridge at Gate Creek, and construct 0.48 mile of highway roadbed on Wamic Road in Wasco County. The Commission elects to accept the low bid of Hodges & Barger and Robert Kyle, The Dalles, in the sum of $54,265.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wasco County is received and the sum of $12,200.00 is deposited by the County.

"Install traffic signals and highway illumination at the intersection of US 99W and Greenberg Road in Tigard, Washington County. The Commission awarded the contract to the low bidder, Rochat Electric, Portland, at $9,800.00.

The Engineer stated that indications are that the Albany Timber Carnival group will again ask permission to use Waverly Lake in Albany in conjunction with its annual Timber Carnival during July 2, 3 and 4, 1957. He recommended that the Commission authorize use of the lake and bordering State grounds under the same terms and conditions that were the basis of the permit that was granted in 1956. The Commission approved the recommendation.

The Engineer reported that a Mr. Howard Martin wishes to conduct logging operations on the Alsea Highway between Cedar Creek and Rock Creek. The timber lies on a steep hillside above the road. During his logging operations some boulders and perhaps logs will probably roll onto the highway. He recommended that Mr. Martin be given a permit to conduct his operations under the condition that he provide liability insurance in the amounts of $100,000/$200,000/$50,000 for protection to the public, and a bond in the amount of $1,000 to cover any damage to highway facilities, in addition to other terms to be included in the permit. The Commission authorized the granting of the permit on such basis.

The Chief Counsel called attention to the second supplemental list of condemnations submitted to the Commission at this meeting. He stated that he had been advised that because of changes in plans, descriptions for some of these parcels of property had been changed and he requested authority to change the complaints accordingly. The Commission granted the authority.

Matters to be brought up by delegations on the following day were discussed with the Engineer but the Commission deferred action pending appearance of the delegations.

The Engineer reported that the documentary film on construction of the R. H. Baldock Freeway between Portland and Salem is now completed and will be shown to those who wish to see it. The Commission decided to view the film at 1:30 p.m., on the following day, May 17, 1957, in the Queens Room of the Imperial Hotel.

Commissioner McIver inquired as to what progress is being made in preparing pictures of highway activities to show to various communities, particularly in the Astoria area. The Personnel and Public Relations Director replied that material is being assembled as previously ordered by the Commission.

Chairman Reynolds inquired as to the status of plans for repairing or replacing the Malheur River Bridge which was recently damaged by flood waters. The Engineer replied that a decision will be made as to whether the bridge should be repaired or a new bridge constructed, as soon as all of the cost estimates are completed.

Chairman Reynolds also inquired as to road conditions near Madras in relation to a flash flood which occurred recently. The Engineer replied that the highway was washed out and was closed for one day while a new 72-inch culvert was being installed.

The Engineer reported that a meeting is planned within the next two weeks with the Washington State authorities regarding plans for the Astoria Bridge, the design for which the 1957 Legislature appropriated $100,000. At this meeting, he stated, it is also planned to discuss with the Washington people plans for revising the existing bridge across the Columbia River between Portland and Vancouver, Washington, the selling of bonds, and other details. He stated that he would investigate the feasibility of using interstate funds for revision of the existing bridge. Commissioner McIver observed that if interstate funds are used to revise this bridge it would mean simply that monies available for highway construction will be reduced by that amount.

The meeting adjourned at 4:35 p.m., to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
May 17, 1957

The meeting of the Oregon State Highway Commission reconvened at 9:00 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

(See following page)

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
E. F. Chidsey, Assistant Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction projects were opened and read aloud by the Secretary who announced that the Commission would award contracts in the same room at 3:30 p.m.

BENTON COUNTY
MONROE OILING PROJECT

J. C. Compton Co., McMinnville	$ 32,378.50
The Central Heating Co., Eugene	33,388.50
Morse Bros., Harrisburg	33,640.00
Horton Construction Co, Portland	35,600.00
Central Paving Co., Independence	36,141.00

CURRY COUNTY
OAK ST.-CHETCO RIVER (BROOKINGS) SECTION OF THE OREGON COAST HIGHWAY

The Central Heating Co., Ore. Ltd., Eugene	$ 28,793.20
Pelican Bay Const. Services, Inc., Smith River, Calif.	29,098.50

GRANT COUNTY
CONSTRUCTION OF SENECA SAND SHED ON JOHN DAY-BURNS HIGHWAY

C. R. Bennett and Wm. Hickey, Burns	$ 11,531.00
Bechtel Bros., La Grande	11,562.00
Baughman & Son, Coos Bay	12,095.00
A. E. FitzGerald, Klamath Falls	12,784.00
R. H. Jones, Hillsboro	12,816.00
H. G. Wirtz, Grants Pass	13,689.00

JEFFERSON COUNTY
CONSTRUCTION OF HAY CREEK BRIDGE ON THE WILLOWDALE-LYLE GAP SECTION OF THE DALLES-CALIFORNIA HIGHWAY

R. H. Jones, Hillsboro	$ 38,462.00
Hamilton & Thoms, Eugene	40,648.00

Construction of Hay Creek Bridge on the Willowdale-Lyle Gap Section of The Dalles-California Highway - Cont.

S. & D Const. Co. and John B. McLeod Const. Co. Portland	$ 41,196.40
C. P. Patterson, Redmond	41,444.00
Johnson & Amen s, McMinnville	41,729.00
Teeples & Thatcher, Portland	42,080.00
Snook Bros., Corvallis	42,154.00
Harold E. Ray and L. O. Fusby, Hermiston	42,763.00
Babler Bros., Inc., Portland	43,055.00
Rogers Construction, Inc., Portland	43,462.00
A. H. Saxton & Son, Portland	44,382.00
Orlando C. Bennard, Portland	47,551.00
Schrader Construction Co., Portland	53,515.00
Pettijohn Engineering Co., Portland	55,083.00

KLAMATH COUNTY
CONSTRUCTION OF CHILOQUIN SAND SHED ON THE DALLES-CALIFORNIA HIGHWAY

H. G. Wirtz, Grants Pass	$ 9,847.00
Baugham & Sons, Coos Bay	9,875.00
R. H. Jones, Hillsboro	10,684.00
A. E. FitzGerald, Klamath Falls	10,704.00

LANE COUNTY
LOW PASS SUMMIT GUARDRAIL PROJECT ON THE SIUSLAW HIGHWAY

George C. Stubbert, Empire	$ 3,856.00

LANE COUNTY
WALTON-VENETA ROCK PRODUCTION PROJECT ON THE RICHARDSON-EUGENE HIGHWAY

E. C. Swaggart Co., Eugene	$ 27,675.00
Calkins Crushing Co., Oceanlake	38,500.00
Dolan Construction Co., Tillamook	39,897.00

MARION COUNTY
FOUR CORNERS-GEER STATION SECTION OF THE GEER ROAD (E. STATE STREET EXTENSION)

Warren Northwest, Inc., Portland	$223,481.00
Central Paving Co., Independence	228,681.50
Babler Bros., Inc., Portland	248,926.00

MARION COUNTY
CONSTRUCTION OF SIGN DEPARTMENT OFFICE BUILDING ON AIRPORT ROAD

C. A. Lantz, Salem	$ 35,840.00

May 17, 1957

Construction of Sign Department Office building on Airport Road - Cont.

T. J. Patzer, Salem	$ 36,105.00
Hampton C. Platt, General Contractor, Salem	36,300.00
R. L. Forster & Son, Salem	36,646.00
Erwin E. Batterman, Salem	37,632.00
L. H. Meloy, Salem	38,270.00
Mills Construction Co., Salem	38,360.00
Decatur & Maerz, Salem	39,040.00
R. I. Randolph Construction Co., Salem	39,887.00

MARION AND LINN COUNTIES
SANTIAM RIVER BRIDGE

Donald M. Drake Co., Portland	$703,505.00
Peter Kiewit Sons Co., Medford	777,200.00
Valley Construction Co. and Tower Sales & Erecting Co., Portland	784,250.00
Hamilton & Thoms, Eugene	825,440.00
C. J. Eldon and West Coast Steel Works, Portland	834,438.00
General Construction Co., Portland	843,085.00
Tom Lillebo Construction Co. and Tom Lillebo, Reedsport	845,542.00
Lee Hoffman, Beaverton	916,200.00
Judson Pacific-Murphy Corp., Emeryville, Calif.	917,325.20

UMATILLA COUNTY
PILOT ROCK-GRANT COUNTY LINE ROCK PRODUCTION PROJECT ON THE PENDLETON-JOHN DAY HIGHWAY

Barney Helser Rock Production, Beaverton	$ 49,640.00
Calkins Crushing Co., Oceanlake	53,835.00
E. H. Itschner Co., Molalla	57,670.00

UMATILLA COUNTY
SAND STATION-WASHINGTON STATE LINE SHOULDER OILING PROJECT

J. C. Compton Co., McMinnville	$ 14,744.25
Leslie Harris, Pendleton	15,565.50
Russell Olson Construction Co., Inc., Pendleton	16,837.50

UMATILLA AND UNION COUNTIES
GRADING ON THE MEACHAM-GLOVER SECTION OF THE OLD OREGON TRAIL HIGHWAY

Rogers Construction, Inc., Portland	$492,328.00
Natt McDougall Co., Portland	492,905.10
Donald M. Drake Co., Portland	558,995.00
Earl L. McNutt Co., Eugene	652,176.60
Henry H. Miller Contrs., Inc., Portland	672,095.90

UNION COUNTY
COVE (FRENCH AND HILL STREETS) GRADING AND PAVING PROJECT

Leslie Harris, Pendleton	$ 15,868.00
H. J. & H. W. Miller, Baker	15,913.00
Cartwright Construction Co., Durkee	17,729.00

UNION COUNTY
ELGIN (DIVISION STREET & S. 7TH AVENUE) STONE BASE AND PAVING PROJECT

H. J. & H. W. Miller, Baker	$ 10,452.50
Leslie Harris, Pendleton	10,832.00
Cartwright Construction Co., Durkee	11,999.00

UNION COUNTY
NORTH POWDER ("G" STREET) GRADING AND PAVING PROJECT

Leslie Harris, Pendleton	$ 14,010.00
Cartwright Construction Co., Durkee	18,687.50
H. J. & H. W. Miller, Baker	18,886.00

WALLOWA COUNTY
CONSTRUCTION OF WALLOWA LAKE STATE PARK LATRINE

Bechtel Bros., La Grande	$ 7,864.00
Walt M. Young and John Horner, Hermiston	8,538.00
Baughman & Son, Coos Bay	9,752.00

WASHINGTON COUNTY
TUALATIN (1ST AVENUE SOUTH) GRADING AND PAVING PROJECT

Oregon Asphaltic Paving Co., Portland	$ 12,914.50
K. F. Jacobsen & Co., Inc., Portland	13,687.10
Portland Road & Driveway Co., Portland	14,507.50
Dolan Construction Co., Tillamook	17,095.00

The Chief Counsel brought up for discussion the matter of "special benefits" as they relate to the acquisition of property for right of way or for other purposes, either by negotiation or condemnation. He advised that the law in the State of Oregon, as it is now written, provides that "special benefits" may be offset against the value of the land taken, as well as against the damages to the remainder of a condemnee's land caused by the taking. As a result of the discussion the Commission adopted the following as the policy to be followed hereafter in negotiating property acquisitions:

1. In all cases where "special benefits" are present they shall be considered when negotiating for property for right

of way or for other purposes. When the value of the land being sought and the damages to the remaining land caused by the taking is more than the "special benefits" that will inure to the remaining land as a result of the building of the proposed highway improvement, negotiations for the property shall be conducted on the basis of the difference between the two amounts.

2. In cases where the value of the land taken and the damages to the remaining land caused by the taking is less than the value of the "special benefits" that inure to the remaining land as a result of the building of the highway improvement, then negotiations for acquisition of the property shall be conducted on the basis of no compensation, the same having been offset by the value of the "special benefits".

The Right of Way Engineer reported briefly concerning his trip to Chicago, from which he returned on the previous day. The purpose of the meeting, he stated, was to determine requirements of the Bureau of Public Roads in acquiring right of way for the interstate highway system. It appears that the Bureau of Public Roads will require careful appraisals of the parcels of property to be acquired and that it may be increasingly difficult to obtain approval of cases settled out of court where the settlement is above the appraised value. The Bureau of Public Roads, he continued, has indicated that it will require good reasons for making such settlements. He pointed out that the present manner of acquiring right of way in Oregon appears to be in line with the requirements as outlined by the Bureau of Public Roads and he did not anticipate that it would be necessary in this State to make any radical revisions in methods now being employed.

Chairman Reynolds reported receipt of complaints concerning the use of outboard motorboats on Coffenberry Lake in Fort Stevens State Park, and he inquired if the Commission has authority to prohibit the use of motorboats on this lake. The Assistant Counsel replied that the Commission does have such authority if a hazard is being created and if the rules that are set up are reasonable. Commissioner Chessman inquired if any similar situation has arisen previously The Parks Superintendent recalled that a similar condition developed at Wallowa Lake and at Waverly Lake in Albany, where restrictions now are enforced. Commissioner Chessman remarked that the situation at Coffenberry Lake is bad and he suggested an investigation of conditions to determine the need for prohibiting motorboat operation thereon before someone is badly injured or killed. As a result of the discussion, the Commission instructed the Parks Superintendent to erect signs prohibiting operation of motorboats on Coffenberry Lake, and to conduct an investigation regarding operation of motorboats at other park locations and to submit a report at the next Commission meeting. The Chief Counsel was instructed to prepare a form of resolution regarding the matter for adoption by the Commission at such meeting.

The Engineer called to the Commission's attention that the Parks Superintendent, Mr. C. H. Armstrong, has reached age sixty-five and that he wishes to be retained in Highway Department service until he reaches compulsory retirement age. He recommended that he be authorized to arrange for the extension. The Commission granted the authority.

A delegation representing the Junction City Lions Club and the Junction City Chamber of Commerce came before the Commission concerning proposed rerouting of the Siuslaw Highway around Triangle Lake. The following people were present: Frank Knox and Lee Murphy, Lions Club; Ford Hand, Chamber of Commerce. Mr. Knox, who acted as spokesman, commented that their request to reroute the highway on the southerly side of Triangle Lake is not new and had been promoted by the late State Senator Angus Gibson. Following the appearance of a previous delegation, he recalled that the Commission authorized a survey of the proposed route and that Mr Hult had offered to donate right of way through his property. If the section is reconstructed, he said, it will save approximately 3.8 miles in distance and will be a much better aligned road than the existing highway. He asked that construction be started at an early date as the Siuslaw Highway is the main east-west artery in this area. Mr. Murphy remarked that the increasing number of logging and other trucks that operate over this highway make it increasingly hazardous to operate school busses thereover because of the existing narrow, crooked roadbed. He called attention to a school bus which was sideswiped recently. In addition to the better alignment which could be provided by the relocation, he pointed out that the proposed route would open up a very good park area. Mr. Hand stated that the businessmen of Junction City are very much in favor of the development. Mr. Knox left with the Commission a folder containing a petition and several letters requesting early development of the proposed route The Engineer stated that the project is very desirable and that it carries a benefit quotient of 3.8 but the cost of construction is quite high (approximately $1,000,000) and no funds are available at this time. It was his opinion that the project is eligible for forest highway funds. Chairman Reynolds stated that the project is unquestionably worth while but the Commission does not have funds to construct it now; however, it will be given consideration in the formulation of the next Forest Highway Program, but no definite commitment can be made at this time.

Mr. Glen R. Jack, Attorney, Oregon City, came before the Commission in behalf of Mr. and Mrs. R. W. Piper and Mr. and Mrs. F. O. Kruschke, who seek private access to the newly constructed Clackamas Overcrossing section of the Clackamas Secondary Highway He pointed out that these people need access to the newly constructed section in order to fully utilize their property. It was his feeling that there is not sufficient traffic on the highway to justify restriction of access. The Engineer commented that the right of way at this point was acquired by condemnation and the price paid for the property as well as the matter of access had been decided by the court Chairman Reynolds stated that the Commission will take the matter under advisement but it appears that the answer will be NO because these people now have other accesses to the highway.

Laurence A. Cushing, City Attorney; James Holten, Councilman; Carrol Banks, Mayor; and Robert Ford, Planning Commission, all from the town of Cave Junction on the Redwood Highway in Josephine County, appeared before the Commission to request widening of the Redwood Highway through the town of Cave Junction. Mr. Cushing, who acted as spokesman, introduced the other members of the delegation and presented a resolution adopted by the City Council requesting widening of the highway through the City to 80 feet, and construction of curbs and walks. The existing roadway section, he stated, which is two lanes wide, is plagued with broken shoulders and pot holes and is not wide enough for four lanes of traffic. Plans, he stated, are being considered in California for improvement of the highway in that state which will tend to increase the traffic volume. Cave Junction, he continued, has a population of approximately 300 people and does not have money to cooperate in the widening project. Mayor Banks called attention to the fact that the City, although small, does serve as a shopping area for a considerable population in the valley. He urged early action. Chairman Reynolds advised that the Commission in the past has followed a policy of requiring the cities to cooperate for approximately 25 percent in projects such as this but at the present time the Commission itself does not have funds to apply to this project. He said consideration will be given to it when the next construction program is formulated and in the meantime action will be taken to see that the pot holes and broken shoulders are repaired.

A delegation from Astoria and Warrenton appeared before the Commission concerning the Smith Point project between Astoria and Seaside, and other matters pertaining to the Oregon Coast Highway. The following people were present: Charles DeFoe, Manager, Chamber of Commerce, and R. J. Bettendorf, Manager, Port of Astoria, both from Astoria; E. R. Baldwin, City Manager; George Stuckrath, City Commissioner; John Sheppard and Clair Wade, Chamber of Commerce; all from Warrenton. Mr. Bettendorf, who headed the group, introduced the other members of the delegation and expressed appreciation for the help the Highway Department had provided in securing legislation authorizing the design of the bridge across the Columbia River at Astoria. It was his feeling that construction of the bridge will follow in due course and he advised that as much cooperation will be given as the communities can provide.

Mr. DeFoe inquired concerning construction of the Smith Point Bridge. It was his recollection that at a previous meeting with the Commission it had been indicated that actual work could be started in 1959. The delegation today, he continued, wishes to confirm this date or determine if an earlier start can be made. Chairman Reynolds replied that the project is in the Commission's five-year program and there is a possibility that bids can be received in late 1958, provided necessary Federal Funds are made available. He pointed out that this is a large project requiring a great amount of money and because of its nature will have to be performed at one time.

Mr. Baldwin called attention to existing hazards at an intersection south of Warrenton on the Oregon Coast Highway. He said that two deaths

have occurred at this location recently and there have been eighteen accidents in the last four years. He requested early improvement of this highway section, including elimination of a curve south of Warrenton even though the highway will probably be realigned within the next five years. Chairman Reynolds replied that the Commission is aware of the hazard at this location. He then commended the delegation on the very efficient manner in which they carried on negotiations with the Legislature pertaining to the Columbia River Bridge.

The Commission discussed with the Engineer and the Right of Way Engineer the status of plans and right of way for projects on which bids are to be received on June 6, 1957, in Salem, and at later lettings.

The Commission signed the following agreements and other papers:

"Indentures of Access" on following properties:

a. Barnum property on Pendleton-Pilot Rock Section of Pendleton-John Day Highway, Umatilla County.

b. Shafer property on Willowdale-Madras Section of The Dalles-California Highway, Jefferson County.

c. Detlefsen property on Coquille-Rink Creek Section of Coos Bay-Roseburg Highway, Coos County.

"Bargain and Sale Deed" to Stanley M. and Henrietta H. Adcock .09 acre of right of way on Rogue River Loop Highway, Josephine County, for use as a drainage field. State to reserve a permanent slope easement over area deeded.

"Agreement" with the State of Idaho covering construction of a new four-lane bridge across the Snake River near Ontario on US 30 Interstate. Oregon to design and build bridge with cost to be shared equally between the two states. Each state to construct its own approaches to the bridge. After completion, Oregon will maintain bridge with half the cost reimbursed by Idaho.

"Permit Agreement" between the State, the United States Department of the Interior, Bureau of Land Management; Frank D. and Emma A. Baird of Baker; and Idaho Power Company granting the Power Company authority to use a 10-acre tract of land, leased from the Bairds 5 miles southeast of Baker, for installation and operation of a microwave radio station. Power Company to bear its proportionate cost of electrical energy consumed.

"Agreement" with Carl O. and Edith M. Nelson covering the renewal of a similar agreement expiring April 30, 1957 for the State's use and occupancy of a section maintenance headquarters building and grounds located at Milo on Tiller-Trail Secondary Highway. Agreement covers 3-year period

with a rental rate of $25 per month. Lessors grant to the State an option to purchase property within agreement period for $4,500.

"Agreement" with City of Albany covering acquisition of 54.83 acres of the Albany Municipal Airport needed for right of way of the North Jefferson Junction-Albany Section of the Pacific Highway, Linn County.

"Agreement" with City of Prineville covering the Special City Allotment project on Tenth and Main Streets in Prineville. (Authorized 12-17-56)

"Agreement" with City of Tualatin covering the Special City Allotment project on First Avenue south in Tualatin. (Authorized 12-17-56)

"Finance & Maintenance Agreement" with Lane County covering the Knowles Creek Bridges project on FAS 238 in Lane County. (Authorized 9-27-56)

"Finance & Maintenance Agreement" with Wasco County covering the Rock Creek and Gate Creek Sections of FAS 311 in Wasco County. (Authorized 11-8-56)

"Agreement" with City of Milton-Freewater covering the Special City Allotment project on Poplar Street in Milton-Freewater. (Authorized 12-17-56)

"Lease & Sale of Road Materials Agreement" with Floyd Lengacher for a parcel of land on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County.

"Finance & Maintenance Agreement" with Clatsop County covering the Big Creek, Netell and Stavebolt Bridges on FAS 608 and 756 in Clatsop County.

"Finance and Maintenance Agreement" with Benton County covering the Alsea Junction-Beaver Creek School Section of FAS 206 in Benton County.

"Quitclaim Deed" for release of a slope easement on property situate on Newport Section of Oregon Coast Highway, Lincoln County. Slope easement no longer required.

"Permit" to John Sharp granting permission to construct a fence on right of way of Camp Creek-Paulina Section of Paulina Highway in Crook County.

"Throughway Agreement" with Multnomah County covering the S. W. 14th Avenue-Washington County Line Section of the Portland-Salem Expressway in Multnomah County. (Bids to be received May 16, 1957)

"Agreement" with Josephine County covering work on one-way couplet on the N. Grants Pass Interchange-Savage Street Section of the Pacific Highway in Josephine County. (Bids to be received May 16, 1957)

"Finance & Maintenance Agreement" with Marion County covering the Four Corners-Geer Station Section of FAS 739, Marion County. (Authorized 11-8-56)

"Grant of Access" to Deschutes County to property on the McKenzie Highway at Engineer's Station 78+00 and Engineer's Station 70+50.

"Bargain & Sale Deed" to Karl B. Oeser for a parcel of land on the N. Bound Route in Ashland on the Pacific Highway, Jackson County. (Authorized 3-28-57)

"Bargain & Sale Deed" to Henry Metz for a parcel of land on the N. Bound Route in Ashland on the Pacific Highway, Jackson County. (Authorized 3-28-57)

"Bargain & Sale Deed" to E. R. Latham for two parcels of land lying in Section 31, Township 1 North, Range 2 East, W. M., Multnomah County. (Authorized 3-28-57)

"Agreement" with Cole & Weber covering certain services and work in connection with Highway Commission's Travel Bureau.

"Agreement" with the Longview, Portland and Northern Railway Company covering relocation of railroad on the Wallace Bridge-Valley Junction Section in Polk County.

"Permit Agreement" to Howard Martin covering logging operations on the Alsea Highway between Cedar Creek, M.P. 22.93 and Rock Creek, M.P. 24.79.

"Grant of Access" to James I. Ahern to property lying in Section 9, Township 15 South, Range 11 East, W. M., Deschutes County.

"Electric Power Transmission Line Permit" with Bonneville Power Administrator covering the erection of electric power transmission lines over and across Cove Palisades State Park in Jefferson County.

"Agreement" with Crown Zellerbach Corporation granting the State permission to remove approx. 1,000 cu yds. pit-run rock from the rock pit of the Corporation located adjacent to the Cape Lookout Highway in Tillamook County.

The meeting recessed at 11:45 a.m. and reconvened at 1:30 p.m. in the same room with the same persons present and participating.

The business meeting was resumed at 2:00 p.m. following showing of the film "I'll Take the Freeway", depicting construction of the R. H. Baldock Freeway between Portland and Salem.

A delegation from Baker County came before the Commission concerning rerouting of the Baker-Homestead Highway in the vicinity of Pine. The following people were present: Hon. Lloyd Rea, Baker County Judge, Baker; Frank McDowell, Tom Smith, J. M. Brockway, and M. D. Stilwell, businessmen; Harry Alexander and W. A. Gorhan, merchants; M. C. Jones, contractor; R. E. Gale and Fred McCormack, Idaho Power Company, all from Halfway; R. M. Phipp, County Commissioner, Huntington; Babe Alexander, Independent Telephone, Richland; and Gill Wright, County Court, Newbridge. Judge Rea introduced the members of the delegation and presented a petition signed by numerous residents of Baker County requesting installation of a blinker light or a divider at the intersection of U.S. Highway 30 and Pocahontas Market Road in Baker County for the safety and welfare of the traveling public. The petition was referred to the Engineer for investigation. Concerning the proposed route of the Baker-Homestead Highway near Pine, Judge Rea stated that property owners east and north of Pine are disturbed about a proposed realignment which would extend northeasterly from Pine, as such a route would cut diagonally across a large number of valuable farms. He presented a petition expressing a preference for the route south from Halfway and east from Halfway along Pine Creek Secondary Highway. He then inquired if it is planned to place an asphalt surface on the section to be constructed between Richland and Halfway. The Engineer replied in the affirmative and explained that the new section will be surfaced because the old route bore a similar type of surface; however, the section between Halfway and Brownlee will not be oiled. Mr. Tom Smith presented a petition signed by over 400 people requesting that the route be relocated from Road Gulch south and west of Pine, northerly past Junior Gover's, past the Fairgrounds near Halfway to a connection with the present highway a short distance east of Halfway. He exhibited a map attached to the petition showing the proposed route. Mr. Gale of the Idaho Power Company stated that his company is opposed to the route south of Halfway, but will support either route into Pine that goes close to Halfway. He pointed out that the route suggested by Mr. Smith does cut up good farm land south of Pine. Mr. McCormack, also of the Idaho Power Company, stated that the Company would prefer to use the existing road east of Halfway. He objected to use of the projected line northeasterly from Pine as it cuts up too many farms. He suggested two alternate routes located south and east of Pine and which would extend northerly to a connection with the Pine Creek Secondary Highway No. 414, a short distance east of Halfway. The Engineer commented that no matter what route is selected, there would be some protests, but in selecting the final route, very careful consideration will be given so that the route which is selected will provide the greatest good for the largest number of people without disrupting the economy of the valley, and is the most feasible to build. He also commented that the proposed line extending in a northeasterly direction from Pine is out of consideration. Mr. Gale observed that there is no great difference of opinion in the route suggested by the delegation and the ones suggested by the Idaho Power Company. It was Mr. Smith's opinion that the people who had signed the petition favoring the route which he had just presented would not have any serious objection to one of the routes as proposed by the Idaho Power Company. Judge Rea asked the Commission to give the matter careful consideration, and he then congratulated

Commissioner Chessman upon his appointment as a member of the Highway Commission, and Mr. Reynolds upon his election as Chairman. Chairman Reynolds stated that the Commission will give careful consideration to the economy of the areas in the vicinity of Halfway and Pine, the cost of construction, and the benefit to the traveling public in any route which may be adopted. The Engineer was instructed to make further study of the routing of the highway in the Halfway district.

A delegation from Mt. Angel appeared before the Commission concerning improvement of the Hillsboro-Silverton Secondary Highway between Mt. Angel and Silverton and particularly at Henjum's Corner. The following people were present: Jacob Berchtold, Mayor; Carl Mucken, Chairman, Road Committee; Bernard H. Kirsch, President Businessmen's Club; Joseph Berchtold, Ira Herriford, Joe M. Wagner, Peter S. Meissner, Andrew F. Schmidt, P. J. May, all of the Businessmen's Club; and E. B. Stolle, Editor of "Mt. Angel News", all of Mt. Angel. Jacob Berchtold headed the group and thanked the Commission for improvements that have been performed in or near Mt. Angel in the past few years and urged further improvements at Henjum's Corner to reduce the traffic accidents which occur at that location. Mr. Mucken called attention to the old 16-foot pavement with which this highway is surfaced and the faulty condition of the adjoining shoulders. Of the many accidents which have occurred between Silverton and Mt. Angel, he stated, most of them have been caused by people running off the road. He also pointed out that the road is used quite heavily on weekends by fishermen who are bound for Detroit Reservoir and points east. He urged improvement of the entire highway section. Joseph Berchtold commented on the increased amount of industry that has developed in the Mt. Angel area and the consequent increased traffic over the highway. Mr. Kirsch, speaking for businessmen and farmers in the Mt. Angel vicinity, called attention to a hospital located in Silverton which serves people in Mt. Angel. Silverton also has a large cannery and poultry plant which, with the creamery in Mt. Angel, generates considerable industrial traffic. Commissioner Reynolds advised the delegation that the need for improvement is recognized by the Commission but secondary funds for improvement of the highway are not presently available; however, consideration will be given to this project in formulating the next construction program.

Harney County Judge C. W. Craddock, Lee Williams and Jack Drinkwater, Harney County Commissioners, came before the Commission concerning the oiling of the Frenchglen State Secondary Highway between Burns and The Narrows. Judge Craddock, who acted as spokesman, stated that the County has accumulated approximately $100,000 in FAS money which it will apply toward surfacing of the highway between Burns and The Narrows, if the State will assume payment of the remaining expense. The section, he continued, is about twenty-two miles long and from figures secured from the Highway Department, he estimated that the total cost would be approximately $970,000. Chairman Reynolds pointed out that the Commission is short of funds for secondary highways and if the project requested were approved, it would take all of the secondary monies that are alloted to their district. He questioned the advisability

of diverting secondary funds from other highways within Division V. However, he stated, the Commission will carefully consider the matter, although no encouragement can be given at this time. Commissioner McIver commented that it would take several years for the State to accumulate enough secondary funds to finance this project and it was his thought that careful investigation should be conducted before any commitments are made. Judge Craddock replied that the County would like to know as soon as possible so that they would not lose any FAS money. Chairman Reynolds remarked that the County's offer is appreciated but $100,000 is not much of a contribution to a million dollar project; however, an Engineering report on the subject will be obtained so the Commission can advise the County Court by July 1, 1957 as to what it can expect.

A delegation from Klamath Falls and Medford appeared before the Commission concerning designation of Lake of The Woods Road as a State Secondary Highway. The following persons were present: C. H. Mack, Klamath County Judge; Jerry Rajnuw and Ed Gowen, Klamath County Commissioners; Bill Canton, Klamath County Engineer; and Frank Tucker and Bob Veatch, members of the Chamber of Commerce, all of Klamath Falls; Rodney Keating, Jackson County Judge; Paul B. Rynning, Jackson County Engineer; Glen Jackson, Don McNeil and M. Huggins, members of the Chamber of Commerce, all of Medford. Judge Mack headed the group and introduced the Klamath County delegation. Judge Keating introduced the people from Jackson County. Judge Mack requested the Commission to ask for improvement of the Lake of the Woods Road with forest highway funds. Chairman Reynolds recalled that when designation of this road as a secondary highway was discussed some time ago, the Commission at that time stated that it would consider taking it over as a State Secondary Highway if Klamath County would take over as a county road the segment of the Klamath Lake Secondary Highway northerly from the junction with Lake of the Woods Road to Ft. Klamath. Judge Mack then inquired that if the County agreed to take over this piece of highway, would the State make a right-of-way survey so that the County would have a record of the road they would be taking over. The Engineer called attention to the fact that the US Forest Service had constructed a new road which roughly parallels the road from Fort Klamath to the junction with Lake of the Woods Road, but the old road that is being maintained by the State is in the same location as it was when it was taken over from the County as a secondary highway. He said that to the best of his knowledge, the old road has never been surveyed and there are no known maps of it in existence. Mr. Canton said that the County would like to know the right-of-way width, as it could not be improved unless this width is known. The Engineer replied that to the best of his knowledge the old right of way is forty feet wide and that the original records would still be valid in this case, as no change has been made by the State. Judge Mack then inquired if the State will give the County assistance in securing forest highway money for this road when it is needed. Chairman Reynolds replied that the Commission has always made it a practice to aid the Counties in this respect. Judge Mack then stated that Klamath County will accept the section of Klamath Lake State Secondary Highway from its junction with Lake of the Woods Road northerly to Ft. Klamath and will maintain it as a County

road if the State will take over and maintain as a State secondary Highway and as a Forest Highway, the section of the Lake of the Woods Road from the Jackson County line to its junction with the Klamath Lake Secondary Highway, with the understanding that the Commission will consider taking back that section of the Klamath Lake Secondary Highway north of Lake of the Woods junction when traffic warrants it. Judge Keating stated that the Jackson County Court also approves this project on such basis. Judge Mack also pointed out that in previous negotiations, the Commission indicated that it would request Forest Highway funds to improve the Lake of the Woods Road in Klamath County. Chairman Reynolds stated that action would be taken to place the road on the Forest Highway system and that an appropriate agreement would be prepared for signatures of the two County Courts and the State Highway Commission.

Judge Mack presented a petition from taxpayers in Klamath County for removal of guard fence and posts at the "Y" connection of Oregon 66 and Oregon 39, five miles east of Klamath Falls. The Commission referred the petition to the Engineer for investigation and report.

Willard L. Archer, Sherwood, appeared before the Commission concerning access to the Portland-Salem Expressway at Norwood Road. Also present were Fritz Meger and Howard Ellman, both from the Norwood Community. Mr. Archer asked the Commission to re-evaluate a survey made about two years ago concerning the amount of traffic that would use an interchange at Norwood Road were one provided. It was his feeling that there may have been some typographical errors in the summary, as according to his understanding of the matter the field sheets as prepared by those who took the count did not agree with the summary. He said that the Norwood Community is growing, but its growth is being retarded by lack of access to the Expressway. He called attention to construction of interchange facilities at Hopmere, north of Salem, during the summer of 1956, in substantiation of his contention that access should be granted at Norwood Road. Chairman Reynolds stated that the Engineer would be requested to recheck the traffic count at this location to clarify any misunderstandings that might exist, and to make new counts if that is considered necessary. The Engineer was then so instructed.

Mr. Verne Ayers, Manager of the Oregon Coast Association who was present, asked the Commission whether or not it would be possible to start construction of the Oregon Coast Highway in Curry County this year with funds recently authorized by the 1957 Legislative Assembly. Chairman Reynolds advised him that survey work has already been started at both ends of the project and there will be no avoidable delay in getting the work underway when the money becomes available. The Engineer stated that there are possibilities that some work can be contracted this fall.

The Commission discussed with the Engineer bids received at the morning session and at 3:30 p.m. Commissioner McIver announced awards of contracts as follows:

(See following page)

"Oiling on two county roads near Monroe in Benton County. All bids have been referred to Benton County for their handling as this is a county job.

"Stone base and paving on the Oak Street-Chetco River Section of the Oregon Coast Highway in Brookings in Curry County. The Commission has awarded the contract to the low bidder, The Central Heating Company, Ore. Ltd., Eugene, at $28,793.20.

"Construction of Seneca Sand Shed on the John Day-Burns Highway, approximately 25 miles south of John Day, in Grant County. The Commission has awarded the contract to the low bidders, C. R. Bennett and Wm. Hickey, Burns, at $11,531.00.

"Construct Hay Creek Bridge on the Willowdale-Lyle Gap Section of The Dalles-California Highway in Jefferson County. The Commission has awarded the contract to the low bidder, R. H. Jones, Hillsboro, at $38,462.00.

"Construct Chiloquin Sand Shed on The Dalles-California Highway, approximately 27 miles north of Klamath Falls, in Klamath County. The Commission has awarded the contract to the low bidder, H. G. Wirtz, Grants Pass, at $9,847.00.

"Low Pass Summit Guardrail Project on the Siuslaw Highway, about 22 miles west of Junction City in Lane County. The Commission has awarded the contract to the only bidder, George C. Stubbert, Empire, at $3,856.00.

"Rock production project on the Walton-Veneta Section of the Richardson-Eugene Highway in Lane County. The Commission has awarded the contract to the low bidder, E. C. Swaggart Co., Eugene, at $27,675.00.

"Grading and paving on the Four Corners-Geer Station Section of the Geer Road (East State Street extension), in Marion County. The Commission elects to accept the bid of the low bidder, Warren Northwest, Inc., Portland, in the sum of $223,481.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $50,700.00 is deposited by the County.

"Construct Sign Department Office on Airport Road near Highway Shops, east of Salem in Marion County. The Commission has awarded the contract to the low bidder, C. A. Lantz, Salem, at $35,840.00.

"Construct bridge over Santiam River on Pacific Highway, 9 miles north of Albany, in Marion and Linn Counties. The Commission has awarded the contract to the low bidder, Donald M. Drake Co., Portland, at $703,505.00.

"Rock production project on the Pilot Rock-Grant County Line Section of the Pendleton-John Day Highway, south of Pilot Rock. The Commission has awarded the contract to the low bidder, Barney Helser Rock Production, Beaverton, at $49,640.00.

"Shoulder oiling on the Sand Station-Washington State Line Section, east of Umatilla, in Umatilla County. The Commission has awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at $14,744.25.

"Grading on the Meacham-Glover Section of the Old Oregon Trail Highway, near Meacham, in Umatilla and Union Counties. The Commission elects to accept the bid of the low bidder, Rogers Construction, Inc., Portland, in the sum of $492,328.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving on French and Hill Streets in Cove, Union County. The Commission has awarded the contract to the low bidder, Leslie Harris, Pendleton, at $15,868.00.

"Stone base and paving on Division Street and South 7th Avenue in Elgin, Union County. The Commission has awarded the contract to the low bidders, H. J. & H. W. Miller, Baker, at $10,452.50.

"Grading and paving on "G" Street in North Powder, in Union County. The Commission has awarded the contract to the low bidder, Leslie Harris, Pendleton, at $14,010.00.

"Construct latrine at Wallowa Lake State Park in Wallowa County. The Commission has awarded the contract to the low bidder, Bechtel Bros., La Grande, at $7,864.00.

"Grading and paving First Avenue South in Tualatin, Washington County. The Commission has awarded the contract to the low bidder, Oregon Asphaltic Paving Co., Portland, at $12,914.50.

The Commission authorized expenditure of approximately $270.00 to produce two extra copies of the film, "I'll Take the Freeway", a documentary film concerning construction of the Portland-Salem Expressway (R. H. Baldock Freeway), shown at 1:30 today. One of the films is to be furnished the AASHO Library in Washington, D. C.

Mr. Frank Andrews, Regional Engineer, Bureau of Public Roads, was present and thanked the Commission for its efforts in attempting to extend his services with the Bureau of Public Roads. However, as he has reached compulsory retirement age under the Bureau's standards, the request was denied by the Washington Office of the Bureau. He expressed warm appreciation for the cooperation that he had received from the Commission and from the Commission's staff in construction of highways in Oregon during his incumbency. Chairman Reynolds, speaking for the Commission and its staff, wished him many happy years in his retirement.

There being no further business to consider, the meeting was declared adjourned by Chairman Reynolds at 3:45 p. m.

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

EXHIBITS "A" through "I"

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

May 16 and 17, 1957

EXHIBIT "A"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for the State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

HARBOR DRIVE-BARBUR BOULEVARD SECTION-PORTLAND-SALEM EXPRESSWAY

26422 Norman, Daisy E. (Smith)
Right of Way
Option expires October 23, 1957

7,500 sq. ft. at $0.17+ per sq. ft.	$1,280.00
House	5,320.00
Yard improvements	700.00

Amount to be paid owner - chrg to Right of Way $7,300.00

Grantor to vacate 5 days after payment or 30 days after notice.

Entire taking -

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land on the 11th Avenue Connection in Eugene of the Pacific Highway described as follows:

A parcel of land lying in the Prior F. Blair D. L. C. No. 39, also in Section 36, Township 17 South, Range 4 West, W. M., Lane County, Oregon, and being a portion of the following described property:

That tract of land which was conveyed by that certain deed to the State of Oregon by and through its State Highway Commission recorded in Book 215, Page 639 of Lane County Record of Deeds.

The said parcel being described as follows: Beginning at the intersection of the West line of Garfield Street and the North line of said property; said point being 1,801.9 feet South 89°19' East and 321.4 feet North 0°13'30" East of the Southwest corner of the prior F. Blair D. L. C.; thence South 0°13'30" West 106 ft., more or less, to a line parallel to and 44 ft. Northerly of the center line of the Pacific Highway, Seventh Avenue Connection in Eugene; thence North 89°50'30" West along said parallel line 109.5 ft. to the Westerly line of said State property; thence North 0°13'13" East along said Westerly line 106 ft., more or less, to the Northwest corner; thence South 89°50'30" East along the Northerly line of said property 109.5 ft. to the point of beginning, containing 0.266 acre.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $5,793.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et. Seq.

BE IT FURTHER RESOLVED that this Property Sale Resolution No. 43 be entered in the minutes and records of the Commission as of the 16th day of May 1957.

28370

EXHIBIT "B-2"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcels of land on the Willamette River-Hayesville Section of the Portland-Salem Expressway described as follows:

Parcel 1 - A parcel of land lying in the Linus Brooks D. L. C. #64, also lying in Section 18, Township 6 South, Range 2 West, W. M., Marion County, Oregon, and being a portion of that tract of land described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 460, Page 292 of Marion County Records of Deeds; the said parcel being described as follows:

Beginning on the West line of said D. L. C. #64 at a point 51.76chains S 0° 30' East from the Northwest corner of said D. L. C.; thence East 11.62 chains to the Southeast corner of said State property and the true point of beginning; thence along the East line of said State property North 0° 30' West 12.91 chains; thence West 410 ft., more or less, to a line which is parallel to and 100 ft. Easterly of the center line of the Portland-Salem Expressway; thence Southwesterly parallel to said center line 900 ft., more or less to the South line of said State tract; thence East along said South line 740 ft., more or less, to the point of beginning.

The parcel of land to which this description applies contains 11.2 acres.

Parcel 2 - A parcel of land lying in the Linus Brooks D. L. C. #64 also lying in Section 18, Township 6 South, Range 2 West, W. M., Marion County, Oregon, and being a portion of that second described tract as set forth in that certain deed to E. A. Hillyer and Currie Hillyer recorded in Book 302, Page 219 of Marion County Records of Deeds; the said parcel being that portion of said second described tract lying Easterly of a line that begins at a point opposite and 330 ft. Easterly of Station 1614+00 on the center line of the Portland-Salem Expressway and runs thence Southwesterly in a straight line 596 ft., more or less, to a point opposite and 100 ft. Easterly of Station 1619+50 on said center line; thence Southerly parallel to and 100 ft. Easterly of said center line 665 ft., more or less, to the Southerly line of said second described tract in said deed to Hillyer.

The parcel of land to which this description applies contains 3.7 acres.

EXHIBIT "B-2" (Cont)

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,150.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of this property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between the said real property and the right of way of the Portland-Salem Expressway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 44 be entered in the minutes and records of the Commission as of the 16th day of May 1957.

EXHIBIT "B-3"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Valley Jct. -Sheridan Section of the Salmon River Highway described as follows:

A parcel of land lying in the William Chapman D. L. C. #41, Township 5 South, Range 6 West, W. M., Yamhill County, Oregon and being a portion of that property described in that deed to the State of Oregon by and through its State Highway Commission recorded in Book 179, Page 431, of Yamhill County Records of Deeds; the said parcel being that portion of said property lying Northwesterly of a line which is parallel to and 60 ft. Northwesterly of the center line of the connection between the relocated Salmon River Highway and Co. Market Rd. No. 24, which center line is described as follows:

Beginning at Engineer's center line Station "A" 17+46.1, said station being opposite and 36 ft. Northwesterly of station 491+64.23 on the center line of the relocated Salmon River Highway, said Station also being 798.33 ft. North and 1058.73 ft. West of the Southeast corner of said D. L. C. #41; thence on a 1,145.92 ft. radius curve left (the long chord of which bears North 57°21' 39" E) 582.5 ft ; thence N 42°47' 54" E 763.6 ft.; thence on a 572.96 ft. radius curve left (the long chord of which bears N 22°47' 54" E) 400 ft. to Station "A" O+OO.

Bearings used herein are based upon the Oregon Co-ordinate System, North Zone.

The parcel of land to which this description applies contains 11.2 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of

EXHIBIT "B-3" (Cont)

ORS 273.060 Et. Seq. The conveyance of this property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between the said real property and the right of way of the Salmon River Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 45 be entered in the minutes and records of the Commission as of the 16th day of May 1957.

EXHIBIT "C"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4527 with T. W. Thomas for guard rail construction on the South Umpqua River-Myrtle Creek Section of the Pacific Highway in Douglas County, completed February 28, 1957.

"Contract No. 4541 with Rogers Construction Co. for structure, grading and paving on the Banks Interchange Section of the Nehalem Highway in Washington County, completed May 10, 1957.

"Contract No. 4626 with Tom Lillebo for constructing the West Fork Illinois River Bridge on the Redwood Highway in Josephine County, completed March 31, 1957.

"Contract No. 4630 with Tom Lillebo for Stayton-Sublimity Oiling and Mill Creek Bridge on the North Santiam Highway in Marion County, completed March 1, 1957. Request for extension of time is being presented at this meeting.

"Contract No. 4672 with P. S. Lord Contractor, for constructing the South Fork Gales Creek Bridge and 5th and 6th crossings of the Wilson River on the Wilson River Highway in Tillamook and Washington Counties, completed April 30, 1957.

"Contract No. 4779 with Vern Hoaglin for guard rail construction on the Shady-Booth Ranch Unit, South Umpqua River-Myrtle Creek Section of the Pacific Highway in Douglas County, completed May 3, 1957.

"Contract No. 4787 with George E. Berry for constructing the Beach Creek Bridge on the John Day Highway in Grant County, completed April 24, 1957.

"Contract No. 4790 with Tom Lillebo for Umpqua River Bridge pier protection on the Oregon Coast Highway in Douglas County, completed May 3, 1957.

"Contract No. 4806 with Babler Bros., Inc., for grading and oiling on the Indian Creek-Windmaster Corner Section of the Brookside Drive County Road in Hood River County, completed May 7, 1957.

"Contract No. 4817 with Trowbridge Electric Co. for highway illumination on the 42nd Avenue-Troutdale Section of the T. H. Banfild Expressway in Multnomah County, completed April 6, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4840 with J. J. Walton for Rooster Rock Park Interchange illumination on the Columbia River Highway in Multnomah County, completed April 29, 1957.

"Contract No. 4848 with Trowbridge Electric Co. for Eugene traffic signal installation on the Pacific Highway in Lane County, completed April 23, 1957.

"Contract No. 4852 with Eugene Gardens for overnight camp expansion in Cape Lookout State Park in Tillamook County, completed April 29, 1957.

"Contract No. 4865 with Babler Bros. Inc., for grading and paving on the Ochoco Park-Crooked River Section of the Ochoco Highway in Crook County, completed April 22, 1957.

"Contract No. 4870 with George E. Berry for guard rail construction on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County, completed May 6, 1957.

"Contract No. 4873 with C. H. Strong Engineering and Construction for constructing a boat channel at Rooster Rock Park in Multnomah County, completed April 24, 1957.

"Contract No. 4875 with S. W. Groesbeck for slope protection on the Corvallis Section of the Albany-Corvallis Section of the Albany-Corvallis Highway in Benton County, completed May 8, 1957.

"Contract No. 4876 with Portland Road & Driveway Co. for constructing asphaltic concrete footpath on the Flavel St. -Glencoe Road Section of the Cascade Highway in Clackamas and Multnomah Counties, completed April 26, 1957.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 62 shall be entered in the minutes and records of the Commission as of the 16th day of May, 1957.

EXHIBIT "D-1"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Nehalem Secondary Highway

Highway Number 102 Route number ORE 47

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
87.64 (a point north of the north city limits of Forest Grove)	88.18 (at the north city limits of Forest Grove)	40

except that between M.P. 87.74 and M.P. 87.90 the indicated speed shall be 20 MPH during the hours of school crossings

EXHIBIT "D-1" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Zone Resolution No. 94 established September 22, 1952.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 94a be entered in the minutes and records of the Commission as of the 16th day of May, 1957.

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Dolph Corner - Dallas Secondary Highway

Highway number 192 Route number ORE 22

Location of Termini		Established Speed
M. P	to M. P.	M. P. H.
2. 29 (250 feet north of Reed Lane)	2. 78 (north city limits of Dallas)	45

except that between M. P. 2. 48 and M. P. 2. 66 the indicated speed shall be 20 MPH during the hours of school crossings.

EXHIBIT "D-2" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 249 be entered in the minutes and records of the Commission as of the 16th day of May, 1957.

EXHIBIT "E-1"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Highway Engineer to make a complete and final survey of a public way, to be known as Air Port Road, in Sections 9 and 16, Township 1 South, Range 2 West, Willamette Meridian, Multnomah County, Oregon, and in connection therewith, to prepare maps showing the route and location of said public way and to file said maps, records and reports with the Commission; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, be it and it hereby is resolved by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the public way, known as Air Port Road, beginning at Highway Engineer's center line Station 87+04.07, at which point the said Air Port Road intersects with the Cascade Secondary Highway, State Highway No. 160, and extends thence in a northerly direction to Highway Engineer's center line Station 24+00.31, said point being an intersection between the said Air Port Road and N.E. 82nd Avenue, and lying in Sections 9 and 16, Township 1 North, Range 2 East, Willamette Meridian, Multnomah County, Oregon, together with a map showing thereon in a solid black line the survey herein referred to, which said map for identification purposes bears sketchmap file number 1R-3-1146 and the date of April, 1957, and the field notes and other engineering data submitted by the Engineer, hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said Air Port Road is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey of the said public way, as Air Port Road, constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data on real properties needed for and in connection with the construction of said public way along and over this survey. This approval and adoption shall also constitute the authority for the Legal and Right of Way Department to proceed promptly with the acquisition of the necessary right of way pursuant to the

normal and approved method for the construction of a complete access controlled public way, unless otherwise directed or ordered by the Commission.

4. That this resolution be entered in the minutes and records of the Commission this 16th day of May, 1957, as Survey Resolution No. 153a.

EXHIBIT "E-2"

Minutes of May 27 and 28, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the highway engineer to make a complete and final survey of a resolution in part and an extension of a portion of the present Cascade Secondary Highway and, in connection therewith, to prepare maps showing the route, location and extension of said highway and to file said maps, reports and records with the Commission for consideration; and

WHEREAS, the engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, be it and it hereby is resolved by this Commission, all members thereof being present and voting affirmatively as follows:

1. That the survey of the relocation in part and extension of the present Cascade Secondary Highway, beginning at Highway Engineer's Centerline Station 87+04.07, at which point said Cascade Secondary Highway constitutes a connection with a public way known as Airport Road, and extending thence in a southerly direction to Highway Engineer's Centerline Station 112+15.06, near the intersection of the said present Cascade Secondary Highway and N. E. Alberta Street in the City of Portland, Multnomah County, Oregon, together with a map showing thereon with dotted lines, the survey herein referred to, which said map for identification purposes, bears sketch map file No. 1R-3-1146 and the date of April, 1957; the field notes and other engineering data submitted by the engineer hereby are approved, and the engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said relocation in part and extension of the Cascade Secondary Highway is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as an instruction to the engineer to prepare and make available to the Legal and Right of Way Department, all necessary descriptions and other required data of real properties needed for and in connection with the relocation in part, construction, reconstruction, extension and improvement of said highway along and over this survey. This approval and adoption shall also constitute the authority for the Legal and Right of Way Department to proceed promptly with the acquisition of the necessary right

of way pursuant to the normal and approved method for the construction of a complete access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission this 16th day of May, 1957, as Survey Resolution No. 153b.

EXHIBIT "E-3"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Forest Grove-Cornelius Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway in Washington County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Forest Grove-Cornelius Unit of the Forest Grove-Hillsboro Section of the Tualatin Valley Highway, beginning at Highway Engineer's Station 210+60, a short distance west of the City of Cornelius and extending in a westerly direction to Highway Engineer's Station 309+88.66 at "B" Street in the City of Forest Grove, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1010, dated April 1957, (Right of Way Map No. 8B-5-6 dated April 1957, and Right of Way Map No. 6B-34-20, dated August 1949), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for an in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a limited access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 16th day of May, 1957, as Survey Resolution No. 171.

28385

EXHIBIT "F"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, the Oregon State Highway Commission at its meeting of October 28, 1954, by Miscellaneous Resolution No. 128, designated a section of the Pacific Highway West, extending from the southwestern end of Barbur Boulevard in Portland, Oregon, to the City of Newberg, Oregon, as the Herbert Hoover Section of the Pacific Highway West; and

WHEREAS, the Oregon State Highway Commission at its meeting of April 19, 1957, by Miscellaneous Resolution No. 128a, amended the above resolution to redesignate the above-mentioned highway section to read:

> That section of the Pacific Highway West between the Multnomah County line and the Tualatin River Bridge is hereby designated and shall hereafter be known as the Barbur Boulevard Section of the Pacific Highway West, and that section of the Pacific Highway West from the Tualatin River Bridge to the City of Newberg, Oregon, shall hereafter be known as formerly, the Herbert Hoover Section of the Pacific Highway West; and

WHEREAS, it has come to the attention of the Oregon State Highway Commission that the above designations have caused confusion in residential and business mailing addresses; and

WHEREAS, it is deemed to be in the public interest and necessity that the above-mentioned section be changed to read as follows:

> That section of the Pacific Highway West from 35th Street, which is the westerly city limits of the City of Portland, Oregon, to the Washington-Yamhill County line be changed to Southwest Pacific Highway, and that section of the above mentioned highway from the Washington-Yamhill line to the City of Newberg continued to be designated as the Herbert Hoover section of the Pacific Highway West.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission that.

1. That Miscellaneous Resolution No. 128a, adopted by the Oregon State Highway Commission at its regular meeting of April 19, 1957, be amended to read as follows:

> That section of the Pacific Highway West from 35th Street, which is the westerly city limits of Portland, Oregon, to the Washington-Yamhill County line is hereby designated and shall hereafter be known as the Southwest Pacific Highway, and that section of the Pacific Highway West from the Washington-Yamhill

EXHIBIT "F" (Cont)

County line to the City of Newberg, Oregon, shall hereafter continue to be known as formerly, the Herbert Hoover Section of the Pacific Highway West.

2. This Resolution be entered in the minutes and records of the Commission as of the 16th day of May, 1957, as Miscellaneous Resolution No. 128b, and a true copy thereof filed with the Secretary of State.

28387

EXHIBIT "G-1"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "G-1" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to

final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 801.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 801 under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-2"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; weighing stations; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen in part, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "G-2" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening in part, constructing and improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening in part, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there be no rights of access of any nature between the right of way of the said relocated and widened Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation in part, widening in part, construction, improvement and maintenance of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "G-2" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 802.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 802, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28393

EXHIBIT "G-3"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Grants Pass (6th. & 7th. Sts.) Section of the Pacific Highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.405, no rights in or to any state highway, including what is known as right of access, shall accrue to any real property abutting upon any portion of any state highway constructed, relocated or reconstructed after May 12, 1951, upon right of way, no part of the width of which was acquired prior to May 12, 1951, for public use as a highway, by reason of the real property abutting upon the state highway; and

WHEREAS, under the provisions of Oregon Revised Statutes 374.410, the State Highway Commission shall, in connection with any acquisition of real property for right of way for any state highway, prescribe and define the location, width, nature and extent of any right of access that may be permitted by the Commission to pertain to real property described in Oregon Revised Statutes 374.405; and

WHEREAS, portions of the Grants Pass (6th. & 7th. Sts.) Section of the Pacific Highway will be relocated, constructed and reconstructed upon right of way, no part of the width of which was acquired prior to May 12, 1951; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public

EXHIBIT "G-3" (Cont)

welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that the rights of access that may be permitted should be defined;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the Grants Pass (6th. & 7th. Sts.) Section of the Pacific Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that the rights of access that may be permitted pursuant to Oregon Revised Statutes 374.410 between the right of way of the said widened and relocated Grants Pass (6th. & 7th. Sts.) Section of the Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property be defined as to location, width, nature and extent. The rights of access which shall be granted unto the respective owners, their heirs and assigns, for service of the said remaining land are noted as to each parcel, or parcels, no part of the width of which was acquired for right of way prior to May 12, 1951.

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Grants Pass (6th. & 7th. Sts.) Section of the Pacific Highway and the highway facilities for which each of the said parcels of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property, or interest therein.

EXHIBIT "G-3" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 803.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with map , are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 803, under the heading "Real Property Condemnation Resolutions", and said descriptions, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-4"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon revised statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property, the said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "G-4" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 804.

28399

EXHIBIT "G-5"

Minutes of May 16 and 17, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Comission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Beaverton-Hillsdale Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Beaverton-Hillsdale Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full *

2. That the widening, improvement and maintenance of the said

EXHIBIT "G-5" (Cont)

Beaverton-Hillsdale Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 805.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 805, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28401

EXHIBIT "G-6"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, or donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the State Highway Commission necessary for the preservation of scenic places and other objects of attraction or scenic value adjacent to or along, or in close proximity to, state highways, or which may be conveniently reached from or by a public highway; and the Highway Commission is also authorized and empowered to acquire land and ground necessary for the development and maintenance of parks, parking places, auto camps, camp sites, roadside development, recreational grounds, or resorts, forest or timbered areas, or other places of attraction and scenic value which, in the judgment of the Commission, are necessary for the convenience of the public and which will contribute to the general welfare and pleasure of the motoring public or road users; and

WHEREAS, the Sunset Bay State Park has been established by and is under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the State Highway Commission plans and proposes to enlarge, develop, and maintain the Sunset Bay State Park for public park and recreational purposes and for the convenience of the public and general welfare and pleasure of the motoring public using the highways of the State of Oregon and for such purposes and in connection therewith the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for public park and recreational purposes for use in the enlargement, development, and maintenance of the Sunset Bay State Park fee simple title to a parcel of real property located in Coos County, Oregon, and described as follows, to wit:

File No. R-26355 - George J. Landrith

A parcel of land lying in the South half of the Northwest quarter ($S\frac{1}{2}NW\frac{1}{4}$) of Section 9, Township 26 South, Range 14 West, Willamette Meridian, in Coos County, Oregon, more particularly described as follows:

Beginning at a point in the West line of the Southeast quarter of the Northwest quarter ($SE\frac{1}{4}NW\frac{1}{4}$) of said Section 9, said point being 156.2 feet North and 1315.8 feet East of the West quarter corner of said Section 9; thence North 1° 03' West a distance of 123.0 feet; thence West a distance

EXHIBIT "G-6" (Cont)

of 85.0 feet to the easterly Right of Way line of the Cape Arago Highway; thence northerly along the said Right of Way line on the arc of a 316.5 foot radius curve left (the long chord of which bears North 15° 39' West, 369.8 feet) a distance of 394.9 feet; thence North 66° 13' East a distance of 729.42 feet; thence East a distance of 100.0 feet; thence South 62° 30' East a distance of 200.0 feet; thence East a distance of 260.0 feet; thence South 16° 15' East a distance of 220.0 feet; thence South 0° 15' West a distance of 514.56 feet; thence South 24° 22' East a distance of 164.65 feet; thence North 89° 06' West a distance of 375.0 feet; thence North 3° 28' West a distance of 251.50 feet; thence North 44° 06' West a distance of 218.66 feet; thence South 89° 15' West a distance of 212.41 feet; thence South 80° 10' West a distance of 120.0 feet;; thence South 53° 50' West a distance of 113.96 feet; thence South 25° 05' West a distance of 146.0 feet; thence North 88° 12' West a distance of 118.31 feet to the point of beginning; containing 17.1 acres, more or less.

2. That the above-described real property and the park and recreational purposes for which it is being acquired is necessary for the convenience of the public and will contribute to the general welfare and pleasure of the motoring public or road user.

3. That the park and recreational facilities for which the aforesaid real property is required and is being taken have been planned, designed, located, and will be constructed, developed, and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 806.

28403

EXHIBIT "G-7"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which is

EXHIBIT "G-7" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and that specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth here in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the Jumpoff Joe Creek-Grants Pass Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "G-7" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 807.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Re solution No. 807, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-8"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; weighing stations; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen in part, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immedia-

tely needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening in part, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there be no rights of access of any nature between the right of way of the said relocated and widened Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation in part, widening in part, construction, improvement and maintenance of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire

EXHIBIT "G-8" (Cont)

title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 808.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 808, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28409

EXHIBIT "G-9"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive - Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests

EXHIBIT "G-9" (Cont)

of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, than the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire

the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 809.

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 809, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-10"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and excess, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway, and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately

EXHIBIT "G-10" (Cont)

needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire

EXHIBIT "G-12"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any State highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Winchester-Shady Point Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

EXHIBIT "G-12" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Winchester-Shady Point Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the widening, improvement and maintenance of the said Winchester-Shady Point Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes

and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 812.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 812, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28421

EXHIBIT "G-13"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system and right of way for a haul road; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "G-13" (Cont)

2. That the highway facilities for which the said parcel of property or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial or any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 813.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 813, and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28423

EXHIBIT "G-14"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous or undesirable points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, reconstruct, improve and maintain the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be relocated, constructed, reconstructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of relocating, constructing, reconstructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission

EXHIBIT "G-14" (Cont)

that the real property hereinafter described is necessary and that access to and from the said highway should be controlled.

NOW, THEREFORE, be it and it hereby is resolved by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required for right of way purposes for the construction, reconstruction, improvement and maintenance of the Columbia River Highway as a throughway, including its use for the construction, reconstruction, improvement and maintenance of frontage roads and a traffic interchange, which traffic interchange, with a connecting road to be constructed by the State Highway Commission, will connect the said Columbia River Highway and the Crown Point Secondary Highway, the following described real property, to wit:

File No. L-2584 (R-24183)
Owner: Paul R. Martin, et ux.

Parcel No. 1:

A parcel of land lying in Lot 1 of Section 25, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of that tract conveyed to Paul Martin and Verla Martin by deed recorded in Book 1523, Page 418 of Multnomah County Deed Records, said corner being 686 feet West and 191.52 feet North 0° 07' East from the Southeast corner of said Lot 1; thence North 84° 17' West parallel to and 200 feet northerly from the relocated center line of the Columbia River Highway, 228.9 feet to a point opposite Station 521+50 on said relocated highway center line; thence North 62° 01' 36" East 180.28 feet to a point opposite and 300 feet northerly of Station 523+00 on said center line; thence North 87° 35' 12" East 65.4 feet to the West line of said Martin tract; thence South along said West line 110 feet to the point of beginning.

The parcel of land to which this description applies contains 0.22 acre.

Parcel No. 2:

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 25, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of said Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) thence North 40° 40' East 153.5 feet; thence North 3.72 feet to the Southeast corner of that tract conveyed to Paul Martin and Verla Martin by deed recorded in Book 1523, Page 418 of Multnomah County Deed Records, said corner being the true point of beginning of the parcel herein described; thence South 84° 17' East parallel to and 200 feet northerly from the relocated center line of the Columbia River Highway 535.1 feet to a point opposite Station 537+00 on said relocated highway center line; thence North 62° 28' 55" West 538.52 feet to a point opposite and 400 feet northerly from Engineer's centerline Station 532+00; thence North 84° 17' West parallel to and 400 feet northerly from said relocated highway center line 55.1 feet to the East line of said Martin tract; thence South along said East line 201 feet to the point of beginning.

The parcel of land to which this description applies contains 1.4 acres.

2. That it is necessary to acquire and remove all of that certain farm structure located partially upon the real property hereinabove described as Parcel No. 2 and partially upon the owners' remaining real property approximately opposite Highway Engineer's centerline Station 534+00 and northerly of the said Columbia River Highway, and in connection therewith, it is necessary to acquire a right of entry to go upon the owners' remaining real property contiguous to the real property hereinabove described for the purpose of removing, dismantling or otherwise disposing of said structure.

3. That it is necessary that there shall be no rights of access of any nature between the right of way of the Columbia River Highway and all real property of the owners easterly of the Sandy River in Section 25, Township 1 North, Range 3 East, Willamette Meridian, and Sections 29 and 30, Township 1 North, Range 4 East, Willamette Meridian, Multnomah County, Oregon, abutting on the said Columbia River Highway remaining after the appropriation of the above-described real property; provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, the following:

Rights of access to a frontage road to be constructed by the State Highway Commission upon the right of way of the Columbia River Highway on the northerly side of the main-traveled way thereof between approximately Engineer's Station 531+50 and Engineer's Station 537+00 at all places thereon easterly of Engineer's Station 532+00. Also rights of access to a connecting leg of an interchange to be constructed by the State Highway Commission upon the right of

EXHIBIT "G-14" (Cont)

way of the Columbia River Highway on the northerly side of the main-traveled way thereof at any place thereon between Engineer's Station 521+50 and Engineer's Station 529+00, which said frontage road and connecting leg shall be connected with the main-traveled way approximately opposite Highway Engineer's centerline Station 530+00 for traffic to travel westbound upon the highway.

Rights of access to the connecting leg of a traffic interchange to be constructed by the State Highway Commission upon the right of way of the Columbia River Highway on the southerly side of the main-traveled way thereof at any place thereon westerly of Highway Engineer's centerline Station 526+00, which said connecting leg will connect to the main-traveled way approximately opposite Highway Engineer's centerline Station 524+50 for eastbound traffic off of said highway and approximately opposite Highway Engineer's centerline Station 530+00 for eastbound traffic on to said highway.

4. That the construction, reconstruction, improvement and maintenance of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

7. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 814.

28427

EXHIBIT "G-15"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road, or street; quarry sites; gravel pits; storage sites; stock pile sites, or for the acquisition or manufacture of road building materials; approach or hauling roads; connecting roads, frontage roads, highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light, and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Myrtle Creek-Canyonville Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved, and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement, and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediate-

EXHIBIT "G-15" (Cont)

ly needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the relocation, construction, improvement, and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway as a throughway certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit A under the name of the record owner or reputed owner, and the Commission's respective file number; and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Myrtle Creek-Canyonville Section of the Pacific Highway and the highway facilities for which each of the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest; and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein

EXHIBIT "G-15" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 815.

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 815, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-16"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessaary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Dolph Corner-Rickreall Section of the Willamina-Salem Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediate-

EXHIBIT "G-16" (Cont)

ly needed for the highway proper; and

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A", is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Willamina-Salem Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except, that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Dolph Corner-Rickreall Section of the Willamina-Salem Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "G-16" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 816.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 816, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28433

EXHIBIT "G-17"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for

the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East, including its Santiam Highway connection leg, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "G-17" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 16th day of May, 1957, as Condemnation Resolution No. 831.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 831, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H"

Minutes of May 16 and 17, 1957

RESOLUTION

WHEREAS, by resolution adopted by the State Highway Commission on January 19, 1955, which resolution is entered in the minutes of the Commission as No. 126 of Miscellaneous Resolutions, the State Highway Commission designated a certain area, which area is identified by Exhibit 49 of the above mentioned resolution, as Depoe Bay Ocean Wayside; and

WHEREAS, the building located upon the above mentioned area has been designated by the State Highway Commission as "The Lookout"; and

WHEREAS, the above named designation "The Lookout" has caused confusion with other property and business owned in the near vicinity; and

WHEREAS, it is deemed desirable by the Commission that the above named area and building located thereon be designated and known from this time as the Depoe Bay State Park.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED and ordered by the Commission as follows:

1. That the resolution adopted by the State Highway Commission on January 19, 1955, and entered as Miscellaneous Resolution No. 126, be amended to delete the above mentioned area as Depoe Bay Ocean Wayside.

2. That the above mentioned area formerly known as the Depoe Bay Ocean Wayside, and that the building located thereon formerly known as "The Lookout", is designated as a state park and is designated as the Depoe Bay State Park.

3. That this resolution be entered in the minutes and records of this Commission as of the 16th day of May, 1957, as Miscellaneous Resolution No. 126a.

28437

EXHIBIT "I"

Minutes of May 16 and 17, 1957

RESOL UTION

WHEREAS, on January 19, 1955, the State Highway Commission by Miscellaneous Resolution No. 125 adopted a certain area identified as Exhibit 36 in the above-mentioned resolution as Nehalem Sandspit State Park; and

WHEREAS, it is deemed to be in the public interest that the above named be changed to Nehalem Bay State Park.

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by this Commission as follows:

1. That Miscellaneous Resolution No. 125 adopted by the State Highway Commission on January 19, 1955, is amended to delete the above mentioned area as Nehalem Sandspit State Park.

2. That the above-mentioned area formerly known as Nehalem Sandspit State Park is designated as Nehalem Bay State Park.

3. That this resolution be entered in the minutes and records of this Commission as of the 16th day of May, 1957, as Miscellaneous Resolution No. 125d.

Portland, Oregon
June 27, 1957

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queen's Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right-of-Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Chairman Reynolds mentioned the bid opening held in Salem on June 6, 1957, and advised that the successful bidders for the several projects for which bids were received at that time will be announced late in the day along with those of today's letting.

Bids as follow were then opened and read aloud by the Secretary, who announced that the Commission would award contracts in the same room at 4:00 p.m.

The Commission approved the minutes of the Commission meeting held May 16 and 17, 1957 and Chairman Reynolds approved the minutes for the public hearing held in Medford, October 25, 1956, concerning relocation of the Pacific Highway, which minutes had also been approved previously by letter by Mr. Ben R. Chandler who was Chairman of the Highway Commission at the time the hearing was held.

The Parks Superintendent reported on the following Parks matters:

1. Request for development of park facilities at the Gordon Creek and Cherry Creek areas on Owyhee Reservoir in Malheur County: The Parks Superintendent stated that, as previously instructed, he had started a study pertaining to park facilities at this place. He called attention to a section of road on the east side of the Reservoir between Cherry Creek Road and a point near Owyhee Dam which had been constructed by local people. A traffic count was taken at the boat ramp near the dam to determine the number of cars arriving from the north, and another count was taken on the road entering Cherry Creek from the east. The count at the north end of the lake showed 94 vehicles in March, 720 vehicles in April and 755 vehicles in May. At Cherry Creek, the count was 69 vehicles in April and 390 in May, or a total at both stations of 2,028 cars, representing approximately 7,500 people. The visitors to the lake appeared to be approximately one-half Oregon residents and the other half from Idaho and elsewhere. The study, he said, is not complete and will be continued. Chairman Reynolds commented on a bill introduced in the U. S. Congress which, if passed, would provide Federal funds in the sum of approximately one-half million dollars to help finance road construction into the area. Commissioner McIver inquired as to the reaction of the group from Portland when they visited the Reservoir. The Parks Superintendent replied that nearly 20

people made the trip and were very much impressed by the natural recreational possibilities, particularly fishing. The Engineer remarked that a group representing the Portland Chamber of Commerce, which recently called at his office in Salem, expressed amazement at the natural beauty and resources of Owyhee Reservoir. He also remarked that if Federal aid is secured, the State's share of constructing an access road to the reservoir will be approximately 50 percent of the total cost. The Commission accepted the report and instructed the Park Superintendent to continue his study on the basis of need and use during the summer season.

2. Purchase from the Bureau of Land Management of 22.08 acres adjoining Sunset Bay State Park immediately south of Cape Arago Lighthouse Reservation: Negotiations to secure this land, the Parks Superintendent reported, were initiated in 1948 and have now been approved by the Bureau. The estimated value of the land is $18,800.00, of which the State is requested to pay 30 percent, or the sum of $5,640.00. In addition, the State is required to pay the full amount of the value of the timber on the land, which is valued by the Bureau of Land Management at $2,291.40, making a total of $7,931.40 to be paid by the State. Under the rules of the Bureau in acquiring property, it is necessary, he continued, that the State advertise the sale and pay for the cost of the advertisement. He recommended approval of the purchase of the property and payment of the advertising expense. The Commission accepted his recommendation.

3. Proposed park areas on the Columbia River at Celilo, Biggs, Maryhill Ferry and Rufus: The Parks Superintendent stated that a field investigation of this project was made on June 4, 1957, and that his initial reaction was that the areas have recreational interest and may be developed at reasonable cost, particularly if the U.S. Army Corps of Engineers construct the initial facilities. Wasco County, he stated, has hired a landscape architect to make a study of the areas and prepare plans for development. The Wasco County Court also has agreed to make application to the Corps of Engineers for the Celilo area, with the thought that they may request the Highway Commission to take it over later. More study, he stated, is necessary to determine the actual values for recreational purposes and a report will be submitted later. The Commission accepted the report.

4. Proposed overnight camping area at Delake as requested by the City: This area, the Parks Superintendent stated, was offered to the State by the City at a previous Commission meeting and was referred to him to make a study of overnight camping needs along the coastline in this district. Such study, he said, has been made and it is his considered opinion that additional overnight camping facilities will be needed in the near future and that the proposed site which is located on Devil's Lake east of the Oregon Coast Highway near the city of Delake is the best area in this vicinity. He recommended that the 20 acres be accepted from the city of Delake and that he be authorized to negotiate for purchase of an additional $1\frac{1}{2}$ acres of private property along the south side of Lake Drive which is necessary to round out the holdings and to provide a source of material for filling low areas. Commissioner McIver inquired if establishment of park facilities so close to the city of Delake will confuse the Commission's policy of not establishing State

Parks in or adjoining cities. The Parks Superintendent replied that there should be no conflict with the Commission's established policy as long as the area is designated strictly for overnight camping purposes which is what the people of the city of Delake want. He also said that he contacted a number of motor court owners who expressed no objections to the plan and indicated that they will receive benefits from the proposed development. He called attention to another area on Devil's Lake some distance from the city which could be developed for picnic use. The Engineer pointed out that local residents would not be using the overnight camping facilities but a problem might be presented if other towns requested the establishment of camping facilities in or near the towns. After some further discussion, the Commission accepted the property offered by the city of Delake and authorized negotiations to purchase the additional acre and one-half as recommended by the Parks Superintendent, with the understanding that the area shall be developed for overnight camping use only.

5. Proposed gift from Marion County Court of approximately two miles of river frontage on the Willamette River adjoining and downstream from Champoeg State Park: This land, the Parks Superintendent stated, is situated along the east bank of the Willamette River and varies in width from 60 to 600 feet. The land was originally acquired by the County for a proposed highway, which was not built. The acquisition has been studied thoroughly and approximately one mile closest to the existing park would be a highly desirable addition, and he recommended that the Commission accept a strip approximately 5,500 feet in length which adjoins Champoeg State Park. The Commission accepted the land.

The Right of Way Engineer presented for consideration options secured for acquisition of real property that is needed for State Highway right of way, or for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer presented a miscellaneous sales report showing items sold since the last Commission meeting in the sum of $19,575.90, and a supplemental rental report showing rental receipts, new rentals and terminations from May 7 to June 17, 1957. Rental receipts for the month of May amount to $9,908.96. The Commission accepted the reports. (For details see supplemental rental report of May 7 - June 17, 1957 signed by W. H. Haskin, and miscellaneous sales report dated June 27 - 28, 1957, in the general files.)

Sale of several parcels of property was discussed. The Right of Way Engineer explained that each of the parcels is excess property no longer required for highway purposes. The minimum sale prices, he continued, are in line with appraisals and the value of similar nearby properties. Upon his favorable recommendation the Commission authorized public sale of the following properties by adoption of the attached resolutions relative

thereto marked EXHIBIT "B-1" through "B-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein:

a. 0.84 acre of the former Deal property. Property file No. 18663 on the Forest Boundary-Hauser Section of the Oregon Coast Highway in Coos County, for a minimum price of $350

b. 25,000 square feet of land now rented by the Richfield Oil Company on West 7th Street in Eugene, file No. 8862, with two 50' accesses at a minimum price of $12,500. (SEE EXHIBIT "B-1")

c. 68.76 acres of the former Schnakenburg property, file Nos 23299, 23300, 23301, 23302, on the Jump Off Joe Creek-Grants Pass Section of the Pacific Highway in Josephine County for a minimum price of $3,500. (SEE EXHIBIT "B-2")

d. 5,600 square feet of the former Elvioion and Walter properties, file Nos. 17266 and 17267, at the corner of 19th and South "A" Streets on the McKenzie Highway in the City of Springfield, with one access, for a minimum price of $2,800. (SEE EXHIBIT "B-3")

e. Sale of blow-down timber on the former West and Sparks property, file Nos. 21870 and 21871 on the Booth Ranch-Myrtle Creek Section of the Pacific Highway in Douglas County. This timber, the Right of Way Engineer explained, has been cruised and valued at $1,700, and he recommended that it be advertised for sale for a minimum price of $1,700.

Following the favorable recommendation of the Right of Way Engineer, the Commission approved an exploratory lease agreement with Standard Oil Company of California covering property on the John Day-Wasco-Heppner Highways in Gilliam County. This lease, the Right of Way Engineer explained, is a modification of a previous lease signed December 11, 1956, but does not give the oil company permission to conduct operations on State highway right of way, but is merely to protect the State in the event that oil is found adjoining the highway

The Commission considered payment of $2,500 to Louis and Katherine Brady for a complete release of damages caused by loss of irrigation water on their property on the Johns-Glendale Junction Section of the Pacific Highway in Douglas County. The loss of water, the Right of Way Engineer stated, was caused by a channel change that the State constructed, and if the State attempted to remedy the condition the cost might be as much as $10,000. He recommended that the payment of $2,500 be approved. The Commission approved such payment.

Consideration was given to an agreement with the Southern Pacific Company allowing the State to construct a dike partially on railroad property on the Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County. Following the favorable recommendation of the Right of Way Engineer, the Commission approved the agreement.

The Commission also considered sale of 5.3 acres of excess property in Section 28, Township 17 S., Range 3 W., W.M., Lane County, to the Eugene Water and Electric Board for a consideration of $5,300. The Right of Way Engineer explained that this action is to confirm previous telephone approval given by members of the Commission to correct an error in the sale of this property which was authorized at a previous Commission meeting. The Commission confirmed the corrected sale.

The Right of Way Engineer asked the Commission to approve, as a matter of policy, the payment of mortgage company fees in connection with the securing of partial mortgage releases. The records, he stated, should show that the Commission has officially approved these payments. The cost to the State, he continued, will be no more than before, as the fees if not paid by the State, would be added by the property owner to the price of his property. The Commission approved the payment of the fees as recommended.

Attention was given to a refund in the amount of $6,400 to Mr. and Mrs. Frederick Pliley for two houses on the 14th Avenue-Barbur Boulevard Section of the Portland-Salem Expressway in Multnomah County. The Right of Way Engineer explained that shortly after the Pliley's purchased the houses from the State the property upon which they planned to locate the houses was condemned for right-of-way purposes. In the meantime, they had started moving operations and had expended the sum of $1,035 for such purpose. He recommended that the Pliley's be refunded the amount of $6,400 which they paid for the houses, and that they also be paid an additional sum of $1,035 to cover their moving costs. The Commission approved the payments and ordered that the houses be re-advertised for sale.

The Right of Way Engineer presented an "Indenture of Access" providing for a change in location of an existing access granted to Ben Shold on the West Unit, Black Bridge-Richland Section of the Baker-Homestead Highway in Baker County. No additional access, he stated, is being granted and he recommended that the change be approved. The Commission approved the change in access.

Consideration was given to the renewal of a lease whereby the U.S. Corps of Army Engineers leases to the State a stockpile site on the Dune Section of the Columbia River Highway in Wasco County. This lease, the Right of Way Engineer explained, covers a tract of 13.6 acres for a period of one year, beginning June 6, 1957. The Commission approved the lease renewal.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

(List of properties on following page)

North Jefferson Junction-Albany Section of the Pacific Highway East

R-25089 - Heirs of Ed McSorley
Right of Way (Linn County)
0.25 acre
Amended resolution to change the permit of entry to acquire all of motel structure.

R-25470 - John D. Nelson, et al.
Right of Way (Linn County)
0.94 acres (net)

R-25535 - P. W. Drushella, et al.
Right of Way (Linn County)
1,000 square feet

R-26449 - John M. Brenneman and Ruth Brenneman
Right of Way (Linn County)
0.11 acre

R-26450 - Frank Flamme and Helen Flamme
Right of Way (Linn County)
0.05 acre

R-26451 - Bernard T. Sudtell and Ada F. Sudtell
Right of Way (Linn County)
0.09 acre

R-25603 - Carl Spichalsky and Evelyn Spichalsky
Right of Way (Linn County)
2,750 square feet

R-26492 - Armine Cooper and Gladys Cooper
Right of Way (Linn County)
0.07 acre

R-25467 - George W. Sturgis, et al.
(Linn County)
Parcel No. 1: 2.5 acres for Right of Way
Parcel No. 2: 2,100 square feet for Right of Way

R-26454 - Henry E. Rothrock and Nellie L. Rothrock
Right of Way (Linn County)
0.07 acre

R-25484 - Paul Roner and Frances E. Roner
Right of Way (Linn County)
0.5 acre

North Jefferson Junction-Albany Section of the Pacific Highway East - Cont.

R-25472 - Edward Heyerly and Anna Heyerly
(Linn County)
Parcel No. 1: 1.41 acres for Right of Way
Parcel No. 2: 0.41 acre for Right of Way

R-25474 - Earl B. Houston and Eunice Houston
(Linn County)
Parcel No. 1: 0.42 acre for Right of Way
Parcel No. 2: 0.01 acre for Right of Way

Pacific Highway East

R-26595 - George Shoemate and Phyllis Shoemate
Material Source (Linn County)
18.9 acres

Albany-Judkins Point Section of the Pacific Highway East

R-25312 - C. A. Huntington and Hallie Huntington
(Lane County)
Parcel No. 1: 6.71 acres for Right of Way
Parcel No. 2: 1.44 acres for Right of Way

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25430 - John P. Schmitz and Agnes M. Schmitz
Right of Way (Clackamas County)
0.41 acre

R-25697 - John B. Carey, et al.
Right of Way (Clackamas County)
0.36 acre

Moro-Kent Section of the Sherman Highway

R-25628 - Heirs of Anton C. Young
Right of Way (Sherman County)
0.02 acre

R-25630 - T. W. Alley
Right of Way (Sherman County)
Parcel No. 1: 0.18 acre for Right of Way (net)
Parcel No. 2: 3.7 acres for Right of Way (net)

R-25632 - Roy J. Baker and Mary J. Baker
(Sherman County)
Parcel No. 1: 0.22 acre for Right of Way (net)
Parcel No. 2: 4.0 acres for Right of Way
Parcel No. 3: 5.0 acres for Right of Way

North Santiam Highway

R-24096 - Northern Lumber Company
Weighing Station (Marion County)
0.52 acre
Amended resolution to delete access control and to include a description change

R-25972 - Ray S. Peterson, et al.
Weighing Station (Marion County)
0.03 acre

Sunset Highway (Highlands Interchange)

R-25887 - N. J. Campf and Marguerite L. Campf
Right of Way (Multnomah County)
1,765 square feet

R-26190 - C. W. Kempthorn and Olga V. Kempthorn
Right of Way (Multnomah County)
0.20 acre

Ontario-Snake River Section of the Old Oregon Trail Highway

R-23928 - Joseph P. Spencer and Harriet Belle Spencer
Right of Way (Malheur County)
0.50 acre (net)

R-26061 - Charles R. Emison
Right of Way (Malheur County)
0.05 acre

Grants Pass (6th & 7th Streets) Section of the Pacific Highway

R-26498 - King Lumber Company, Inc.
Right of Way (Josephine County)
113 square feet

Old Oregon Trail Highway

R-25843 - Oliver C. Calhoun and Beatrice Calhoun
Material Source (Malheur County)
63.5 acres

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-26170 - Norman C. Hill and Dorothy Hill
Right of Way (Multnomah County)
0.04 acre

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway Cont.

R-26182 - George W. Bird and Mildred L. Orr
Right of Way (Multnomah County)
450 square feet

L-2786 (R-21163) - Jessie M. Firestone
(Multnomah County)
Parcel No. 1: 2.23 acres for Right of Way
Parcel No. 2: 0.77 acre for Right of Way
Amended resolution to increase the area of Parcel No. 1 to delete as excess taking parcel No. 3 of the two combined files.

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

L-2797 (R-21166) - Chester P. Muzzio, et ux.
(Multnomah County)
Parcel No. 1: 18,400 square feet for Right of Way
Parcel No. 2: 4.602 acres for Right of Way
A resolution to approve this resolution as of May 16, 1957, during prior Commission Meeting.

North Jefferson Junction-Albany Section of the Pacific Highway East

R-25606 - C. R. McCauley
0.57 acre for Right of Way

R-25612 - William C. Glender
0.40 acre for Right of Way

R-25613 - Daniel F. Ropp
0.14 acre for Right of Way

R-25840 - Clyde C. Bryant
0.47 acre for Right of Way

R-26483 - John Heyerly
890 square feet for Right of Way

Right of way maps and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. The Commission deferred action on this matter pending study. (Condemnation of the several parcels was authorized later in the day. See ahead for minute entry.)

A report submitted by the Chief Counsel, enumerating details concerning cases that have been tried in court since the Commission meeting held May 16 and 17, 1957 was accepted by the Commission and is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
May 18, 1957 through June 21, 1957

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Monson R-18166	Polk	Willamina-Salem	Dolph Corner-Rickreall	$1,600	$4,500	$3,240
Gillams R-23787	Polk	Willamina-Salem	Dolph Corner-Rickreall	400	5,000 (Answer)	750
Anderson R-24650	Multnomah	T. H. Banfield Expressway	Unit No. 2	6,000	30,000	15,000
Reimer R-18159	Polk	Salem-Willamina	Dolph Corner-Rickreall	2,500	7,900	5,950

The Chief Counsel also submitted an oral report on the Fleming and Ryan cases concerning property on the Dolph Corner-Rickreall Section of the Willamina-Salem Highway. In the Fleming case an offer had been made for $2,000. Fleming asked for $15,000 and the jury awarded $7,000. In the Ryan case the owners' original demand was for $12,000. The appraised value was $2,950. The Ryans have now offered to accept the sum of $4,500 plus $500 for attorney fees. The Chief Counsel recommended and the Commission approved settlement of the case as outlined by the Chief Counsel.

REPORT OF TRIAL OF OTHER CASES

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2671	State Highway Commission	Snowden, et al	Marion	Damage to guardrail	$ 84.65	$ 84.65
R-20664	State Highway Commission	Mansfield	Multnomah	To obtain possession	None	Order of possession

June 27, 1957

Report of Trial of Other Cases - Cont.

Case	Plaintiff	Defendant	County	Cause of Action	Demands of Plaintiff	Verdict or Judgment
L-2158A	State Highway Commission	Fred P. Rawson	Appeal to Oregon Supreme Court from Jefferson County	Enjoin defendants from removing cinders from state park		Lower court held in favor of defendants. Reversed in Supreme Court and injunction ordered.

(For additional details concerning these cases, see the Chief Counsels letters of June 21 and 26, 1957, entitled "Report of Cases Tried", in the General Files.)

The Commission also accepted a report presented by the Chief Counsel concerning condemnation cases and other cases which have been settled out of court since the Commission meeting held May 16 and 17, 1957, as follows:

REPORT OF CONDEMNATION CASES SETTLED

Case	County	Highway	Section	State's Offer	Amount of Settlement
Riddle R-21042	Douglas	Pacific	Myrtle Creek-Canyonville	$ 3,900	$ 3,900
Rauber R-24214	Josephine	Redwood	East and West Fork Illinois River Bridge	650	1,000
Reed R-25319	Lane	Pacific East	Albany-Judkins Point	26,925	31,300
Kintigh R-25315	Lane	Pacific East	Albany-Judkins Point	10,600	11,500
Poole R-22357	Marion	North Santiam	Airport Road Junction	1,250	1,750
Rogers R-24129	Tillamook	Oregon Coast	Neskowin Salmon River	2,825	3,250

Report of Condemnation Cases Settled - Cont.

Case	County	Highway	Section	State's Offer	Amount of Settlement
Behrman R-24383	Washington	Tualatin Valley	Cornelius-Hillsboro Unit, Forest Grove-Hillsboro Section	$1,500	$ 2,000
Bemis R-13960	Douglas	Elkton-Sutherlin	Callapooya Creek-Sutherlin Section	$ 750	1,000
Ropp R-25061	Linn	Pacific East	S.P.R.R. Overcrossing, Lane County Line	675 plus State to fence	1,000 including fencing
Gibney R-25980	Coos	Oregon Coast	Davis Slough-Bandon	8,000	9,250

REPORT OF OTHER CASES SETTLED

Case	Plaintiff	Defendant	County	Cause of Action	Demand of Plaintiff	Settlement
L-2710	State Highway Commission	Gaines	Jackson	Damage to gas pump	$58.99 plus costs and attorney fees	$58.99 4.11 costs

(For additional details, see copies of the Chief Counsel's letters dated June 21 and June 25, 1957, entitled "Report of Cases Settled", in the General Files.)

In conformity with a resolution adopted by the Commission December 20, 1951, the Chief Counsel presented offers that have been tendered for acquisition of real property prior to the institution of condemnation proceedings, as follows:

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-21166 - Chester P. Muzzio, et ux. 5.02 acres for right of way purposes. Offer of $35,000.00 approved by Mr. McIver June 10, 1957.

June 27, 1957

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway Cont.

R-22738 - Chester P. Muzzio, et al. 2,188 square feet for right of way purposes. Offer of $630.00 approved by Mr. McIver June 10, 1957.

R-26149 - Grace Johnson. 10,600 square feet for right of way purposes. Offer of $920.00 approved by Mr. McIver June 10, 1957.

R-26152 - Hugh H. Switzer, et al. 0.37 acre for right of way and 0.03 acre for excess taking. Offer of $13,500 approved by Mr. Reynolds May 21, 1957.

R-26153 - John A. Stone, et al. 0.25 acre for right of way. Offer of $32,500.00 approved by Mr. McIver May 29, 1957.

R-26182 - George W. Bird, et al. 450 square feet for right of way purposes. Offer of $60.00 approved by Mr. McIver June 10, 1957.

R-26183 - C. C. Hotelling, et al. 23,250 square feet for right of way purposes. Offer of $70,000.00 approved by Mr. McIver May 29, 1957.

R-26184 - Wayne W. Mummey, et al. 43,315 square feet for right of way purposes. Offer of $58,500.00 approved by Mr. McIver May 29, 1957.

R-26188 - Alexine Brosseau. 75 square feet for right of way purposes. Offer of $100.00 approved by Mr. McIver June 18, 1957.

R-26310 - Raymond Court, et al. 1,125 square feet for right of way purposes. Offer of $110.00 approved by Mr. McIver June 10, 1957.

R-26345 - C. Elizabeth Telecky, et al. 0.06 acre for right of way purposes. Offer of $760.00 approved by Mr. McIver June 10, 1957.

R-26350 - Joseph A. Evenson, et ux. 8,200 square feet for right of way purposes. Offer of $16,165.00 approved by Mr. Reynolds May 21, 1957.

R-26351 - Ella H. Kelly. 6,000 square feet for right of way purposes. Offer of $11,600.00 approved by Mr. McIver May 29, 1957.

R-26361 - Robert Worman, et al. 375 square feet for right of way purposes. Offer of $910.00 approved by Mr. McIver June 18, 1957.

R-26379 - Nial A. Dow, et ux. 0.02 acre for right of way purposes. Offer of $17,500.00 approved by Mr. McIver May 29, 1957.

R-26425 - George F. Grigsby, et al. 14,848 square feet for right of way purposes. Offer of $16,200.00 approved by Mr. McIver May 29, 1957.

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25422 - Norma Jensen Lauzon, et vir. 0.04 acre for right of way purposes. Offer of $500.00 approved by Mr. McIver June 10, 1957.

R-25435 - Philip M. Cousins, et al. 1.84 acres for right of way purposes. Offer of $1,244.00 approved by Mr. McIver May 29, 1957.

R-25436 - Mike Mahaffey, et al. 0.70 acre for right of way purposes. Offer of $225.00 approved by Mr. McIver May 29, 1957.

R-25437 - Ward Godleske, et al. 3.01 acres for right of way purposes. Offer of $3,275.00 approved by Mr. McIver May 29, 1957.

R-25439 - William Blake, et al. 0.01 acre for right of way purposes. Offer of $50.00 approved by Mr. McIver May 29, 1957.

R-25440 - Cecelia Eggers, et al. 3.65 for right of way purposes. Offer of $3,165.00 approved by Mr. McIver June 10, 1957.

R-25544 - William McKee, et al. 0.14 acre for right of way purposes. Offer of $740.00 approved by Mr. McIver June 10, 1957.

R-25548 - Sandy Market Inc. 0.17 acre for right of way purposes. Offer of $255.00 approved by Mr. McIver June 7, 1957.

R-25553 - Koennecke Realty Corporation, et al. 3.65 acres for right of way purposes. Offer of $1,365.00 approved by Mr. McIver June 7, 1957.

R-25566 - Harry Hanson, et al. 0.20 acre for right of way purposes. Offer of $200.00 approved by Mr. McIver May 29, 1957.

R-25576 - A. L. Severeide, et al. 2.98 acres for right of way purposes. Offer of $6,867.00 approved by Mr. McIver May 29, 1957.

R-25686 - Bill Thorpe, et al. 1.82 acres for right of way purposes and 1.55 acres for excess taking. Offer of $806.00 approved by Mr. Reynolds May 21, 1957.

North Jefferson Junction-Albany Section of the Pacific Highway East

R-25089 - Ed McSorley. 0.25 acre for right of way purposes. Offer of $21,600.00 approved by Mr. McIver June 10, 1957.

R-25604 - George K. Miller, et al. 0.10 acre for right of way purposes. Offer of $8,250.00 approved by Mr. Reynolds June 4, 1957.

Pendleton-Pilot Rock Section of the Pendleton-John Day Highway

R-25047 - Ray V. Gilham, et ux. 0.011 acre for right of way purposes. Offer of $50.00 approved by Mr. Reynolds May 21, 1957.

Davis Slough-Bandon Section of the Oregon Coast Highway

R-25980 - Ray Gibney, et ux. 0.63 acre for right of way purposes. Offer of $8,000.00 approved by Mr. Reynolds May 21, 1957.

Grants Pass (6th & 7th Streets) Section of the Pacific Highway

R-23344 - Lawrence Fahey, et al. 0.06 acre for right of way purposes. Offer of $6,250.00 approved by Mr. Reynolds May 21, 1957.

Klamath Falls, West Side By-Pass Section of The Dalles-California Highway

R-23038 - Henry W. Spooner, et al. 950 square feet for right of way purposes. Offer of $8,250.00 approved by Mr. Reynolds May 21, 1957.

Walton-Noti Section of the Richardson-Eugene Secondary Highway

R-25330 - Otto Heider, et al. 0.15 acre for right of way purposes. Offer of $800.00 approved by Mr. Reynolds May 21, 1957.

Shore Acres Park Addition - Cape Arago Secondary Highway

R-25399 - Heirs of Ella Brunson, et al. 46.39 acres for park purposes. Offer of $4,602.00 approved by Mr. Reynolds May 21, 1957.

Mill City-Gates Section of the North Santiam Highway

R-24096 - Northern Lumber Company. 0.52 acre for right of way. Offer of $390.00 approved by Mr. McIver June 10, 1957.

Pacific Highway West (Pacific Highway West-Beaverton-Hillsdale Highway Intersection)

R-23477 - William C. Ralston, et ux. 0.35 acre for right of way purposes. Offer of $1,000.00 approved by Mr. Reynolds May 21, 1957.

Highlands Interchange Section of the Sunset Highway

R-25887 - N. J. Campf, et al. 1,765 square feet for right of way purposes. Offer of $500.00 approved by Mr. McIver June 10, 1957.

County Market Road No. II

R-26436 - Elmer Sohrweid, et al. 16.38 acres for a material site. Offer of $5,000.00 approved by Mr. McIver June 10, 1957.

After due consideration, the Commission confirmed the offers as reported.

A report was submitted by the Chief Counsel and accepted by the Commission concerning proceedings before the Public Utilities Commissioner in which the State has been made a party and which have occurred since the report made at the Commission meeting held on May 16, 1957, summarized as follows:

PUX 212: Application of Benton County for authority to install a crossing at grade of the tracks and right of way of Southern Pacific Company on County Route 63 near Philomath. The crossing is on a county road in which the State Highway Commission has no direct interest, and no objection was made to Benton County's application.

PUX 213: Application of Union Pacific Railroad Company for authority to construct an industrial spur track across Northeast 181st Avenue, near Portland. The crossing is not on any route under jurisdiction of the Highway Commission. Multnomah County stated that the grade crossing is not in the interest of the public. The PUC order authorized installation of the crossing but provided that automatic electric signals with gongs be installed and maintained at the expense of Union Pacific Railroad Company.

PUX 227: Application of the City of Redmond for the installation and maintenance of electrically operated automatic warning signals at the crossing and tracks and right of way of Oregon Trunk Railway Company with Antler Street in the city of Redmond. The crossing is not on any state highway route. The PUC order authorized installation of the crossing and provided that Oregon Trunk Railway Company bear 50 per cent of the cost of acquisition and installation of the signals, and all maintenance after installation, and the City of Redmond to bear 50 percent of the cost of acquisition and installation.

Upon the favorable recommendation of the Chief Counsel, the Commission approved dismissal of a condemnation action against Erick Enquist, File No. L-2577, covering property on the Dodson-Bonneville Section of the Columbia River Highway, by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

A report was submitted by the Chief Counsel concerning the case of Pacific Mutual Life Insurance Co., Inc., v. Lazar Purigraski, et ux., and the State of Oregon by and through its Highway Commission, et al. This proceeding, he stated, is a suit to foreclose a mortgage given to the Pacific Mutual Life Insurance Co., Inc., by the Purigraskis and will clear the State's title to property purchased from the Purigraskis. Proper action will be taken to protect the interests of the State. The Commission accepted the report.

The Chief Counsel also presented a report which was accepted by the Commission concerning the institution of the case of Donald Maddox by his guardian, Brice L. Smith, plaintiff, vs. State of Oregon and R. J. Jones and Rogers Construction Co. as defendants. The plaintiff alleges that the defendants were negligent in that they failed to place lights or flares in front of barricades across The Dalles-California Highway or otherwise warned the public that the barricades were in existance. This matter, he continued, has been turned over to the Trial Section for action to protect the interests of the State.

Report of the case of Jannsen v. State was also presented by the Chief Counsel and accepted by the Commission. In this case the plaintiff whose property is located on the Tualatin Valley Highway at Reedville, alleges that misrepresentations were made in negotiating for the property by stating that the constructed highway would be only a short step above their property, whereas, actual construction placed the highway 31 inches above their property, thereby barring access by motor vehicles. This case, he stated, has also been turned over to the Trial Section for such action as is necessary to protect the interests of the State.

The Chief Counsel presented a report which was accepted by the Commission concerning the case of T. R. Gage, et al., vs. State Highway Commission. This case, he explained, involves the recent flood at Mitchell in Wheeler County and is identical to others that have been filed as a result of this flood. The sum of $23,175 is being demanded for loss of improvements on real property in Mitchell. This matter has been referred to the Trial Section for proper action to protect the interests of the State.

The Commission gave attention to a corrected form of quitclaim deed whereby the State transfers to Mr. and Mrs. C. R. Lawrence approximately two acres of land on the Divide-Rice Hill Section of the Pacific Highway in Douglas County. The Chief Counsel explained that at the meeting of March 28 and 29, 1957, the Commission approved transfer of this property to the Lawrences to clear the title to the remaining Lawrence property, provided that the Lawrences would pay the State the sum of $800, which it appeared that the State had paid for the two acres involved. Further investigation disclosed that the State paid only $400 for the property and this amount has been deposited with the State Highway Department. It also appears that no right of access to a frontage road was allowed in the deed. He recommended that the Commission approve the revised quitclaim deed; that the access provision be included in the deed and that the $400 be accepted as payment for the property. The Commission accepted his recommendation.

A form of resolution was presented by the Chief Counsel formally accepting from the Lloyd Corporation as a gift a parcel of land to be used to connect the Banfield Expressway with Holiday Street at 13th Avenue and with Irving Street at 16th Street by means of ramps. Following his favorable recommendation, the Commission adopted the resolution which is attached hereto marked EXHIBIT "E", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Chief Counsel announced that the Assistant Chief Counsel, Robert L. May, Jr., is resigning as of June 30, to accept a position as Assistant General Counsel, U. S. Bureau of Public Roads, Washington, D. C. Mr. May, he stated, has been a very competent attorney, is popular with his fellow workers, and his work for the State is very much appreciated. Chairman Reynolds stated that the Commission is sorry to lose Mr. May's services but is happy that he has secured an advancement. The State of Oregon, he continued, is honored in Mr. May's selection for the new position and he expressed the good wishes of the Commission. Mr. May thanked the Chief Counsel and the Commission for their remarks and stated that he would miss his connections in Oregon. The Commission accepted his resignation with regrets.

Mr. May reported briefly that in the formation of the Highway Interim Committee a meeting had been called within the last few days but a quorum was not present. It appears that the Interim Committee will be interested, among other things, in proceedings in the acquisition of right of way, a review of the revenues produced by the Weight-Mile Tax, and an examination of taxes on trucks and cars to reduce taxes at the local level.

The Chief Counsel recommended that Mr. George E. Rohde be appointed as Assistant Chief Counsel to replace Mr. May, at a salary of $716.00 per month, effective from July 1, 1957, until the proposed new salary schedule is approved by the Attorney General. He introduced Mr. Rohde to the Commission at this time.

The Commission approved appointment of Mr. Rohde as Assistant Chief Counsel, unanimously, by adoption of the attached resolution marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission, upon recommendation of the Chief Counsel, approved the following salary adjustments for members of the legal staff, subject to confirmation by the Attorney General:

Leonard I. Lindas Chief Counsel	$ 880
G. E. Rohde Assistant Counsel	810
Charles Peterson	775

Frank C. McKinney	$ 745
J. W. DeSouza	745
Frederick A. Morgan	685
John C. McLean	655
John R. Patterson	655
Leslie B. Hampton	600
William A. Mansfield	575
Robert A. Holland	525
Donald R. Stark	550
Leo V. Nuttman	525
Glen V. Sorensen	525

The Chief Counsel commented that an overture had been made by Roy Kilpatrick, who has been handling some of the Mitchell flood cases, concerning settlement of these cases out of court. The Engineer observed that the first case tried in court concerning the Mitchell flood damage was decided adversely to the State and he gave as his opinion that it would be satisfactory to have a conference with Mr. Kilpatrick to ascertain just what he has in mind. The Commission authorized a conference on such basis. The Chief Counsel is to listen to Mr. Kilpatrick without making any commitments.

The meeting recessed for luncheon at 12:00 noon and reconvened at 1:30 p. m. in the same room with the same persons present and participating.

The Commission discussed the illness of Mr. William Tugman, Chairman of the Travel Advisory Committee, who is confined in the Keiser Hospital at North Bend with a heart attack. The Secretary was instructed to write Mr. Tugman expressing the Commission's sympathy and best wishes for an early recovery.

The Engineer reported that, under authority granted him by the Commission, he has awarded contracts previously referred to him by the Commission to award when certain conditions have been satisfied. These conditions have been met and the following contracts have been awarded:

(See following page)

(1) Stone base and oiling 4th Street in the city of Madras, Jefferson County. Bids received May 16, 1957. Conditions of award satisfied May 21, 1957. Babler Brothers, Inc., Portland, low bidder.

(2) Grading the Meacham-Glover Section of Old Oregon Trail Highway, Umatilla and Union Counties. Bids received May 17, 1957. Conditions of award satisfied May 21, 1957. Rogers Construction, Inc., Portland, low bidder.

(3) Installation of metal culvert at Rock Creek, construction of a reinforced concrete bridge at Gate Creek, and construction of highway roadbed on Wamic Road, Wasco County. Bids received May 16, 1957. Conditions of award satisfied May 23, 1957. Hodges & Barger, and Robert Kyle, The Dalles, low bidder.

(4) Construction of three reinforced concrete deck girder bridges over Knowles Creek, Lane County. Bids received May 16, 1957. Conditions of award satisfied May 23, 1957. Tom Lillebo Construction Company, Reedsport, low bidder.

(5) Construction of a 12' x 5' culvert station 466+80 on Medford-County Farm Section of Pacific Highway, Jackson County. Bids received May 16, 1957. Conditions of award satisfied May 27, 1957. R & M Construction Company, Central Point, low bidder.

(6) Grading and paving 10th and Main Streets in city of Prineville, Crook County. Bids received May 16, 1957. Conditions of award satisfied May 27, 1957. Babler Bros., Inc., Portland, low bidder.

(7) Grading and surfacing on Alsea Junction-Beaver Creek School Section of Alsea Highway-Greenberry Road, Benton County. Bids received May 16, 1957. Conditions of award satisfied May 29, 1957. Harbert Bros., Estacada, low bidder.

(8) Construction of Netell, Stavebolt and Big Creek Bridges on Lewis and Clark River Road and Hilcrest Loop Road, Clatsop County. Bids received May 16, 1957. Conditions of award satisfied May 31, 1957. Workman & Wilson, Canby, low bidder.

(9) Grading and paving North Grants Pass Interchange-Savage Street Section of Pacific Highway in Grants Pass, Josephine County. Bids received May 16, 1957. Conditions of award satisfied June 18, 1957 M. C. Lininger & Son, Medford, low bidder.

(10) Grading and paving Four Corners-Geer Station Section of Geer Road east of Salem, Marion County. Bids received May 17, 1957. Conditions of award satisfied June 21, 1957. Warren Northwest, Inc., Portland, low bidder.

The Commission confirmed the awards as reported.

June 27, 1957

Removal of load limit restrictions on the following highway sections was reported by the Engineer who stated the conditions requiring the reduced load limits have now passed and these highway sections are now capable of carrying legal weight loads:

1. Vine Maple Bridge, at M.P. 3.75 on the Fishhawk Falls Secondary Highway No. 103, load limit removed at 8:00 a.m., May 22, 1957.

2. Crater Lake-North Secondary Highway No. 232, from M.P. 0.0 to M.P. 3.81, load limit removed at 8:00 a.m., May 30, 1957.

3. West Diamond Lake Highway No. 233, from M.P. 8.0 to M. P. 23.89, load limit removed at 8:00 a.m., May 30, 1957.

4. East Diamond Lake Highway No. 425, load limit removed for its entire length at 8:00 a.m., May 30, 1957.

The Commission confirmed removal of the load limits as reported.

Reclassification from the status of Group II Highways to Group I Highways was reported by the Engineer for a section of the Kings Valley Secondary Highway No. 191 from Kings Valley to Dallas. Successful test runs, he said, were made with a truck-tractor and full trailer having an over-all length of 60 feet, and the reclassification was made effective May 20, 1957. The Commission confirmed this action.

The Commission considered and discussed the enactment of HB 802 (Ch. 354, Laws 1957) by the recent Legislative Assembly. It was explained by the State Highway Engineer and the Chief Counsel that the statute authorizes the Commission to issue and sell general obligation bonds in the principal sum of $12,600,000 for state highway purposes, without express directive as to the area or location where such funds should be expended. It was pointed out, however, that the clear and express intent of the proponents of the bill and of the Legislative Assembly in enacting the bill was to provide funds for the reconstruction and improvement of sections of the Oregon Coast Highway. The facts, data and discussion presented both in legislative committee hearings and on the floor of the House and Senate were directed solely toward the costs, difficulty and necessity of reconstructing and improving sections of the Oregon Coast Highway out of funds presently available, with particular emphasis being placed upon the relocation of the section of the Oregon Coast Highway between Gold Beach and Brookings. After some further discussion of the matter, it was decided by the Commission, that, in view of the legislative intent, and the realization of the State Highway Commission that improvement of the Oregon Coast Highway is of extreme importance to the economy of the State, the Commission should officially declare, and set forth in its minutes and records, that when the bonds authorized by Ch. 354, Laws 1957, are issued and sold, the funds derived therefrom are to be devoted to the relocation, reconstruction and improvement of the Oregon Coast Highway between Gold Beach and Brookings. It was so ordered, by unanimous vote of the Commission.

The Engineer submitted a proposed schedule for construction of the Gold Beach-Brookings Section of the Oregon Coast Highway, utilizing the $12,600,000 which the Legislature authorized. He advised that two location parties are now making detailed surveys, one party working north from Brookings and the other party south from Pistol River. He gave as his opinion that projects could be advertised for bids late in 1957; also, that it would be desirable to construct first the unit between Pistol River and Brookings, which is estimated to cost around $11,000,000, as no part of it can be used until the entire section is completed. The section between Pistol River and Hunters Creek, however, can be built in stages, with connections to the existing highway at various intervals as needed. It was his thought that five years will be required to complete the project. To finance the work, he proposed the sale of bonds, probably late this year, with the earliest retirement date five years hence. Commissioner McIver advanced the thought that bonds for the Oregon Coast Highway construction in Curry County should be sold, possibly in September, at the same time as the $8,000,000 general highway construction bonds, also authorized by the Legislature, are sold, and that the money that is not immediately needed be invested in securities to draw interest. It was his opinion that all of the bonds should be sold before contracts are entered into so as to insure construction of the projects in an orderly manner. The Engineer explained briefly that the estimated cost to build the section between Brookings to Myers Creek is approximately $13,600,000. It was his feeling that the balance of the work could be financed with regular funds that become available during the next five-year period. The Commission instructed the Engineer to investigate carefully the feasibility of selling all of the bonds at an early date, to check with Mr. Fred Paulus, Deputy State Treasurer, and to submit a report at the August meeting.

A report was submitted by the Engineer concerning a petition presented to the Commission at the May meeting calling attention to conditions that exist at the Wye junction of the Klamath Falls-Lakeview Highway and the Klamath Falls-Malin Highway, and requesting removal of sight posts at this location to allow the parking of vehicles at the Wye area. The petitioners objected to the prohibition of parking for adjustment of loads, etc., at the intersection. The Engineer explained that the installation of sight posts was authorized to completely outline the intersection and prohibit all parking within the interior, and that the work was completed May 11, 1957. It was his considered opinion that the sight posts are essential to traffic safety and to facilitate traffic movements; moreover, the sight posts also protect the large informational and directional signs which are maintained at this location. He recommended that the sight posts be retained. The Commission accepted the recommendation.

Consideration was given to a report submitted by the Engineer concerning a request from a delegation in Lakeview for improvement of the Fremont Highway from Third Street southerly to the Lakeview city limits. The Engineer stated that the request is for construction of curbs and gutters and widening of the pavement, which is estimated to cost a total of $60,000. The City, he continued, has stated that it will participate to the extent of 25 percent of the total cost. He recommended that the project be

included in the 1958 construction program as a primary federal-aid job. The Commission approved the recommendation on the condition that the city shares in the cost up to 25 percent and provided funds are available to finance the State's share.

The Engineer reported the results of the bid opening held in Salem on June 6, 1957. Action thereon was deferred by the Commission until later in the session except that it was decided to announce the names of the successful bidders at 4:00 p.m. when announcement of those successful at today's bid opening are announced.

The Engineer stated that, as previously authorized by the Commission, a public hearing was held in Roseburg on June 20, 1957, concerning the establishment of a one-way couplet route for the Pacific Highway in that city, utilizing Rose and Stephens Streets. He reported what transpired at the hearing and he suggested that the Commission study the transcript of the record and let the City decide if they wish to enter into the proposed project. Chairman Reynolds indicated that the Commission would give favorable consideration to the project if and when the City of Roseburg makes formal request for the improvement. The Commission deferred action pending receipt of such information. There follows a transcript of the record of the Roseburg hearing.

Roseburg, Oregon
June 20, 1957

As previously authorized by the Commission, a public hearing was held in the City Hall in Roseburg at 10:00 a.m., June 20, 1957, pertaining to the proposed construction of a one-way couplet section on the Pacific Highway in the city of Roseburg, utilizing Rose and Stephens Streets and extending from a point near Diamond Lake Boulevard at the northerly end of the couplet to Mosher Avenue at the southerly end. The meeting was called to order by the State Highway Engineer, Mr. W. C. Williams. Other Highway personnel present were: Tom Edwards, Construction Engineer, Salem; Frank Morgan, Division Engineer, and L. R. Chandler, Assistant Division Engineer, both located in Roseburg; and Floyd Query, Assistant Secretary, Salem. Seventeen residents of Roseburg and vicinity were also present.

Mr. Williams explained that the hearing is being held in accordance with Chapter 373.015 of the Oregon Laws, and he thereupon read aloud the section of law mentioned. He pointed out that traffic congestion on the Pacific Highway in Roseburg has been increasing and just prior to opening of the by-pass the average daily traffic amounted to approximately 13,000 vehicles. When the by-pass was opened the count was reduced by approximately 5,000 but since that time it has increased to near the original figure. He also commented that the pattern of traffic signals on the proposed setup would probably remain the same as at present and that the improvement, if it is performed, will be in co-operation with the City of Roseburg. He pointed out on a map the proposed one-way couplet route and asked for comments from those who favor the route and later from those who oppose it.

Mr. George Farrell, City Manager, remarked briefly that the project considered today is a result of a traffic survey made three years ago by the State Highway Department, which has been approved by the Roseburg City Council. This project, he recalled, is a part of an overall Roseburg area survey and was listed in the State Highway Department's survey as the No. 1 project within the city. He also pointed out that the project has been given very careful study over a period of years.

Mr. Tom Pargeter, President of the Roseburg Chamber of Commerce, stated that the Chamber of Commerce wishes to go on record as being in favor of the proposed couplet.

Mr. Williams commented that the project as proposed is to take care of immediate needs and it may be necessary in the future to extend it to the south city limits. He then inquired if anyone wished to speak against the project.

Mr. Mike Deller, Superintendent of the Roseburg Schools, called attention to the problems which will be created for the Junior High School located between Stephens and Rose Streets north of Washington Street, particularly regarding the matter of noise. Classes which require heavy concentration, he continued, have already been moved from the Stephens Street side of the school to escape to some extent the existing noise factor He stated that readings were recently taken concerning the noise level under existing traffic and it was found that the decibel meter recorded a reading of 60. He explained that 42 is an acceptable level and that a rock crusher creates a reading of approximately 70. He also mentioned that it would be necessary to move approximately 420 children across Rose Street each day to the Physical Education area located east of Rose Street, and he urged that adequate protection be provided for them. It was his opinion that if the noise and traffic conditions got bad enough it might be necessary to move the school from its present location and he suggested that the Highway Commission purchase the property. In conclusion, he stated that from the viewpoint of the school the noise level should be reduced and adequate protection provided for children crossing the street.

Mr. Williams pointed out that congestion on Stephens Street is now so bad that the traffic signals cannot serve their progression function of keeping traffic moving. Rose Street, he continued, will be used for northbound traffic, and as northbound is also downhill the problem of motor noise will be greatly reduced. He stated that no opinion could be given as to whether the Highway Commission would buy the school but he did point out that there is no money available for the previously proposed bridge construction at Oak Street.

Mrs. Bailey stated that her house is located below the Junior High School and that she had been told by surveyors that the proposed couplet would take three feet from her lot. She urged that none of her property be taken as in so doing it would necessitate moving her house. Mr. Williams stated that he would investigate the matter.

Mr. Rudy Ritzman, 1771 Brown Avenue, Roseburg, inquired if a left turn is to be allowed on Stephens Street at Mosher. It was his opinion that the proposed one-way couplet plan would not adequately handle the traffic and that the main problem to be considered is noise abatement. Mr. Williams stated that it is not contemplated that a left turn will be permitted at Mosher Street but no restrictions or changes in existing conditions are planned at Woodward and other streets to the south.

The Honorable Dan Dimick, State Senator from Roseburg, inquired as to how much the proposed couplet will cost. Mr. Williams replied that plans are not complete but the construction cost is estimated at approximately $100,000. Cost of right of way, which is to be acquired by the City, is not definitely known.

A lady in the group commented that no opportunity has been given Roseburg residents to indicate whether they approve the plan and the acquisition of right of way by the City. Mr. Williams explained that the hearing now being conducted is to afford the citizens of Roseburg an opportunity to express themselves as to whether they favor the plan or not. The Highway Department, he continued, does not intend to push the plan if the City does not want it. Mr. Pargeter commented that no accurate information is available as to what the cost of right of way would be at the present time.

Mr. Dimick then suggested that an alternate route be considered using Pine Street and Stephens Street as the north and south couplet routes extending southerly from Washington Street, thereby eliminating the use of Rose Street. He pointed out that if the noise and traffic conditions become too severe in the vicinity of the Junior High School, it may be necessary to abandon it and construct a new school, which would cost $1,000,000 or more. The present traffic on Stephens Street, he stated, is bad but the problem is not insurmountable. He then said that he had heard that there were plans to round the corners at Military and Harvard Streets but so far no work has been done. It was his feeling that available funds could be expended more wisely on some project other than the one proposed which endangers the operation of the school. He requested that an investigation be made considering the use of Pine Street and Stephens Street, as it appears that the cost of the proposed project is too high and it would be particularly costly to put in overhead crossings to accommodate school children. He urged that the alternate proposal be used or that conditions remain as they are. It was also his feeling that the cost of the project would not be materially higher if construction is delayed for two or three years.

Mr. Williams then stated that the hearing is held to determine points of view from interested people and that these opinions would be presented to the Highway Commission and to the city officials. He made it clear that the Highway Commission is not promoting or opposing any particular plan but has merely offered for consideration one which appeared advantageous.

The Honorable Al Flegel, State Representative, stated that when he was Mayor of the City of Roseburg many plans had been considered to relieve traffic congestion on the Pacific Highway within Roseburg. Among

these was a bridge across Oak Street and cutting back of corners on Military and Harvard Streets. After much deliberation the cutting of corners on Military and Harvard Streets had been gradually pushed into the background and the construction of the one-way couplet had emerged, utilizing Rose and Stephens Streets as being a more feasible project. He pointed out that whatever plan is approved the couplet must be east of the present highway as construction to the west would complicate the Oak Street bridge site. The proposed route, he concluded, has been very carefully studied by the city officials and by the highway engineers.

Mr. Farrell remarked briefly that two years ago the Roseburg City Council had agreed on the Rose Street-Stephens Street couplet plan and the Council fully intends to submit the project to the people. There was no intention on the part of any city official to take any action committing city funds until the people had voiced their approval.

Mr. Dimick then inquired if the logging trucks on the North Umpqua Highway could be routed north only on Stephens Street to the relocated Garden Valley junction. Mr. Williams replied that under federal-aid provisions, which are applicable on the Pacific Highway, the Highway Commission does not have authority to bar trucks. However, the City might take such action if it saw fit.

Mr. Williams then inquired if anyone else wished to speak and there being no response he stated that the matter would be referred to the Highway Commission for study and a decision could be expected in about two months' time. He thanked those present for attending and closed the meeting at 11:00 a.m.

/s/ W. C. Williams
State Highway Engineer

/s/ Floyd Query
Assistant Secretary

A proposed exchange of property with the City of North Bend, in which the City is to provide a new stock pile site for the State's use and the State is to deed to the City the land occupied by Simpson State Park was discussed. The Engineer recalled that the Commission agreed to this exchange in November, 1956, but to date the City has not been able to furnish a suitable stock pile site. Their latest proposal is that the State lease from Rogers and Kuni, a 1.2-acre site near the south end of the Coos Bay Bridge for a consideration of $300 per year. He recommended against this proposal. The City has now made an appeal to grant an easement to Rogers and Kuni so that they may construct a haul road across the northwest

corner of the park to their commercial gravel pit, which road was authorized in an agreement with Al Pierce in 1954. He recommended that the easement be granted. The Commission approved both recommendations and ordered that the deed transferring Simpson State Park to the City be withheld until the City furnishes a suitable stock pile site. (The action was conveyed to the City Manager, Mr. R. J. Herrington, in person, on the following day.) (See ahead for delegation.)

The Engineer reported that a number of complaints have been received concerning damage to vehicles caused by flying rock on a section of the Central Oregon Highway between Gap Ranch and Brothers, which was being reoiled by Babler Bros., Inc., contractors. He said that in placing a DO-30 specification the 3/4" rock had been placed over an asphalt coating and had been allowed to stand in that condition overnight. The material started to pick up during the evening and a great deal of damage was done to passing vehicles by oil-coated pebbles striking windshields. The situation was corrected the next morning but in the meantime considerable damage had been done. It was his opinion that the contractor was in error in not properly planning his work, and letters of complaint have been referred to the contractor's insurance agency; also, steps have been taken to prevent a recurrence of such a condition. The Commission accepted the report.

The Commission considered items of unfinished business appearing on the Secretary's summary of unfinished business, dated May 17, 1957, as follows:

1. Offer of City of Delake to donate property for park development: This item was ordered removed from the list as a report had been presented earlier in the day.

2. A request that the name of Big Creek State Park be changed to Wakonda Beach State Park: The Parks Superintendent stated that his report is not yet complete. This item is to remain on the list of unfinished business.

3. Proposed park at Celilo on the Columbia River: This item is to be removed from the list as a report was submitted earlier in the day by the Parks Superintendent.

4. Use of Portland cement and asphalt as surfacing materials for Oregon highways: The Engineer stated that his report is not yet complete and he could not, therefore, make any recommendation as this time but it appeared that the costs of the two materials for road surfacing will be about equal at the end of 20 years. He pointed out that very little Portland cement pavement has been laid in Oregon since 1940, although a considerable amount was laid in early highway construction. Excellent arguments, he said, can be presented by both the asphalt and the Portland cement representatives. Recommendations will be submitted later concerning the use of these products. Commissioner McIver offered the suggestion that, if representatives for Portland cement are to appear before the Commission, equal time should be allotted the asphalt representatives. The suggestion

was adopted by the Commission. Chairman Reynolds stated that one of the Portland cement representatives had talked to him and he had told him that the Commission's only interest in the two products is in providing the best roads for the State of Oregon at the most economical cost. This item is to be removed from the list. (See delegation ahead.)

5. Expenditure of $12,600,000 from bonds voted by the Legislature: This item was ordered deleted as a report was submitted earlier in the day.

6. Prohibition of motorboats on Coffenberry Lake in Fort Stevens State Park: This item was discussed but action was deferred at this time. (On the following day the Parks Superintendent stated that he had posted signs limiting boat speeds to 10 miles per hour and he asked that his action be confirmed. Chairman Reynolds inquired if there are other water areas nearby where speedboats can be operated. Commissioner Chessman replied in the affirmative and pointed out that Coffenberry Lake is too small to accommodate both swimmers and speedboat enthusiasts. The Commission approved the 10 mile per hour speed regulation for boats and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "N", which resolution by this reference is made a part hereof, with like effect as though extended in full herein. This item is to be removed from the list.)

7. Request of Glen R. Jack for access for his clients to the Clackamas Secondary Highway near Clackamas Overcrossing: The Commission, after careful consideration, denied the request. This item is to be deleted from the list of unfinished business.

8. Rerouting of Baker-Homestead Highway in the vicinity of Pine and Halfway: The Engineer presented a map showing several proposed routes and it appears that the best and most feasible route is one between Pine and Halfway. A detailed survey is now being conducted, he stated, and a recommendation will be made to the Commission for adoption of a survey at a later date. The item was ordered deleted from the list of unfinished business.

9. Offer of Harney County to contribute funds for oiling the Frenchglen Secondary Highway between Burns and The Narrows: Harney County's offer is not clear, the Engineer commented, but he suggested that the State match by 40 percent any part of a probable $82,000 that the county has available. Action was deferred pending the appearance of a delegation on the following day. (When the delegation appeared, the Commission informed them that they would match with State funds 40 percent of the money which the County has available.) This item was ordered deleted from the list of unfinished business.

10. Request of Willard L. Archer for access to the R. H. Baldock Freeway at Norwood Road: The Engineer said that his report on this subject is not yet complete but will be presented at the August meeting. This item is to remain on the list of unfinished business.

11. Petition from taxpayers of Klamath County for removal of guard fence and posts at the Wye connection of ORE 66 and ORE 39, five miles east of Klamath Falls: The Commission denied the request on the basis of a report submitted by the Engineer earlier in the session and ordered this item deleted from the list of unfinished business.

The Commission gave attention to a resolution submitted by the Oceanlake City Council requesting removal of shrubbery and other plantings in the center island of the Oregon Coast Highway in Oceanlake for a distance of three or four blocks. The Engineer recalled that a similar request had been received from a private citizen a few months ago and had been denied as it was felt that the plantings do have value in eliminating headlight glare and promiscuous jaywalking. It was the Engineer's opinion that the plantings do have value but as they are located within the city and it is a matter of city concern, he recommended that the city be allowed to remove the plantings without expense to the State. The Commission approved the recommendation, with the stipulation that a permit be issued.

A request was considered from the City of Imbler for modernization of the Wallowa Lake Highway, ORE 82, between Imbler and La Grande. The estimated cost of improving this section, the Engineer stated, is about $605,000; also, that there are no monies allocated in the current five-year program for this purpose. He questioned that the priority of this project would warrant transfer of funds from other projects in Division V. Although the pavement is not as smooth or as neat as new surfaces, it can still be traveled at high rates of speed with comparative safety, alignment and grade being generally good. The Commission ordered that the city officials be advised that the section needs modernizing and the project will be considered in formulating the next construction program.

Construction of the Oregon approach to the newly constructed bridge across the Snake River at Nyssa was discussed. The Engineer advised that the bridge should be completed within the next two months and he requested authority to expend approximately $16,000 to construct the approach and to advertise the work as a Federal-Aid Secondary Project for bids to be received in July if plans are completed. The Commission approved the request.

Consideration was given to an agreement with the Port of Alsea, the State Game Commission, and the State Fish Commission, releasing the State Highway Commission from liability due to flooding of land or interference with the passage of fish at the proposed dike on the Alsea Highway above Eckman Slough. The Engineer explained that residents in the vicinity of Waldport have requested that the old bridge over the mouth of Eckman Slough, just east of Waldport on this highway be replaced with a dike and a culvert to form a fresh water lake above the highway which could be used for recreational purposes. The bridge, he continued, is due for replacement and the cost of replacing the bridge and building the dike and

culvert are approximately equal. The Legislature has given approval for the project and plans will soon be ready for contracting. Upon his favorable recommendation, the Commission approved the agreement.

Also considered was a request from the city of West Linn for widening and improving a section of the Oswego Highway in West Linn from Broadway Street to McKillican Street, just north of the Oregon City Bridge. An investigation was made, the Engineer said, and it was found that the accident rate is better than the normal rate for similar sections, and it was also found that the present highway is not carrying its capacity in traffic. He pointed out that widening would do very little good even if traffic were heavy, because of the narrow bridge between West Linn and Oregon City. In view of these facts, he recommended that the request be denied. The Commission accepted his recommendation.

The Engineer requested authority to spend $600 to replace traffic controllers to operate traffic signals in Pendleton at the intersections of Main Street with Emigrant, Dorian and Court Avenues. The City recently installed signals on Court and Dorian Avenue interconnected with the signals on Main Street. The controllers used in the original installation, however, are obsolete and have given so much trouble that the interconnection has been removed. The city of Pendelton has agreed to pay one-half of the total estimated cost of $1,200. The Commission approved the expenditure.

A request was considered from the city of North Bend for the installation of traffic signals at the intersection of Virginia Avenue (Cape Arago Highway) and Meade Street. This request, the Engineer stated, was investigated by the Traffic Engineer and it was found that the vehicular and pedestrian traffic volume does not even closely approach national warrants for signal installation. In view of these facts, he recommended that the request be denied. The Commission adopted the recommendation.

The Commission discussed a request from the Mayor of the city of Beaverton for the installation of traffic signals at the intersection of the Beaverton-Hillsdale and Beaverton-Tualatin Highways in the city of Beaverton. The Engineer said that a traffic engineering investigation disclosed that traffic conditions at this intersection exceed the minimum warrants for installation of signals and that it is his recommendation that a fixed-time traffic signal be installed at an estimated cost of $3,500, the cost to be shared equally by the City and the State, and the City to provide for maintenance and electrical energy. The Commission accepted his recommendation. The arrangement is to be covered by written agreement between the City and the State.

Consideration was given to a form of contract with the Eugene Water and Electric Board covering the installation, maintenance and operation of nine luminaires northerly from the city limits of Eugene to Roosevelt Boulevard on the Pacific Highway. The Engineer explained that the City has illuminated the highway as far as the city limits. The agreement provides that the Water and Electric Board will bear the costs for installation, maintenance and electrical energy for a charge of $4.50 per fixture per

month, a total of $40.50 per month, for a five-year period from the date of the agreement. The Commission approved the contract upon the Engineer's favorable recommendation.

The Engineer requested authority to pay the sum of $1,993.45, representing the State's proportionate share of certain street improvements in the city of Ontario. The assessment is caused by the fact that the State owns ten lots used for maintenance and engineering quarters abutting the street which was improved. He recommended that the payment be made to the City of Ontario. The Commission approved the payment.

Requests from Jefferson, Lincoln, Morrow and Tillamook Counties for additional 1958-59 federal-aid county road secondary projects, totaling $385,000, was considered by the Commission. The Engineer stated that these projects meet the standards for FAS programs and have been selected by the county courts. If these projects are approved, he added, there will still be a balance of $2,028,000 of 1958-59 county FAS funds unprogramed. Upon his favorable recommendation, the Commission approved the following county projects:

County	FAS Hwy. No.	Section & Description	Programmed Amount	FAS Fund
Jefferson	546) 687) 688)	Agency Plains Section, 14 miles. S. & O. - Additional funds.	$ 116,000	'59
Lincoln	584	Big Elk Creek Bridge, Structure only.	$ 100,000	'58
Morrow	573	Gilliam County Line-McNab Section, 5.5 miles. S. & O.	$ 53,000	'59
Tillamook	616	Cape Meares Section, 2 miles. Grading only.	$ 116,000	'59
TOTAL ADDITIONAL 1958 & 1959 FAS FUNDS. . . .			$ 385,000	

SUMMARY BY FISCAL YEARS

	1957 & 1958	1959	Total
Available Funds*	$ 4,440,000*	$3,800,000	$8,240,000*
Previously Approved*	4,009,000*	1,818,000*	5,827,000*
Unprogrammed Balance*	$ 431,000*	$1,982,000*	$2,413,000*
Proposed Projects 6/11/57	100,000	285,000	385,000
Unprogrammed Balance	$ 331,000	$1,697,000	$2,028,000

*These are revised totals from "Status 1958 & 1959 County FAS Funds" tabulation dated 6/10/57.

The Commission considered contracting additional projects in Prairie City and in the town of Metolius from funds remaining in the $250,000 Special City Allotment Fund. The Engineer explained that underruns in expenditures caused by very favorable contract prices on the city projects had made available the sum of $40,000. He recommended a project in Prairie City in which the State's share would be $20,000, and a project in the town of Metolius in which the State's share would also be $20,000. These two towns, he stated, are next in line for improvements. The Commission approved the projects as recommended and authorized the Engineer to advertise the projects at the earliest possible date so that construction can be completed this year before bad weather sets in.

The Commission considered a petition submitted by residents living on or near Foster Road for improvement of the Foster Road-Mt. Hood Loop Extension as an alternate for the Mt. Hood Highway in the southeast Portland area. The Engineer recalled that a similar request was made in August, 1956 by the "Foster Boosters". A rough reconnaissance was made and it was found that even were the Foster Road route constructed it would still be necessary to four-lane the present route via Powell Valley from 50th Avenue to Gresham. As there are no funds available for either route, he recommended that the interested people be advised that the project cannot be undertaken at this time due to lack of finances, but it will be considered when the improvement is warranted. The Commission approved the recommendation.

The Commission also considered a request from the City of Bend for widening of South Third Street in Bend from Franklin Avenue south to the city limits which is the route of The Dalles-California Highway. The Engineer pointed out that there seems to be some misunderstanding as to what was originally requested and what commitments were made. He called attention to a letter dated April 6, 1956, in which the City of Bend requested a survey and the preparation of plans for improvement of South Third Street between the south city limits and Franklin Street. On April 24, 1956, Mr. Baldock, former State Highway Engineer, in a letter, recommended that a location survey be conducted and stated that in effect the City wished to construct curbs and sidewalks. The Commission approved making a survey which has now been completed, the estimate of cost for the project being $180,000. On May 13, 1957, a letter was received from the city requesting that the entire project, consisting of construction of curbs and gutters and pavement widening, be undertaken with the city agreeing to pay one-fourth of the cost. It was his thought that the project has merit and should be considered in the future. He recommended that the city be informed that if they wish to construct the curbs and gutters, they may do so but that it be understood that there is no obligation on the part of the State to complete the improvement. It was his further opinion that the State should not undertake the project at this time but that it should be considered in formulating a future program for Federal-Aid urban funds. The Commission took no action at this time pending the appearance of a delegation on the following day. (When the delegation came before the Commission, they were advised that the project would be considered in formulating the next construction program if the city makes formal application for the improvements by letter.) (See ahead for delegation.)

The Commission gave attention to a form of agreement with Johns-Manville Products Corporation covering construction of an approach road to The Dalles-California Highway from their new plant at Lobert in Klamath County. The Engineer reviewed the history of this project and pointed out that all details, surveys, and plans have been worked out and bids are being called for construction at this meeting. The project, as previously approved by the Commission, he said, is to be constructed at an estimated cost of $30,000, which is to be borne equally by the Corporation and the State Highway Commission. The Commission approved the agreement.

The Commission considered and upon recommendation of the Engineer, granted the following requests for extensions of time within which to complete Highway contracts. Reimbursement for engineering expenses and other expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted:

1. Rogers Construction Company, Contract No. 4711, for grading and paving on the Banks Section of the Nehalem Secondary Highway in Washington County, requested an extension of time from August 31, 1956 to June 30, 1957; approved to May 17, 1957, the date of completion.

2. Roy L. Houck and Sons, Contract No. 4618, for grading and paving on the Middle Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County, requested an extension of time from September 30, 1956 to June 30, 1957; approved to May 14, 1957, the date of completion.

3. Rogers Construction Company, Contract No. 4423, for grading and paving the North Plains-Hillsboro Section of the Shadybrook-Hillsboro Road in Washington County, requested an extension of time from September 15, 1955 to July 31, 1957; approved to June 5, 1957, the date of completion.

4. Tom Lillebo, Contract No. 4715, for replacement of a bridge approach at the Powers Bridge on the Powers Secondary Highway in Coos County, requested a second extension of time from April 30, 1957 to May 17, 1957; approved as requested.

5. A. E. Fitzgerald, Contract No. 4665, for rail replacement on the Spencer Bridge on the Ashland-Klamath Falls Highway in Klamath County, requested a third extension of time from April 30, 1957 to May 16, 1957. The Commission approved the extension of time with the provision that the contractor shall pay all State engineering costs incurred on this project after October 31, 1956.

6. Valley Construction Company, Contract No. 4550, for construction of structures on the Shady-Canyonville Section of the Pacific Highway in Douglas County, requested an extension of time from December 31, 1956 to May 31, 1957; approved as requested.

FOOTNOTE: The action taken by the Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that contract Nos. 4423, 4550, 4665, 4699, 4711, 4715, 4849, 4850, 4853, 4855, 4868, 4871, 4874, 4877, 4881, 4888, 4895, 4898, 4908, 4909, 4910, 4912, 4913, 4926, 4927, 4928 and 4962 for highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to resolutions from the Coos County Chamber of Commerce and from the County Court of Coos County concerning construction of a road from Powers to Agnes in Coos and Curry Counties rather than from Agnes to Gold Beach in Curry County as has been proposed. The resolutions urged that if a choice is to be made, that the Powers to Agnes route be adopted. The Engineer stated that he did not know what motivated the resolutions but to the best of his knowledge, no consideration ever has been given to either route. The Commission approved his recommendation that the interested parties be informed that the Commission is not considering placing either of the routes on the State Highway system.

The Commission also considered a petition from residents of Deadwood requesting improvement on the Alsea-Deadwood Secondary Highway, particularly the eleven mile section extending northerly from the Siuslaw Highway. The Engineer pointed out that the Forest Service is constructing a timber access road up Green Creek, which parallels the State Highway route and he anticipated that within two or three years, the State would be asked to take over the Forest Service Road as a State highway. No action was taken concerning the request for improvement of the Alsea-Deadwood Highway, pending the appearance of a delegation on the following day. (The Commission informed the delegation when it appeared, that an investigation would be made concerning their request and that serious consideration will be given the project in formulating the next construction program.)

The Commission gave attention to a petition from residents of Minam requesting a reduced speed zone on the Wallowa Lake Highway in the community of Minam. The Engineer reported that an investigation was made by the Traffic Engineer and it was found that because of the highway

alignment and roadside culture, in conjunction with a narrow bridge over the Wallowa River and a narrow undercrossing under the old O. W. R. & N. railroad tracks, a reduced speed zone is desirable. He therefore recommended establishment of a 35 mile per hour speed zone on the Wallowa Lake Highway in and near Minam, beginning at a point 0.16 mile west of the Wallowa River (M.P. 33.58) and extending to a point 0.10 mile east of the O. W. R. & N. Undercrossing (M.P. 34.05). The Commission approved such speed zone by adopting the attached resolution relative thereto, marked EXHIBIT "I-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also considered a petition from residents of Baker County requesting installation of a blinker signal or a divider at the intersection of US30 and Pocahontas Market Road at the northerly limits of the City of Baker. The Engineer stated that an investigation of this matter was made by the Traffic Engineer and the facts disclosed that there is insufficient warrant for a signal based on national standards. He recommended that the request for the blinker or the divider be denied and that the matter be taken care of by extending the existing speed zone of 45 miles per hour at the city limits into the rural area, a short distance north of this intersection, specifically from M.P. 335.66 to M.P. 336.10. The Commission accepted his recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "I-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that considerable difficulty is being experienced with vehicles being parked on the highway shoulders at Fogarty Creek State Park on the Oregon Coast Highway in Lincoln County. The park development itself, he stated, has an adequate parking area off the highway, but the shoulders on the highway are not sufficiently wide to allow parking and provide adequate safety for the traveling public. He recommended, therefore, that parking on the shoulders of the Oregon Coast Highway near Fogarty Creek State Park be prohibited between M.P. 124.98 and M.P. 125.34. The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Upon the Engineer's favorable recommendation, the Commission approved out-of-state travel for the following Highway personnel:

G. S. Paxson, Assistant State Highway Engineer, to attend a conference on prestressed concrete, at the University of California, July 29 to August 2, 1957, at an estimated cost of $128.65.

C. H. Maison, Auditor, to attend meeting of Accounting Committee of AASHO in St. Louis, Missouri, June 19 and 20, 1957, at an estimated cost of $243.00. This is confirmation of prior telephone approval.

R. B. Sipprell, Director of Permits, to attend meeting of the Western Interstate Committee on Highway Policy Problems, in Boise, Idaho, July 12 and 13, 1957, at an estimated cost of $105.00.

C. H. Maison, Auditor, to attend IBM Administrative School, in Endicott, New York, July 29 to August 3, 1957, at an estimated cost of $293.80.

W. C. Williams, State Highway Engineer, to attend a meeting of the AASHO Road Test Committee, at LaSalle, Illinois, August 13 and 14, 1957, at an estimated cost of $266.55.

The Commission considered a letter from Mr. J. W. Forrester, Jr., member of the Travel Advisory Committee, stating that he felt it necessary to resign because of his appointment by Governor Holmes as a member of another State Board. Mr. Jordan, Director of the Travel-Information Department, stated that he had talked to Mr. Forrester since the letter was received and that Mr. Forrester indicated that if the Commission wished him to remain on the Travel Committee he would do so. The Commission instructed the Secretary to write Mr. Forrester that the Commission will be very glad if he will continue to serve on the Travel Advisory Committee.

Consideration was given to a Contractor's Release with the Bureau of Yards and Docks of the U.S. Navy in regard to engineering services furnished to the Bureau by the State in construction of asphaltic concrete pavement at the Naval Air Force Base at Klamath Falls. The Engineer stated that the work has been finished and that the State's bill has been paid. The Navy requests, however, that the release form be executed to clear its records. The Commission approved the release.

The Engineer reported that on April 14, 1957 a severe windstorm in the Portland area blew down a traffic directional light pole at the intersection of Canyon Road (Tualatin Valley Highway) and Canyon Lane and that the pole fell across the pavement directly in front of a car owned by Harold P. and Zuline Drake. Mr. Drake was unable to avoid hitting the pole, consequently the front end of his car was damaged. Mr. Drake has agreed to accept the sum of $62.54 as settlement in full for the damage. The Engineer recommended settlement on such basis. The Commission approved the payment upon condition that Mr. Drake will execute a full and complete release for all damages sustained.

Attention was given to a form of agreement between the State, the City of Mill City, and L. A. and Mary Rada concerning correction of an unsatisfactory drainage condition on the North Santiam Highway in Mill City. Under the terms of agreement, the Engineer explained, the Radas grant an easement which will allow the State to enter upon their property to correct an unsatisfactory drainage condition by replacing a culvert pipe and construction of a trash rack. The State is to bear the cost of the pipe replacement, estimated at $1,000 and the City agrees to assume maintenance of the culvert and to relieve the State from all claims for damage arising from the maintenance of the drainage structure. The Commission

approved the agreement following favorable recommendation of the Engineer.

The Commission considered a resolution abandoning to Lane County a portion of the Springfield-Creswell Secondary Highway No. 222 between Cloverdale and Willamette Highway Junction. The Engineer pointed out that under the terms of an agreement entered into with Lane County, the County agreed to accept as a county road this portion of the secondary highway provided the State would designate a new route to replace the abandoned section. This resolution, the Engineer stated, is to abandon the old route and he recommended its adoption. The Commission approved the abandonment by adopting the attached resolution relative thereto, marked EXHIBIT "F-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

In connection with this same item of business, the Engineer presented a form of resolution designating a new route for the Springfield-Creswell Secondary Highway No. 222 as a substitute for the abandoned section. He explained that this is in comformity with the terms of the agreement previously entered into with Lane County under which Lane County agreed to accept the abandoned portion of this secondary highway. Upon his favorable recommendation, the Commission approved the designation of the new highway section by adopting the attached resolution relative thereto, marked EXHIBIT "F-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer presented a form of resolution covering the abandonment of the Deception Creek-Oakridge Section of the Willamette Highway in Lane County. He pointed out that the relocated section of the highway has been constructed and is now open for public travel. The purpose of the resolution, he said, is to formally transfer the old section of highway to Lane County, as provided in an agreement previously entered into with the County. The Commission approved the abandonment by adopting the attached resolution relative thereto, marked EXHIBIT "F-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the Dolph Corner-Rickreall Section of the Willamina-Salem Highway will be completed and open to traffic during the month of July, which will necessitate the shifting of Route ORE 22 from its present routing over the Dallas-Rickreall Secondary Highway and the Dolph Corner-Dallas Secondary Highway, leaving these two secondary highways without route numbers and, more important, leaving the City of Dallas without a direct route number connection to any primary Oregon or US number route. He recommended that ORE 22 be re-established over the Dolph Corner-Rickreall Section of the Willamina-Salem Highway and that ORE 223 be extended easterly from Dallas to a junction with ORE 22 at Rickreall. He also recommended the placing of signs at Dolph Corner and at North Dallas, indicating the newly established routes. The Commission accepted his recommendations by adopting the attached resolution relative thereto, marked EXHIBIT "L", which resolution by this reference

is made a part hereof, with like effect as though extended in full herein.

The Engineer stated that the State Board of Control expects to open bids in the near future for construction of the first unit of the F. H. Dammasch State Hospital near Wilsonville and has requested permission for contractors to take approximately 19,000 cubic yards of gravel from the Wilsonville pit for construction of roads in connection therewith. He recommended that the pit be made available to the Board subject to the following conditions, and that no charge be made for the material removed:

1. That the material be taken from areas designated by the State Highway Department.

2. That the pit be left in a clean and workable condition when they have finished their operations.

3. That any refuse from the screening operations be dumped in a location designated by the Highway Department.

4. That no access of any kind be granted from the pit to the Baldock Freeway.

The Commission approved the recommendations.

An agreement with the Commission for the Blind was presented by the Engineer concerning the lease of a room in the basement of the State Highway Building in which to conduct a "snack bar". He recalled that at its May meeting the Commission approved the use of the room for such purpose. Details he said, have been worked out with the Secretary of State and he recommended that the agreement be approved. The Commission approved the agreement.

The Engineer also presented an agreement with Wasco County concerning purchase of right of way for a revision of The Dalles-Eightmile Creek section of The Dalles-California Highway in Wasco County. This matter, he recalled, had been discussed a number of times at previous Commission meetings and the County has now signed an agreement whereby it will acquire all necessary right of way, pay for all stock passes and fencing in the construction of the new section, and has also agreed to take back as a county road the old section of The Dalles-California Highway when the new section is constructed and opened for public travel. Following his favorable recommendation, the Commission approved the agreement.

A resolution was presented by the Engineer, amending Exhibit "C" of Special Matters Resolution No. 40, adopted July 16, 1951, to authorize issuance of continuing permits under Permit Form No. 271 for the operation of a truck and full trailer hauling short logs or poles having an overall length of 65 feet of equipment and load over Group I highways only, provided that the equipment when unladen, does not exceed a length of 60 feet. The Commission approved the amendment by adopting the attached

resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In connection with the construction of the S. W. 14th Avenue-Washington County Line Unit of the R. H. Baldock Freeway, the Engineer stated that it has been necessary to work out an agreement with the City of Portland covering features such as street closures, off- and on-ramps, intersections, etc. Officials of the City of Portland have signed the agreement and he recommended that it be approved by the Commission. The Commission approved the agreement.

Consideration was given to a request from Swift and Company that the State purchase the company's cold storage building at the 14th Street ferry terminal in Astoria. The Engineer explained that the building owned by Swift and Company is located on land owned by the State and that the company, during the past three years, has paid $1,800 for use of the land. Their lease expires June 30, 1957 and they do not wish to renew it as operation of the plant has been discontinued. They have requested that the State make them an offer to purchase the building. The building, he continued, is not required for operations of the State Highway Department and it would be expensive to remodel it to be of use other than as a cold storage plant. He recommended that the company be notified that the State does not wish to make any monetary offer and to clear the land of their structure within the 90-day period allowed by the terms of the lease. The Commission accepted the recommendation.

The Commission gave attention to an agreement with Klamath County covering changes in the status of the Klamath Lake Secondary Highway and Lake of the Woods Road. The Engineer commented that the agreement is the result of numerous previous discussions on this subject and incorporates features previously approved by the Commission. Among other things, the agreement provides that Klamath County shall take over as a county road that portion of the Klamath Lake Secondary Highway from its junction with Lake of the Woods Road to a junction with Crater Lake Highway at Fort Klamath. The State is to recommend that the Lake of the Woods Road be designated as a Federal Forest Highway and when such designation has been completed, the State shall extend the Little Butte Secondary Highway from its present terminus at the Jackson-Klamath County Line, easterly to a junction with the Klamath Lake Secondary Highway. The agreement also provides that when the Lake of the Woods Road (Little Butte Highway) has been designated as a Federal Forest Highway the highway name shall be changed to Lake of the Woods Secondary Highway No. 270, extending from the junction with the Crater Lake Highway at Eagle Point and westerly to Rocky Point and thence southerly to Klamath Falls, a distance of approximately 69.47 miles. The Commission approved the agreement.

The Commission considered and upon the favorable recommendation of the Engineer approved a throughway agreement with Linn County covering changes necessary in the county road system caused by construction of the new Pacific Highway (US 99 Freeway) between its junction with the

Santiam Highway and the Lane County Line.

The Commission also considered and after favorable recommendation by the Engineer approved an agreement with Linn County covering treatment of county roads which will be intercepted by construction of the new US 99 Freeway on the North Unit Southern Pacific Railway Overcrossing-Santiam Junction Section of the Pacific Highway.

The Commission approved the Secretary's report on papers signed on behalf of the Commission during the period of May 13 through June 21, 1957.

The Commission discussed a date for its next regular meeting and decided to hold such meeting on August 8 and 9 in the Imperial Hotel, Portland. A tentative date for the next following meeting was set for September 12 and 13, 1957. The Secretary was instructed to make the usual arrangements for use of the Queens Room in the Imperial Hotel for both meetings.

The Commission also announced that bids would be opened in the Commission Office in Salem on July 18, 1957.

The Engineer presented an agreement which had been signed by the Washington Toll Bridge Authority and the Washington Highway Commission pertaining to a survey for the location and type of structure for a bridge across the Columbia River in Clatsop County. The Engineer pointed out that the Oregon Legislature approved an expenditure of $100,000 for this study and that the Washington Toll Bridge Authority has agreed to pay a like sum, provided that the Toll Bridge Authority shall not be obligated to pay more than one-half of the total cost which is estimated at $200,000. The Commission approved the agreement.

The Engineer remarked that it is planned to receive bids early in the winter of 1957 for remodeling the old bridge across the Columbia River between Portland and Vancouver, Washington. It is proposed to sell bonds for this project after the amount of the bid is known. It was his opinion that the new bridge across the Columbia now under construction will be open to traffic in approximately one year.

Installation of a public telephone at the scale house north of Woodburn on the R. H. Baldock Freeway was suggested by the Engineer. He pointed out that the Pacific Telephone and Telegraph Company has already installed one telephone at the scale house on the west side of the highway and the Aurora Telephone Company wants to install a second telephone on the opposite side without cost to the State. Upon his favorable recommendation, the Commission approved the installation which is to be covered by an appropriate agreement.

Payment of annual membership dues in the amount of $500.00 to the Highway Research Board was recommended by the Engineer. The Commission approved the payment.

The matter of maintaining a State Highway Department booth at the 1957 State Fair was discussed. The Engineer stated that such a booth was maintained last year which created a lot of public interest. He said that the Travel and Information Director did a very good job in presenting to the public the recreational facilities in the State and he recommended that a similar booth be maintained this year at an estimated cost of $150.00. The Commission accepted his recommendation.

Consideration was given to a letter and a telegram from the Coos Bay Chamber of Commerce requesting the extension and improvement of the Coos River Secondary Highway into Gold and Silver Falls State Park and to the Coos-Douglas County Line. The Engineer stated that, although there has not been time to conduct a very thorough investigation, he felt that it would be an expensive improvement which is not warranted at this time. After some discussion the Commission ordered that the interested persons be advised that presently there are no funds available to finance the work; moreover, the section referred to is not a part of the state highway system, and that the Commission does not favor adding it to the system which now has more mileage than can be improved with funds available.

The Commission discussed with the Engineer action to be taken in connection with removal of a State constructed fence in front of the property of Mrs. Katherine Moore at Wolfcreek on the Pacific Highway in Josephine County. The Engineer commented that the fence was placed to keep pedestrians from crossing the highway and to prevent the parking of cars on the highway right of way, but it apparently was removed by Mrs. Moore. It was his opinion that legal action should be taken against Mrs. Moore and that the torn-down fence be replaced with a woven wire fence approximately four feet high with a wire along the top. The Chief Counsel advised that the Commission has legal basis for an injunction to prevent her from tearing down the new fence and that action could be taken to recover damages from her for removing the original fence. As a result of discussion, the Commission instructed the Chief Counsel to take legal action immediately to recover damages from Mrs. Moore for removing the old fence, and the Engineer was instructed to proceed immediately thereupon to construct an adequate fence.

The Commission discussed with the Engineer bids received in Salem on June 6, 1957 and at the regular meeting in Portland this day. At 4:00 p.m. Commissioner McIver announced awards of contracts as follows:

BIDS RECEIVED IN SALEM ON JUNE 6

"Addition to maintenance building near Alsea, in Benton County. The Commission awarded the contract to the low bidder, Decatur and Maerz, Salem, at $7,067.00.

"Construct treated timber trestle approaches and erect and paint a steel pony truss span furnished by the County on the Long Tom River Bridge in Benton County. The Commission has referred all bids to Benton County for further action, as it is a county job.

"Structure, grading and stone base on the Beaver Slough (Chrome Plant) Section of North Bank Road, in Coos County. The Commission awarded the contract to the low bidder, Coos Bay Dredging Co., Inc., Coos Bay, at $189.342.25.

"Construct a reinforced concrete deck girder bridge over the Middle Fork Malheur River at Drewsey in Harney County. The Commission awarded the contract to the low bidder, Harney Homes, Inc., Burns, at $34,402.00.

"Rock production project on the Central Oregon and John Day-Burns Highways in Harney and Grant Counties. The Commission awarded the contract to the low bidder, C. E. Leseberg, Nyssa, at $37,200.00.

"Shoulder shaping and paving on the Waldport-Yachats Section of the Oregon Coast Highway in Lincoln County. The Commission awarded the contract to the low bidder, Babler & Rogers, Portland, at $84,210.00.

"Grading and paving at the Gates Truck Scale Site on the North Santiam Highway in Marion County. The Commission elects to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $23,711.00 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Oiling on the West Unit, Heppner-Forest Boundary Section of the Willow Creek Road in Morrow County. The Commission elects to accept the low bid of Barney Helser Rock Production, Beaverton, in the sum of $119,758.50 and directs the State Highway Engineer to award the contract to the said bidder as soon as approval of Morrow County is received and the sum of $26,980 is deposited by the County.

"Grading and paving on the North Unit, Grass Valley-Kent Section of the Sherman Highway in Sherman County. The Commission elects to accept the low bid of Central Paving Co., Independence, in the sum of $421,489.50 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Paving on Poplar and West Broadway Streets in Milton-Freewater in Umatilla County. The Commission awarded the contract to the low bidder, Russell Olson Construction Co., Pendleton, at $14,134.00.

"Oiling on the Clear Creek-Willow Creek and Timberline Lodge-Government Camp Section of the Warm Springs and Timberline Highways in Wasco and Clackamas Counties. The Commission awarded the contract to the low bidder, Horton Construction Co., Portland, at $38,255.00.

"Construct median barrier on the Barbur Boulevard-Tualatin River Section of the Portland-Salem Expressway in Washington, Clackamas and Multnomah Counties. The Commission awarded the contract to the low bidder, Chain-Link Fence Corp. and Chicago Fence & Equipment Co., Chicago, Illinois, at $85,082.00.

"Grading and oiling on the Butte Creek Pass Section of the John Day Highway in Wheeler County. The Commission awarded the contract to the low bidder, Natt McDougall Co., Portland, at $592,244.00.

BIDS RECEIVED AT THE MORNING SESSION JUNE 27

"Reconstruct existing steel truss bridge on Black Bridge-Richland Section of Baker-Homestead Highway in Baker County. The Commission awarded the contract to the low bidder, J. O. Young & Sons, Nampa, Idaho, at $25,879.50.

"Construct Little Lobster Creek Bridge on the Alsea-Denzer Road in Benton County. The Commission referred all bids to Benton County for award as it is a county project.

"Grading and paving on the Clackamas-Boring Road, at Boring, in Clackamas County. The Commission elects to accept the low bid of Oregon Asphaltic Paving Co., Portland, in the sum of $25,241.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Clackamas County is received and the sum of $5,700.00 is deposited by the County.

"Grading and oiling on the Glasgow Road near the north end of McCullough Bridge over Coos Bay in Coos County. The Commission elects to accept the low bid of Sig Andersson, North Bend, in the sum of $23,377.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Coos County is received and the sum of $19,200.00 is deposited by the County.

"Oiling on nine county roads near Terrebonne, Redmond and Bend in Deschutes County. The Commission elects to accept the low bid of The Central Heating Co., Ore. Ltd., Eugene, in the sum of $85,255.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Deschutes County is received and the sum of $21,264.00 is deposited by the County.

"Grading and oiling on S. W. 2nd Avenue-South City Limits of John Day on the John Day-Burns Highway in Grant County. The Commission elects to accept the low bid of Cartwright Construction Co., Durkee, in the sum of $25,739.25 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of John Day is received and the sum of $7,300.00 is deposited by the City.

"Grading and paving on the Ross Lane-Jacksonville Section of the Crater Lake Highway-Jacksonville Road in Jackson County. The Commission rejected all bids as being too high.

"Grading and oiling on Butte Avenue in the town of Metolius in Jefferson County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $16,309.00.

"Grading and oiling on the Lobert Channelization Section of The Dalles-California Highway in Klamath County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland at $15,860.00.

"Roadside improvement on South 6th Street Railroad Overcrossing on the Klamath Falls-Lakeview Highway in Klamath Falls in Klamath County. The Commission awarded the contract to Knight Pearcy, Salem, at $32,174.40.

"Grading and paving the Siuslaw Junction Section of the Pacific Highway, south of Junction City in Lane County. The Commission awarded the contract to the low bidder, Eugene Gardens, Eugene, at $10,096.20.

"Construct two South Fork Yachats River Bridges on the Yachats River Road in Lincoln County. The Commission referred all bids to Lincoln County for award as it is a county project.

"Grading the North Unit, SPRR Overcrossing-Santiam Junction Section of the Pacific Highway in Linn County. The Commission elects to accept the bid of Henry H. Miller Contractors, Inc., Roseburg, in the sum of $208,252.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct two concrete and timber bridges on County Road 735 over the Pudding River and Beaver Creek in Marion County. The Commission elects to accept the bid of Valley Construction Co., Portland, in the sum of $24,862.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County is received and the sum of $5,600.00 is deposited by the County.

"Construct five bridges on the North Jefferson Junction-Santiam Junction Section of the Pacific Highway in Marion-Linn Counties. The Commission awarded the contract to Tom Lillebo Construction Co., Reedsport, at $62,641.00.

"Construct five undercrossing structures on the North Jefferson Junction-North Albany Section of the Pacific Highway in Marion and Linn Counties. The Commission elects to accept the bid of F. H. McEwen, Eugene, in the sum of $322,935.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Widening on the Ross Island Bridge on the Mt. Hood Highway in the city of Portland in Multnomah County. The Commission awarded the contract to the low bidder, Inland Construction Co., Milwaukie, at $131,940.00.

"Grading and paving on 102nd Avenue-122nd Avenue Section of N. E. Glisan Street, near Portland, in Multnomah County. The Commission elects to accept the bid of Rogers Construction Co., Portland, in the sum of $153,063.50, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Multnomah County is received and the sum of $32,200.00 is deposited by the County.

"Construct Wallowa River and Hurricane Creek Bridges near Enterprise on Fish Hatchery County Road in Wallowa County. The Commission elects to accept the low bid of Harold E. Ray & L. O. Fusby in the sum of $29,975.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wallowa County is received and the sum of $6,700.00 is deposited by the County.

"Install illumination at two connections on the Chenoweth Creek-The Dalles Section of the Columbia River Highway in Wasco County. The Commission awarded the contract to Steeck Electric Co., Medford, at $13,900.00.

"Construct a sand shed near Manning on the Sunset Highway in Washington County. The Commission awarded the contract to Merrell Steel Co., Portland, at $8,912.00.

The Engineer brought up for discussion the matter of conveying to Klamath County two parcels of land near Terminal City north of Klamath Falls on The Dalles-California Highway. He explained that the highway at this point was reconstructed in 1943 and portions of the old highway were abandoned to the County. However, title to these two parcels was not transferred at that time. The property has very little value and he recommended that the two parcels be deeded to Klamath County for a consideration of $1.00 each. The Commission approved the transfer of the property by adopting the attached resolution relative thereto, marked EXHIBIT "M" which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Chairman Reynolds stated that he has received a telegram regarding designation of US 84 highway route. The Engineer commented that US 84 is a proposed diagonal route across the United States extending from Georgia through Oregon. In Oregon, he said, it means redesignation of the existing US 26 route from Nyssa to Seaside. Most of the cities and groups interested in US 26 favor the redesignation, as it would be a transcontinental route from the Atlantic Ocean to the Pacific Ocean. The Commission offered no objection to such route.

Inquiry was made by Chairman Reynolds concerning the status of contract No. 4648 awarded to Jack Robinson for work on the Ukiah-Hilgard Secondary Highway. The Engineer advised that the contractor defaulted and his bonding company has assumed the obligation to complete the contract, which will not be finished until 1958. He also commented that the old road is available for public travel.

Chairman Reynolds mentioned a request from the Pacific International Livestock Association that the State contribute $50,000 toward the cost to provide adequate road facilities for the Pacific International Livestock Centennial in North Portland. The Engineer advised that this is not a State Highway Department responsibility, inasmuch as it is a parking problem. The Commission deferred action on the matter pending receipt of a letter from the interested persons advising details of their request.

In reply to an inquiry made by Chairman Reynolds concerning progress on a highway "needs" program, the Engineer replied that engineering personnel have been working on this for about ten months and it appears now that if the "needs" program is adopted it will nearly double the highway construction program.

Chairman Reynolds mentioned a request from Clatsop County that the State take over as a parking area a section of county road near Hugg Point, south of Cannon Beach. The Parks Superintendent was instructed to investigate the matter.

The Commission discussed the Chief Counsel's request, presented earlier in the session, for authority to condemn a number of parcels of real property that are needed as right of way or for other highway purposes. After carefully considering the proposed condemnations in the light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the various projects and the properties involved, the Commission approved the Chief Counsel's request for condemnations by adopting the attached resolutions relative thereto, marked EXHIBIT "K-1" through EXHIBIT "K-14", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

Consideration was given to a letter from Mr. O. L. Groves Mayor of the City of Monmouth requesting the widening of the Monmouth-Independence Highway from its junction with Pacific Highway West easterly to the Monmouth city limits. The Engineer stated that a like request was made about six years ago and evidently is being renewed now because of increased population and traffic. The Commission instructed him to re-investigate the matter and submit a report at the August meeting.

Chairman Reynolds stated that a Mr. Hinsdale of Coos Bay had made inquiry to him concerning the possibility of installing a flashing beacon or traffic signal at Winchester Bay. The Engineer stated that the request has been referred to the Traffic Engineer who has not yet submitted a report.

The Commission discussed with the Engineer matters to be presented by delegations that are scheduled to appear on the following day, but deferred action pending appearance of the delegations.

The following agreements and other papers were signed by the Commission:

"Lease" with Standard Oil Company of California covering property on John Day-Wasco-Heppner Highway in Gilliam County. Lease modification of one signed on December 11, 1956.

"Agreement" with Southern Pacific Company allowing the State to construct a dike, partially on railroad property, on Myrtle Creek-Canyonville Section of Pacific Highway, Douglas County.

"Bargain and Sale Deed" for the sale to Eugene Water and Electric Board of 5.3 acres of excess property in Sec. 28, T. 17 S., R. 3 W., W.M., Lane County.

"Agreement" with the Port of Alsea, the State Fish Commission, and the State Game Commission relieving the State of any liability due to the flooding of land or interference with the passage of fish at the proposed dike at Eckman Slough on the Alsea Highway, east of Waldport.

"Contract" with Eugene Water and Electric Board covering installation of 9 luminaires on US 99 northerly from the city limits of Eugene to Roosevelt Boulevard. Water and Electric Board to bear all costs of installation, maintenance, and furnishing of energy at a rate of $4.50 per fixture per month. State to pay $40.50 per month for installation.

"Agreement" for the contracting of the following additional projects from the $250,000 Special City Allotment Fund: (1) 0.44 mile of grading, base and paving on Bridge Street in Prairie City. Estimated cost $28,300. State's share $20,000. (2) 0.40 mile of grading, base and paving on Butte Street in Metolius. Estimated cost $21,800. State's share $20,000.

"Agreement" with Johns-Manville Products Corporation covering construction of an adequate approach from The Dalles-California Highway to the new Johns Manville Plant at Lobert, Klamath County. Estimated cost of project $30,000. Cost to be borne equally by Corporation and State.

"Contractor's Release" with the Bureau of Yards and Docks, Department of the Navy, covering the furnishing to the Department of some engineering services in connection with construction of some asphaltic concrete pavement at the Naval Air Force Base at Klamath Falls.

"Agreement" between the State, the City of Mill City and L. A. and Mary Rada, Mill City, covering the correction of an unsatisfactory drainage condition involving city property, the property of the Radas, and the North Santiam Highway in Mill City.

"Agreement" with the Commission for the Blind covering operation of a snack bar in Room 13 of the State Highway Building in Salem.

"Agreement" with Wasco County covering the purchase of right of way for The Dalles-Eightmile Creek Section of The Dalles-California Highway (US 197) in Wasco County.

"Finance & Maintenance Agreement" with Jackson County covering the Ross Lane-Jacksonville Section of FAS 274. (Authorized 11-8-56 and 5-16-57)

"Finance & Maintenance Agreement" with Marion County covering the Pudding River and Beaver Creek Bridges on FAS 738. (Authorized 11-6-56)

"Finance & Maintenance Agreement" with Harney County covering Middle Fork Malheur River Bridge on FAS 458. (Authorized 3-28-57)

"Agreement" with Klamath County covering changes in West Klamath Lake Secondary Highway and Lake of the Woods Road.

"Agreement" with Linn County Court covering changes necessary in the county road system for construction of the new US 99 Freeway between the Santiam Highway and the Lane County Line.

"Agreement" with Linn County Court covering the treatment of county roads, connections, interchanges, etc., on the Southern Pacific Overcrossing-Santiam Highway Junction Section of US 99 Freeway.

"Agreement" with Southern Pacific Company covering construction of the Second Myrtle Creek Overcrossing of Pacific Highway, Douglas County.

"Agreement" with City of Roseburg covering proposed installation of a traffic signal at intersection of Haines and Stephens Streets in Roseburg. (Authorized 12-17-56)

"Agreement" with City of Baker covering proposed installation of flashing beacons at intersections of 10th and Campbell Streets and Washington and Resort Streets in Baker. (Authorized 1-22-57)

"Agreement" between Oregon State Highway Commission, the Washington State Highway Commission and the Washington Toll Bridge Authority covering the proposed bridge across the Columbia River at Astoria.

"Agreement" with City of Portland covering construction of S. W. 14th Avenue-Washington County Line Unit of R. H. Baldock Freeway, Multnomah County.

"License" with U. S. Corps of Engineers covering a stockpile site on Dune Section of Columbia River Highway (The Dalles Dam Project).

June 27, 1957

"Indenture of Access" covering Shold property on West Unit Black Bridge-Richland Section of Baker-Homestead Highway, Baker County.

"Bargain and Sale Deed" with Bureau of Land Management covering old maintenance site at Lakeview. (Authorized 11-8-56)

"Bargain and Sale Deed" with William E. Farrar for a parcel of land on Willamette River-Hayesville Section of Portland-Salem Expressway, Marion County. (Authorized 5-16-57)

"Cooperative Construction Agreement" with Coos County covering the Glasgow Road (Coos Bay) Interchange, Coos County. (Authorized 12-17-56)

"Maintenance & Finance Agreement" with Multnomah County covering the 102nd-122nd Avenue Section of FAS 638, Multnomah County. (Authorized 11-8-56)

"Lease & Sale of Road Materials Agreement" with Walter J. Gearin for a parcel of land on Newberg-Gearin Corner Section of Hillsboro-Silverton Highway, Marion County. (Authorized 5-16-57)

"Finance & Maintenance Agreement" with Morrow County covering the West Unit, Heppner-Forest Boundary Section of FAS 682. (Authorized 9-27-56)

"Bargain and Sale Deed" to H. L. Armentrout for a parcel of land on Harbor Drive-Barbur Boulevard Section of Portland-Salem Expressway, Multnomah County. (Authorized 9-27-56)

"Lease for Road Material Agreement" with Marion F. Walker for a parcel of land on Gold Beach-Brookings Section of Oregon Coast Highway, Curry County. (Right of Way Resolution for June 27, 1957)

"Permit" with Aurora Telephone Co. to construct public telephone booth on the Portland-Salem Expressway (R. H. Baldock Freeway) at northbound traffic scales at M.P. 23.00.

"Bargain & Sale Deed" (2) with Klamath County re transfer to Klamath County of two parcels of land north of Klamath Falls, both parcels having been brought about by the relocation of The Dalles-California Highway in 1943.

"Bargain & Sale Deed" to Lane County for a parcel of land lying in Section 29, Township 17 South, Range 3 West, W. M., Lane County.

The meeting adjourned at 4:50 p.m., to reconvene at 10:00 a.m. on the following day.

June 27, 1957

Portland, Oregon
June 28, 1957

The meeting of the Oregon State Highway Commission reconvened at 10:00 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
George E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Lawrence Welding, farmer and school board member from the community of Deadwood, came before the Commission and requested improvement of a portion of the Alsea-Deadwood Secondary Highway extending northerly from its junction with the Siuslaw Highway northerly a distance of about 11 miles. He pointed out that there is considerable timber to be logged in this area, that the road is wide enough in many places for one-way traffic only and that the construction of turnouts and additional surfacing is badly needed. It was his opinion that the surfacing material could be secured at a reasonable price from a logger who is operating a rock crusher nearby. Chairman Reynolds commented that improvement of this highway has been requested several times in the past and some work had been performed. However, secondary funds are very low at this time. He informed Mr. Welding that the Engineer would be requested to investigate his request and submit a report to the Commission.

Messrs. Theodore Willard, Director, Empire-Charleston Chamber of Commerce, and B. L. Higgins, Manager, North Bend Chamber of Commerce, came before the Commission concerning the Seven Devils Route between Charleston and Bandon. Mr. Willard, who was spokesman, read aloud and presented a written brief concerning the Seven Devils Road. He urged the Commission to designate as a state secondary highway that portion of the Seven Devils Road between Charleston and the junction with the new route of the Oregon Coast Highway which is now under construction north of Bandon. This stretch of road, he stated, is about 13 miles long and has a well constructed base and sufficient right-of-way width. The existing roadway, he continued, is well aligned, has a good grade, and he estimated that it would cost about $60,000 to place an asphalt surfacing on the thirteen-mile section. He called attention to the value of the road from the tourist standpoint in that it would serve three state parks. He also said that the road would save on truck haul in loading ships and would expedite mail

service to and from the south. He stated further that no new right of way would need be required because Coos County now owns the land and all that is required is for the county to deed it to the State. He also urged that the road be shown on highway maps for the benefit of people who do not know that the road exists. Mr. Higgins mentioned that the present road is not adequately marked and tourists get lost. The Engineer stated that there would be no appreciable saving in distance by use of the Seven Devils road as the new section of the Oregon Coast Highway south of Coos Bay is approximately the same length. Chairman Reynolds remarked that in considering various routes for realignment of the Oregon Coast Highway north of Coquille the Seven Devils Route was considered but the Davis Slough Route was selected as being a superior all-around location. He further advised the delegation that there is no good reason apparent at this time that the State should take over the Seven Devils Road as a state highway and he suggested that the Coos County Court be requested to place the road on the federal-aid secondary (county road) system. Mr. Willard then inquired if some indication could be placed on State maps to indicate the Seven Devils Road. He again stated that the delegation's concern is in the approximately 13-mile section from a point south of Charleston to a connection with the new section of the Oregon Coast Highway north of Bandon. Previous requests were for construction of a new highway for the entire length of the road north of Bandon. Chairman Reynolds stated that the Commission is sympathetic with their request but has no funds available now to finance the improvement. He again suggested that they contact the Coos County Court regarding improvement of the road with federal-aid secondary (county road) funds.

A delegation representing the Portland-Salmon River Highway Association came before the Commission regarding improvements to the Salmon River Highway. The following people were present: James Stanard, President, Portland-Salmon River Highway Association, McMinnville; Cliff Elliott, Manager, McMinnville Chamber of Commerce; Cliff Fagaly, Mayor, Phil Rhinehart, Realtor; and Allen Reed, Newspaper publisher; all of Delake; A. M Jaroff, owner, Dorchester House, Oceanlake. Mr. Stanard, who acted as spokesman, expressed appreciation for work which has been performed since the Association started to urge improvement of this highway in 1947 He stated that traffic volume has increased rapidly and he urged further four lane construction to properly handle the traffic. Mr. Reed called attention to the many tourist attractions between Newport and Otis on the Oregon Coast Highway, mentioning particularly fishing and boat racing in Devils Lake. He also remarked that highway directional signs in and near Portland emphasize coastal points to the north of Lincoln County. It was his feeling that equal emphasis should be indicated on signs to Coastal points in Lincoln County. Mr. Jaroff stated that he is a newcomer in the Devils Lake area and it has been called to his attention that some tourists are inadvertently diverted to Hebo at Valley Junction. He suggested that better signing be installed at Valley Junction. Mr. Stanard mentioned that the coastal area near Devils Lake is served only by the highway and that 90 percent of northbound traffic on the Oregon Coast Highway at Otis travels over the Salmon River Highway. He urged the four-laning of this highway to the Coast. At the request of Chairman Reynolds

the Engineer enumerated improvements which have been made recently and which are contemplated on the Salmon River Highway. He mentioned specifically the new construction by-passing Sheridan and Willamina and construction which is to be undertaken this year from the southerly end of the Sheridan project to Valley Junction. Chairman Reynolds informed the delegation that their request would be given consideration and that the Engineer would check on the matter of signing in Portland and at Valley Junction, and if it developes that inconsistencies are present, they will be corrected.

A delegation from Springfield, consisting of Edward C. Harms, Mayor, and E. Robert Turner, City Manager, appeared before the Commission regarding improvement of East Main Street in Springfield, route of the McKenzie Highway. Mr. Harms requested construction of curbs, gutters and full width paving from 10th to 19th Street. He pointed out that the City had expended about $10,000 on East Main Street for storm sewers, filling ditches and for placing surfacing material on the shoulders, and an additional $113,000 to improve connecting streets. He estimated the cost to do what they are now requesting at $70,000 and gave as their understanding that the work would be performed when money became available. He urged that the work be done this year because it is near the city center. The Engineer stated that the $70,000 mentioned by Mayor Harms was the estimated cost to do the work two years ago but the present day estimate is $100,000, otherwise the information given is substantially correct. Chairman Reynolds advised that it is the Commission's policy in connection with improvements of this nature to request the cities to contribute at least 25 percent of the cost. He added that the Commission does not question the feasibility of the improvement. Mr. Harms stated that he felt that the work the city had previously performed should be considered as a part of its participation. The Engineer pointed out that the Commission does not have funds available to finance the project immediately. He suggested that it be given consideration in formulating the next construction program. He expressed doubt that the work could be performed this year in any event. Mr. Harms then inquired if the work could be placed on a future program so that the City could budget the necessary participating funds. Chairman Reynolds replied that their request would be given serious consideration in preparing the next highway construction program.

Mr. R. J. Herrington, City Administrator for the city of North Bend, came before the Commission concerning an exchange of land with the State involving Simpson State Park, and an easement for a road to serve the Rogers and Kuni property. He stated that the city cannot give Rogers and Kuni the easement for the road which crosses the northwest corner of Simpson State Park until the State has transferred the Park to the City. He recalled that the original understanding was that the city would provide land for a suitable stock pile site in exchange for one developed by the State within the Simpson Park. Chairman Reynolds stated that the Commission would grant the easement for the Rogers and Kuni road but is not satisfied with the stock pile site that has been offered in exchange for the present site. Mr. Herrington stated that the city will continue to search for a suitable site.

The Honorable C. L. Allen, Deschutes County Judge; Mr. James Egan, Supervisor, U.S. National Forest Service; Mr. Frank Loggan, owner of KBND radio; and Mr. Frank Shepard, Deschutes County Commissioner, all of Bend, came before the Commission regarding improvement to the Cascade Lakes Highway. Judge Allen, who acted as spokesman, urged the Commission to use its influence to continue construction of the Cascade Lakes Highway south from the end of the present construction near Elk Lake. He pointed out that construction of the Cascade Lakes Highway has been under consideration since 1932 and that the heaviest part of the work has been done. He introduced Mr. Loggan, who in turn introduced Mr. Egan. Mr. Egan displayed a map of the Deschutes forest pointing out that construction southerly from Elk Lake to the Willamette Highway would complete several loop roads, portions of which are being constructed as timber access roads. He requested a survey and urged that this section be programed for construction in the near future. Location of this road, he stated, is important in connection with construction of intersecting log roads. The Engineer pointed out that the Bureau of Public Roads will have to conduct the survey. He estimated that it would cost about $100,000 to perform clearing operations on a section approximately ten miles long. Mr. Egan mentioned that the highway location will be in an area of comparatively cheap construction and when completed will be used by a great many tourists. Judge Allen commented that developments are being made at Bachelor Butte near Sparks Lake for skiing enthusiasts. It was his thought that the Bachelor Butte area, because of its elevation, being the same as at Timberline Lodge, and heavy snow fall, will provide a very attractive ski area. Chairman Reynolds inquired if the logging roads are private roads. Mr. Egan replied in the negative. Commissioner McIver inquired how long the Cascade Lakes Highway is ordinarily closed by snow. Judge Allen replied that the Highway, for most of its length is open to travel by June 1, if conditions are no worse than they were last winter, except the area around Dutchman's Flats. Chairman Reynolds concluded the hearing by stating that the Commission will give the request serious consideration, and will discuss it with the Forest Service and Bureau of Public Roads officials.

The Honorable C. W. Craddock, Harney County Judge, and Mr. Lee Williams and Mr. Jack Drinkwater, Harney County Commissioners, appeared before the Commission regarding oiling of the Frenchglen Secondary Highway between Burns and The Narrows. Judge Craddock stated that the county would like to know whether the State will cooperate in oiling this section so that they can budget their highway funds. Chairman Reynolds inquired how much money the county could furnish as cooperation. Judge Craddock replied that the county has about $80,000 that it could contribute. After some discussion, the Commission agreed to allocate $50,000 of State funds to be used in conjunction with $80,000 of funds available from the county for oiling of a section of the Frenchglen Secondary Highway between Burns and The Narrows. Chairman Reynolds stated that such arrangement is definite. Commissioners McIver and Chessman concurred.

The Engineer stated that the city of Springfield has proposed, for experimental purposes, to close Main Street for the last ten days in August and to route traffic over North "A" Street. Main Street and South "A" Street now serve as a one-way couplet for the McKenzie Highway through the city and the plan is to route westbound traffic on North "A" Street and eastbound traffic on South "A" Street, and to allow no vehicular traffic whatsoever on Main Street between Third and Eighth Streets; however, traffic will be allowed to use cross streets. Existing traffic on Main Street which is also the center of the business district, is extremely heavy and it was the Engineer's thought that the closing of Main Street, as proposed, might provide distinct advantages for the traveling public and for those people who wish to shop in the city. Log haulers are agreeable to this routing and he recommended approval of the city's plan as a trial proposition for ten days time. The Commission adopted the recommendation.

The Parks Superintendent stated that the Visitor's Service Committee of the Portland Chamber of Commerce wants to conduct dedication ceremonies at Rooster Rock State Park when the facilities now being constructed are completed. He recommended approval of the request. The Commission accepted his recommendation.

The meeting recessed at 12:00 noon and reconvened at 1.30 p. m. with the same persons present and participating.

A delegation representing the city of Bend came before the Commission regarding widening to four lanes and construction of curbs and gutters on The Dalles-California Highway between Franklin Street and the south city limits of Bend. Present were Walter T. Thompson, City Manager; L. R. Shields, T. D. Sexton, Vern Larson, City Commissioners, and Frank Loggan of the Bend Chamber of Commerce. Mr. Thompson, who acted as spokesman, introduced the other members of the delegation and requested the State make the improvement between Franklin Street and the south city limits this year. The cost, he stated, has been estimated at $189,000.00 and the city has available funds to match 25 percent of the total cost. Chairman Reynolds remarked that previously the city had requested a survey of this project which has just recently been completed but the Commission has made no commitment to perform the work; moreover, no formal request for the improvement has been received from the city. He inquired if the city wishes now to request construction at this time. Mr. Thompson replied in the affirmative. He also stated that the city would like to request an additional survey now for rerouting The Dalles-California Highway along Third Street north from Franklin Street, and a cost estimate for the same. Later on, he added, the city would like a similar survey for the Central Oregon Highway in and near Bend, and also on Galveston Avenue, which is used as the route to the Cascade Lakes Highway. He requested that the section from Franklin Street north be surveyed first. Chairman Reynolds stated that construction from Franklin Street south to the city limits would have to be placed in a future program. Mr. Thompson requested that the project be included in the next program. Concerning the additional surveys mentioned by Mr. Thompson, Chairman Reynolds stated that a formal letter of request from the city should be directed to the Highway Commission. It

was his feeling that the State could complete the survey north from Franklin Street and that careful consideration would be given to including the construction from Franklin Street south in formulating the next construction program if the work cannot be done sooner. Commissioner McIver inquired if there had been any requests from within the city for a by-pass to the east. Mr. Thompson replied negatively. Chairman Reynolds again reminded the delegation to submit a letter of request for the surveys.

Mr. Paul Seibert and Mr. Richard Montgomery, Jr., representing the Cement Association of Oregon appeared before the Commission concerning the use of portland cement in highway pavement construction. Mr. Seibert stated that the purpose of their appearance at this time is to introduce themselves and their product. They wish only to have portland cement used where it is the best product for highway construction and they plan to make their publicity campaign factual. He offered to provide engineering assistance and advice concerning the use of portland cement. Mr. Montgomery emphasized that their campaign is a public relations move and they do not intend to attempt to discredit the use of asphalt in highway construction. The Engineer remarked that Mr. Seibert and Mr. Montgomery had offered to clear publicity material with him before releasing it to the public. He mentioned, however, that such clearance through him or his office could not be taken as an endorsement for their product. Chairman Reynolds stated that the Commission's position is to provide the best type of highways for the people of Oregon as economically as is possible and that it would be up to the portland cement people to prove the superiority of their product. He also observed that whereas the Commission approves the location and kind of highway to be constructed, they still must rely upon the advice of the Engineer in that regard.

A delegation representing the Grant County Stockgrowers Association came before the Commission concerning improvements to the John Day Highway northerly from its junction with Route 26 near Dayville in Grant County to Service Creek in Wheeler County. The following people were present: Larry Williams, Vice President, Grant County Stockgrowers, Canyon City; Leo Flower, Monument, and Darrell Johnson, Prairie City, both of Grant County Stockgrowers Association; John Murtha, Gilliam Stockgrowers Association; Condon; Van Rietmann, Gilliam County Commissioner, Condon; Virgil Chapman, Prairie City Chamber of Commerce; Floyd Martin, Portland Chamber of Commerce, Roads & Highways Committee; Ernest Fatland, Chairman, Commercial Club Highway Committee, Condon. Mr. Larry Williams acted as spokesman and introduced the other members of the delegation. He pointed out that even though Highway 26 had been reconstructed over the Ochoco Mountains, it still is more economical to transport livestock from Grant and Wheeler Counties to Portland via the John Day Highway and the Columbia River Highway. However, the road is very narrow and crooked and because of these conditions, a great deal of livestock is shipped south and east to market. Were the highway improved, he said, livestock from central Oregon would be shipped to Portland. He called attention to the fact that there are no railroad facilities in Grant and Wheeler Counties and that all freight must be hauled by trucks. Mr. Chapman urged improvement of the road so that cattle can be hauled to Portland in less time, thereby reducing

shrinkage in weight. It was his opinion that the saving would amount to $5 to $8 per head. Others speaking in behalf of the improvement were Messrs. Johnson, Murtha, Van Rietman and Fatland. Mr. Fatland remarked that central Oregon people have been urging improvements to the John Day Highway since 1933. He thanked the Commission for the work that has been performed or is programmed, and he urged that construction standards be such as to allow large trucks with maximum loads to use the highway. He also thanked the Commission for their cooperation in making possible a city park in the city of Condon. Mr. Martin, stated that the Portland Chamber of Commerce is interested in securing improvements to the highway so that central Oregon products can be shipped to Portland. Mr. Williams, speaking again, stated that improvements to the Columbia River Highway, which is a water grade highway, are causing products to be shipped over the John Day and Columbia River rather than over the Ochoco and Warm Springs Highways, which route involves crossing the Cascade Mountains. Chairman Reynolds stated that the Commission is aware of the need for improvement of this highway. He called attention to the work which has been contracted south of Fossil in excess of one-half million dollars, and he also pointed out that approximately two million dollars has been allocated for additional construction within the next three years. Also, a considerable allocation has been approved for the Wasco-Heppner Secondary Highway. Mr. Martin pointed out the possibilities that improvement of the John Day Highway in conjunction with irrigation will open up a large pea growing area. Chairman Reynolds concluded the discussion by stating that the Commission will give their request careful consideration. He also remarked that the delegation should bear in mind that they have an obligation in using their influence to prevent diversion of highway funds to other purposes and to help the Commission maintain the excellent reputation which the Highway Department has enjoyed in the past.

Hon. O. E. Effenberger, Tillamook County Judge, and Wes Schulmerich and A. H. Pilden, County Commissioners, appeared before the Commission concerning the Dolph to Boyer cutoff connecting the Salmon River and Three Rivers Highways. Somewhat confusing letters, he stated, have been received from the Bureau of Public Roads and the U. S. Forest Service concerning things that have to be done in order to secure approval of this route as a forest highway. The Engineer stated that it has been proposed to place the cutoff section on the Forest Highway system and to remove from the State Highway system a section of the Three Rivers Highway. The County Courts of Polk County and Tillamook County have, he said, furnished letters stating that they would take over their portions of the Three Rivers Highway but Yamhill County has not yet agreed to take over the Section in Yamhill County. He pointed out that there is no intent to ask the Counties to assume maintenance of the Three Rivers Highway section until construction has been completed on the Dolph to Boyer cutoff. Judge Effenberger indicated that Polk County might be able to help Yamhill County, and if the shortcut is approved, perhaps the three counties involved could work out among themselves a suitable maintenance agreement. Concerning construction of the cutoff, the Engineer pointed out that if the project is approved and early construction is undertaken, it would mean that funds would have to be

diverted from the Cascade Head project on the Oregon Coast Highway. It was his considered opinion that the Cascade Head project should be completed first. Judge Effenberger agreed, stating that they do not wish to divert any funds from the Cascade Head job. Mr. Schulmerich inquired if the cutoff could be designated and commitment made for construction as soon as the Cascade Head project is finished. The Engineer replied that Forest Service funds cannot be allocated more than one year ahead. Chairman Reynolds stated that the Commission would recommend that the cutoff be placed on the Forest Highway system and if there is some confusion as to what move is to be made next, the Engineer would consult with the Forest Service officials.

There being no further business to consider, the meeting was declared adjourned by Chairman Reynolds at 2:45 p. m.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

June 27 and 28, 1957

EXHIBIT "A"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as result of negotiations carried on with the owners of the property required ... e been obtained, which options have been considered by the Con ... tlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

WEST UNIT, SANDY-FOREST BOUNDARY SECTION - MT. HOOD HIGHWAY

25431 McManus, Bernard Gene and Carol Ann (Grant)
Right of Way, Stas. 84+10 - 85+90
Option expires October 24, 1957

.02 acre	$ 75.00	
Improvements	25.00	
Damages	350.00	
Amount to be paid owners - chrg to Right of Way		$450.00

Access: 84+40, N., residential.

Access controlled -

EXHIBIT "A" (Cont)

WEST UNIT, SANDY-FOREST BOUNDARY SECTION - MT. HOOD HIGHWAY (Cont)

25544 McKee, William et al (Grothaus)
Right of Way, Stas. 155+40 - 158+75
Option expires November 28, 1957

0.14 acre at $1,000 per acre	$140.00	
Damage	600.00	
Amount to be paid owners - chrg to Right of Way		$740.00
State to assume 1957-58 taxes. Estimate		8.00
GRAND TOTAL (Estimate) - chrg to Right of Way		748.00

THINGS TO BE DONE BY THE STATE

Construct approach roads at 155+75, 157+50, and 158+60.
Access: 155+75, 157+50 and 158+60, S., residential and agricultural.

Access controlled -

25585 Caudell, Albert E. et al (Grothaus)
Right of Way, Stas. 298 - 300
Option expires November 29, 1957

0.88 acre at $250- per acre	$206.00	
House	314.00	
Amount to be paid owners - chrg to Right of Way		$520.00
State to assume 1957-58 taxes - Estimate		6.00
GRAND TOTAL (Estimate) - chrg to Right of Way		$526.00

Access controlled - No access allowed

25688 Johnson, Walter and Ruth B. (Black)
Right of Way, Stas. 373 - 387
Option expires December 5, 1957

4.43 acres	$ 736.00	
151 Rods fencing at $4 per rod	604.00	
Severence Damage	1,060.00	
Amount to be paid owners - chrg to Right of Way		$2,400.00
State to assume 1957-58 taxes - Estimate		24.00
GRAND TOTAL (Estimate)		$2,424.00

Access: Sta. 380+70, S., residential, agricultural and forest products.
Access controlled -

EXHIBIT "A" (Cont)

Clackamas Overcrossing Section - Clackamas Highway

26305 Engle, Miles and Nina (Grothaus)
Right of Way, Stas. 284 -285
Option expires December 4, 1957

325 sq. ft. at $0.10 per square foot	$ 32.00	
Improvements	68.00	
Damage	600.00	
Amount to be paid owners - chrg to Right of Way		$700.00
State to assume 1957-58 taxes. Estimate		7.00
GRAND TOTAL (Est) - chrg to Right of Way		$707.00

THINGS TO BE DONE BY THE STATE
Construct 16' approach to R/W line at Sta. 285+25. Smooth surface of R/W adjacent and joining Grantors' land, when next improvements made in right of way.

Access: 285+25, South, residential.

Access controlled -

26306 Engle, Miles and Nina (Grothaus)
Right of Way, Stas. 285 - 286
Option expires December 4, 1957

620 sq. ft. at $0.10 per sq. ft.	$ 62.00	
Graveled driveway, lawn, reduction of lot size	62.00	
Amount to be paid owners - chrg to Right of Way		$124.00

THINGS TO BE DONE BY THE STATE
Construct 16' approach to r/w line. Smooth surface of r/w adjacent and joining Grantors' land, when next improvements made in right of way.

Access: 285+70, South residential.

Access controlled -

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land on the Pacific Highway on the 7th Avenue Connection in Eugene described as follows:

A parcel of land lying in the Prior F. Blair D. L. C. No. 39, also lying in Section 36, Township 17 South, Range 4 West, W. M., Lane County, Oregon. The said parcel being described as follows:

Beginning at the most southerly corner of that tract conveyed to the Richfield Oil Corporation by deed recorded in Book 367, Page 303 of Lane County Records of Deeds, said point being on the northeasterly line of the 7th Avenue Connection of the Pacific Highway, 551.75 feet North and 774.9 feet East of the southwest corner of said D. L. C. No. 39; thence along the northeasterly line of said 7th Avenue Connection, North 34°02' 30" West 201.65 feet and on a 113 foot radius curve right (the long chord of which bears North 21°32' 30" West) 49.31 feet; thence South 80°57' 30" West 108.78 feet to a line which is parallel to and 44 feet easterly of the center line of said 7th Street Connection; thence southeasterly along said parallel line to the extended southeasterly line of said Richfield Oil Corporation tract; thence North 41°29' East along said extended line to the point of beginning, containing 25,000 square feet, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $12,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et Seq. The conveyance of said property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the Pacific Highway, except two points of access not to exceed 50 feet in width will be allowed at approximate Highway Engineer's Center Line Station 659+90 and Station 662+90 on the northerly side of the Pacific Highway unrestricted as to use.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 46 be entered in the minutes and records of the Commission as of the 27th day of June, 1957.

28540

EXHIBIT "B-2"

RESOL UTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in Jump Off Joe Creek-Grants Pass Section of the Pacific Highway described as follows:

A parcel of land lying in the West half of the Northeast quarter of Section 6, Township 36 South, Range 5 West, W M., Josephine County, Oregon, and being a portion of that tract of land described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 179, Page 176 of Josephine County Records of Deeds; the said parcel being that portion of said property lying Northerly of a line which is parallel to and 150 ft. Northerly of the center line of the relocated Pacific Highway which center line is described as follows:

Beginning at Engineer's Center Line Station 1155+00, said Station being 3,422 ft. North and 2,966 ft. West of the Southeast corner of said Section 6; thence South 58°57' 30" East 2,500 ft. to Station 1180+00, said center line crossing the West line of said property approximately at Station 1158+23.

The parcel of land to which this description applies contains 68.75 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the relocated Pacific Highway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 47 be entered in the minutes and records of the Commission as of the 27th day of June, 1957.

28541

EXHIBIT "B-3"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the City of Springfield Section of the McKenzie Highway described as follows:

A parcel of land lying in Lots 7, 8 and 9, Block 8 Railroad Addition to Springfield, Lane County, Oregon, the said parcel being that portion of said Lots 7, 8 and 9, lying Southerly of a line which is parallel to and 30 ft. Southerly of the relocated center line of the McKenzie Highway, which parallel line is more particularly described as follows:

Beginning at the Northwest corner of said Lot 9; thence S 0° 02' 30" West along the West line of said Lot 87.2 ft. to a line which is parallel to and 30 ft. Southerly of the relocated center line of the McKenzie Highway and the true point of beginning; thence parallel to said center line on a 490.87 foot radius curve right (the long chord of which bears N 63°48' 30" E) 71.4 ft. to the East line of said Lot 8; thence continuing parallel to said center line on said 490.87 foot radius curve right (the long chord of which bears N 69°58' 30" E) 34.1 ft. to the East line of said Lot 7.

The parcel of land to which this description applies contains 5,600 sq. ft.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,800.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the McKenzie Highway, except one point of access not to exceed 15 feet in width will be allowed at approximate Highway Engineer's Center Line Station 98+35 on the southerly side of the McKenzie Highway unrestricted as to use.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 48 be entered in the minutes and records of the Commission as of the 27th day of June, 1957.

EXHIBIT "C"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, prior hereto and on, to wit, the 26th day of January, 1956, the State Highway Commission duly adopted a resolution, whereby it was found that certain interests or fee simple title to certain parcels of real property owned by Erick Enquist and May B. Enquist, husband and wife, were needed and required for the construction, improvement, betterment, and maintenance of highways of the state highway system and the relocation, construction, improvement and maintenance of the said Dodson-Bonneville Section of the Columbia River Highway as a throughway, together with all rights of access of any nature of all of the contiguous real property of the said Erick Enquist and May B Enquist, except as specifically reserved for the use of the contiguous property; and

WHEREAS, it was necessary for the Legal and Right of Way Departments to institute an action in the Circuit Court of the State of Oregon for the County of Multnomah for the purpose of acquiring the said property for the reason that no satisfactory agreement could be reached with the owners of the said real property as to its value; and

WHEREAS, the project for the said construction and improvement was to be provided for with the assistance of federal aid funds and required the approval of the Bureau of Public Roads; and

WHEREAS, it will be necessary, in order to secure the approval of the Bureau of Public Roads, to make certain alterations and changes in the plans for said construction and improvement; and

WHEREAS, the Commission cannot, at this time, definitely ascertain the exact interest or amount of property that it will be necessary to acquire in order to properly and adequately carry out said plans for the construction and improvement; and

WHEREAS, the Commission on the 4th day of June, 1956 duly entered an amended resolution changing the type of access from one of transportation of farm products from the owners remaining land and for private residential purposes only to that of one of unrestricted access subject to the provisions in both the original resolution and the amended resolution that the Commission, at its option, would have the right to build a frontage road for service of the remaining land of the owners, their heirs and assigns, and in which event, said access to the Columbia River Highway should cease and that access would be allowed on said frontage road only; and

WHEREAS, it is now the judgment of the Commission that the said real properties therein sought to be acquired are no longer necessary or needed at this time for state highway purposes, and that therefor the action hereinbefore referred to should be dismissed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this

EXHIBIT "C" (Cont)

Commission as follows:

1. The Commission, based on the foregoing, does hereby find and declare that certain interests in or fee simple title to certain parcels of real property owned by Erick Enquist and May B. Enquist, husband and wife, are no longer needed or required at this time for the relocation, construction, improvement, and maintenance of the said Dodson-Bonneville Section of the Columbia River Highway as a throughway.

2. That the Chief Counsel is directed and authorized to dismiss the action previously instituted for acquiring such interests and title to said real property.

3. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957 as Resolution No. 625a.

EXHIBIT "D"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 4423, with Rogers Construction Co. for grading and paving on the North Plains-Hillsboro Section of the Shadybrook-Hillsboro County Road in Washington County, completed June 5, 1957.

"Contract No. 4550, with Valley Construction Co. for constructing the Booth Ranch structures on the Shady-Canyonville Section of the Pacific Highway in Douglas County, completed May 31, 1957.

"Contract No. 4665, with A. E. Fitzgerald for bridge rail replacement on the Spencer Creek Bridge on the Green Springs Highway in Klamath County, completed May 16, 1957.

"Contract No. 4699, with Erick Enquist, for constructing the North Fork Scappoose Creek Bridges on the Pittsburg-Scappose County Road in Columbia County, completed May 13, 1957.

"Contract No. 4711, with Rogers Construction Co. for grading and paving on the Banks Section of the Nehalem Highway in Washington County, completed May 17, 1957.

"Contract No. 4715, with Tom Lillebo, for replacement of the Powers Bridge approaches on the Powers Secondary Highway in Coos County, completed May 17, 1957.

"Contract No. 4849, with Angell Bros., for constructing an overnight camping area in the Big Creek State Park in Lincoln County, completed May 23, 1957.

"Contract No. 4850, with R. I. Randolph Construction Co., for constructing additional facilities in Big Creek State Park in Lincoln County, completed June 18, 1957.

"Contract No. 4853, with Lloyd G. Sperling for constructing additional facilities in Cape Lookout State Park in Tillamook County, completed June 13, 1957.

"Contract No. 4855, with Parker & Fuhrman for constructing an overnight camping area in the Fort Stevens State Park in Clatsop County, completed June 12, 1957.

EXHIBIT "D" (Cont)

"Contract No. 4868, with Shannon Construction Co. for constructing an overnight camping area in the Jessie M. Honeyman State Park in Lane County, completed June 12, 1957.

"Contract No. 4871, with Electric Corporation for installing traffic signals at Lebanon on the Santiam Highway in Linn County, completed June 21, 1957.

"Contract No. 4874, with Rochat Electric Co. for installing traffic signals on the N. E. Portland Highway in Multnomah County, completed June 5, 1957.

"Contract No. 4877, with Calkins Crushing Co. for furnishing crushed materials in stockpiles on the Olney-Jewell Section of the Nehalem Highway in Clatsop County, completed May 9, 1957.

"Contract No. 4881, with J. C. Compton Co., for constructing guard rail on the Willamette and McKenzie Highways in Lane County, completed May 27, 1957.

"Contract No. 4888, with J. C. Compton Co., for oiling work on the Boyd-Dufur Section of the Boyd-Dufur County Road in Wasco County, completed May 24, 1957.

"Contract No. 4895, with Pacific Marine Service, for painting the Robertson Bridge on the Rogue River Loop Highway in Josephine County, completed May 22, 1957.

"Contract No. 4898, with J. C. Compton Co., for fencing on the Willamette River-Hayesville Section of the Portland-Salem Expressway (R. H. Baldock Freeway) in Marion County, completed May 28, 1957.

"Contract No. 4908, with C. A. Lantz, for constructing a chapel building in Silver Falls State Park in Marion County, completed June 10, 1957.

"Contract No. 4909, with V. L. Reinecke, for constructing a latrine at the Gervais Rest Area on the Pacific Highway East in Marion County, completed June 10, 1957.

"Contract No. 4910, with Standard Construction Co., Inc., for constructing the Champoeg State Park latrine in Marion County, completed June 13, 1957.

"Contract No. 4912, with Russell Olson Construction Co., for the paving of DuPont Street in the City of Echo in Umatilla County, completed June 8, 1957.

"Contract No. 4913, with A. E. Fitzgerald for constructing the Ochoco Sand Shed on the Ochoco Highway in Wheeler County, completed June 14, 1957.

EXHIBIT "D" (Cont)

"Contract No. 4926, with Angell Bros., for grading and paving "F" Street in the City of Eastside in Coos County, completed June 14, 1957.

"Contract No. 4927, with Roseburg Paving Co., for shoulder oiling on the Canyonville Section of the Pacific Highway in Douglas County, completed June 10, 1957.

"Contract No. 4928, with Wildish Construction Co., for paving on the Dexter-Lowell Section of the Willamette Highway in Lane County, completed June 13, 1957.

"Contract No. 4962, with J. C. Compton Co., for shoulder oiling on the Sand Station-Washington State Line Section of the Columbia River Highway in Umatilla County, completed June 6, 1957.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 63 shall be entered in the minutes and records of the Commission as of the 27th day of June, 1957.

28547

EXHIBIT "E"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, under ORS 366.320, the Oregon State Highway Commission is authorized to acquire land by purchase, agreement, donation or by the exercise of the power of eminent domain, when such land is deemed necessary for highway purposes; and

WHEREAS, the Lloyd Corporation has expressed its willingness to convey to the Oregon State Highway Commission for no consideration the hereinafter described land; provided that it is accepted by the Highway Commission for public highway purposes; and

WHEREAS, the City of Portland has vacated streets for the petitioner, the Lloyd Corporation, and under the Charter and Ordinances of the City of Portland, whenever any vacation is granted to a petitioner, land of equal value or acreage must be donated by the petitioner; and

WHEREAS, for the purpose mentioned in the last above-mentioned paragraph, the Lloyd Corporation wishes to obtain credit from the City of Portland for the land required to be conveyed to the City of Portland in consideration for the vacation of certain streets and alleys; and

WHEREAS, it is acceptable by the City of Portland that the hereinafter described land be conveyed to the State Highway Commission for public highway purposes to connect the Banfield Express Highway with Holladay Street at 13th Avenue by means of a westbound off ramp and to connect the Banfield Express Highway by means of an eastbound on ramp with 16th Street as it leaves Irving Street, but without any obligation, express or implied, present or future, that the State Highway Commission will be required to construct an overcrossing at said location or otherwise construct any facility to create a complete traffic interchange.

NOW, THEREFORE, based upon the power and authority vested in the Oregon State Highway Commission by the State of Oregon, it is hereby ordered and resolved that the Oregon State Highway Commission does accept, for public highway purposes, the following described land, to wit:

Parcel No. 1. A parcel of land lying in Blocks 183, 184, 190 and 191, Holladay's Addition to East Portland; Block 37, Sullivan's Addition to East Portland; and those vacated portions of Northeast 17th Avenue, 18th Avenue, Northeast Pacific and Northeast Oregon Streets, situated in Section 35, Township 1 North, Range 1 East, W.M., Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of said Block 184; thence Easterly along the South line of said Block 184 a distance of 60 feet; thence Northwesterly to a point on the South line of Lot 3 of said

EXHIBIT "E" (Cont)

Block 184, said point being 20 feet Easterly of the Southwest corner of said Lot 3; thence Northeasterly to a point on the South line of said Block 191, said point being 50 feet Easterly of the Southwest corner of Lot 5 of said Block 191; thence Northeasterly to the Northwest corner of Lot 4 of said Block 37; thence Northeasterly to the East line of Lot 6, said Block 37, at a point 15 feet South of the Northeast corner of Lot 6 said Block 37; thence Northerly along the East lines of Lots 6 and 7 of said Block 37 at a distance of 25 feet, to the South line of that property previously conveyed to the State of Oregon, by and through its State Highway Commission by that deed recorded in Book 1559, Page 425, of Multnomah County Deed Records; thence Westerly along said South line to a point on the West line of said Block 37, said point being 90 feet Southerly of the Northwest corner of said Block 37; thence Southwesterly to the Northeast corner of Lot 6 of said Block 191, said corner also being on the southerly line of said State of Oregon property; thence Southwesterly along the Southerly line of said State of Oregon property to the center line of N. E. 17th Street; thence Southwesterly to the Northwest corner of said Block 184; thence Southerly along the West line of said Block 184 to the point of beginning, subject to that area dedicated as street

The parcel of land to which this description applies contains 2.15 acres.

Parcel No. 2. A parcel of land lying in Blocks 151, 162, Holladay's Addition to East Portland and vacated N. E. Holladay Street, N. E. 15th Avenue, and vacated N. E. 14th Avenue, situated in Section 35, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, the said parcel being described as follows:

Beginning on the East line of N. E. 13th Avenue at a point which is 10 feet Southerly of the Northwest corner of said Block 151; thence Northerly along the East line of Northeast 13th Avenue, 60 feet; thence Easterly, parallel to and 30 feet Southerly of the North line of said N. E. Holladay Street, 250 feet, to the Northerly prolongation of the East line of said N. E. 14th Avenue; thence Northerly along said prolongation, 10 feet, to a line which is parallel to and 20 feet Southerly of the North line of said Northeast Holladay Street; thence Easterly along said parallel line to the Northwesterly right of way line of the O. W. R and N. Co. right of way; thence Southerwesterly along the O. R. R. and N Co. right of way to the South line of Lot 8 of said Block 162; thence Westerly along the South line of Lots 1 and 8, of said Block 162 to the Southwest corner of said Lot 1; thence Northerly along the West line of said Lot 1 to a point that is 10 feet Southerly from the Northwest corner of said Lot 1; thence Westerly to the point of beginning, subject to that area dedicated as street.

EXHIBIT "E" (Cont)

The parcel of land to which this description applies contains 0.98 acre.

This resolution be entered in the minutes and records of the Oregon State Highway Commission this 27th day of June, 1957, as Miscellaneous Resolution No. 207, and the Secretary is directed to mail a duly certified copy thereof to the Common Council of the City of Portland, Oregon.

EXHIBIT "F-1"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, the Springfield-Creswell Secondary Highway No. 222 in Lane County, Oregon, is a state secondary highway under the jurisdiction and control of the Oregon State Highway Commission; and

WHEREAS, pursuant to ORS 366.290, with the written consent of the county, State may eliminate from the system secondary highways or any part thereof, and said part shall pass to county for its maintenance and control; and

WHEREAS, Lane County and the Oregon State Highway Commission entered into an agreement on the 10th day of June, 1957, relating among other things, to the disposition to be made of the portion which may be eliminated, hereinafter referred to as Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be eliminated by State as part of the Springfield-Creswell Secondary Highway No. 222 by formal resolution and that Unit "A" would be maintained thereafter by the County as part of the County road system as long as needed for the service of persons living thereon, or communities served thereby, and that all right, title and interest which state may have in the right of way of said Unit "A" shall pass to and vest in County; and

WHEREAS, it is the purpose of the Oregon State Highway Commission to take official action and impress upon its records the disposition made of the portion of unit of right of way of said highway referred to herein as Unit "A";

NOW, THEREFORE, based upon the power and authority vested in the Oregon State Highway Commission by the State of Oregon, it is hereby ordered and resolved that:

1. That portion of the right of way of the Springfield-Creswell Secondary Highway No. 222, which is no longer needed as part of said highway is identified as Unit "A" and described as follows:

Unit "A": All the land situated within the right of way boundaries of the Springfield-Creswell Secondary Highway No. 222 beginning on said highway at the southerly right of way line of the Willamette Primary Highway No. 18 opposite Highway Engineer's Survey Station 202+25 of said Willamette Highway in the northwest quarter of the northwest quarter ($NW\frac{1}{4}$-$NW\frac{1}{4}$), Section 29, Township 18 South, Range 2 West, W. M.; thence southerly via said Springfield-Creswell Highway to the southerly right of way line, extended, of the Georgia D. Gilstrap County Road No. 888 where the same intersects said highway in the southwest quarter of the northwest quarter ($SW\frac{1}{4}$-$NW\frac{1}{4}$), Section 8, Township 19 South, Range 2 West, W. M.

EXHIBIT "F-1" (Cont)

2. Pursuant to the agreement entered into with Lane County on the 10th day of June, 1957, Unit "A", indicated on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof, is hereby duly eliminated as part of the Springfield-Creswell Secondary Highway No. 222 and the state highway system; and all right, title and interest which the State has in the right of way of Unit "A" herein described, pass to and vest in said Lane County. *

3. This resolution be entered in the minutes and records of the Oregon State Highway Commission this 27th day of June, 1957, as Abandonment and Retention Resolution No. 332, and the Secretary is directed to mail a duly certified copy thereof to the Board of County Commissioners of Lane County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 332 under the heading "Abandonment and Retention Resolutions", and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-2"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, on November 13, 1931, the Oregon State Highway Commission selected and designated, and on August 15, 1935, revised a secondary state highway described as follows:

> Beginning at the junction of the Springfield-Lowell County Market Road No. 36 with the McKenzie State Highway No. 15 east of the city of Springfield, thence southeasterly via the Springfield-Lowell County Market Road No. 36 to Jasper, thence southerly via the Jasper South County Market Road No. 35 to the Willamette Highway No. 18 east of Pleasant Hill, thence westerly common with the Willamette Highway to a point west of Pleasant Hill, thence southerly and westerly via the Cloverdale County Market Road No. 32 to a junction with the Pacific Highway No. 1 in the city of Creswell,

which said county roads, on their selection and designation as a secondary highway, were thereafter identified in the records of the Highway Commission as the Springfield-Creswell Secondary State Highway No 222 in Lane County; and

WHEREAS, Lane County and the State Highway Commission entered into an agreement on the 10th day of June, 1957, relating, among other things, to a change in the route of the Springfield-Creswell Highway; and

WHEREAS, ORS 366.295 authorizes the Highway Commission to make such changes in the location of highways as, in the judgment and discretion of the Commission, will result in better alignment, more advantageous and economical highway operation and maintenance or as will contribute to and afford a more serviceable system of state highways;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission that:

1. The route of the Springfield-Creswell Secondary State Highway No. 222 in Lane County shall be altered and the new route shall be designated as follows:

> Beginning at the McKenzie Highway at Mile Point 4.61 east of Springfield, thence southeasterly via Jasper to a point where said highway crosses the Willamette Highway No. 18 at Mile Point 5.62 of said Willamette Highway east of Pleasant Hill, thence southwesterly along a proposed alignment from the Willamette Highway crossing via Cloverdale to a junction with the proposed Goshen Divide Secondary Highway No. 226 in Creswell. Said route is shown colored in blue on the attached Exhibit "A". *

EXHIBIT "F-2" (Cont)

2. This resolution be entered in the minutes and records of the Oregon State Highway Commission this 27th day of June, 1957, as Secondary Highway Designation Resolution No. 40, and the Secretary is directed to mail a duly certified copy thereof to the Board of County Commissioners of Lane County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 40 under the heading "Secondary Highway Designation Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F-3"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, the relocated Deception Creek-Oakridge Section of the Willamette Primary State Highway No. 18 located in Lane County, the westerly terminus of which is at Highway Engineer's Survey Station 975+00 and the easterly terminus of which is at Highway Engineer's Survey Station 1128+73.73 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, due to the relocation of the aforesaid section, a portion of the former right of way is no longer needed for right of way purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Lane County and the State Highway Commission entered into an agreement on the 10th day of June, 1957, relating to the disposition to be made of the portion that may be eliminated, therein and hereinafter referred to as Unit "A" and relating to the responsibility of County in the maintenance of said Unit "A"; and

WHEREAS, said agreement provided that Unit "A" would be eliminated to County by State as part of the Willamette Highway by formal resolution; and that Unit "A" would be maintained thereafter by the county as part of the county road system as long as needed for the service of persons living thereon, or communities served thereby;and

WHEREAS, it is the judgment of the Highway Commission that certain portions of the right of way of the Willamette Primary Highway No. 18, Deception Creek-Oakridge Section, together with other real property acquired by State for roadway right of way and other public purposes, is needed and valuable for right of way and public use; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the former right of way of the said highway referred to herein as Unit "A" as well as all the property affected by reason of said realignment,

NOW, THEREFORE, based upon the power and authority vested in the Commission by the State of Oregon, it is HEREBY ORDERED AND RESOLVED that:

1. The portion of the former right of way which by reason of the relocation of the Deception Creek-Oakridge Section of the Willamette Highway is no longer needed as part of the new right of way, is identified as Unit "A" and described as follows:

All the land situated within the right of way boundaries of the Willamette Highway as formerly routed, beginning on said highway as formerly routed at the westerly right of way line,

EXHIBIT "F-3" (Cont)

extended, of the Westfir County Road where the same intersects said highway as formerly routed in the southwest quarter of the southwest quarter ($SW\frac{1}{4}$-$SW\frac{1}{4}$), Section 12, Township 21 South, Range 2 East, W. M.; thence southerly and easterly via said highway as formerly routed to the northerly right of way line opposite Highway Engineer's Survey Station 1086+00 of said highway as relocated in Lot 4, Section 18, Township 21 South, Range 3 East, W. M.

2. Pursuant to the agreement entered into with Lane County on the 10th day of June, 1957, Unit "A" indicated on the map attached hereto marked Exhibit "A", as shown colored in red, and by this reference made a part hereof, is hereby duly eliminated as part of the Willamette Highway and the state highway system; and all right, title, and interest which the State has in the right of way of Unit "A" herein described, pass to and vest in said Lane County.

3. The right of way of the former and of the relocated Deception Creek-Oakridge Section of the Willamette Highway, together with the real property acquired by the State for roadway right of way and other public purposes, as indicated on Exhibit "A" attached hereto, as shown colored in green shall be retained and held by the State. *

This Abandonment and Retention Resolution No. 331, be entered in the minutes and records of the Oregon State Highway Commission as of the 27th day of June, 1957, and the Secretary is ordered to mail a duly certified copy hereof the Board of County Commissioners of Lane County.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 331 under the heading "Abandonment and Retention Resolutions", and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, ORS 483.520 and ORS 483.524 authorize the State Highway Commission to grant permits for the movements of vehicles and combinations of vehicles having an overall length of not more than 60 feet, except that combinations of vehicles transporting logs, poles or piling may have an overall length in excess of 60 feet, and having a gross weight not in excess of that set forth in ORS 483.524 (3) and (4); and

WHEREAS, on the 16th day of July, 1951, the Oregon State Highway Commission, by Special Matters Resolution No. 40 and amended by Special Matters Resolution No. 40a on the 28th day of February, 1957, authorized the issuance of permits for the movement of vehicles and load not in excess of 60 feet; and

WHEREAS, said resolution set out the form and language of the permits to be issued by Exhibits "A", "B", "C", "D" and "E"; and

WHEREAS, by the terms of said resolution, the Commission reserved the right to change or modify their action by subsequent resolution; and

WHEREAS, the Commission now desires to make certain changes and modifications in the form of permit as hereafter set forth;

NOW, THEREFORE, BE IT AND IT IS HEREBY RESOLVED AND ORDERED by this Commission, all the members being present and voting affirmatively as follows:

1. That Exhibit "C" of Special Matters Resolution No. 40, adopted by the Commission on July 16, 1951, be amended to read as follows:

> "Transportation Permit (Temporary) for Continuous Operation of Overlength or Overweight Vehicles - Group I or II Highways - Permit Form E-271. This permit authorizes the movement over such highways as may be specified therein of combinations of vehicles, including any load thereon having a length and of a description as specified therein, but in no event to exceed 60 feet in length except that an overall length of not more than 65 feet may be allowed over Group I Highways if the commodity carried is short logs or poles on a truck and full trailer combination if the length of the equipment does not exceed 60 feet and having a gross weight of any wheel, axle, tandem axle, group of axles or of the combination of vehicles not in excess of that authorized by ORS 483.524, subsections (2), (3) and (4), provided that the gross weight of any combination of vehicles consisting of a truck having two

EXHIBIT "G" (Cont)

axles and a full trailer having two axles shall not exceed that set forth in the table of weights in ORS 483.524, subsection (4) or the sum of the permissible axle weights, whichever is the lesser. The Principal use of this permit form shall be to authorize movement of combinations of vehicles of a description or transporting a commodity not included in any resolution adopted by the Commission pursuant to the provisions of ORS 483.525 or for operation over highways reclassified or approved subsequent to the adoption of said resolution."

2. That this resolution be entered in the minutes and records of the Commission as of the 27th day of June, 1957, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission and that a copy of this resolution be furnished to each the Superintendent of State Police and the Public Utilities Commissioner.

EXHIBIT "H"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the provisions of ORS 366.30, the Highway Commission is directed and authorized to appoint, with the approval of the Attorney General, an Assistant Counsel; and

WHEREAS, G. E. Rohde is an attorney in good standing before the Oregon State Bar and admitted to practice before all of the courts of the State of Oregon, is an Assistant Attorney General, and is qualified to discharge the duties of Assistant Counsel for the Commission; and

WHEREAS, Leonard I. Lindas, an Assistant Attorney General and Chief Counsel to the Oregon State Highway Commission, has requested and recommended that the said G. E. Rohde be appointed and authorized to serve as Assistant Counsel to the State Highway Commission; and

WHEREAS, the Attorney General of the State of Oregon has approved of such appointment;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and affirmatively voting, as follows:

1. That G. E. Rohde be and he hereby is appointed as Assistant Counsel for the Highway Commission to serve in such capacity for a period of four years.

2. That G. E. Rohde shall serve under the direction of the Chief Counsel and in the absence of the Chief Counsel shall have full authority to perform any duty required or permitted by law to be performed by the Chief Counsel.

3. That the salary which shall be paid to G. E. Rohde is hereby fixed by the Commission in the sum of $716 per month.

4. That in addition to the salary that shall be paid G. E. Rohde he shall be entitled to and shall be paid his actual traveling and other necessary expenses as may be incurred in the performance of his official duties.

5. That this resolution shall be entered in the minutes and records of the Commission as of the 27th day of June, 1957.

28559

EXHIBIT "I-1"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Wallowa Lake Highway

Highway number 10 Route number ORE 82

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
33.58 (0.16 mile west of Wallowa River)	34.05 (0.10 mile East of O.W.R. & N. Undercrossing	35

EXHIBIT "I-1" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 250 be entered in the minutes and records of the Commission as of the 27th day of June, 1957.

28561

EXHIBIT "I-2"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: Old Oregon Trail

Highway number 6 Route Number US 30

28563

EXHIBIT "J"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, the Oregon Coast Highway is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appea rs that vehicles are parked on the shoulders of said highway at and near the entrance to Fogarty Creek State Park in Lincoln County; and

WHEREAS, an adequate parking area has been provided off the highway within the part development; and

WHEREAS, the parking of vehicles on the shoulders of said highway at said location creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on both shoulders of said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on both shoulders of the Oregon Coast Highway between M.P. 124.98 (0.21 mile north of Fogarty Creek) and M.P. 125.34 (.15 mile south of Fogarty Creek) creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway on said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare parking of vehicles on both shoulders of said Oregon Coast Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution, and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS".

EXHIBIT "J" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 164 be entered in the minutes and records of the State Highway Commission as of the 27th day of June, 1957.

28565

EXHIBIT "K-1"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "K-1" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the

event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 819.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 819, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-2"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "K-2" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 820.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 820, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28570

EXHIBIT "K-3"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately

needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to

EXHIBIT "K-3" (Cont)

final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 821.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 821, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28573

EXHIBIT "K-4"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; weighing stations; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen in part, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment, and maintenance of highways of the state highway system, and the relocation in part, widening in part, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there be no rights of access of any nature between the right of way of the said relocated and widened Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation in part, widening in part, construction, improvement and maintenance of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the

event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 822.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 822, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-5"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highway; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Moro-Kent Section of the Sherman Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled .

EXHIBIT "K-5" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Moro-Kent Section of the Sherman Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2 That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Sherman Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3 That the widening, construction, improvement and maintenance of the said Moro-Kent Section of the Sherman Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5 That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and

records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 823.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 823, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28579

EXHIBIT "K-6"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, weighing stations; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the North Santiam Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said North Santiam Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the widening, improvement and maintenance of the said North Santiam Highway and the highway facilities for which each of the said parcels of real property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed,

located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 26th day of June, 1957, as Condemnation Resolution No. 824.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 824, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28581

EXHIBIT "K-7"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sunset Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

EXHIBIT "K-7" (Cont)

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Sunset Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and improved Sunset Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening, improvement and maintenance of the said Sunset Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 825.

EXHIBIT "K-7" (Cont)

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 825, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-8"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes. the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter

EXHIBIT "K-8" (Cont)

described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 826, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28587

EXHIBIT "K-9"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part and relocate in part, construct, improve and maintain the Grants Pass (6th & 7th Sts.) Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part and relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening in part and relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission

EXHIBIT "K-9" (Cont)

that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part and relocation in part, construction, improvement and maintenance of the said Grants Pass (6th & 7th Sts.) Section of the Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A".*

3. That the widening in part and relocation in part, construction, improvement and maintenance of the said Grants Pass (6th & 7th Sts.) Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "K-9" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 827.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 827, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-10"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be

constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 828.

---

*FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 828, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-11"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1 The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2 That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3 That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5 That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his

absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 829.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 829, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28595

EXHIBIT "K-12"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct, improve and maintain the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be located, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of locating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real

properties hereinafter described are necessary, and that access to and from the said highway should be controlled; and

WHEREAS, prior to the May 16-17, 1957, Commission Meeting, the Highway Commission directed its Legal and Right of Way Department to prepare and submit condemnation resolutions for all real properties necessary for the above-mentioned highway improvement so that condemnation actions could be filed where necessary in order to make possession of the said real properties available to the contractor for construction purposes; and

WHEREAS, the Highway Commission approved the typewritten compilation of said condemnation resolutions submitted pursuant to its direction under the intention and belief that it was approving all such resolutions necessary to make possession of said real properties available to said contractor for construction purposes; and

WHEREAS, by error or oversight the condemnation resolution for File No. R-21166, Chester P. Muzzio, et ux., which is one of said necessary real properties, was not included in the typewritten compilation of condemnation resolutions; and

WHEREAS, because it was vitally necessary to file a condemnation action to acquire the said Muzzio property, Highway Commissioner M. K. McIver on June 10, 1957, authorized the Chief Counsel to formally offer $35,000.00 for said real property and to institute a condemnation action if the offer was not accepted. The Muzzio complaint was filed June 18, 1957, and physical possession of the property was taken by the Highway Commission's contractor on June 18, 1957.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "K-12" (Cont)

2 That it is necessary that there shall be no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the location, construction, improvement and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4 That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That in order that the minutes and records of the Highway Commission will truly reflect the actions of said Commission and in accordance with the intention and belief of said Commission that it approved as its May 16-17, 1957, meeting all condemnation resolutions for properties necessary for the construction of the above-mentioned highway improvement, it is hereby ordered that this resolution, File No. R-2116, be approved as of May 16, 1957, and shall be effective from that date.

7. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 830.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 830, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to to the same extent as if copied in full herein.

EXHIBIT "K-13"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and

the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East, including its Santiam Highway connection leg, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "K-13" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 832.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 832, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28601

EXHIBIT "K-14"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East, including its Santiam Highway connection leg, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 27th day of June, 1957, as Condemnation Resolution No. 833.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 833, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, Oregon State Highway route ORE 22 has previously been designated as follows, to wit:

> Over the Three Rivers Highway from its junction with the Oregon Coast Highway US 101, at Hebo southeasterly via Dolph and Grande Ronde Agency to its junction with the Salmon River Highway, ORE 18, at Valley Junction; thence easterly over the Salmon River Highway, ORE 18, to its junction with the Willamina-Salem Highway at Wallace Bridge; thence over the Willamina-Salem Highway from its junction with the Salmon River Highway, ORE 18, at Wallace Bridge approximately two miles west of Willamina, southeasterly via Buell to its junction with the Dolph Corner-Dallas Highway at Dolph Corner; thence over the Dolph Corner-Dallas Highway southerly to its junction with the Dallas-Rickreall Highway, ORE 223, in Dallas; thence easterly over the Dallas-Rickreall Highway to its junction with the Willamina-Salem Highway in Rickreall; thence over the Willamina-Salem Highway easterly via Eola to the Pacific Highway East, US 99, in Salem; thence over the Pacific Highway East, US 99, in Salem to its junction with the Silver Creek Falls Highway; thence over the Silver Creek Falls Highway from its junction with the Pacific Highway East, US 99, in Salem southeasterly to its junction with the North Santiam Highway; thence over the North Santiam Highway southeasterly via Aumsville, Sublimity, Stayton, Mehama, Mill City, Detroit and Idanha to its junction with the Santiam Highway, US 20, approximately 12 miles west of Suttle Lake; and

WHEREAS, Oregon State Highway route ORE 223 has previously been designated as follows, to wit:

> Over the Dallas-Rickreall Highway from its junction with the Dolph Corner-Dallas Highway, ORE 22, in Dallas to its junction with the Dallas-King's Valley Highway in Dallas; thence southerly over the Dallas-King's Valley Highway to its junction with the Corvallis-Newport Highway, US 20, one mile south of Wren; and

WHEREAS, the Highway Commission deems it necessary and in the best interests of the travelling public that Oregon State Highway routes ORE 22 and ORE 223 be rerouted and redefined.

EXHIBIT "L" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, that:

1. The Oregon State Highway routes ORE 22 and ORE 223 be re-defined and described as hereinafter provided:

2. Oregon State Highway Route ORE 22 shall be as follows:

Over the Three Rivers Highway from its junction with the Oregon Coast Highway, US 101, at Hebo southeasterly via Dolph and Grande Ronde Agency to its junction with the Salmon River Highway, ORE 18, at Valley Junction; thence easterly over the Salmon River Highway, ORE 18, to its junction with the Willamina-Salem Highway at Wallace Bridge; thence over the Willamina-Salem Highway from its junction with the Salmon River Highway, ORE 18, at Wallace Bridge approximately two miles west of Willamina, southeasterly via Buell, Rickreall and Eola to the Pacific Highway East, US 99, in Salem; thence over the Pacific Highway East, US 99, in Salem to its junction with the Silver Creek Falls Highway; thence over the Silver Creek Falls Highway from its junction with the Pacific Highway East, US 99, in Salem southeasterly to its junction with the North Santiam Highway; thence over the North Santiam Highway southeasterly in or near Aumsville, Sublimity, Stayton, Mehama, Mill City, Detroit and Idanha to its junction with the Santiam Highway, US 20, approximately 12 miles west of Suttle Lake.

3. Oregon State Highway route ORE 223 shall be as follows:

Over the Dallas-Rickreall Highway from its junction with the Salem-Willamina Highway, ORE 22, near Rickreall to its junction with the Dallas-King's Valley Highway in Dallas; thence southerly over the Dallas-King's Valley Highway via King's Valley to its junction with the Corvallis-Newport Highway, US 20, one mile south of Wren.

4. That this resolution be entered in the minutes and records of the Highway Commission this 27th day of June, 1957, as Primary Highway Resolution.

EXHIBIT "M"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, under the provisions of ORS 366.300, abandoned sections of a state highway which are no longer needed for right of way purposes, revert to and title revests in abutting owner or owners; and

WHEREAS, under the provisions of ORS 366.395, the State Highway Commission may sell, lease, exchange or otherwise dispose of real and personal property no longer needed, required or useful for highway purposes, in such manner as in the judgment of the Commission will best serve the interests of the State; and

WHEREAS, in 1943, the State relocated a section of The Dalles-California Highway north of Klamath Falls, which section is immediately north of the north line of Terminal City; and

WHEREAS, a portion of the then existing The Dalles-California Highway was eliminated as a state highway and transferred to Klamath County as a county road; and

WHEREAS, by order of the vacation, entered by the Klamath County Court the 29th day of May, 1957, the County Court vacated a portion of the said old The Dalles-California Highway; and

WHEREAS, the State owns the property abutting on the west of said vacated section of the old The Dalles-California Highway; and

WHEREAS, one-half of said vacated section of the old The Dalles-California Highway has reverted and revested in the State; and

WHEREAS, Klamath County is desirous that this portion of the vacated right of way be transferred to them; and

WHEREAS, a new connecting road was built connecting the old The Dalles-California Highway, which is now a county road, and the new The Dalles-California Highway; and

WHEREAS, this new connecting road was built across a stock pile site owned by the State; and

WHEREAS, this new connecting road has never been transferred by deed to Klamath County, although the County has operated and maintained the road since the revision was made; and

EXHIBIT "M" (Cont)

WHEREAS, it would best serve the interests of the State of Oregon and Klamath County if the hereinafter described real property be conveyed to Klamath County;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission:

1. The Commission does hereby find and declare that the hereinafter described real property is no longer needed, required or useful for highway purposes and that it would best serve the interests of the State of Oregon and Klamath County if the hereinafter described real property be conveyed to Klamath County, to wit:

Parcel 1: That portion of said property included in a strip of land 80 feet in width, 40 feet on each side of the center line of the connection road between the present The Dalles-California Highway and the old The Dalles-California Highway (now a county road), which connection road center line is described as follows:

Beginning at Engineer's center line station 125+82.6 on the center line of the old The Dalles-California Highway, said station being opposite and 30 feet easterly of the northeast corner of said State of Oregon property; thence on a 271.5 foot radius curve right to its intersection with the westerly line of said State of Oregon property at a point which is N 2°12' E 150.1 feet from the southwest corner of said State of Oregon property, said point also being on the easterly right of way line of the present The Dalles-California Highway; thence continuing on said 271.5 foot radius curve right a distance of 10 feet.

Parcel 2: Beginning at an iron pipe which is at the intersection of the north line of Terminal City and the westerly boundary of the Old State Highway; thence North 38°46' east along the westerly boundary of the Old State Highway (abandoned to Klamath County) 131.8 feet; thence on a 686.20 foot radius curve left (the long chord of which bears N 37°02' E) 41.6 feet to an iron pin which is at the intersection of the westerly boundary of said abandoned Old State Highway and the southeasterly boundary of an 80 foot state road connecting the Old State Highway to the New State Highway; thence along the extended southeasterly boundary of said State road along the arc of a 311.5 foot radius curve left (the long chord of which bears N 60°27'10" E) 62.8 feet to the center line of the abandoned State Highway at center line Station 124+25.5; thence on a 716.20 foot radius curve right (the long chord of which bears S 34°39' W) 102.9 feet; thence S 38°46'W 107.5 feet to the north line of said Terminal City; thence S 89°41' W 38.65 feet to the point of beginning.

EXHIBIT "M" (Cont)

2. That the Commission shall sign and acknowledge a good and sufficient bargain and sale deed, or deeds, conveying the above-described real property to Klamath County.

3. That this resolution be entered in full in the minutes and records of this Commission as Property Sale Resolution No. 49, this 27th day of June, 1957.

28609

EXHIBIT "N"

Minutes of June 27 and 28, 1957

RESOLUTION

WHEREAS, Fort Stevens State Park is under the jurisdiction and control of the State Highway Commission as provided by ORS 366.205; and

WHEREAS, that certain lake in Fort Stevens State Park known as Coffenbury Lake is suitable for the use of motor boats and other watercraft and for the purpose of swimming; and

WHEREAS, in the judgment of the Commission the operation of motor boats and other watercraft are dangerous to swimmers and a hazard to life unless their speed is restricted; and

WHEREAS, under the provisions of ORS 366.350 the Highway Commission may make regulations and provisions for the use and administration of State Parks,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED, that

1. The speed of motor boats and all other watercraft when operating on Coffenbury Lake in Fort Stevens State Park, Clatsop County, Oregon, be and hereby is restricted to ten miles per hour.

2. Motor boats and all other watercraft are prohibited from entering the restricted swimming area as heretofore or hereinafter established save for the protection or rescue of human life.

3. The State Parks Superintendent shall cause suitable signs to be erected within the main entrances to the park, and at such other places as he deems necessary, warning persons of the restriction of the speed of motor boats and all other watercraft and of the restricted swimming areas wherein motor boats and other watercraft are not permitted except in cases of emergency.

4. That this resolution be entered in the minutes and records of the Highway Commission this 28th day of June, 1957, as State Parks Resolution, File No. 13.

Portland, Oregon
August 8, 1957

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Prior to the opening of bids for highway construction, Chairman Reynolds announced to the contractors and others assembled that a bid opening will be held in the State Highway Building in Salem on August 30, 1957. He advised that bids will be opened on that day but award of contracts will be deferred until the next Commission meeting which is scheduled for September 12 and 13, 1957, in Portland.

Bids as follows were then opened and read aloud by the Secretary, who announced that the Commission would award contracts at 4:00 p.m. in the same room.

*Bidder will not accept award of contracts totaling more than $700,000 at this letting.

The Commission approved the minutes of the regular meeting held on June 27 and 28, 1957.

The Parks Superintendent reported on the following park matters:

1. Proposed sale of timber in wayside strips along the Sunset Highway in Columbia and Tillamook Counties: The Parks Superintendent stated that the timber should be cleared from the areas to reduce the fire hazard and for general appearances. A timber cruise revealed that approximately 68.5 MFBM, valued at $1,391.00, should be removed as it has no value to the park area and its removal will not damage the remainder of the stand. The Commission authorized public sale of the timber.

2. Request of H. W. Salmon, Terrebonne, for permission to sell his paintings in Peter Skene Ogden State Park: The Parks Superintendent recalled that the Commission had authorized a study of the necessity of establishing concessions in state parks. It was his feeling that sale of the paintings could not be classified as one of the services needed by visitors to the park and that it might establish a predecent for a variety of other sales which might be inimical to the best interests of the public. The Commission accepted his recommendation that the request be denied.

3. Attendance of the State Parks Superintendent at the National Conference on State Parks at Itasca State Park in Minnesota, September 19 through 21, 1957: The Commission granted authority for the Parks Superintendent to attend this conference at an estimated cost of $275.00.

4. Request of Wilbur Humbert of North Bend for permission to level a small area at the north end of the McCullough Wayside on the old section of the Oregon Coast Highway: Mr. Humbert, the Parks Superintendent stated, wishes to do the leveling at his own expense to establish a boat-launching facility about 1¼ miles north of McCullough Bridge. The Parks Superintendent recommended that his request be approved. The Commission accepted the recommendation.

5. Agreement with Crown Zellerbach Corporation to secure rock from the Corporation's quarry north of Cape Lookout State Park: The Parks Superintendent explained that the State had used material from this quarry under a previous agreement which expired May 17, 1957. It is now necessary to secure additional material for maintenance purposes and the Corporation has requested that another agreement be executed, extending the previous agreement though the balance of the year. As this quarry is the most practical source for the required material and as the Corporation will make no charge, he recommended that the agreement be approved. The Commission approved the agreement.

6. Proposed development of a state park on the southeast shore of Triangle Lake adjacent to the Siuslaw Highway: The Parks Superintendent stated that eventually the highway will be relocated on the south side of the lake but the exact location has not yet been determined. He recommended, therefore, that action on this request be deferred until the highway relocation has been definitely established. His recommendation was accepted by the Commission.

7. Request that boats equipped with motors be barred from using a small lake between the Columbia River Highway and the railroad immediately east of Benson State Park: In response to objections raised by swimmers and other users of the lake the Parks Superintendent stated that an investigation had been made and it was found that the lake is too small to accommodate boats equipped with motors and that such motorboats are hazardous to those who use the lake for swimming. He requested confirmation of previous telephonic authority to bar motorboats from this lake. The Commission confirmed the authority by adopting the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

8. Proposed renaming of Big Creek State Park on the Oregon Coast Highway in Lincoln County: In studying the possibility of another name, the Parks Superintendent stated that approximately 40 names were considered and that there were some objectionable features to all of them. He recalled that the original request had come from residents in the area who objected to the name of Big Creek because there are so many creeks in Oregon that bear that name. The word "Wakonda", suggested by local residents, is strictly a local name and also applies to some businesses in the area. It appears that the suggested name "Beachside State Park" will cause no conflict with established names of business places and will be somewhat descriptive of the park. He recommended that the park be renamed "Beachside State Park". The Commission approved such name for the park by adopting the attached resolution relative thereto marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

9. Construction of additional overnight facilities in state parks: The Parks Superintendent stated that it was determined that sufficient funds are not available in the 1957 budget to cover the entire cost of overnight camping facilities at Tumalo, Beverly Beach, and Sunset Bay State Parks. It was deemed advisable to delay construction so that the additional funds could be secured from allocations in the 1958 budget. In addition to facilities at these three parks, it has been found necessary to construct overnight camping facilities for 1958 use at Fort Stevens, Delake, and Honeyman State Parks, which are not included in the 1957 budget. So that these facilities can be available for next summer's use, the grading work should be contracted as early this fall as possible. The Commission approved his recommendation that contracts for developing these six parks be awarded as soon as possible.

10. Request of Multnomah County Sheriff, Mr. Francis Lambert, for lifeguards at Rooster Rock State Park: The Parks Superintendent pointed out that the use of the park by swimmers and others this summer has been extremely heavy, totaling approximately 95,000 people in the month of July, and on one day, July 28, 10,836 people were counted in the park. At the present water level there is no particular hazard to swimmers as the water is shallow for several hundred feet from the shoreline and, in addition, a log boom has been erected for further protection. It was his opinion, however, that because of the large number of people using the area and to protect swimmers lifeguards should be employed. Commissioner Chessman inquired if the hiring of lifeguards at this location would obligate the Commission to hire lifeguards at other locations where swimming is available in state parks. It was the feeling of the Commission that each location would have to be decided on its individual merits and that lifeguards would be hired where investigation disclosed that they are needed. The Commission deferred its decision pending discussion with Sheriff Lambert, who is scheduled to appear before the Commission on the following day. (See delegation ahead).

The Parks Superintendent introduced Mr. Lloyd Russell and Mr. Wayne Gerner who spoke before the Commission concerning additional park developments at Owyhee Reservoir in Malheur County. Mr. Russell requested the Commission to make water available at Gordon Creek to irrigate a number of young trees. He estimated that the water could be supplied for an investment of $10,000. to $15,000 and urged the Commission to do the work in order to keep up the morale of people who have spent about $25,000 of their own funds in developing the roadway into the Reservoir. He also pointed out that there had been some indication from Congress that Federal help might be obtained if the State would first spend some money in the area. He urged the Commission to make a commitment of some sort at its September meeting. Mr. Gerner pointed out that a considerable amount of money had been expended by individuals in constructing a road to the Reservoir and developing facilities at the Reservoir. Their funds, however, have been exhausted and help is needed. Commissioner McIver observed that as a result of a request from a previous delegation the Commission had authorized a survey of the Owyhee Reservoir area but the survey has not yet been completed and no commitment can be made until the survey has been completed

and a report made. Chairman Reynolds advised Mr. Russell and Mr. Gerner that the request presented today had not come to the Commission's attention until the previous day and there had not been time to make any investigation. No commitment can be made, he stated, until the survey has been completed and a recommendation made by the Parks Superintendent however, the Commission will help as much as is possible.

The Right-of-Way Engineer presented for consideration options secured for acquisition of real property that is needed for State Highway right-of-way or for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right-of-Way Engineer requested authority to negotiate for the purchase of three parcels of property for which no authority previously was given by the Commission. These parcels, he said, are necessary for highway construction purposes. The Commission authorized negotiations for acquisition of the following parcels on the Fanno Creek Bridge Section of the Scholls Highway in Washington County:

1. File No. 26704, Browning, 0.127 acre for easement.

2. File No. 26705, Craig, 0.25 acre for flood control.

3. File No. 26706, Tenant Mortgage Company, 0.21 acre outright purchase; 0.05 acre for easement.

A report was presented by the Right-of-Way Engineer showing miscellaneous sales made since the last Commission meeting, in the amount of $24,300, and a rental report showing new rentals and terminations for the period from June 14 to July 26, 1957. Rental receipts for the month of July were shown at $8,980.11. The Commission accepted the reports. (For details see Miscellaneous Sales Report dated August 8 and 9, 1957 and Supplemental Rental Report dated June 14 and July 26, 1957 in the General Files.)

Authority to offer at public sale three parcels of State-owned property was requested by the Right-of-Way Engineer. He explained that these parcels are no longer required for highway purposes and should be disposed of. The Commission authorized sale of the following parcels and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "B-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein:

a. 12.95 acres of the former Vanguard property on the T. H. Banfield Expressway in Multnomah County for a minimum price of $32,500 subject to an existing lease which contains a six-months'cancellation clause and the further condition that the successful bidder remove the building within six months after expiration of the lease. (SEE EXHIBIT "B-1")

b. 1,920 square feet of the former Ross property on the North Bend-Coos Bay Section of the Oregon Coast Highway, Coos County, for a minimum price of $900.00.

c. 0.64 acre of the former Rodman Property on the Goshen-Divide Section of the Pacific Highway in Lane County, for a minimum price of $150.00.

An exchange of properties with a Mr. Larsen on the 11th Avenue Connection of the Pacific Highway in Block 3, Westmoreland Addition in Eugene, was discussed. The Right-of-Way Engineer explained that when the property was purchased from the Larsens, the taking was of irregular shape. Under the proposed exchange, the State will convey to the Larsens 2,000 square feet in Lots 18, 19, 20, and 21 in exchange for which the Larsens will deed to the State 350 square feet in Lots 17 and 18, and in addition thereto will pay the State the sum of $500.00. This exchange will square up the holdings of both the Larsens and the State and will make easier the disposal of Lots 17 and 18 now owned by the State. Upon his favorable recommendation, the Commission approved the exchange.

Attention was given to a form of Trust Agreement with Bonneville Power Administration for rearranging its power line on the Valley Junction-Wallace Bridge Section of the Salmon River Highway. The Right-of-Way Engineer explained that revision of the power line is necessary in construction of the highway and under usual procedure with the Federal Government, it is necessary for the State to deposit with the Government the estimated cost to rearrange the facility, which is estimated at $4,800, and which amount is incorporated in the agreement. Following his favorable recommendation, the Commission approved the agreement.

The Commission also gave attention to a Trust Agreement with Bonneville Power Administration concerning relocation of Bonneville Power facilities on the Meacham-Glover Section of the Old Oregon Trail in Union and Umatilla Counties. This agreement, the Highway Engineer explained, is of the same type as the one covering the Valley Junction-Wallace Bridge Unit, but the estimated cost as provided in the agreement is $43,550. The Commission approved this agreement.

Sale to Mr. Floyd W. Horn, Eugene, of 11 square feet of excess land situated in Lot 21, Block 3, Westmoreland Addition to Eugene, was considered. Mr. Horn, the Right-of-Way Engineer stated, has offered to pay for this property the same price for which he was paid and has submitted his check in the amount of $5.00. He added that the land is not required for highway purposes. The Commission approved the sale.

The Commission also considered and upon the favorable recommendation of the Right-of-Way Engineer approved sale of 1.2 acres of excess property on the Albany-Judkins Point Section of the Pacific Highway East in Lane County to the Eugene Water and Electric Board for the sum of $1,000. The Right-of-Way Engineer explained that this is a part of the former Wolter property on the west side of the Highway at Engineer's Station 562+00, and is

to be used by the Water and Electric Board as right of way for a transmission line.

Changes in access provisions for a number of properties was discussed. The Right-of-Way Engineer presented seven items and explained that all of them, with the exception of the Butterfield property in Grants Pass and the McCall property in Marion County, involve changes of access only, no additional access being granted. Concerning the Butterfield property he explained that there had been no intent to restrict access to this property but inadvertently the restriction had been incorporated in the deed. This action will allow access to the property. Concerning the McCall property, it was originally planned to construct a frontage road and allow access to it and the deed had been prepared with this plan in mind. However, it has now been decided not to construct the frontage road and this action is to allow access to the highway itself. Upon his favorable recommendation, the Commission approved the following indentures of access:

a. Duckworth property, File No. 26125, on the 6th and 7th Street Section of the Pacific Highway in Grants Pass, Josephine County.

b. Butterfield property, File No. 26133, on the 6th and 7th Street Section of the Pacific Highway in Grants Pass, Josephine County.

c. Duckworth property, File No. 26124, on the 6th and 7th Street Section of the Pacific Highway in Grants Pass, Josephine County.

d. Vroman property, File No. 22364, on the Salem-Stout Creek Section of the North Santiam Highway in Marion County.

e. McCall property, File No. 22363, on the Salem-Stout Creek Section of the North Santiam Highway in Marion County.

f. Ferring property, File No. 17396, on the Big Creek Section of the Columbia River Highway in Clatsop County.

g. Coburn property, File No. 23439, on the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Secondary Highway in Yamhill County.

Granting of a right-of-way easement to the Pacific Telephone and Telegraph Company on a 10 foot strip along the westerly side of the Willowdale-Lyle Gap Section of The Dalles-California Highway was considered. The Right-of-Way Engineer explained that a quitclaim deed has been secured from the company to release their present easement on private property, and in exchange for this quitclaim deed, it is proposed to grant the company a reciprocal 10-foot easement on the westerly side of and parallel to the 60-foot right of way line on the recently acquired State right of way. Following his favorable recommendation, the Commission approved the easement.

The Commission also considered the matter of compensating Douglas Electric Coop in the sum of $1,094.69 for adjustments necessary to their power line on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway in Douglas County. This rearrangement, the Right-of-Way Engineer stated, was caused by reconstruction conducted by the Bureau of Public Roads. He also explained that in construction projects of this sort with the Bureau of Public Roads, it is customary for the State to pay the cost of such rearrangements, and he recommended that the Coop be reimbursed in this instance. The Commission accepted his recommendation.

Consideration was given to a form of easement agreement whereby the State grants to the Union Pacific Railroad Company a slope easement near the intersection of 181st Avenue and Wilkes Road on the T. H. Banfield Expressway in Portland. This easement, the Right-of-Way Engineer explained, has been requested by the railroad in connection with developing industrial property owned by them. The Commission approved the easement.

Attention was given to a request made by a Mr. Taylor and a Mr. Dilger for removal of advertising restrictions from the deed on excess property which was purchased by them from the State at the Hayesville Interchange on the R. H. Baldock Freeway north of Salem. The Right-of-Way Engineer pointed out that the advertising restrictions were a part of the sale which was conducted at public auction and he recommended that the request be denied. His recommendation was accepted.

The Right-of-Way Engineer reported that in constructing the 7th Street route of the Pacific Highway in Grants Pass, it was necessary to acquire and relocate a portion of the Grants Pass Irrigation District canal. By error, the easement for this relocation was taken in the name of the State Highway Commission. As the State has no use for title to the ditch and does not wish to be burdened with maintenance, he recommended that a Bargain and Sale Deed be tendered to the Grants Pass Irrigation District. The Commission accepted his recommendation.

Authority was requested by the Right-of-Way Engineer to offer at public sale approximately 11 acres of excess property acquired under File No. 26222 on the Valley Junction-Wallace Bridge Section of the Salmon River Highway. It was his opinion that the property is worth approximately $300 per acre. The Commission authorized the sale and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "B-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

(List of properties on following page)

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-22526 - Almas J. Overby and Jacquline Overby
Right of Way (Multnomah County)
5,336 square feet

R-22772 - George A. Rahoutis and Lucy Rahoutis
Right of Way (Multnomah County)
26,200 square feet

R-22778 - John H. Janusch
Right of Way (Multnomah County)
5,000 square feet

R-22890 - Ravena T. Spurrier
Right of Way (Multnomah County)
5,000 square feet

R-22892 - Louie Foo
Right of Way (Multnomah County)
5,000 square feet

R-22895 - Howard J. DeVeny, et al.
Right of Way (Multnomah County)
14,287 square feet

R-22908 - Hawkin J. Johnson and Grace M. Johnson
Right of Way (Multnomah County)
3,667 square feet

R-23716 - H. F. Witzel and Katherine W. Witzel
Right of Way (Multnomah County)
7,546 square feet

R-24608 - Millen F. Kneeland and Martha F. Kneeland
Right of Way (Multnomah County)
5,000 square feet

R-24638 - Leonard I. Haynes and Selma Haynes
Right of Way (Multnomah County)
5,000 square feet.

R-24639 - Walter T. Sherman and Alice M. Sherman
Right of Way (Multnomah County)
5,000 square feet

R-26373 - C. M. McGuire and Lena McGuire
Right of Way (Multnomah County)
21,600 square feet

August 8, 1957

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway Cont.

R-26374 - Charles C. Smith and Pearl M. Smith
(Multnomah County)
Parcel No. 1: 7,030 square feet for right of Way
Parcel No. 2: 313 square feet for Right of Way

R-26375 - Ruth Eckhardt, et al.
Right of Way (Multnomah County)
26,133 square feet

R-26581 - Abe Bercovitz and Pauline Bercovitz
Right of Way (Multnomah County)
4,750 square feet

L-2816 (R-26411) - Ira R. Lyon
(Multnomah County)
Parcel No. 1: 0.23 acre for Right of Way
Parcel No. 2: 0.4 acre for a Perpetual Slope Easement
Amended resolution to add reservation of access

Salem By-Pass Section of the Portland-Salem Expressway

R-24874 - Louis C. Lorenz and Berneta Lorenz
Right of Way (Marion County)
0.4 acre

R-26546 - Emile F. Aufranc and Evelyn M. Aufranc
Right of Way (Marion County)
0.07 acre

R-26548 - Norris-Walker Paint Mfg. Co.
Right of Way (Marion County)
0.53 acre

R-26549 - M. T. Harmon and Stella R. Harmon
Right of Way (Marion County)
0.35 acre

R-26551 - Virginia Keech and Homer H. Best
Right of Way (Marion County)
0.08 acre

R-26553 - W. C. Ryan and Madeleine Ryan
Right of Way (Marion County)
0.05 acre

R-26557 - General Petroleum Corporation
Right of Way (Marion County)
0.37 acre

Salem By-Pass Section of the Portland-Salem Expressway - Cont.

R-26558 - Robert L. Elfstrom, Jr., and Jean Weger Elfstrom
Right of Way (Marion County)
0.06 acre

R-26870 - John A. Jelderks and Katharine M. Jelderks
Right of Way (Marion County)
0.99 acre

Portland-Salem Expressway

R-26544 - Chris J. Neilsen
Material Source (Marion County)
0.46 acre

Valley Junction-Sheridan Section of the Salmon River Highway

R-26205 - John Breeden and Lottie Breeden
(Polk County)
Parcel No. 1: 3.66 acres for Right of Way
Parcel No. 2: 1.1 acres for Right of Way
Parcel No. 3: 0.7 acre for Right of Way
Parcel No. 4: 0.2 acre for Excess Taking

R-26206 - W. F. Lewis and Katherine R. Lewis
Right of Way (Polk County)
4.49 acres

R-26207 - D. D. Willis and Ardella Willis
(Polk County)
Parcel No. 1: 7.5 acres for Right of Way
Parcel No. 2: 1.13 acres for Excess Taking

R-26208 - Zelma Boyer and Wilson Boyer
Right of Way (Polk County)
4.20 acres

R-26209 - Foster Mills, Incorporated
Right of Way (Polk County)
1.96 acres

R-26210 - Virgil Tharp and Amy Tharp
Right of Way (Polk County)
1.96 acres

R-26211 - Virgil Tharp
Right of Way (Polk County)
2.10 acres

Valley Junction-Sheridan Section of the Salmon River Highway - Cont.

R-26212 - Wilson Boyer and Zelma Boyer
Right of Way (Polk County)
3.0 acres

R-26219 - Johns Mills
(Polk County)
Parcel No. 1: 2.25 acres for Right of Way
Parcel No. 2: 2.08 acres for Right of Way
Parcel No. 3: 3.79 acres for Right of Way
Parcel No. 4: 0.15 acre for Right of Way

R-26233 - I. E. Lawrence
Right of Way (Polk County)
0.28 acre

Goble-St. Helens Section of the Columbia River Highway

R-26403 - L. A. Dubois and Rosa Dubois
Right of Way (Columbia County)
1.0 acre

R-26404 - R. W. Foster
Right of Way (Columbia County)
1.7 acres

R-26405 - Daniel W. Carter and Lydia E. Carter
Right of Way (Columbia County)
13.4 acres

R-26406 - Paul D. Wyatt and Joyce Wyatt
Right of Way (Columbia County)
2.0 acres (net)

R-26408 - Jane Reeves, et al
(Columbia County)
Parcel No. 1: 20.5 acres for Right of Way
Parcel No. 2: 0.34 acre for a Temporary Construction Easement
Parcel No. 3: 0.19 acre for a Temporary Construction Easement

R-26409 - Charles R. Holden and Mary F. Holden
(Columbia County)
Parcel No. 1: 6.8 acres (net) for Right of Way
Parcel No. 2: 0.5 acre for a Temporary Construction Easement

R-26410 - Robert C. Bishop and Maria W. Bishop, et al.
(Columbia County)
Parcel No. 1: 4.75 acres (Net) for Right of Way
Parcel No. 2: 0.54 acre for Right of Way
Parcel No. 3: 0.62 acre for a Temporary Construction Easement

Goble-St. Helens Section of the Columbia River Highway - Cont.

R-26429 - Investment Mortgage Corporation
Right of Way (Columbia County)
0.41 acre (net)

Sunset Highway (Highlands Interchange)

R-26850 - Wilbur F. Preble and Fay Boyer Preble
Right of Way (Multnomah County)
0.05 acre

R-25883 - A. Victor Rosenfeld and Betty C. Rosenfeld
Right of Way (Multnomah County)
0.15 acre

R-25888 - Humphrey Parry and Flossie Parry
Right of Way (Multnomah County)
31,397 square feet

Davis Slough-Bandon Section of the Oregon Coast Highway

R-26097 - David R. Philpott and Ruth J. Philpott, et al.
(Coos County)
Parcel No. 1: 15.1 acres for Right of Way
Parcel No. 2: 9.2 acres for Right of Way
Parcel No. 3: 10.7 acres for Material Source

R-26100 - William Biescke and Junie J. Biescke
(Coos County)
Parcel No. 1: 6.9 acres (net) for Right of Way
Parcel No. 2: 0.01 acre for Right of Way

Pacific Highway

R-23605 - Hayden Island Amusement Co.
(Multnomah County)
Parcel No. 1: 2.896 acres for Right of Way
Parcel No. 2: 0.025 acre for Right of Way
Parcel No. 3: 0.46 acre for Right of Way
Parcel No. 4: 1,265 square feet for a construction easement

R-26139 - Hayden Investment Co.
Right of Way (Multnomah County)
0.25 acre

R-26140 - The Hayden Co., Inc.
Right of Way (Multnomah County)
0.1 acre

Newport-Toledo Section of the Corvallis-Newport Highway

R-24857 - John W. Goodyear and Carol H. Goodyear
(Lincoln County)
Parcel No. 1: 0.12 acre for Right of Way
Parcel No. 2: 1,000 square feet for a Slope Easement

Oregon Coast Highway

R-25827 - Interstate Tractor and Equipment Company
Right of Way (Coos County)
0.17 acre

Heppner-Spray Highway

R-26756 - Emma P. Elder and Marlo Ochs
(Morrow County)
Parcel No. 1: 4.98 acres (net) for Right of Way
Parcel No. 2: 1.33 acres (net) for Right of Way

North Jefferson Junction-Albany Section of the Pacific Highway East

R-25535 - P. W. Drushella, et al.
Right of Way (Linn County)
1,000 square feet
Amended resolution designating use of property being acquired

R-26483 - John Heyerly, et al.
Right of Way (Linn County)
890 square feet
Amended resolution designating use of property being acquired

Hinsdale Slough-Luder Creek Section of the Umpqua Highway

L-2756 (R-12834) - D. D. Hail and Willene B. Hail
(Douglas County)
Parcel No. 1: 4.6 acres for Right of Way
Parcel No. 2: 6.2 acres for Material Source
Amended resolution to change access provisions

Tillamook-Donaldson Creek Section of the Wilson River Highway

L-2536 (R-23509) - Margarite Becker, et al.
Right of Way (Tillamook County)
4.10 acres
Amended resolution to add encroachment easement for the lifetime of a building.

County Market Road No. 11

R-26436 - Elmer Sohrweid and Edith Sohrweid
Material Site (Yamhill County)
16.38 acres
Amended Resolution

Portland-Salem Expressway

R-26541 - Salem Chamber of Commerce
Material Source (Marion County)
14.8 acres

Salem By-Pass Section of the Portland-Salem Expressway

R-26695 - Otto R. Nation and Sara K. Nation
(Marion County)
Parcel No. 1: 0.18 acre for Right of Way
Parcel No. 2: 0.24 acre for a Temporary Construction Easement

R-26894 - Rex Ellis and Nona Ellis
(Marion County)
Parcel No. 1: 0.67 acre for Right of Way
Parcel No. 2: 0.68 acre for a Slope Easement

R-26902 - Rex B. Morris and Kathleen Morris
Right of Way (Marion County)
0.09 acre

R-26696 - Carroll M. Robinson and Evelyn H. Robinson
(Marion County)
Parcel No. 1: 0.06 acre for Right of Way
Parcel No. 2: 0.04 acre for a Temporary Construction Easement

R-26698 - Rex B. Morris and Kathleen Morris
Right of Way (Marion County)
0.23 acre (net)

Goble-St. Helens Section of the Columbia River Highway

R-26407 - Arnold L. Leppin and Anna Marie Leppin
(Columbia County)
Parcel No. 1: 20.5 acres (net) for Right of Way
Parcel No. 2: 2.0 acres for a Temporary Construction Easement
Parcel No. 3: 0.19 acre for a Temporary Construction Easement

Right-of-way maps and other data were submitted to the Commission and the Engineer advised that acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. Action was deferred on this matter pending study. (Condemnation of the several parcels was authorized by the Commission on the following day. See ahead for minute entry.)

In connection with the condemnations authorized, Chairman Reynolds commented that he did not like to see so many potential condemnations and inquired if there was some means whereby the number could be reduced. The Right of Way Engineer stated that for various reasons during the last few weeks it has been difficult to close options, and to prevent delay in awarding contracts it has been necessary to ask for a large number of condemnations. He also pointed out that although a large number of condemnations had been authorized only a small percentage will actually be brought to trial, as past experience has shown that by far the greater percentage of them will be settled by negotiation.

A report submitted by the Chief Counsel, enumerating details concerning cases that have been tried in court since the Commission meeting held June 27 and 28, 1957, was accepted by the Commission and is summarized as follows:

REPORT OF CONDEMNATION CASES TRIED
June 21, 1957 to August 1, 1957

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Miller, et al. R-25604	Linn	Pacific East	N. Jefferson Jct. -Albany	$ 8,250	$ 8,250	$ 8,250
Bloomer, et al. R-24531	Marion	Pacific East	N. Jefferson Jct. Albany	3,150	3,150	3,150
Preston, et al. R-23945	Malheur	Old Oregon Trail	Ontario-Snake River	14,600	14,600	14,600 Def. Jdgmt.
Spriggs, et al. R-21453	Lane	Pacific	Goshen-Divide	300	300	300 Def. Jdgmt.
Burgess, et al. R-23285	Josephine	Pacific	Jump-off-Joe-Grants Pass	150	None	153 Def. Jdgmt.

Report of Condemnation Cases Tried - June 21, 1957 to August 1, 1957, Cont'

Case	County	Highway	Section	State's Offer	Defendant's Demand	Verdict
Ewers, et al. R-23321	Josephine	Pacific	Jump-off-Joe-Grants Pass	$ 8,500	$ 8,500	$ 8,500 Def. Jdgmt.

(For additional details see tabulations attached to the Chief Counsel's letters of August 2 and 6, 1957, entitled "Report of Cases Settled", in the General Files).

In conformity with a resolution adopted by the Commission on December 20, 1951, the Chief Counsel presented offers that have been tendered for acquisition of real property prior to the institution of condemnation proceedings, as follows:

Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway

R-25016 - Harold L. Jones, et al. 7,500 square feet for right of way purposes. Offer of $8,650.00 approved by Mr. McIver July 15, 1957.

R-26151 - Fred Orval Pliley, et ux. 13,300 square feet for right of way purposes. Offer of $7,500.00 approved by Mr. McIver July 3, 1957.

R-26153 - John A. Stone, et al. 0.25 acre for right of way purposes. Offer of $42,000.00 approved by Mr. McIver July 3, 1957. An offer of $32,500.00 was previously authorized by Mr. McIver May 29, 1957. This increase is due to additional appraisals.

R-26170 - Norman C. Hill, et ux. 0.04 acre for right of way purposes. Offer of $200.00 approved by Mr. McIver July 3, 1957.

R-26411 - Ira R. Lyon, et al. 0.23 acre for right of way purposes and 0.4 acre for a perpetual easement for the construction and maintenance of slopes of cuts or fills. Offer of $8,500.00 approved by Mr. McIver July 3, 1957.

North Jefferson Junction-Albany Section of the Pacific Highway East

R-25470 - John D. Nelson, et al. 0.94 acre (net) for right of way purposes. Offer of $2,000.00 approved by Mr. McIver July 26, 1957.

R-25535 - P. W. Drushella, et al. 1,000 square feet for right of way purposes. Offer of $100.00 approved by Mr. McIver July 9, 1957.

R-26449 - John M. Brenneman, et ux. 0.11 acre for right of way purposes. Offer of $1,200.00 approved by Mr. McIver July 3, 1957.

R-26450 - Frank Flamme, et ux. 0.05 acre for right of way purposes. Offer of $975.00 approved by Mr. McIver July 3, 1957.

R-26451 - Bernard Sudtell, et ux. 0.09 acre for right of way purposes. Offer of $270.00 approved by Mr. McIver July 3, 1957.

R-26492 - Armine Cooper, et ux. 0.07 acre for right of way purposes. Offer of $210.00 approved by Mr. McIver July 3, 1957.

Sandy-Forest Boundary Section of the Mt. Hood Highway

R-25551 - Marie E. Koennecke, et vir. 3.72 acres for right of way purposes. Offer of $875.00 approved by Mr. McIver July 15, 1957.

R-25566 - Harry Hanson, et al. 0.20 acre for right of way purposes. Offer of $280.00 approved by Mr. McIver July 12, 1957. An offer of $200.00 was previously authorized by Mr. McIver May 31, 1957. This increase is due to revision of appraisals to include fruit trees.

R-25697 - Sarah Carey, et al. 0.36 acre for right of way purposes. Offer of $160.00 approved by Mr. McIver July 12, 1957.

Moro-Kent Section of the Sherman Highway

R-25628 - Unknown Heirs of Anton C. Young. 0.02 acre for right of way purposes. Offer of $50.00 approved by Mr. Reynolds July 25, 1957.

R-25630 - T. W. Alley, et al. 3.88 acres for right of way purposes. Offer of $1,484.00 approved by Mr. Reynolds July 12, 1957.

R-25632 - United States National Bank of Portland, et al. 9.22 acres for right of way purposes. Offer of $1,693.00 approved by Mr. Reynolds July 12, 1957.

Ontario-Snake River Section of the Old Oregon Trail Highway

R-23928 - Joseph P. Spencer, et al. 0.50 acre for right of way purposes. Offer of $6,048.00 approved by Mr. Reynolds July 17, 1957.

Ontario-Snake River Section of the Old Oregon Trail Highway - Cont.

R-25843 - Oliver C. Calhoun, et al. 63.5 acres for right of way purposes. Offer of $9,335.00 approved by Mr. Reynolds July 12, 1957.

Myrtle Creek-Canyonville Section of the Pacific Highway

R-26509 - Lois M. Clough, et al. 2.0 acres for right of way purposes. Offer of $500.00 approved by Mr. McIver July 12, 1957.

Grants Pass (6th and 7th Sts.) Section of the Pacific Highway

R-23338 -Milo J. Davis, et al. 0.12 acre for right of way purposes. Offer of $11,475.00 approved by Mr. McIver July 12, 1957.

R-26498 - King Lumber Co. 113 square feet for right of way purposes. Special benefits to remaining property exceed value of property sought, therefore, property owner was advised accordingly. Approved by Mr. McIver July 10, 1957.

Mill City-Gates Section of the North Santiam Highway

R-25972 - Ray S. Peterson, et al. 0.03 acre for right of way purposes. Offer of $500.00 approved by Mr. McIver July 17, 1957.

Sunset Highway (Highlands Interchange)

R-26190 - C. William Kempthorn, et ux. 0.20 acre for right of way purposes. Offer of $1,000.00 approved by Mr. McIver July 26, 1957.

The Chief Counsel presented a written report concerning orders issued by the Public Utilities Commissioner in proceedings in which the State has been made a party, which orders have been issued subsequent to his report on June 21, 1957. The orders are summarized as follows:

PUX 215: Application of Southern Pacific Company for authority to construct grade crossings across Market Road No. 16, near Clackamas, in Clackamas County. The application covered the installation of spur tracks and will involve crossings of the roadway on which the mainline crossings was ordered closed in connection with the Clackamas Overcrossing project. No objection was made to the issuance of a proper order.

PUX 217: Application of Southern Pacific Company to vacate a prior order authorizing construction of a track across Market Road No. 16, near Clackamas, in Clackamas County. This is a companion proceeding to PUX 215, and no objection was made to the issuance of a proper order.

PUX 221: Application of Brooks-Scanlon, Inc., for authority to construct a private road overcrossing over the Century Drive Highway near Bend, in Deschutes County. Plans for the structure have been approved by the State Highway Bridge Engineer and the entire cost is to be borne by Brooks-Scanlon. No objection was made to the order.

PUX 222: Application of Brooks-Scanlon, Inc., for a private crossing on the Skyliners Road in Deschutes County. This is a county road and the Commission does not participate except that the plans for an overcrossing structure were approved by the Commission's Bridge Engineer.

PUX 223: Application of Highway Commission for a relocated crossing of the tracks of Oregon-Washington Railroad & Navigation Company, Union Pacific Railroad Company, Lessee, south of Grass Valley on the Sherman Highway in Sherman County. This involved a slight relocation of a section of the highway under contract between Grass Valley and Kent. After construction the railroad will maintain its facilities and the Highway Commission will maintain the highway crossing, including the area between the tracks and the railroad.

PUX 224: Application of Brooks-Scanlon, Inc., for a private road overcrossing over the Santiam Highway, near the town of Sisters, in Deschutes County. Plans for modifying the existing railroad structure for truck hauling were approved by the Commission's Bridge Engineer. All costs are to be borne by Brooks-Scanlon, including maintenance.

PUX 225: Application of Brooks-Scanlon, Inc., for a private truck road overcrossing over the McKenzie Highway, near the town of Sisters, in Deschutes County. The facts in regard to this crossing are the same as those pertaining to PUX 224.

PUX 226: Application of the State Highway Commission for a second crossing of the revised location of the Columbia River Highway, 1.4 miles east of Mosier, known as the Second Shogren Overcrossing in Wasco County. This structure will provide a four-lane crossing over the Oregon-Washington Railroad & Navigation Company and the Union Pacific Railroad Company tracks, without cost to the Railroad Companies.

PUX 228: Application of Inman-Poulsen Timber Corporation to cross Lincoln County Roads Nos. 602 and 607, in Lincoln County. These crossings involve county roads only and no objection was made to the issuance of a proper order.

PUX 230: Application of Union Pacific Railroad Company for authority to abolish an overcrossing of its tracks by a county road near Stanfield, in Umatilla County. This matter involves elimination of an existing overcrossing structure and substitution of the use of a parallel road. Umatilla County gave its consent and no objection was made to the issuance of orders which might be proper.

PUX 231: Application of Brooks-Scanlon, Inc., for a private road crossing at grade with the so-called Three Creeks Lake Road, near Sisters, in Deschutes County. This involves conversion from railroad log hauling to truck log hauling between Bend and the Sisters area. No objection was made by Deschutes County and no objection was made by the State to the issuance of proper orders.

PUX 235: Application of Southern Pacific Company for authority to construct a crossing at grade across 9th Street in West Salem. The City of Salem did not oppose the application and the State made no objection to the issuance of proper orders.

PUX 237: Application of Southern Pacific Company for authority to construct a crossing at grade of Seneca Road in Eugene. The City raised no objection to the application and no objection has been made by the State.

PUX 244: Application of Southern Pacific Company for authority to relocate an industrial spur track across 14th Street in Salem, in Marion County. The City made no objection to the relocation and no objection was made by the State.

Written reports were presented by the Chief Counsel concerning the institution of the following cases against the State Highway Commission:

1. Lanta M. Burnside vs. Marjorie Hewitt, et al. including State of Oregon, by and through its State Highway Commission.

2. Case of John F. Toohey and Ora Toohey vs. the State of Oregon.

3. Coos Bay Oyster Cooperative vs. State of Oregon.

4. T. R. Gage, et al, vs. State of Oregon.

The Chief Counsel advised further that action has been taken to protect the interests of the State in each of these cases. The Commission accepted the reports.

The Chief Counsel reported orally concerning the Stumbo Case on the Pacific Highway in southern Oregon. Action has been taken, he stated, to defeat the claim of the Stumbos that the value of the property being acquired from them should be determined in two-inch squares.

Concerning the Katherine Moore case on the Pacific Highway at Wolf Creek, the Chief Counsel reported that action is being held in abeyance as her attorney wishes to contact the Chief Counsel in the near future. The Engineer commented that the fence in front of Mrs. Moore's place, which she had torn down, has been replaced with a fence 42 inches high. Mrs. Moore, however, still has her signs up concerning the fence and has also erected a new one that is not complimentary to him.

Concerning the Moore case at Crown Point, involving concession privileges, the Chief Counsel advised that the case has been refiled in court.

Employment of James R. Kuhn, Jr., as an attorney in the Legal Division at $575.00 per month, effective August 1, 1957, was recommended by the Chief Counsel. He pointed out that since Mr. Robert L. May resigned there has been a vacancy in the Legal Staff. The Commission approved hiring of Mr. Kuhn at the salary recommended.

The Commission discussed a written report of condemnation cases tried, submitted by the Chief Counsel, covering the period of July 1, 1956 to June 30, 1957. The Chief Counsel pointed out briefly that total verdicts were 29.96 percent in excess of offers made by the State and were 45.75 percent less than the total demands made by property owners. The Commission accepted the report.

The Commission gave attention to a proposed settlement of the case of State vs. Blanche Tipton and Glenn L. Young, et al, involving the conveyance of two parcels of land to said parties as part of the settlement. The Chief Counsel reported that subsequent to his written report to the Commission he had received a letter from Mrs. Tipton advising that she would not settle as previously agreed. There has been no time to conduct any negotiations in the matter since receipt of her letter and he recommended that the Commission give him authority to proceed with legal action if such is necessary. The Commission signed the Bargain and Sale Deed, which was a part of the previously agreed upon settlement, but instructed that it be withheld if Mrs. Tipton still refuses to settle as agreed. Authority was given the Chief Counsel to take such legal action as is necessary.

The Chief Counsel presented for consideration, forms involving vacation to the State of portions of 6th and 7th Streets adjoining the Klamath-Falls-Lakeview Highway near Lakeview in O.V.L. Plat in Lake County, Oregon. The State maintains a maintenance headquarters on land adjoining the streets to be vacated. Upon his favorable recommendation, the Commission approved a "Notice of Application to Vacate", a "Petition", and a "Consent to Vacation".

The meeting recessed for luncheon at 12:00 noon and reconvened at 1:30 p.m. in the same room, with the same persons present and participating.

The Engineer presented to the Commission for approval several copies of a letter from the U. S. Forest Service programming $100,000 for surveys on forest road projects. The Commission signed the letter.

The Chief Counsel reported briefly on an organizational meeting of the Highway Interim Committee which was held recently. The Commission accepted the report.

The Engineer reported that under authority previously granted him by the Commission he has awarded contracts referred to him by the Commission to award when certain conditions had been satisfied. These conditions have been met and the following contracts have been awarded:

(1) Grading and oiling the John Day (S. W. 2nd Avenue-South City Limits) Section of John Day-Burns Highway, Grant County. Bids received June 27, 1957. Conditions of award satisfied July 2, 1957. Cartwright Construction Company, Durkee, low bidder.

(2) Grading, paving the Clackamas-Boring Road at Boring, Clackamas County. Bids received June 27, 1957. Conditions of award satisfied July 2, 1957. Oregon Asphaltic Paving Company, Portland, low bidder.

(3) Grading S. W. 14th Avenue-Washington County Line Section of the Portland-Salem Expressway near Portland, Multnomah County. Bids received May 16, 1957. Conditions of award satisfied July 3, 1957. G. D. Dennis & Sons, Portland, low bidder.

(4) Oiling the West Unit, Heppner-Forest Boundary Section of the Willow Creek Road, Morrow County. Bids received June 6, 1957. Conditions of award satisfied July 3, 1957 Barney Helser Rock Production, Beaverton, low bidder.

(5) Construction of five undercrossing structures on North Jefferson Junction-North Albany Section of the Pacific Highway, Marion and Linn Counties. Bids received June 27, 1957. Conditions of award satisfied July 5, 1957. F. H. McEwen, Eugene, low bidder.

(6) Oiling on nine roads near Terrebonne, Redmond and Bend, Deschutes County. Bids received June 27, 1957. Conditions of award satisfied July 8, 1957. The Central Heating Co., Ore. Ltd., Eugene, low bidder.

(7) Construction of Wallowa River and Hurricane Creek Bridges near Enterprise on Fish Hatchery County Road, Wallowa County, Bids received June 27, 1957. Conditions of award satisfied July 8, 1957. Messrs. Harold E. Ray and L. O. Fusby, Hermiston, low bidder.

(8) Grading and oiling Glasgow Road near north end of McCullough Bridge over Coos Bay, Coos County. Bids received June 27, 1957. Conditions of award satisfied July 15, 1957. Sig Andersson, North Bend, low bidder.

(9) Grading the North Unit, SPRR Overcrossing-Santiam Junction Section of Pacific Highway, Linn County. Bids received June 27, 1957. Conditions of award satisfied July 16, 1957. Henry H. Miller Contractors, Inc., Roseburg, low bidder.

(10) Grading and paving the Gates Truck Scale Site on North Santiam Highway, Marion County. Bids received June 6, 1957. Conditions of award satisfied July 19, 1957. Warren Northwest, Inc., Portland, low bidder.

(11) Grading and paving the North Unit, Grass Valley-Kent Section of the Sherman Highway, Sherman County. Bids received June 6, 1957. Conditions of award satisfied July 19, 1957. Central Paving Company, Independence, low bidder.

(12) Construction of the Pudding River and Beaver Creek Bridges in Marion County. Bids received June 27, 1957. Conditions of award satisfied July 23, 1957. Valley Construction Company, Portland, low bidder.

(13) Grading and paving 102nd Avenue-122nd Avenue Section of N. E. Glisan Street, Multnomah County. Bids received June 27, 1957. Conditions of award satisfied July 23, 1957. Rogers Construction Company, Portland, Low bidder.

The Commission confirmed the awards as presented.

The Commission gave attention to a report submitted by the Engineer concerning a request made by a delegation which appeared before the Commission on June 28, 1957, for construction of turnouts on the southerly 11-mile section of the Alsea-Deadwood Highway in Lane County. He said that an investigation that was made indicated the necessity of constructing 33 turnouts which are estimated to cost $5,500. He gave as his opinion that the turnouts are justified for the safety of a school bus which operates over this section twice daily, and especially in view of increased operations in logging and lumbering. He also said that the Erskine Lumber Company which has opened up a quarry four miles north of the Siuslaw Highway has offered to furnish the necessary crushed rock to surface the turnouts and has also offered the use of a bulldozer. He asked the Commission to confirm an expenditure of $2,500 which he has ordered to enable the work to be started before the school term begins in September, and to authorize an amount of $3,000 in the Minor Betterment Budget for 1958 to complete it. The Commission approved the project as presented.

The Engineer reported that construction work on widening of the roadway of the Ross Island Bridge in Portland has necessitated the designation of a speed limit of 20 miles-per-hour, and he recommended that such reduced speed zone be approved effective 9:00 a.m. July 19, 1957, to remain in effect until completion of construction. The Commission confirmed placement of the reduced speed zone.

Attention was given to a report submitted by the Engineer concerning an item of unfinished business from the previous meeting pertaining to improved signing in Portland and at Valley Junction. The Engineer recalled that a delegation representing the Salmon River Highway Association had requested additional signing in these two areas, calling attention to beaches near and south of Otis Junction. The Traffic Engineer, he stated, made a complete investigation and the only changes recommended are in the sign at Valley Junction, which now reads "Newport, Neskowin, Grand Ronde", to read "Newport, Neskowin, Oceanlake", and that the sign at the junction of the Sunset and Tualatin Valley Highways which reads "Astoria, Tillamook, Cedar Hills" be changed to read "To the Coast and Cedar Hills". He pointed out that in signing the Portland area, it is not possible to delineate the various towns along the coast, so proper signing should indicate "To the Coast"; then when major junctions are reached, definite names be used. This method, he added, is a nationwide practice. The Commission approved the changes as suggested and ordered that other signs remain as they are.

The Commission gave attention to a report submitted by the Engineer concerning a proposed one-way couplet route for the Pacific Highway in Roseburg, utilizing Rose and Stephens Streets. He pointed out that at a hearing held in Roseburg on June 20, there was not a great amount of support for the proposed plan and two people offered objections, one because of the noise at the Junior High School and the other who suggested an alternate route. He recommended that as a result of the hearing and the evidence presented, that the city be advised that the Commission will enter into an agreement and proceed with construction of the Rose and Stephens Streets couplet if and when requested by the City of Roseburg. The Commission approved the recommendation. (See notes of the Roseburg hearing in the minutes of the Highway Commission meeting held on June 27, 1957.)

The Commission also considered a report submitted by the Engineer concerning a public hearing held in the City of Sandy concerning improvements to the Mt. Hood Highway in that vicinity. A public hearing, the Engineer stated, was held in Sandy on July 24, 1957, and no objections had been made to the proposed improvement. He recommended that authority be granted to advertise for bids for construction as soon as plans are completed. The Commission granted the authority. There follows a transcript of the record of the Sandy hearing:

Sandy, Oregon
July 24, 1957

A public hearing was held at 10:00 a.m. in the Sandy grade school, City of Sandy, pertaining to revisions in alignment of the Mt. Hood Highway between Sandy and Alder Creek, approximately 8.5 miles east of Sandy. The following State Highway personnel were present:

W. C. Williams, State Highway Engineer
A. G. Skelton, Division Engineer

D. J. Barbee, Assistant Construction Engineer
A. V. Benedict, Assistant Division Engineer
Willard Scofield, Locating Engineer
Floyd Query, Assistant Secretary
Frances Patrick, Stenographer

Present representing the U. S. Bureau of Public Roads was Mr. Theodore Dec, Planning Engineer.

Also present were fourteen local people.

Mr. Williams explained that the hearing is being held as required by Federal and State laws, to allow interested persons to express their opinions on the proposed highway changes. He called attention to detail maps which had been posted on the walls of the building, showing the proposed routing. The project is divided into three sections, the first being from Sandy to Firwood, the second from Firwood to Cedar Creek, and the third between Cedar Creek and Alder Creek. There are no changes in highway location within the city, but he explained that additional right of way will have to be acquired to provide for a four-lane highway with necessary shoulder areas. He detailed a typical section for a four-lane highway and stated that the opposing traffic lanes are planned to be separated by raised asphalt bars. Improvement of the Mt. Hood Highway, he stated, has been made necessary because of increased recreational and commercial traffic. He called for comments from anyone either for or against the proposed improvements within the city.

Mr. Ruben Hoffman, Mayor of the City of Sandy, stated that concern is felt about the cost of moving water mains which lie within the State Highway right of way. Mr. Williams replied that the mains would be moved at State expense and without cost to the city. Mr. Frank Rehberg, Sandy City Recorder, commented that the city has been provided with maps and information concerning the proposed improvement and he felt that cooperation between the city and Highway Department had been excellent.

Mr. John E. Mills, member of the Sandy Chamber of Commerce and a Sandy businessman, inquired as to the State's procedure in acquiring right of way. Mr. Williams explained that properties are valued by at least two appraisers and where the valuation is in excess of $10,000, outside appraisers, who are licensed real estate appraisers, are called in to determine values. Appraisals are made on the value of the property acquired plus damages to remaining property which in effect is the value of the property before and after the taking for right of way purposes. If a price cannot be agreed upon, conde nation proceedings are then undertaken and a jury of twelve people decide how much should be paid for the property. He pointed out that approximately 90 percent of all right of way is acquired by negotiation, and of the remaining 10 percent, an agreement is reached in about half of the cases before they actually come to court.

Mr. Mills then commented that some property owners have been contacted and property acquired, whereas others have not been approached.

Mr Williams replied that right of way agents are few in number and may have worked on this project at intermittent intervals as contracting for construction is not scheduled until this fall.

Mr. Duane S. Knapp, Sandy City Councilman, inquired if it would be possible to move the old water main or to install a larger line if the city so wished. Mr. Williams stated that the Commission has an established policy that all moving costs will be paid by the State, but if the city wishes to install new pipe, they may do so by paying for the pipe.

Mr. Mills then inquired if this section is to be restricted as to access. Access, Mr. Williams replied, will be controlled but the highway will not be considered as a freeway. Each adjoining property owner will have access to the highway and the deeds for right of way acquired will designate the accesses to be allowed. In the Government Camp area, commercial access has been restricted on the new road for approximately two miles because business establishments are, or may be located on the old roadway which will be retained as frontage road. Mr. Mills inquired as to what disposition would be made of the existing highway through Cherryville This road, Mr. Williams replied, will become a county road and will be maintained by Clackamas County.

Mr. Knapp commented that although he does not always agree with decisions made by the Highway Commission, he did have a great deal of respect and admiration for the Department, for the high type of highways constructed and the honesty displayed in highway operations. He stated that in selling a parcel of his property for highway purposes, the deed had stipulated access for certain purposes. He inquired as to whether access could be granted, for instance, to a metal working plant which might be located at a later time. Mr. Williams stated that the type of option form which Mr. Knapp had signed has been changed by the Commission to remove certain restrictions as to the use of the access and has also removed the provision requiring posting of a bond. He made it clear that access restrictions on this section of highway are not designed to restrict development.

Mr. Mills then inquired concerning extension of a county road from Sandy northerly to the Columbia River Tnis road, Mr. Williams stated, is a county road and no plans that he knew of had been made for its development or extension The Highway Commission has followed a policy of developing existing secondary state highways before adding new ones. The County Court, he continued, has authority to request additions to the Federal Aid Secondary system if there is a need.

He invited those present to examine the detailed maps attached to the walls to determine how the proposed highway construction would affect their properties. He then stated that unless someone else wished to talk on the subject or ask questions, the meeting would be adjourned. There

being no further comments or questions, the meeting was adjourned at 10:35 a.m.

W. C. Williams
State Highway Engineer

Floyd Query
Assistant Secretary

In discussing the hearing in Sandy, the Engineer reported that the matter of access had been brought up by one of the people who attended the hearing, who inquired if industrial access would be granted to a metal-working plant which might be located along this section near Sandy at a later time. This matter, the Engineer stated, had been discussed subsequently with the Chief Counsel and the Right-of-Way Engineer and it appears that modifications recently approved by the Commission in the option form would still prohibit industrial development in this particular case. It was his feeling that such a development should be allowed in this area as the highway is not intended as a freeway, and were access not allowed it would affect the economical development of the district; moreover, it would be very costly to provide two highways. The Commission deferred action in this matter pending further study.

A tabulation of statistics from the Weighmaster's records for a three-month period from April through June for the years 1953 through 1957 was presented by the Engineer. He pointed out that the percentage of violations has been reduced slightly to a point where it is lower than at any time since 1953. Chairman Reynolds inquired as to how long the local justices of the peace could hold up cases concerning fine for local hauling operations. The Chief Counsel replied that this subject is one that the I nterim Committee will probably consider as they had indicated that the justices of the peace should have some discretion in this matter which they do not now have under existing law. The Commission accepted the report.

An item of unfinished business concerning access to the R. H. Baldock Freeway at Norwood Road was discussed. The Engineer explained that Mr. Willard L. Archer has again requested access at Norwood Road and has questioned the accuracy of the Traffic Engineering study conducted in 1955. He said that another study was made during the month of June at three interchanges, as well as at the Norwood Road, which revealed the following: Traffic crossing the Norwood Road overcrossing did show an increase from 270 vehicles in 1955 to 376 vehicles in 1957. However, the traffic pattern at the nearby interchanges did not indicate that this traffic was destined for the Freeway. It appears that there has been no change in the traffic pattern sufficient to justify access at Norwood Road, and he recommended that the request be denied. He suggested that Mr. Archer be

advised of the exact method of arriving at these traffic computations and the fact that he could not check them exactly by simply using the work sheets as used in the field. The Commission approved his recommendation.

A request was considered from the Standard Oil Company for access to the new Mt. Hood Highway at its junction with Timberline Lodge Road near Government Camp. The Engineer exhibited a map showing the plan of the highway improvement and the location of the proposed access. He pointed out that in buying rights of way for the Government Camp by-pass, all rights of commercial access were acquired on the basis that the present road through Government Camp would be retained as a frontage road and that traffic service can be obtained along the old road. Furthermore, such action would protect to some extent the investment of existing businesses at Government Camp. If commercial access is to be granted now on the section where access rights were acquired, there would be an immediate demand for other business to move onto the new highway, and the by-pass instead of being a freeway, would become another congested area such as exists in Government Camp. He recommended that the access to U. S. 26 be denied. The Commission denied the request.

The Engineer submitted a report concerning improvement of the Monmouth-Independence Highway in Monmouth easterly from US 99 W to the east city limits, approximately four blocks long. He pointed out that the matter had been considered in 1951 and that a recommendation made at that time that the project be considered at an early date. Another investigation made recently indicated that the present cost for the project will be approximately $36,000. As the traffic over the section is approximately 4,000 vehicles per day, and the narrow pavement and shoulders do create a hazard, he recommended that consideration be given to this project in an early construction program using Federal funds, provided the city will pay 25 percent of the cost of widening. He also recommended that the city not be required to pay any portion of the cost of resurfacing the existing street. The Commission adopted both recommendations.

The Engineer also reported that under authority previously granted by the Commission, he has reclassified the following sections of State Highways:

1. Crater Lake Highway from its junction with the southerly end of the West Diamond Lake Secondary Highway to the park boundary, from Group II to Group I, effective June 25, 1957.

2. Woodburn-Estacada Secondary Highway from the road to Carver at M.P. 34.14 to a junction with the Clackamas Secondary Highway in Estacada, M. P. 34.19, from Group II to Group I, effective June 25, 1957.

3. Siletz Secondary Highway from M.P. 23.85 in the City of Siletz, to a junction with the Corvallis-Newport Highway, M.P. 31.73, from Group III to Group I.

4. The O'Neil Secondary Highway over its entire length from the junction with The Dalles-California Highway to the junction with the Ochoco Highway in Prineville, from Group III to Group I.

On each of these sections, the Engineer continued, test runs were made with appropriate equipment and it was found in each instance that the equipment could negotiate existing curves without encroaching on the opposing traffic lane. The Commission confirmed the reclassifications as presented.

Consideration was given to a request from Mr. Ferd W. Jones, City Recorder of Gold Hill, that old Highway 99 from Rockpoint through Gold Hill be designated as Alternate 99 or Business Route 99, or just Highway 99, naming the by-pass as Alternate 99. The Engineer stated that no recommendation can be made at this time and he requested authority to make an investigation and submit a report. The request was approved.

Items of unfinished business as shown on the Secretary's Summary dated June 28, 1957, were considered as follows:

1. Request that the name of Big Creek State Park be changed to Waconda Beach State Park: This item was ordered deleted from the list of unfinished business as action was taken earlier in the day.

2. Request of Mr. Willard L. Archer for access to the R. H. Baldock Freeway at Norwood Road: This item was also ordered deleted as a report had been presented earlier in the day.

3. Sale of highway bonds for general construction and for construction of the Oregon Coast Highway in Curry County: The Engineer reported that the bond market is not favorable at this time. It was his opinion that the construction program could be maintained until April 1958 if $4,200,000 of bonds are sold soon. In discussing this matter, Commissioner McIver pointed out that under the law, bonds cannot be sold if the interest rate goes above 4 percent. It was his opinion that bonds should be sold as they are needed in order to maintain the construction program. Another way of looking at this, he continued, would be to sell all of the bonds now and reinvest the excess funds. The Commission deferred action on the sale of bonds until the September meeting. This item is to remain on the list of unfinished business.

4. Request of Clatsop County that the State take over as a parking area a section of county road near Hugg Point south of Cannon Beach: The Park Superintendent stated that he had looked over the area but investigation had disclosed that there are some restrictions on the property being considered. It was his opinion that he could present a final report at the September meeting. This matter is to remain on the list of unfinished business.

5. Request of the City of Monmouth for improvement of the Monmouth-Independence Highway from its junction with US 99W to the easterly

city limits of Monmouth: The Commission ordered this item deleted from the list as action was taken earlier in the day.

6. Request of delegation for intermittent widening and placing of gravel on an eleven mile section of the Alsea-Deadwood Secondary Highway, north of the Siuslaw Highway: This item was also ordered deleted as a report was made earlier in the day.

7. Request of Salmon River Highway Association for improved signing in Portland and at Valley Junction. This item was ordered removed from the list of unfinished business as a report had been made earlier in the day.

The Commission gave attention to a request from J. O. Young & Sons, Contractors of Nampa, Idaho, that their low bid submitted June 27, 1957 for construction of the Black Bridge-Richland Project be rejected and that they be relieved from payment of the bid bond tendered at that time because of an error in their bid. The Engineer explained that when bids were received on June 27, 1957 for remodeling of the Eagle Creek Bridge, J. O. Young & Sons submitted a low bid in the amount of $25,879.50. The second and third low bids were $44,980 and $48,622, respectively. The State's estimate for the project was $38,547. The contractor alleges that the cost to furnish and erect steel was omitted from their bid price. It is evident, the Engineer, continued, from the amount which they bid on this project that an honest mistake was made in computing the bid and he recommended that they be relieved from payment of their five percent bid bond which amounts to $1,293.98. The Commission accepted his recommendation and so ordered.

Attention was given to a proposed agreement with Saint Paul Mercury-Indemnity Company, Surety for Jack Robinson, Inc., on his defaulted contract No. 4648 for grading and topping the Ukiah-Forest Boundary Section of the Ukiah-Hilgard Highway in Umatilla County. The Engineer explained that the agreement has been prepared to outline things that are to be done by the State and the Surety in order to complete this job. The work completed under the old contract and to be completed under a new contract has been remeasured and it is planned to receive bids and award the contract at the September meeting for performance of the balance of the work. He also pointed out briefly that under the terms of the agreement, the Surety agrees to reimburse the State for extra cost above the original contract price and extra engineering cost as well as the sum of approximately $7,500 for maintenance work performed by state forces on the project. Following his favorable recommendation, the Commission approved the agreement.

The Commission considered a request from Yaquina Head Grange No. 934 for installation of rest room facilities and improvement of the lower portion of the trail leading to the beach at Agate Beach, in Lincoln County. The Engineer recalled a previous agreement with Lincoln County whereby the County assumed maintenance of the footpaths. It was his opinion that construction of rest rooms at this location would not solve the problem of

sanitation as they would be located several hundred feet from the beach and accessible by a steep trail. He also pointed out that sanitary facilities have been provided in seven state parks within a distance of sixteen miles. The Commission accepted his recommendation that the request for rest rooms and improvement of the trail be denied.

The Commission also considered a request from the City Manager of Sweet Home that measures be taken to eliminate traffic hazards at the intersection of "M" Street (US 20) and Holley Road, (ORE 228) in Sweet Home. An investigation was made by the Traffic Engineer, the Engineer stated, and it was found that it is not possible to maintain a stop sign in a position where it is readily visible to traffic approaching the intersection from Holley Road. He recommended and the Commission approved installation of a flashing beacon at this intersection at an estimated cost of $600, the cost of the installation to be borne by the State, and the City to maintain the beacon and pay for the electrical energy consumed in its operation. The Commission approved the installation on such basis.

A proposed cooperative project among Southern Oregon College of Education at Ashland, the City of Ashland, and the State was discussed. The Engineer advised that the college has recently constructed a gymnasium and athletic field on the easterly side of the street which carries US 99 traffic through Ashland, whereas, the main college buildings are on the westerly side of the street and as a consequence there is a large volume of pedestrian traffic across the street. Negotiations have been underway for an overpass or an underpass for pedestrian use but it is costly and the college was not able to finance its portion. Plans have been worked out, however to install a pedestrian-operated traffic signal at this crossing, at an estimated cost of $9,000, one-third of which is to be paid by the College, one-third by the City of Ashland and one-third by the State. The Engineer recommended approval of an agreement on such basis. The Commission accepted his recommendation.

Consideration was given to a request from the City of Portland that the State participate with the City in the installation of traffic signals on the Beaverton-Hillsdale Highway at its intersection with S. W. Sunset Boulevard and on the Oswego Highway at its intersection with S. W. Mitchell Street. The two intersections, the Engineer stated, have been under investigation for sometime and it has been determined that the signals are needed. He recommended, therefore, that a semi-actuated traffic signal be installed at the intersection of the Beaverton-Hillsdale Highway and S. W. Sunset Boulevard at an estimated cost of $4,000, the cost to be borne equally by the City and the State and that a pedestrian-actuated signal be installed on the Oswego Highway at Mitchell Street at an estimated cost of $1,500, the cost to be borne equally by the City and the State and the City to maintain the signals and provide electrical energy to operate them. The Commission approved the installations as recommended and ordered that appropriate agreements be prepared covering these two installations.

The matter of extending a cooperative project with the Surface Water Branch of the U. S. Geological Survey to secure data on stream discharges

from small drainage areas was considered. The Engineer explained that for the past six years this cooperative project has been underway in which the State has contributed $5,000 annually and the Federal Government has contributed a like amount. The current agreement expired June 30, 1957. It was his opinion that the program has been of great value to the State, particularly in proportioning minor drainage structures to the need of the particular area. The Assistant Engineer, Mr. G. S. Paxson, pointed out that the data assembled enables construction of proper sized drainage structures and largely eliminates the cost of replacing undersized facilities and also prevents construction of drainage facilities larger than is necessary. He also said that the State of Washington conducts an extensive program in this regard and that the State of Georgia expends approximately $20,000 annually for such data. The Engineer stated that it is advisable to extend the study in western Oregon and also to cover selected sites in eastern Oregon. He recommended that the program be continued for a five-year period on the basis that the State contribute $7,500 annually, to be matched by a like amount from the Federal Government. The Commission approved the recommendation.

The Engineer requested to increase the project authorization in connection with Contract No. 4920 for construction of the Glover Overcrossing structure on the Old Oregon Trail Highway in Union County by an amount of $10,756. The overrun, he stated, was caused by the necessity to place additional piling under bents 2 and 3 and additional excavation work at bents 4 and 5. The Commission approved the increase.

Attention was given by the Commission to an assessment notice received from the City Recorder of Sutherlin in the amount of $332.50. The Engineer explained that the State owns a stock-pile site on Central Avenue in the city of Sutherlin, consisting of eight 25 foot lots. In 1956 the city constructed a sanitary sewer along Central Avenue and assessments made against abutting property which in the case of the state property amounted to $332.50 plus interest--a total of $364.00. He recommended that the assessment as submitted be paid and that when the materials on the stock pile site are exhausted that the eight lots be offered for public sale inasmuch as other stock pile sites consisting of less valuable property are available in the vicinity. The Commission approved his recommendation.

The Engineer reported that under authority previously granted by the Commission, he has conducted surveys for reconstruction of several state highway sections. These surveys, he continued, have been completed and they represent the most feasible plan for reconstruction, considering the benefit to the traveling public and the cost of the projects. He recommended approval of the following surveys:

1. Hay Canyon-John Day River Section of the Wasco Heppner Highway in Sherman County. (The Right of Way Engineer was authorized to negotiate acquisition of right of way for this project.)

2. Grand Avenue-Union Avenue one-way couplet section on the Pacific Highway East in the city of Portland. On this project, the

Commission approved a cost breakdown as follows and authorized acquisition of right of way:

Construction	$ 38,000
Right of Way	25,000
Signals	52,000
	$115,000

Participation in cost:

Construction - State and Federal Aid	$ 30,000
State (resurfacing)	8,000
Right of Way - State and Federal Aid	25,000
Signals - City of Portland	26,000
State	26,000
	$115,000

3. Pleasant Hill-Creswell Section of the Springfield-Creswell Secondary Highway in Lane County. Right of Way acquisition was authorized.

4. Hilgard-La Grande Section of the Old Oregon Trail in Union County. The Commission authorized acquisition of right of way for this project.

5. Union County Line-Rock Creek Section of the Wallowa Lake Highway in Wallowa County. Acquisition of right of way was authorized by the Commission.

The Commission approved the surveys by adopting the attached resolutions resolutions relative thereto marked EXHIBITS "I-1 " through "I-3 ", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

In connection with the survey for the Grand Avenue-Union Avenue one-way couplet in Portland, the Engineer requested authority to hold a public hearing as required by law if such hearing is requested. The Commission granted the authority.

A request was considered from the Douglas County Fair Board for landscaping improvements at the Fairgrounds Interchange on the Pacific Highway in the southerly suburban area of Roseburg. The Engineer reported that the project is desirable and he recommended that it be approved, at an estimated cost of $13,000, as an interstate highway project. The Commission approved the project.

The Engineer reported that under Oregon Law the State Treasurer has appropriated out of the highway fund, 10 percent of all monies credited to the fund between January 1 and June 30, 1957. The several cities' share from this fund totals $2,486,235.38, which he recommended be approved. The Commission approved the distribution of funds by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer also reported that a survey has been completed for the relocation of the Pacific Highway from Grants Pass easterly to Rock Point in Jackson County. He requested authority to hold a public hearing as required by law. The Commission granted the authority. The Commission took no action on the survey pending the results of the public hearing.

The Engineer asked the Commission to confirm the telephonic authority given him by Chairman Reynolds and Commissioner McIver to advertise for bids to install bank protection on the Willamette River upstream from the Harrisburg Bridge. He explained that the bridge has a long pile trestle on the southerly end and the river has cut into the bank above the bridge to such an extent that it will flow through the trestle portion during the next flood season. The Army Engineers, he said, have taken preliminary steps to provide bank protection but cannot do any of the work until next year because of lack of funds. He recalled that bids to accomplish the work were received at today's letting and that the low bid was in the amount of $28,000. The Commission confirmed its telephonic authority allowing the Engineer to proceed with the work.

The Commission considered and upon recommendation of the Engineer, granted the following requests for extensions of time within which to complete highway contracts. Reimbursement for engineering expenses and other expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted.

1. J. C. Compton Company, Contract No. 4698, for paving on West Pacific Avenue in the City of Taft in Lincoln County, requested an extension of time from September 15, 1956 to July 31, 1957. Approved to July 1, 1957, the date of completion.

2. Rogers Construction Company, Contract No. 4311, for paving on the Glenwood-North Plains Section of the Wilson River Highway in Washington County, requested an extension of time from November 30, 1955 to July 31, 1957. Approved to May 22, 1957, the actual date of completion.

3. Babler Brothers, Inc., Contract No. 4643, for oiling on the Muddy Creek and Rock Creek County roads in Baker County, requested an extension of time from August 31, 1956 to September 15, 1957. Approved to July 16, 1957, the date of completion.

4. Durbin Bros., Contract No. 4467, for grading and oiling the Deschutes River Section of the McKenzie Highway in Deschutes County, requested an extension of time from July 31, 1956 to June 15, 1957. Approved as requested.

5. Baughman & Sons, Contract No. 4869, for constructing park facilities in Honeyman State Park on the Oregon Coast Highway in Lane County, requested 16 additional work days in which to complete the contract. The Commission granted the additional work days as requested without assessment of liquidated damages, as additional work had been added to the original contract.

6. Hamilton and Thoms, Contract No. 4544, for construction of viaduct and removal of an existing overcrossing structure at Divide on the Pacific Highway in Lane County, requested an extension of time from November 30, 1956 to November 30, 1957; approved as requested.

7. R. A. Heintz Construction Co., Contract No. 4558, for grading on the Fords Bridge Unit, Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County, requested an extension of time from June 15, 1956 to July 1, 1957. Approved to June 7, 1957, the date of completion.

8. P. S. Lord Mechanical Contractors, Contract No. 4701, for construction of the Vine Maple Bridge over the Nehalem River on the Fishhawk Falls Secondary Highway in Clatsop County, requested an extension of time from August 31, 1957 to December 31, 1957. Approved as requested.

9. Tri-State Painting Co., Contract No. 4666, for painting the Ojalla and Fuller Bridges on the Siletz Secondary Highway, requested an additional extension of time from October 31, 1956 to June 15, 1957. The Commission approved the extension with the provision that State engineering costs incurred in connection with the project be assessed against the contractor during the period from October 31, 1956 to the actual date of completion of the job.

FOOTNOTE: The action taken by the Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that Contract Nos. 4467, 4558, 4618, 4643, 4666, 4690, 4698, 4726, 4754, 4765, 4792, 4799, 4804, 4809, 4812, 4821, 4830, 4839, 4841, 4844, 4856, 4863, 4866, 4867, 4869, 4872, 4882, 4887, 4892, 4893, 4899, 4900, 4902, 4903, 4904, 4905, 4907, 4914, 4918, 4924,

August 8, 1957

4933, 4934, 4954, 4957, 4967 and 4973 for Highway construction have been completed according to the requirements of the contracts or modifications thereof and that said contracts are now ready for acceptance by the Commission. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Authority was requested by the Engineer to proceed with construction of a four-lane facility on the Columbia River Highway in Multnomah County between Sun Dial and Rooster Rock, a distance of 7.64 miles. He estimated that the grading of this unit will cost about $1,700,000 and he advised that it is planned to do the work in two sections. Surveys are completed, he continued, and plans can be prepared in about ninety days. The Commission granted authority to call for bids for this project as requested.

The Commission considered requests from Polk and Wasco Counties for additions to the Federal Aid Secondary Highway system. The Engineer stated that the proposed additions to the FAS system have been examined and meet the necessary requirements. He recommended that the following additions be approved:

1. FAS 560 (Extension), 8.8 miles, Polk County: From the northwesterly terminus of 560 at its junction with the Kings Valley State Highway (FAS 190) northwesterly to Falls City and thence easterly to a junction with the Kings Valley Highway at Fern Corner.

2. FAS 706, 33.4 miles, Wasco County: From a junction with FAS 588 at a point approximately 2.4 miles northwest of Emerson, thence southeasterly, southerly and westerly to a junction with The Dalles-California Highway approximately 7 miles south of Dufur.

The Commission approved the additions as recommended by the Engineer.

The Engineer reported that Polk and Wasco Counties have requested projects to be financed with 1959 FAS funds on county roads which were added to the county system at this meeting. Upon his favorable recommendation, the Commission approved the following County FAS projects:

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Fund
Polk	560	Falls City (Luckiamute River) Bridge. Structure and grade approaches.	$ 60,000	'59
Wasco	706	Long Hollow Canyon-Hunter Ranch Section, 9 miles, grading.	82,000	'59
TOTAL ADDITIONAL 1959 FAS FUNDS			$142,000	

SUMMARY BY FISCAL YEARS

	1957 & 1958	1959	Total
Available Funds	$ 4,440,000	$3,800,000	$8,240,000
Previously Approved	4,109,000	2,103,000	6,212,000
Unprogrammed Balance	$ 331,000	$1,697,000	$2,028,000
Proposed Projects 8/1/57	- - -	142,000	142,000
Unprogrammed Balance ..	$ 331,000	$1,555,000	$1,886,000

The Commission considered a recommendation made by the Engineer that Delano Aerial Surveys, contractor for the Portland aerial photography project, Contract No. 4632, be declared in default and that the Phoenix Insurance Company, surety on the contractor's bond be notified to complete the project according to specifications. The Commission deferred action on this matter until later in the session on the advice of the Engineer, who advised that he has just received word from the contractor that he had additional information to supply, which may have some bearing on the Commission's decision. (On the following day the Engineer stated that the anticipated information has not been received from the contractor; accordingly, the Commission declared the contractor in default. See minute entry ahead.)

Authority was requested by the Engineer to install highway illumination at the Nesika Beach and Wedderburn interchanges on the Greggs Creek-Wedderburn Forest Highway Project on the Oregon Coast Highway in Curry County. He estimated the cost of the project at $6,550. The Commission approved the project as presented.

The Engineer reported that the revised location of the Oregon Coast Highway between Myers Creek and Brookings in Curry County has now been determined within fairly close limits and that the proposed route will affect the incorporated city of Brookings and two unincorporated communities, Pistol River and Carpenterville. He pointed out that, in order to satisfy the legal requirements, it will be necessary to give local people an opportunity to be heard on the subject at a public hearing. He requested authority to hold a hearing if it is requested. The Commission granted the authority.

The prohibition of parking in the median area and on the shoulders of the Oregon Coast Highway near the Green Acres Road south of Coos Bay was discussed. The Engineer explained that at this point there is a four-lane divided highway, with a median strip ranging from 4 feet to more than 50 feet in width. A field investigation disclosed that people park their cars near the intersection, restricting sight distance for vehicles entering the Oregon Coast Highway from Green Acres Road. He recommended that parking be prohibited in the median area between Engineer's Station 472+50 and 474+25, and that parking be prohibited on the esterly side of the Oregon

Coast Highway between Engineer's Station 473+00 and 474+25. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G-1", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Attention was given to the prohibition of shoulder parking on the Coos River Secondary Highway No. 241 in the vicinity of the Weyerhaeuser Timber Company access east of Allegany. The Engineer stated that an investigation disclosed that timber workers park their cars at this point during the daytime, which creates a hazard and interferes with highway maintenance and the operation of large trucks turning into and out of the highway. He recommended as a solution of the problem that shoulder parking of cars be prohibited on the southerly shoulder between M.P. 14.68 and M.P. 14.80, and on the northerly side between M.P. 14.74 and M.P. 14.80. The Comission approved such "No Parking" restriction by adopting the attached resolution relative thereto marked EXHIBIT "G-2", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Commission also considered prohibition of car parking at the intersection of the Necanicum Highway with Foss Road north of Mohler in Tillamook County. The Engineer stated that the Traffic Engineer's investigation disclosed that vehicles are parked in a triangular area formed by the separate turning legs of Foss Road at its intersection with the Necanicum Highway, and that such parking restricts the traveled area at the intersection, thereby creating a hazardous condition to the traveling public. He recommended that parking be prohibited in the triangular area formed by the intersection of Foss Road with the Necanicum Highway at M.P. 17.68. The Commission accepted his recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "G-3", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

The Engineer reported that a traffic hazard is created on the westerly side of S. W. Barbur Boulevard in the City of Portland, southerly from S. W. Hamilton Street, by reason of vehicles being parked adjacent to the highway for the purpose of selling produce. Traffic engineers from the State and from the City of Portland, he stated, investigated the situation and it was their joint recommendation that action be taken to prohibit such parking. He recommended that a "No Parking at Any Time" zone be established on the westerly shoulder of S. W. Barbur Boulevard, Pacific Highway West, in the City of Portland between a point .16 mile southerly and .27 mile southerly from S. W. Hamilton Street (M.P. 2.47, Engineer's Station 63+50, to M.P. 2.58, Engineer's Station 69+50). The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Upon the favorable recommendation of the Engineer, the Commission approved out-of-state travel expense for the following State Highway personnel:

F. B. Crandall, Traffic Engineer, and J. Al Head, Assistant Traffic Engineer, to attend the annual meeting of the Institute of Traffic Engineers, in Detroit, Michigan, September 22 - 27, 1957, at a total extimated cost of $700.

Forrest Cooper, Deputy State Highway Engineer, to attend the Executive Development Conference on Highway Management at the University of Wyoming, September 9 - 14, 1957, which is sponsored jointly by AASHO and the National Highway Users Conference, Inc. Estimated cost is $325.

Mark H. Astrup, Landscape Engineer, to attend the Sixteenth Annual Short Course on Roadside Development at Ohio State University in Columbus, Ohio, October 8 - 11, 1957, at an estimated cost of $325.

George LeTourneux, Data Processing Director, to attend IBM Customers' School on Engineering and Electronics at Endicott, New York, September 9 - 13, 1957, at an estimated cost of $294.

Payment of a claim submitted by Adren White, Coquille, for damages to his car caused by a highway section maintenance crew on the Oregon Coast Highway, about five miles south of Coquille, was discussed. The Engineer reported that from the facts disclosed by an investigation, it appears that a maintenance employee inadvertently threw a shovel full of rock onto Mr. White's car after Mr. White had been motioned by a flagman to proceed. Although the accident accurred on March 22, 1956, a receipted statement for the damage had not been received until June 28, 1957. In view of the circumstances, he recommended that Mr. White be reimbursed in the amount of $47.10, which he paid to repair the damage. The Commission approved the payment.

The Engineer reported that when the Siletz Bay-Depoe Bay Section of the Oregon Coast Highway in Lincoln County was reconstructed, the old highway through the Gleneden Beach area was turned back to Lincoln County to maintain under terms of an agreement. Subsequently the approach to Gleneden Beach was shifted northerly approximately one-quarter mile. Lincoln County has agreed to take over this additional section of highway for maintenance and an agreement has been prepared and signed by the County Court to that effect. Following his favorable recommendation, the Commission approved the agreement. In this connection, and in order to implement the terms of the agreement mentioned above, the Commission also adopted a resolution formally abandoning to Lincoln County the additional short section of highway. This resolution, marked EXHIBIT "E" is attached hereto and by this reference is made a part hereof with like effect as though extended in full herein.

In connection with reconstruction of the Goble-Tide Creek Section of the Columbia River Highway, Columbia County, the Engineer stated that three short sections of the existing road will be replaced by new alignment and that agreement has been reached with the Columbia County Court to take over as a county road the existing highway where the new alignment

departs from the present road. Upon his favorable recommendation, the Commission approved the agreement.

The Engineer also recommended approval of an agreement with Columbia County concerning county roads as they pertain to the Goble-Tide Creek project on the Columbia River Highway in Columbia County. The Engineer explained that the County has approved the construction plans, granted portions of right of way to the State involving county roads, and has agreed that no county roads will be connected to this section of highway without first securing written approval from the State. The Commission approved the agreement.

Attention was given to a petition from residents along the Klamath Falls-Lakeview Highway for an extension of the existing 35 MPH speed zone on this Highway from the U.S.R.S. canal to the junction of the Klamath Falls-Lakeview Highway with the Klamath Falls-Malin Highway. The Engineer reported that a traffic engineering investigation had been made and based on facts disclosed in this investigation it is his recommendation that a 50 MPH speed zone be established on the Klamath Falls-Lakeview Highway between a point 50 feet southeast of Patterson Street, at M.P. 4.51, and a point 0.13 mile east of the Klamath Falls-Malin Highway, at M.P. 5.62. The Commission approved such speed zone by adopting the attached resolution relative thereto, marked EXHIBIT "H-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered a request from Mrs. John R. Birenbaum, Myrtle Creek, Oregon, for establishment of a 35 MPH speed zone on the Pacific Highway in the Tri-City area south of Myrtle Creek. The Engineer recalled that this matter had been presented by petition in 1954 and that a 50 MPH speed zone had been established at that time. The section was reinvestigated and from the facts disclosed, it is his recommendation that the 50 MPH speed zone established by Speed Zone Resolution 162, dated August, 1954, be rescinded and in lieu thereof that a 45 MPH speed zone be established from the south city limits of Myrtle Creek, at M.P. T220.81, to a point 450 feet south of Riddle Junction at M.P. T224.57, except that from a point 600 feet north of Chadwick Lane to a point 100 feet north of Meadow Lane the indicated speed shall be 20 MPH during the hours of school crossings. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "H-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a form of permit granting to the Pacific Telephone and Telegraph Company permission to install a public telephone booth near the scale house at the south bound traffic scales on US 99 about five miles north of Roseburg. The Engineer advised that this is the same type of permit that the Commission previously approved for two locations on the R. H. Baldock Freeway, north of Salem. The Commission approved the permit.

The Commission considered a supplemental report submitted by the Engineer concerning the removal of posts and the parking of vehicles in an island at the intersection of the Klamath Falls-Lakeview Highway and the Klamath Falls-Malin Highway. The Engineer reviewed the matter briefly, pointing out that at the June meeting action had been taken to keep the posts in place, thereby eliminating parking in the island. Later the Klamath County Court protested the action and pointed out that during the years 1949 to 1956, inclusive, the island had been rented to an abutting property owner for parking purposes. The Court questioned why, if the island was not hazardous for parking when it was rented, is a hazardous condition created when it was not rented. The Engineer stated that a further investigation was made disclosing facts of which he had not been previously advised, including the fact that the sight posts which would eliminate parking were erected in April of this year, and the further fact that not one chargeable accident during the period of 1949 to 1956 could be attributed to parking within the island. In view of this new information, he recommended that the Commission rescind its action of June 27, 1957, and authorize removal of a number of the posts installed last April to permit access to the parking area. The Commission accepted his recommendation by adopting the attached resolution relative thereto marked EXHIBIT "G-6", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given to a claim against the Highway Commission by Mrs. R. E. Reeder, Bend, in the amount of $30.90 for asphalt damage to freshly laundered white working clothes that were hanging on her clothes line, located about 75 feet southerly from the Central Oregon Highway on Greenwood Street in Bend, when a highway crew was working in the vicinity. The Engineer stated that an investigation disclosed that a section crew was patching the highway in that vicinity using hot asphalt applied by a power spray and that Mrs. Reeder's clothes were actually damaged by operations of State Highway employees. He recommended that Mrs. Reeder be compensated in the amount of $30.90. The Commission approved the payment.

A form of contract with the Pacific Power & Light Company, Portland, for furnishing electrical energy to illuminate the Oregon Coast Highway between North Bend and Coos Bay was considered. The Engineer reported that the lighting of this section of road was authorized by the Commission on January 22, 1957. He recommended approval of the agreement with the Company. The Commission approved the agreement.

Attention was given to a proposed agreement with Weyerhaeuser Timber Company allowing the Company permission to use a power pole line constructed by the State to serve its radio station on Hogback Mountain about four miles east of Klamath Falls. The Engineer explained that the Weyerhaeuser Company has obtained a permit for a radio station and the agreement is to allow them to use the state facility to provide the electrical energy to operate the station. The company agrees to pay the State $370 per year in monthly installments of $33.00, to cover a portion of the Commission's capital investment in the power line plus maintenance. Following

the Engineer's favorable recommendation, the Commission approved the agreement.

The Engineer recommended and the Commission approved payment of dues in the amount of $2,747.00 to the Highway Research Board for Highway Research Correlation Service covering the period July 1, 1957 to June 30, 1958. The Commission also authorized the Engineer to sign the subscription in behalf of the Department.

The Commission approved the Secretary's Report on papers signed by him in behalf of the Commission during the period June 24 to August 2, 1957.

The Commission confirmed September 12 and 13 as the date for its next regular meeting to be held in the Imperial Hotel in Portland, and also set October 24 and 25, 1957 as a tentative date for the next following meeting. Also approved by the Commission was the holding of a bid opening in Salem on August 30, 1957, and a similar meeting in Salem early in October.

The Engineer reported that in order to facilitate changes made by the 1957 legislative assembly covering the operation of overlength and overwidth vehicles on State highways, it is necessary that the Commission adopt a resolution incorporating such changes. He presented a form of resolution for adoption and observed that Mr. C. W. Enfield, former Chief Counsel for the Commission, now with the Bureau of Public Roads in Washington, D. C., had given his written opinion that an insertion in the resolution concerning a load limit of 74,000 pounds could be made without violating the federal law. The Commission approved the changes by adopting the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The matter of granting permits for the movement of house trailers 10 feet wide over Oregon highways was discussed. The Engineer stated that during the past two years most trailer manufacturers have produced 10-foot wide trailers as well as the standard 8-foot width and in May, 1957, 27 percent of the trailers produced were 10 feet wide. There are now only six states in the Union which do not permit the movement of 10-foot wide trailers. The neighboring states of Washington, Idaho, and California allow the movement of these trailers under special permit. He recommended that the Commission also allow the movement of 10-foot wide trailers under special permit to be given for each individual trailer movement. He also presented a written copy of a "Statement of Policy Covering State Highway Permits for the Towing of Trailer Coaches, House Trailers or Mobile Homes". He pointed out that this statement of policy is not set up in resolution form nor does it contain authority for officers of the Highway Department to issue permits, as such authority has previously been granted in the form of resolutions dealing with overweight and overdimensional vehicles. The Commission authorized the movement of trailers as recommended by the Engineer and approved the statement of

policy. Messrs. Ed Welch, Attorney for the Trailer Coach Association, and John O'Conor, Executive Director of the Association, were present during the discussion of this subject but neither spoke. (A copy of the Commission's "Statement of Policy Covering State Highway Permits for the Towing of Trailer Coaches, House Trailers or Mobile Homes" as adopted at this meeting, is attached hereto, marked EXHIBIT "M" and by this reference is made a part hereof with like effect as though extended in full herein.)

Payment of $241.30 to Virgil F. Baldwin, a State Highway Department mechanic, was discussed. The Engineer stated that Mr. Baldwin, a mechanic on paving crew No. 8, lost personal tools valued at $241.30 in a fire caused by the overturning of a State pickup truck which he was driving. It appears that a tire blew out on the State vehicle, which overturned and caught fire. It is common practice, the Engineer stated, for mechanics to furnish their own tools, which are not covered by any insurance either restoration or commercial. Chairman Reynolds inquired as to the State's liability in the matter. Action was deferred pending an opinion from the Chief Counsel. (On the following day, the Chief Counsel reported that under Oregon Law the Commission has authority to pay for the tools as long as there was no negligence on the part of the person who sustained the loss. Commissioner McIver commented that it appeared that the loss should be reimbursed as the State required him to furnish his own tools, but in his opinion, each case of this sort should be decided on its merits. Commissioner Chessman stated that there might be some danger of establishing an undesirable precedent but he did not object to payment. The Commission approved the payment.)

The Engineer stated that construction of a footpath along the westerly side of the John Day-Burns Highway between John Day and Canyon City near Grant Union High School had left the highway shoulders too narrow to permit the parking of vehicles and to provide proper safety for the traveling public. To minimize these potential hazards, he recommended that "No Parking On Highway Shoulders" regulation be made effective on both sides of the John Day-Burns Highway between M.P. 0.67 and M.P. 1.97. The Commission approved such "No Parking" regulation by adopting the attached resolution relative thereto marked EXHIBIT "G-5", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer matters to be presented by delegations on the following day. Action was deferred pending the appearance of the delegations.

The Engineer stated that to accommodate a proposed industrial development at the southerly end of the Hood River bridge across the Columbia River, the Port of Hood River had requested that the State deed to the Port 3 1/2 acres of excess property in the area north of US 30 and east of the approach to the Bridge. They also requested permission to remove trees from and to construct a hydraulic fill on a portion of the state-owned land. He recommended that the Port of Hood River be permitted to remove the trees and construct the fill, and that a decision concerning transfer of the excess property to the Port be deferred until later. The Commission approved the recommendation

Reconstruction of a section of US 30 south of Huntington necessitated by construction of the Brownlee Dam in the Snake River by the Idaho Power Company was discussed. The Engineer explained that back water from the dam will inundate portions of the existing highway which will require the raising of the grade along certain units. He exhibited a map showing the units that will be affected, designated as Unit A, B, C, D, E and F thereon. The cost to raise the grade and rebuild Units A, D, E and F to existing standards, he said, is estimated at $524,000, and the estimated cost to raise Units B and C is $281,000. He pointed out that in addition thereto, it would be necessary to acquire right of way to accommodate the new grade along all units. He suggested that all construction work be done under State contract and that the Company be required to remit cash to pay its cooperative share of the cost, which cost has been computed at $524,000 for Units A, D, E, and F and at $281,000 for Units B and C. He asked the Commission to approve the arrangement whereby the Company will pay to the State the sum of $805,000 plus the appraised cost of right of way that is required to raise the existing highway above the backwater pool which would relieve the Company of all future obligations, including maintenance. The State, he added, would then do the necessary reconstruction work on Units A, D, E and F and would apply the sum of $281,000 plus the amount of the right of way appraisal toward reconstruction of Units B and C to interstate standards. He also requested authority to advertise for bids for construction of all Units as soon as is possible inasmuch as the existing highway will be flooded in 1958. The Commission unanimously approved the arrangement as outlined by the Engineer and authorized him to discuss the matter with the Company officials on such basis preliminary to preparation of a written agreement covering the subject. The Commission also authorized the taking of bids for construction as soon as plans for the project have been prepared

The Commission gave attention to the matter of deeding to the City of Klamath Falls certain property consisting of city lots which were acquired from the City and Klamath County as right of way for the eastside entrance of the Klamath Falls-Malin Highway into the City of Klamath Falls. The Engineer advised that a number of lots were obtained from the City at no cost, some of which later were reconveyed to the City for park purposes, and that the City now wishes to secure additional lots for park use, including not only some of those that the City gave the State but also some that were obtained from Klamath County at no cost and some that the Highway Department purchased from private owners. He recommended that the property that was deeded to the State by the City gratis and that is not needed for highway purposes be deeded back to the City without cost. Likewise, that the lots that were obtained from Klamath County be deeded to the City gratis if the County Court concurs, but that the City be required to pay for the lots that the State purchased from the private owners, the cost to be the exact amount that the State paid for them. The Commission approved such disposition of the property and authorized public sale of the last mentioned property if the City is unwilling to pay for it.

The Assistant Engineer, Mr. W. W. Stiffler, reported that the Standard Oil Company of California has given the State permission to construct at State expense, a fence along the side of the channel of Ferry Creek in Bandon. He explained that it is necessary to construct the fence to safeguard children, one of whom recently fell into the creek. The child did not drown but to prevent a recurrence of such happenings it was deemed advisable to construct a small fence. The Commission accepted the permit and authorized construction of the fence.

The Commission gave attention to the matter of deeding to the City of North Bend a portion of Simpson Park in North Bend. The Engineer

recalled that at a previous meeting a request had been received to grant an easement to Rogers and Kuni to construct a hauling road across the park, and the city had been advised that an easement would be granted for the road but that the city should continue its efforts to locate a satisfactory stock pile site before the State would deed the park land to the city. Subsequent to that time the matter has been given additional study, he continued, and it appears that a suitable substitute stock pile site cannot be found; also, the State does not have much use for a stock pile site at this location. He also pointed out that the Simpson Park property was originally deeded to the State by the city without charge. He recommended that the property be deeded back to the city without cost, notwithstanding that the city has not furnished a new stock pile site. Commissioner Chessman inquired if it would be necessary for the State to purchase another stock pile site to replace this one. The Engineer replied that due to changes in handling of maintenance materials fewer stock pile sites are now required and it would not be necessary to acquire a new site. The Commission approved the transfer of the park property to the City of North Bend as recommended by the Engineer.

Chairman Reynolds inquired why test runs could not be made to determine the group classification of a highway for length of vehicles prior to receipt of a request for the reclassification. He pointed out that recently it came to his attention that a truck driver was arrested for driving an illegal length vehicle on a section of highway which had not been reclassified but which was eligible for revision. Mr. Stiffler, Assistant Engineer, replied that the State does not have suitable equipment to conduct test runs, so privately owned equipment must be used when it is available. The Engineer suggested that a letter be written to the trucking industry advising that the State is ready and willing to conduct test runs on any state highway section at any time if the truckers furnish the necessary equipment to conduct them. The Commission approved his suggestion.

Chairman Reynolds also inquired if plans are progressing to secure early completion of the construction contract on the Ukiah-Hilgard Highway, defaulted by Jack Robinson. The Engineer replied that it is planned to call for bids in September for completion of the work, arrangements for which have been effected with the surety on Robinson's performance bond. He also remarked that it appears that it may be necessary either to construct right-of-way fence along the project or to install cattle guards in the roadway. It was his opinion that, if necessary, the fence should be constructed because cattle guards are undesirable.

Inquiry was made by Chairman Reynolds as to the policy followed by the Maintenance Department in removing snow from private road approaches to state highways. The Engineer replied that Maintenance personnel are instructed to open up these private approaches as soon as the state highway has been plowed and if they are not doing that, they are not following orders. He said that he would look into the matter.

The Commission discussed with the Engineer bids received on July 18, 1957, in the State Highway Building in Salem, and the bids received at this morning's session for highway construction. At 4:00 p.m. Commissioner McIver announced awards of contracts as follows:

BIDS RECEIVED IN SALEM ON JULY 18, 1957

"Oiling on 4 units on the Radar Station-Condon Junction Section of the Seales County Road in Gilliam County. The Commission awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at $18,149.00.

"Construction of Stinkingwater Mountain Sand Shed on the Central Oregon Highway in Harney County. The Commission awarded the contract to the low bidder, A. E. FitzGerald, Klamath Falls, at $12,976.00.

"Grading on the South Unit, SPRR Overcrossing-Santiam Junction Section of the Pacific Highway, near Albany, in Linn County. The Commission elects to accept the low bid of Roy L. Houck and Sons, Salem, in the sum of $666,289.50 and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving on the Highlands Interchange Section of the Sunset Highway, near Portland in Multnomah County. The Commission elects to accept the low bid of Parker-Schram Co., Portland, in the sum of $500,656.40, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of Bureau of Public Roads is received, and the sum of $40,100.00 is deposited by the City of Portland.

"Grading and paving on the Interstate Bridge-Oregon Slough Section of the Pacific Highway, north of Portland, in Multnomah County. The Comission elects to accept the low bid of Warren Northwest, Inc., Portland, in the sum of $246,503.30, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading on the Valley Junction-Wallace Bridge Unit, Valley Junction-Sheridan Section of the Salmon River Highway, west of Willamina, in Polk County. The Commission elects to accept the low bid of A. L. Harding, Inc., Stayton, in the sum of $149,954.50, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

BIDS RECEIVED ON AUGUST 8, 1957

"Construct steel truss bridge on the Black Bridge-Richland Section of the Baker-Homestead Highway in Baker County. The Commission awarded the contract to the low bidder, J. O. Young & Sons, Nampa, Idaho, at $38,785.00.

"Grading and paving on the Goble-Tide Creek Section of the Columbia River Highway, south of Rainier in Columbia County. The Commission elects to accept the low bid of Rogers Construction Co., Portland, in the sum of $678,196.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Illumination installation on Gregg Creek-Wedderburn Section of the Oregon Coast Highway in Curry County. The Commission awarded the contract to the low bidder, Steeck Electric Co., Medford, at $5,423.00.

"Grading and paving on Bridge Street in Prairie City, in Grant County. The Commission elects to accept the low bid of Interstate Paving Co., The Dalles, in the sum of $17,816.10 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Prairie City is received and the sum of $900.00 is deposited by the city.

"Parkdale rock production project on the Mt. Hood and Hood River Highways, in Hood River County. The Commission rejected all bids as being too high.

"Grading and paving on the Ross Lane-Jacksonville Section of the Crater Lake Highway-Jacksonville Road, in Jackson County. The Commission elects to accept the low bid of Glen Ousley Construction Co., Eugene, in the sum of $156,703.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County is received and the sum of $71,200 is deposited by the County.

"Construct office building at Grants Pass in Josephine County. The Commission awarded the contract to the low bidder, Clyde Hamilton, Grants Pass, at $24,762.00.

"Rock production project on the Southern Pacific Undercrossing-Little Deschutes River Section of the Willamette Highway, near Summit, in Klamath and Lane Counties. The Commission awarded the contract to the low bidder, J. C. Compton Co., McMinnville, at $35,500.00.

"Harrisburg Bridge Revetment Project on the Pacific Highway in Lane County. The Commission awarded the contract to the low bidder, Calkins Crushing Co., Oceanlake, at $25,597.50.

"Structure, grading and oiling on the McKercher Bridge (Calapooya River) Section of the Halsey-Sweet Home Highway in Linn County. The Commission awarded the contract to the low bidder, Tom Lillebo Construction Co., Reedsport, at $77,890.00

"Nyssa Bridge Grading and Paving Project on the Old Oregon Trail in Malheur County. The Commission awarded the contract to the low bidder, H. J. & H. W. Miller, Baker, at $12,717.50.

"Repair of the Old Malheur River Bridge on the Ontario-Olds Ferry Secondary Highway in Malheur County. The Commission rejected all bids as being too high.

"Grading on the Salem By-pass Section of the Pacific Highway, near Salem, in Marion County. The Commission elects to accept the low bid of Earl L. McNutt Co., Eugene, in the sum of $415,723.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct 16 reinforced concrete deck girder bridges on the North Jefferson Junction-Santiam Junction Section of the Pacific Highway, in Marion and Linn Counties. Alternate bids were received for construction by the pretensioned-precast method and by the conventional poured-in-place method. The Commission awarded the contract to the low bidder, Valley Construction Co. & Tower Sales & Erecting Co., Portland, at $504,182.25 (Alternate B).

"Roadside improvement at the Clay Street-Columbia Street Traffic Interchange in Portland, in Multnomah County. The Commission awarded the contract to the low bidder, Benedict Nursery Co., Portland, at $17,066.00.

"Construct Highlands Undercrossing on the Highlands Interchange Section of the Sunset Highway in the City of Portland, in Multnomah County. The Commission elects to accept the low bid of S & D Construction Co., Portland, in the sum of $79,994.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct 26th Avenue structures on the Harbor Drive-Washington County Line Section of the Pacific Highway and Pacific Highway West, in Multnomah County. The Commission elects to accept the low bid of Birkemeier Construction Co., Milwaukie, in the sum of $256,373.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct Pacific Highway Undercrossing of Barbur Boulevard and Capitol Highway on the S. W. 14th Ave.-Washington County Line Section of the Pacific Highway in Multnomah County. The Commission awarded the contract to the low bidder, Gibbons & Reed Co., Portland, at $446,236.00.

"Construct Iowa Street Bridge on the Harbor Drive-Washington County Line Section of the Pacific Highway in Multnomah County. The Commission elects to accept the low bid of Gibbons & Reed Co. in the sum of $340,111.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

In connection with the bids received at the bid opening this date, the Engineer reported that all of the bids for repairing the Old Malheur River Bridge on the Ontario-Olds Ferry Secondary Highway are far in excess of the estimated cost. As the work should be performed before the late fall rains set in, there would not be time to readvertise the job for the next contract letting. He recommended in view thereof that the work be performed immediately with State forces. The Commission accepted his recommendation.

The matter of appointing a Parks Advisory Committee pursuant to action taken by the 1957 Legislative Assembly, was considered. Chairman Reynolds stated that the Commission has given this matter very careful thought and it appears that a well functioning committee should consist of from five to seven members. It will be the Commission's recommendation to the Governor, he stated, that the following persons be appointed on this Committee: Glen Jackson, Manager, California-Oregon Power Company, Medford; Robert B. Frazier, Associate Editor, Eugene Register-Guard, Eugene; A. E. Collier, Klamath Falls; V. W. McCormack, Pendleton; William Tugman, Owner and Editor, Port Umpqua Courier, Reedsport; George Henderson, Vice President, First National Bank, Portland. It is the feeling of the Commission, he continued, that the Parks Advisory Committee should act as an advisory group to the Parks Superintendent in much the same manner as the Travel Advisory Committee acts in relation to the Director of the Travel Information Department, and that all reports should be presented to the Commission through the Parks Superintendent.

Chairman Reynolds stated that a certain advertising firm had written him concerning the handling of the State's advertising business in connection with the Travel Information Division. Mr. Jordan, Travel Information Director, stated that the Travel Advisory Committee has a meeting scheduled in September and the matter probably will be discussed at that time. He explained briefly the policy of the Travel Advisory Committee with respect to such matters, advising that the practice is to recommend to the Comission annually retention of the same advertising agent for a five-year period provided they furnish satisfactory service, and to listen to all interested agencies every five years.

Chairman Reynolds inquired concerning an accident study that is headed by Mr. Marshall Dana, Portland. The Engineer explained briefly that Oregon has been selected as one of eight states in the Nation whose records are to be used in connection with a national study of highway accidents which in his estimation is highly complimentary and an indication that Oregon has excellent accident records.

Chairman Reynolds reported that it had come to his attention that there is some agitation to install heating elements in the approaches to the new Columbia River bridge between Vancouver and Portland. The Assistant Engineer, Mr. G. S. Paxson, remarked that the bridge approach grade, which is 4.6 percent, is not too steep and that even a 7 percent approach should not cause undue difficulty. It was his opinion that the installation of heating units to prevent frost conditions is not justified because of the cost involved.

Consideration was given to a request from M. E. Reynolds, Astoria, City Attorney of Cannon Beach, concerning speed of vehicles on the ocean shore at Cannon Beach. It seems that a maximum speed limit of 15 miles per hour is wanted. . The Engineer stated that a similar request had been filed in his office and that it had been referred to the Traffic Engineer for investigation; however, he added, the Highway Commission cannot legally set a maximum speed unless requested to do so by the city or county.

The Commission discussed with the Engineer the proposed Commission inspection trip through Western Oregon. It was decided to make such trip during the week starting Monday, August 26. The Engineer, Park Superintendent and the Chief Counsel were asked to accompany the Commission on the trip in addition to the Division Engineer in charge of the highways that are to be inspected. The Commission expressed a desire for no formal appointments with citizens enroute.

The Commission signed the following agreements and other papers:

"Agreement" with Crown Zellerbach Corporation covering the taking of material from a quarry on the Corporation's property, north of Cape Lookout State Park. Agreement to extend to the end of this year. No charge for material.

"Trust Agreement" compensating Bonneville Power Administration $4,800 for rearranging its power line on the Valley Junction-Wallace Bridge Unit of Salmon River Highway, Polk County.

"Trust Agreement" with Bonneville Power Administration covering relocation of its facilities on Meacham-Glover Section of Old Oregon Trail, Umatilla and Union Counties. State to deposit with BPA $43,550 which is estimated cost of work.

"Bargain and Sale Deed" to Eugene Water and Electric Board for 1.2 acres on the Albany-Judkins Point Section of Pacific Highway East, Lane County. Consideration $1,000.

"Indentures of Access" on following properties:

a. Duckworth property on Grants Pass (6th and 7th Sts.) Section of Pacific Highway, Josephine County.

b. Butterfield property on Grants Pass (6th and 7th Sts.) Section of Pacific Highway, Josephine County.

c. Duckworth property on Grants Pass (6th and 7th Sts.) Section of Pacific Highway, Josephine County.

d. Vroman property on Salem-Stout Creek Section of North Santiam Highway, Marion County.

e. McCall property on Salem-Stout Creek Section of North Santiam Highway, Marion County.

f. Ferring property on Big Creek Section of Columbia River Highway, Clatsop County.

g. Coburn property on McMinnville Airport-Dayton Junction Section of Three Mile Lane Secondary Highway, Yamhill County.

"Easement" to the Pacific Telephone and Telegraph Company covering a 10 ft. strip along the westerly side of the right of way line of the Willowdale-Lyle Gap Section of The Dalles-California Highway, Jefferson County. In exchange for this, Telephone Company gives to the State a quitclaim deed releasing the Company's present easement on private property acquired for this project.

"Agreement" granting to the Union Pacific Railroad Company a slope easement near the intersection of 181st Avenue and Wilkes Road on the T. H. Banfield Expressway.

"Bargain and Sale Deed" conveying to Grants Pass Irrigation District a canal easement which was inadvertently taken in the name of the State when relocating the District's canal during construction of the 7th Street Route of the Pacific Highway in Grants Pass.

"Petition and Notice to Vacate" authorizing filing of petition to vacate certain streets in O.V.L. Plat, Lake County.

"Agreement" with the Saint Paul Mercury Indemnity Company, surety on defaulted Contract No. 4648, with Jack Robinson, Inc., for grading and topping the Ukiah-Forest Boundary Section of the Ukiah-Hilgard Highway, Umatilla County, covering completion of this contract.

"Agreement" with Lincoln County covering abandonment of the Siletz Bay-Depoe Bay Section of the Oregon Coast Highway.

"Agreement" with Columbia County covering the abandonment of the Goble-Tide Creek Section of the Columbia River Highway.

"Agreement" with Columbia County covering the Goble-Tide Creek Section of the Columbia River Highway.

"Permit" granting to the Pacific Telephone and Telegraph Company permission to install and operate a public telephone booth near the scale house at southbound traffic scales on US 99 near Winchester in Douglas County.

"Contract" with the Pacific Power and Light Company covering the furnishing of electrical energy in connection with the illumination of US 101 between North Bend and Coos Bay. (Authorized by the Commission on January 22, 1957.)

"Agreement" with Weyerhaeuser Timber Company granting permission to the Company to use and transmit electrical energy over a State pole line, located about 4 miles east of Klamath Falls, Company to pay $370 per year, or $33 per month.

"Bargain and Sale Deed" conveying to Dick Hibberd, et ux, a parcel of land containing 4.5 acres, more or less, on the La Grande-Elgin Section of the Wallowa Lake Highway, Union County. (Authorized 5-16-57)

"Lease and Sale of Road Materials" executed by Walter W. Dreher, et ux., leasing to State a parcel of land containing 6.45 acres on the Newberg-Gearin Corner Section of the Hillsboro-Silverton Highway, Marion County. (Authorized 5-16-57)

"Agreement" with city of Burns for proposed flashing beacon installation at intersection of East Monroe Street and Broadway in the city of Burns, Harney County. (Authorized 3-28-57)

"Bargain and Sale Deed" with Glen L. Young et al., covering conveyance of two parcels of land as part of the settlement.

"Forest Highway Program" covering revision of existing Oregon Forest Highway Program, Approved October 30, 1956.

The meeting adjourned at 4:55 p.m. to reconvene at 9:30 a.m. the following morning.

Portland, Oregon
August 9, 1957

The meeting of the Oregon State Highway Commission reconvened at 9:30 a.m. in the Queens Room of the Imperial Hotel. The following people were present:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary.

The Chief Counsel presented to the Commission a proposed basis of settlement in connection with the Mitchell flood damage cases in which the State is being sued for damages by a number of Mitchell property owners. He reported that an adverse decision to the State was rendered in the Sigfrit case, which was the first one tried. He presented a written summary of the cases which are pending and pointed out that all of the

cases listed in the summary are represented by two attorneys, Mr. Roy Kilpatrick of John Day, and Mr. Owen Panner of Bend, by whom he has been approached with an offer to settle the entire group for the sum of $145,000--the State to take title to all of the property involved. The Chief Counsel and the Commissioners thereupon discussed the pros and cons of the State's liability in the various cases. After such discussion the Commission accepted the Chief Counsel's report and authorized him to continue negotiation for a settlement on a lump-sum basis if possible, of the claims listed on his summary, including two additional claims that are being handled by other attorneys, with the understanding that any settlement that is reached will not be binding until approved by the Commission.

The Engineer reported receipt of a letter from the "Okanogan Cariboo Trail Association" of Wenatchee, Washington, requesting his presence at the annual convention of the Association in Wenatchee on September 6 and 7, 1957. He explained that the Association represents a group who are interested in Route 97, which extends north and south through California, Oregon, Washington and into Canada. He requested permission to attend the meeting at an estimated cost of $67.00. The Commission approved the request.

The Commission discussed the Chief Counsel's request presented on the previous day for authority to proceed with condemnation proceedings to acquire certain parcels of real property that are required for highway right of way or for other purposes. After carefully considering the proposed condemnations and in light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the projects and the properties involved, the Commission approved the condemnations by adopting the attached resolutions relative thereto marked EXHIBIT "J-1" through EXHIBIT "J-18", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Status of projects on which bids are to be received in late August and September were discussed briefly by the Commission. In connection with this matter, Commissioner McIver inquired as to the status of plans for new highway routes through the City of Portland. The Engineer exhibited a map showing two proposed routes, one known as the East Bank Freeway, approximately paralleling the east bank of the Willamette River, and the other called the Stadium Route, which by-passes the city center on the west side of the river. These plans, he stated, are in the formative stage and have not yet been approved by the Bureau of Public Roads. However, it is imperative that one of the routes, particularly the East Bank route, be constructed as soon as is possible because Harbor Drive is becoming badly congested.

Commissioner McIver inquired if information similar to that presented at the recent WASHO meeting in Houston, Texas, concerning source

of highway funds, functions of the Highway Departments, etc., would be of value for study by the Legislative Highway Interim Committee. The Engineer replied that such information should be valuable to that Committee and that he would prepare data for submission to the group. The Chief Counsel commented that he had received a model form concerning methods of appraising real property and that the suggested plan is nearly identical to the method used in Oregon.

Mr. James L. Garrard, property owner on the Dolph Corner-Rickreall Section of the Salem-Willamina Highway, came before the Commission concerning a settlement for property that was acquired from him as right of way for this highway section. He presented to the Commission a map showing the location of his land and urged the Commission to reconsider the settlement and allow him additional money. It was his feeling that in negotiating a settlement for the acquisition of his property, he had agreed to sell at too low a price, having been paid the sum of $3850 for 7.30 acres. He pointed out that he had tried to purchase nearby land to replace the acreage sold to the State but found no suitable land for sale. He also said that one-half acre of his remaining land is p ractically useless because of its shape and that a spring which existed has now dried up because of highway construction. He felt that the State had saved money by avoiding litigation and called attention to the amount which had been paid to nearby property owners who had carried their claims through condemnation proceedings. He stated further that he felt a just compensation would be at the rate of $1,000 per acre or the total sum of $7,300. Chairman Reynolds pointed out that although the Commission is appreciative of the cooperative spirit shown by Mr. Garrard in negotiating settlement for his land, the Commission does not feel that it has an obligation in the matter inasmuch as Mr. Garrard agreed to the settlement. Additional payment could very well establish an undesirable precedent as the State Highway Department acquires many parcels of right of way for highway purposes. The Chief Counsel also pointed out that if the State took the position of paying additional moneys for properties already acquired, they should likely take the position of asking for refunds where they felt the price had been too high. The Commission expressed regrets that it could not do what Mr. Garrard requests.

A delegation representing the Chambers of Commerce of the cities of Newberg, McMinnville, and St. Paul appeared before the Commission concerning additional improvement of the Pacific Highway West from the easterly edge of Newberg to Middleton. The following people were present: Hon. Carl Francis, State Senator, Dayton; Herbert Swift, City Attorney; Chester Windsor, Chairman, Art M. Curtis and Carl H. Butler, Highway Committee; Hadley Halgrem (President), Bob Pilkenton (Industrial Committee), John Wanner (City Councilman), Dick Rentfro (Manager Springbrook Packing Co.), Joe Yackey (Real Estate), Martin Redding (Insurance business), Bruce Dixon (Owner, City Tire Co.), R. O. Ordway (President, First National Bank), Edwin W. Gibbs, Mel Dunston, Sidney Collier, and Harold Scharff, all of the Newberg Chamber of Commerce; and Jack Ballinger, Publisher of the Newberg newspaper, also of Newberg; James Stanard, Chairman, Roads & Highway Committee of McMinnville Chamber

of Commerce; and Pete Bernard, City Councilman, St. Paul. Mr. Windsor headed the group. He introduced Mr. Swift, who read aloud and presented a resolution from the Newberg City Council in which the Commission is requested to take early action towards construction of a four-lane section from Middleton to Newberg, a distance of about six miles. He also presented similar resolutions from the St. Paul City Council, from the St. Paul Rodeo Association and from the Dundee City Council, all urging the Commission to take early action to extend the four-lane improvement from Middleton to Gumm's Corner near Newberg. Senator Francis expressed the appreciation of the group for work which has been performed in the vicinity and commented that the Commission has exhibited a great deal of patience in listening to their problems. The project requested, he continued, will provide another link in four-laning the highway over the hills west of Portland into the floor of the Yamhill valley and will be needed to form a proper connection with the new bridge across the Willamette River at Newberg. Construction of this bridge, he continued, will greatly facilitate the movement of vehicular traffic from the St. Paul area northerly and will also provide much better access to Champoeg State Park. In addition to these benefits, he also called attention to the large Alderman Farm south of Dayton, which transports most of its berry and bean-picking help from the Portland area as well as a large amount of its products to Portland. He read aloud a letter signed by U. S. Alderman pointing out that the farms operate 20 to 25 busses over this route seven days a week, and that four-lane construction would provide much greater safety for the busses as well as for the traveling public. Mr. Stanard called attention to the intermittent two-lane and four-lane sections which now exist between Portland and McMinnville. He urged the Commission to provide a four-lane facility at the earliest possible time. At Chairman Reynolds request the Engineer informed the delegation that in the Commission's tentative five-year program, over one million dollars is being considered for expenditure on this highway section and that it is contemplated that work as far as Gumm's Corner will be performed as soon as funds are available.

Mr. Anthony Brandenthaler, Chairman of the Oregon Centennial Commission, and Mr. Floyd Maxwell, Manager of the Centennial Commission, both of Portland, came before the Commission concerning improvement of road facilities leading to and from the Pacific International Livestock Building in north Portland. Mr. Brandenthaler stated that under authority granted by the State Legislative Assembly, he and Mr. Maxwell have been working on plans for the Oregon Centennial Celebration which is planned for 1959. Research which has been conducted indicates that the only suitable site in the Portland area is the Portland International Livestock Grounds. However, transportation into and away from the building area has presented a considerable problem and it appears that cooperation will be needed from the State and from Multnomah County in order to provide adequate highway facilities to serve the Centennial grounds. It has been estimated, he stated, that tourist traffic generated by the Centennial may provide upwards of one million dollars in extra gas tax funds and that the Centennial will also give the State's economy a good boost. He pointed out on a map routes that are proposed to handle the

traffic and he commented that parking space is already available. The Engineer suggested some changes in the traffic plan and stated that from facts presently available, it appears that a workable facility can be constructed for approximately $83,000. Chairman Reynolds pointed out that the proposed roadways are not on the State highway system and he questioned if the Commission has legal authority to spend highway funds for this purpose. The Commission, he continued, wishes to help in the matter but a legal basis for cooperation is needed. He suggested that Multnomah County might designate the proposed roads as county roads which would make it possible for the State to contribute toward the expense. It was his thought that the State would cooperate in the costs with the county on a 50-50 basis. Mr. Brandenthaler stated that he will consult the Multnomah County officials and report back the results.

Mr. Francis Lambert, Sheriff of Multnomah County, came before the Commission concerning safety measures and additional public facilities at Rooster Rock State Park on the Columbia River east of Portland. He thanked the Commission for its approval of a lifeguard, which action was taken on the previous day. It was his opinion that the park, which has already attracted huge crowds, will continue to attract a large number of people. He suggested that the boat landing area be separated by physical means from the swimming area, that a small building be constructed to house a telephone, loud speakers, cots for the ill, and serve as a police headquarters. He also suggested that a concession privilege be allowed for the sale of hotdogs, soft drinks, candy, etc., and that consideration be given to construction of dressing room facilities for convenience of those who want to swim, which could be used by inserting 5 cents or ten cents in the door. The County, he continued, will provide policing in the area. The Engineer commented briefly on the great number of people who had visited the park on a recent Sunday and the lack of adequate parking facilities. Chairman Reynolds expressed appreciation for the suggestions offered by Sheriff Lambert and stated that early consideration will be given to them. After Mr. Lambert departed, the Engineer stated that a concession privilege for the sale of lunch foods and soft drinks is a necessity and it was his opinion that the suggestions offered by Sheriff Lambert be studied during the balance of the summer and this fall. Commissioner McIver observed that this location would probably serve as a good trial spot for a concession.

Chairman Reynolds stated that a letter had come to his attention this morning in which a resident near Cave Junction had placed a sign on his truck along the highway at Cave Junction urging tourists to not answer questions asked them by State Highway employees for the purpose of securing data as to tourist habits while in the State. Mr. Jordan, Director of the Travel Information Department, stated that for the past eleven years, information had been secured for the same purpose in much the same manner and many other states follow the same procedure. Tourists are not required to answer any questions but may do so on a voluntary basis. No complaints have been received prior to this one. The Engineer pointed out that the information secured by the State employees, who are mostly college men, is needed in order to determine the activities of the Travel

Information Department in their advertising and tourist promotion functions. The Commission decided to take no action in the matter.

Chairman Reynolds inquired if the amusement park and picnic area known as Paradise Island on the Salem By-Pass should be acquired as a State Park. The Engineer replied that the existing development is privately owned and does not meet State park requirements.

The Engineer stated that Contract No. 4632, awarded to Delano Aerial Surveys, for an aerial survey in the Portland area is now a year behind schedule and the contractor has not shown ability to furnish material according to the specifications of the contract. He recommended that the Commission declare the contractor in default and that the surety on the bond be instructed to complete the contract. The Commission accepted his recommendation.

There being no further business to conduct, the meeting was declared adjourned at 11:45 a. m.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

August 8 and 9, 1957

EXHIBIT "A"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in 92nd Avenue-Fairview Section of the T. H. Banfield Expressway described as follows:

A parcel of land lying in Section 26, Township 1 North, Range 2 East, W. M., Multnomah County, Oregon and being a portion of that tract of land described in those certain deeds to State of Oregon, by and through its State Highway Commission, recorded in Book 1458, Page 141 and in Book 1462, Page 362 of Multnomah County Records of Deeds; the said parcel being described as follows:

Beginning at a point in the West line of the William Wilkes D. L. C., Township 1 North, Range 2 East, W. M., said point being 1471.24 feet North of the S. W. corner thereof; thence on a 266.41 foot radius curve left (the long chord of which bears N. 62° 49' E 314.90 feet) 337.01 feet; thence N. 0° 01' 30" W 311.8 feet more or less, to a line which is parallel to and 100 feet Southerly of the located center line of the T. H. Banfield Expressway; thence Easterly parallel to said center line 690 feet more or less, to the Easterly line of said property; thence along the boundaries of said property as follows: S 22° 13' W 799.56 feet, N 67° 47' W 974.94 feet; N 84° 05' 30" W 356.07 feet; N 0° 54' 30" E 128.5 feet; N 89° 32' 33" E 606.4 feet and South 142.06 feet to the point of beginning, containing 12.95 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $32,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress to, from and between said real property and the right of way of the T. H. Banfield Expressway.

EXHIBIT "B-1" (Cont)

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 50 be entered in the minutes and records of the Commission as of the 8th day of August, 1957.

EXHIBIT "B-2"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land in the Valley Junction-Sheridan Section of the Salmon River Highway described as follows:

A parcel of land lying in the H. C. Lawson D. L. C. #49 and the George Tharp D. L. C. #50, Township 6 South, Range 7 West, W.M., Polk County, Oregon, and being a portion of that property described in that certain deed to Loyal E. and Lena M. Page recorded in Book 140, Page 144 of Polk County Records of Deeds; the said parcel being that portion of said property lying Westerly and Northerly of the following described line: Beginning on the Northerly line of said property at a point 195 feet Westerly of the intersection of said Northerly property line and the Westerly right of way line of the existing Salmon River Highway, said intersection being approximately 520 ft. North and 377 ft. East of the Northeast (NE) corner of said Lawson D. L. C. #49; thence South 20° 40' 57" West 389 ft., thence on a 236.48 foot radius curve right (the long chord of which bears S 59° 30' 20" W) 320.47 feet, thence S 8° 19' 44" West 40 ft., more or less, to the Southerly line of said property.

(Bearings used herein are based upon the Oregon Co-ordinate System, North Zone.)

The parcel of land to which this description applies contains 10.5 acres, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes;

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,150.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. Access will be by way of frontage road only.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 52 be entered in the minutes and records of the Commission as of the 8th day of August, 1957.

EXHIBIT "C"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance.:

"Contract No. 4467, with Durbin Bros., for grading and oiling on the Deschutes River Section of the McKenzie Highway in Deschutes County, completed June 15, 1957.

"Contract No. 4558, with R. A. Heintz Construction Co., for grading on the Fords Bridge Unit, Myrtle Creek-Canyonville Section of the Pacific Highway in Douglas County, completed June 7, 1957.

"Contract No. 4618, with Roy L. Houck & Sons, for grading and paving on the Middle Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County, completed May 14, 1957.

"Contract No. 4643, with Babler Bros., for surfacing and oiling on the Muddy Creek School-Haines Junction and Middle Unit, Rock Creek-Haines Sections of the Muddy Creek and Rock Creek County Roads in Baker County, completed July 16, 1957.

"Contract No. 4666, with Tri-State Painting Co., for painting the Ojalla and Fuller Bridges on the Siletz Highway in Lincoln County, completed June 5, 1957.

"Contract No. 4690, with United Builders, Inc., for widening the Dairy Creek Bridge on the Tualatin Valley Highway in Washington County, completed June 28, 1957.

"Contract No. 4698, with J. C. Compton Co., for the paving of West Pacific Avenue in the City of Taft in Lincoln County, completed July 1, 1957.

"Contract No. 4726 with Barney B. Helser for furnishing crushed materials in stockpiles on the Klamath Agency Section of the Crater Lake, The Dalles-California and Modoc Point Highways in Klamath County, completed April 27, 1957.

"Contract No. 4754, with Perkins Bros., for grading and paving on the Oswego Section of the Country Club Road and "A" Avenue in Clackamas County, completed June 3, 1957.

"Contract No. 4765, with Keizer Sand & Gravel Co., for roadside improvement on the Barbur Blvd. -Willamette River Section of the Portland-Salem Expressway in Clackamas, Multnomah and Washington Counties,

EXHIBIT "C" (Cont)

completed June 27, 1957.

"Contract No. 4792, with F. L. Somers, for grading and oiling on the China Gulch-Copper Road Section of the Medford-Provolt Highway in Jackson County, completed July 10, 1957.

"Contract No. 4799, with Trowbridge Electric Co., for the Scholls Ferry Road-Oleson Road traffic signal installation on the Beaverton-Hillsdale Highway in Washington County, completed July 30, 1957.

"Contract No. 4804, with Roy L. Houck & Sons for grading and paving on the South Unit, Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County, completed May 15, 1957.

"Contract No. 4809, with Rogers Construction Co., for widening the McKay Creek and Tutuilla Creek Bridges on the Pendleton-John Day Highway in Umatilla County, completed July 31, 1957.

"Contract No. 4812, with Warren Northwest, Inc., for grading and paving on the East Unit, Fort Rock Road-Brothers Section of the Central Oregon Highway in Deschutes County, completed July 1, 1957.

"Contract No. 4821, with Morgan Bros., for grading on the Parish Creek Unit, Spray-Waterman Section of the Spray-Waterman County Road, completed June 20, 1957.

"Contract No. 4830, with Eugene Gardens for grading, paving and illumination on the Cannon Beach Junction Section of the Sunset and Oregon Coast Highways in Clatsop County, completed July 2, 1957.

"Contract No. 4839, with Central Paving Co., for grading and paving on the Burns Junction-Basque Maintenance Station of the I. O. N. Highway in Malheur County, completed June 3, 1957.

"Contract No. 4841, with E. H. Itschner Co., for paving on the Hinkle-Bucks Corner Section of the Hermiston Highway in Umatilla County, completed July 30, 1957.

"Contract No. 4844, with H. J. and H. W. Miller, for grading and paving on the W. 3rd St. -E. 1st Street. (Enterprise) Section of the Wallowa Lake Highway and city street in Wallowa County, completed July 12, 1957.

"Contract No. 4856, with R. I. Randolph, for construction of facilities in the Fort Stevens State Park in Clatsop County, completed July 19, 1957

"Contract No. 4863, with L. A. Decker, for furnishing crushed materials in stockpiles on the Lakeview Section of the Fremont, Klamath Falls-Lakeview and Warner Highways in Lake County, completed July 5, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4866, with Hughes & Dodd Co., for furnishing crushed materials in stockpiles on the Azalea-Mackin Gulch Section of the Pacific Highway in Douglas and Josephine Counties, completed June 26, 1957.

"Contract No. 4867, with Babler Bros., Inc., for oiling and furnishing crushed materials in stockpiles on the Suntex and Alkali Lake-Lake Abert Sections of the Central Oregon and Lakeview-Burns Highways in Lake and Harney Counties, completed June 24, 1957.

"Contract No. 4869, with Baughman & Sons, for construction of facilities in the Honeyman State Park in Lane County, completed July 2, 1957.

"Contract No. 4872, with R. I. Randolph Construction Co., for grading and paving on the State Street-Mission Street Extension (Salem) of the North Santiam Highway in Marion County, completed July 1, 1957.

"Contract No. 4882, with C. C. Meisel for furnishing crushed materials in stockpiles on the Shaniko Section of the Sherman Highway in Sherman County, completed June 19, 1957.

"Contract No. 4887, with Babler Bros., Inc., for constructing the Rock Creek and Thirtymile Creek Bridges on county roads in Gilliam County, completed July 1, 1957.

"Contract No. 4892, with Funderburk Construction Corporation for slope stabilization on the Roberts Mountain Summit Section of the Pacific Highway in Douglas County, completed June 4, 1957.

"Contract No. 4893, with O. & S. Painters for painting the Youngs Bay Bridge on the Oregon Coast Highway in Clatsop County, completed July 3, 1957.

"Contract No. 4899, with J. C. Compton Co., for oiling on the Division No. 2 Oiling Project on the Woodburn-Estacada, Silver Creek Falls and Corvallis-Newport Highways in Marion, Lincoln and Clackamas Counties, completed June 29, 1957.

"Contract No. 4900, with L. O. Fusby & Harold E. Ray for constructing the Wild Horse Creek Bridge on Preston St. in the City of Adams, Umatilla County, completed July 10, 1957.

"Contract No. 4902, with Warren Northwest, Inc., for grading and paving Lafayette Street in the City of Dayton in Yamhill County, completed July 19, 1957.

"Contract No. 4903, with Corvallis Sand & Gravel Co., for grading and paving on the Philomath ("M" Street) Section in Benton County, completed July 12, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4904, with James G. Robertson, for construction of a culvert, grading and stone base on the Mill Creek (Seaside) Section of the Oregon Coast Highway in Clatsop County, completed June 19, 1957.

"Contract No. 4905, with Russell Olson Construction Co., for oiling on the Condon-Kinzua Junction Section of the John Day and Wasco-Heppner Highways in Gilliam and Wheeler Counties, completed July 12, 1957.

"Contract No. 4907, with Hamilton & Thoms for constructing the Coast Fork Relief Bridge on the Willamette Highway in Lane County, completed July 15, 1957.

"Contract No. 4914, with E. H. Itschner Co., for grading, oiling and furnishing crushed materials in stockpiles on the Pendleton-Adams Section of the Oregon-Washington-Pendleton-Cold Springs and Athena-Holdman Highways in Umatilla County, completed June 28, 1957.

"Contract No. 4818, with Babler Bros., Inc., for grading and oiling the North Unit, Vale-Grand Ave. Section of a county road in Malheur County, completed July 23, 1957.

"Contract No. 4924, with Johnson's Cement Products, for paving on the Bunker Hill-Davis Slough Section of the Oregon Coast Highway in Coos County, completed July 13, 1957.

"Contract No. 4933, with Horton Construction Co., for oiling on the Division No. 1 Oiling Project on four state highways in Washington, Clackamas and Yamhill Counties, completed July 10, 1957.

"Contract No. 4934, with Lee F. Philpott for furnishing crushed materials in stockpiles on the Ochoco Highway in Wheeler and Grant Counties, completed July 5, 1957.

"Contract No. 4954, with C. R. Bennett and William Hickey for construction of a sand shed at Seneca on the John Day-Burns Highway in Grant County, completed July 24, 1957.

"Contract No. 4957, with George C. Stubbert, for installing guard rail on the Low Pass Summit Section of the Siuslaw Highway in Lane County, completed June 26, 1957.

"Contract No. 4967, with Oregon Asphaltic Paving Co., for grading and paving First Avenue South in the City of Tualatin, Washington County, completed July 18, 1957.

"Contract No. 4973, with Babler Bros., Inc., for grading and paving the Prineville (Tenth and Main Sts.) Section on city streets in Crook County, completed July 19, 1957.

EXHIBIT "C" (Cont)

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the consturction of said State Highway Projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final paument in connection with each is hereby authorized

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 64 shall be entered in the minutes and records of the Commission as of the 8th day of August, 1957.

EXHIBIT "D"

Minutes of August 8 and 9, 1957

R ESOLUTION

WHEREAS, ORS 366.800 provides that:

"There shall be and hereby are appropriated out of the highway fund annually such sums of money as will equal 10 percent of all moneys credited to the highway fund by the State Treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the highway fund by the State Treasurer under ORS 319.410, 481.540, 767.635 and from fines and penalties collected for violations of the motor vehicle and transportation laws. The appropriation shall be distributed among the several cities as provided in ORS 366.785 to 366.820."

AND, WHEREAS, ORS 366.805 provides:

"The appropriation specified in ORS 366.800 shall be allocated to the cities as follows:

(1) The sum of $250,000 shall be withdrawn from the appropriation each year and set up in a separate account to be administered by the commission.

(2) Such account shall be spent each year by the commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area of heavy and unusual industrial traffic.

(3) The commission shall determine the distribution of the expenditures after considering applications made to it therefor from the cities.

(4) The balance remaining in the appropriation after the withdrawal of the $250,000 shall be distributed to all the cities.

(5) Each city shall receive such share of the balance as its population bears to the total population of the cities.

AND, WHEREAS, ORS 366.810 provides that:

"Funds accrued and payable to cities under ORS 366.785 to 366.820 shall be remitted semiannually by the Secretary of State to the financial officer of each city. The funds appropriated shall be apportioned on a

semiannual basis immediately following June 30 and December 31 of each year by the commission, which shall certify the apportionment to the Secretary of State. Upon receipt of such certificate the Secretary of State shall issue his warrants therefore payable to the cities in the amounts set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period January 1 to June 30, inclusive, of the year 1957, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of ORS 481.540 (motor vehicle registration and operators' license fees) total	$ 6,413,764.82
Funds resulting under the provisions of ORS 319.410 (gasoline tax) total	14,269,657.43
Funds resulting under the provisions of ORS 767.635 (motor carrier fees) total	5,221,951.94
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws total	206,979.64
	$26,112,353.83

AND, WHEREAS, the statutory ten per cent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,611,235.38, from which sum there is to be deducted one-half of the sum of $250,000 or $125,000, thus leaving for allocation and distribution for the period January 1 to June 30, 1957, the sum of $2,486,235.38, and

WHEREAS, by applying the factors of allocation or distribution provided for in ORS 366.800 to 366.810, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below:

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the relocated Siletz Bay-Depoe Bay Section of the Oregon Coast Highway located in Lincoln County, the northerly terminus of which is at Highway Engineer's Survey Station 7+13 and the southerly terminus of which is at the Highway Engineer's Survey Station 430+50 on the relocated highway has been completed and is now open for public travel; and

WHEREAS, due to relocation of the aforesaid section, portions of the former right of way are no longer needed for State highway purposes and may be eliminated from the boundaries of the relocated highway; and

WHEREAS, Lincoln County and the State Highway Commission entered into an agreement under the date of January 19, 1955, relating to the disposition to be made of the portion that may be eliminated, therein and hereafter referred to as Unit "A"; and

WHEREAS, Lincoln County and the State Highway Commission entered into a agreement under the date of August 8, 1957, relating to the disposition to be made of the portion that may be eliminated therein and hereafter referred to as Unit "B"; and

WHEREAS, said agreements provided that Units "A" and "B" would be abandoned by the State Highway Commission as part of the Oregon Coast Highway and the State Highway System and would be maintained thereafter by said County as a County road under the jurisdiction and control of said County; and

WHEREAS, it is the judgment of the State Highway Commission that certain portions of the former right of way of the Siletz Bay-Depoe Bay Section of the Oregon Coast Highway together with the real property acquired by the State for highway right of way or other public purposes shown colored in green on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof, is needed and valuable for right of way purposes and for public use; and *

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway referred to as Units "A" and "B" and effective by reason of the relocation;

NOW, THEREFORE, BE IT AND IT HRERBY IS RESOLVED by this Commission as follows:

1. That the portions or units of the former right of way, which by reason of the relocation of the Siletz Bay-Depoe Bay Section of the Oregon

EXHIBIT "E" (Cont)

Coast Highway are no longer required as part of the right of way, are identified as Units "A" and "B" and described as follows:

Unit "A"

Beginning on the former route of the Oregon Coast Highway at the East-West section line running between Sections 10 and 15 and Sections 9 and 16, Township 8 South, Range 11 West, W. M.; thence southerly via the former route of the Oregon Coast Highway to Highway Engineer's Survey Station 114+30 on the relocated route of the Oregon Coast Highway in the northeast quarter of the southeast quarter (NE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 16, Township 8 South, Range 11 West, W. M.

Unit "B"

All of the land situated within the right-of-way boundaries of the Oregon Coast Highway as formerly routed beginning at the westerly right-of-way line opposite Highway Engineer's Survey Station 73+00 of said highway as relocated in the southwest quarter of the southwest quarter (SW $\frac{1}{4}$ SW $\frac{1}{4}$), Section 10, Township 8 South, Range 11 West, W. M., thence southerly via said former highway to the East-West section line running between Sections 10 and 15 and Sections 9 and 16, Township 8 South, Range 11 West, W. M.

2. That pursuant to the aforesaid agreements, Units "A" and "B", heretofore described, and as shown colored in red on Exhibit "A" attached hereto, are hereby duly abandoned as part of the Oregon Coast Highway and the State Highway System, and all the right, title and interest which the State has in the right of way of said Units "A" and "B" hereby passes to and vests in the said Lincoln County. *

3. That all the right of way in both the former and the relocated routes of the Siletz Bay-Depoe Bay Section of the Oregon Coast Highway together with the real property acquired by the State for highway right of way or other public purposes which is shown colored in green on Exhibit "A" attached hereto shall be retained and held by the State. *

4. That this Abandonment and Retention Resolution No. 297, be entered in the minutes and records of the Oregon State Highway Commission as of the 8th day of August, 1957, and the Secretary be ordered to mail a duly certified copy hereof to the County Court of Lincoln County.

*FOOTNOTE

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem being filed under File No. 297 under the heading "Abandonment and Retention Resolution" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F"

Minutes of August 8, and 9, 1957

RESOLUTION

WHEREAS, Chapter 483 of Oregon Revised Statutes, sets forth maximum limits with respect to the size and weight of vehicles or combinations of vehicles, and the number of vehicles that may be coupled together in a combination of vehicles; and

WHEREAS, under the provisions of said law the State Highway Commission is authorized to issue permits for the operation, upon state highways, of vehicles and combinations of vehicles having a size, weight and number in combination in excess of said maximum limits; and

WHEREAS, under the provisions of ORS Section 483.525, when in the judgment of the State Highway Commission any state highway, or section thereof, is capable of carrying any combination of vehicles having a combination of vehicles gross weight in excess of that authorized in subsection (3) of ORS 483.506, or an overall length in excess of that authorized in subsection (4) of ORS 483.504, the Commission is authorized to so declare by resolution and to fix the maximum gross weight and length and types and classes of combinations of vehicles which may be operated thereon. Said law further provides that after such resolution is filed with the Secretary of State no permit shall be required for the operation upon such highway, or section thereof, of any combination of vehicles not exceeding the maximum gross weight and length fixed for combinations of vehicles of that type and class; and

WHEREAS, the State Highway Engineer has made investigations and studies and has compiled information and statistics relative to the strength, stability, design and alignment of all state highways;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That based upon the studies, investigations, information and statistics made and compiled by the State Highway Engineer, it is the judgment of this Commission that certain highways, or sections thereof, as set forth hereinafter, are capable of carrying combinations of vehicles having a combination of vehicles gross weight in excess of that authorized in subsection (3) of ORS 483.506, or an overall length in excess of that authorized in paragraph 1 subsection (4) of ORS 483.504, or a number of vehicles in the combination in excess of that authorized in subsection (1) of ORS 483.508.

2. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles having an overall length not in excess of 50 feet and a combination of vehicles gross weight not in excess of 68,000 pounds may be operated without a permit upon all those highways or sections

of highways listed on the attached list of "Group II Highways", which for identification is marked "Attachment A", the attached list of "Group I Highways", which for identification is marked "Attachment B", and the attached list of "Special Group I Highways", which for identification is marked "Attachment C"; provided, however, that the above maximum length provision shall not be applicable as to the types of vehicle combinations and the highways named in subsection (4) (c) of ORS 483.504 as amended by Ch. 621, Laws 1957 (H B. 294).

3. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck and full trailer, or of a truck-tractor and semitrailer drawing one trailer, or of a truck-tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel, having an overall length not in excess of 60 feet and a combination of vehicles gross weight not in excess of 76,000 pounds, may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Group I Highways", which for identification is marked "Attachment B".

4. That except when engaged in the transportation of logs, poles or piling, any combination of vehicles consisting of a truck-tractor and semitrailer having an overall length not in excess of 55 feet and a combination of vehicles gross weight not in excess of 74,000 pounds may be operated without a permit upon all those highways or sections of highways listed on the attached list of "Special Group I Highways", which for identification is marked "Attachment C", provided, however, that the above maximum length provision shall not be applicable as to the highways named in subsection (4) (d) of ORS 483.504 as amended by Ch. 621, Laws 1957 (H. B. 294).

5. That nothing contained in this resolution shall be deemed to authorize the operation of vehicles having any gross weight in excess of the applicable gross weights set forth in the tables of weights in subsection (3) and (4) of ORS 483.524, nor any gross wheel, axle or tandem axle weight in excess of that set forth in subsection (3) of ORS 483.506. Nothing contained in this resolution shall be deemed to authorize the operation of any combination of vehicles which is not properly licensed, or does not carry proper Oregon P.U.C. plates and certificates, or, except as otherwise expressly provided herein, which does not comply in all respects with the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

6. That the State Highway Engineer shall prepare, or have prepared, prints of a map to be issued to any person requesting the same, showing in contrasting colors the Group I Highways, the Group II Highways, and the Special Group I Highways referred to in paragraphs 2, 3 and 4 of this resolution. Attached hereto, and for identification marked "Attachment D" is a map showing such highways in contrasting colors. Said map is hereby approved by this Commission and prints thereof shall be issued to any

EXHIBIT "F" (Cont)

interested person requesting the same.

7. That the provisions of this resolution are subject to any order heretofore or hereafter made by this Commission pursuant to ORS 483.532, and the posting of any highway, section of highway, or highway structure to reduced limits of weights or dimensions shall be to that extent a modification of the weights or dimensions authorized by this resolution. This resolution may be changed, amended or rescinded at any time by resolution adopted by this Commission,

8. That this resolution revokes and supersedes a previous resolution of December 1956, dealing with this subject.

9. That this resolution be entered in the minutes of this Commission as of the 8th day of August, 1957, that the original of this resolution be filed in the records of the Secretary of the Commission, and that a duly certified copy thereof be filed with the Secretary of State, the Public Utilities Commissioner, and the Superintendent of State Police.

"ATTACHMENT D"

THE FOLLOWING EXCERPTS FROM THE STATUTES ARE APPLICABLE TO COMBINATIONS OF VEHICLES OPERATING OVER STATE HIGHWAY ROUTE NO. 86 FROM BAKER TO HALFWAY, OREGON AND OVER STATE HIGHWAY NO. 242 (POWERS SECONDARY HIGHWAY, COOS COUNTY) AND TO THE OPERATION OF 60-FOOT TRACTOR-SEMITRAILER COMBINATIONS OVER THE SPECIFIC HIGHWAYS NAMED

O.R.S. 483.604. RESTRICTION ON WIDTH, HEIGHT AND LENGTH OF VEHICLES. (As amended by Chapter 621, Laws 1957, H.B. 294)

* * *

(4) No vehicle operated singly or as a unit in a combination of vehicles shall exceed a length of 35 feet, inclusive of front and rear bumpers, and no combination of vehicles, including any load thereon, shall exceed a total length of 50 feet, except that:

* * *

(c) When operating on State Highway Route Number 86 and State Highway Number 242, a combination of vehicles consisting of a truck tractor and semitrailer drawing one trailer, or a truck tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel or a motor truck and a trailer other than a house trailer may exceed a total length of 50 feet but shall not exceed a total length of 60 feet. [Under a resolution of the Highway Commission, adopted pursuant to authority of O.R.S. 483.525, such combinations of vehicles are limited to a maximum combined gross weight of 68,000 pounds on the Group II Sections shown in green]

(d) When operating over the Pacific Highway [Route No. U.S. 99], The Sherman Highway, The Dalles-California Highway from its junction with the Sherman Highway to the Oregon-California State Line [U.S. 97], The Willamette Highway [Ore. 58], The Columbia River Highway from its junction with the Pacific Highway at Portland to the Oregon-Washington State Line [U.S. 30-730], The Old Oregon Trail from its junction with the Columbia River Highway near Boardman to the Oregon-Idaho State Line near Nyssa, including the Ontario Spur [U.S. 30 and Ore. 201, part], The Mt. Hood Highway from its junction with the Pacific Highway at Portland to the junction of the Warm Springs Highway near Government Camp, the Warm Springs Highway, the Madras-Prineville Highway, the Ochoco Highway from Prineville to the junction with the John Day Highway near Dayville, the John Day Highway from its junction with the Ochoco Highway to Vale, or the Central Oregon Highway from Vale to its junction with Old Oregon Trail at Cairo [U.S. 26], a combination of vehicles consisting of a truck tractor and semitrailer other than a house trailer may exceed 50 feet but shall not exceed a total length of 60 feet. [Under a resolution of the Highway Commission, adopted pursuant to authority of O.R.S. 483.525, such combinations of vehicles are limited to a maximum combined gross weight of 74,000 pounds.]

(e) Any semitrailer operated over the highways named or described in paragraph (d) of this subsection, may exceed a length of 35 feet but shall not exceed a length of 40 feet: but semitrailers over 35 feet in length shall not exceed 32 feet from the center or turning axis (kingpin) to the center of the rearmost axle, and no portion of such semitrailer or its body or load forward of the turning axis shall project to a greater distance than a 60-inch radius from the center of said turning axis.

NOTE: Material in brackets [ ] is added for the information of the industry and to clarify route descriptions.

SUGGESTED TRUCK WEIGHING PROCEDURE AT OREGON STATE HIGHWAY SCALES

For the convenience of the industry as well as the scale operator it is suggested that weights be obtained in the following sequence:

(1) Weight of steering axle
(2) Entire weight of truck or tractor
(3) Entire weight of trailer (last vehicle or unit)
(4) Last axle(s) if a full trailer

Double Header combinations (trains) are to be weighed in the following sequence:

(1) Steering axle
(2) Tractor Unit
(3) Drive axle(s) and last axle(s) of semitrailer
(4) Full trailer (last unit)
(5) Last axle(s) of full trailer

To aid the truck operators in spotting the axles on a scale platform, the green signal light present at most scale installations will be used as follows:

(1) After weighing the steering axle the driver should proceed upon appearance of a continuous green light and should again stop when the light is turned off. This procedure would continue at each position of weighing.

(2) When the weighing is completed two flashes of the light would signify to the driver that he could proceed if desired.

If the above procedures are followed, the time element in weighing would be reduced and the driver's concentration on the proper placement of the equipment on the scale platform would be greatly relieved.

EXHIBIT "G-1"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the Oregon Coast Highway is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles parked on the easterly shoulder and in the median area of said highway at its intersection with Green Acres Road south of Coos Bay in Coos County severely restricts sight distance for vehicles entering said highway from Green Acres Road; and

WHEREAS, the parking of vehicles on the shoulder and in the median area of said highway at said location creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on the easterly shoulder and in the median area of said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles in the median area of the Oregon Coast Highway in the vicinity of M.P. 247.53 between Engineer's Station 472+50 and Engineer's Station 474+25, and on the easterly shoulder of said highway between Engineer's Station 473+00 and Engineer's Station 474+25 creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway on said section is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that parking of vehicles in the median area and on the easterly shoulder of said Oregon Coast Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini and at such points as, in his judgment are necessary to accomplish the purpose of this resolution, and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

EXHIBIT "G-1" (Cont)

6. That this "No Parking" Resolution No. 166 be entered in the minutes and records of the State Highway Commission as of the 8th day of August, 1957.

28757

EXHIBIT "G-2"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the Coos River Secondary Highway No. 241 is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are parked on the shoulders of said highway in the vicinity of the Weyerhaeuser Timber Company access east of allegany in Coos County; and

WHEREAS, an adequate parking area has been provided off the highway at the Millicoma Terminal proper.

WHEREAS, the parking of vehicles on the shoulders of said highway at said location creates a hazard to the traveling public and interferes with highway maintenance activities; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on both shoulders of said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on the southerly shoulder of the Coos River Secondary Highway No. 241, between M.P. 14.68 and M.P. 14.80, and on the northerly shoulder of said highway between M.P. 14.74 and M.P. 14.80 creates a hazard to the traveling public and interferes with highway maintenance operations.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the shoulders of the pavement on either side of said Coos River Secondary Highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution, and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS".

EXHIBIT "G-2"(Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 167 be entered in the minutes and records of the State Highway Commission as of the 8th day of August, 1957.

EXHIBIT "G-3"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the Necanicum Highway No. 46 is under the control and jurisdiction of the State Highway Commission: and

WHEREAS, it appears that vehicles are parked in the triangular area formed by the separate turning legs of Foss Road at its Intersection with the Necanicum Highway north of Mohler in Tillamook County; and

WHEREAS, the parking of vehicles in said area creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on said highway at said location.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles in the triangular area formed at the intersection of Foss Road with the Necanicum Highway No. 46 at M.P. 17.68 creates a hazard to the traveling public.

2. That in the opinion of this Commission this area is not adequate to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles in this area on said Necanicum Highway No. 46 should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING".

5. That a certified copy of the resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 168 be entered in the minutes and records of the State Highway Commission as of the 8th day of August, 1957.

28760

EXHIBIT "G-4"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the Pacific Highway West, No. 1W, (S. W. Barbur Boulevard) is a primary highway under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are parked on the shoulders of said highway in the vicinity of S. W. Hamilton Street in the City of Portland, Multnomah County; and

WHEREAS, the parking of said vehicles in said section creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission public travel and public safety require that parking should be prohibited on said highway within said section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff and by the City of Portland, that parking of vehicles on the westerly shoulder of S. W. Barbur Boulevard (Pacific Highway West) in the City of Portland between a point 0.16 mile southerly from S. W. Hamilton Street (M. P. 2.47 - Engineer's Station 63+50) and a point 0.27 mile southerly from S. W. Hamilton Street (M. P. 2.58 - Engineer's Station 69+50), creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the westerly shoulder of S. W. Barbur Boulevard (Pacific Highway West) within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING AT ANY TIME".

EXHIBIT "G-4" (Cont)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 169 be entered in the minutes and records of the State Highway Commission as of the 8th day of August, 1957.

28762

EXHIBIT "G-5"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the John Day-Burns Highway is under the control and jurisdiction of the State Highway Commission; and

WHEREAS, it appears that vehicles are parked on the shoulders of said highway in the vicinity of the Grant Union High School between the cities of John Day and Canyon City in Grant County; and

WHEREAS, the parking of vehicles on the shoulders of said highway at said location creates a hazard to the traveling public; and

WHEREAS, in the opinion of the Commission, public travel and public safety require that parking of vehicles should be prohibited on both shoulders of said highway at said location;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon recommendations by members of its staff, that the parking of vehicles on both shoulders of the John Day-Burns Highway between M.P. 0.67 and M.P. 1.97 creates a hazard to the traveling public.

2. That, in the opinion of this Commission, the right of way of said highway on said section is not of sufficient width to permit parking of vehicles thereon and at the same time to provide the degree of safety and convenience which, in the opinion of the Commission should be provided the motoring public.

3. That the Commission does further find and declare parking of vehicles on both shoulders of said John Day-Burns Highway within said section should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs within said termini and at such points as, in his judgment, are necessary to accomplish the purpose of this resolution, and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this "No Parking" Resolution No. 165 be entered in the minutes and records of the State Highway Commission as of the 8th day of August, 1957.

EXHIBIT "G-6"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the Klamath Falls-Lakeview Highway is one of the major state highways of the state, is likewise a part of the Federal Highway System and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 20 and State Route No. 66; and,

WHEREAS, the Klamath Falls-Malin Highway also is one of the major state highways of the State, is likewise a part of the Federal Highway System, and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 50, and State Route No. 39; and

WHEREAS, the Highway Commission on May 26, 1952, based upon the recommendation of the State Highway Engineer, took action prohibiting the parking of motor vehicles within the triangular area formed by the intersection of the Klamath Falls-Lakeview Highway with the Klamath Falls-Malin Highway at a point about 5.08 miles east of Klamath Falls, and/or along the shoulders of the said highways on each side of said triangular area; and

WHEREAS, conditions have changed at said intersection so that it no longer is necessary to prohibit the parking of motor vehicles within said intersection.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations made by and under the supervision of the State Highway Engineer, that the action of the Commission taken May 26, 1952 prohibiting the parking of motor vehicles within the triangular area formed by the intersection of the Klamath Falls-Lakeview Highway with the Klamath Falls-Malin Highway at a point about 5.08 miles east of Klamath Falls ("No Parking Resolution No. 78") be rescinded.

2. That the State Highway Engineer be and he hereby is instructed to take such action as in the judgment of said Engineer is necessary to accomplish the purposes of this resolution and the action of the Highway Commission as herein declared.

3. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police and a like copy be mailed to the Sheriff of Klamath County.

4. That this resolution be entered in the minutes and records of the State Highway Commission as "No Parking Resolution No. 78-a", as of the 8th day of August, 1957.

August 8, 1957

EXHIBIT "H-1"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, Based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: Klamath Falls-Lakeview

Highway number: 20 Route number ORE 66

Location of Termini			Established Speed
M.P.		to M.P.	M.P.H.
4.51 (50 feet S. E. of Patterson Street)		6.62 (0.13 mile east of the Klamath Falls-Malin Highway)	50

EXHIBIT "H-1" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 252 be entered in the minutes and records of the Commission as of the 8th day of August, 1957.

EXHIBIT "H-2"

Minutes of August 8 and 9, 1957

RESOLTUION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with rrspect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: _____

Highway number: _____ Route number US 99

M.P.	to M.P.	MPH
T220.81 (South city limits of Myrtle Creek)	T224.57 (450 ft. south of Riddle Junction)	45

except that from a point 600 feet north of Chadwick Lane (M.P. T223.41) to a point 100 feet north of Meadow Lane (M.P. T223.65), the indicated speed shall be 20 MPH during the hours of school crossings as per the provisions of Subsection 1.a., of ORS 483.104.

EXHIBIT "H-2" (Cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled, specifically Speed Zone Resolution No. 162 established August 9, 1954.

BE IT FURTHER ORDERED that this Speed Zone Resolution No. 162a be entered in the minutes and records of the Commission as of the 8th day of August, 1957.

28768

EXHIBIT "I-1"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Grand Avenue-Union Avenue One-way Couplet Section of the Pacific Highway East in Portland, Multnomah County, (Grand Avenue northbound; Union Avenue southbound) and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Grand Avenue-Union Avenue One-way Couplet Section of the Pacific Highway East, beginning at Highway Engineer's Station 0+50 near Hancock Street in Portland and extending in a southerly direction along Grand Avenue to Highway Engineer's Station 105+42.55 near Stephens Street, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1042, dated July 1957, (Right-of-Way Map No. 8B-5-22, dated June 1957) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a non-access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 8th day of August, 1957, as Survey Resolution No. 168.

EXHIBIT "I-2"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location the Hilgard-La Grande Section of the Old Oregon Trail Highway in Union County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Hilgard-La Grande Section of the Old Oregon Trail Highway, beginning at Highway Engineer's Station 600+00, a short distance west of the railroad station of Hilgard, and extending in an easterly direction to Highway Engineer's Station 930+00, approximately 1.5 miles west of the west city limits of La Grande, together with the map, which for identification purposes bears Sketch Map File No. 1R-3-1171, dated July 1957, (Right of Way Map No. 8B-6-10 and 8B-6-11) field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a complete access controlled highway.

4. That heretofore this Commission by resolution dated November 3, 1948, designated the Old Oregon Trail Highway as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095, commonly known

as the "Throughway Law", and for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution

5. That this resolution be entered in the minutes and records of the Commission as of the 8th day of August, 1957, as Survey Resolution No. 169.

EXHIBIT "I-3"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the (1) Hay Canyon-John Day River Section of the Wasco-Heppner Secondary Highway in Sherman County and (2) the Pleasant Hill-Creswell Section of the Springfield-Creswell secondary highway in Lane County and (3) the Union County Line-Rock Creek Section of the Wallowa Lake Highway in Wallowa County, and in connection therewith to prepare maps showing the route and location of said sections and to file said maps, reports, and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1a. That the survey of the Hay Canyon-John Day River Section of the Wasco-Heppner Highway, beginning at Highway Engineer's Station 0+00 immediately south of the community of Hay Canyon and extending in a southeasterly direction to Highway Engineer's Station 303+92.5 at the John Day River, together with the map which for identification purposes bears Sketch Map File No. 1R-5-1055, dated July 1957, (Right of Way Map No. 8B-5-32, dated July 1957; 7B-11-9, dated January 1952; 6B-26-6, dated November 1947), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1b. That the survey of the Pleasant Hill-Creswell Section of the Springfield-Creswell Highway, beginning at Highway Engineer's Station 0+00, at a junction with the Willamette Highway approximately five and one-half miles east of Goshen and extending in a southerly and westerly direction to Highway Engineer's Station 0+00 in Creswell, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1051, dated July 1957, (Right of Way Map No. 8B-5-23 and 8B-5-24, dated June 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

1c. That the survey of the Union County Line-Rock Creek Section of the Wallowa Lake Highway, beginning at Highway Engineer's Station 31+00 near Minam and extending in an easterly direction to Highway Engineer's

Station 478+25.6, a short distance west of Rock Creek, together with the map which for identification purposes bears Sketch Map File No. 1R-3-1170, dated July 1957, (Right of Way Map No. 8B-6-12 and 8B-6-13, dated July 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said surveys constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the said highways along and over these surveys. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of limited access controlled highways.

4. That this resolution be entered in the minutes and records of the Commission as of the 8th day of August, 1957, as Survey Resolution No. 170.

EXHIBIT "J-1"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive - Barbur Boulevard Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, inprovement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion. acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

28774

EXHIBIT "J-1" (Cont)

and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is

EXHIBIT "J-1" (Cont.)

directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 834.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 834, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28776

EXHIBIT "J-2"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Salem By-Pass Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Salem By-Pass Section of the Portland-Salem Expressway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, construction, improvement and maintenance of the said Salem By-Pass Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking,

and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 835.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 835, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-3"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power or eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public

EXHIBIT "J-3" (Cont)

interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 836.

---

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 836, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Exhibit "J-4"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Valley Junction-Sheridan Section of the Salmon River Highway, and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interest of the owners and the State are best served, even though said entire tract is

not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Valley Junction-Sheridan Section of the Salmon River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Salmon River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Valley Junction-Sheridan Section of the Salmon River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to

EXHIBIT "J-4" (Cont)

said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 837.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 837, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28784

EXHIBIT "J-5"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised States, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 347, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goble-St. Helens Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-5" (Cont)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property or interest therein is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "J-5" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 838.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 838, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-6"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sunset Highway; and

WHEREAS, the Highway Commission has be a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

28788

EXHIBIT "J-6" (Cont)

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Sunset Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Sunset Highway, including the Highlands Traffic Interchange, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening, improvement and maintenance of the said Sunset Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

28790

EXHIBIT "J-7"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Davis Slough-Bandon Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

EXHIBIT "J-7" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be required, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "J-8"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

EXHIBIT "J-8" (Cont)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Pacific Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Pacific Highway, including its Hayden Island Traffic Interchange, and all of the contiguous real property of the owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, construction, improvement and maintenance of the said Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "J-8" (Cont)

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 841.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 841, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-9"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Newport-Toledo Section of the Corvallis-Newport Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said

EXHIBIT "J-9" (Cont)

highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Newport-Toledo Section of the Corvallis-Newport Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Corvallis-Newport Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Newport-Toledo Section of the Corvallis-Newport Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement or admission as in his

judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 842.

EXHIBIT "J-10"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that the said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property

hereinafter described is necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the Oregon Coast Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted.*

3. That the widening, construction, improvement and maintenance of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "J-11"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Heppner-Spray Highway; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, constructing, improving and maintaining of the said Heppner-Spray Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That the widening, construction, improvement and maintenance of the said Heppner-Spray Highway and the highway facilities for which each

EXHIBIT "J-11" (Cont)

of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 844.

28804

EXHIBIT "J-12"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the North Jefferson Junction-Albany Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law, and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-12 " (Cont)

WHEREAS, for the purpose of relocating in part, widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Pacific Highway East, including its Santiam Highway connection leg, and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation in part, widening, construction, improvement and maintenance of the said North Jefferson Junction-Albany Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit

EXHIBIT "J-12" (Cont)

or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 845.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 845, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-13"

Minutes of August 8 and 9, 1957

R E S O L U T I O N

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and purposes to widen, improve and maintain the Hinsdale Slough-Luder Creek Section of the Umpqua Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT IS HEREBY RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system and the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Umpqua Highway and all of the

contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit "A". *

3. That the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 846.

---

* FOOTNOTE:

The name of the property owner and the detailed description of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 846, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-14"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Tillamook-Donaldson Creek Section of the Wilson River Highway; and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "J-14"(Cont)

WHEREAS, for the purpose of relocating, constructing, improving, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the State highway system, and the relocation, construction, improvement and maintenance of the said Tillamook-Donaldson Creek Section of the Wilson River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Wilson River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Tillamook-Donaldson Creek Section of the Wilson River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "J-14" (Cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 847.

EXHIBIT "J-15"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof, or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system and right of way for a haul road; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "J-15" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 849.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 849, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28816

EXHIBIT "J-17"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, improve and maintain the Salem By-Pass Section of the Portland-Salem Expressway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, construction, improvement and maintenance of the said Salem By-Pass Section of the Portland-Salem Expressway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and improved Portland-Salem Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the widening, construction, improvement and maintenance of the said Salem By-Pass Section of the Portland-Salem Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "J-17" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 851.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 851, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-18"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 347, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goble-St. Helens Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property or interest therein is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said

EXHIBIT "J-18" (Cont)

parcels of real property as to the compensation to be paid for the taking and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 8th day of August, 1957, as Condemnation Resolution No. 852.

---

28822

EXHIBIT "K"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, Benson State Park is an Oregon park established by and under the jurisdiction and control of the State of Oregon, by and through its State Highway Commission; and

WHEREAS, there is a lake located within the area of said State Park which said lake is described as follows, to wit:

> Lying between the Oregon Washington Railroad & Navigation Company tracks and the Columbia River Highway in Benson State Park. The westerly end of which is opposite Engineer's Highway Station 1211+00 (Mile Post 29.0), the easterly end being opposite Engineer's Highway Station 1231+00 (Mile Post 29.4) in Government Lot 1, Section 12, Township 1 North, Range 5 East, and Government Lots 3 and 4, Section 7, Township 1 North, Range 6 East, W. M., in Multnomah County, Oregon.

Attached hereto, marked Exhibit "A", and by this reference made a part hereof, is a map of one page showing the location of said lake in said park. *

WHEREAS, swimming facilities are provided in the lake area of said Benson State Park; and

WHEREAS, various persons on numerous occasions operate motor boats in the said lake at said Benson State Park and said motor boat operators propel their boats through the area used by swimmers and thereby endangering the lives and safety of the persons using the said swimming facilities at said lake; and

WHEREAS, it is the opinion of the Highway Commission that it is necessary, in order to protect the lives and safety of persons using the swimming area and facilities in said Benson State Park, to prohibit the use and operation of motor boats at any time within the area of Benson State Park;

NOW, THEREFORE, be it and it hereby is, resolved and ordered by the Highway Commission, as follows:

1. The Commission does hereby find and declare that the operation of motor boats on the lake in Benson State Park creates a hazard that endangers the lives and safety of those persons using the swimming facilities at said lake.

EXHIBIT "K" (Cont)

2. The Highway Commission does further find, declare and order that the use and operation of motor boats in said Benson State Park is prohibited at all times.

3. The State Park Superintendent or his duly authorized representative is hereby instructed to erect signs within said park area prohibiting the use and operation of motor boats therein.

4. A duplicate original hereof shall be filed with the Secretary of State of Oregon in accordance with ORS 183.020.

5. That this resolution be entered as State Parks Resolution No. 11 in the minutes and records of the State Highway Commission this 8th day of August, 1957.

---

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 11 under the heading "State Parks Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

28824

EXHIBIT "L"

Minutes of August 8 and 9, 1957

RESOLUTION

WHEREAS, on January 18, 1955, the State Highway Commission by Miscellaneous Resolution No. 125 adopted a certain area described in the above mentioned Resolution as Big Creek State Park, and located in Lincoln County, Oregon; and

WHEREAS, it is deemed to be in the public interest that the name of the above said park be changed to Beachside State Park.

NOW, THEREFORE, BE IT AND IT HEREBY IS ORDERED AND RESOLVED by this Commission as follows:

1. That the portion of Miscellaneous Resolution No. 125 adopted by the State Highway Commission on January 18, 1955, and describing a park area, designated as Big Creek State Park, is hereby amended so as to designate the said described park area as Beachside State Park.

2. That this resolution be entered in the minutes and records of this Commission this 8th day of August, 1957, as Miscellaneous Resolution No. 125e.

Salem, Oregon
August 29, 1957

A special meeting of the State Highway Commission was held this date in the office of the State Highway Engineer, Room 137, State Highway Building, to dispose of a number of important matters. Present were:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
R. B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
Forrest Cooper, Deputy State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Counsel
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The Commission discussed the proposed sale of highway bonds that were authorized by the 1957 Legislative Assembly to finance highway construction, totalling $20,600,000. (See Chapters 22 and 354, Oregon Laws 1957.) The question arose whether to sell all of the bonds now or to limit the sale to a portion of them, the balance to be sold as funds are required to meet obligations. After a full discussion of this matter, the Commission decided unanimously that the immediate sale of all of the bonds combined in one issue would be advisable and in the best interests of the State. The Commission also unanimously decided to issue the bonds in denominations of $1,000 each, and that the bonds should be dated November 1, 1957, and should contain the provision that they would be callable in ten years or thereafter; further, that the effective rate of interest should not exceed 4%; and that the bonds should be sold at a discount of not less than 98% of the par value of the bonds.

The Commission unanimously approved the following schedule of maturities and maturity dates covering the entire issue:

OREGON STATE HIGHWAY DEPARTMENT
Salem, Oregon

SCHEDULE OF MATURITY DATES FOR $20,600,000 BOND ISSUE
BONDS TO BE DATED NOVEMBER 1, 1957

Date	Maturity Payments	Interest Payments (Est. Rate 3.70)
5/1/58	$ --	$ 381,100
11/1/58	--	381,100
5/1/59	--	381,100
11/1/59	--	381,100

Date	Maturity Payments	Interest Payments (Est. Rate 3.70)
5/1/60	$ --	$ 381,100
11/1/60	1,000,000	381,100
5/1/61	---	362,600
11/1/61	1,000,000	362,600
5/1/62	--	344,100
11/1/62	1,000,000	344,100
5/1/63	--	325,600
11/1/63	1,000,000	325,600
5/1/64	--	307,100
11/1/64	1,000,000	307,100
5/1/65	--	288,600
11/1/65	1,500,000	288,600
5/1/66	--	260,850
11/1/66	1,500,000	260,850
5/1/67	--	233,100
11/1/67	1,500,000	233,100
5/1/68	--	205,350
11/1/68	1,500,000	205,350
5/1/69	--	177,600
11/1/69	1,600,000	177,600
5/1/70	--	148,000
11/1/70	1,600,000	148,000
5/1/71	--	118,400
11/1/71	1,600,000	118,400
5/1/72	--	88,800
11/1/72	1,600,000	88,800
5/1/73	--	59,200
11/1/73	1,600,000	59,200
5/1/74	--	29,600
11/1/74	1,600,000	29,600
Total	$20,600,000	$8,184,400

The date for receiving bids for the purchase of the bonds was discussed by the Commission, and it was decided to receive the bids at 10:00 a.m. on Tuesday, October 1, 1957, in the Imperial Hotel, Portland. The Secretary was instructed to arrange for a room to accommodate the meeting.

Next discussed was the media for advertising the sale of the bonds. The Commission decided unanimously to continue the practice that has been followed in the past in such matters, and accordingly authorized the publishing of the notice in the Daily Bond Buyer, New York City, and in the Daily Journal of Commerce, Portland, Oregon.

The question arose as to how much of a guarantee bidders should be required to deposit with their respective bids, and it was the Commission's decision that each bidder should be required to deposit with the Commission, along with his bid, an amount equal to 1% of the aggregate amount of the bid.

The Commission also discussed the matter of printing the bonds and decided unanimously to follow the same procedure that has been followed in connection with previous bond issues.

The selection of a bond attorney was also discussed. The Commission decided unanimously to obtain, if possible, the services of the law firm of Winfree, McCulloch, Shuler and Sayre, Portland, Oregon, which firm has passed on previous bond issues for the State Highway Department.

Following further discussion of the matter of a general nature, the Commission instructed the Chief Counsel to prepare a form of resolution embodying all of the things that were discussed at this meeting, and to present the same to the Commission for adoption at its next regular meeting scheduled to be held in Portland on September 12, 1957.

The Engineer brought up for discussion the matter of contributing an additional amount toward the financing of the AASHO test road that is being constructed. Available financing, he said, presently is $19,000,000; however, when bids were opened for construction it was found that the costs involved were materially in excess of such amount, so there is now an approximate deficit of $3,500,000 to complete construction and conduct the necessary tests. The Executive Committee of AASHO at a recent meeting recommended that the states by apportionment allocate federal-aid planning and research funds in an amount sufficient to provide for the deficit. The additional assessment against the State of Oregon is 1.4% of the total, and amounts to $49,000. He pointed out that the operation of this test road was a requirement of Section 210 of the Federal-aid Highway Act of 1956. He recommended that he be given authority to authorize payment by the Bureau of Public Roads to the Highway Research Board, under whose jurisdiction the test is being conducted, the sum of $49,000 as Oregon's share of the amount necessary to complete construction and operation of this road test. The Commission adopted the recommendation and authorized the additional contribution from Oregon's share of the Federal funds.

The Engineer also brought up for discussion a proposed settlement with Delano Aerial Surveys, Portland, to whom the Commission awarded State Highway Contract No. 4632, for the Portland Area Aerial Photography and Mosaic Project, in Multnomah, Clackamas and Washington Counties. He recalled that the Commission at its meeting on August 8 and 9, 1957 declared this contractor in default; however, subsequently an arrangement was made with the contractor for the release of its interests, whereby the State is to pay the contractor for all work accomplished amounting to $7,720.00, less the sum of $1,588.47, which represents additional

engineering costs incurred by the State, and expense, due to the contractor's inability to complete the job. The arrangement also provides that the State will not pay for pictures or for mosaics. Total payment to the contractor, therefore, is $6,131.53. He recommended approval of the arrangement on the condition that Delano Aerial Surveys will sign a statement accepting the settlement and agreeing to make no further demands on the State. He also recommended that the Commission rescind the action taken on August 9, 1957, declaring this contractor in default if they will sign such an agreement. The recommendations were adopted by the Commission unanimously.

The Engineer requested authority for an expenditure of $14,000 to illuminate the Dayton Junction interchange at the junction of the Three Mile Lane Secondary Highway with the Salem-Dayton Secondary Highway in Yamhill County. He explained that the illumination of this interchange is in conformity with the Commission's established policy with respect to such matters. The Commission approved the expenditure and authorized the Engineer to advertise the project for bids to be received at the next regular meeting on September 12, 1957.

The Commission discussed matters pertaining to the damage cases that have been filed against the State as a result of the flood that occurred in the town of Mitchell on the Ochoco Highway, Wheeler County. The Chief Counsel advised that in conformity with authority granted him by the Commission at the previous meeting, he discussed with the attorneys for the plaintiffs a lump sum settlement of all of the cases and ascertained that the lowest amount that they would accept is $145,000. He requested instructions. The Commission refused to settle on such basis and instructed the Chief Counsel to so inform the attorneys for the claimants. In this connection the Chief Counsel requested instructions relative to the payment of the judgment that has been returned in the case of Sigfrit vs. State, which involves payment of damages with interest, totalling $16,047.95, and court costs, amounting to $562.96. The Commission approved payment of the amounts involved in this case.

The Chief Counsel brought to the Commission's attention a condemnation case that is coming up for trial soon on the Hinsdale Slough-Luder Creek Section of the Umpqua Highway, Douglas County, being the case of the State vs. Charles O. Josephson and Norma Josephson. He explained that the taking in this case is 2.38 acres for right of way and that in the negotiations access was allowed at four locations; however, it now appears that they are inadequate to permit timber to be removed from the owner's adjoining property. Accordingly, the owners have asked that an additional access be granted. He recommended approval of the request. The Engineer stated his concurrence. The Commission approved the recommendation by adopting the following resolution relative thereto, amending a previous resolution that was adopted by the Commission on March 27, 1957:

(See following page for resolution)

28829

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstruced view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Hinsdale Slough-Luder Creek Section of the Umpqua Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required for the construction, improvement, betterment and maintenance of highways of the state highway system and the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Umpqua Highway and all of the contiguous real property of the respective owners remaining after

the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit"A".*

3. That the widening, improvement and maintenance of the said Hinsdale Slough-Luder Creek Section of the Umpqua Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 29th day of August, 1957, as Condemnation Resolution No. 853.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 853, under the heading "Real Property Condemnation Resolutions", and said description, map and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

The Engineer brought up for discussion the matter of acquiring two parcels of land that are required in connection with the widening of the Salem By-pass Section of US 99, one being a parcel that is owned by the Salem Chamber of Commerce, consisting of 21.95 acres, that is needed as a material source, and the other owned by Mr. Rex Ellis, Pendleton, consisting of 0.67 acres, that is needed as right of way, including 0.68 acre for easement. The Engineer advised that a tentative arrangement

has been made with the Salem Chamber of Commerce whereby the State is to pay $500 per acre for the 21.95 acres involved, and is to deed the property back to the Chamber of Commerce when it no longer is needed for highway purposes, as the Chamber plans to develop the area as a local park. He recommended approval of such settlement. The Commission adopted the recommendation. Concerning the Rex Ellis property, the Engineer advised that Mr. Ellis is disinclined to negotiate for the sale of right of way only, but wants the State to purchase his entire holdings at this point, consisting of approximately 48 acres, which is now developed as a recreational area known as Paradise Island, it being his feeling that the area could be further developed by the State as a state park. The Parks Superintendent advised that it is not feasible to establish a state park at this location. He pointed out that the area is now developed for local use only and does not fit into the state park picture. He recommended against the purchase of the entire property. As a result of discussion and in view of the statements of the Parks Superintendent, which were endorsed by the Engineer, the Commission decided unanimously not to acquire the Ellis property in its entirety and authorized the Chief Counsel to proceed with condemnation of the right of way only. The Secretary was instructed to inform Mr. Ellis of the action taken, advising the reasons therefor and to state further that the Commission appreciates his suggestions and regrets that it cannot accept them.

Commissioner McIver brought up for discussion the matter of recording the meetings of the State Highway Commission. He referred to the Secretary's letter on the subject, and advised that the Commission reached the conclusion that it would like to try out a system whereby discussions would be recorded verbatim on a recording machine. He said that there are a number of firms in Portland that handle that type of equipment and that the Commission has authorized him to arrange for an installation so the system can be tried out at the next meeting of the Commission on September 12 and 13.

There being no further business to come before the Commission at this time, the meeting adjourned at 4:00 p.m.

State Highway Engineer

Commissioner

Secretary

Commissioner

August 29, 1957

Portland, Oregon
September 12, 1957

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Queens Room of the Imperial Hotel. Present were:

Charles H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
G. S. Paxson, Assistant State Highway Engineer
Leonard I. Lindas, Chief Counsel
G. E. Rohde, Assistant Chief Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids for highway construction as follows, were opened and read aloud by the Secretary, who then announced that the Commission would award contracts at 4:00 p.m. in the same room:

CLACKAMAS COUNTY
GRADING AND PAVING SANDY-ALDER CREEK SECTION OF THE MT. HOOD HIGHWAY

Rogers Const. Co. & Rogers Const , Inc., Portland	$1,704,932.25
Porter W. Yett, Portland	1,885,227.00
Warren Northwest, Inc., Portland	1,930,600.50
Newport Construction Co., Portland*	1,983,549.40
Fred H. Slate & E. C. Hall Co., Portland	2,025,486.00
R. A. Heintz Construction Co., Portland	2,042,291.90
J. N. Conley, Portland	2,066,992.90
Roy L. Houck & Sons, Salem	2,092,191.30
Kuckenberg Construction Co., Portland	2,119,455.50
Morrison-Knudsen Co., Seattle	2,155,968.50
Peter Kiewit Sons Co., Vancouver, Wn.	2,210,257.00
Babler Bros., Inc., & Carl M. Halverson, Inc.,Portland	2,229,960.00
Darkenwald & Harms, Sacramento, California	2,271,622.00

*Bidder will accept award of only one project at this letting.

Rochat Electric, Portland	12,795.00

Hon. Guy Boyington, County Judge of Clatsop County, was present regarding the access road that leads to the beach from US 101 in the vicinity of Hug Point. He advised that a court proceeding has been started by the adjacent property owner to vacate this particular 80-foot strip of road or parking area, as he called it, and he urged the Commission to do what is necessary to retain the roadway for public use. He recited the history of the road which, he said, was turned over to the State in 1930 under an arrangement with Clatsop County and Tillamook County when construction of a new highway from Cannon Beach to Tillamook was under contemplation. He pointed out that the State assumed jurisdiction over the road immediately and maintained it for about 2 years before the connecting link of the new highway around and through Neahkanie Mountain was completed, but the State has not maintained the road since that time, and according to the County records it is still a county road. He asserted that the road is too valuable to lose because it provides public access to the beach at this point which is a playground for hundreds of people. He also said that a driveway to the beach is not particularly needed, but access for pedestrians should be provided and they should also be furnished a place to park their cars. He mentioned that the County Court held a public hearing on the mat-

ter sometime ago when the adjacent property owner's petition for vacation of the road was denied; however, it is his understanding that the owner is going to appeal the case to the circuit court. In answer to an inquiry from Chairman Reynolds as to what he felt the Commission should do, Judge Boyington replied that the Highway Commission should do whatever is necessary to retain the road as a public convenience, and if the Commission feel that the County should deed the strip to the State in order to protect public interests, the County Court will be very glad to execute a deed conveying the property to the State. The Engineer advised that the location referred to by Judge Boyington is a very attractive one and that the road provides an approach to the ocean beach. He gave as his feeling that the road should not be relinquished and that the State should either improve the approach or close it off to the public because presently it cannot be used with safety. He asked the State Parks Superintendent to express his feelings in the matter. The Parks Superintendent advised that he is not prepared to discuss the matter from a definite standpoint at this time because his study of the situation is not complete. He mentioned, however, that the owner of the property on each side of the roadway, a Mr. Johnson, has offered to deed to the State the land on both sides except a small portion that he wants to maintain for a cabin, and he has also offered to deed to the State an additional 88 acres on the east side of the highway but he has imposed some conditions which are not too good and will have to be ironed out. One of these conditions, he said, is that the State purchase a house that is located on the ridge to the north of the road. It is not too valuable but would probably cost the State about $10,000. He further stated that Mr. Johnson indicated to him that he would give the State ample time to complete its study of the situation and to determine the value of the area as a state park. Judge Boyington expressed his opinion that Mr. Johnson's offer should not be included in negotiations for the roadway, although it would be satisfactory from the County standpoint if the State negotiated as a separate deal for some extra ground along the 80-foot strip in order to develop a picnic area. It would be better, he added, were the State to acknowledge ownership of the 80-foot strip of ground and were Mr. Johnson informed that the State intends to retain it for public use and then deal separately with the owner for the additional area. He reiterated that the County does not want a vehicular connection with the beach but it does want a parking area provided and access maintained to the beach for pedestrians This matter was discussed at considerable length and as a result thereof, the Commission decided unanimously to accept a deed from the County conveying the 80-foot strip to the State for public use. The matter was referred to the Chief Counsel to handle the details and to do whatever is necessary to protect the State's interest and to provide a proper access to the beach as may be feasible. Judge Boyington expressed satisfaction for such an arrangement.

Judge Boyington then brought up for discussion a rumor that is being circulated in Clatsop County concerning the future of Bradley Park, situate on the old route of the Columbia River Highway at Clatsop Crest. The rumor, he said, is to the effect that this park is to be isolated without access facilities. He pointed out that the County acquired the area from the Bradley estate about 35 years ago with the understanding that it would be used for park purposes. The area was conveyed to the State on the same

condition and if the State now does not provide access to it from the new highway, the property will revert to the Bradley estate in conformity with the provisions of the original arrangement. The rumor he said, arises out of the fact that the new highway at this point is in a deep cut. He was informed by Chairman Reynolds that the rumor is without foundation and that the Highway Commission has no intention to discontinue this park. It was his feeling that sufficient publicity will be given to the matter to stop the rumor. This concluded the discussion.

The Commission had under discussion the sale of $20,600,000 of Oregon State Highway Bonds, being the total amount of the bonds that were authorized by action of the 1957 Oregon Legislative Assembly, under two separate acts, $8,000,000 authorized under the provisions, of Chapter 22, Oregon Laws 1957, and $12,600,000 authorized under the provisions of Chapter 354, Oregon Laws 1957. Present and participating in the discussion of this matter was Mr. Fred Paulus, Deputy State Treasurer, was introduced by the Commission's Chief Counsel, Mr. Leonard I. Lindas. Mr. Paulus stated that he has given this matter very careful study and has consulted with Mr. John Shuler, of the law firm of Winfree, McCulloch, Shuler, and Sayre, Portland, which has been retained by the Commission to pass on the validity and legality of the issue, and the first question that arose was whether or not it will be necessary to sell the bonds under each act separately or can the two authorizations be combined under one issue, and it was decided that one issue combining the two will be satisfactory. He also said that the matter of maturities was considered, and it was their feeling that maturities should not be extended over too long a period because it might result in payment of a higher rate of interest. He further stated that the bond attorneys have approved the Commission's proposed resolution covering the sale of the bonds and notice of sale as prepared. He called upon Mr. Fred G. Johnson, Vice President of the United States National Bank of Portland, who was present, for further remarks. Mr. Johnson stated that there is very little more to say on the subject, and that he concurs with Mr. Paulus' remarks. He added that the corporate and municipal financing in the next quarter is very heavy, and there is one school of thought to the effect that the market will decline further; however, considering the quality of the highway bonds and the pledge of the revenues, as of today the Commission should receive a bid of interest rate not to exceed 3 -3/4%. He mentioned that the State is also

selling on October 1, $6,000,000 of Veterans bonds, making a total of $26,600,000 of Oregon bonds to be sold at one time which, he said, is a pretty heavy schedule. He mentioned that notwithstanding the situation, the highway bonds will certainly be saleable and at a rate in keeping with today's rates of interest. There followed a general discussion of this matter, and as a result thereof, the Commission decided to proceed with the sale of the bonds in one issue in conformity with the provisions of the resolution that has been prepared and approved by the bond attorneys, a copy of which heretofore was furnished each member of the Commission. Mr. Paulus stated that the Commission should adopt the resolution at this time. Commissioner McIver thereupon moved, and Commissioner Chessman seconded, adoption of the following resolution regarding the sale of the bonds, which motion, upon being put to vote by Chairman Reynolds received the unanimous vote of the Commission and was by the Chairman declared carried, to wit:

RESOLUTION

BE IT RESOLVED BY THE STATE HIGHWAY COMMISSION OF THE STATE OF OREGON that, of the bonds authorized by Article XI, Section 7 of the Constitution of the State of Oregon, and further authorized by Chapters 22 and 354, Oregon Laws 1957, TWENTY MILLION SIX HUNDRED THOUSAND DOLLARS ($20,600,000) par value be issued and sold in order to carry out the purposes of said Article with respect to the construction of permanent roads, and the purposes of the said laws; and

BE IT FURTHER RESOLVED that the principal of and the interest upon all of the bonds issued pursuant to this resolution be paid upon the due dates thereof at the Fiscal Agency of the State of Oregon in the City and State of New York, and that the bonds be known and designated as OREGON STATE HIGHWAY BONDS SERIES 1957A, and be numbered consecutively from one (1) to twenty thousand six hundred (20,600) inclusive; and

BE IT FURTHER RESOLVED that the said bonds be dated November 1, 1957, be issued in denominations of $1,000 each to mature serially in numerical order on the first day of November in each of the years 1960 to 1974 inclusive in principal installments as follows:

$1,000,000 par value on November 1 of each of the years 1960 to 1964, both inclusive.

$1,500,000 par value on November 1 of each of the years 1965 to 1968, both inclusive.

$1,600,000 par value on November 1 of each of the years 1969 to 1974, both inclusive

provided that the bonds of the issue numbered 1 to 8,000 inclusive

aggregating $8,000,000 par value that mature in the years of 1960 to 1966, both inclusive, shall be issued under authority of Chapter 22, Oregon Laws 1957 and that the bonds of the issue numbered 8,001 to 20,600 inclusive aggregating $12,600,000 par value that mature in the years 1967 to 1974, both inclusive, be issued under authority of Chapter 354, Oregon Laws 1957, and that the bonds of the issue that mature during the years 1968 to 1974, both inclusive, shall be subject to redemption in regular numerical order at par value and accrued interest upon November 1, 1967, and upon any interest date thereafter, pursuant to notice of intention to exercise said option, given in the manner indicated in ORS 286.040; and

BE IT FURTHER RESOLVED that the said bonds shall bear interest payable semiannually on the first days of May and November in each year, at the rate or rates specified in the accepted bid for the bonds; and

BE IT FURTHER RESOLVED that the State Highway Commission furnish to the original purchaser or purchasers of such bonds, without cost to them the written opinion of Messrs. WINFREE, McCULLOCH, SHULER & SAYRE, Attorneys of Portland, Oregon, certifying to the validity and legality of the said bonds; and

BE IT FURTHER RESOLVED that bids for the said bonds shall be received on October 1, 1957, at the hour of 10 o'clock A.M. Standard Oregon Time, at a meeting of the Commission to be held at that time in the Elizabeth Room of the Imperial Hotel in Portland, Oregon, and that the Secretary of the Commission cause a notice of sale of the bonds to be published in one issue of the DAILY BOND BUYER, a financial newspaper printed and published in the City and State of New York, and in one issue of THE DAILY JOURNAL OF COMMERCE, a daily newspaper of general circulation printed and published in the City of Portland, Multnomah County, Oregon, at least ten (10) days prior to the date of the proposed sale of the bonds; and

BE IT FURTHER RESOLVED that the said notice specify that the said bonds shall bear interest on par value at a coupon rate or rates, in multiples of $\frac{1}{4}$ of 1% but not exceeding four percent (4%) per annum, and shall be sold at not less than $98 for each $100 par value at an effective interest rate, computed on a simple interest basis, of not to exceed FOUR PERCENT (4%) per annum, payable semiannually; that each bidder submitting a bid for the bonds shall include therewith as a good faith deposit a certified check in the sum of $300,000, drawn upon a bank having a capital and surplus of not less than $10,000,000, and that the State Highway Commission of the State of Oregon reserves the right to reject any or all bids for the bonds; and

BE IT FURTHER RESOLVED that the said bonds be executed with the facsimile signatures of two of the officers designated in Oregon Revised Statutes 286.050, and with the manual signature of the other of such officers, as shall be agreed upon by them, and that the interest coupons annexed to the bonds be executed with the facsimile signatures of all of said officers; and

BE IT FURTHER RESOLVED that the State Treasurer of the State of Oregon be, and he hereby is, authorized to deliver the said bonds to the purchaser or purchasers thereof after the date of sale, execution, and sealing thereof, upon the payment of the purchase price thereof; and

BE IT FURTHER RESOLVED that the Secretary of the Commission cause the notices of sale of said bonds to be published in the form indicated in Exhibit A attached hereto, and made a part hereof; and

BE IT FURTHER RESOLVED that the State Highway Commission, through the State Department of Finance and Administration, obtain bids for the lithographing of the said bonds.

EXHIBIT "A"

NOTICE OF BOND SALE

$20,600,000

STATE OF OREGON

OREGON STATE HIGHWAY BONDS

SERIES 1957A

SEALED BIDS will be received by the STATE HIGHWAY COMMISSION of the State of Oregon until the hour of 10 o'clock A.M., Standard Oregon Time, on October 1, 1957, at the Elizabeth Room of the Imperial Hotel at Broadway and Stark Streets, in the City of Portland, Oregon, and will be immediately opened and considered for TWENTY MILLION SIX HUNDRED THOUSAND DOLLARS ($20,600,000) par value of OREGON STATE HIGHWAY BONDS, SERIES 1957A.

The said bonds will be the direct general obligation bonds of the State of Oregon, will be numbered 1 to 20,600 inclusive, and will be sold at not less than $98 for each $100 par value thereof and the accrued interest thereon, to the bidder offering the lowest effective rate of interest upon the bonds not exceeding 4% per annum payable semiannually computed upon a simple interest basis.

The bonds will bear interest payable semiannually on May 1 and November 1 of each year, at such rate or rates, in multiples of $\frac{1}{4}$ of 1% but not exceeding four percent (4%) per annum on par value, as shall be designated in the accepted bid for the bonds. Both the principal of and the interest upon the bonds will be paid at the Fiscal Agency of the State of Oregon in the City and State of New York (The First National City Bank of New York). The bonds will be dated November 1, 1957, will be in coupon form, will be in denominations of $1,000 each, and will mature serially in numerical order in principal installments and on dates as follows:

$1,000,000 each on November 1 of each of the years 1960 to 1964, both inclusive.

$1,500,000 each on November 1 of each of the years 1965 to 1968, both inclusive.

$1,600,000 each on November 1 of each of the years 1969 to 1974, both inclusive.

The bonds that mature during the years 1968 to 1974, both inclusive, will be subject to prior redemption at par value in regular numerical order at the option of the State of Oregon upon thirty days prior published notice, on any interest-paying date on and after November 1, 1967.

All bids must be unconditional and be accompanied by a certified check, drawn upon a solvent bank, having a capital and surplus of $10,000,000 or more, in favor of the State Highway Commission of the State of Oregon, for $300,000. The proceeds of the check will not draw interest but will be forfeited to the State of Oregon as liquidated damages in case the bidder to whom the bonds are awarded should withdraw his bid or fail to complete his purchase in accordance with the terms thereof. The bonds will be delivered complete, on or before November 4, 1957, without cost to the successful bidder, at such bank in New York City, or in Chicago, Illinois, or in Portland, Oregon, having a capital and surplus of $10,000,000 or more, as the successful bidder shall name.

Each bidder is requested to include in his bid a statement of the total interest cost and effective interest rate, based upon aggregate interest cost, that the State of Oregon will pay upon the issue if the bid be accepted and none of the bonds of the issue that are subject to optional redemption are called for payment prior to final maturity date.

The successful bidder will be furnished, without cost to him, with the unqualified legal opinion of Winfree, McCulloch, Shuler & Sayre, Attorneys of Portland, Oregon, approving the validity of the bonds.

The State Highway Commission reserves the right to reject any or all bids for the bonds.

Offers for the bonds should be addressed to the State Highway Commission of the State of Oregon, and should be designated "Bid for Oregon State Highway Bonds, Series 1957A." Mailed bids must be received by the undersigned at Room 134, State Highway Building, Salem, Oregon, by September 30, 1957.

Dated at Salem, Oregon, the 12th day of September, 1957.

STATE HIGHWAY COMMISSION OF THE STATE OF OREGON

By H. B. Glaisyer, Secretary

Address: Room 134, State Highway Bldg.
Salem, Oregon

Published:

September 12, 1957

Next discussed was the matter of printing the bonds, and it was decided to ask the State Department of Finance and Administration to obtain bids for the lithographing of the bonds as provided in the resolution. The Secretary was authorized and instructed to advertise the sale of the bonds in the Daily Bond Buyer, New York City, and in the Daily Journal of Commerce, Portland, Oregon.

The Commission thanked Mr. Paulus and Mr. Johnson for the valuable service they have rendered in connection with this matter.

The Commission approved the minutes of the regular meeting held on August 8 and 9, 1957, but deferred until later approval of the minutes of the special meeting held in Salem on August 29, 1957.

The State Parks Superintendent reported as follows on state park matters:

1. Request of U.S. Navy, Thirteenth Naval District, Seattle, for renewal of a lease of a small area at Shore Acres State Park for the year ending July 1, 1958: The Parks Superintendent advised that the original agreement expired on July 1, 1957 and that the Navy is requesting a one year extension thereto. He recommended approval of the request. The Commission adopted the recommendation.

2. Request of Aurora Telephone Company for permission to install and maintain a telephone booth in Champoeg State Park: The Parks Superintendent advised that such installation properly placed will not interfere in any way with the park operation and will not detract from the appearance of the park. He also said that the company if granted this permission will pay to the State 15% of its gross intake. He recommended approval of the request. The Commission adopted the recommendation.

3 Request of Heppner-Morrow County Chamber of Commerce, and others, that a state park be developed at the confluence of Chapin and Rock Creeks on the Heppner-Spray State Secondary Highway, about 25 miles south of Heppner: The Parks Superintendent requested authority to study the area to determine what problems are involved and whether or not it would be suitable for state park purposes. The Commission authorized such study and instructed the Parks Superintendent to report the results thereof.

4. Request of Marion County Court for Highway Commission approval to the vacation of that portion of County Road No. 884 which lies within the use area of Silver Falls State Park: The Parks Superintendent advised that this roadway lies in the car parking area of this park and is utilized almost wholly by park patrons. The County, he said, wants to eliminate it from the county road system; however, he pointed out that a bridge is included across Silver Creek which eventually will require major

repairs, although none are required now because the county recently put the bridge in good condition. He recommended that the Commission do not oppose the vacation of this portion of the county road. His recommendation was approved by the Commission and it was so ordered.

5. Development of Owyhee Lake as a state park: The Parks Superintendent reported that this is a large project and involves many things. He gave as his opinion that a state park at this location will be of considerable value, how much, he was unprepared to say. He pointed out that during the past year there were 15,000 visitors to the area and he predicted if the road leading to the area is improved along the river, including a bridge across the river which heretofore has hampered travel, together with improvements that have already been made around the north end of the lake to Gordon Creek and Cherry Creek, travel to the area will greatly increase and probably will approximate 30,000 visitors next year. He mentioned a statement received from the County Judge of Malheur County to the effect that the County will take over and maintain the road, including the bridge, and stated that his recommendation is based on that surmise. He estimated that a development at Gordon Creek with an expenditure of about $20,000 will take care of immediate needs, such as facilities to provide water, a boat launching spot, construction of restrooms, the planting of some trees, and the grading and leveling off of some areas, but it will not provide overnight camping, although that may come in the future. Such program, he stated, has been discussed with County Judge G. Y. Chester and Mr. Lloyd Russell, who are the prime instigators of the development, and they stated their satisfaction to the plan. Chairman Reynolds inquired whether or not the irrigation of the trees would be included, and he was informed by the State Parks Superintendent that such feature is not included. In summarizing, the Parks Superintendent recommended an expenditure of approximately $20,000 for development of the parking area at the location known as Gordon Creek with the understanding and provision that the County will construct a bridge and maintain the road and that the State will not be requested to spend any State money for highway or road construction in any respect or in any location. As a result of further discussion, the Commission unanimously approved an expenditure of approximately $20,000 for construction at the location known as Gordon Creek as recommended, with the understanding that construction and maintenance of the road and bridge shall be accomplished by the County or others than the State Highway Department.

The Engineer advised that Malheur County would like to have the old bridge at Nyssa when the new bridge across the Snake River at that place has been completed. He recalled that the Commission at a meeting on August 15, 1955 agreed to give this old bridge to the County when and if a new bridge was built and that such information was given to the County Court by the Secretary under date of August 17, 1955. He suggested that the record should now show confirmation of that arrangement Chairman Reynolds gave as his belief that the County should submit a new request for the bridge. The suggestion was approved by the Commission. The Engineer mentioned that there are a few details that have to be worked out such as to who is going to remove the old structure and stock pile it. Mr. G. S. Paxson, Assistant State Highway Engineer, mentioned that the

contract for the new bridge provides that the contractor is to dismantle the old structure and pile the material on a site about 9 miles north of Nyssa, but no provision has been made to transfer the material to the site of the new crossing of the Owyhee River where the County wants to use it. The Engineer recommended that the County Court make its own arrangements with the contractor to transport the old spans to the site of the new crossing rather than to the site specified in the contract. The Commission approved the suggestion and instructed the Engineer and the Parks Superintendent to work out details with the County Court.

6. Proposed change in the location of Umpqua Wayside area on the Umpqua Highway east of Reedsport: The Parks Superintendent advised receipt of a letter from the Lower Umpqua Chamber of Commerce calling attention to the fact that a small park area and boat launching spot east of Reedsport is being destroyed by reason of new highway construction. He stated that he is cognizant of the situation and has plans to construct a new area approximately 1,000 feet west of the present site, the same to be financed in the 1958 project. He recommended approval of the change in location. The Commission approved the recommendation.

Request of the Columbia River Gorge Commission to acquire by exchange or purchase 8 acres of land owned by Fred Luscher near Latourell, involving 15 acres of State owned land lying north of the railroad and south of the highway in the NE$\frac{1}{4}$ of Section 29, T. 1 N., R. 5E, W.M: The Parks Superintendent advised that it is very possible that the State land will be needed in connection with development of Rooster Rock recreational area which is expanding rapidly; moreover, the Commission has been purchasing land in the Columbia Gorge, in view of which it does not seem reasonable that an exchange of land is desirable. He suggested that the request for exchange of properties be refused and that the Commission authorize negotiations for purchase of the Luscher property. He pointed out that similar negotiations were conducted in 1955 based on appraisal of the land and timber at $1,318; however, Mr. Luscher demanded $4,000 for his property. The Commission authorized negotiations to purchase the Luscher property as recommended.

Report on revenues derived from overnight camping in State Parks: The Parks Superintendent presented a report covering the period ending July 31, 1957, as compared with the same period in 1956 which showed an increase in revenues of 49%. He pointed out that the report shows an increase in various amounts for each of the parks where overnight camping is permitted with no losses whatsoever. The Commission accepted the report.

Proposed addition of 1.3 acres at entrance to Armitage State Park near Eugene: The Parks Superintendent advised that the owners of the property adjacent to Armitage Park have plans to sell the timber standing thereon and to make use of the land which would not be desirable from the state parks standpoint. He requested authority to acquire 1.3 acres from Mr. O. L. Bussell to satisfy the park needs, will provide 403 feet of frontage on the highway and will facilitate the park entrance. This property, he said, can be purchased for $1,124, and he recommended that it

be acquired. The Commission authorized purchase of the property as recommended.

Acceptance of a deed from the City of Delake for 29.1 acres of land to be used for state park purposes: The Parks Superintendent advised that this property lies on the north side of the lake, east of the highway, and that it is proposed to construct an overnight camping facility thereon. He recalled that the Commission previously authorized acceptance of this area for which the City has tendered its deed. He presented the deed which was accepted by the Commission upon his recommendation.

The Right of Way Engineer presented for consideration by the Commission options that had been obtained for acquisition of property that is needed as right of way or for other purposes, and in this connection he called attention to the options secured from Humphrey and Flossie Parry, File No. 25888, therein. He recommended rejection of this option because of excessive cost and that the Chief Counsel be authorized to institute condemnation proceedings to acquire the property if necessary. The Commission adopted his recommendation and by unanimous vote approved the closing of the options taken for the remaining properties at the prices mentioned therein. The attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission.

The Right of Way Engineer also discussed with the Commission the policy that has been followed heretofore with respect to right of way appraisals. He recalled that in the past it has been recognized that appraisals are not perfect and may be in error of as much as 10 per cent, and if a settlement can be reached within 10 per cent he usually recommends acceptance. However, based on a recent discussion with the Bureau of Public Roads he is doubtful that the Bureau will concur in settlements that are 10 per cent above appraisal. It is just a question of whether past practice should be continued or the policy changed to permit negotiations on a basis which will bring better results. He advised that the only objection that he can see to changing the policy is that it would increase the number of condemnation cases. Chairman Reynolds inquired if a change in the policy would be apt to increase the amount of offers, to which the Right of Way Engineer replied that offers are always based on appraisal value and that in negotiating, if for instance the appraisal is $5,000 and settlement can be reached at a figure between $5,000 and $5,500, it has been considered good business to pay the extra amount. He gave as his understanding that the regulations of the Bureau of Public Roads probably will not permit the Government to participate in a settlement that is as high as 10 per cent above the amount of the appraisal, but just how far the Government will go above the appraisal has not been definitely ascertained. He expressed the feeling that court costs probably would amount to more than 10 per cent. This matter was discussed further by the Commission in quite some detail, and as a result thereof the Commission decided to continue with its present policy.

A report was presented by the Right of Way Engineer showing miscellaneous property sales that have been made since the Commission meeting held on August 8 and 9, 1957, including the report on property rented and rentals terminated. He explained that these reports are based on records in the office of the Property Manager. The Commission accepted both reports. (For details see copy of both reports in the general files.)

Presented by the Right of Way Engineer for Commission approval were four "Indentures of Access" as follows:

a. Fisher-Trotter property on Calapooya Creek-Sutherlin Section of Elkton-Sutherlin Highway, Douglas County.

b. Schilling property on Grass Valley-Kent Section of Sherman Highway, Sherman County.

c. Gladden property on Newberg-Dayton Junction Section of Pacific Highway West, Yamhill County.

d. Trimble property on Grass Valley-Kent Section of Sherman Highway, Sherman County.

The Right of Way Engineer explained that the last three of the indentures are routine and involve changes in location only; however, the first one concerns an individual who purchased two properties, for each of which access was allowed; however, the owner is now willing to relinquish access from one of the properties if he is granted access between 25 and 40 foot wide from the other; in other words, he will have one access not to exceed 40 feet in width rather than two 25-foot accesses. He recommended approval of all four access changes. The Commission adopted the recommendation. (The "Indentures of Access" were signed by the Commission later in the session.)

The Commission discussed and approved as a routine matter, upon recommendation of the Right of Way Engineer, a license with the Corps of Engineers covering use of a portion of a Government dike along the Long Tom River near Monroe, Benton County, as a haul road to a source of gravel that is to be used for highway purposes.

The Right of Way Engineer requested authority to offer at public sale 6.4 acres of excess land situate on the Barbur Boulevard-Wilsonville Section of the R. H. Baldock Freeway, Washington County, for a minimum price of $1,000. The Commission approved the request by adopting the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer also requested authority to sell to Mr. Charles E. Seymour 0.114 acre of excess land situate on the Washington County Line-Hillsdale Section of the Beaverton-Hillsdale Highway, Multnomah County, for the sum of $100; also, to sell to

Miss Alsea Hawley for the sum of $25, 0.1 acre of excess property on the Goshen-Divide Section of the Pacific Highway, Lane County. The Commission approved the sale of both properties at the prices mentioned.

Also approved by the Commission, upon recommendation of the Right of Way Engineer, was the sale to Theodore R. Joy of 74 acres of excess land on the Jumpoff Joe Creek-Grants Pass Section of US 99 for a consideration of $3,500. The Right of Way Engineer explained that he is presenting the matter at this time simply to correct an error in the previously authorized sale wherein the acreage was incorrectly stated as 60 acres whereas it should have been 74 acres.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following described properties that are needed as right of way in connection with various highway improvements or for other highway purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

SANDY-FOREST BOUNDARY SECTION OF THE MT. HOOD HIGHWAY

R-20050 - Minnie Meinig
(Clackamas County)
Parcel No. 1: 0.86 acre for Right of Way
Parcel No. 2: 0.023 acre for Right of Way

R-25403 - Church Extension Plan
Right of Way (Clackamas County)
0.13 acre

R-25415 - John W. Schmalz and Gertrude C. Schmalz
Right of Way (Clackamas County)
1.32 acres

R-25416 - Bill N. Lenz and Mildred Mae Lenz
Right of Way (Clackamas County)
2.26 acres

R-25425 - Francis C. Dyal and Marilyn Dyal
Right of Way (Clackamas County)
0.2 acre

R-25438 - S. A. Mollner and Bernice G. Mollner
Right of Way (Clackamas County)
0.19 acre

R-25441 - Elvin Eri
Right of Way (Clackamas County)
0.7 acre

R-25537 - Mary O. Murphy
Right of Way (Clackamas County)
3.8 acres (net)

SANDY-FOREST BOUNDARY SECTION OF THE MT. HOOD HIGHWAY - Cont.

R-25687 - Orval F. Morrison and Lucy E. Morrison
Right of Way (Clackamas County)
2.31 acres

R-25706 - J. B. Edmunds
Right of Way (Clackamas County)
0.13 acre

R-26685 - Ernest J. Perasso and Barbara Perasso
Right of Way (Clackamas County)
0.07 acre

R-26983 - Milton A. Meinig
Right of Way (Clackamas County)
0.56 acre

UKIAH-WEST FOREST BOUNDARY SECTION OF THE UKIAH-HILGARD SECONDARY HIGHWAY

R-26197 - Pendleton Ranches, Inc.
(Umatilla County)
Parcel No. 1: 23.07 acres for Right of Way
Parcel No. 2: 7.8 acres (net) for Right of Way

R-26198 - Cunningham Sheep & Land Company
Right of Way (Umatilla County)
1.08 acres

HARBOR DRIVE-BARBUR BOULEVARD SECTION OF THE PACIFIC HIGHWAY (formerly Portland-Salem Expressway)

R-23684 - William Henry Curl and Martina Marie Curl
Right of Way (Multnomah County)
3,680 square feet

R-23715 - Emma B. Lochridge
Right of Way (Multnomah County)
8,600 square feet

R-24923 - The Unknown Heirs of John F. Kerrigan
Right of Way (Multnomah County)
76.7 square feet

ALBANY-JUDKINS POINT SECTION OF THE PACIFIC HIGHWAY (formerly Pacific Highway East)

R-25307 - Fred G. Knox and Aslaug I Knox
(Lane County)
Parcel No. 1: 14.98 acres for Right of Way
Parcel No. 2: 0.07 acre for Right of Way

ALBANY-JUDKINS POINT SECTION OF THE PACIFIC HIGHWAY (formerly Pacific Highway East) Cont.

R-25378 - John Glaser and Letha Opal Glaser
(Linn County)
Parcel No. 1: 1.25 acres for Right of Way
Parcel No. 2: 3.08 acres for a Material Source

R-25490 - Royce C. Holloway, R. C. Holloway and C. R. Holloway
(Linn County)
Parcel No. 1: 24.79 acres for Right of Way
Parcel No. 2: 13.22 acres for a Material Source

COLUMBIA RIVER HIGHWAY

R-26348 - Troutdale Farms, Inc.
Material Source (Multnomah County)
21.0 acres

TUNNEL-NAMORF SECTION OF THE CENTRAL OREGON HIGHWAY

R-25737 - Philip Coyne
(Malheur County)
Parcel No. 1: 15.9 acres (net) for Right of Way
Parcel No. 2: 0.65 acres (net) for Right of Way
Parcel No. 3: 0.92 acres (net) for Right of Way

ONTARIO-SNAKE RIVER SECTION OF THE OLD OREGON TRAIL HIGHWAY

R-23949 - Sadie F. Lee
Right of Way (Malheur County)
1.0 acre (net)

GRAND AVENUE-UNION AVENUE ONE-WAY COUPLET SECTION OF THE PACIFIC HIGHWAY EAST

R-26871 - Morehouse Holding Company
(Multnomah County)
Parcel No. 1: 1,797 square feet for Right of Way
Parcel No. 2: 3,690 square feet for a Slope Easement

FANNO CREEK BRIDGE SECTION OF THE SCHOLLS HIGHWAY

R-26706 - Tenet Mortgage Company
(Washington County)
Parcel No. 1: 0.021 acre for Fee Simple for Channel Change
Parcel No. 2: 0.05 acre for an Easement for Fill Placement and Bank Protection

DAVIS SLOUGH-BANDON SECTION OF THE OREGON COAST HIGHWAY

R-26097 - David R. Philpott and Ruth J. Philpott
(Coos County)
Parcel No. 1: 15.1 acres for Right of Way
Parcel No. 2: 9.2 acres for Right of Way
Parcel No. 3: 10.7 acres for Material Source
Amended resolution to correct language in suspension of access clause

R-26100 - William Biescke and Junie J. Biescke
(Coos County)
Parcel No. 1: 6.9 acres (net) for Right of Way
Parcel No. 2: 0.01 acre for Right of Way
Amended resolution to correct language in suspension of access clause

COLUMBIA RIVER HIGHWAY

L-2584 (R-24183) - Paul R. Martin, et ux.
(Multnomah County)
Parcel No. 1: 0.22 acre for Right of Way
Parcel No. 2: 1.4 acres for Right of Way
Amended resolution to change access provisions

PACIFIC HIGHWAY (formerly Portland-Salem Expressway)

R-26541 - Salem Chamber of Commerce
(Marion County)
Parcel No. 1: 1.43 acres for Material Source
Parcel No. 2: 20.5 acres for Material Source
Amended resolution to increase the area of the taking

VALLEY JUNCTION-SHERIDAN SECTION OF THE SALMON RIVER HIGHWAY

R-26205 - John Breeden and Lottie Breeden
(Polk County)
Parcel No. 1: 3.66 acres for Right of Way
Parcel No. 2: 1.1 acres for Right of Way
Parcel No. 3: 0.7 acre for Right of Way
Parcel No. 4: 0.2 acre for Right of Way
Amended resolution to correct language in suspension of access clause

WILLOWDALE-LYLE GAP UNIT, WILLOWDALE-MADRAS SECTION OF THE DALLES-CALIFORNIA HIGHWAY

L-2744 (R-25853) - J. Lester Horigan and Alma F. Horigan, et al.
Right of Way (Jefferson County)
44.72 acres (net)
Amended resolution to change access provisions

NORTH SANTIAM HIGHWAY

L-2820 (R-24096) - Northern Lumber Co., et al.
Right of Way (Marion County)
0.46 acre
Amended resolution to reduce area of taking

L-2828 (R-25972) - Ray S. Peterson, et al.
Right of Way (Marion County)
0.03 acre
Amended resolution to change station number reference in description

GOBLE-ST. HELENS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-26406 - Paul D. Wyatt and Joyce Wyatt
Right of Way (Columbia County)
1.77 acres
Amended resolution to reduce area of taking

R-26408 - Jane Reeves, Sarah Massey, Richard Adams, et al.
(Columbia County)
Parcel No. 1: 20.5 acres for Right of Way
Parcel No. 2: 0.34 acre for a Temporary Construction Easement
Parcel No. 3: 0,19 acre for a Permanent Easement for an Approach Road
Amended resolution to correct language in suspension of access clause and designating use of property being acquired under Parcel No. 3

R-26410 - Robert C. Bishop and Maria W. Bishop
(Columbia County)
Parcel No. 1: 4.75 acres (net) for Right of Way
Parcel No. 2: 0.54 acre for Right of Way
Parcel No. 3: 0.62 acre for a Permanent Easement for an Approach Road
Amended resolution to correct language in suspension of access clause and designating use of property being acquired under Parcel No. 3

ECKMAN SLOUGH SECTION OF THE ALSEA HIGHWAY

R-26112 - Bert Bolton and Fern Bolton
Lincoln County
0.01 acre for Right of Way

PLEASANT HILL-CRESWELL SECTION OF THE SPRINGFIELD-CRESWELL HIGHWAY

R-26804 - Vernon Chitwood and Hedwig Martha Chitwood
Lane County
Parcel No. 1: 5.04 acres (net) for Right of Way
Parcel No. 2: 0.69 acre for an Easement

28853

ALBANY-JUDKINS POINT SECTION OF THE PACIFIC HIGHWAY (formerly Pacific Highway East)

R-25383 - Edward W. Poland and Elaine M. Poland
Linn County
Parcel No. 1: 13.62 acres for Right of Way
Parcel No. 2: 5.0 acres for Channel Change
Parcel No. 3: 0.33 acre for Right of Way
Parcel No. 4: 0.45 acre for Right of Way
Parcel No. 5: 0.20 acre for Excess Taking

GOBLE-ST. HELENS SECTION OF THE COLUMBIA RIVER HIGHWAY

R-26398 - Michael Dean Near
Columbia County
0.47 acre for Right of Way

PLEASANT HILL-CRESWELL SECTION OF SPRINGFIELD-CRESWELL HIGHWAY

R-26809 - Harry F. Lower
Lane County
0.17 acre for widening
0.38 acre for temporary easement for road approach.

ECKMAN SLOUGH SECTION OF ALSEA HIGHWAY

R-24856 - Fred M. Lundy
Lincoln County
0.39 acre for Right of Way
10.4 acres for easement for material source

DAVIS SLOUGH-BANDON SECTION OF OREGON COAST HIGHWAY

R-26099 - Dora A. Lewis, et al.
Coos County
2.4 acres for Right of Way
0.54 acre for excess property

Right-of-way maps, construction plans, and other data were submitted to the Commission and the Engineer advised that the acquisition of the properties listed is required in order to carry out plans for highway improvements and other projects heretofore authorized by the Commission. The Commission deferred action on this matter pending study. (Condemnation of the several parcels was authorized by the Commission later in the session. See ahead for minute entry.)

A report was rendered by the Chief Counsel covering condemnation actions that have been tried since the last meeting of the Commission. He also reported on cases that have been settled during such period and advised that there is nothing of particular importance to report either in connection with the cases tried or those settled. The Commission approved both reports

(For details concerning cases tried, see copy of Chief Counsel's report, dated September 11, 1957, and copy of his report on cases settled, dated September 11, 1957, in the general files.)

A routine report was submitted by the Chief Counsel on claims that have been compromised, and a report on offers that had been made in connection with condemnation proceedings prior to commencement of action since the meeting of the Commission held on August 8 and 9, 1957. The Commission accepted both reports and ordered them filed without objection. (For details see copy of both of the Chief Counsel's reports, dated September 6 and September 9, 1957, in the general files.)

Also reported by the Chief Counsel was the status of matters that have been before the Public Utilities Commissioner, which he explained are routine. The Commission accepted the report. (For details see copy of the report, dated September 5, 1957, in the general files.)

A proposed settlement with Favell-Utley Realty Company, Lakeview, of a situation involving the Thomas Creek Drainage Project in Lake County was presented by the Chief Counsel, who advised that the matter has been under condemnation since 1943. He exhibited a map showing the location of the property involved and explained that the Highway Department owns one borrow pit on the north side of the highway and another on the south side of the highway which have been under condemnation for about 14 years. A satisfactory settlement of the controversy, he said, finally has been reached whereby the State is to build a bridge across the highway to keep water from the north borrow pit from entering the drainage area and the Company is to give the State a right of way easement for continuing the ditch for a certain distance and is to pay the State the sum of $1,000, which is 50 per cent of the estimated cost to construct the ditch. He recommended approval of the arrangement. The Engineer stated that this controversy is one of long standing. He explained that the Company has been turning water into the borrow pit which the law says they cannot do, but in the 15 years since the matter first came up the State has not been able to stop it and as a result the State has been caused considerable damage. He further stated that the Highway Department has spent considerable money for rip rap to protect the highway and he repeated the arrangement outlined by the Chief Counsel, whereby the Company has now offered to give the State the right of way to build the ditch and has agreed to pay 50 per cent of the cost to construct a ditch which is estimated at $2,000. In other words, the Company will pay approximately $1,000 cash and will give the State a right of way for the ditch as a settlement of this controversy. He recommended approval of the settlement. The Commission approved the settlement as recommended by the Engineer and the Chief Counsel.

The meeting recessed for luncheon at 11:45 a.m. and reconvened in the same room at 1:30 p.m. with the same persons present participating.

The Chief Counsel rendered a brief oral progress report on certain cases that are pending as follows:

(1) Stumbo Case involving a private road crossing of US 99 in Douglas County: The Chief Counsel stated that the Court has ordered the Stumbos to file an amended answer to the complaint which they have not done as yet. He gave as his belief that the Court is going to give them until the 25th of September to file the answer and in the meantime there is nothing the State can do.

(2) The Moore case which involves the sale of certain commodities in the Vista House at Crown Point: He stated that the case has been filed against Mr. Jack Flaucher who is operating the Vista House as a concessionnaire under a contract with the Highway Department, and that the Attorney General has ruled that the Highway Department can represent Mr. Flaucher, in this case. Accordingly he has proceeded to take over the defense.

(3) The Kate Bailey case which involves the law on special benefits: This case, he said, is now being argued before the Supreme Court and he is anxiously awaiting the ruling of the Supreme Court because it concerns pleading special benefits.

(4) Strasbaugh case: In this case, he said, the State is representing the contractor who is being sued for $35,000 for removing gravel from the Strasbaugh property at Ontario. The State Land Board, he said, is going to file an intervener in this case setting up its title to the land involved. There is nothing more that can be done so far as the Highway Department participation is concerned until the case comes to trial.

(5) Vanport case: He said that an answer has been filed in this case but the parties involved have not as yet filed a reply. He gave as his considered opinion that they will have difficulty in filing an adequate reply so it looks like the State will experience no difficulty in winning the case.

(6) Katie Moore case: He advised that there are no new developments in this case and it is being held in abeyance.

The Chief Counsel also reported briefly concerning the Legislative Highway Interim Committee. He said that this committee is meeting today and tomorrow and he gave as his understanding that it has added to its agenda discussion of highway right of way acquisition which is going to be a part of their study. The Commission accepted the report.

The Chief Counsel requested authority to bring a "Forceful Entry and Detainer" action against a Mr. D. C. Feather who presently is occupying residential property belonging to the State Highway Department in Portland. He said that Mr. Feather persists in piling furniture, second-hand equipment, etc. on the lawn and in his driveway and will not stop it although he has been given numerous notices to do so; in fact, he was given the mandatory thirty days' notice in writing to remove the material from the premises but he has ignored it. The Chief Counsel requested authority to bring an action to evict him from the premises. The Commission

approved the request so long as it does not require resorting to physical force.

The Commission discussed a report from the Chief Counsel on the delegation of authority to the State Highway Engineer, the Chief Counsel and the Secretary as is now permitted by statutes, particularly Chapter 635, Oregon Laws 1957. He mentoned that the question has been raised in the past whether or not the Commission could legally delegate such authority, but in view of this new law the question no longer exists. The Engineer stated that the Legislature has simply legalized the things that the Commission has been doing for many years. As a result of discussion, the Commission approved the delegation of authority now being exercised by the Engineer, the Chief Counsel, and the Secretary and instructed the Chief Counsel to prepare a form of resolution covering the matter for adoption by the Commission at a future meeting.

Also discussed by the Commission was a request from Mr. C. A. Thayer, who resides in Malheur County, for a permit authorizing him to move his livestock across a material site that he sold to the State adjacent to the Old Oregon Trail. The Chief Counsel advised that this would simply be an accommodation to Mr. Thayer so he can get his livestock from one part of his farm to the other, and he recommended that the request be granted. The Commission adopted the recommendation and signed a permit in Mr. Thayer's favor later in the session.

The Chief Counsel asked the Commission to adopt a resolution amending a condemnation resolution that was previously adopted concerning the Paul Martin property on the Columbia River Highway near Troutdale. He explained that the amendment is necessary in order to meet the requirements of the U S. Bureau of Public Roads. The Commission approved his request and thereupon unanimously adopted the attached resolution relative thereto marked EXHIBIT "G-11", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and upon recommendation of the Chief Counsel, authorized abandonment of the following claims against individuals who damaged state highway property, it appearing that there is no possible chance of securing settlement of the same:

(1) Frank D. Baechler, CAO 57-51, damage to state structure - $40.
(2) Donald Burke, CAO 57-8, damage to guard fence - $150.
(3) Lyle and Donald Bryan, CAO 57-101, damage to bridge rail - $100.
(4) Howard Ray, CAO 57-91, damage to state sign - $66.50.
(5) Theodore Hauck, CAO 57-131, damage to state vehicle.
(6) Geneva Margaret Nelson, CAO 57-23, damage to state vehicle - $148.32.

The Commission also upon recommendation of the Chief Counsel approved a compromised settlement in the amount of $78.29 with the Oregon Automobile Insurance Company, insurance carrier for the Corvallis Sand

and Gravel Company, representing the cost to repair the guard rail and the highway shoulder at Mile Post 50.25 of the Alsea Highway that was damaged by a truck owned by the Corvallis Sand and Gravel Company.

Presented to the Commission for consideration was a claim of Mr. Oscar Korhonen in the amount of $88.28 representing damage that occurred to his automobile tires when he drove his car over a section of US 99 that was under construction north of Roseburg. The Chief Counsel stated that the statutes, particularly ORS 366.430, allows the Commission discretion in the payment of claims in a situation of this kind. He expressed the belief that payment of the claim is a routine matter and he presented a two page list of similar claims that have been paid in the past. In was his feeling that the Commission would not be establishing a precedent were it to approve the claim in this instance. Chairman Reynolds took exception to the thinking of the Chief Counsel because it appears that this man's tires were damaged when he drove it over construction work that was underway. He mentioned a similar situation that occurred a couple of years ago when people complained of tire trouble when driving over a certain type of rock that was being used for sanding purposes. In this particular instance, he said, the Commission paid no claims. The Engineer expressed himself similarily, advising that in his opinion whether or not damage occurs depends upon how fast a car is driven. It also was his thought that were the claim to be paid in this instance it would be setting an undesirable precedent that would involve an expenditure of a lot of money in the future. As a result of discussion, the Commission unanimously decided to reject the claim and it was so ordered.

The Chief Counsel requested confirmation of the authority heretofore given him to permit five members of the Legal and Right of Way Department to attend at State expense a Right of Way Seminar in Olympia, Washington, on September 13 and 14, 1957 at a cost of approximately $109. The Commission confirmed the out-of-state travel.

The Chief Counsel brought up for discussion three court cases that have been filed against the State Highway Commission, as follows:

(1) Thornburn vs. the State.

(2) Wyatt vs. T. R. Williams, et. al., involving injury to a passenger on the vessel M. R. Chessman at Astoria in which the plaintiff is asking for damages. The Chief Counsel stated that this action will be defended by the insurance carrier and that the case has already been turned over to the trial section to handle.

(3) Walter N. Knutson, et. ux., vs. the State, which concerns damage to the Knutson property by reason of high water which the Knutsons alleged resulted from a channel change in connection with highway improvement in 1947.

The Commission accepted the report. (For details see copy of the report in the General Files.)

The Commission discussed and, upon recommendation of the Chief Counsel, approved a quitclaim deed in favor of Mr. C. A. Lawrence conveying property on the Divide-Rice Hill Section of US 99, Lane County. The Chief Counsel claimed that the original deed was signed by the Commission on June 20, 1957 and was made out in favor of Roselle Lawrence who has since passed away. Mr. Lawrence, he said, has remarried and this deed is simply to correct the record.

Chairman Reynolds brought up for discussion the question whether or not it is absolutely necessary in reading the bids for highway construction that the descriptions of each item be read as well as the item number. He expressed the feeling of the Commission that considerable time could be saved were the descriptions omitted. The matter was referred to the Chief Counsel to investigate and report at the next meeting.

The Engineer reported that under authority granted him by the Commission he has awarded contracts as follows, which were previously referred to him by the Commission to award when certain conditions have been satisfied.

(1) Grading and paving on Bridge Street in Prairie City, Grant County. Bids received August 8, 1957. Contract awarded August 13, 1957 to Interstate Paving Company, The Dalles, low bidder.

(2) Construction of the Iowa Street Bridge on Harbor Drive-Washington County Line Section of Pacific Highway, Multnomah County. Bids received August 8, 1957. Contract awarded August 26, 1957 to Gibbons and Reed Co., Portland, low bidder.

(3) Grading on South Unit, SPRR Overcrossing-Santiam Junction Section of Pacific Highway, Linn County. Bids received July 18, 1957. Contract awarded August 30, 1957 to Roy L. Houck & Son, Salem, low bidder.

(4) Grading and paving Highlands Interchange Section of Sunset Highway, Multnomah County. Bids received July 18, 1957. Contract awarded August 30, 1957 to Parker-Schram, Portland, low bidder.

(5) Grading and paving on Interstate Bridge-Oregon Slough Section of Pacific Highway, Multnomah County. Bids received July 18, 1957. Contract awarded September 5, 1957 to Warren Northwest Inc., Portland, low bidder.

(6) Construction of Highlands Undercrossing on Highlands Interchange Section of Sunset Highway, Multnomah County. Bids received August 8, 1957. Contract awarded September 6, 1957 to S & D Construction Company, Portland, low bidder.

The Commission confirmed the contract awards as reported

The Commission confirmed the Engineer's placement of a 54,000 pound maximum load limit on the Nyssa Bridge Section of the Old Oregon Trail, effective 4:00 p.m. August 13, 1957, such restriction to remain in effect until the new bridge that is being constructed at this point is completed and is opened for public use.

The Engineer reported the results of receiving bids in Salem on August 19, 1957 for the purchase of used equipment and scrap materials stored in Salem and La Grande; also the results of receiving bids in Salem on August 22, 1957 for the purchase of used engineering equipment. He advised that the total of the high bids for the scrap material and used equipment was $19,199.96 as compared with an estimated value of $19,330.50. The high bids for the engineering equipment, he said, totaled $2,672.32 as compared with an estimated value of $2,180.00. He recommended confirmation of the sales. The sales were approved by the Commission unanimously.

The Engineer reported reclassification of certain highway sections and recommended confirmation of the same by the Commission:

(1) Pendleton-John Day Highway and Beech Creek Secondary Highway. Reclassified as a special Group I Highway for operation of a 55-foot semi-trailer combination from Nye (junction with ORE 74) to Mount Vernon (junction with US 26), effective August 26, 1957.

(2) Coos River Secondary Highway from its junction with US 101, M.P. 0.0, to the junction with the county road to Cooston, M.P. 3.85. Reclassified from Group 2 to Group 1, effective August 28, 1957.

(3) Territorial Highway from Gillespie Corner, M.P. 32.44, to Lorane, M.P. 38.32. Reclassified from a Group 2 to a Group 1, effective August 28, 1957.

(4) Engineer requests approval of the reclassification from a Group 3 status to a Group 1 status of the McKenzie Highway from its junction with US 20 in the town of Sisters to a junction with US 97 in Redmond, and that he be authorized to issue special Group 1 permits over this highway section for operation of truck-tractor and 40-foot semi-trailer combinations 58 feet overall in length.

(5) Engineer requests approval of the reclassification of the Wasco-Heppner Highway No. 300 from a Group 3 status to a Group 1 status between M.P. 29.20 (Ajax County Road) to M.P. 46.89 in Condon.

The Commission approved the reclassification of these highway sections as reported.

Reports on items of unfinished business appearing on the Secretary's Summary, dated August 9, 1957:

(1) Sale of highway bonds for general construction and construction of a section of the Oregon Coast Highway in Curry County: This matter was reported earlier in the session and was ordered deleted from the list.

(2) Request of Clatsop County that the State take over as a parking area a section of the county road near Hugg Point, south of Cannon Beach: The Commission ordered this item deleted from the list of unfinished business because it was disposed of earlier in the session when County Judge Guy Boyington, Clatsop County, was present.

(3) Request of a delegation from Malheur County that water be furnished the Gordon Creek area at Owyhee Reservoir: The Commission ordered this item deleted from the list of unfinished business, the matter having been disposed of earlier in the session in connection with the Parks Superintendent's reports.

(4) Proposed relaxation of access restrictions on the Mt. Hood Highway, east of Sandy: The Engineer stated his opinion that the Commission's general policy with respect to such matters should not be altered in this instance, and he so recommended, it being his thought that if it becomes necessary later on to grant accesses to serve developments, each case should be considered on its own individual merits The Commission unanimously adopted the recommendation as a satisfactory solution of this problem.

(5) Request of City of Gold Hill for designation of the old route of the Pacific Highway through Gold Hill as an "alternate" or "business" route for US 99: The Engineer advised that normally where towns have been bypassed it has been the practice to sign the old route as a "business" route, such as at Salem, Roseburg and Cottage Grove. It was his thought that the City of Gold Hill should be treated likewise and he so recommended. The Commission adopted the recommendation and so ordered.

(6) Suggestions of Francis Lambert, Sheriff of Multnomah County, regarding the establishment of additional facilities at Rooster Rock State Park for public safety and convenience, including a refreshment concession: The Parks Superintendent recalled that Sheriff Lambert had suggested that some sort of a building be provided for use of the Sheriff's forces while they are working in this area. He explained that the Sheriff has agreed to do all necessary police work, both inside and outside the park, including the control of boats and other things of a similar nature, he also suggested installation of a loud speaker or public address system. It was his feeling that it will be satisfactory to provide these facilities, however, his studies are not yet complete and he would like to defer his recommendations until the next meeting of the Commission. Chairman Reynolds stated his feeling that from the financial standpoint the Commission could well afford to do the things that the Sheriff suggested provided he will police the area.

The Commission ordered the matter deleted from the list of unfinished business with the understanding that the Parks Superintendent will render a complete report at the next meeting and would provide for constructing the facilities in his 1958 budget.

The Engineer requested authority for an expenditure of $1,200 to install plastic diffuser type tube lighting in the Construction Design Section of the State Highway Building in Salem. He explained that it was necessary to transfer the Photogrammetry Section to the basement of the building where the existing lighting is inadequate, having been installed for storage purposes only. The Commission approved the expenditure.

Increases in project authorizations were requested by the Engineer for the following State Highway Contracts:

Contract No. 4735, Union Ave. -42nd Ave. Section of the Banfield Expressway, increased $29,500 because of settlement of bents.

Contract No. 4917, East Unit, Black Bridge-Richland Section of the Baker-Homestead Highway, increased $27,000 by unforeseen construction items.

Contract No. 4991, Siuslaw Junction Section of the Pacific Highway, increased $2,400 to provide added lanes for turning movements.

Contract No. 4575, East Unit, McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway, increased $60,000 because of unstable soils and bad drainage conditions.

Contract No. 4567, for construction of the Service Creek Bridge over the John Day River on the Service Creek-Mitchell Highway, increased $13,000 because of increased excavation and carrying stream piers below original elevations.

The Commission authorized the increases as requested.

The Commission discussed a letter from the Seaside Planning Commission urging early construction of a four-lane route for US 101 on Roosevelt Avenue in Seaside. The Engineer pointed out that a delegation will appear before the Commission the following day regarding this matter. He stated that the present estimate of cost for the four-lane facility on such locations is $447,000 for construction and $205,000 for right of way, or a total of $652,000. Chairman Reynolds inquired as to what alternative there might be. The Engineer replied that a by-pass to the east of the city would take care of through traffic but he was not sure whether it was the proper thing to consider at this time. Commissioner McIver called attention to the fact that in programming the Youngs Bay Bridge south of Astoria, all funds available in that area were allocated for the next three years and people in the Astoria-Seaside area had been so advised. Commissioner Chessman called attention to the considerable number of intersecting streets on Roosevelt Avenue and expressed the opinion that it might be well to investigate a possible by-pass route to the east of Seaside. He was

authorized to make a survey of the by-pass route. (When the delegation appeared before the Commission on the following day, they were advised that the Engineer had been authorized to reinvestigate the matter including a possible by-pass route to the east of the City.)

The Engineer reported that as previously authorized by the Commission, he had completed surveys on the Main St. -8th Street Couplet on the Medford-Provolt Secondary Highway in Medford and on the section of US 30 immediately west of the La Grande city limits beginning at Hilgard and extending to the connection with the present highway west of the La Grande City limits known as the Hilgard-La Grande Section of the Old Oregon Trail. Both of these routes, he stated, have been given very careful engineering study and provide the best location commensurate with the cost of construction. The Commission approved the surveys by adopting the attached resolutions relative thereto, marked EXHIBIT "F-1" and EXHIBIT "F-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Chairman Reynolds inquired as to the status of the agreement with the City of Medford concerning the by-pass route of the Pacific Highway as it affects the City of Medford. The Engineer stated that it will take about three weeks to complete it and the agreement will be sent to the City for signature as soon as possible.

Contractor's requests for extensions of time within which to complete eight highway contracts were considered by the Commission. In connection therewith, the Engineer advised that the number of requests for extensions of time has been greatly reduced since the liquidated damage clause was inserted in all contracts about a year ago and that the majority of contracts are now being completed on time, due principally to the stipulated damages for noncompletion contained in the contract.

Upon his favorable recommendation, the Commission granted the following requests for extensions of time within which to complete highway contracts. Reimbursement for engineering expenses and other expenses incurred by the State in connection with the work during the period of these extensions was waived by the Commission except as noted.

1. C. E. Leseberg, Contract No. 4772, for grading and oiling the South Unit, Vale-Grand Avenue Section on Lytle Boulevard in Vale, in Malheur County, requested an extension of time from July 15 to July 26, 1957. Approved as requested.

2. Q. L. Rufener, Contract No. 4691, for culverts, grading and stone base on Division No. 2 Bridge Replacement Project on four state highways in Yamhill and two other counties, requested an extension of time from September 30, 1956 to August 31, 1957. Approved to August 16, 1957, the date of completion.

3. J. C. Compton Co., Contract No. 4324, for bridges, grading and paving on the Siletz Bay-Depoe Bay Unit on the Oregon Coast Highway in Lincoln County requested an extension of time from October 31, 1955 to July 31, 1957. Approved to July 9, 1957, the date of completion.

4. Parker-Schram Co., Contract No. 4729, for grading and paving the North Oakland Grade Revision on the Oakland-Shady Highway in Douglas County, requested an extension of time from September 15, 1956 to August 15, 1957. Approved as requested.

5. Roy L. Houck & Sons, Contract No. 4645, for grading the Valley Junction-Sheridan Section of the Salmon River Highway in Yamhill and Polk Counties, requested an extension of time from November 30, 1956 to August 13, 1957. Approved as requested.

6. Rogers Construction, Inc. Contract No. 4536, for grading on the Meacham-Glover Section of the Old Oregon Trail in Umatilla County, requested an extension of time from October 31, 1956 to July 31, 1957. Approved as requested.

7. Edwin C. Gerber, Contract No. 4367, for paving the Little Creek-Estacada Section of the Woodburn-Estacada Highway in Clackamas County, requested an extension of time from October 15, 1955 to July 29, 1957. Approved as requested.

8. Hamilton & Thoms Contract No. 4556, for construction of the Dayton Bridge over the Yamhill River on the Three Mile Lane Highway in Yamhill County, requested a second extension of time from December 15, 1956 to July 13, 1957. Approved as requested.

FOOTNOTE: The action taken by the Highway Commission upon the extensions of time within which to complete the highway contracts listed above was based upon the recommendation of the Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time. For details regarding these extensions, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.

The Engineer reported that forty-one contracts as follows have been completed in accordance with plans and specifications: 4311, 4324, 4367, 4544, 4556, 4691, 4729, 4746, 4758, 4761, 4772, 4778, 4818, 4834, 4846, 4858, 4859, 4860, 4861, 4880, 4883, 4891, 4894, 4925, 4929, 4931, 4936, 4938, 4942, 4946, 4948, 4950, 4953, 4956, 4958, 4966, 4968, 4982, 4988, 4995, and 4997. He recommended that they be accepted.

The Commission accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered construction of a building to house various Highway Department crews on the department premises at Milwaukie. The Engineer reported that $28,000 had been budgeted to construct an equipment storage building on the Banfield Expressway near 82nd Avenue but the city would not grant a change in zone to allow construction. It now appears that the best solution is to apply the money authorized for the building on the Banfield Expressway plus $26,000 which was authorized for a storage headquarters at Milwaukie, to construct one larger, more adequate building at Milwaukie. The location at Milwaukie, he stated, has been carefully analyzed by the Maintenance Engineer and it is his feeling that construction of the proposed building in Milwaukie will be advantageous. The Commission authorized construction of the building as recommended and transfer of $28,000 from the proposed construction on the Banfield Expressway.

Authority was requested by the Engineer to hold a hearing in the City of Klamath Falls concerning the west side by-pass route of US 97 in the City of Klamath Falls. He recalled that a survey had been approved previously and considerable right of way has been purchased during the last three or four years. Passage of a new law in 1955 now requires that a hear ng be held if requested. The Commission granted him authority to conduct the hearing and to set a date on which to hold it. (The date for the hearing was later set by the Engineer for Thursday, October 17, 1957.)

Authority was requested by the Engineer to expend $12,000 to provide illumination of two traffic interchanges and an undercrossing of the Southern Pacific Railroad tracks on the Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County. Sufficient funds are contained in the present authorizations, he stated, but no authority has been granted to call for bids. The Commission granted the authority as requested.

Consideration was given to a request made by Pine Valley Ski Club of Halfway for snow removal on a 6-mile section of the Halfway-Cornucopia Highway. The Engineer reported that very few people live in that area and that in past years the road has remained closed during the heavy snow season. He estimated that it would cost approximately $15,000 annually to remove snow during the winter season. As a similar request had been denied to plow snow on the Anthony road, he recommended that this request also be denied. The Commission accepted his recommendation.

Consideration was given to a request from Coos County for an additional 1958 Federal Aid County Road Secondary project for construction of two bridges over the North Fork of the Coquille River on FAS Highway No. 252. The Engineer stated that the request conforms with requirements for FAS projects and he recommended approval of the project as follows:

County	FAS Hwy.	Section & Description	Programmed Amount	FAS Fund
Coos	252	Cooper and Gravelford (North Fork Coquille River) Bridges (2). Structures only.	$208,000	'58

TOTAL ADDITIONAL 1958 FAS FUNDS $208,000

SUMMARY, FISCAL YEAR 1958 & 1959 FUNDS *

Available Funds*	$8,033,000
Previously Approved**	6,033,000
Unprogrammed Balance**	$2,000,000
Proposed Project 9/5/57	208,000
Unprogrammed Balance	$1,792,000

*Includes additional fiscal year 1957 funds provided in Federal Aid Highway Act of 1956 and $33,000 (Washington County) carry-over from regular fiscal year 1957 funds.

**These are revised totals from "Status, 1958 & 1959 County FAS Funds" tabulation dated 9/5/57.

The Commission approved the project.

The Engineer also presented a summary of 1959 County Federal Aid Secondary funds allocated to various counties, as follows:

FISCAL YEAR 1959 FAS ALLOCATION TO COUNTIES AUGUST, 1957

COUNTY	FEDERAL FUNDS	TOTAL FUNDS Including State & Counties Match Money (Rounded to Thousands)
Baker	$ 35,959	$ 60,000
Benton	44,515	74,000
Clackamas	145,124	242,000
Clatsop	46,574	78,000
Columbia	56,597	94,000
Coos	68,528	114,000
Crook	35,537	59,000
Curry	27,066	45,000
Deschutes	46,371	77,000
Douglas	97,671	163,000
Gilliam	28,855	48,000
Grant	34,019	57,000
Harney	39,419	66,000
Hood River	37,546	63,000

COUNTY	FEDERAL FUNDS	TOTAL FUNDS Including State & Counties Match Money (Rounded to Thousands)
Jackson	$ 77,944	$130,000
Jefferson	32,635	54,000
Josephine	48,093	80,000
Klamath	65,119	108,000
Lake	43,047	72,000
Lane	152,059	253,000
Lincoln	52,784	88,000
Linn	87,209	145,000
Malheur	74,131	124,000
Marion	123,085	205,000
Morrow	36,668	61,000
Multnomah	174,942	292,000
Polk	61,981	103,000
Sherman	24,906	42,000
Tillamook	47,536	79,000
Umatilla	92,879	155,000
Union	36,617	61,000
Wallowa	34,086	57,000
Wasco	36,179	60,000
Washington	113,939	190,000
Wheeler	25,261	42,000
Yamhill	65,119	109 000
	$2,250,000	$3,750,000

Summary, Entire State - Fiscal Year 1959 Funds

Total Federal Funds	$4,565,092
Less Planning Survey (Approximately 1-1/2%)	65,092
Total for Construction	$4,500,000
County Share (50% of Total for Construction)	$2,250,000
Plus estimated Required Match Money:	
State Funds	750,000
County Funds	750,000
Total County Road FAS Fund	$3,750,000

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on basis of rural population, and 15% on basis of total county road mileage) proposed by Association of Oregon Counties and approved by Highway Commission. Federal funds are estimated to represent 60% of Total County Road FAS Fund with State and County Funds estimated to be 20% each.

The Commission approved the 1959 allocation of FAS funds as presented.

September 12, 1957

The Engineer reported that in response to requests received the Traffic Engineer had made investigations concerning reduced speed zones and that the investigations disclosed that speed zones should be established as follows:

1. 45 miles per hour on the Cascade Secondary Highway between a point 650 feet east of the county road to Monitor at M.P. 43.55, and the east city limits of Silverton at M.P. 44.00. (SEE EXHIBIT "E-1").

2. 45 miles per hour on the Pacific Highway East between the south city limits of Milwaukie at M.P. 6.19, and a point 400 feet north of Risley Avenue at M.P. 8.11; also,

50 miles per hour on the Pacific Highway East between a point 400 feet north of Risley Avenue at M.P. 8.11 and the north city limits of Gladstone at M.P. 10.66, except that between a point 450 feet north of Hull Avenue and a point 450 feet south of Hull Avenue, the indicated speed shall be 20 miles per hour during the hours of school crossings. (SEE EXHIBIT "E-2").

He recommended approval of such speed zone designations.

The Commission approved the reduced speed zones by adopting the attached resolutions relative thereto marked EXHIBIT "E-1" and EXHIBIT "E-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given to the claim of Lloyd C. Galer for damages to his well and sump located adjacent to the McMinnville Airport-Dayton Junction Section of the Three Mile Lane Highway. Mr. Galer, the Engineer stated, has signed a release for all future claims for damages, contingent upon payment to him of $210.00. He recommended settlement with Mr. Galer for such amount. The Commission approved the settlement.

Out-of-state travel expenditures were recommended by the Engineer and approved by the Commission as follows:

Forrest Cooper, Deputy State Highway Engineer, and Tom Edwards, Construction Engineer, to attend the annual western meeting of the Committee on Design of AASHO in Seattle, Washington, on September 26 and 27, 1957. Estimated cost $74.05 each.

Gene Huntley, Director of Personnel and Public Relations, to attend the National Conference of Public Personnel Association in Montreal, Canada, from September 29 through October 3, and a meeting of the Association of Highway and Public Works Personnel Directors at the same place on October 4, 1957. Estimated cost $350.

Members of Highway Commission, W. C. Williams, State Highway Engineer, Forrest Cooper, Deputy State Highway Engineer, G. S. Paxson, Assistant State Highway Engineer, and L. I. Lindas, Chief Counsel, to attend the annual meeting of AASHO in Chicago, Illinois, on November 18

through November 22, 1957. Estimated cost $350 each.

W. C. Williams, State Highway Engineer, to attend a meeting of the Transport Committee of AASHO in Chicago, Illinois, on October 12, 1957. Estimated cost $300.

Attention was given to a suggestion made by the Engineer that the State enter into an agreement with the Bureau of Business Research of the University of Oregon to conduct a study of the benefits to public utilities, particularly power companies, by use of the highway right of way. The Engineer explained that studies estimated to cost $9,500 will be financed from planning survey funds; also, that the Bureau of Public Roads is in favor of the study. Chairman Reynolds inquired if there would be any appreciable value in the survey. The Engineer replied that the study would be to disclose benefits to the utilities by reason of their occupancy of highway right of way, and that the information disclosed by the study would be used before state legislatures and the National Congress. Commissioner McIver observed that the efforts of the utility companies to force the states to pay for moving their facilities resolves itself to the question of whether the traveling public or patrons of the utilities' service should pay for these moves. It was his opinion that the utilities should pay their own moving costs. In the light of this attitude, he inquired as to what good would be secured by spending $9,500 for the study. The Engineer replied that the study should disclose that the utilities are saving considerable amounts of money by occupying highway right of way. Mr. C. G. Polk, of the Bureau of Public Roads, stated that the Bureau is anxious to conduct the study so that the facts disclosed by it could be used in conjunction with the same problem in other states and also be presented before the National Congress. After some further discussion, the Commission authorized funds for the study.

Redesignation of two sections of the old route of the Pacific Highway was discussed; one in Douglas County as an extension of the Coos Bay-Roseburg Highway and the Dillard Secondary Highway, and the other in Lane County as the Goshen-Divide Secondary Highway. The Engineer explained that the new route of the Pacific Highway is now open to public travel and it is desirable to redesignate the abandoned portions of the old highway. The Commission approved the designation as suggested by adopting the attached resolutions relative thereto, marked Exhibits "D-1" and "D-2", which resolutions by this reference are made part hereof, with like effect as though extended in full herein

Authority was requested by the Engineer and granted by the Commission for an expenditure of $372.79 to pay the State's proportionate share of a sewer assessment against State property in the town of Phoenix, in Jackson County.

The Engineer explained that property had been acquired to form a one-way couplet. The City later decided that it did not desire the couplet in that location and accordingly furnished right of way to locate it elsewhere. The State still owns the original property and sewer improvements have been made. He recommended that the easement be paid and that authority be granted to sell the property, which is no longer needed for highway purposes.

The Commission accepted his recommendation.

Consideration was given to an agreement between Lincoln County, Tillamook County and the U. S. Forest Service concerning jurisdiction over the existing Neskowin-Salmon River Section of the Oregon Coast Highway when the new highway section is completed. The Engineer stated that the agreement has been negotiated to take care of the old highway section when the new section is completed, which he estimated would be about 1960. Upon his favorable recommendation, the Commission approved the agreement.

The Engineer reported that there are certain highways in the State on which the hauling of poles, piling and logs has been prohibited by reason of sharp curves and narrow roadway. Three of these have been improved, one being the Woodburn-Estacada Secondary Highway between Carver Road and Estacada; another being the Oregon Coast Highway between Warrenton Junction and the old highway where a climbing lane is now in use; and a third being the Sumpter Valley Highway between McEwen and Salisbury. He recommended that these three sections be removed from the list of prohibited highways shown on Schedule B, which is a part of the permit issued by the Public Utilities Commissioner, containing the recommendations of the Highway Commission. The Comission accepted his recommendation.

Attention was given to a construction agreement with Clackamas County covering channelization at Evelyn Street on the Clackamas Secondary Highway at Clackamas to accommodate Safeway Stores. The Engineer commented that the channelization is necessary to protect the traveling public. The Commission approved the agreement.

The Commission approved the Secretary's report on papers he had signed on behalf of the Commission during the period August 5 through September 6, 1957.

The Commission set the date for the next regular Commission meeting for October 31 and November 1, 1957, in the Imperial Hotel in Portland, and a tentative date of December 5 and 6 for the next following regular meeting. The Engineer commented that a meeting is to be held on the First of October to sell the Highway bonds, and bids will be opened in Salem on October 3, 1957.

Consideration was given to a request from Valsetz Lumber Company for a permit, as a forest road contractor, to operate their hauling equipment across the Wallowa Lake Highway, about three miles southeast of Enterprise. The Engineer explained that some logging companies operate overweight and oversize logs on some county roads and maintain these roads. In this particular case the logging company wishes to move their oversize loads across the state highway. He recommended that a permit be granted to them. The Commission approved the permit.

Consideration was given to an agreement with the U. S. Bureau of Reclamation covering highway relocation at Keene Creek on the Green Springs Highway in Jackson County, and a master agreement of general coverage in the Talent Division of the Rogue River Basin Project. The Engineer explained that the Keene Creek project will inundate approximately 500 feet of the Green Springs Highway. The master agreement provides for settling on a local level conflicts between irrigation and highway facilities. The agreements, he continued, have been carefully examined by the Engineer and the Legal Division, and he recommended that they be approved. The Commission approved the agreements.

Attention was given to a request from the State Game Commission for an easement on the southerly bank of Shinglehouse Slough, west of the crossing of the slough by US 101, Coos County, in order to construct a boat-landing facility. The Engineer reported that the Game Commission has requested an easement for a ten-year period and has agreed to pay the cost to build a deceleration lane approaching the boat landing. The Commission approved the easement, with the understanding that a revocation clause be included.

The Commission discussed with the Engineer various matters to be presented by delegations on the following day; however took no action pending appearance of the delegations.

The Engineer reported that an agreement has been approved by the Idaho Power Company concerning rebuilding of sections of US 30 that will be inundated by Brownlee Dam on the Snake River. He explained that five sections are affected, three of which are or will be a part of the interstate system that is to be built. The other two sections are on the present highway that now leads to Weiser, Idaho. The Idaho Power Company, he continued, has agreed to pay the entire costs of revisions on all the sections, the estimated cost of which is $816,000, including right of way. The agreement provides, among other things, that if the money is deposited with the State by October 15, the completion date of the various projects will be set as June 1, 1958. Following his favorable recommendation, the Commission approved the agreement.

Attention was given to a protest submitted by the Greyhound Bus Corporation regarding the posting of bonds to tow their disabled buses over state highways. The Greyhound Bus Corporation, the Engineer stated, points out that they are already self-insured and the bond requirement causes them additional expense for something they already have. The Legal Division, he stated, has gone into the matter in considerable detail and it is felt that the company's protest is legitimate. He recommended that permits be issued to the company as in the past but without the requirement for a for additional insurance. The Commission accepted his recommendation.

The Engineer read aloud letters from the Department of Motor Vehicles and the Department of Finance and Administration requesting that the Highway Commission finance construction of a building to be occupied by the Department of Motor Vehicles. This building, the Engineer continued, is expected to cost approximately $450,000. The

State Police, he stated, previously requested that the Highway Commission construct a building to house all State Police offices located in Salem. The cost of the State Police building is estimated at $200,000. The State Police allege that by grouping their personnel they can save salaries of two or three office personnel, and provide other savings for their department. He pointed out that the State Police Department now receives about 65 per cent of its funds from State Highway revenues and that construction of a building would appear to have financial merit; however, there are two important points to consider in these requests. One being the legal right to construct the buildings with State Highway funds; the second being whether or not the Highway Department is in a position to finance such undertakings at this time. Consideration has been given to constructing the State Police Building, he continued, on a parcel of state-owned ground immediately east of the State Highway Shops, east of Salem. The Chief Counsel stated that, in his opinion, the Highway Commission has the legal authority to construct the buildings if it wishes to do so. The Engineer pointed out that although construction of the buildings with highway funds would conserve operating expenses, the expenditure or capital outlay would reduce the amount of monies available for highway construction. The Commission instructed the Engineer and the Chief Counsel to study the matter further from all possible angles and submit a report at the next meeting.

The Commission gave attention to a protest made by James R. Bailey concerning damage to his property on the R. H. Baldock Freeway near its junction with US99W, south of Portland. The Engineer reported that right of way was acquired to within 5 feet of the corner of Mr. Bailey's lot and his is the only house left in this area. Mr. Baily has made claim for damages because his means of access are extremely hazardous. If the State purchases this property, he suggested that the adjoining street be vacated, thus eliminating the intersection entirely. The Chief Counsel reported that he had talked with Mr. Bailey, who is concerned about getting his children to school and the damage to his property because of nearby construction. The Right of Way Engineer, he continued, has been requested to appraise Mr. Bailey's property. It was his opinion that the intersection should be eliminated, the street closed, and an offer made to Mr. Bailey for his property. The Engineer commented that Mr. Bailey's property is worth somewhere between $15,000 and $20,000 and he asked the Commission to authorize negotiations for the purchase of the property when appraisals have been obtained. The Commission granted authority as requested.

The Chief Counsel brought up the matter of reading descriptive matter on the three low bids, in which the unit items are read when bids are opened. It was his opinion that regulations adopted by the Department of Commerce would take precedence over Oregon Law if in conflict, and he suggested that he investigate the matter and submit a report at the next meeting. The Commission approved his suggestion.

Chairman Reynolds brought up for discussion a suggestion from Commissioner Chessman that park attendants be required to wear uniforms. The Parks Superintendent stated that he had made some investigation in this regard concerning the practice of other state departments including the Game Commission and the State Police. It was his thought that it would not be necessary to require all park employees to wear uniforms, only those that meet the public. Commissioner McIver stated that he was much interested and, in his opinion, parks personnel who meet the public should wear a uniform of some type. Commissioner Chessman suggested that the matter be given further study by the Parks Superintendent. The suggestion was approved by the Commission and the Parks Superintendent was instructed to submit a report on the subject at the next meeting.

The Commission discussed with the Secretary, the Chief Counsel, and the Engineer the matter of recording proceedings of the Highway Commission meetings. Commissioner McIver expressed the opinion that the basis of the minutes to be approved by the Commission should be the actual recording. Chairman Reynolds stated that he felt the verbatim proceedings as recorded would have to be reduced to a form similar to that used at the present time. It was also his opinion that the tape recordings would probably have to be transcribed in its entirety and rewritten and condensed for the minutes as approved by the Commission. Commissioner McIver stated that the point he was particularly interested in was having an actual verbatim record of the proceedings as would be the case if the Commission meetings are recorded. He also expressed the desire that the minutes be sent to the Commission at an earlier date. Commissioner Chessman stated that it appeared that transcribing the recorded material would be a rather complicated procedure and that there might be some way of simplifying it. The Assistant Counsel pointed out that the official minutes of the Commission are the minutes which are approved by the Commission, which in the past have been written by the Secretary and presented to the Commission for approval. He mentioned the possibility of the Commission's desiring to read the entire verbatim transcript if they wished to check the condensed version as presented by the Secretary. After some further discussion the Commission instructed the Secretary to prepare the Commission meeting minutes using the verbatim recordings as a basis.

The Engineer stated that the question had been presented to him by Commissioner McIver concerning the policy of the Highway Department pertaining to employees of the Department who get involved in legal difficulties because of failure to pay their debts. The Engineer stated that when it is learned that an employee is not paying his debts, a letter is written to his immediate superior in an endeavor to get the situation corrected. He stated that there is no definite policy as to the payment of debts by Highway employees. Upon inquiry by Commissioner McIver as to the number of garnishments that are filed each year, the Auditor replied that there are approximately 75. After some further discussion the Commission instructed the Engineer to submit a report at the next meeting concerning the number of garnishments that have been filed and particularly noting any instances that are repeaters or who employees who have had a number

of garnishments filed against them.

The Commission discussed with the Engineer bids received in Salem on August 30, 1957, and bids received at the morning session today. At 4:00 p.m., Commissioner McIver announced awards of contracts as follows:

BIDS RECEIVED IN SALEM ON AUGUST 30, 1957

"Rock production on the Unity Junction-Mill Creek Section of the Baker-Unity Highway in Baker County. The Commission awarded the contract to the low bidder, E. H. Itschner Co., Molalla, at $29,500.00.

"Construct Bear Creek Bridge and Rock Creek Bridges on County Roads FAS 812 and 813, south of Canby, in Clackamas County. The Commission awarded the contract to the low bidder, Hamilton & Thoms, Eugene, at $95,336.00.

"Construct Deep Creek and Clear Creek Bridges on County Roads FAS 808 and 809, in Clackamas County. The Commission awarded the contract to the low bidder, Rogers Construction Co., Portland, at $63,297.00.

"Construct North and South Fork Scappoose Creek Bridges on the Scappoose-Pittsburgh Road in Columbia County. The Commission awarded the contract to the low bidder, Babler Bros., Inc., Portland, at $32,681.00.

"Fairgrounds Interchange (Roseburg) Roadside Improvement Project on the Pacific Highway in Douglas County. The Commission rejected all bids as being too high.

"Grading and oiling on four county roads, near Hood River and Parkdale, in Hood River County. The Commission awarded the contract to the low bidders, Rex C. Ayers Construction Co. and Silver Falls Trucking and Construction Co., Portland, at $93,686.00.

"Parkdale rock production on the Mt. Hood and Hood River Highways, in Hood River County. The Commission awarded the contract to the low bidder, Vernie Jarl, Gresham, at $46,440.00.

"Grading oiling and placing of materials in stock pile, and construction of reinforced concrete box culvert and a 68' concrete bridge on the Cloverdale-Coast Fork Bridge Section of the Springfield-Creswell Secondary Highway, in Lane County. The Commission elects to accept the low bid of F. H. McEwen, Eugene, in the sum of $154,957.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Construct three reinforced concrete bridges over arms of Yaquina Bay on the North Bank County Road near Toledo in Lincoln County. The Commission awarded the contract to the low bidder, R. & M. Construction Co.,

Central Point, at $33,609.25.

"Slope paving of 21st, 28th, 33rd, and 39th Avenue Undercrossings on the Columbia River Highway in Portland in Multnomah County. The Commission awarded the contract to the low bidder, Pacific Concrete Co., Portland, at $8,925.00.

"Grading and paving Hancock Street-Multnomah Street and Stephens Street (Portland) on the Pacific Highway East (northbound), on Grand and Union Avenues in Portland in Multnomah County. The Commission elects to accept the low bid of Cascade Construction Co., Portland, in the sum of $24,263.00, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct Maintenance Building at Rufus in Sherman County. The Commission awarded the contract to the low bidder, Decatur & Maerz, Salem, at $16,584.00.

"Grading and topping on the Ukiah-Forest Boundary Section of the Ukiah-Hilgard Secondary Highway, west end, in Umatilla County. The Commission awarded the contract to the low bidder, K. C. Dack Construction Co., Pendleton, at $119,199.50.

"Construct Glover and Kamela Grade Separation Structures on the Meacham-Glover Section of the Old Oregon Trail in Umatilla and Union Counties. The Commission awarded the contract to the low bidder, R. H. Jones, Hillsboro, at $146,431.00.

BIDS RECEIVED ON SEPTEMBER 12, 1957

"Grading, paving, and furnishing material in stock pile on the Sandy-Alder Creek Section of the Mt. Hood Highway in Clackamas County. The Commission elects to accept the low bid of Rogers Construction Co. & Rogers Construction, Inc., Portland, in the sum of $1,704,932.25, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construct camping areas and roadways in Fort Stevens State Park in Clatsop County. The Commission awarded the contract to the low bidder, Grimstad & Vanderveldt, Astoria, at $25,084.00.

"Construct camping areas and roadways at Tumalo State Park in Deschutes County. The Commission awarded the contract to the low bidder, McNutt & Sons, Inc., Eugene, at $10,487.00.

"Grading and stone surfacing on the Burns Air Force Station Access Road on the Burns Mountain Road in Harney County. The Commission awarded the contract to the low bidder, F. L. Somers, Medford, at $177,565.00.

"Construct sand shed at Cascade Locks on the Columbia River Highway in Hood River County. The Commission awarded the contract to the low bidder, Gilbert Roberts, Hood River, at $7,472.20.

"Grading, oiling, and construction of reinforced concrete structure on the Eckman Slough Section of the Alsea Highway in Lincoln County. The Commission elects to accept the low bid of Pacific Concrete Co. & Parker & Fuhrman Co., Portland, in the sum of $68,421.40, and directs the State Highway Engineer to award the contract to said bidder as soon as necessary right of way is acquired.

"Construct bridge over Mill Creek and widen existing Mill Creek Overflow Bridge on the Salem By-pass Section of the Pacific Highway in Marion County. The Commission awarded the contract to the low bidder, Hamilton & Thomas, Eugene, at $72,186.00.

"Widen four existing overcrossings on Silverton Road, Sunnyview Avenue, Garden Road and State Street of the Salem By-pass Section on the Pacific Highway in Marion County. The Commission awarded the contract to the low bidder, Hamilton & Thoms, Eugene, at $209,777.00.

"Widen three existing overcrossings on Turner Road, Market Road 56 and Boone Road on the Salem By-pass Section of the Pacific Highway in Marion County. The Commission awarded the contract to the low bidder, H. G. Carl Construction Co., Salem, at $115,895.00.

"Construct undercrossing of S.W. Spring Garden Road on the Harbor Drive-Washington County Line Section of the Pacific Highway in Portland, in Multnomah County. The Commission awarded the contract to the low bidder, Johnston & Bryant, Newberg, at $126.778.75.

"Roadside improvement on Union Avenue-42nd Avenue Section of the Columbia River Highway (Banfield Expressway) in Portland, in Multnomah County. The Commission awarded the contract to the low bidder, E. P. Baltz & Son, Portland, at $99,703.89.

"Paving on the Meacham-Glover Section of the Old Oregon Trail Highway in Umatilla and Union Counties. The Commission awarded the contract to the low bidder, Rogers Construction Co., Portland, at $1,274.927.00.

"Grading, stone base, and furnishing crushed material in stock pile on the Flora Spur Section of the Flora Spur Road in Wallowa County. The Commission elects to accept the low bid of J. F. Konen Construction Co., Inc., Lewiston, Idaho, in the sum of $71,372.80 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wallowa County is received and the sum of $17,850.00 is deposited by the County.

"Furnish and install highway illumination at traffic interchange on Three Mile Lane Highway at Dayton in Yamhill County. The Commission awarded the contract to the low bidder, Steeck Electric Co., Medford, at $10,432.00.

The Commission signed the following papers, agreements, et cetera.

"Indentures of Access" on the following properties:

a. Fisher-Trotter property on Calapooya Creek-Sutherlin Section of Elkton-Sutherlin Highway, Douglas County.

b. Schilling property on Grass Valley-Kent Section of Sherman Highway, Sherman County.

c. Gladden property on Newberg-Dayton Junction Section of Pacific Highway West, Yamhill County.

d. Trimble property on Grass Valley-Kent Section of Sherman Highway, Sherman County.

"License" with the U.S. Army covering the use of a portion of the Army Engineer's dike along the Long Tom River for access and haul road purposes.

"Bargain and Sale Deed" for the sale of 0.1 acre on Goshen-Divide Section of the Pacific Highway to Miss Alsea Hawley, Consideration $25.

"Bargain and Sale Deed" to Theodore R. Joy for 74 acres of excess land on the Jumpoff Joe Creek-Grants Pass Section of US 99. This is to correct error in previously authorized acreage. Consideration $3,500.

"Permit" granting Mr. C. A. Thayer permission to move his livestock across property used for a roadbuilding material site which was purchased from Mr. Thayer.

"Agreement" between State, Lincoln County, Tillamook County and US Forest Service covering abandonment of old right of way of Neskowin-Salmon River Section of Oregon Coast Highway when this new section is completed.

"Agreement" with Clackamas County covering the channelization at Evelyn Street (Safeway Stores) in Clackamas County.

"Permit" to Valsetz Lumber Company to operate across the Wallowa Lake Highway about 3 miles southeast of Enterprise, as a forest road contractor.

"Agreements" (2) with US Bureau of Reclamation covering highway relocation at Kenne Creek on Green Springs Highway and a master crossing agreement of general coverage in Talent Division of Rogue River Basin Project.

"Quitclaim Deed" with C. R. Lawrence covering property on Divide Rice Hill Section of US 99.

"Bargain and Sale Deed" with City of North Bend re transfer to the city of area east of the highway for public park and road purposes. (Authorized August 8, 1957)

"Bargain and Sale Deed" with Mr. and Mrs. Ben F. Burgess covering property on North Bend-Marshfield Section of Oregon Coast Highway, Coos County. (Authorized August 8, 1957)

"Bargain and Sale Deed" with Convent of St. Dominic covering property on Unit No. 5 of T. H. Banfield Expressway, Multnomah County. (Authorized August 8, 1957.

"Maintenance Agreement" with Harney County covering the Burns Air Force Station Access Road Project.

"Agreement" with City of Portland covering the construction of a one-way couplet on Pacific Highway East within the City of Portland.

"Agreement" with Aurora Mutual Telephone Co. covering the installation of a telephone booth in Champoeg State Park.

"Agreement" with Idaho Power Company covering construction of the Old Oregon Trail and the Olds Ferry Ontario Highway because of construction of the Brownlee Dam across the Snake River.

"Finance & Maintenance Agreement" with Wallowa County covering the Flora spur Section of Fas 697.

Approved Minutes of August 8 and 9, 1957.

The meeting adjourned at 4:30 p.m., to reconvene at 10:00 a.m. the following day.

Portland, Oregon
September 13, 1957

The meeting of the State Highway Commission reconvened at 10:00 a.m. in the Queens Room of the Imperial Hotel. The following persons were present:

Chas. H. Reynolds, Chairman
M. K. McIver, Commissioner
Robert B. Chessman, Commissioner
W. C. Williams, State Highway Engineer (Arrived at 10:40 a.m.)
G. S. Paxson, Assistant State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
L. I. Lindas, Chief Counsel
G. E. Rohde, Assistant Counsel
R. L. Porter, Right of Way Engineer
L. V. Koons, Assistant Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

A delegation from the City of Oceanlake came before the Commission concerning improvements to the Oregon Coast Highway through that city. The following people were present: Mayor Ben W. Bienert, W. M. Marquis and Raymond Wilson, Councilmen; and Raymond Wood, City Attorney.

Mayor Bienert, who acted as spokesman, introduced the other members of the delegation and requested that a traffic light be installed at the intersection of Raymond Avenue with US. 101; that a section of US101 near "D" River Bridge be widened to four lanes; that the existing four-lane section of US101 in Oceanlake be extended northerly to the new north city limits, approximately one mile and that the Commission remove the shrubbery in the divider strip separating the four-lane section in the city. It was his opinion that the divider area should be planted to grass as maintenance of the shrubbery is too costly. He also asked for highway widening to correct a hazardous situation at the Wecoma postoffice. Chairman Reynolds recalled that the Commission had taken action at a previous meeting, granting the City authority to remove the shrubbery in the divider strip at city expense subject to inspection by the Highway Department. Mr. Bienert replied that the City did not have funds to finance this type of work. The Assistant Engineer, Mr. Paxson, suggested that the shrubbery be trimmed to a lower level possibly to a height of 2 or 2 1/2 feet, so that it would still present a reasonable barrier without interfering with sight distance. Chairman Reynolds advised the delegation that the shrubbery would be cut to the lower height immediately as suggested by the Assistant Engineer, and that investigation would be made concerning the other requests made by the delegation.

A delegation from the City of Seaside came before the Commission concerning the proposed construction on Roosevelt Avenue as a part of US101 in the city of Seaside. The following people were present: Lester Raw, Mayor; Avery Combs, City Attorney; Art Ensor, Councilman; Fred Like, Motel Owner; Frank Morse, City Engineer; Alex Smith, Planning Commission; Robert Furrer, Planning Commission Technician, Henry Dester, Chamber of Commerce. Mayor Raw introduced the members of the delegation. Mr. Combs pointed out that the need for improvement to Roosevelt Avenue had been emphasized by the great amount of traffic congestion in the city over the recent Labor Day week-end. He called attention particularly to the traffic tie-ups and the large number of accidents at the intersection of Broadway and Holiday Streets. The City, he continued, has been doing what it could to improve the traffic situation, and has budgeted $8,000 for its share of a traffic and planning survey concerning future traffic needs. He pointed out that the City has already cooperated in transferring to the State property needed for the proposed development, and that, by zoning regulations, the City has protected the route along Roosevelt Avenue from encroachment by business establishments. He exhibited a number of colored slides showing traffic conditions in Seaside over the recent Labor Day week-end. Mr. Dester stated that the Seaside Chamber of Commerce feels that traffic control is no longer a local problem but should be handled by the State. Commissioner McIver inquired if the City is agreed that the route along Roosevelt Avenue is the proper route or if they had given any thought to a by-pass to the east. Mayor Raw replied that there is some objection to moving the highway but there is

apparently no organized opinion concerning a change in routing. Commissioner McIver then inquired if the City would like to have a study made concerning a by-pass to the east of the city. Mayor Raw replied that in the absence of any official action in the matter by city officials he felt that conducting of a study should be left up to the Commission. Mr. Combs inquired if conducting a study of a by-pass route would delay the proposed construction along Roosevelt Avenue. Commissioner Chessman pointed out that improvement of Roosevelt Avenue would provide a route through the center of the existing city and eventually the same traffic problems would have to be faced on Roosevelt Avenue as now exist on the present highway. Chairman Reynolds pointed out that there are no funds presently available to finance the Roosevelt Avenue development as all available funds in the district have been allocated to construction of a new bridge across Youngs Bay, which is estimated to cost about $4,000,000, and on which construction is expected to start in 1959. He inquired if the City would eliminate parking along the present route of US101 in order to facilitate travel through Seaside. Mayor Raw replied that such restriction would help but there would be objection from city merchants. Chairman Reynolds then inquired if the City would have any objection to the Engineer's taking another look at the proposed development on Roosevelt Avenue. He again pointed out that it will take about three years to finance construction of the Youngs Bay Bridge and until that project is completed no sizable sums of money will be available for the project now requested. Mr. Combs stated that he felt there would be no particular objection to reviewing the proposed improvement along Roosevelt Avenue. Commissioner McIver again pointed out that funds available for this district have been committed to the Youngs Bay Bridge and that it will be 1960 before additional projects can be considered.

The Chief Counsel inquired if the Commission wished to take action at this time concerning resolutions for condemnation that were presented on the preceding day. After carefully considering the proposed condemnations and in light of the information and advice submitted, together with the general knowledge of the members of the Commission concerning the projects and the properties involved, the Commission approved the condemnations by adopting the attached resolutions relative thereto, marked Exhibits "G-1" through "G-20", which resolutions by this reference are made a part hereof, with like effect as though extended in full herein.

The Chief Counsel brought up the matter of a lease agreement with C. W. Clemens for removal of gravel from 80 acres of land in construction of the Grant County Line-Burns Section of the John Day-Burns Highway. He observed that there was a reservation in the deed by the previous owner reserving the mineral rights and he now had made claim for $2,500, the amount stipulated in the lease. It was his opinion that to settle the matter the property should be condemned and let the court determine who is to get the money. Both owners apparently have agreed that $2,500 is a reasonable amount. The Commission authorized the condemnation and approved the payment of $2,500 as may be directed by the court.

There being no further business to transact at this time, upon motion duly made, seconded, and carried, the meeting adjourned at 11:00 a.m. to reconvene at 10:00 a.m. Standard Oregon Time on the first day of October, 1957, to consider bids received for the purchase of $20,600,000 Oregon Highway Bonds and to dispose of any other matters that may then regularly come before the meeting.

MINUTES

of the

OREGON STATE HIGHWAY COMMISSION MEETING

held on

September 12 and 13, 1957

EXHIBIT "A"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

WEST UNIT, SANDY-FOREST BOUNDARY SECTION - MT. HOOD HIGHWAY

25402	Lauderback, L. R. et al		(Grothaus)
	Right of Way, Stas. Existing hwy. 0+50-Rel. hwy. 3+05		
	Option expires February 1, 1958		
	.20 acre	$300.00	
	Area graded and graveled in front of receiving sta.	700.00	
	Amount to be paid owners - chrg to Right of Way		$1,000.00

EXHIBIT "A" (Cont)

WEST UNIT, SANDY-FOREST BOUNDARY SECTION - MT. HOOD HIGHWAY

25402 Lauderback, L. R. et al (Cont)

THINGS TO BE DONE BY THE STATE

Construct surfaced approach to r/w line 25' in width at each access location.
Access: 0+32 (Existing Hwy.) S. and 2+87 (Relocated Hwy.) S., operation of existing cannery activity, only.
Reasonable access to Grantors' remaining property will be maintained during construction of new Mt. Hood Hwy.
Provide adequate drainage facilities to take care of water created within right of way.

Access Controlled -

25436 Mahaffey, Mike and Olive (Mayhew)
Right of Way, Sta. 97
Option expires February 18, 1958

0.7 acre	$140.00	
Allow. for poles and damages	85.00	
Amount to be paid owners - chrg to Right of Way		$225.00

Access: *95+20, N., residential; *99+50, N., agricultural; and 101+45, N., production and transportation of timber products, only. *Access points designated only.

25440 Haney, C. B. and others, if any (Cont)

Amount to be paid owners - chrg to Right of Way $1,365.00
Property to be accessed via Parry Road, Sta. 138+70, S. Side.

25566 Anderson, Olrik T. and Alice M. (Grothaus)
Right of Way, Stas. 233-237
Option expires March 4, 1958

0.2 acre at $1,000 per acre	$200.00	
3.4 MBF timber	80.00	
Amount to be paid owners - chrg to Right of Way		$280.00

THINGS TO BE DONE BY THE STATE

Surface a 16' approach to r/w line at access location: Sta. 234+90, S., agricultural, timber, motel, trailer and public park activities, and residential.

Access controlled -

25721 Wear, Gerald R. (Grothaus)
Right of Way, Stas. 447-451
Option expires March 4, 1958

0.47 acre	$1,400.00	
Cabin	1,600.00	
Bear statue, lawn and shrubs	650.00	
Concrete bear pen, house and exercise pole	1,200.00	
Proximity damage	700.00	
Amount to be paid owner - chrg to Right of Way		$5,550.00

Grantor to retain bldgs. and improvements if moved before vacating. Grantor to vacate by October 1, 1957 or 30 days after notice, whichever is later.

THINGS TO BE DONE BY THE STATE

Surface a 25' wide approach to r/w line at access location on S. and a 40' wide approach on N. side.
Access 450+40, 40', N. unlimited, via frontage road, 449+470, 25', S., for residential, timber, agricultural, advertising signs and maintenance activities.
Provide N. frontage road.
Conditional approval. Approved if State gets title to bldgs. on option.

Access controlled -

EXHIBIT "B"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, The State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land on the Barbur Blvd. - Marion County Line Section of the Portland-Salem Expressway described as follows:

A parcel of land lying in Lots 15 and 16, Comte and Kohlman's Little Homes No. 2 Subdivision situated in Section 36, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that tract of land described in that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 326, Page 357 of Washington County Records of Deeds; the said parcel being described as follows:

Beginning at the Northeast corner of said Lot 15; thence South along the East line of said Lots 15 and 16 a distance of 600 ft. to the Southeast corner of said Lot 16; thence West along the South line of said Lot 16 a distance of 550 ft., more or less to a line which is parallel to and 200 ft. Easterly of the center, line of the South bound land of the Portland-Salem Expressway; thence North 15° 49' 15" East along said parallel line 625 ft., more or less, to the North line of said Lot 15; thence East along said North line 380 ft., more or less, to the place of beginning.

The Southbound center line of the Portland-Salem Expressway referred to above is described as follows:

Beginning at Engineer's center line Station 322+00 said station being North 84° 58' 44" East 811ft. from the Northwest corner of said Section 36; thence South 15° 49' 15" West 1,300 ft. to Station 335+00.

The parcel of land to which this description applies contains 6.4 acres.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes:

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $1,000.00, and the Commission is

EXHIBIT "B"

desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW THEREFORE, BE IT RESOLVED that the Chief Counsel of the Commission be, and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq. The conveyance of said property shall provide that there is reserved to the State, and waived and relinquished by the purchaser, all rights of ingress and egress, to from and between said real property and the right of way of the Portland-Salem Expressway.

AND BE IT FURTHER RESOLVED that this Property Sale Resolution No. 51 be entered in the minutes and records of the Commission as of the 12th day of September, 1957.

EXHIBIT "C"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance.

"Contract No. 4311, with Rogers Construction Co., for paving the Glenwood-North Plains Section of the Wilson River Highway in Washington Co., completed May 22, 1957.

"Contract No. 4324, with J. C. Compton Co., for constructing bridges, grading and paving on Siletz Bay-Depoe Bay Unit of the Siletz Bay-Miner Creek Section of the Oregon Coast Highway in Lincoln County, completed July 9, 1957.

"Contract No. 4367, with Edwin C. Gerber, for paving on the Little Creek-Estacada Section of the Woodburn-Estacada Highway in Clackamas County, completed July 29, 1957.

"Contract No. 4544, with Hamilton & Thoms, for constructing the Divide Overcrossing on the Goshen-Divide Section of the Pacific Highway in Lane County, completed August 22, 1957.

"Contract No. 4556, with Hamilton & Thoms, for constructing the Dayton Bridge over the Yamhill River on the Three Mile Lane Highway in Yamhill County, completed July 13, 1957.

"Contract No. 4691, with Q. L. Ruffener, Inc., for constructing culverts, grading and surfacing on the Division No. 2 Bridge Replacement Project on four state highways in Yamhill, Clatsop and Lincoln Counties, completed August 16, 1957.

"Contract No. 4729, with Parker-Schram Co., for grading and paving on the North Oakland Section of the Oakland-Shady Highway in Douglas County, completed August 14, 1957.

"Contract No. 4746 with J. N. Conley, for grading and oiling the Sunset Junction Slide Section of the Fishhawk Falls Highway in Clatsop County, completed July 11, 1957.

"Contract No. 4758, with C. R. O'Neil, for grading and paving on the Sexton Mountain N. Slope Slide Section of the Pacific Highway in Josephine County, completed August 20, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4761, with Coos Bay Dredging Co., Inc., for grading and paving on the Catching Slough-Chandler Bridge Section of the Coos River Highway, completed August 30, 1957.

"Contract No. 4772, with C. E. Leseberg, for grading and oiling on the S. Unit, Vale-Grand Avenue Section of Lytle Boulevard in Malheur County, completed July 26, 1957.

"Contract No. 4778, with Central Paving Co., for paving the Dolph Corner-Rickreall Section of the Willamina-Salem Highway in Polk County, completed July 29, 1957.

"Contract No. 4818, with White Bros. Construction Co., Inc., for constructing the Umatilla River Bridge on the Hermiston Highway in Umatilla County, completed August 19, 1957.

"Contract No. 4834, with Tom Lillebo, for constructing the Mill Creek and Sheridan Crossing Bridges on the Salmon River Highway in Yamhill County, completed August 9, 1957.

"Contract No. 4846, with C. C. Meisel, for furnishing crushed materials in stockpiles on the Myrtle Point-Camas Valley Section of the Coos Bay-Roseburg Highway in Coos and Douglas Counties, completed July 31, 1957.

"Contract No. 4858, with John R. Saxton, for furnishing crushed materials in stockpiles on the Hayes Hill-West Fork Illinois River Section of the Redwood Highway in Josephine County, completed July 10, 1957.

"Contract No. 4859, with J. J. Walton, for illumination installation on the Dolph Corner-Rickreall Section of the Willamina-Salem Highway in Polk County, completed August 23, 1957.

"Contract No. 4860, with J. F. Konen Construction Co., Inc., for furnishing crushed materials in stockpiles on the Enterprise Section of the Wallowa Lake and Enterprise-Lewiston Highways in Wallowa County, completed August 30, 1957.

"Contract No. 4861 with Barney B. Helser, for furnishing crushed materials in stockpiles on the Thirtymile Creek-Service Creek Section of the John Day Highway in Wheeler and Gilliam Counties, completed July 9, 1957.

"Contract No. 4880, with Allum Bros., for grading and oiling on the Silver Lake Section of the Fremont Highway in Lake County, completed August 15, 1957.

"Contract No. 4883, with D. F. McKenzie, for grading and oiling on the Hopewell Section of the Bellevue-Hopewell Highway in Yamhill County, completed August 1, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4891, with George E. Berry, for constructing Deep Creek Bridge on the Warner Valley County Road in Lake County, completed August 23, 1957.

"Contract No. 4894, with Pacific Marine Service, for painting the South Slough and Powers Bridges on the Cape Arago and Powers Highways in Coos County, completed August 8, 1957.

"Contract No. 4925, with Angell Bros., for grading and oiling on the Conner Creek Section of the Oregon Coast Highway in Coos County, completed August 30, 1957.

"Contract No. 4929, with Horton Construction Co., for oiling on Division No. 3 Oiling Project on seven state highways in Lane and Douglas Counties, completed August 19, 1957.

"Contract No. 4931, with Leslie Harris, for grading and paving Coe Avenue in the City of Stanfield in Umatilla County, completed August 10, 1957.

"Contract No. 4936, with Morse Bros., for paving the Crabtree Jct. - Brewster and Oak Creek School-Lebanon Sections of the Lebanon-Crabtree and Orleans-Lebanon County Roads in Linn County, completed September 5, 1957.

"Contract No. 4938, with Porter W. Yett, for grading and paving the West City Limits-Main St. (Beaverton) Section of the Farmington Highway in Washington County, completed August 30, 1957.

"Contract No. 4942, with Central Paving Co., for grading and paving the Hopmere Road-McNary Wye Section of the Wheatland Road in Marion County, completed August 8, 1957.

"Contract No. 4946, with Parker-Schram Co., for furnishing crushed materials in stockpiles on the Mt. Hood Section of the Mt. Hood and Warm Springs Highways in Clackamas, Hood River and Wasco Counties, completed August 14, 1957.

"Contract No. 4948, with Oakridge Excavators, for surfacing and paving the Oakridge (First Street) Section in Lane County, completed August 12, 1957.

"Contract No. 4950, with Babler Bros., Inc., for shoulder oiling on the Moro-Grass Valley and South Unit, Madras-Culver Junction Section of the Sherman and The Dalles-California Highways in Sherman and Jefferson Counties, completed August 8, 1957.

EXHIBIT "C" (Cont)

"Contract No. 4953, with The Central Heating Co., Oreg. Ltd., for grading and paving the Oak Street-Chetco River (Brookings) Section of the Oregon Coast Highway in Curry County, completed August 13, 1957.

"Contract No. 4956, with H. G. Wirtz, for constructing the Chiloquin Sand Shed on The Dalles-California Highway in Klamath County, completed August 2, 1957.

"Contract No. 4958, with E. C. Swaggert Co., for furnishing crushed materials in stockpiles on the Walton-Veneta Section of the Richardson-Eugene Highway in Lane County, completed August 26, 1957.

"Contract No. 4966, with Bechtel Brothers, for a latrine building in the Wallowa Lake State Park in Wallowa County, completed August 12, 1957.

"Contract No. 4968, with Babler Bros., Inc., for surfacing and oiling the Madras (4th Street) Section in Jefferson County, completed August 9, 1957.

"Contract No. 4982, with Babler & Rogers, for paving the Waldport-Yachats Section of the Oregon Coast Highway in Lincoln County, completed August 6, 1957.

"Contract No. 4988, with Babler Bros., Inc., for grading and oiling the Metolius (Butte Avenue) Section in Jefferson County, completed August 5, 1957.

"Contract No. 4995, with Merrell Steel Co., for constructing a sand shed at Manning on the Sunset Highway in Washington County, completed August 24, 1957.

"Contract No. 4997, with Oregon Asphaltic Paving Co., for grading and paving the Boring Section of the Clackamas-Boring County Road in Clackamas County, completed August 23, 1957.

THEREFORE BE IT RESOLVED that the work covered by State Highway Contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 65 shall be entered in the minutes and records of the Commission as of the 12th day of September, 1957.

EXHIBIT "D-1"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, the State Highway Commission has relocated and realigned the Pacific Highway, State Primary Highway No. 1, in Douglas County between Roseburg and Myrtle Creek; and

WHEREAS, said relocation has made it possible to remove certain portions of the old Pacific Highway from the route of said Pacific Highway; and

WHEREAS, the redesignation of those portions of the old route of the Pacific Highway eliminated by the said relocation (in the manner hereafter set forth) as a secondary state highway or as an extension of a primary state highway is in the best interests of the people of the State of Oregon and the motoring public;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the present old route of the Pacific Highway, State Primary Highway No. 1, from the point where said highway is intersected by the Coos Bay-Roseburg Highway No. 35 in Winston to its intersection with the relocated Pacific Highway south of Roseburg at or near Mile Post 198.36 of said relocated Pacific Highway is redesignated as an extension of the Coos Bay-Roseburg Highway. Said Coos Bay-Roseburg Highway shall retain its present designation and classification as a primary state highway, its route and termini being hereafter described as follows:

> From a junction with the Oregon Coast Highway near Coos Bay, easterly via Coquille, Myrtle Point, Camas Valley, and Winston to a junction with the Pacific Highway south of Roseburg.

That portion of the old route of the Pacific Highway redesignated as a part of the Coos Bay-Roseburg Highway is shown colored in purple on the map attached hereto, marked Exhibit "A", and by this reference made a part hereof.

2. That the present old route of the Pacific Highway, State Primary Highway No. 1, from the point where said highway is intersected by the Coos Bay-Roseburg Highway No. 35 in Winston to its intersection with the relocated Pacific Highway near Myrtle Creek at or near Mile Post 206.11 of said relocated Pacific Highway is redesignated as the Dillard Secondary State Highway No. 235, to be

hereafter maintained as a secondary state highway of the state highway system, its route and termini being described as follows:

> Beginning at a junction with the Coos Bay-Roseburg Highway No. 35 in Winston, thence southeasterly via Dillard to a junction with the Pacific Highway near Myrtle Creek, a distance of approximately 8.51 miles.

That portion of the old route of the Pacific Highway redesignated as the Dillard Secondary State Highway is shown colored in yellow on Exhibit "A" attached hereto.

3. That this Primary Highway Designation Resolution No. 24 be entered in full in the minutes and records of the Commission this 12th day of September, 1957.

EXHIBIT "D-2"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, the State Highway Commission has relocated and realigned the Pacific Highway, State Primary Highway No. 1, in Lane County between Goshen and Divide; and

WHEREAS, said relocation has made it possible to remove certain portions of the old Pacific Highway from the route of the Pacific Highway; and

WHEREAS, the redesignation of that portion of the old route of the Pacific Highway eliminated by the said relocation (in the manner hereafter set forth) as a secondary state highway is in the best interests of the people of the State of Oregon and the motoring public;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the present route of the Pacific Highway, State Primary Highway No. 1, from its intersection with the relocated Pacific Highway at or near Mile Post 129.68 of said relocated highway at Goshen to its intersection with the relocated Pacific Highway at or near Mile Post 149.86 of said relocated highway at Divide is hereby designated as the Goshen-Divide State Secondary Highway No. 226 to be maintained hereafter as a secondary state highway of the state highway system, its route and termini being hereafter described as follows:

> Beginning at a junction with the Pacific Highway at Goshen, thence southerly via Creswell and Cottage Grove to a junction with the Pacific Highway at Divide, a distance of approximately 19.91 miles.

That portion of the old route of the Pacific Highway redesignated as the Goshen-Divide Secondary State Highway is shown colored in yellow on Exhibit "A" attached hereto.

EXHIBIT "D-2" (Cont.)

2. That this Secondary Highway Designation Resolution No. 41 be entered in full in the minutes and records of the Highway Commission this 12th day of September, 1957.

EXHIBIT "E-1"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS. 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Cascade Secondary Highway

Highway number 160 Route Number Oregon 213

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
43.55 (650 east of County Road to Monitor)	44.00 (east city limits of Silverton)	45

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

EXHIBIT "E-1" (Cont)

BE IF FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 253 be entered in the minutes and records of the Commission as of the 12th day of September, 1957.

EXHIBIT "E-2"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: Pacific Highway East

Highway number 1-E Route number US99E

Location of Termini		Established Speed
M.P.	to M.P.	M.P.H.
6.19 (south city limits of Milwaukie)	8.11 (400 ft. north of Risley Avenue)	45
8.11 (400 ft. north of Risley Avenue)	10.66 (north city limits of Gladstone)	50

except that between a point 450 feet north of Hull Avenue and a point 450 feet south of Hull Avenue the indicated speed shall be 20 miles per hour during the hours of school crossing.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 254 be entered in the minutes and records of the Commission as of the 12th day of September, 1957.

28927

EXHIBIT "F-1"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Main Street-Eighth Street Couplet Section (Main Street westbound; Eighth Street eastbound) of the Medford-Provolt Secondary Highway in Medford, Jackson County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Main Street-Eighth Street Couplet Section of the Medford-Provolt Secondary Highway, beginning at Highway Engineer's Station 0+00, at Columbus and Main Streets in Medford, and extending in a southerly and easterly direction along Columbus Street and Eighth Street to a connection with US99 at Riverside Avenue, Highway Engineer's Station 22+83.25, together with the map, which for identification purposes bears Sketch Map File No. 1R-5-1064, dated August, 1957, (Right of Way Map No. 8B-6-23, dated August, 1957), field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of a non-access controlled highway.

4. That this resolution be entered in the minutes and records of the Commission as of the 12th day of September, 1957, as Survey Resolution No. 154.

28928

EXHIBIT "F-2"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Oro Dell-La Grande Unit of the Hilgard-La Grande Section of the Old Oregon Trail Highway in Union County, and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows

1. That the survey of the Oro Dell-La Grande Unit of the Hilgard-La Grande Section of the Old Oregon Trail Highway, beginning at Highway Engineer's Station 930+00, east of La Grande and extending in a easterly direction to Highway Engineer's Station 982+17 74, approximately one-half mile west of the west city limits of La Grande, together with the map, which for identification purposes bears Sketch Map File No 1R-3-1171, dated September, 1957, (Right-of-way Maps No. 8B-6-10 and 8B-6-11, dated July, 1957, and 8B-7-1, dated September, 1957), field notes and other engineering data submitted by the Engineer hereby are approved and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of said survey constitutes and is deemed as instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the relocation, construction, reconstruction, or improvement of the highway along and over this survey. This approval and adoption shall also constitute authority for the Legal and Right of Way Department to proceed promptly with acquisition of the necessary right of way pursuant to the normal and approved method for construction of complete access controlled highway.

EXHIBIT "F-2" (Cont)

4. That heretofore this Commission by resolution dated November 3, 1948, designated the said Old Oregon Trail Highway as a "Throughway" within the meaning and purpose of ORS 374.005 through ORS 374.095. commonly known as the "Throughway Law", and, for the reasons stated therein, it is hereby directed that the construction of the above mentioned section of highway shall be accomplished pursuant to and within the meaning and scope of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 12th day of September, 1957, as Survey Resolution No. 158.

28930

EXHIBIT "G-1"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance or an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen in part, construct, improve and maintain the Sandy-Forest Boundary Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated in part, widened in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners

EXHIBIT "G-1" (Cont)

and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating in part, widening in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation in part, widening in part, construction, improvement and maintenance of the said Sandy-Forest Boundary Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said relocated and widened Mt. Hood Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation in part, widening in part, construction, improvement and maintenance of the Sandy-Forest Boundary Section of the Mt. Hood Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "G-1" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 854.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 854, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-2"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ukiah-West Forest Boundary Section of the Ukiah-Hilgard Secondary Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Ukiah-West Forest Boundary Section of the Ukiah-Hilgard Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

EXHIBIT "G-2" (Cont)

2. That the relocation, construction, improvement and maintenance of the said Ukiah-West Forest Boundary Section of the Ukiah-Hilgard Secondary Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 855.

---

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 855, under the heading "Real Property Condemnation Resolutions", and said descriptions, maps and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-3"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreements, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway); and

WHEREAS, the Highway Commission has, by a resolution, ordered and declared that said section of said highway shall be located, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its

discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of locating, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the state and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said Pacific Highway (formerly Portland-Salem Expressway) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.*

3. That the location, construction and maintenance of the said Harbor Drive-Barbur Boulevard Section of the Pacific Highway (formerly Portland-Salem Expressway) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken, is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "G-3" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 856.

*FOOTNOTE

The names of the property owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 856, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28938

EXHIBIT "G-4"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, The State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public, and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is

EXHIBIT "G-4" (Cont)

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.*

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Pacific Highway (formerly Pacific Highway East) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "G-4" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 857.

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 857, under the heading "Real Property Comdemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-5"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For right of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "G-5" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 858.

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel or real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 858, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-6"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, relocate in part, construct, improve and maintain the Tunnel-Namorf Section of the Central Oregon Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened in part, relocated in part, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purpose declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing

EXHIBIT "G-6" (Cont)

the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of widening in part, relocating in part, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled, as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, relocation in part, construction, improvement and maintenance of the said Tunnel-Namorf Section of the Central Oregon Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said widened and relocated Central Oregon Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the widening in part, relocation in part, construction, improvement and maintenance of the said Tunnel-Namorf Section of the Central Oregon Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "G-6" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 859.

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 859, under the heading "Real Property Comdemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-7"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Ontario-Snake River Section of the Old Oregon Trail Highway, and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation. construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service

EXHIBIT "G-7" (Cont)

road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Ontario-Snake River Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "G-7" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 860.

*FOOTNOTE:

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 860, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-8"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct, improve and maintain the Grant Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction, improvement and maintenance of the said Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of

EXHIBIT "G-8" (Cont)

the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the establishment, construction, improvement and maintenance of the said Grand Avenue-Union Avenue One-Way Couplet Section of the Pacific Highway East and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 867.

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the parcels of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 867, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-9"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road, street or facility; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Fanno Creek Bridge Section of the Scholls Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Fanno Creek Bridge Section of the Scholls Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's file number and said Exhibit "A" is be this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

EXHIBIT "G-9" (Cont)

part hereof as completely and fully as though set forth herein in full.*

2. That the relocation, construction, improvement and maintenance of the said Fanno Creek Bridge Section of the Scholls Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 861.

*FOOTNOTE:

The name of the property owner and the detailed descriptions of the parcels of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 861, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-10"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture or roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Davis Slough-Bandon Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has be a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, construction, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation

EXHIBIT "G-10" (Cont)

by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be required, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement maintenance of the said Davis Slough-Bandon Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached,

EXHIBIT "G-10" (Cont)

then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 862.

*FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 862, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28956

EXHIBIT "G-11"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads; highway drainage, drainage tunnels, or for the elimination or prevention of hazardous or undesirable points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, reconstruct, improve and maintain the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said highway shall be relocated, constructed, reconstructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the "Throughway Law"; and

WHEREAS, for the purpose of relocating, constructing, reconstructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the

EXHIBIT "G-11" (Cont)

Commission that the real property hereinafter described is necessary and that access to and from the said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required for right of way purposes for the construction, reconstruction, improvement and maintenance of the Columbia River Highway as a throughway, including its use for the construction, reconstruction, improvement and maintenance of frontage roads and a traffic interchange, which traffic interchange, with a connecting road to be constructed by the State Highway Commission, will connect the said Columbia River Highway and the Crown Point Secondary Highway, the following described real property, to wit:

File No. L-2584 (R-24183)
Owner: Paul R. Martin, et ux.

Parcel No. 1:

A parcel of land lying in Lot 1 of Section 25, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of that tract conveyed to Paul Martin and Verla Martin by deed recorded in Book 1523, Page 418 of Multnomah County Deed Records, said corner being 686 feet West and 191.52 feet North 0° 07' East from the Southeast corner of said Lot 1; thence North 84° 17' West parallel to and 200 feet northerly from the relocated center line of the Columbia River Highway, 228.9 feet to a point opposite Station 521+50 on said relocated highway center line; thence North 62° 01' 36" East 180.28 feet to a point opposite and 300 feet northerly of Station 523+00 on said center line; thence North 87° 35' 12" East 65.4 feet to the West line of said Martin tract; thence South along said West line 110 feet to the point of beginning.

The parcel of land to which this description applies contains 0.22 acre.

Parcel No 2:

A parcel of land lying in the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 25, Township 1 North, Range 3 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being described as follows:

EXHIBIT "G-11" (Cont)

Beginning at the Southwest corner of said Northeast quarter (NE $\frac{1}{4}$) of the Northeast quarter (NE $\frac{1}{4}$) thence North 40° 40' East 153.5 feet; thence North 3.72 feet to the Southeast corner of that tract conveyed to Paul Martin and Verla Martin by deed recorded in Book 1523, Page 418 of Multnomah County Deed Records, said corner being the true point of beginning of the parcel herein described; thence South 84° 17' East parallel to and 200 feet northerly from the relocated center line of the Columbia River Highway 535.1 feet to a point opposite Station 537+00 on said relocated highway center line; thence North 62° 28' 55" West 538.52 feet to a point opposite and 400 feet northerly from Engineer's center line Station 532+00; thence North 84° 17' West parallel to and 400 feet northerly from said relocated highway center line 55.1 feet to the East line of said Martin tract; thence South along said East line 201 feet to the point of beginning.

The parcel of land to which this description applies contains 1.4 acres.

2. That it is necessary to acquire and remove all of that certain farm structure located partially upon the real property hereinabove described as Parcel No. 2 and partially upon the owners' remaining real property approximately opposite Highway Engineer's centerline Station 534+00 and northerly of the said Columbia River Highway, and in connection therewith, it is necessary to acquire a right of entry to go upon the owners' remaining real property contiguous to the real property hereinabove described for the purpose of removing, dismantling or otherwise disposing of said structure.

3. That it is necessary that there shall be no rights of access of any nature between the right of way of the Columbia River Highway and all real property of the owners easterly of the Sandy River in Section 25, Township 1 North, Range 3 East, Willamette Meridian, and Sections 29 and 30, Township 1 North, Range 4 East, Willamette Meridian, Multnomah County, Oregon, abutting on the said Columbia River Highway remaining after the appropriation of the above-described real property; provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, the following:

Rights of access to a frontage road to be constructed by the State Highway Commission upon the right of way of the Columbia River Highway on the Northerly side of the main-traveled way thereof between approximately Engineer's Station 531+50 and Engineer's Station 537+00 at all places thereon easterly of Engineer's Station 532+00. Also a right of access to a connecting leg of an interchange to be constructed by the State Highway

EXHIBIT "G-11" (Cont)

Commission upon the right of way of the Columbia River Highway on the northerly side of the main-traveled way thereof, said access to be of a width not to exceed 30 feet on the north side of said connecting leg, opposite Highway Engineer's center-line Station 423+40, which said frontage road and connecting leg shall be connected with the main-traveled way approximately opposite Highway Engineer's centerline Station 530+00 for traffic to travel westbound upon the highway.

Rights of access to a connection road to be constructed by the State Highway Commission upon the right of way of the Columbia River Highway between the existing underpass under said Columbia River Highway at approximately Highway Engineer's center-line Station 521+25 and the Crown Point Secondary Highway at any place thereon southerly of Highway Engineer's centerline Station 27+60.

4. That the construction, reconstruction, improvement and maintenance of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Staff Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

7. That this resolution be entered in full in the minutes and records of the Commission this 12th day of September, 1957, as Condemnation Resolution No. 863.

28960

EXHIBIT "G-12"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right of interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening straightening or otherwise changing any highway, road or street, quarry sites, gravel pits, storage sites, stock pile sites, or for the acquisition or manufacture of roadbuilding materials, approach or hauling roads, connecting roads, frontage road, highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways, or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire certain real property for the acquisition of roadbuilding materials for use in connection with the construction and maintenance of highways of the state highway system; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "G-12" (Cont)

2. That the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 864.

*FOOTNOTE

The name of the property owner and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem being Resolution No. 864, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28962

EXHIBIT "G-13"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the State Highway Commission plans and proposes to relocate, construct, improve and maintain the Valley Junction-Sheridan Section of the Salmon River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location,

EXHIBIT "G-13" (Cont)

relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, relocation, construction, improvement and maintenance of the said Valley Junction-Sheridan Section of the Salmon River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Salmon River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Valley Junction-Sheridan Section of the Salmon River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "G-13" (Cont)

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 865.

* FOOTNOTE:

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 865, under the heading "Real Property Comdemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-14"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway, and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance

EXHIBIT "G-14" (Cont)

of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled, as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list, marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the continguous real property of the respective owners remaining after the appropriation of the said real property where specified on the attached list, marked Exhibit "A", there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Willowdale-Lyle Gap Unit, Willowdale-Madras Section of The Dalles-California Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a

EXHIBIT "G-14" (Cont)

manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 866.

*FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 866, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28968

EXHIBIT "G-15"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites, weighing stations; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the North Santiam Highway; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The State Highway Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said North Santiam Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reverence hereby adopted

EXHIBIT "G-15" (Cont)

and made a part hereof as completely and fully as though set forth herein in full. *

2. That the widening, improvement and maintenance of the said North Santiam Highway and the highway facilities for which each of the said parcels of real property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 868.

*FOOTNOTE

The names of the porperty owners and the detailed descriptions of the parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution 868, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

28970

EXHIBIT "G-16"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 347, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, located, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway, and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goble-St. Helens Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of

EXHIBIT "G-16" (Cont)

land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway, as a throughway certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted.

3. That the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property or interest therein is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said

parcels or real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 869.

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 869, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-17"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to improve and maintain the Eckman Slough Section of the Alsea Highway; and

WHEREAS, for the purpose of improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the improvement and maintenance of the said Eckman Slough Section of the Alsea Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the improvement and maintenance of the said Eckman Slough Section of the said Alsea Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being

EXHIBIT "G-17" (Cont.)

taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 872.

---

* FOOTNOTE

The names of the property owners and the detailed description of the parcel of real property mentioned in this resolution, together with map, is attached to the original resolution on file in the office of the State Highway Commission, Salem being Resolution No. 872, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-18"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Pleasant Hill-Creswell Section of the Springfield-Creswell Highway; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Pleasant Hill-Creswell Section of the Springfield-Creswell Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked "Exhibit A" under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "G-18" (Cont.)

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked "Exhibit A", no rights of access of any nature between the right of way of the said relocated Springfield-Creswell Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked "Exhibit A" there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Pleasant Hill-Creswell Section of the said Springfield-Creswell Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 873.

---

*FOOTNOTE

The names of the property owners and the detailed descriptions of the several parcels of real property mentioned in this resolution, together with maps, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 873, under the heading "Real Property Condemnation Resolutions," and said descriptions, maps, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-19"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening, or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stockpile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, located, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East); and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-19" (Cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East), as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway (formerly Pacific Highway East) and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Albany-Judkins Point Section of the Pacific Highway (formerly Pacific Highway East) and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "G-19" (Cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 874.

EXHIBIT "G-20"

Minutes of September 12 and 13, 1957

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 347, Oregon Revised Statutes, the Highway Commission ia authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goble-St. Helens Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

EXHIBIT "G-20" (Cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled as specified.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway, as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be, and there shall be, where specified in the attached list marked Exhibit "A", no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property. Where specified on the attached list marked Exhibit "A", there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted. *

3. That the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property or interest therein is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "G-20" (Cont.)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 13th day of September, 1957, as Condemnation Resolution No. 875.

---

*FOOTNOTE

The name of the property owner and the detailed description of the parcel of real property mentioned in this resolution, together with map, are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 820, under the heading "Real Property Condemnation Resolutions," and said description, map, and plans by this reference are made a part of this minute entry to the same extent as if copied in full herein.
